TO : Ministry of War.

Reference your letter of 21 Sept 1944 1001/S/1.

1. It is directed that all flour received from Allied sources will be accepted and registered exactly as to the net weight shown on the sacks. Any sack, that has been damaged in transit, will be weighed and the contents accepted and taken on charge after weighing.

2. We hope that this will clarify the matter of weights concerning flour for you, and ask that you please send copy to this office of the instructions you pass on to the depots confirming the fact that the flour will be taken on charge as mentioned in Par. 1 of this letter.

Further to agreements made with MMLA, we establish that the sacks of flour which are consigned directly by Allied Authorities to Italian Food Depots, are, as a general rule, to be taken on charge at the net weight shown on said sacks.

If the sacks are consigned in a damaged condition and if they are deficient in weight, they should be weighed and the contents taken on charge at the effective net weight.

The Allied Authorities who effect the supplies have already received instructions in regard to the matter.

Ministry of War.

Copy to:- MMIA LO SARDINIA.

1. MMIA LO SARDINIA has advised this Headquarters that the wine ration is not being made available to troops in SARDINIA.

2. An inspection of the 59th Infantry Regiment on 17 Aug indicated that the unit was receiving one (1) litre of wine per week (representing two days' ration) and fifteen (15) lire per day monetary allowance for remaining five (5) days. A similar situation exists for all units in SARDINIA.

3. It was further reported that the average price per litre of wine in SARDINIA is sixty (60) lire.

4. It is obvious from the above that the War Ministry has not complied with its responsibility of supplying the established ration of wine.

5. This situation can not be tolerated.

6. Your alternatives are:

a. increase monetary allowance for purchase of wine in order that each soldier will receive his full entitlement of one half litre daily;
b. procure, by requisition, sufficient wine on the Island;
c. arrange shipment of wine from the Mainland or Sicily to meet requirements.

7. Failure to make wine available to your troops is a failure of contract to comply with the provisioning of your portion of the ration.

TO : Commanding General, Land Forces Sub Comm. AC (MMIA) Rome.

1. In compliance with your SF/218 subject Issue of Wine to Troops dated 10 August 1945 have this date received the above report from the Commissary Section Sardinia.

2. a. Invite your attention to our signal Y 170 of 15 March 1945.

b. By 1st indorsement of 31 March 1945 to your SF/63 to Ministry of War, subject Shipment of Wine to Sardinia from Mainland, dated 28 March we forwarded same to Commanding General Italian Forces in Sardinia for information and necessary action, on 31 March 1945.

3. Inspecting the 50th Infantry Regiment 17 August, I discovered that they issue 1 litre of wine per week or for 2 days, and 15 lire per day monetary allowance for other 5 days. The average price for wine is 60 lire per litre, therefore for 5 days per week they only have sufficient money to buy $\frac{1}{4}$ the amount alloted. I advised them that the men were entitled to $\frac{1}{2}$ litre per day.

Reference this HQ letter Q/2/3 dated 19 Mar 45 authorising the supply on repayment from EFI of certain toilet articles to Combat troops.

It has been decided that, with the end of hostilities in ITALY, it is no longer necessary to maintain the distinction between Combat and Service troops of the Italian Army, and that the responsibility for the provision of toilet articles should revert to the Italian Government.

The Authorities quoted in our letter under refererence, therefore, will be considered as cancelled wef 1 SEP 45.

You are requested to ensure that issues for August are drawn before the end of the month and the EFI Forms MMIA 25 are completed and forwarded to this HQ.

1. The writer must draw at the Local Tobacco Plant 35 quintals of National Cigarettes as per MMIA letter R/9 of 20 July and R/9 of 3 August 1945. #49 #58

2. As of 5 August, there were in the Depots 91 quintals of tobacco that with the present ration of (50 cigarettes per week are enough for about 130 days).

3. So to avoid possible alterations of the tobacco, please notify us if we have to draw the above quantities. We suggest you authorise the issue of cigarettes upon payment, therefore the number of days for which there are cigarettes would diminish.

3. The 2,647 bread and flour rations recovered at the Cagliari Bakery which is in accordance to 3,111 rations recovered at Cagliari Distributing Depot because all units do not draw the bread ration.

4. Our letters R/D of 10 and 15 September with appendicies "A" "B" and "C" attached indicated that 12,199 rations had been recovered during period 21 August - 5 September. You will note by attached appendicies "A" "B" and "C" that 5,253 rations have been recovered during period 6-20 October, for a total of 17,552 rations, leaving a balance of 141 rations to be recovered, but due to small number involved and the impracticability of making an equal distribution of recovery, recommend that MMIA authorize no more rations to be recovered.

LESTER R. ALBERT,
Lt. Colonel, Infantry,
Senior Liaison Officer.

TO : Commanding General, Italian Forces in Sardinia.

1. In accordance with paragraph 4 of our R/9, subject as above, dated 30 August 1945 (not to MMIA), you will continue the reduction of Italian Army rations, less CC.RR, at the rate of 10% for the period 6-20 October 1945, in order to recover the remaining 5,494 rations in accordance with instructions given in MMIA letter G/1/29-156 of 27 July 1945.

2. You will note by inclosed appendicies "A" and "C" (additions) and appendix "B" (previously submitted) that 12,199 rations have already been recovered in period 21 August - 5 September, leaving 5,494 rations to be recovered. Computing 10% for period 6-20 October, based on average ration strength for period 21 August - 5 September, will give 5,715 rations.

3. The same certificates will be placed on the back of the ST/S's as instructed in paragraph 3 of MMIA letter G/1/29-172 of 24 August 1945. You will mark the ST/S's at the top in parenthesis "less 10%".

4. The 6,578 bread and flour rations recovered at the Cagliari Bakery which is in accordance to 7,186 rations recovered at Cagliari Distributing Depot because all units do not draw the bread ration.

G/2 10 September 1945

SUBJECT: Recovery of Rations.

TO : Commanding General, Italian Forces in Sardinia.

1. In accordance with paragraph 4 of our G/2 subject as above dated 30 August 1945 (not to AMMA), you will continue the reduction of Italian Army rations, less CC.RR, at the rate of 10% for the period 6-20 October, in order to recover the remaining 7687 rations in compliance with instructions given by AFHQ letter G/1/20-158 of 27 July 1945.

2. You will note by inclosed Appendix A, B and C that 10000 rations have already been recovered in period 21 August - 5 September. Computing 10% for period 6-20 October based on the average ration strength for period 21 August - 5 September, will give approximately the number of rations still to be recovered.

3. Instructions given in AFHQ letter G/1/20-158 and our ind. thereto regarding attached certificate etc will be complied with, except you will mark in parenthesis "less 10%" at top.

4. The 8574 bread and flour rations recovered at the Cagliari Bakery which is in accordance to 7877 rations recovered at Cagliari Distributing Depot because all units do not draw the bread ration.

SUBJECT: Unauthorized Issue of Rations - Sardinia

LAND FORCES SUB COMMISSION
A.C. (M.M.I.A.) R O M E
Q/1/29-155
27 July 1945

TO : Ministry for War

1. During the checking of Ration Issue Notes it was discovered that rations have been drawn by "COMPAGNIA AUT. COMPLEMENTI, COMANDO", Sardinia for Italian Military personnel on leave for the period 6 May through 6 June 1945 in the amount of 17,693 rations.

2. Ration Issue Notes prior to 1 May do not give sufficient details to ascertain if rations were issued to men on leave, since instructions covered by our Q/1-77 dated 7 April 45, subject, "Drawing of Rations for Attached Personnel", had not reached Sardinia and therefore the attached personnel were not shown on the reverse side of the ST/S. Apparently unauthorized issues were made prior to the issues mentioned above.

3. The unit, "COMPAGNIA AUT. COMPLEMENTI, COMANDO", which was never authorized, was disbanded by instructions from this Headquarters, our A/130/1 of 1 June 45.

4. The issue of army rations to Italian Military on leave has never been authorized, but on the contrary has been specifically prohibited.

5. The responsibility for the unauthorized issue of these rations rests on the Commanding General in Sardinia. The fact that the issues were made to members of units that were stationed on the mainland, was sufficient information for the Commanding General to know that the personnel were on leave. It is apparent that the issue of the rations was not checked by the responsible individuals of the Italian Army in Sardinia, or the directives concerning the prohibition of issue of rations to Italian personnel on leave were deliberately and intentionally disregarded

6. Therefore beginning on August 15, 1945 and continuing for seventeen days thereafter, the rations issued the authorized Army garrison units (less CC.RR) in Sardinia (approximately 5,200 ration strength) will be reduced 20% per day (1040 X 17 equals 17,680).

a. This reduction will be accomplished as follows: 1668

(1) Rations will be issued only on written certificate signed by the Commanding General, Sardinia, showing (1) effective strength and (2) ration strength. This certificate will be attached to the ST/S submitted by the unit to the Commissary.

(2) The Commissary will issue rations to the unit based on 80% of the ration strength.

1696

Declassified E.O. 12356 Section 3.3/NND No. 785020

(3) The Commissary will deliver all of the ST/S's with the certificate of strength attached, to the MMIA LO Sardinia at the close of business each day.

(4) At the end of 17 days, Hq MMIA will consolidate all ration returns for the period to insure that the required number of rations have been actually saved.

7. You will issue necessary instructions to the Commanding General, Sardinia as outlined above, and send a copy of the instructions you issue to this Headquarters.

8. Attention is again directed to the fact that the unauthorized issue of rations and losses incurred by thefts, and misappropriation will be recovered by a reduction in the Ration Scale of the Italian Army.

1. Forwarded for your information and strict compliance.

2. The date for beginning the reduction of issue will be 21 August 1945 instead of 15 August.

3. Wish to invite your attention to para. 3 of the basic communication. Greater care must be taken to avoid losses as all such losses will be recovered by a reduction in the Ration Scale of the Italian Army.

Ministry of Marine.

1. In view of the responsibility of the Military Mission Italian Army for the Bulk Supplies of foodstuffs to all Italian Armed Forces, it is considered desirable to inspect Italian Bulk Naval Depots from time to time and to observe on the actual stocks held.

2. The Navy Sub Commission AC in their letter NAV/2752 dated 25 June 45 have requested the Ministry of Marine to offer facilities to NMIA 10's to carry out these inspections and to furnish the visiting officer with (a) the number of personnel victualled from the base, (b) stocks of food held on charge at the time.

3. It is particularly stressed that the 10's should not issue corrective orders at the time of their visit but submit a report to this HQ in duplicate so that any matter may then be brought to the attention of the Navy Sub Commission.

4. Depot Commandants will no doubt appreciate advice on depot organisation, standing and general care of foodstuffs, but these matters should be reported as in para 3 above.

5. Italian Naval Navy Bulk Food Depots are situated at TARANTO, BRINDISI, BARI, NAPLES, LA SPEZIA, VENICE, MESTRE, CAGLIARI and MADDALENA.

6. Reports should be rendered on usual Depot Inspection Form not less than once a month.

7. It is hoped that the above inspection will prove of mutual assistance and that any problems experienced by the Navy can be ventilated direct to the source of supplies. 1054

8. Addressees will be responsible for inspection of Depots underlined.

TO : Addresses Omitted.

MMIA has introduced a new policy as far as the Analysis Commission decisions are concerned.after the Commission has verified the spoiled conditions of the food inspected.

At present the spoiled food is destroyed through fire or other means so that they will not reach the black market.

Considering that the above items although not fit for human consumption could be used for other purposes, the LO's and the Allied officers of the Analysis Commission have been given authority to sell the items to civilian firms so to use the fat contents or feed the animals.

When the above officers approved the sale, the Italian authorities Commissary Section or Commissary Directors will make a special statement that will be attached to the Analysis Report. This certificate will indicate clearly that the items sold will be used only for the purposes indicated by the Commission and will not be used for human consumption.

A certificate of this kind will be attached to the contract by the buyer.

The organizations in the address will get in touch with the Liaison Officers and will take the necessary steps so to reach without any inconviencies the purposes for which the present directives are given.

OGGETTO: utilizzazione viveri avariati.-

.....INDIRIZZI OMESSI.....

^^^^^^^

La Land Forces Sub Commission ha inteso introdurre un nuovo indirizzo per quanto attiene ai provvedimenti da adottare dalle Commissioni di Analisi dopo aver accertato l'avaria dei generi alle stesse presentati.

In base all'attuale procedura i viveri riscontrati inadatti al consumo umano vengono passati alla distruzione mediante fuoco ed altri mezzi, allo scopo principale di evitare la loro immissione al mercato nero.

Tenuto conto che i predetti generi, benchè incommestibili per il consumo umano, possono tuttavia trovare altro utile impiego è stata concessa agli Ufficiali di Collegamento (L.C.) e agli Ufficiali Alleati membri della Commissione d'Analisi la facoltà di autorizzare la vendita a contraenti civili per l'utilizzazione del contenuto in grassi ovvero per l'alimentazione del bestiame.

Qualora i predetti Ufficiale si avvalgono della facoltà concessa, l'Autorità Militare Italiana (Direz. Comm/to o Sezioni Comm/to) dovrà rilasciare apposito certificato (da unirsi al verbale della Commissione d'Analisi), in cui sarà dichiarato che i generi saranno messi in vendita con l'obbligo da parte dell'acquirente di impiegarli nel modo stabilito dalla Commissione e non immetterli al consumo umano.

Una dichiarazione in tal senso rilasciata dall'acquirente dovrà essere allegata all'atto di vendita.

Gli enti in indirizzo sono incaricati di prendere opportuni contatti con gli Ufficiali di Collegamento L.O. per l'attuazione di quanto sopra e di adottare tutte le misure necessarie affinchè siano raggiunti senza inconvenienti gli scopi cui mirano le presenti disposizioni.-

1. Several instances have occurred in the proceedings of Analysis Commissions for the condemnation of deteriorated foodstuffs wherein certain food has been found unfit for human consumption; however, the foodstuff may be put to other use.

2. Normal procedure for disposition of foodstuff found unfit for human consumption is destruction by fire or other means. The primary purpose of this procedure is to ensure that condemned foodstuff does not become available for human consumption or the black market.

3. Authority is delegated to the MMIA LO or Allied officer member of the Analysis Commission to authorise that condemned foodstuffs be sold to civilian contractors for utilisation of fat content of foodstuff or for use as animal feed.

4. No credit will be given to the Italian Government for foodstuffs disposed of in this manner.

5. Italian military authorities involved must certify that the foodstuffs will be disposed of in the manner agreed by the Analysis Commission and that the foodstuffs will not be utilised for human consumption. This certificate will accompany the report of the Analysis Commission.

1. It is observed that the amounts of tinned commodities, more especially P Meat 12 oz. tins, being brought before Analysis Commissions for condemnation are increasing.

2. During a recent inspection of stocks of P Meat held at a Distribution Depot, the worst samples of rusty and discoloured tins were opened. Whilst the top of the meat appeared to be slightly discoloured, a thorough examination revealed the contents to be perfectly fresh and fit for consumption.

3. It is thought that some units might not be making a sufficiently thorough inspection of tins opened and having noticed that the appearance of the top of the contents is slightly discoloured, have discarded the whole unnecessarily, and by the time the items are brought up for condemnation they have become completely decomposed. In case of doubt, the opinion of a Medical Officer should always be sought.

4. Would you please issue the necessary instructions that the contents of all tinned commodities of doubtful quality will be thoroughly examined by an officer who will decide whether or not they are fit for consumption.

TO : AMMA Liaison Office for Sardinia (Ref. ltr. F/S of 7 August 45) Cagliari

INFO : Provincial Office for Sardinia (Ref. ltr. 3526/Serv. of 10 August 45) Cagliari

In accordance with your instructions to issue the complete soap ration, the writer has appointed a commission to establish the average shrinkage and find out the additional individual ration to issue to each man for the month of August.

The average shrinkage as shown on the attached report is 45 grms per ration. We have ordered an additional ration to be issued. The difference between the data indicated in your letter and the present is due to the fact that the units were authorized to accumulate the individual rations so to have some soap to use for the shave, washing etc. Therefore, did not issue the complete ration was received from the Commissary Depots.

The writer has given instructions to issue the complete ration from now on without keeping any soap aside.

REPORT ON SHRINKAGE OF SOAP

As of 13 August 1946, the below signed Commission, ordered by the Commissary Section, has gathered in the Distributing Depot to establish the average shrinkage of the soap and find out the difference be issue to the soldiers according to AMA orders, for the month of August so to reach the full ration of 250 grams per man.

The individual ration issued by the Depot is of:

200 grams "Lo Faro" soap in pieces of 100 grams nominal.
50 grams "Lavenda"face soap in pieces of 100 grams nominal
(Total 250 grams nominal)

The Commission has accurately weighed a few times the following quantities of body and face soap.

A. Soap "Lo Faro" in pieces of 100 grams nominal
100 pieces gross weight 14 kgs net weight 12.900 kgs shrinkage 1.100 kgs
100 pieces gross weight 14 kgs net weight 12.900 kgs shrinkage 1.100 kgs
300 pieces gross weight 28 kgs net weight 22.00 kgs shrinkage 6.000 kgs
Tot.400 pieces gross weight 56 kgs net weight 47.800 kgs shrinkage 13.200 kgs

Average net weight of a piece 47,800 ÷ 400 = 100,5 grams
Average shrinkage for each piece 13,200 kgs ÷ 400 = 30,5 grams
Average shrinkage on the basis of the weight by name of the individual ration is: 100 ÷ 30,5 = 200 ÷ x = 63.5 grms.

B. Face soap "Lavenda" in pieces of 100 grams nominal
100 pieces gross weight 10 kgs net weight 9.730 kgs shrinkage 0.270 kgs.
100 pieces gross weight 10 kgs net weight 9.410 kgs shrinkage 0.590 kgs.
200 pieces gross weight 20 kgs net weight19.375 kgs shrinkage 0.625 kgs.
Tot 400 pieces gross weight 40 kgs net weight38.515 kgs shrinkage 1.485 kgs.

Average net weight of a piece 38.515 ÷ 400 = 96.2 grams
Average shrinkage for one piece 1.485 kgs ÷ 400 = 3.7 grms
Average shrinkage on the basis of the weight by nominal of each ration of 50 grms is 3.7 ÷ 2 = 1.8 grms.

The total shrinkage on the full ration is therefore 65.3 grams (63.5 + 1.8) This additional ration will have to be issued for the month of August to complete the full ration of 250 grams net weight. This report is for all men.

In relazione al V/ ordine di distribuire la razione del sapone a peso reale, la scrivente ha disposto la nomina di apposita commissione per stabilire il calo medio del genere e determinare quindi la aliquota individuale dovuta a saldo per il mese di agosto 1945.

Il calo medio per razione è di gr. 45 come risulta dal verbale allegato; è stata ordinata la distribuzione suppletiva a persona di tale quantità.

La differenza risultante con il dato indicato nella V/ lettera deriva dal fatto che i reparti erano autorizzati ad effettuare delle economie sulle spettanze individuali per avere un margine da impiegare per le maggiori necessità dei cuochieri, operai ecc.; perciò non distribuivano integralmente la razione come avuta dai Magazzini di Sussistenza.

La scrivente ha disposto che ai militari sia d'ora innanzi distribuita la razione integrale senza fare luogo alla trattenuta di nessuna quota.=

VERBALE ACCERTAMENTO CALO SAPONE

L'anno 1945 addì 13 del mese di agosto in Cagliari

S I A N O T O

- Che la sottoscritta Commissione, nominata dalla Sezione Autonoma di Commissariato Militare della Sardegna si è oggi riunita presso il Magazzino Militare Distribuzione Viveri di Cagliari per stabilire il calo medio subito dal sapone, e determinare la differenza che deve essere distribuita ai reparti in seguito ad ordine della M.M.I.A. -Ufficio Collegamento per la Sardegna- per spettanza agosto 1945 ad integrazione della razione nominale e per raggiungere il peso reale di gr.250 a persona.

Si premette che la razione individuale distribuita dal Magazzino è costituita da:

gr.200 nominali di sapone "Lo Faro" in pezzi da gr.140 nominali.
gr. 50 " saponette "Masedu" in pezzi da gr.100 nominali
(totale grammi 250 nominali).

La Commissione ha provveduto al prelevamento dalla massa dei seguenti quantitativi di sapone e saponette che sono stati pesati, in varie volte con bilancia ripetutamente controllata e campionata a zero, ottenendo i risultati sottoindicati:

A) Sapone "Lo faro" in pezzi da gr.140 nominali:

According to instructions given by PCTA, from now on the ration allowed to each soldier is of 250 grams (effective ration) that is 200 grams of laundry soap and 50 grams of face soap.

The depots will issue immediately, for the present month of August 25 grams of soap so to make up the balance on the quantity already issued.

The Food Section will regularize the difference of the quantity with proper reports.

The Food Depots will issue immediately bottom.

The headquarters to which the present is forwarded will notify to the units so to issue the quantity due to each one.

You will also issue to each soldier the complete ration without any regulation any for goods or other uses.

Therefore the order with which the units were authorized to accentuate on the soap ration is intended to be revoked.

We took notice of what was ordered in your indorsement and R/9 dated 30 July and we assure ocapliance.

We call to your attention that the issue of soap is made on the first of the month. Therefore when we got your order the units had already drawn the ration of soap for August as usual.

We do not know the weight of the soap issued to each unit because of the different weight of the pieces and therefore we can not know the quantity of soap to integrate the ration.

Therefore, please authorize that the above order be delayed until the next issue of soap in September.

2. You will, without delay, issue the balance due each person for the month of August. 165 grams is not sufficient. You can estimate the amount due each for August.

3. It is apparent you are ever ready to issue unauthorized rations of Allied items but reluctant to issue the Italian items as directed.

SUBJECT :- Soap Ration Weight.

The SARDINIA Territorial Office HQ states having received instructions from the local M/IA Liaison Office to issue soap to units on the scale of 250 grams weighed when dry.

Concerning this we point out that the soap issued to the military, which at present is similar to that supplied to the civilian population, must be of the following chemical compositions:

Water	30 - 35%
Acid Fats	60 - 62%
Total alkali	7 - 7½%

It is deduced by this that all soap at the time of the check showing a water content, within the a/m limits, is accepted and issued to military stores.

Further, the soap is divided in 200 grams and 100 grams cakes whose weight having been ascertained at the time of checking represents the nominal weight both for issue to units and for accounting purposes of the stores issuing it.

It is clear now, that these cakes of soap while in storage, continue to dry up losing weight, but the loss, that is brought about in such a way does not lessen its cleansing properties as the quantity of acid fats contained in it, to which is owed the cleansing properties remains unchanged.

It would be therefore exaggerated, in our opinion, after the latter and uncertain drying dependent on the length of time held in storage in military stores, to issue the soap at the weight it possesses at the time of issue to the military, due to the fact that, so doing, the weight to which they are entitled would be indirectly increased with a consequent greater consumption of cleansing chemicals, not permitted by the strict rationing and the allotment granted up to date by the Industry and Commerce Ministry, on the basis of a need corresponding to the ration previously laid down. In summing up, should we, infact increase the weight of the ration and therefore regarding soap supplies we should have to bear in mind not the weight of the quantity corresponding to the weight of the ration laid down, but of a quantity varying depending on the length of time this is held in military stores.

Therefore, we beg you to issue the necessary instructions to your own liaison office in SARDINIA in order that they may take the necessary steps to cancel the order and ordering that the a/m soap continues to be issued at the nominal weight of each bar.

This Ministry cannot adhere to the request made by your Section because as you have also stated, the cleansing power of the soap remains unchanged, even if it does lose its water countenancy. Therefore, it is not necessary to reintegrate the units of the quantity which this item shrinks of.

You must note though:

that the soap that they are making now contains more fats (CC-C2F) than that which is being issued. It is a much purer soap and of a greater yield.

that the monthly soap ration authorized as per Circulars 1070/S/1 dated 17 February 1945 and 4420/S/1 dated 20 February 1945 is of 250 grams and not 200 as you have indicated in the letter which I am replying to.

ALLA REGIONE AUTONOMA DI COMM.RIO MIL.
CAGLIARI

^^^^^^^

Questo Ministero non può aderire a quanto richiesto codesta Sezione in quanto, come rileva codesta Sezione stessa, il potere detersivo del sapone rimane immutato, indipendentemente dalla perdita del suo contenuto di acqua.- Pertanto non si rende necessario reintegrare i reparti prelevanti del calo di prosciugamento subito dal suddetto genere.

Giova qui osservare al riguardo:

- che il sapone attualmente in corso di fabbricazione possiede un tenore di acidi grassi (60-62%) superiore a quello che attualmente è in distribuzione.- Trattasi quindi di un genere più puro e di maggiore resa;
- che la spettanza mensile stabilita con le recenti circolari 1070/S/1 del 17/2 u.s. e 4420/S/1 del 20/2 u.s. è di gr.250 e non di 200, come appare indicato nel foglio a cui si risponde.-

HEADQUARTERS
CAGLIARI I.S. DIVISION

N. 1527/C-S/Op. 5 July 1945

SUBJECT: Supplies in Excess.

TO : U.N.R.R.A. Liaison Office Cagliari

In reply to your letter R/9 dated 2 July 1945:

1. The stock of dehydrated potatoes was due to the fact that the Commanding Officer of the unit, having a certain amount of fresh potatoes (received from the War Garden) had used up the fresh ones so not to spoil them. His intention was that he would issue the dehydrated potatoes in a larger measure when he no longer had fresh potatoes.

2. The dehydrated beets were left over because they were not liked much by the troops and therefore not the whole ration was used. This happened before the instructions were given to completely use the rations.

3. The surrogate (coffee substitute) was stored because the civilian ration of 5 grams of sugar for soldiers with civilian rations is not enough to sweeten the whole ration of 15 grams surrogate. Therefore the Commanding Officer gave instructions to use only a part of the surrogate so that the beverage would be more appreciated by the troops.

4. I have punished the responsible officers because they did not obey the orders to not build up any reserves of supplies from military rations and I have given instructions to turn the rations in as ordered.

NOTES OF TECHNICAL DATA ON SUPPLIES

1. PARIS GREEN.

(i) This commodity is normally packed in steel drums. It is commonly shipped, into or within the theatre, as deck cargo, and may therefore have been exposed to salt spray. When PARIS GREEN drums commence to rust, it is found that corrosion developes rapidly, leading to perforation of the drums and weathering of contents. Stocks should be examined for corrosion, and any perforated drums found repacked into suitable closed containers, or issued immediately. The contents of badly weathered drums may require sorting.

(ii) PARIS GREEN is fit for issue if it is bright green in colour, is not dull or chalky in appearance and if it forms a fine mist when falling through the air. A further test is to sprinkle lightly a little of the powder into water. This should form a film on the surface, and should not sink immediately. Stocks not conforming to these tests should be referred to an Analyst.

2. CHEESE FRESH - NEW ZEALAND.

Receipts of this commodity are reported as containing very few mites, but that mould growth is commencing. Stocks should be examined, and mouldy cheese segregated for early issue.
Fresh cheese must be stacked in a cool, dry, well-ventilated store, crates preferably not stacked more than two high.
It is essential that the cheeses are turned over, i.e. inverted, at least once per week, or more often during the hot season.

3. CHEESE, FRESH.

The following points should be noted regarding the keeping and hardening of Fresh Cheese.

1.(i) Fresh Cheese is usually packed two cheeses in a wooden cylindrical crate weighing approximately 160 lbs. The crates are apt to break with rough handling and must be carefully repaired before storing or despatch.

(ii) All Fresh Cheese must be kept in a cool atmosphere, excessive dampness being avoided. The keeping properties will largely depend on the temperature at which it is kept. Every effort will therefore be made to store it in as cool a place as possible.

(ii) All Fresh Cheese must be kept in a cool atmosphere, excessive dampness being avoided. The keeping properties will largely depend on the temperature at which it is kept. Every effort will therefore be made to store it in as cool a place as possible.

(iii) Owing to the odour which is given off, it must be segregated from all commodities likely to become contaminated, particularly fresh supplies with a large fat content, such as meat, etc. Cheese will also absorb any pungent smell and should therefore be kept away from Fresh Fruit, etc.

(iv) Fresh Cheese may be kept in Cold Store at a temperature of 35/38° F., but on no account must it be frozen, i.e. kept below 32° F. Only chambers with a forced draft circulation will be used unless direct expansion piped chambers are provided with drip trays.
Although dampness must be avoided, the relative humidity should be 85% which is slightly higher than for Frozen Meat. The keeping properties will very considerably with the type and condition upon arrival at the Stores, but 4/6 months should be an average period.

(v) When placing in a Cold Store chamber or Warehouse, Fresh Cheese will not be stacked more than two crates high, dunnage being used on the floor.

.....2

Declassified E.O. 12356 Section 3.3/NND No. 785020

(vi) In hot climates, the fat content tends to fall to the bottom of the cheese and ooze out, leaving the upper part in a dry condition. All cheeses will therefore be turned over, i.e. inverted, at the following intervals:

(a) If in Cold Store at 55 - 58°F. once every 3 months.

(b) If in a cool cellar or warehouse, once every 2/3 weeks.

(c) At room temperature once every 7 days.

2.(i) During the very hot weather, all fresh cheese should, if possible, be transported in refrigerator rail wagons, if the journey is expected to be of more than 12 hours duration. It is realised that this dependent on the availability of these wagons, and if they are used, a quick turn-round is essential.

(ii) Wagons will be iced in a similar manner to Frozen Meat except that salt will not be mixed with the ice.

(iii) Fresh Cheese will receive the same priority of movement as Frozen Meat.

(iv) Great care must be taken to wash and clean out all reefer wagons immediately Fresh Cheese is off-loaded. If this is not carried out, any fresh supplies subsequently loaded into the same wagons will become contaminated with the odour.

All Supply Units concerned will make arrangements for the storage of Fresh Cheese, with particular reference to the points enumerated above.

Issues of Fresh Cheese should always take preference over Tinned Cheese, except where otherwise advised by Analyst in cases where Tinned Cheese requires immediate issue.

4. FLOUR - AUSTRALIAN.

(i) Recent receipts of Australian flour have proved to be rather 'soft' for breadmaking, producing slightly 'runny' doughs, and close textured bread. These faults can be rectified by mixing 50% Australian flour with the same amount of Canadian before dough-making.
The Australian flour is of excellent quality for general issue as Flour, Culinary.

(ii) Australian Flour should, therefore, be issued on the following basis:-

(iv) The flour is packed in bags marked '150 lbs gross weight when packed' in addition to the name of the firm. The average nett weight of a bag of this flour is 147 lb, on which figure accounting and issues should be based.

5. MEAT PRESERVED.

(i) P Meat especially in 12 oz. tins, should now been surveyed by examining the tins in a few cases representative of each parcel of stock.
Faults to look for are as follows:-

(a) Mouldy or bleached labels.
(b) Corroded or rusty tins.
(c) Presence of "hollow taps".
(d) Blown or "puffy" tins.

Mouldy or bleached labels indicate wet conditions of storage. The condition of the label does not necessarily affect the fitness of the stock for issue, but the tins should be regarded with suspicion until further examination has been made. Frequently, tins with such labels are free from widespread rust, but have badly rusted seams or small pinhole rusting of the tinplate which may have penetrated to the interior of the can and thus caused spoilage of the contents. Careful examination is necessary in sorting out spoiled tins. Early issue should be given to sorted stocks.
Corroded or rusty tins. Extensive corrosion and rusting of tins should be referred to an Analyst.
"Hollow taps". A can of P Meat in good condition has slightly concave sides, due to the vacuum which the tin should contain. When the sides of the tin are rapped with the knuckle, a dull sound is produced. Reliable results are not given by tapping the ends of the tins as the sound produced varies with the headspace, i.e. whether the meat is in contact with the tin or not.
A tin of P Meat which produces a hollow or 'tinny' sound when tapped may be defective.
Any stock of P Meat in 12 oz tins, in which more than 4-5% of "hollow taps" is present (i

Blown or 'puffy' tins. Blown tins need no description. 'Puffy' tins are those which have slightly convex sides, but are not hard. The contents of these tins are not fit for consumption, and should not be issued.

1507

(ii) P Meat in 6 lb tins does not always respond reliably to the 'Hollow Tap' test.

Some stocks of P Meat in 6 or 2 lb tins have recently been found to contain an undue proportion of 'hollow taps', internal staining and pinhole corrosion of the tinplate. Stocks of P Meat in 6 and 2 lb tins should therefore be examined by an Analyst.

Stocks affected include:-

Swift's 'Plate' Brand	-	6 lb tins
Swift's 'Plate' Brand CAP Libby McNeall & Libby	-	2 lb tins

6. MACARONI.

Macaroni is being produced and stored by the Allies for issue to Italian Forces. Two types of Macaroni are being made:-

Short form	packed in sacks
Long form	packed in Liburite cartons

Both types must be stored on good dunnage in covered accommodation, and precautions taken against damage by rodents or infestation by insect pests.

No. 1/5528/V 22 June 1945

SUBJECT: Italian Air Force Rations.

TO : M.M.I.A. Liaison Office Cagliari

1. For the fifteen day period 21 April - 5 May 1945, the War Ministry with signal 6463 dated 21 April 1945 ordered the issue of 2033 rations to the Italian Air Force. Later the War Ministry with signal 8634 dated 21 April reduced the rations to 1607.

2. This office, after communication was received of the Italian Air Force ration strength, issued 1983 rations, during the fifteen day period 6-20 May; 296 rations daily were recovered equal to 4440 rations in fifteen days.

3. The War Ministry with signal 10919 dated 4 June 1945, has revoked the order to reduce the ration strength bringing it up to 2033 again.

Considering that from the date on which the War Ministry has ordered the reduction in the number of rations to be issued to the Italian Air Force almost two months have past; and that is a length of time that would make you think that the Italian Air Force has easily looked after its own rationing without the need of this restitution of rations. I wish you would inform me whether or not I should comply with the orders given by the War Ministry.

At the main Food Depot of the Air Force, there is about 50 quintals of double tomato extract, most all decayed, and only a small quantity could be recovered.

According to the known instructions, said tomato extract was supposed to be turned into the Army Food Depots, but so far only the ones still in good condition were withdrawn.

Due to the necessity of using the limited quantity which will be recovered, and in order to avoid further decay of said tomato extract it is recommended that the selection be made directly at the Air Force Depot and which will either distribute the quantity recovered directly to the dependent units or will withdraw for an equal amount from the Army Depot.

SUBJECT: Sugar with Salt.

Reference is made to phonogram 3546 dated 11 July 1945.

We specify that the sugar turned in recently by this Headquarters to the Bulk Depot, belonged to the same quantity that was issued for over two years to all the Air Force Units concerned.

For all this period and during all the issues made, no salted sugar was ever found.

There is therefore, no reason to believe that the salt was mixed before with the sugar instead of after. It anyway should have been checked when turned in when all the quantity was put in other sacks by the Army depot.

Si fa riferimento al fono 3546 dell'11 corr. Si precisa che lo zucchero italiano recentemente versato da questo Comando presso il Magazzino Speciale Viveri R.E. apparteneva allo stesso quantitativo che da oltre due anni veniva distribuito a tutti gli Enti Aeronautici dipendenti.

Per tale periodo di tempo e per tutte le distribuzioni effettuate, non è stato mai riscontrato zucchero mescolato con sale.-

Non vi è, pertanto, motivo di ritenere che tale mescolanza sia avvenuta prima anzichè dopo il versamento dello stesso zucchero che, in ogni caso e a rigore di forma, doveva essere controllato all'atto dell'accettazione e quando tutto il quantitativo veniva travasato in altri sacchi a cura del citato Magazzino Viveri R.E.-

7 July 1945

MEMO: To Colonel C. P. Kerr

1. Reference to your Memo of 5 June re confiscated cigarettes and tobacco.

2. MMIA G/1/4-8 of 28 May signed Rose refers.

3. The American cigarettes and tobacco is considerable and located as follows:

Cagliari	12 Tons
Alghero	2.8 "
La Maddalena	1.7 "
Bosa	6.4 "
Total	22.9 Tons

4. We have had considerable difficulty to locate a suitable warehouse due to the volume and the nature of the goods which requires extra strong warehouse even with a guard. Finally found a place yesterday which will be empty when the Cannon is loaded.

5. We will have some difficulty to transport the goods from Alghero, La Maddalena and Bosa but think we can arrange. Being cigarettes it has to be closely guarded and you know how reliable Italians are. Been delayed somewhat on this because Captain De Stefano was to Naples for PX and has been sick in quarters 3 or 4 days. Also Major Martin on leave. I just couldn't spare the time myself. Colonel Rose phoned me it was not urgent. However will have it expedited.

MEMORANDUM:

TO : Lt Colonel Albert
LO, SARDINIA

1. In your Liaison Log No. 67 I see many references to confiscated cigarettes and tobacco of US origin and your attempt to find a warehouse for them.

2. I have heard about this before, but I understood it was just a small quantity. Please advise me the approximate quantity and just what is planned to do with it.

Following and confirming verbal instructions, you are informed that as per order of the local ACA, even new orations will be issued with crates in order to help out units in their needs and to speed up the distribution.

It is determined that:

1. Containers must be released upon receipt;
2. They will be returned to the warehouses from which they were drawn as soon as possible and however not later than the next issue of food, in case of non compliance they will be charged against the people responsible.

In addition, your attention is called to dispositions contained in Art. 59 of book "Organization for the Supply of Food to the Italian Armed Forces and related Accounting Instructions" in regard to drawing rations in round figure to avoid fractions of crates; on the release notes it must be shown the weight of rations actually issued (considering therefore the drawing of food in round figure and not including those items that for any reasons are not drawn from the units)

No. 1/4513/V 18 May 1945

SUBJECT: Excess Food at the Depot of Iglesias.

TO : HMIA Cagliari

Further to our phonogram 1/2517/v dated 14 May 1945.

The writer has sent an officer to Iglesias to make an investigation on the excess foods in question.

The investigation has shown:

1. No food in the depot except 3.720 kgs of spoiled tobacco.
2. The remaining stock of 457 kgs of dehtdrated vegetables has been sent to the Distributing Depot of Cagliari according to phonogram of this office No. 2482/1/V dated 12 May. which we attach. Although the Depot of Iglesias assured to have shipped all food with phonogram No. 92 dated 2 May 1945.
3. These are excess foods as from phonogram 95 dated 15 May, attached.
4. Previously the depot of Iglesias had taken on its records other exeasses on Form P for the period 5-20 April
5. The same thing should have been done for the dried vegetables according to the instructions that say that at leaat once a fortnight before making up the Form P. The depot as soon as he found the exceasses should have shown on the Form P the excess of 457.520 kgs of dried vegetables.

This has been reported also to the Territorial Offices for Sardinia who has punished the consignor of the Depot, Major Chambejron Guiseppe with 10 days of hard restriction.

Seguito fono 1/2517/V in data 14 corrente.-

La scrivente ha provveduto in data 15 corrente ad inviare ad Iglesias un Ufficiale dipendente per accertamenti in posto circa la eccedenza in oggetto.

Dagli accertamenti stessi è risultato:

1°)- Nessuna derrata esistente nei locali dello Stabilimento ad eccezione di Kg.3,720 di tabacco avariato in corso di scarico;

2°)- La rimanenza di Kg. 457,530 di verdura deidrata è stata inviata al Magazzino Militare Viveri di Cagliari in data 14 corr. e cioè in base al fonogramma della scrivente n. 2482/1/V del 12 corr. che si allega in copia,sebbene l'ente interessato sin dal 2 maggio con fono n. 92 che si allega pure in copia,avesse dato assicurazioni di aver provveduto alla totale spedizione di tutte le derrate.

3°)- Trattasi di eccedenza al carico come rilevasi dal fonogramma n° 95 in data 15 corrente allegato.

4°)- Precedentemente il Magazzino Presidiario Viveri di Iglesias aveva regolarmente assunto in carico,altre eccdenze (mod. "P" per il periodo 5 al 20 aprile 1945);

5°)- Analogamente avrebbe dovuto avvenire per la verdura essiccata come da disposizioni in vigore che prescrivono la compilazione di apposito inventario 1 volta per ogni quindicina e cioè in occasione della compilazione del mod. P. IL Magazzino,quindi,appena riscontrata l'eccedenza avrebbe dovuto compilare una "Entrata di rettifica" ed assumere regolarmente in carico Kg. 457,530 di verdura deidrata di cui sopra, à cenno.

TO : HQ/A Cagliari

1. Reference letter subject as above, dated 20 May.

2. Confirmation is hereby given as to the allocation of:

1 truck to the Clothing Depot of Decimomannu
1 truck to the Salvage Depot of Oschiri

A truck for the Medical Depot of Cagliari was allocated since 20 March 1945

3. In this connection your attention is invited to the fact that in the past, the Commissary establishments were properly in possession of a few heavy trucks which ensured the good operation of services.

In compliance with instructions from HQ/A, on 3 May, vehicles in question were turned in because not in possession of the required wind shield labels; such action explains the short crisis followed.

4. You are informed in addition, that of the 52 vehicles assigned to the 14th Administration Transport Company, 21 are destined for permanent services. 10 are to be turned recently to Col. Minelli 14 Co. Trans. to be turned in as soon as,

Vehicles available for the daily services are to be considered on a basis of only 25 % of vehicles in possession with the unit, due to lack of tires and spare parts.

In consideration with the above, your HQ/A is kindly requested to assign to the Sezione Autonoma Commissariato and even only on a loan basis, the trucks formaly allocated to said Section.

ALLA M . M . I . A . CAGLIARI

1°)- Rispondo al foglio pari oggetto, datato 20 Maggio.-

2°)- Assicuro di aver disposto l'assegnazione di :

- n° 1 autocarro al Magazzino Vestiario di Macomer,
- n° 1 autocarro al Magazzino Recuperi di Oschiri.-

Al Magazzino Sanitario di Ozieri l'autocarro è stato assegnato sin dal 20 Marzo u.s..-

3°)- Con l'occasione mi pregio far presente che tutti gli stabilimenti di Commissariato avevano disponibili - perchè in regolare carico - alcuni autocarri pesanti, con i quali, nel passato, assicuravano il buon andamento del servizio.-

In data 3 Maggio, per disposizioni di codesta M.M.I.A., è stato disposto l'immediato versamento dei mezzi in parola, perchè sprovvisti di triangolino distintivo : ciò spiega la breve crisi seguitane.-

4°)- Rendo altresì noto che, dei 52 automezzi in organico alla 14ª Compagnia Trasporti Amministrativi, ben 21 sono destinati per servizi fissi. Poichè si notano numerose inefficienze a causa della mancanza di gomme e di parti di ricambio, i mezzi di cui si può disporre per servizi giornalieri, rappresentano solo il 25 %.-

In considerazione di quanto sopra sarei grato a codesta M.M.I.A., se volesse autorizzare la Sezione Autonoma Commissariato a riprendere in dotazione - anche se per uso temporaneo - gli automezzi che aveva in carico in precedenza.-

SUBJECT: Transportation - Shipment of Material to the Mainland.

TO : Territorial Office for Sardinia.
MMIA Cagliari for Info

1. As already known by your office, MMIA has ordered to prepare and ship ~~some~~ material of the depots to the mainland.

2. The writer in accordance with phonogram 2954/Aut of 4 May and Circular 2932/Aut dated 2 May of your office has turned in the trucks employed at the plant of Oschiri and Depot of Macomer.

3. In Macomer, the firm Madau does not furnish any transportation for the low prices. The ox carts cost 1,500 lire per day and are not found in sufficient number to load the two railroad cars assigned daily to the Depot. To avoid these inconviences and obey the orders of MMIA, we suggest:

a. That your office authorize to draw the truck turned in by the Depot of Macomer, requesting MMIA for the license number card. The truck would be used only to transport material to the mainland with a small consumption of fuel (about 250 kgs per month). The truck would be turned in as soon as the shipments are ended.

b. For the material prepared and that cannot be shipped in time to the port by rail, be allocated three trucks for transportation from Macomer to Cagliari.

c. If the restitution in para a are not possible, we suggest to assign to the Clothing Depot of Macomer, one truck until end of shipment from the 14th Transportation Company. We will wait for your decisions.

INFO: Cagliari Commissariat (your signal 3833 of 30/4/45 refers)

SUBJECT:- Bad food at Cagliari Bulk Depot.

The Autonomous Commissariat Section at Cagliari has informed us that the rice at the Bulk Depot under its command has gone partially bad, rotten and pulverised and that the sugar received from the closed Airforce Distribution Depot arrived wet.

An Italian Commission has pronounced the rice inedible and has said that the sugar could be used by increasing the ration by 15%. On the other hand the local MMIA LO has laid down that the aforesaid items should be consumed as before.

In order to avoid the effect that such a distribution would produce on the troops, we ask MMIA to kindly intervene in the question.

14th COMMISSARY SECTION
Cagliari

No. 2020/M

6 May 1945

SUBJECT: Rules for the Functioning of the Commissary Plants.

TO : All Dependent Units.

We recall one union the attention of the consignors of the Depots on the meticulous observation of the Accounting rules either in money or material (Allied or Italian) contained in the phamplet "Supply Organization and Administration Instructions for the provision of Food to the Armed Forces".

In particular, it is recalled to your attention that:

(1) The accounting will be kept up to date.

(2) The stock state record will be kept up to date and will show the total of the stock cards (par. 33 of above phamplet)

(3) When shipments are made, you will see that:
Special care is taken of the packages according to the items.
On the packages will be shown clearly the prescribed indications.
You will not ship decayed items even if a commission has not yet inspected them.

(4) All situations and data that are requested from time to time will arrive punctually before the prescribed hour, being not possible to delay in forwarding them to superior authorities. For this purpose you will use any means available, courier, telephone or telegraph.

Of all notations to the present instructions and to the previous ones, the consignors will be kept responsible.

AMGOT has informed that specialised personnel will be sent from time to time to inspect the depots. All information will be given notifying time by time the writer.

OGGETTO: Osservanza norme funzionamento stabilimenti Commissariato.-

A TUTTI GLI ENTI DIPENDENTI = LORO SEDI =

Si richiama ancora una volta l'attenzione degli ufficiali conaegnatari di magazzino sulla scrupolosa osservanza delle norme che regolano la contabilità sia in contenti che in materia, (Allegta ed Italiana), giusta fascicolo "Organizzazione per la fornitura dei viveri per FF.AA. Italiane ed istruzioni contabili relative".-

In particolar modo non si ritiene superfluo ricordare, sebbene sia stato più volte ripetuto, che:

1°)- la contabilità deve tenersi costantemente aggiornata;

2°)- devono riportarsi giornalmente sul Conto derrate i totali dei registri interni (n.63 fascicolo succitato);

3°)- in occasione di spedizioni di materiali, generi, derrate etc., deve aversi massima cura:
- nell'imballaggio, in relazione alla loro natura e specie;
- al confezionamento dei colli, sui quali dovranno essere chiaramente riportate le prescritte indicazioni.

Dovrà evitarsi, inoltre, di spedire scatolame scondizionato e generi di cui sia stata accertata l'avaria anche se non ancora verbalizzata.

4°)- Tutte le situazioni e i dati, che vengono di volta in volta richiesti, debbono pervenire alla scrivente puntualmente nel giorno ed anche nell'ora stabilita, non potendone dilazionare l'inoltro alle superiori autorità.

A tal uopo dovrà ricorrersi, per il recapito alla scrivente, a qualsiasi mezzo - caso per caso ritenuto necessario - (corriere, telefono, telegrafo etc.).-

Di qualsiasi infrazione alle presenti norme ed a quelle in precedenza a tale riguardo finora emanate, sarà tenuto personalmente responsabile l'ufficiale consegnatario.=

2. While the object of your proposals is appreciated, it is regretted that under the present conditions it is not possible to give the required authorization: the difficulties of the accounting for rations as between units alone would make it impracticable.

3. Further, the present regulations for the issue of rations to soldiers in transit on duty cannot be changed, nor can any suggestion of payment for rations by men on duty be considered.

4. However, in order to alleviate the position, it is suggested that formation welfare representatives on behalf of their Commanders might organise in selected towns, with the aid of local inhabitants, buildings or other suitable accomodation wherein soldiers in transit could have facilities for rest and for cooking the food which they carry with them.

5. Such projects, it is thought, would call forth the willing aid of civilian elements in the provision of accomodation and necessary equipment, particularly now that life in rear areas is reverting more nearly to normal, and they would go far to ameliorating the conditions you have detailed.

1. AMIA Sub Commission for Sardinia has with letter R/9 dated 27 April, attached, given the following instructions on how to issue rations.

2. In compliance, I order:

(a) The issuing dates are so fixed:

6 of each month for period 6-20
21 of each month for period 21-5 next month

(b) Each unit on the knowledge of when it can draw from the depot (in accordance with distance from Distributing Depots and transportation means) will build up a small reserve enough for the number of days needed to transport the rations from the Distributing Depot to the Unit. For example: A unit drawing the rations on the 6th forsees that it will receive them on the 7th will then build up a reserve for 2 days. This reserve to be built up once for all will be made up during the present 15 day period, economizing on the rations for the period drawn on the last 21st.

3. I forbid absolutly to drawn rations before the days fixed in paragraph 2.
