SUBJECT: Vehicles now Awaiting Shipment at Port.

MEMO : To Colonel F. L. Simmons.

1. As a result of a preliminary investigation, I have to report that some time between the hours of 1700, 29 December and 0700 hours, this date, person or persons unknown cut the leather from the seats of Italian trucks in the port on the Via Roma quay. These trucks are awaiting shipment on the S.S. Richelieu.
2. Captain Varengo of Poetto Auto Park will furnish this office, not later than 1700 hours, 30 December, a complete report on extent of the damage done to each truck.
3. It is further believed by Captain Varengo's officers that tools and equipment were also taken.
4. Major Mellisardi, Italian official in charge of port, is now personally investigating this damage to the trucks and alleged theft of parts and equipment.

In the beginning seats and backs were removed from the vehicles
A.S. R.E. 127045 and R.E. 127044 which were later discovered by the
undersigned in the building for weighing freight, now being torn down,
at the Molo Sanita.

You are informed that a few spark plugs, various files and

The guard service was performed by Pvt FRASSI Severino and

could not be performed properly because all the vehicles (about 18)
were assembled together, and because of dark and bad weather.

1. According to the T/O, this Hq is in possession of 2 buses used for transporting officers of this Hq as well as the personnel assigned to Radio Sardinia. The licence numbers of said buses are: 020224 - 98495.
2. As you know, one of said vehicles - No. R.E. 020224 - was sent to the 13th Auto Park at Abbasanta on 24 September 1944, since it needed a few repairs indispensable for its efficiency.
3. This Headquarters requested the Auto Park several times to hasten repairs and return the bus; the latest request was made in phone-message No. 30298 of 27 November 1944.
4. In reply to the last request we were informed by you that the bus in question was given to the R.A.F. since you thought that the number of buses existing at the "Autodrappello" was three instead of two.
5. In effect the status as of 1 November showed three buses allocated to the "Autodrappello" - (98495 - 020224 - 02658) -, but the latter was turned in to the 13th Auto Park on 4 November 1944 and therefore the Autodrappello has at present only two buses available.
6. Since the Autodrappello has only the buses No. 020224 and 98495 and since both are part of the T/O and indispensable for the performance of the various services indicated in paragraph 1, you are kindly requested to return the bus.

MEMO TO: Lt. Col. Clark, Deputy Commander, Allied Garrison of Sardinia.

SUBJECT: Deck Loading Italian Army Vehicles on Coal Colliers.

1. Reference to our conversation yesterday, deck loading of Italian Army vehicles can be done in the port of Cagliari, but not in the port of San Antioco.

2. At the present time no berthing space is available to bring the Colliers in at Cagliari port. However, after the American outloadings have been completed, I see no reason why the deep berth at Molo Sabedau Quay cannot be left open to accomplish subject loading--keeping in mind these Colliers will come in drawing 22' 6".

3. The objection to the use of San Antioco port is there is no personnel at present at this port who could undertake the job of loading.

Military Mission

AQ/5

To: A.F.E.Q.

5 Oct 44

Further to my Signal AQ 1964 of 3 Oct.

1. I att at Appx 'A' and 'B' full details of the ITALIAN Army MT vehs and stores which are available in SARDINIA at CAGLIARI for immediate shipment to NAPLES for use by the ITALIAN Army. Appendix 'A' also shows the breakdown of the vehs now ready into five shipments in order of priority. Further quantities are being repaired in SARDINIA and will be available in due course.

2. The Italian Army transport on the Mainland is fast coming to the point when it will be unable to carry out its task of maintaining the Italian Army for the benefit of the allies. Unless rapid action is taken to bring in this "New Blood" from SARDINIA, I foresee that, not only shall I be unable to relieve Allied tpt already fully committed, which is now being used, but also, that I shall be forced to make further heavy demands thereon.

3. I request that suitable shipping be allotted now to complete these lifts.

Ref 16676/Rg/21
Date: 23 Aug 44

This general directorate in order to meet the many requirements of the units located on the mainland gave instructions (with letter No. 10572/21/Rg dated May 20th, 44) to make ready and forward to Naples five bicycle barrow and 10 motorcycles to be issued by the 14th Motor Group Coy, the 13th Drivers Regiment and by the 13th Motor Park, Sardinia.

The a/m vehicles are waiting to be shipped by the 13th Drivers Regiment. The Sardinia Military Command has informed us that the allied authorities of the Island through the Italian officer in charge of supplies at the Cagliari Air Force Command have requested 5 bicycles barrow in order to assign them to units that shall be pointed out by the supply officer. We beg the Sub Commission to issue orders so that the a/m vehicles which are property of the army and due to meet the requirements of the units of the Mainland be given back to the 13th Drivers Regiment and later on forwarded to Naples as soon as possible.
