TRANSLATION GC/gc 13 JULY 1944

MILITARY HEADQUARTERS OF SARDINIA (XIII A.C.)
Chief of Staff - Operation Office

No 9120/Op A.P.O. 50, 11 July 1944

SUBJECT: Despatch of medical material to the continent and to Sicily.

TO : ALLIED CONTROL COMMISSION IN SARDINIA
Colonel Simmons' Office, Elmas

1. The War Department, General Military Medical Directorate, in letters no 7135/11 dated 31 May 1944, no 6/1192/M.T. dated 8 June 1944 and no 6/1211/M.T. dated 16 June 1944 requested the despatch to the continent and to Sicily of the following various medical materials:

- 630 boxes - Weight: about 416 quintals - Volume: about 133 cubic meters, to be sent to the "Miracoli Military Hospital" in Naples.

- 25 boxes - Weight: about 16 quintals - Volume: about 6 cubic meters, to be sent to the "S.Lorenzo Colli Military Hospital" in Palermo.

2. The materials is already stored at the warehouses of the 7th Base, which will furnish the personnel to escort the materials to destination.

3. Therefore your Commission is kindly requested to communicate to us the date and on which surface craft the above mentioned materials could be despatch to the mainland.

We are awaiting a kind reply.

By order of
THE COLONEL CHIEF OF STAFF
Luigi Castellani/t/
Castellani/s/

NOTES ON MEDICAL SUPPLIES - SARDINIA

1. No medical supplies permitted to be sent from Mainland to Sardinia until Feb. 44 (AAI orders).
2. Monthly requests have been submitted regularly by DMS Sardinia since Feb 44.
3.(a) Consignment of antimalarial drugs, equipment, petrolio and Paris Green ordered to be sent on 5.4.44 included 4,000,000 mepacrine (Italian). These goods had been received, checked and acknowledged by 2.5.44 and 13.5.44.

(b) Further 2,100,000 mepacrine sent and receipt acknowledged on 23.5.44 and 26.5.44.

(c) TAB vaccine also sent to full requirements and several small amounts of a few items have also been sent.

4. No further medical supplies have been sent to Sardinia for the simple reason that they are far better off than the mainland and no bulk Allied supplies were received at Naples until 21 May 44. On page 2 are 32 common items giving relative holdings of Sardinia as against total holdings in Italian Army (including Sardinia and Sicily). Items 1-12 were selected as being in short supply. Items 13-32 were common drugs picked at random. I have inspected the stock book held by Ministry of War and this is representative of the general situation.

5. Owing to the non-arrival of Allied supplies, the Ministry of War produced a re-distribution scheme for all existing supplies in Italian Depots. Forwarded to Cabinet for approval on 19.5.44. Approved 31.5.44 (12 days).
This document runs to about 40 pages of detailed instructions on transfers between Depots. It involves taking supplies out of Sardinia. In view of the existing situation of stocks I consider this to be correct and making the best all-round use of supplies until August 44. This re-distribution scheme will commence on 20 June and be completed by 10 July in order not to interfere with monthly stock-taking (between 10 and 20 each month).

6. To sum up, Sardinia lacked anti-malarial drugs, TAB vaccine and anti- syphilitic drugs. Anti-malarial supplies were made to maximum resources. TAB vaccine supplied in full.
Anti-syphilitic drugs are just not available in Italian Depots and are in short supply in British Depots.

A.P.O. 509, U.S. Army

9 July 1944

SUBJECT: Medical Supplies for Italian Troops

TO : Commanding General, Italian Forces in Sardinia

1. The following directive from A.F.H.Q. with respect to medical supplies for Italian Forces is quoted for your information.

"1. Medical supplies for effective Italian troops should be requisitioned through Headquarters, Allied Armies in Italy from the Army Subcommission of the Allied Control Commission (MMIA) as provided in letter, Allied Force Headquarters, file AG 400.3 (Italian) D.O, dated 21 April 1944, subject: "Organization for Supply of Effective Italian Troops". Issue of medical supplies to Italian troops from United States stocks will not be made except in cases of emergency to alleviate suffering or to prevent death.

2. Requisitions should be placed on the Army Subcommission, through Headquarters Allied Armies in Italy, to cover compensating supplies equivalent to those listed on the shipping tickets attached to basic communication, as well as any supplies issued under authority of the last sentence in paragraph 1 hereof.

3. In any case where compensating supplies cannot be furnished from the Army Subcommission, the proper accounting papers, as prescribed by the Chief Accountant, Allied Control Commission, will be furnished to the Allied Control Commission, through Headquarters Allied Armies in Italy, in order to establish appropriate charges against the Italian Government."

TRANSLATION VJT[illegible]jt 11 May 1944

TO: Colonel Simmons, Army Sub Commission
Allied Garrison of Sardinia

TO: Medical Captain DE RENZI

Following yesterday's conference with Colonel Simmons, I had prepared a requisition of exhausted and most needed medicinals when I received a circular from the War Department - General Military Medical Directorate, a copy of which is inclosed herewith, directing that no request for medicinals would be transmitted to Allied Headquarters of Sardinia; therefore, with regret I must refrain from presenting the above mentioned requisition.

Please thank Colonel Simmons in my name for his courteous intervention in behalf of our needs.

Best Wishes,

Col. Ugo Reitano.

THE HIGH COMMISSIONER FOR SARDINIA
Civilian Affairs Section

File No. 5277/San. 4. April 9, 1944

SUBJECT: Anti-Malaria Campaign.
Assignment of Servicemen.

TO : Military Hq Sardinia. APO 50.

The Superintendent of the Health Services of Sardinia advises that in order to secure the services of the anti-mosquito campaign in the Communes of the inland, it is necessary that 2536 servicemen be assigned to the 3 Provinces, who, after having been detailed in the various areas according to a plan by the Province doctors, will be placed at the disposal of the area medical directors and Section Chiefs, in the following ratio:

Cagliari	1536
Sassari	620
Nuoro	280

Since the operations referring to the anti-mosquito campaign will be started at once, I request that you kindly direct that the above number of servicemen be put at the disposal of the civil authorities.

Upon receipt of communications, I will inform your Hq as to the places where the above Provincial doctors direct that such servicemen be sent and their numbers for each place.

The High Commissioner for Sardinia
Lieut General Pietro Pinna

THE MILITARY HQ OF SARDINIA (XIII A. C.)
Staff - Operations Office.

File No. 5250/10/3. APO 50, April 20, 1944

SUBJECT: Anti-Malaria Campaign 1944.
Assignment of Servicemen.

TO : War Ministry APO 107.
Royal Army General Staff. APO 151.

The High Commissioner for Sardinia has asked me, in order to secure the services in the anti-mosquito campaign in the Communes of the island, to assign to the 3 Provinces 2538 servicemen, who - for that particular task, should be put at the disposal of the area medical directors and Section Chiefs located in the various malarial localities to be reclaimed.

While directing that all localities and areas, where military garrisons are located, be drained, I do not deem it proper that troops be employed in the other malarial areas in the island, since, besides failing to observe the principle of keeping military personnel clear of the serious effects of malaria, a dispersion of forces into many little groups would be brought about which might be detrimental to discipline.

Since I have been informed that the use of servicemen in the above special task is contemplated only because a question of financial character, due to the difficulty of payment of civilian labor, whereas the latter would not be an obstacle inasmuch as I have often been charged with the hiring of civilian labor, I request your ministry to assign to the 3 Provincial Committees for the anti-malaria campaign in the island the funds needed for the hiring of civilian labor in the anti-malaria campaign.

The Commanding General
- Giovanni Magli -

TRANSLATION

ALLIED CONTROL COMMISSION FOR SARDINIA
Via Roma, 37, Cagliari.

25 April, 1944.

SUBJECT: Anti-Malaria Campaign.

TO : General Magli,
Military Commander for Sardinia, Cagliari

From : Public Health Office, Allied Commission, Region VI.

---

1. In the meeting held at the Office of the Allied Control Commission on April 17, 1944, at which were present Prof. Brotzu, Col Caitano and Lt Col Dobos, Public Health Officer, Region VI, the following agreements were made:

a. Both the scheme for the anti-malaria campaign for the protection of the Italian troops and that for the protection of the civilian population will be coordinated in such a way as to form as much as possible one general scheme for the anti-malaria program.

b. The Italian troops will be employed for the anti-malaria reclaimation of all grounds where military encampments are located both in the towns and in nearby zones. The Hq of the above units will provide for the supervision of the execution of the work and for the rationing of the troops employed in the above works.

c. For those localities in the vicinity of which there are no encampments, troops will be, if possible, sent to the assistance of the civilian labor. For the above localities the work will be conducted under the management of the Health Officer, and the town will provide for the rationing of the above troops.

The town will recover in kind from the S.E.P.E.A.L. the additional rations which were distributed for the above work.

d. The approximate number of the servicemen to be employed is at least 3000.

e. The larvae-killing material, and all necessary equipment will be distributed directly to the towns and on the basis of their areas, and not separately to the military and civilian authorities.

f. The military authority for each of the 3 Provinces of the island will put at its disposal a light truck, which will be used for the whole period of the malaria season for the reclaimation works on the land.

g. The Regional Commissioner will try to obtain an additional allotment of oil for the anti-larvae campaign. The above oil will be supplied only in the case that the Army should put at the disposal the above servicemen and vehicles.

Without such troops the utilization and distribution of the above additional oil will not be possible.

2557

Declassified E.O. 12356 Section 3.3/NND No. 785020

2. The above report should be submitted by Col Raitano for his headquarters' approval, but a communication by Col Raitano, which was received by Prof. Brotzu yesterday, discloses that none of the above paragraphs have been confirmed as yet.

3. It is absolutely imperative that the scheme for the anti-malaria campaign be started at once, if it is desired that this protection so necessary both for the Italian troops and for the civilians be really effective.

Your prompt intervention and cooperation is really urgent and hereby fully requested.

On behalf of the Regional Commissioner
/s/ Henry A. Hale
Colonel, Infanty
Deputy Regional Commissioner

SUBJECT: Anti-Malaria Campaign.

TO : Allied Control Commission for Sardinia. Via Roma, 37
CAGLIARI.

Copy to: The High Commissioner for Sardinia. CAGLIARI

In reference to the preparation for the anti-malaria campaign, this Hq thanks you for all the information given them and of which they had obtained a summarized knowledge through Col Raitano, director of the Military Medical Department of Sardinia.

As for the cooperation on the part of the military, it is hereby informed that all provisions for its execution have been made in all localities having a military garrison. For the remaining localities which have no military garrison, that Hq is waiting to learn from competent authorities which localities they may be in order to be able to determine the details.

This Hq has urged the above communications this very day.

ALLIED COMMISSION FOR SARDINIA

Cagliari 30 April 1944

TO : Col. Simmonds.
FROM : Regional Commissioner, Region 6.
SUBJECT : Medical Supplies, Italian Armed Forces.
REFERENCE : FH/1314

Reference my previous letter on a/m subject dated 9 April 1944.

The need for a supply of Anti-Malarial is now a matter of grave urgencey.

Definite instructions received from A.C.C. Headquarters prevents us from assisting in this emergency by issuing any drugs intended for civilians.

The Army Sub-Commission is in possession of comprehensive information with regards to local needs, and is charged with the responsibility for requisitioning all medical supplies on behalf of the Italian Army.

The Director of the Italian Medical Services of Sardinia has been instructed to requisition medical supplies immediately through normal Italian Military Channels.

To assure that this requisition is honored would you be good enough to make urgent representations to the Army Sub-Commission as to the urgent need of medical supplies and more especially of Anti-Malarial drugs.

Cagliari. 9th April 1944

TO : Colonel Simmons, ~~Land Forces~~ Army Sub-Commission.

FROM : Regional Commissioner

SUBJECT : Medical Supplies, Italian Army.

REFERENCE : RC/1314/

1. It is generally agreed that all combat units of the Italian Army receive necessary medical supplies from Allied Military Sources.

2. No satisfactory agreement exists regarding the question whether the medical supply requirements of the non operational units of the Italian Army, Navy and Air Forces should be provided from Allied Military sources or from the medical supplies allocated to the civilian population of Sardinia by the Allied Control Commission.

3. In order to clarify this point, I call your attention to the enclosed communication dated 29 Feb 44, from Allied Force Headquarters, which in paragraph 2 clearly states that not only the combat but all of the Italian Army should be provided with medical supplies by the Allied Military Forces.

4. Medical supplies for that purpose will be obtainable upon the request of the Military Mission. The list of needed medical stores must be forwarded to A.F.H.Q., which will authorise the issue of all approved items.

5. I suggest therefore that you submit to A.F.H.Q., a list of medical supplies needed for the Italian Army, Navy and Air Forces in Sardinia. In the compilation of this list,

U.S. RESTRICTED EQUALS BRITISH RESTRICTED

ALLIED FORCE HEADQUARTERS
APO 512

AG 400-1 (Italian) CDS- 29 February 1944

SUBJECT : Maintenance - Italian Military Forces.
TO : Deputy Chief Administrative Officer, Allied Force Headquarters, Advanced Administrative Echelon.

1. Reference is made to letter, your headquarters 31/5/G3, dated 17 February 1944. The requirements of the Italian combat divisions are covered by the policy stated in letter, this headquarters AC C91.711-1 (Italian) GCT-ACM dated 10 February 1944 Paragraph 7c.

2. Insofar as the remainder of the Italian Army is concerned the Chief Surgeon at this headquarters is now in the process of specifying requirements in Medical Stores for demands to be placed on the Combined Chief of Staff. Pending a decision in this matter and the setting up of any medical supplies for the combat divisions of the Italian Army or for the remainder of the Italian Army, The Military Mission to the Italian Army should refer to you all requests for Medical Stores and those which are considered essential for the Health of the Italian Army should be forwarded by you to this Headquarters for approval of issue.

3. With regard to Engineer Stores and Works Services, the same general principles and policy will apply, but it should be very exceptional for Allied resources to be called on to meet Italian Army requirements expect as stated in the letter, this headquarters, quoted in paragraph 1, above. In the case of the Works Services and small demands for Engineers Stores, it is inappropriate to refer to this headquarters, and it will be left to you to give authority in such cases - in the light of the above policy.

4. The above is issued to cover the interim minimum needs of the Italian Army since instructions just received from the Combined Chiefs of Staff setting up the Allied sources of supply of all requirements for the Italian Army other than combat equipment, which letter must continue to be supplied from Italian Army sources only. An instruction will be issued shortly to implement the above.

5. Any requests referred to this headquarters for approval will give complete details justifying demand.

By command of General Wilson.

Subject:- Issue of Anti-vermin powder (A-L 63) from Allied sources

Army Sub Commission ACC
Main HQ (MMIA)
LE QUILE (LECCE)
20/7
7 Mar 44

To Ministry of War

copy to S M R E
HQ 1 District
HQ 2 District
HQ 3 District
All MMIA LOs.
ST
Med

1. Authority has been given for the issue of Anti-Vermin powder to Italian Units on the Mainland from Allied sources under the following arrangements.

2. To Italian troops in 2 District

a) ST MMIA will arrange for a bulk allotment of 7,600 lbs, released by 2 District to be received into Italian Medical Stores Depot at BONOMO Hospital BARI.
b) Ministry of War will issue instructions to Italian formations to the effect that units requiring AL63 powder will apply monthly for one month's supply for a specific number of men through the Italian Liaison Officer attached to each Allied Area / Sub Area HQ. For units in CALABRIA, application will be made to HQ 52 Area at TARANTO.
c) On approval of applications, the Area / Sub Area HQ will issue the unit with a voucher entitling it to withdraw a specified amount from Italian Depots.
d) No issues will be made to units except on production of such vouchers, which will be retained by the Italian store and returned each month to ST HQ 2 District when called for.
e) Monthly replacement of AL63 powder will be made by HQ 2 District against vouchers showing expenditure during the previous period.

3. To Italian troops in 3 District

a) Application on behalf of specific units will be made to Area / Sub Area HQ through the Italian Liaison Officer attached.
b) On approval of applications he will be responsible for ensuring that the unit draws from the correct DID.

4. Issue of AL63 powder

Declassified E.O. 12356 Section 3.3/NND No. 785020

Hospital BARI.

b) Ministry of War will issue instructions to Italian formations to the effect that units requiring AL63 powder will apply monthly for one month's supply for a specific number of men through the Italian Liaison Officer attached to each Allied Area / Sub Area HQ. For units in CALABRIA, application will be made to HQ 52 Area at TARANTO.
c) On approval of applications, the Area / Sub Area HQ will issue the unit with a voucher entitling it to withdraw a specified amount from Italian Depots.
d) No issues will be made to units except on production of such vouchers, which will be retained by the Italian store and returned each month to ST HQ 2 District when called for.
e) Monthly replacement of AL63 powder will be made by HQ 2 District against vouchers showing expenditure during the previous period.

3. To Italian troops in 3 District

a) Application on behalf of specific units will be made to Area / Sub Area HQ through the Italian Liaison Officer attached.
b) On approval of applications he will be responsible for ensuring that the unit draws from the correct DID.

4. Issue of AL63 powder will normally be limited to Italian troops in the following categories:-

a) Those operating in Typhus Epidemic area.
b) Those billetted where facilities for bathing and disinfestation are poor.
c) Those working in conjunction with Allied troops.

In no case will powder be issued to those in possession of Lethane belts.

5. Med MILA will ensure that the Ministry of War is in possession of 250 instructions regarding the correct method of use of this powder.

FILE: MEDICAL SUPPLIES

Declassified E.O. 12356 Section 3.3/NND No. 785020

Subject:- Medical Supplies - Sardinia.

4/.

Army Sub Commission, A.C.C.,
Main H.Q. (M.M.I.A.)
LAQUILA, (LANCER).
M/M/M.C.
29 Feb. 44.

Army Sub Commission,
Allied Control Commission, Sardinia.
A.P.O. 509, U.S. Army.

Copy to:- D.D.M.S., A.F.H.Q., Adv. Adm.Sch.

Reference appendix "G" (letter 534 M-5 of 25 Feb.) forwarded under cover your letter Y MLS/vjt of 25th. Feb. please pass the following information to the Surgeon, Allied Garrison, Sardinia.

1. Medical supplies have not previously been sent to Sardinia as until recently this was an Allied Force Headquarters commitment and Italian depots were not permitted to send supplies off the mainland.

2. The first requisition to cover issues to Sardinia was received and forwarded to A.F.H.Q., Adv.Adm.Sch. on 11th. Feb. Delivery to Italian Medical Depot in Naples will be made some time in March. Thereafter sub-allotment and transportation to Sardinia is arranged by Medical Branch, Italian Ministry of War. Certain supplies of T.A.B. vaccine and acridirdol (our equivalent mepacrine) have already been sent by plane.

3. Appendix "A" gives a comparison of existing stocks in Sardinia and the mainland of drugs requested. In several instances Sardinia is much better off than the mainland.

4. Italian Medical Service receives bulk supplies from captured Italian stocks supplemented where necessary from Allied sources. By the end of March supplies will be coming in fairly regularly. For the present the urgent needs of Sardinia will be passed to Italian Ministry of War who will endeavour to meet them in relation to existing stocks and over-all demands.

Declassified E.O. 12356 Section 3.3/NND No. 785020

1. Medical supplies have not previously been sent to Sardinia as until recently this was an Allied Force Headquarters commitment and Italian depots were not permitted to send supplies off the mainland.

2. The first requisition to cover issues to Sardinia was received and forwarded to A.F.H.Q., Adv.Adm.Sch. on 11th. Feb. Delivery to Italian Medical Depot in Naples will be made some time in March. Thereafter sub-allotment and transportation to Sardinia is arranged by Medical Branch, Italian Ministry of War. Certain supplies of T.A.B. vaccine and acridinies (our equivalent mepacrine) have already been sent by plane.

3. Appendix "A" gives a comparison of existing stocks in Sardinia and the mainland of drugs requested. In several instances Sardinia is much better off than the mainland.

4. Italian Medical Service receives bulk supplies from captured Italian stocks supplemented where necessary from Allied sources. By the end of March supplies will be coming in fairly regularly. For the present the urgent needs of Sardinia will be passed to Italian Ministry of War who will endeavour to meet them in relation to existing stocks and over-all demands.

25 February 1944.

MEMO TO: Colonel Simmons.

1. An investigation of the present status of medical supplies of the Italian Army in Sardignia has been made by this office. This included an interrogation of various Italian medical officers and a check of an up-to-date inventory of supplies in the Italian Medical Stores.

2. There is either an absence or critical shortage of the folowing essential items:

Acetone
Arsphenamine
Atropine sulfate, hypodermic
Bismuth subsalicylate
Castor oil
Epinephrine, soluible salt
Iodine
Novocaine
Quinine dihydrochloride 66 000 tab
Quinine sulfate - 199,000 tab
Rhubarb powder
Sulfanilamide
Sulfapyridine
Sulfathiazole tablets
Sulfathiazole powder
Sulfathiazole solution
Sulfaguanidine powder
Strophantin
Tetanus anti-toxin
Tincture of belladonna
Tincture of opium
Typhoid vaccine
Typhus vaccine
X-ray film

appendix C
letter 25 Feb 44

File: 2nd Cppt. Medical

Notes on a meeting with Col. Reitano, Director Army Medical Services at Bonorva, 19 January, 1944.

The following matters were discussed:-

1. Supplies (Medical). Col. Reitano showed me an instruction received from Army Headquarters, one paragraph of which stated that medical supplies for Sicily and Sardinia were to be obtained from Allied Military sources. He gave me a copy of the relevant paragraph. He gave me also a copy of a circular letter sent from the Allied Military Mission dealing with medical supplies Italian army but with apparently no reference to troops in Sardinia.

I informed him that I was not sure of the channel by which he would obtain supplies and stated that if he would prepare a statement of his stocks and requirements in detail, I would endeavour to secure for him as much as possible of his reasonable requirements.

A discussion took place as to whether supplies should be independent for the Civil Force and he pointed out many difficulties in giving them complete control of a proportion of medical stores. It was agreed that they would, however, be asked by me to draw up a separate statement as above, and that he would give them a reasonable proportion of items already supplied.

2. I informed him that I had asked for the services of 6 Pharmacists to assist the medico provinciale for a few weeks in preparation of lists of their requirements through the Civil Affairs Officer. He agreed to help if the request came through to him.

3. He stated that there were about 200-210 cases of Tuberculosis in the Army and that he was trying to secure accommodation at Fonni for these but was having considerable opposition from civilian authorities. I offered help in this connection, but he said he desired no help and hoped he would succeed. I emphasized the urgency of the matter not only to relieve military hospitals of the cases and to provide proper treatment

A discussion took place as to whether supplies should be independent for the Civil Force and he pointed out many difficulties in giving them complete control of a proportion of medical stores. It was agreed that they would, however, be asked by me to draw up a separate statement as above, and that he would give them a reasonable proportion of items already supplied.

2. I informed him that I had asked for the services of 6 Pharmacists to assist the medico provinciale for a few weeks in preparation of lists of their requirements through the Civil Affairs Officer. He agreed to help if the request came through to him.

3. He stated that there were about 200-210 cases of Tuberculosis in the Army and that he was trying to secure accommodation at Fonni for these but was having considerable opposition from civilian authorities. I offered help in this connection, but he said he desired no help and hoped he would succeed. I emphasized the urgency of the matter not only to relieve military hospitals of the cases and to provide proper treatment but to relieve the pressure on beds in sanatoriums (civil). I suggested the use of Fonnelli Sanatorium. He said he had never heard of it, but would make enquiries.

4. I warned him that a number of persons might be coming from Naples shortly (I believed soldiers but was not sure of their status). He agreed to make arrangements for their disinfestation and quarantine and I to give him any notice I could.

5. I informed him that I had made a formal request for the evacuation of sick from military hospitals who could be discharged to homes in Sicily and South Italy. He said that he had a number at present in Cagliari, already to go with troops who would be leaving shortly.

(5) AM

2519

File Prov. Capt Medical

Declassified E.O. 12356 Section 3.3/NND No. 785020

6. Availability of Doctors. He agreed that there were at present more doctors than he needed in the Army. He had 680. But many were being discharged to civilian practice and this process would leave no surplus.

7. He agreed that he could pass on all instructions given on the use of Drugs which might be supplies e;g; Mapharsen.

8. Ambulances. I pointed out the shortage of ambulances for civilians, and told him I knew that the army was short, but nevertheless had enough to carry on reasonably. I asked his views on a joint army-civilian service. He stated that he would not consider this as he was himself so short. He would prepare a list for me of ambulances in serviceable condition. He added that his 20th Section containing 36 Ambulances was immobilized awaiting orders to go overseas. If these orders were withdrawn he would be in a position possibly to consider my suggestion.

9. Deaths in the Army. He agreed to give me data as to the number and causes of deaths in the army recently.

10. Clerk. He agreed, is possible, to place at my disposition a clerk.

11. Hygiene Unit. I suggested that a specialised hygiene unit be formed and trained in theory in Sassari University and in practical methods in North Africa by a British Field Hygiene Section. He stated that bad sanitary conditions prevailed before he took over and that he could remedy all defects in 3 months. He had two units which were of no use but he had now improved these so that they would function well. I emphasized that my suggestion was to supplement his other services and that such a section would aid by teaching methods of improvisation and hygiene rather than by carrying out actual sanitary duties.
Nevertheless he felt that he could not support this idea.

12. Malaria. He did not think that any malaria scheme was of much value but he would attend the conference on 3 Feb; to which I invited him, on behalf of the Commissioner (G

TERRITORIAL OFFICE FOR SARDINIA
Service Section

No. 9770/Serv 18 September 1945

SUBJECT: Phophylatics against Plague.

TO : MMIA Liaison Office for Sardinia Cagliari

To be able to take the necessary measures against the plague, this office intends to issue to depending units insecticide powder which must be spread on the clothing of servicemen.

Since there is none available in the Medical Stores on the Island, request MMIA have 110 kgs of insecticide powder from Allied sources assigned to the troops on the Island.

Said need, sufficient for one month, has been calculated in reason of 20 grams for each serviceman.

ALL'UFFICIO SANITA' MILITARE SARDEGNA — CAGLIARI

Si trascrive l'elenco dei medicinali esuberanti presso questa Frazione Medicinali di Ozieri :

Acido acetico concentrato puro	Kg. 5
" tartarico	" 5
Adrenalina soluzione	" 2
Alcool triclorobutilico	" 0,500
Bario solfato purissimo per radiografia	" 5
Bismuto nitrato basico	" 5
Bismuto tribromo fenato	" 1
Carta da filtro 50 x 50	N° 100
Catrame vegetale	Kg. 10
Carte senapate	N° 1000
Creosol	Kg. 100
Digitale foglie	" 5
Dischi oftalmici	tutti 300
Esametilentetramina	Kg. 5
Etere etilico	" 10
" " per anestesia	fiale 200
Fenolo liquido officinale	Kg. 20
Guaiacolo carbonato	" 0,500
Jodio bisublimato	" 1
Jodoformio	" 0,300
	" 0,500
	" 10

Declassified E.O. 12356 Section 3.3/NND No. 785020

Acido acetico concentrato puro	Kg.	5
" tartarico	"	5
Adrenalina soluzione	"	2
Alcool triclorobutilico	"	0,500
Bario solfato purissimo per radiografia	"	5
Bismuto nitrato basico	"	5
Bismuto tribromo fenato	"	1
Carta da filtro 50 x 50	N°	100
Catrame vegetale	Kg.	10
Carte senapate	N°	1000
Creosol	Kg.	100
Digitale foglie	"	5
Dischi oftalmici	tubi	300
Esametilentetramina	Kg.	5
Etere etilico	"	10
" " per anestesia	fiale	200
Fenolo liquido officinale	Kg.	20
Guaiacolo carbonato	"	0,500
Jodio bisublimato	"	1
Jodoformio	"	0,300
Laudano	"	0,500
Liniemento oleo calcareo	"	10
Lino semi	"	200
Liquore arsenicale del Fowler	"	1
Magnesio idrocarbonato	"	2
Mercurio bicloruro	"	20
Olio ricino	"	20
Olio gomenolato	"	1
Olio vaselina in fiale	N°	2000
Pomata di belladonna	Kg.	50
Pomata mercuriale	"	10
Potassio clorato	"	20
Potassio joduro	"	5
Potassio permanganato	"	5
Rame solfato puro	"	2
Sapone pezzi	pezzi	3000
Sodio benzoato	Kg.	5
Sodio borato	"	5
Sodio cloruro depurato	"	10
Sodio iposolfito commerciale	"	10

Declassified E.O. 12356 Section 3.3/NND No. 785020

Sodio salicilato	Kg. 10
Sodio solfato,puro cristallizzato	" 50
Soluzione sotura sloro in tretracl.carb.	fiale 200
Steridrole per potabilizzazione acqua	scat. 5000
Steridrole uso clinico	" 300
Tennifugo Vigleni	dosi 300.
Tintura alcolica digitale	Kg. 1
Tintura alcolica tonico amara	" 1
Cognac	" 500
Apomorfina cloridrato	scat. 100
Caffeina	" 3000
Canfora sostole	" 100
Cocaina cloridrato da cg. 2	fiale 200
" " " " 1,25	" 300
Insulina U.I.	cc 1000
Lobelina cloridrato	scat. 500
Mercurio bicloruro cng.1	" 100
Morfina	fiale 3000
Novocaina cong.2	scat. 200
Panopium	fiale 100
Stovaina	scat. 300
Acetilfenetilina	Nº 5000
Acido acetilsalicilico	" 10000
" fenolinchinolicarbonico	" 1000
Benzonaftolo	" 5000
Bismuto e oppio	" 10000
Dimetilamido antipirina	" 5000
Fenolmetilencitrato	" 5000
Laudano	" 5000
Mercurio bicloruro da gr.0,50	" 20000
" protocloruro	" 5000
Polvere del Dower	" 10000
Potassio permanganato	" 10000
" solfoguaiacolato	" 5000
Sodio salicilato	" 10000
Compresse mussola jodoformio	Pacchi 500
Cotone idrofilo T. A . e B.	Kg. 1000
Fulde di cotone ravvolte mussola	Nº 10000
Fasce mussola 5x0,05	" 10000
" " 5x0,09	" 5000

Declassified E.O. 12356 Section 3.3/NND No. 785020

Mercurio bicloruro cng.1	scat. 500
Morfina	" 100
Novocaina centg.2	fiale 3000
Pancpium	scat. 200
Stovaina	fiale 100
Acetilfenetilina	scat. 300
Acido acetilsalicilico	N° 5000
" fenolinobimoliocarbonico	" 10000
Benzonaftolo	" 1000

No. 1099/P/2 15 May 1945

SUBJECT: Issue of Sulphur Clorodine to the High Commissioner

TO : MMIA Liaison Officer for Sardinia.

I thank you for the approval of the issue of 500 quintals of sulphur clorodine to the High Commissioner for the purpose of destroying the grasshoppers.

The issue will be made with a regular receipt from the receiver.

The use of sulphur clorodine does not require flame throwers.

For your information, I notify you that the War Ministry with telegram 210671/2 dated 10 May has given notice of the shipment in Sardinia for the purpose of fighting against grasshoppers, of 46 flame throwers and the necessary liquid.

M/1 16 April 1945

SUBJECT: Shipment of Medical Supplies to Mainland.

TO : Commanding General, Territorial Office for Sardinia
Attention: Head of Sanitary Section.

1. This office has been informed that there is an urgent need for medical supplies of all kinds on the mainland. Therefore, request that you have prepared for shipment to the mainland, at once, medical stores and supplies of all kinds which are now available in Sardinia. This includes beds, blankets, surgical instruments, medicines, bandages, cotton and all similar items.

2. Small difficulities must not be allowed to interfere with the preparation and movement of this material which must be carried on with the utmost vigor and dispatch.

3. Request that this office be notified when these medical stores and supplies are in Cagliari, giving number of cases or bales and total volume and weight of each type of material.

Med Supplies To Ship

WAR MINISTRY

6/1985/2896

Rome, 5 April 1945

SUBJECT: Shipment of Veterinary Supplies to the Mainland.

TO : MMIA, Rome.

FOR INFORMATION TO: ITALIAN FORCES IN SARDINIA.

Reference letters 647/Sa/Farm dated 10 March and 784/Sa Farm dated 22 March.

Considering:

a. The allocation of medicine made by the writer with letters 6/883 dated 10 February 1945, and 6/2136 dated 24 March 1945.

b. Of the stores of supplies signaled on 15 March by all medical depots.

c. Of the fact that the veterinary service does not have its own pharmacies, must depend upon the military hospitals which have plenty of the medical supplies that should be shipped. For the purpose to stop further reductions of the reserves on the Island. Upon agreement with MMIA Rome we order that the shipment in the referred letters be abolished.

Declassified E.O. 12356 Section 3.3/NND No. 785020

SUBJECT: Disinfectants for Naples and Sardinia

HQ. MMIA
NAPLES SECTOR
Ref: STR/13

22 August, 44

To: AIRT MMIA HQ

Copies: AA and QMG MMIA HQ
TRIEG MMIA HQ
Lov. LO MMIA HQ
MMIA LO Sardinia
14 CRASC (Supply Units)
DIREZIONE SANITA' COMANDO CAMPANIA.

1. The disinfectants position in this Sector is now partially cleared up. Appendix A sets out the position to date.

2. Columns 2 - 4 of the Appendix are the amounts originally authorised for withdrawal by the Italian medical service.

3. Column 5 shows the amounts actually withdrawn by Comando Campania to end August. (A cross-check of these figures is being prepared by 14 CRASC and will be forwarded when received). It will be noted the figures correspond fairly closely with the amounts originally authorised for Sardinia for May/June. The reason is that these quantities were actually withdrawn from the British depot concerned with a view to shipment to Sardinia and were transported directly from depot to dockside (this occurred in the latter part of June). However with the exception of the small amounts marked with an asterisk in Column 6 the whole consignment was shut out owing to higher priority cargo. In the event the balance shut out was back-hauled to Caserma Garibaldi in Naples. The multiple handling thus incurred reduced a large part of the stock to poor condition.

4. At Caserma Garibaldi the stock was partly used for Naples Sector issues (particularly the damaged portions). When first inspected some three weeks ago, the Caserma Garibaldi depot was in a disorderly condition. Possible lines of improvement were indicated to the office in charge (a pharmacist not a warehouse manager) and in a relatively short time to secured considerable improvement. The Garibaldi premises though not ideal are reasonable suitable for a disinfectants store when allowance is made for the difficulty of securing premises in Naples, including a fair space of covered outdoor accomodation suitable for liquids.

5. Meanwhile attempts to secure shipping space to Sardinia continued. The Caleb Strong was promised but nothing resulted. Eventually on the evening of 16 August 44 the consignment was called forward by RTO Water Division for immediate loading 2667 S.S. Joseph Hollister. Labour and transport arrangements were

made (not without difficulty) and the British OKs of MMIA Port Detachment screened the stock refitness for shipment on withdrawal from Caserma Garibaldi while at the same time endeavowring to get as much as possible of the important items actually shipped to Sardinia, Quantities shipped to Sardinia as a result are the non asterisk figures in Column C.

6. For future reference the question of drill for of ~~obtai-~~ OBTAINI ing shipping space for disinfectants to Sardinia requires further consideration. Paras 6 - 7 - 8 - 9 - 10 of attachment to your AG/2/2 of 12 August 44 do not entirely cover the position since Medical Ministry of War and for MMIA have no means of readily ascertaining for each consignment the number and type of packages and the cubage. Moreover the definition of agencies who will act in paras 8 - 9 quoted is not precise and it was due to this that the procedure broke down formerly. (Freght Form 8 undated reference file 3/A/1 created by Movements MMIA HQ for the last consignment and forwarded to Mov Naples copy to Mov AAI was in itself not sufficient to secure shipment).

7. It is therefore recommended that the procedure in future should be for MMIA Naples to advise nett weights, gross weights no of packages, cubage and location where lying to MMIA HQ after ~~the~~ 2. consignment for Sardinia has been completely with drawn by the Italians from THE British depot. MMIA HQ (Movements LO) then arranges for Movements AAI to request SOS Natouss for corresponding shipping space and latter in turn instruct PBS Transportation (Water Division) PBS Transportation call forward the cargo by communicating with MMIA Naples.

8. It will finally be noted that there is at present a balance undrawn by the Italians against previous authorities (May/June/July) corresponding to the amounts in Column 2 and in addition a programme for August withdrawals has been issued under date 18 August 44 (MMIA HQ letter ST/17/1).

9. In order to square up the position in a practical manner, it is recommended that the undrawn balances as at end August (approximately Column 2) be wiped out and the August programmes as per ST/17/1 of 18 August 44 be re-named the September programmes (which in present transport conditions here they are bound in any case to become). As soon as transport conditions allow the next Sardinia parcel (Column 2) to be transported completely to Caserma Garibaldi, details as per para 7 foregoing will be communicated to you.

10. Your instructions in reply to paras 7 and 9 are awaited. Meanwhile withdrawal of the August programmes will be inaugurated for storage in Caserma Garibaldi.

Headquarters A.A.I.
ALLIED CONTROL COMMISSION
Army Sub Commission
A.P.O. 509, U.S. Army

31 July 1944

SUBJECT: Shipment of Medical Materials to Sicily and to the Mainland

TO : Commanding General, Army Sub Commission, ACC
Main Headquarters (MMIA) A.P.O. 394 U.S. Army

1. Reference my cable No. 1116 dated 31 July 1944.

2. A copy of letter No. 9120/op dated 11 July received from Comando Militare della Sardegna is attached.

3. The medical materials asked for by the War Department are required for the following hospitals:

MIRACOLI Military Hospital, Naples
BONOMO Military Hospital, Bari
BITONTO Military Medical Depot, Bari
TRIZIO Military Hospital, Lecce
Military Hospital, Catanzaro
Caserta Military Hospital, Maddaloni
Military Hospital, Catania
San Lorenzo Colli Military Hospital, Palermo

4. In view of the shortage of certain items of medical stores in Sardinia, it is requested that you will go into this matter with the General Military Medical Directorate and advise in due course as to shipment.

F. L. SIMMONS
Colonel, Infantry
Representative in
Sardinia

MILITARY HEADQUARTERS OF SARDINIA (XIII A.C.)
Chief of Staff - Operation Office

No 9120/Op

A.P.O. 50, 11 July 1944

SUBJECT: Despatch of medical material to the continent and to Sicily.

TO : ALLIED CONTROL COMMISSION IN SARDINIA
Colonel Simons' office, Rizzo

1. The War Department, General Military Medical Directorate, in letters no 7135/11 dated 31 May 1944, no 6/1192/M.T. dated 6 June 1944 and no 6/1211/M.T. dated 16 June 1944 requested the despatch to the continent and to Sicily of the following various medical materials:

- 630 boxes - Weight: about 416 quintals - Volume: about 133 cubic meters, to be sent tp the "Miracoli Military Hospital" in Naples.

- 25 boxes - Weight: about 16 quintals - Volume: about 6 cubic meters, to be sent to the "S.Lorenzo Colli Military Hospital" in Palermo.

2. The materials is already stored at the warehouse of the 7th Base, which will furnish the personnel to escort the materials to destination.

3. Therefore your Commission is kindly requested to communicate to us the date and on which surface craft the above mentioned materials could be despatch to the mainland.

We are awaiting a kind reply.

Headquarters A.A.I.
ALLIED CONTROL COMMISSION
Army Sub Commission
A.P.O. 509, U.S. Army

3 August 1944

SUBJECT: Anti-malarial Precautions

TO : Commanding General, Italian Forces in Sardinia

1. Headquarters Allied Armies in Italy have reported that a large number of Italian troops arriving on the mainland from Sardinia are suffering from malaria, and owing to their infection, constitute a potential source of danger to their comrades.

2. Whilst it is realised that it is extremely difficult to contend with this malady in Sardinia, it is felt that perhaps more might be done to minimise the number of cases if it is impressed on commanding officers that it is their personal responsibility to ensure that all anti-malarial precautions are taken in their units. A high percentage of sickness in a unit is a reflection on the efficiency of the commander and his medical staff.

For Colonel F. L. SIMMONS:

P.M.M. EGERTON
Major, R.IR.F.

THE MILITARY HEADQUARTERS OF SARDINIA (XIII ARMY CORPS)
Operations Section

File No. 4030/10/3/Op. APO 50, 27 March 1944.

SUBJECT: Anti-malaria Campaign; units destined to malarial areas.

TO :
: Headquarters VII Army Corps — Sassari
: Headquarters "Bari" Infantry Division — Paulilatino
: Headquarters 203rd Division — Sinnai
: Headquarters 205th Division — Iglesias
: Headquarters 225th Division — Alghero
: Artillery Headquarters Sardinia — Cagliari
: Engineers Headquarters Sardinia — Nuraminis
: Military Headquarters Intendance - Health Direct'ate Bonorva

I - On account of necessities pertaining to the defense of the Island, the following units will stay in their location even though they be in malarial areas:

1. The Observation and Control posts as per Inclosure No. 1;
Strength: 1 squad of 16 men under command of 1 officer;
The headquarters concerned shall establish the entity and location of the unit which is to supply them;

2. The 30 coastal batteries as per Inclosure No. 2, ready to open fire;

3. The units employed in the defense of the radiolocators;

4. The units employed in the fixed defense of the airports used by the Allied Headquarters;

5. The units employed in AA defense and observation and alarm service which cannot be shifted to non-malarial areas;

6. The units employed in the surveillance of the Allied telephone lines of the airfields in the Calgiari area;

7. The units employed in road works on behalf of the Allied Headquarters.

II - All the above units are to be billetted.
The quarters, either brick or frame houses, shall be chosen and located far from swamps, and shall be supplied with:
- double doors;
- mosquito nets at the windows.
The latrines shall be properly located and connected straight with the quarters without any need of going outside.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Declassified E.O. 12356 Section 3.3/NND No. 785020

The headquarters concerned shall establish the entity and location of the unit which is to supply them;

2. The 30 coastal batteries as per Inclosure No. 2, ready to open fire;

3. The units employed in the defense of the radiolocators;

4. The units employed in the fixed defense of the airports used by the Allied Headquarters;

5. The units employed in AA defense and observation and alarm service which cannot be shifted to non-malarial areas;

6. The units employed in the surveillance of the Allied telephone lines of the airfields in the Calgiari area;

7. The units employed in road works on behalf of the Allied Headquarters.

II - All the above units are to be billetted.
The quarters, either brick or frame houses, shall be chosen and located far from swamps, and shall be supplied with:
- double doors;
- mosquito nets at the windows.

The latrines shall be properly located and connected straight with the quarters without any need of going outside.
In particular, every observation and control post shall be supplied with:
- a dormitory frame-house directly connected with the latrine;
- a shed used as kitchen;
- a water tank;

as per attached sketch, Inclosure No. 3.

The Engineers Headquarters, in reference to the above, shall communicate the actual number of frame-houses, the possibility of new constructions, the available timber to be supplied to the concerned Large Units.

III Individual mechanical defenses and the integrating provisions.

1. The personnel of the above units in tour of duty shall be supplied with head-nets and protective gloves. The concerned organization shall request for the above as soon as possible to the Intendance Health Directorate as per Inclosure No. 4.

2. Any water gathered in the bivouac area in open vessels (casks, drums, canteens, etc.) shall be eliminated.

Ltr No. 4030/10/3/Op., continued.

3. At dusk, mosquito-killing cones shall be burned inside the rooms, opening the doors at the same time and shortly after.

The requisition for the above cones, in the strictly necessary amount shall be made to the Health Directorate.

IV - The addressed headquarters, in regard to the present situation of quarters for the above concerned units and to the necessity of securing as soon as possible a rational settlement of the aforesaid, shall address all requests for material and means (on the basis of a proper economy) to the Engineers Headquarters.

The Commanding General
GIOVANNI MAGLI

THE MILITARY HEADQUARTERS OF SARDINIA (XIII ARMY CORPS)
STAFF -- Operations Section

File No. 5351/10/3/op.

APO 50, 22 April 1944

SUBJECT: Anti-malaria Campaign.

TO	: Headquarters VII Army Corps	
	: Headquarters "Bari" Infantry Division	Sassari
	: Headquarters "Nembo" Division	Paulilatino
	: Headquarters 203rd Division	Sanluri
	: Headquarters 205th Division	Simmai
	: Headquarters 225th Division	Iglesias
	: Territorial Headquarters Sardinia	Alghero
	: Armored Group Headquarters	Busachi
	: Grenadiers Group Headquarters	S. Gavino
	: Artillery Headquarters Sardinia	Domusnovas
	: Engineers Headquarters Sardinia	Cagliari
	: Military Intendance Sardinia-Health Directorate	Nuraminis
		Bonorva

1. In order to prepare the units that are to stay in the malarial areas during the coming summer, I direct herewith that a technical course for officers belonging to the above units be started with the Health Directorate.

The course will be attended by one officer from each battalion destined to stay in a malarial area.

The Health Director will provide for the course according to verbal directions already at hand.

2. The antimalaria reclaiming work shall be carried out in all malarial localities and areas.

The addressed headquarters shall direct that reclaiming squads of 12-15 men each and a corporal be formed with every garrison; they shall not be used in any other services for any reason whatsoever, nor shall they leave the area even in the event of a transfer of the unit to which they belong.

The Health Directorate shall provide for the supplying of all equipment required for the reclaiming work.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Military Intendance Sardinia-Health Directorate Bonorva

1. In order to prepare the units that are to stay in the malarial areas during the coming summer, I direct herewith that a technical course for officers belonging to the above units be started with the Health Directorate.

The course will be attended by one officer from each battalion destined to stay in a malarial area.

The Health Director will provide for the course according to verbal directions already at hand.

2. The antimalaria reclaiming work shall be carried out in all malarial localities and areas.

The addressed headquarters shall direct that reclaiming squads of 12-15 men each and a corporal be formed with every garrison; they shall not be used in any other services for any reason whatsoever, nor shall they leave the area even in the event of a transfer of the unit to which they belong.

The Health Directorate shall provide for the supplying of all equipment required for the reclaiming work.

3. All medical or combat forces officers who, through personal experience or observation, can offer any information on the most proper methods and means for the anti-malarial reclaiming shall report same directly to the Health Directorate.

The Commanding General
- GIOVANNI MAGLI -

THE MILITARY HEADQUARTERS OF SARDINIA (XIII ARMY CORPS)
Staff -- Operations Section

File No. 6412/10/3/op.

APO 50, 12 May 1944.

SUBJECT: Malaria Control Campaign. Chemical Prophylaxis.

TO : All Headquarters and dependent organizations.

In order to make the Malaria Control campaign more efficient, to which end both commanders and subordinates are to be engaged, in addition to all previously arranged measures (small-scale reclaiming, anti-larvae campaign, individual and collective mechanical protection, rational theraphy of all malaria stricken persons, establishing of convalescent homes, transferring of troops to areas free of malaria or with a slight endemic) I direct as follows:

All troops listed in the attached inclosure which, due to military necessities, are compelled to stay in malarial areas with serious endemic shall carry out a chemical prophylaxis by means of acridinics (Atebrine or Italchina) from June 1st to November 1st. The chemical prophylaxis is to be restricted to the above servicemen for the five months during which the danger of malaria is greatest, since the amount of acridinics recently received from the War Ministry Military Health Directorate does not permit a more extensive distribution.

The chemical prophylaxis will be effected in bi-weekly administrations - Wednesday and Saturday - with three 10-ctgr. tablets a day, one after breakfast, one after the first meal and one after the second meal. Every serviceman will thus receive 24 tablets a month.

The above prophylaxis will be effective only if it is strictly carried out and therefore I order that all officers and, in their absence, noncommissioned officers to attend to the distribution of the anti-malarial medicaments and to make sure that it be actually swallowed by each serviceman. Moreover, the unit commanders, the officers returned from the Malaria Control course held at the Porto Torres Experimental Station, and especially the medical officers will make sure through occasional inspections that the chemical prophylaxis be strictly carried out, and they will inform the Corps Commanders of any infringements of the strict orders that have been given; such infringements will be severely punished.

As for the requisitioning of the acridinics, the concerned units will

Declassified E.O. 12356 Section 3.3/NND No. 785020

from June 1st to November 1st. The chemical prophylaxis is to be restricted to the above servicemen for the five months during which the danger of malaria is greatest, since the amount of acridinics recently received from the War Ministry Military Health Directorate does not permit a more extensive distribution.

The chemical prophylaxis will be effected in bi-weekly administrations - Wednesday and Saturday - with three 10-ctgr. tablets a day, one after breakfast, one after the first meal and one after the second meal. Every serviceman will thus receive 24 tablets a month.

The above prophylaxis will be effective only if it is strictly carried out and therefore I order that all officers and, in their absence, noncommissioned officers to attend to the distribution of the anti-malarial medicaments and to make sure that it be actually swallowed by each serviceman. Moreover, the unit commanders, the officers returned from the Malaria Control course held at the Porto Torres Experimental Station, and especially the medical officers will make sure through occasional inspections that the chemical prophylaxis be strictly carried out, and they will inform the Corps Commanders of any infringements of the strict orders that have been given; such infringements will be severely punished.

As for the requisitioning of the acridinics, the concerned units will send their withdrawal slips to the Health Directorate, showing the actual present strength and the place where the unit is located. The Health Directorate, on the basis of a simple reckoning, will assign the number of tablets required for the prophylaxis during a period of two months, June-July, August-September, and thru October. If in the future a further quantity of acridinics becomes available, the prophylaxis will be extended through the first half of November. The requisition slips, approved by the Health Directorate will be forwarded, (as is the case with the usual medicaments slips), to the Sammassi and Sassari pharmacies, which will inform the concerned units about the date of withdrawal.

Apply to the Health Directorate for any further explanations.

SUBJECT: Atabrine and Newacrine Tablets for Italian Armed Forces.

MEMO TO: Colonel Doyle

1. As per verbal request for information regarding atabrine or newacrine tablets for Italian Armed Forces in Sardinia, Captain Loseni, staff officer, at Italian Headquarters reports that 2,000,000 tablets type unknown were received approximately three weeks ago. The shipment was turned over to Colonel Reitano, head of the Medical Division. We were not able to contact him or any of his staff last night.

2. Captain Loseni states that Captain De Rensi, Italian medical liaison officer to Allied Garrison of Sardinia has full particulars.

THE HIGH COMMISSIONER FOR SARDINIA
Civilian Affairs Section

File No. 5277/San. 4. April 9, 1944

SUBJECT: Anti-Malaria Compaign.
Assignment of Servicemen.

TO : Military Hq Sardinia. APO 50.

The Superintendent of the Health Services of Sardinia advises that in order to secure the services of the anti-mosquito compaign in the Communes of the island, it is necessary that 2536 servicemen be assigned to the 3 Provinces, who, after having been detailed in the various areas according to a plan by the Province doctors, will be placed at the disposal of the area medical directors and Section Chiefs, in the following ratio:

Cagliari	1536
Sassari	520
Nuoro	280

Since the operations referring to the anti-mosquito campaign will be started at once, I request that you kindly direct that the above number of servicemen be put at the disposal of the civil authorities.

Upon receipt of communications, I will inform your Hq as to the places where the above Provincial doctors direct that such servicemen be sent and their numbers for each place.

Staff - Operations Office.

File No. 5250/10/3. APO 50, April 20, 1944

SUBJECT: Anti-Malaria Campaign 1944.
Assignment of Servicemen.

TO : War Ministry APO 107.
Royal Army General Staff. APO 151.

The High Commissioner for Sardinia has asked me, in order to secure the services in the anti-mosquito campaign in the Communes of the island, to assign to the 3 Provinces 2536 servicemen, who for that particular task, should be put at the disposal of the area medical directors and Section Chiefs located in the various malarial localities to be reclaimed.

While directing that all localities and areas, where military garrisons are located, be drained, I do not deem it proper that troops be employed in the other malarial areas in the island, since, besides failing to observe the principle of keeping military personnel clear of the serious effects of malaria, a dispersion of forces into many little groups would be brought about which might be detrimental to discipline.

Since I have been informed that the use of servicemen in the above special task is contemplated only because a question of financial character, due to the difficulty of payment of civilian labor, whereas the latter would not be an obstacle insomuch as I have often been charged with the hiring of civilian labor, I request your ministry to assign to the 3 Provincial Committees for the anti-malaria campaign in the island the funds needed for the hiring of civilian labor in the anti-malaria campaign.

ALLIED CONTROL COMMISSION FOR SARDINIA
Via Roma, 37, Cagliari.

25 April, 1944.

SUBJECT: Anti-Malaria Campaign.

TO : General Magli,
Military Commander for Sardinia, Cagliari

From : Public Health Office, Allied Commission, Region VI.

---

1. In the meeting held at the Office of the Allied Control Commission on April 17, 1944, at which were present Prof. Brotzu, Col Raitano and Lt Col Dobos, Public Health Officer, Region VI, the following agreements were made:

a. Both the scheme for the anti-malaria campaign for the protection of the Italian troops and that for the protection of the civilian population will be coordinated in such a way as to form as much as possible one general scheme for the anti-malaria program.

b. The Italian troops will be employed for the anti-malaria reclaimation of all grounds where military encampments are located both in the towns and in nearby zones. The Hq of the above units will provide for the supervision of the execution of the work and for the rationing of the troops employed in the above works.

c. For those localities in the vicinity of which there are no encampments, troops will be, if possible, sent to the assistance of the civilian labor. For the above localities the work will be conducted under the mAngaement of the Health Officer, and the town will provide for the rationing of the above troops.

The town will recover in kind from the S.E.P.R.A.L. the additional rations which were distributed for the above work.

d. The approximate number of the servicemen to be employed is at least 3000.

e. The larvae-killing material, and all necessary equipment will be distributed directly to the towns and on the basis of their areas, and not separately to the military and civilian authorities.

f. The military authority for each of the 3 Provinces of the island will put at its disposal a light truck, which will be used for the whole period of the malaria season for the reclaimation works on the land.

g. The Regional Commissioner will try to obtain an additional allotment of oil for the anti-larvae campaign. The above oil will be supplied only in the case that the Army should put at the disposal the above servicemen and vehicles.

Without such troops the utilization and distribution of the above additional oil will not be possible.

Copy to: The High Commissioner for Sardinia. CAGLIARI

In reference to the preparation for the anti-malaria campaign, this Hq thanks you for all the information given them and of which they had obtained a summarized knowledge through Col Raitano, director of the Military Medical Department of Sardinia.

As for the cooperation on the part of the military, it is hereby informed that all provisions for its execution have been made in all localities having a military garrison. For the remaining localities which have no military garrison, that Hq is waiting to learn from competent authorities which localities they may be in order to be able to determine the details.

This Hq has urged the above communications this very day.

Prot.n.5277/San.4

Cagliari li, 9 aprile 1944

OGGETTO: campagna antimalarica - assegnazione di militari.

AL COMANDO MILITARE DELLA SARDEGNA P.M. 50

Il Sovraintendente ai Servizi Sanitari per la Sardegna mi informa che per assicurare i servizi della lotta antianofelica nei Comuni dell'Isola occorre che vengano assegnati alle tre Provincie 2536 militari i quali, dislocati nelle varie zone, secondo un piano stabilito dai medici Provinciali, verranno posti a disposizione dei Medici Direttori di zone e di capi squadra, nella seguente proporzione:

Cagliari	1536
Sassari	520
Nuoro	280

Poichè le operazioni relative alla lotta antianofelica devono avere inizio immediato, prego voler cortesemente predisporre acchè venga posto a disposizione delle Autorità civili il numero di militari anzi indicato.

Appena me ne giungerà comunicazione, farò conoscere a codesto Comando le sedi dove i medici Provinciali hanno stabilito che tali militari vengano inviati ed il numero di essi per ogni sede.

n. 5250/10/3/Op. di prot. P.M. 50 li, 20 aprile 1944

OGGETTO: campagna antimalarica 1944 - assegnazione militari.

AL MINISTERO DELLA GUERRA P.M. 107
e,per conoscenza:
ALLO STATO MAGGIORE R.ESERCITO P.M. 151

L'Alto Commissario per la Sardegna mi ha chiesto,al fine di assicurare i servizi della lotta antianofelica nei comuni dell'Isola,di assegnare alle tre provincie 2536 militari i quali,per il compito particolare,dovrebbero essere messi a disposizione dei medici direttori di zone e di capi squadra e dislocati nelle varie località malariche da bonificare.

Mentre ho disposto per la bonifica delle località e zone ove esistono presidi militari non ritengo opportuno l'impiego di truppe negli altri centri malarici dell'isola in quanto,oltre a venir meno al principio di sottrarre il personale militare dai gravi effetti della malaria,si provocherebbe una dispersione di forze in tanti piccoli gruppi di militari a scapito del governo disciplinare.

Poichè sono informato che l'impiego dei militari nel particolare compito sarebbe dovuto esclusivamente ad una questione di carattere finanziario relativa alla difficoltà del pagamento della mano d'opera civile,mentre per altro questa non difetterebbe in quanto più volte sono stato interessato per assumere operai civili,prego codesto Ministero voler assegnare o voler provocare l'assegnazione ai tre comitati provinciali per la lotta antimalarica dell'isola i fondi ritenuti necessari per l'impiego di mano d'opera civile nella lotta antimalarica.-

IL GENERALE COMANDANTE
- Giovanni Magli -

...vili ...
...civile un unico ente generale di bonifica antimalarica.

b) Le truppe italiane saranno impiegate per la bonifica antimalarica dei terreni ovunque esistano degli accampamenti militari e nell'abitato Comunale che vicino ad esso.
I Comandi di tali reparti dovranno provvedere per il controllo del lavoro eseguito e per l'alimentazione delle truppe impiegate in tali lavori, ...

c) Per le località nelle cui vicinanze non si trovano accantonamenti, sempre chè ciò possibile, sarà invitata dalla truppa in aiuto alla mano d'opera civile.
Per questa località il lavoro sarà condotto sotto la Direzione dell'Ufficiale Sanitario; ed il Comune provvederà direttamente per la alimentazione della truppa.
Il Comune sarà rimborsato in misura del 8.E.F.P.A.L. delle razioni extra da esso distribuite a tale scopo.

d) Il numero approssimativo dei militari che si prevede saranno impiegati è di circa tremila.

e) Il materiale l'rvicida, i rifornimenti e le attrezzature necessarie saranno distribuite direttamente ai singoli Comuni in base alle loro esigenze e non esclusivamente alle Autorità Militari e Civili.

f) L'Autorità Militare, per ciascuno delle tre Provincie dell'Isola, metterà a disposizione una autocarretta che sarà impiegata per tutto il periodo della ...zione per i lavori di bonifica antimalarica dei terreni.

g) La Commissione Regionale cercherà di ottenere un'assegnazione addizionale di Olio per il ...to ...rimborso di questo quantitativo di Olio sarà tramite esso in caso che l'Esercito abbia a mettere a disposizione i veicoli ed il numero dei militari sopra accennati.
Senza tali truppe e veicoli non è possibile fare la distribuzione e l'utilizzazione della quantità addizionale di Olio.

h) Questo accordo dovrà essere sottoposto dal Colonnello Maitino al suo Comando per l'approvazione, ma da una comunicazione del Col. Maitino ricevuta ieri dal Prof. Bruzzu, risulterebbe che ancora non uno dei punti sopra accennati siano stati confermati.

i) E' assolutamente importante che il programma della lotta antimalarica sia immediatamente iniziato, se si vuole che la protezione tanto necessaria per le Truppe Italiane, che per i civili, abbia ad essere effettivamente efficace.
Il Vostro pronto intervento e cooperazione è molto urgente e rispettosamente richiesto.

Per il Commissario Regionale

F.to Henry A. Hale
Col. Inf. Deputy Regional Commissioner

NOTES ON MALARIA WITH REFERENCE TO SARDINIA

1. Attached is letter from S.M.R.E. to all Corps Commanders on subject of camping sites in relation to malarious areas.

2. Attached is detailed report giving the more suitable camping sites in Sardinia.

3. DADMS interviewed ADH FLAMBO on 3.4.44 reference previous letter on anti-malarial equipment for Italian Forces.

(a) Mepacrine or Substitute. - 45,000,000 tablets are the estimated requirements for Italian Armed Forces in Italy, Sardinia and Sicily. ADH FLAMBO doubtful if this amount could be provided by signal sent to AFHQ on 5.4.44. Informed me that mepacrine would be provided for all operational troops, i.e. 3 Divisions, and if possible for all other Italian troops in malarious areas - but that, owing to shortage, the maximum protection by other means must be carried out.

(b) Mosquito Nets. - None exist in Italian Armed Forces and none will be provided (Flambo signal Q(AE)25478 of 25 March refers)

(c) Rotary Mixers and Hand Pumps. - Considered that these can be made locally by Italians. (HQ AAI Adm Ech letter 3031/5/Q(AE) of 19 March refers) Italian Army Medical and Engineer personnel have visited the malarial school at Brindisi to see the improvised methods etc.

(d) Demands for Paris Green, Anti-mosquito ointment, gauntlets, veils and sieves requested in MMIA letter AQ/7 of 13 March has been forwarded to AFHQ. In conversation with ADH, Flambo it was stated that possibly some Paris Green would be available, anti-mosquito ointment was plentiful, but no answer could be given to gauntlets, veils and sieves.

(e) The Italians must use every means in their power to reduce the danger by local drainage works etc.

4. There is sufficient Quinine Salts, Atebrin and Plasmoquin in Italian Army Medical Stores to treat all cases provided these drugs are not used for prophylaxis. On an estimate of 200,000 cases, about 7,000,000 Acridini (mepacrine) are surplus for prophylaxis, 45,000,000 required from Allies.

The Italian Army have arranged to fly the following anti-malarial equipment to Sardinia. (Medical Directorate, Ministero della Guerra letter of 5 April ref refers)

Italchina) Acridinici)	mepacrine equivalent	3,000,000 Tablets 1,000,000 "
Elisir Di China		100 Kilogrammes
Mosquito Veils		4000 No.
Gauntlets		1420 Prs.
Anti-Mosquito Ointment		2000 Tins
Paris Green		400 Kgs.

(d) Demands for Paris Green, Anti-mosquito ointment, gauntlets, veils and sieves requested in MMIA letter AQ/7 of 13 March has been forwarded to AMMO. In conversation with ADH, Plambo it was stated that possibly some Paris Green would be available, anti-mosquito ointment was plentiful, but no answer could be given to gauntlets, veils and sieves.

(e) The Italians must use every means in their power to reduce the danger by local drainage works etc.

4. There is sufficient Quinine Salts, Atebrin and Plasmoquin in Italian Army Medical Stores to treat all cases provided these drugs are not used for prophylaxis. On an estimate of 200,000 cases, about 7,000,000 Acridini (mepacrine) are surplus for prophylaxis, 45,000,000 required from Allies.

The Italian Army have arranged to fly the following anti-malarial equipment to Sardinia.(Medical Directorate, Ministero della Guerra letter of 5 April refers)

Italchina) mepacrine equivalent	3,000,000	Tablets
Acridinici)	1,000,000	"
Elisir Di China	100	Kilogrammes
Mosquito Veils	4000	No.
Gauntlets	1420	Prs.
Anti-Mosquito Ointment	2000	Tins
Paris Green	400	Kgs.

5. Conclusion.

(a) It is strongly represented that if the Allies intend to help, they must do so soon, and get the equipment into Italian Depots.

(b) As many troops as possible should be transferred from Sardinia to the Mainland.

(c) The Italians have issued orders for all possible measures to be taken within their very restricted resources.

(d) The following commodities are required:- (for Mainland, Sardinia & Sicily)

Mepacrine	7,000,000 Tablets per month
Anti-mosquito cream (at British scale)	40 Tons per month
Paris Green	2 Tons per month
Veils and Gauntlets	As many as can be spared.
Spraying Pumps	" " " " " "

Further to 2718 dated 11 March 44.

S.M.R.E. has instructed as per circular referred to above, that as the season approaches and as climatic conditions permit, troops will be transferred for the purpose of training to areas remote from villages and inhabited centres.

In view of the fact that the fair season also implies the malaria season and that:-

(a) the best results from the anti-malaria campaign are to be obtained by all preventive measures and prophylaxis which can only be partially attained by encamped troops,

(b) the scanty availability of quinine must be used for the cure of malaria patients and not for malarial prophylaxis,

(c) availability of synthetic products for the cure and prevention of malaria is very limited,

it is urged that the Commands to whom this circular is addressed ensure that all troops under their Command are encamped in areas and locations which are most certainly healthy.

COPY OF LETTER RECEIVED BY MEDICAL DIRECTORATE, MINISTRY OF WAR
from
MEDICAL DIRECTORATE, SARDINIAN FORCES.

List of ~~areas~~ free or lightly endemic malarious Areas in Sardinia and suitable for military encampments.

1. Northern Zone (limited in the South by a line parallel through Nuoro)

Isle of Asinara - almost completely free
Sassari City - almost certainly free to a radius of 3 Kilometres. The Zones of Rizzeddu and Serrasecca are moderately infected. The zone of Baddimanna is free.
Fiorinas-Muras - Cargeghe - are free and offer great possibilities for camps in wooded country and rich inwater supply .
Osilo - completely free for a radius of 3-4 Kilometres from the inhabited areas; vegetation scarce, water abundant.
Villanova-Monteleone - and surrounding country for about 1 Kilometre in the direction of Montresta and 3 Kilometres towards Alghero. The area of Scala Picada is malarious, despite its ~~height~~ height of 400 metres. The area of the agricultural college on the road to Bosa is not advisable.
Montresta(Frese)- slightly malarious.
Alghero (Town) - free, especially along the shore areas. Towards Fertilia in neighborhood of the Kalik lake is highly malarious and uninhabitable.
Thiesi - In the town there is a scarcity of water. The area of the barracks now in use is malarious.
Ittiri & Vicinity - free.
Ohieramile - free, water supply sufficient.
Borutta - the countryside is slightly malarious and water supply plentiful.
Bonnanaro - very little malaria
Torralba - countryside is lightly endemic.
Ploaghe - slightly malarious and the area around is heavily infected especially towards the station. It is preferable to camp on the road towards Osilo.
Chiaramonti & countryside - wholly malarious.
Tempio & surrounding villages (Calangianus-Luras-Aggius-Bunbius) - It is noted that towards Batigliadas the area is highly malarious.
Ozieri (City) & surrounding hills - avoid absolutely the lowland on the road to Chili Vanni. The area of Morres moderately malarious.
Pattada - For a radius of 2 Kilometres is free and rich in water supply.
Pozzomaggiore & country - slightly malarious.
Borgus & high tableland - up to the area of Baddeselighes are safe, wooded and rich water supply; almost completely free.
Padria -Cossoine-Bonorva - are slightly

Declassified E.O. 12356 Section 3.3/NND No. 785020

uninhabitable.

Thiesi - In the town there is a scarcity of water. The area of the barracks now in use is malarious.
Ittiri & Vicinity - free.
Chiaramile - free, water supply sufficient.
Borutta - the countryside is slightly malarious and water supply plentiful.
Romanaro - very little malaria
Torralba - countryside is lightly endemic.
Ploaghe - slightly malarious and the area around is heavily infected especially towards the station. It is preferable to camp on the road towards Ozilo.
Chiaramonti & countryside - wholly malarious.
Tempio & surrounding villages (Calangianus-Luras-Aggius-Bachius) - It is noted that towards Batigiadas the area is highly malarious.
Ozieri (City) & surrounding hills - avoid absolutely the lowland on the road to Chili Vanni. The area of Morres moderately malarious.
Pattada - For a radius of 2 Kilometres is free and rich in water supply.
Possamaggiore & country - slightly malarious.
Borgas & high tablelard - up to the area of Beddesalighes are safe, wooded and rich water supply; almost completely free.
Padria -Cossoine-Bonorva - are slightly endemic.
Bitti & Orune - free.

2. Central ~~area~~Zone (limited to the south by a line joining Marrubiu to San Giovannia di Sarrala)
Nuoro (City) - considered free. Avoid the area on the road to Oroseai and on the road to Orgosolo.
Mamoiada - free, wooded , good water supply.
Orgosolo - " " " " "
Olloloai-Gavoi-Fonni-Sarula - free
Orani - limited to the town area.
Bortigali & countryside - ~~d~~endemic ~~e~~em malaria
Macomer - free
Cuglieri - free and suitable, abundant vegetation and water works
Scano Montiferro - almost free
S. Lussurgiu - free but not advisable on account of the recent typhoid epidemic and the wooded zone of San Leonardo is preferable
Zone di Seneghe & Bonarcado - almost immune, advisable
Orzai-Teti-Ovodda - most suitable
Seulo-Esterzeli-Sadali-Seui-Ussassai-Gairo-Ulassai-Ierzu-Lanusei-Arzano-VillaGrandi Strissili - these areas are almost immune and suitable. Avoid the valley of Arzano and the country of Isini-Ilbono, including the flat country and delta of Flumendosa which are highly malarious
Nurri-Orroli-Isili - these areas are the least malarious of all the vast zone of Sarcidano and Trexenta.

Declassified E.O. 12356 Section 3.3/NND No. 785020

3. Southern Zone — The area of Ballao-Armungia-Villasalto are considered to be the least malarious in the coastal areas of Sarrabus (Muraverra-Villaputzu-S. Vito) which are highly malarious.

Cagliari City — For a radius of 1 Kilometre is considered almost free of malaria.

Burcei and Sinai — Are considered relatively free

Santangelo — and area above Monteponi (Iglesias) - are suitable for encampment and b billeting

To sum up one can confirm that the coastal belt is highly malarious to an appreciable depth; it is strictly to be avoided for the billeting of troops during the summer and autumn and particular attention is drawn to the highly malarious incidence in the following zones:- Olobia-Porto Torres-~~Castelsardo and the heights of Siniscola~~ - Castel Sardo and Campidani-Sulcis-Sarrabus- and the coastal belt as far as Siniscola; in addition the valleys of all the principal rivers especially Tirso-Coghines and Flumendiosa.

On an average it can be said that in the Southern zone especially in Sulcis Sarrabus and Campidano in Oristano, the malarial season commences on the 1st April on account of the large number of already fully developed anopheline mosquitos, while in the Northern zone especially in the hinterland (valleys of Tirso and Coghinas) the epidemic season commences later, about the beginning of May.

HEADQUARTERS
ALLIED COMMISSION FOR SARDINIA

Cagliari. 9th April 1944

TO : Colonel Simmons, ~~Base Forces~~ 5th Army Sub-Commission.

FROM : Regional Commissioner

SUBJECT : Medical Supplies, Italian Army.

REFERENCE : PH/1314/

1. It is generally agreed that all combat units of the Italian Army receive necessary medical supplies from Allied Military Sources.

2. No satisfactory agreement exists regarding the question whether the medical supply requirements of the non operational units of the Italian Army, Navy and Air Forces should be provided from Allied Military sources or from the medical supplies allocated to the civilian population of Sardinia by the Allied Control Commission.

3. In order to clarify this point, I call your attention to the enclosed communication dated 29 Feb 44, from Allied Force Headquarters, which in paragraph 2 clearly states that not only the combat but all of the Italian Army should be provided with medical supplies by the Allied Military Forces.

4. Medical supplies for that purpose will be obtainable upon the request of the Military Mission. The list of needed medical stores must be forwarded to A.F.H.Q., which will authorise the issue of all approved items.

5. I suggest therefore that you submit to A.F.H.Q., a list of medical supplies needed for the Italian Army, Navy and Air Forces in Sardinia. In the compilation of this list,

Declassified E.O. 12356 Section 3.3/NND No. 785020

operational units of the Italian Army, Navy and Air Forces should be provided from Allied Military sources or from the medical supplies allocated to the civilian population of Sardinia by the Allied Control Commission.

3. In order to clarify this point, I call your attention to the enclosed communication dated 29 Feb 44, from Allied Force Headquarters, which in paragraph 2 clearly states that not only the combat but all of the Italian Army should be provided with medical supplies by the Allied Military Forces.

4. Medical supplies for that purpose will be obtainable upon the request of the Military Mission. The list of needed medical stores must be forwarded to A.F.H.Q., which will authorise the issue of all approved items.

5. I suggest therefore that you submit to A.F.H.Q., a list of medical supplies needed for the Italian Army, Navy and Air Forces in Sardinia. In the compilation of this list, the Public Health Division of my office will gladly assist you, if required

2602

M. Carr Brigadier
M.CARR.
Brigadier.
Regional Commissioner.

MC/pd

Medical Supplies for Sardinia are obtained by requisitioning from to Italian M. of W. who redistribute from their bulk depot in Naples. — Supplies are made in bulk for Allied sources to Italian Depots in Naples & Bari. and NOT at any other point

ALLIED FORCE HEADQUARTERS
APO 512

29 February 1944

AG 400-1 (Italian) CDS-

SUBJECT : Maintenance - Italian Military Forces.
TO : Deputy Chief Administrative Officer, Allied Force Headquarters, Advanced Administrative Echelon.

1. Reference is made to letter, your headquarters 31/5/Q3, dated 17 February 1944. The requirements of the Italian combat divisions are covered by the policy stated in letter, this headquarters AC C91.711-1 (Italian) GCT-ACM dated 10 February 1944 Paragraph 7c.

2. Insofar as the remainder of the Italian Army is concerned the Chief Surgeon at this headquarters is now in the process of specifying requirements in Medical Stores for demands to be placed on the Combined Chief of Staff. Pending a decision in this matter and the setting up of any medical supplies for the combat divisions of the Italian Army or for the remainder of the Italian Army, The Military Mission to the Italian Army should refer to you all requests for Medical Stores and those which are considered essential for the Health of the Italian Army should be forwarded by you to this Headquarters for approval of issue.

3. With regard to Engineer Stores and Works Services, the same general principles and policy will apply, but it should be very exceptional for Allied resources to be called on to meet Italian Army requirements expect as stated in the letter, this headquarters, quoted in paragraph 1, above. In the case of the Works Services and small demands for Engineers Stores, it is inappropriate to refer to this headquarters, and it will be left to you to give authority in such cases - in the light of the above policy.

4. The above is issued to cover the interin minimum needs of the Italian Army since instructions just received from the Combined Chiefs of Staff setting up the Allied sources of supply of all requirements for the Italian Army other than combat equipment, which letter must continue to be supplied from Italian Army sources only. An instruction will be issued shortly to implement the above.

5. Any requests referred to this headquarters for approval will give complete details justifying demand.

By command of General Wilson.

H.Q. No. 1 District.
Col. SIMMONS thru Allied Garrison Comd SARDINIA.

Ref your 3/5/83 dated 22 Feb 44.

1. On 11 Feb 44, Medical Directorate, Italian Ministry of War, were requested to submit requirements for anti-malarial equipment required from Allied sources. This has now been received as follows : -

*	Paris Green (or Malariol)	Tons	6	* Gauntlets	Prs	15,000
	Rotary Mixers	No	100	* Hoods	No	15,000
*	Anti Mosquitoe Ointment	Tons	1½	Spraying Pumps	"	100
	Sieves	No	500	* Hand Pumps	"	700

These demands are required for Italian Army troops in SARDINIA, APULIA, LUCANIA and CALABRIA (strength 290,000) and items marked * are within the British scale of issue. Scale of issue of Rotary Pumps, Sieves and Spraying Pumps is not known, but the incidence of malaria is particularly high in SARDINIA. (This HQ letter, M/2/361 of 11 Feb to DDMS FLAMBO refers.)

2. The return requested for SICILY is not yet to hand. No return is submitted for CAMPANIA as sufficient materials are available to meet the low incidence of malaria in those areas where troops are stationed.

3. There is a fully trained Italian organisation within the Italian Medical Services in SARDINIA and CALABRIA.
Trained personnel are available in APULIA. Anti-Malaria squads have previously existed in all Italian units.

4. Supplies of drugs are being requested through medical channels. No previous indents for above equipment have been submitted.

5. If approval for part or all of above is given, it is requested that issue be made as soon as possible in order that the Italian Medical Service may proceed with anti-malarial control measures at an early date.

Subject: Malaria Control Program in Sardinia

To : Commanding General, Italian Forces in Sardinia

1. It is essential to the Malarial Control Program in Sardinia that all possible used oil of all types be saved and made available for mosquito control measures.

2. It is requested that all used oil resulting from the units and organizations under your control and direction be saved, stored and made available to the agency in charge of malaria control.

For Colonel F.L. SIMMONS:

S. D. MARTIN
Major, C.M.P.

Subject: Medical Returns

Army Sub Commission, MMIA
H.Q., A.C.C.
RCIE
M/12/1600
10 August 44.

Ministry of War, Direzione Generale di Sanita Mil.
S.M.R.E., Sezione Sanita

1. Rendition of Returns from the Medical Directorate, Ministry of War are not being received at this office by the required date.

The delay, especially in respect of supplies, leads to their late submission to higher Allied Authority. Disinfectants will not in future be demanded from Allied sources unless the return is received by the 5th of each month.

2. Instructions for these returns have been issued in the past and in MMIA Administrative Instruction No. 3. A summary of those required from the Medical Directorates has been extracted and attached at Appendix 'A'.

3. Please arrange in future for the prompt rendition of all returns.

W. A. Heggie
Major,
D.A.D.M.S.
Army Sub Commission, ACC.

/REG

Copies to: All MMIA LOs for information.
(Returns as shown at Appendix 'A' are all rendered through Italian channels)

Ministry of War,
Direzione Generale di Sanita Militare

1. On receipt of release authority for disinfectants and other RASC supplies for Sardinia, please instruct:-

(a) Ufficio Transporti, SMRE to apply for shipment to Sardinia.

(b) Medical Directorate Campania to withdraw Sardinia allotment and hold in the Italian Depot Medical Stores Naples, properly packed, and ready for calling forward to ship side.

2. Under no circumstances will the supplies be left in British Depots to await allocation of shipping space.

3. Please inform this office which of your two Depots in Naples, i.e. Miracoli or Caserma Building will in future be used to hold the Sardinia consignments.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Col. F.L. Simmons,
Army Sub Commission,
thru' A.G.C. Sardinia

Reference para F items 5 & 7 MMIA S & T Sector Liaison Officer's Weekly Report dated 24 July 44.

1. Medical Directorate, Ministry of War, issued instructions on anti-fly precautions and other hygiene measures in their letter ref. 4/459/I.S. of 4 March 44 to all Medical Directorates including Sardinia.

2. Majority of supplies of disinfectants for Sardinia for May, June and July are still awaiting shipment at Naples. Delay is entirely due to Allies being unable to allot shipping space on account of other priorities. Movements this HQ has the matter in hand. It is hoped these supplies, about 110 tons (D.W.) will arrive about Mid-August.
