MEMO TO: See Distribution

SUBJECT: Export Shipments by Water

1. Attention of all concerned is invited to Radio from CG, SOS
NATOUSA, paraphrased as follows:

"This order is effective at once.

All Air Corps, Navy, ACC, POL, MRS and all other miscellaneous cargo destined for American or British accounts are to be shipped exactly and/or substantially the same as SOS Shipping Orders. To be issued soon is an SOS Circular covering the handling of these shipping orders. As far as is practical and possible SOS Circular No. 55, dated 1944 will apply. Caution is to be used to see that all shipments are identified by shipping order on all documents pertaining to the cargo.

Loading instructions, name of ship made available by AFHQ and on voy in which ship is to be sailed, will be forwarded by SSTPN cables."

2. In the past this office has accepted requests for shipment from military agencies and has worked off requests for shipment in any space available. This practice has now ceased and the instructions set forth in subject radio will henceforth be followed. It is now required that the various supply agencies report cargo for export through their own channels after which it will be bid in for shipment at the regular AFHQ priority of movement meeting and loading instructions issued by SOS.

MEMO TO: See Distribution

SUBJECT: Railway Priority

1. For a few days and until further notice, the complete capacity of the narrow gauge railway which runs from Paulau to Alghero is taken up with shipment of priority allied cargo. Movement between Sassari and Alghero is very congested. This information is furnished as routine movements in that section will probably have to be accomplished by means other than railway.

24 May 1944

MEMO TO: Major Martin

SUBJECT: SOS CABLE L-21856 MAY 231706P

1. Subject cable paraphrased for your information;

Military necessity of this theater will dictate interpretation of policy outlined in NATOUSA cable F-46516 dated 16 May. It is to be understood that troops will not be loaded aboard vessels transporting explosives when there is other lift available not carrying such dangerous cargo. However, when necessity demands, vessels laden with cargo of this nature will be utilized for the transporting of troops.

It will be the responsibility of this Headquarters to determine the military necessity for directing the loading of troops on vessels transporting dangerous cargo, as outlined in NATOUSA cable referred to above. In each such instance Base Sections will be notified by means of loading lists prepared by this Headquarters. It will then be the responsibility of Base Section commanders to insure that all practicable safety precautions are observed and that explosives are loaded as far distant as possible from the troops. Circular 55, this headquarters, as amended, governs stowage of dangerous cargo.

2. This should give some relief in matters similar to "BOLTON HALL" incident.

MEMORANDUM TO: See Distribution.

SUBJECT : Radio FOX 6816, signed CG NATOSA, Cite NATPN, 161520Z.

Subject message paraphrased for your information:

"SUBJECT: Transportation of Personnel aboard cargo vessels.
It is the orders of this headquarters that personnel be not transported between established ports aboard vessels whose cargo contains types of explosives sensitive to high order sympathetic detonation. Specifically this would be:

Aircraft bombs of all weights
4 2-10" FM Mortar shells
Primacord and primacord mats
Pockets
Rifle grenades
Mines A/T and AP
Bulk explosives and detonators
Bangalore
shaped and cratering demolition charges
Bulk explosives and detonators
Bangalore
Offensive grenades
Sharks
Naval torpedoes and mines

The above items are likely to detonate in mass if subjected to the explosive effects of torpedoes, bombs or mines. This restriction will not apply to ships sailing from a port directly to an operation such as DUKO to SHINGLE.

It will also not apply to cargo security or other army personnel attached to the vessel or necessary to accompany cargo to a maximum of 50 personnel."

NO.

Date 19 April 1944

MAC GRAND NO: NOIC

SUBJECT : CAGLIARI-NAPIES FERRY SERVICE

1. Reference your memorandum of 29 March 1944, subject: "Cagliari-Naples Ferry Service." Your memo mentions the Monticuccoli, Garibaldi, and D'Aosta and states the maximum capacity of each ship as 1,000.

2. The policy as to passenger capacity as stated by you is not in complete accord with CinC message of 311155A Ref. Number V25464, as follows:

For information is following: The capacity of Italian Cruisers and Destroyers for troop ferrying has been fixed as follows: (A) Except for emergency cases and short trips (24 hours), the following are maximum figures for troop transferring. Cruisers, Monticuccoli Class - 1000 men with equipment and personal weapons. Scipione, A Class - 500 men with equipment and personal weapons. Destroyers - 300 men with equipment and personal weapons. (B) Except for emergency cases, no heavy or cumbersome gear should be loaded aboard ships built with light structures, i. e., Cruisers of the Scipione class and Destroyers. (C) Captain should be informed of cases embarked containing explosives in order to provide for storage and security.

3. This message is brought to your attention in view of the fact that there seems to be an impression that there is an iron-clad maximum lift intended. It is apparent from the message quoted that there is no such intent.

4. Word has reached me that in regard to the proposed loading of 1042 personnel on the Monticuccoli for today (20 April), the Captain of the Monticuccoli has stated that if an attempt be made to load more than 1,000 personnel he would not let anything be embarked. Word has also reached me that the Captain of the Pompeo Magno has stated his absolute maximum to be 500.

5. It is requested that the necessary action be taken by you to provide latitude in the loading of these ships so that the maximum capacity can be utilized and to allow for the shipment of troop units complete.

APO 534

22 March 1944

SUBJECT: Movement of Italian Service Units to Corsica
TO : All Concerned

1. Inclosed is a schedule of the movement of subject units. It will be noted that this schedule, beginning embarkation on the 25th of March is based on movements for three consecutive days, thence a day on which no movement is scheduled. The purpose of this cycle is to allow for such exigencies as weather, breakdown of equipment, units failing to move as scheduled, etc.

2. Embarkation requirements are as follows:

a. Each unit to carry three (3) days rations on entrainment.

b. Each unit to prepare and carry with it, three (3) copies of nominal rolls, one (1) copy is to be turned over to U. S. NCO (Master Sergeant York) in charge at embarkation point at Santa Teresa Gallure, two (2) copies are to be carried to destination for delivery to Northern Base Section Reception authorities.

3. Strengths shown for each unit are subject to variation due to recent additions and prospective elimination of ineffectives

4. All units will move to entraining points under their own arrangements except the 225 Company Lavoratori at Porto Torres for which Company transportation to the entraining point at Sassari will be provided by Capt. E. E. Coveil, Assistant Transportation Officer, Sassari District.
