His Excellency, Marshal Messe
Chief of the Supreme General Staff

Your Excellency,

In accordance with instructions received from Allied Force Headquarters, I write to inform you of the following revised policy for the Italian Army:

1. The total ration strength of the Italian Armed Forces including Navy, Air Force, Army and Carabinieri will not exceed 500,000. This figure to be subject to review downwards from time to time.
2. The policy regarding rations and clothing issued from Allied sources to the Italian Armed Forces is laid down in AFHQ Letter AF 400-1 (Italy) GCS-100M of 9 Jan, which has already been communicated to you under REF/AFS of 19 Jan. As regards Italian military resources, those captured in SICILY have been reserved for other work, except for certain supplies which are being released; those in SARDINIA and on the mainland are at your disposal.
3. As regards the Army in particular
 - (a) 1. division should be equipped from Italian resources and placed in combat at an early date.
 - (b) Two additional divisions with the role of internal security should be located one in UFFL and one in CALABRIA. They should be armed and equipped as existing resources permit and trained with a view to eventual combat.
 - (c) The total ration strength of the above three divisions should not exceed thirty two thousand. The DAPNO Group and the 10570 Division to be included in this total.
 - (d) The SARDINIA Division should be equipped on a scale suitable for its role of internal security in SICILY.
 - (e) The remainder of the Italian Army will be at the disposal of Commander in Chief, Allied Central Mediterranean Force. He will define the numbers required for the defence of SARDINIA, and on the mainland for internal security North of the Line NAPLES - PUGLIA, according to circumstances.
4. I attach hereto at Appendix 'A' lists of the units required in the immediate future for employment with the Allies. So far as can be defined in the changing circumstances of war, they are in order of priority.

3. As regards the Army in particular

- (a) A division should be equipped from Italian resources and placed in combat at an early date.
 - (b) Two additional divisions with the role of internal security should be located one in AFRICA and one in GABONIA. They should be armed and equipped as existing resources permit and trained with a view to eventual combat.
 - (c) The total nation strength of the above three divisions should not exceed thirty two thousand. The DIVINO Group and the NEDDO Division to be included in this total.
 - (d) The SARABA Division should be equipped on a scale suitable for its role of internal security in SICILY.
 - (e) The remainder of the Italian Army will be at the disposal of Commander in Chief, Allied Central Mediterranean Force. He will define the numbers required for the defence of SARDEGNA and on the Mainland for internal security North of the line NAPLES - ROMA according to circumstances.
4. I attach hereto at Appendix "A" lists of the units required in the immediate future for employment with the Allies. So far as can be defined in the changing circumstances of war, they are in order of priority.
5. Equipment from SARDEGNA is planned to take place at the rate of ten thousand men per month. Owing to recent wastage from demobilisation on the Mainland and in view of anticipated urgent requirements for labour and guard duties in GABONIA, ten brigades are included in Appendix "A" in priority next above NEDDO Division. If sufficient men can be found on the Mainland to meet the needs of the programme, these brigades can be dispensed with for the time being and the transfer of NEDDO Division accelerated accordingly.
6. There will be a conference under the chairmanship of Lt Gen Sir Noel MASON MACFARLANE when you have had the time to consider the programme. If you will inform me when you are ready for such discussion, I will arrange time and place.

For the Deputy President Allied Control Commission

Handwritten signature

Brigadier,
Army Sub Commission A.O.C.

SUBJECT: Amendments to Priority List Number Seven
TO : Commanding General, Allied Armies in Italy

1. With reference to Priority List No. 7, revised copy, forwarded under cover of your No. 1618/19/6(SBL) dated 22 June 1944

2. Serial 97A Base Group, Bonifacio.

From information submitted by the Comando Militare della Sardegna, this Base Group, as such, has ceased to exist and should therefore be eliminated from Priority List. There is, however, an Ufficio Stalcio at Ajaccio (strength 8 officers and approximately 60 Other Ranks) whose duties appear to be the settlement of claims made by French civilians against the Italians and the gradual liquidation of Italian troops from Corsica.

It is estimated that this work will take from 2-3 months.

Under the administration of the Ufficio Stalcio comes the 179 Tappa referred in paragraph 3 below.

3. Serial 97B Command Group 279

The strength of this group is 4 officers and 10 Other Ranks. Its duties are to administer the Yugo-Slav troops now in Corsica.

It would appear therefore, that so long as the Slavs remain in Corsica this group will also remain. Suggest this serial also be eliminated.

4. Serial 175 1 Battalion Presidario.

In confirmation of my Cable AGS Yoke 218 of June 24, this Battalion was disbanded on 10 June in order to find sufficient personnel for the other units which arrived from Corsica. Please amend Priority List accordingly.
