TO : MMIA - Liaison Office for Sardinia - CAGLIARI

The Italian Army General Staff (SME) with circular 11500 dated 10 March 1945 has set the T/O of the 14th Hygiene Platoon at 1 officer and 27 RM as from the Order of Battle attached to the "Italian Army Strength State No. 2/10 dated 8 June 1945".

Io S.M.R.E., con circolare n° 11500 del 10 marzo c.a., ha fissato l'organico del 14° Reparto disinfezione per la Sardegna in 1 ufficiale e 27 militari di truppa come dal quadro di battaglia allegato alla "Situazione forza del R.Esercito Italiano alla data del 1°3 giugno 1945" N. 2/10.

Con foglio n° 5975/MP del 9 maggio c.a. diretto all'Ufficio di Sanità della Sardegna, la direzione di sanità del Comando Militare Territoriale di Roma indicava invece tale organico in 1 ufficiale e 30 sottufficiali e truppa e, a seguito di richiesta di precisazioni di questo Ufficio, lo ha riconfermato con foglio n° 8081/MP del 7 corrente mese aggiungendo che la sollecitata circolare 11500 dello S.M.R.E. dev' intendersi modificata in tal senso.

Poiché è da presumere che tale variazione di organico sia stata stabilita in accordo con la M.E.I.A. di Roma, pregesi cotesto Ufficio di voler cortesemente apportare le conseguenti varianti nell'ordine di battaglia n° 2/10.

  - (d) Average daily feeding strength of Italian Navy.
  - (e) Average daily feeding strength of Air Force.
3. It is appreciated that at first this may present some problem as probably the officers in charge of your Supply Depots do not know the category of all units. Each Commissariato, however, should be in a position to supply the necessary information to Depot Commanders.
4. The first strength return should be handed to M.M.I.A. L.O. on 25th April 1945 and bi-monthly thereafter.

1. Difficulty is being experienced in arriving at an accurate average feeding strength in Sectors of the various categories of I-its drawing rations from Italian Depots and it is thought the Territorial Commissariati do not pay sufficient attention to this important subject.

2. Accordingly, will you please arrange for your Commissariati to render to each M.M.I.A. L.O. on the 25th and 10th of each month, the following information :-

- (a) Average daily feeding strength of BR-ITIS during feeding period (i.e. 21st to 5th or 6th to 20th).
- (b) Average daily feeding strength of US-ITIS.
- (c) Average daily feeding strength of III-ITIS.
- (d) Average daily feeding strength of Italian Navy.
- (e) Average daily feeding strength of Air Force.

3. It is appreciated that at first this may present some problem as probably the officers in charge of your Supply Depots do not know the category of all units. Each Commissariato, however, should be in a position to supply the necessary information to Depot Commanders.

28 August 1945

SUBJECT: Rations - Incorrect ST/S's.

TO : Commanding General, Territorial Office for Sardinia,  
Commanding Officer, CC,RR Legion in Sardinia  
Commissary Section for Sardinia (Direct).

1. Further to our R/S, subject as above, dated 23 August 1945, and even after having conferences with Commissary Section and CC,RR we continue to receive MMIA ST/S Forms that are incorrect. Enclosed herewith is Appendix "A" showing a list of such.
2. Most of the discrepancies are due to incorrect unit designation and issuing to unauthorized personnel in Sardinia. Also a few issued to CC,RR on Army forms and issues to Army on CC,RR forms.
3. The Distributing Depots and Bakery are not complying with instructions in our R/S subject, Rations - CC,RR of 1 August. They should also have extracts of the Order of Battle for Italian Army in Sardinia showing authorized units and strength and before making an issue to check same to determine that they are issuing to authorized units with correct designations, and not issue otherwise. This office forwards a copy of Order of Battle to Commanding General, Italian Forces in Sardinia, upon receipt from MMIA Rome. The last copy was No: 2/11 as at 8 July 1945.
4. We note that the Military Hospital Cagliari, does not have the correct designation on the ST/S and drew rations for unauthorized personnel. Personnel on leave from the Mainland are not entitled to Military rations even if they are confined to Hospital for treatment.
5. Again request that more care be taken in completing ST/S's. It will save your time and mine. The correct way is always the best way.

R/S

23 August 1945

SUBJECT: Rations - Incorrect ST/B's.

TO : Commanding General, Territorial Office for Sardinia,  
Commanding Officer, CC.RR Legion in Sardinia,  
Commissary Section for Sardinia (Direct).

1. In checking 55 ST/B Forms from the Cagliari Distributing Depot and Bakery dated 21 August, we discovered that 14 forms had 36 discrepancies as shown in Appendix "A" attached.
2. The instructions given in our R/S subject Rations - CC.RR of 1 August were not complied with by either the CC.RR units involved or the Distributing Depot and Bakery. And other instructions were not complied with by the Army units involved. Recommend that personnel from the Commissary Section make personal inspections at the Distribution Depots and Bakery to see that their instructions are carried out.
3. In some instances Army are drawing rations on CC.RR ST/B Forms and CC.RR are drawing rations on R E ST/B Forms as attached personnel. Rations for Army and CC.RR will only be drawn on their respective ST/B Forms regardless of the small number involved.
4. Colonel Rossi, Commissary Section advised me yesterday that officer at Bakery had too much work but at the same time unnecessary work was assigned to him by having units draw flour there at the Bakery when it should be drawn at the Distributing Depot. The only units that will draw flour at the Bakery are those that draw part bread and part flour, those that draw flour only will draw same at the Distributing Depot. I gave instructions to this effect to the Officer at the Bakery. Also if the officer at the Bakery is over tasked, assign him more help there are plenty doing practically nothing. Instructions must be carried out.
5. May I state it is not only the duty for a higher command to give instructions but to check to see if they are understood and obeyed.
6. Request greater care be taken to assure the correct issue of rations. As I have previously pointed out all rations issued without authority will be recovered, unfortunately at the sacrifice of troops who are not at fault.
7. The 59th Regt. drew 888 bread rations and 800 regular rations on 21 August. Commissary Section will check this discrepancy and if over drawn for bread to correct by underdrawing, advising this office of action.

ROBERT R. ALBERT,  
Lt. Colonel, Infantry,  
Senior Liaison Officer.

Cagliari

On the basis of letter R/3 of your office, I have written to my General Headquarters to get urgently the authorization to issue rations on the basis of the present strength on the Island, about 3100 men, and not on the basis of the authorized strength of 2270 men.

In the meanwhile, I request you to wait to reduce the number of rations because it is not possible, in a short time, to change the supplying system and supply some CC. TR. with the Allied rations and some other units with the civilian rations. About 850 men would be without food and they are on normal duty.

In base alla lettera di codesto ufficio R/3 del 3 corr. ho interessato il comando Generale perchè provveda con l'urgenza che il caso richiede ad ottenere dai competenti organi l'autorizzazione affinchè la distribuzione dei viveri in natura venga effettuata in base alla forza media presente nell'isola che si aggira su 3100 unità anzichè in base alla forza autorizzata di 2270 unità.

In attesa che venga stabilito dal suddetto comando come dovrà essere definita la pratica relativa - di cui mi riservo comunicare l'esito - prego soprassedere alla riduzione del numero delle razioni, non potendo in breve tempo cambiare sistema di approvvigionamento ed istituire uno misto e cioè una parte con razioni alleate ed una parte con acquisti diretti per i quali sono necessari complesse pratiche con gli enti locali. Si tratta di ben 830 militari che resterebbero senza possibilità di vitto e che pur prestano regolare servizio.

SUBJECT: Rations - CC.RR.

TO : Commanding Officer, CC.RR. Legion in Sardinia.

1. By your strength state as at 31 July you show an effective strength of 3268 officers and enlisted men. In accordance with our R/S subject as above dated 1 August we instructed that rations can only be drawn for 3108 officers and men less actual number on leave, AWOL, prison and in hospital. As previously pointed out, a number of times, personnel on leave, AWOL and in prison are not entitled to rations. Rations for personnel in hospital are drawn at the hospital for same. Your effective strength is therefore 160 over authorized strength and under no circumstances will rations be drawn for them effective 1 August. If same has been drawn you will underdraw to recover them.

2. The 12 CC.RR. on guard at the Cagliari Bulk Depot should be included in the authorized strength for Sardinia and entitled to rations as such.

3. The 298 Mueloc CC.RR., 91 Detachment at Cagliari and 3 CC.RR. at Sassari are in the Order of Battle and entitled to rations, over the 3108 strength ceiling.

4. All CC.RR. attached to the Italian Air Force or Italian Navy are unauthorized and not entitled to rations as such.

5. Your Capt Luminosa this morning did not seem to be fully acquainted with the situation as explained to him over a week ago, with Major Palma, Commissary Section, and which was confirmed by writing to your office. If there are any further explanations required please call on me. But the instructions regarding the issue of rations must be complied with fully. Q/1/7B-1  
14 June 1945

TO: See Distribution.

1. Continued checks by this headquarters reveal that, in a large number of cases, the number of rations actually drawn by CC.RR units exceeds the personnel authorized for the unit. In one sector during a given period of time, the authorized number of CC.RR was 4326; and when all of the ST/3's were received covering issues, it was found that an average of 5787 rations had been issued.
2. It is not material to the issue whether or not the total number of rations drawn by CC.RR throughout all Italy has been exceeded. It is obvious that if overissues are permitted in one instance, that the time may come when all units will overdraw which will result in a large overissue. CC.RR units are authorized to draw rations only for the actual number of effective personnel present with the unit, and proper adjustment must be made for rations drawn and not issued on account of men absent during the period. At the next ration issue period, it is possible to adjust for either overissues or underissues, and, in a few cases which occur, to adjust for authorized personnel attached to a unit. If the instructions are strictly adhered to, there can be no injury to any unit.
3. The Order of Battle of the Carabinieri has been published under file SD/41/2 of 24 May 1945. This Order of Battle plainly shows the authorized strength of each unit and sub unit.
4. The Ministry of War will issue instructions to all Italian depots, effective 1 July 1945, that no issues will be made to Carabinieri Units in excess of the authorized strength, properly adjusted on the ST/8 to reflect the actual number of rations due for a particular period.
5. All MMIA IO's will insure that depots in their areas are familiar with this instruction.

TO : Commanding General, Land Forces Sub Comm AC (MMA) Rome  
Attention: Lt. Colonel Ross.

1. Further to our signal Y 569 of 1 August regarding report of action taken on instructions given in your note at bottom of MMA Q/1/29-156 of 28 July.

2. Personally called in conference representatives of Commissary Section and Supply Officer CC.RR this date, explaining in detail instructions given by MMA letter Q/1/7 E-1 of 14 June and Q/1/29-156 of 28 July and for strict compliance of same, giving each a copy of both instructions. Also gave each a copy of Order of Battle for CC.RR in Sardinia in accordance with your SD/47 of 11 July. Likewise gave Commissary Section representative a copy of Order of Battle for each of the Distributing Depots and Bakery and directed him to contact all Distributing Depots and Bakeries, this date by phone and instruct them not to issue any rations to CC.RR until they had received a copy of the Order of Battle.

3. The representative CC.RR stated that the CC.RR in Sardinia were not organized as yet in accordance with the Order of Battle as to actual strength in each unit. I therefore authorized him to draw rations until 20 August for units only stated in Order of Battle and the sum total of rations for Sardinia not to exceed Order of Battle strength less personnel on leave. AWOL etc. After 20 August not to draw any rations for any unit in excess of what is stated in the Order of Battle.

TO : Minister for War

1. In checking our Ration Issue Notes (MIA Form ST/S's) covering the issue of rations to CC.RR units, it has been discovered that our letter Q/1/73-1 of 14 June 1945 is not being complied with. We are still receiving Ration Issue Notes (MIA Form ST/S's) covering issues of rations to units which are apparently CC.RR, but cannot be reconciled with the Order of Battle of the Carabinieri as published under file SB/41/2 of 24 May 45 and amendments thereto.
2. Inclosures 1 through 14 are being forwarded to enable you to readily see that depots in all areas are not complying with the instructions. The inclosures are to be returned to this Headquarters.
3. You will take such steps as are necessary to insure that our instructions are carried out. Rations issued to units of the CC.RR not appearing on the authorized Order of Battle after August 1, 1945, will be considered as issues to unauthorized units and such rations will be charged back to your ration account, to be recovered in kind by a reduction in the Ration Scale. Therefore, immediate action will have to be taken to prevent your depots from continuing the issue of rations to units not appearing on the authorized Order of Battle.

TO : Commanding General, Land Forces Sub Comm. AC (M.M.I.A.) Rome.

1. Reference paragraph 4 of your letter 3/1/7 B-1 dated 17 June 1945.
2. Upon receiving the Order of Battle for CC.RR (Your SD/41/2 of 24 May), I contacted the CC.RR in Sardinia and was advised that the over-strength was due to the authorized Training Battalion at Iglesias, mobile Battalion and 800 excess that were alerted for the mainland in May which was later cancelled.
3. Upon further investigation, it was discovered the effective strength as at 15 June was 3302, an excess of 1032 over the authorized strength 2270 in accordance to your SD/41/2 of 24 May. Made up as follows:

| <u>Unit</u>                       | <u>Personnel</u> |
|-----------------------------------|------------------|
| ** Training Battalion at Iglesias | 337              |
| ** Mobile Battalion               | 120              |
| Excess                            | 575              |
| Total                             | 1032             |

\* Authorized by M.M.I.A. SD/28 of 24 January 1945.

\*\* Authorized by CC.RR Branch of Liberated Italy letter No. 3/2 of 4 March 1944.

4. Note that in paragraph 2 of your SD/28 of 24 January 1945, you state the Mobile Battalion is to be formed within the existing ceiling of CC.RR. Request clarification if the ceiling mentioned is the one for Sardinia (2270 m/a) or ceiling for all CC.RR (55,000). CC.RR Legion here interpret it to be the latter and claim their effective strength number (3302) is within the authorized over all CC.RR strength (55,000).

5. The feeding strength with units as at 15 June was 3101 plus an additional 56 in Hospital. Total feeding strength 3157.

6. In view of the above, request to be advised as to the authorized feeding strength of CC.RR in Sardinia.

SUBJECT: Formation of a CC.RR Cadet Battalion for Sardinia.

TO : Headquarters CC.RR Legion of Cagliari in Nuoro

Reference to letter No. 3008/37 dated 12 February 1944, your Headquarters, forwarded to Reg. CC.RR Branch of Liberated Italy, and as per orders received from H.E. Commanding General, I am kindly applying to Colonel Ravenna in order to consolidate in one unit at earliest possible date, the various groups of CC.RR cadets now scattered between Cagliari, Sassari and Oristano. Due to obvious reasons, training of new personnel to be incorporated by CC.RR must be organized by regular units, not smaller than a company and into a Battalion formed by at least two companies with the maximum authorized strength, if practicable.

It is necessary that, according to specific instructions received by H.E., that every difficulty which might arise for the formation of at least one organic CC.RR Cadet Company, be overcome at earliest date.

It seems to be more convenient that said Company be formed either within the same station of Legion Headquarters or within one of the dependent groups so that a necessary supervision and control can be displayed over it, since it must operate as well as required by a Training Center.

I will be very grateful to Colonel Ravenna if you would enable me to assure H.E. Commanding General that his orders have been complied with.

Subject: Rations - CC.RR.

Land Forces Sub Comm. A.C.  
(M. M. I. A.) ROME  
2/17E-1

147 11 June 1945

To: See Distribution.

1. Continued checks by this headquarters reveal that, in a large number of cases, the number of rations actually drawn by CC.RR units exceeds the personnel authorized for the unit. In one sector during a given period of time, the authorized number of CC.RR was 4526; and when all of the SF/8's were received covering issues, it was found that an average of 5787 rations had been issued.

2. It is not material to the issue whether or not the total number of rations drawn by CC.RR throughout all Italy has been exceeded. It is obvious that if overissues are permitted in one instance, that the time may come when all units will overdraw which will result in a large over-issue. CC.RR units are authorized to draw rations only for the actual number of effective personnel present with the unit, and proper adjustment must be made for rations drawn and not issued on account of men absent during the period. At the next ration issue period, it is possible to adjust for either overissues or underissues, and, in a few cases which occur, to adjust for authorized personnel attached to a unit. If the instructions are strictly adhered to, there can be no injury to any unit.

3. The Order of Battle of the Carabinieri has been published under file SD/44/2 of 24 May 1945. This Order of Battle plainly shows the authorized strength of each unit and sub-unit.

4. The Ministry of War will issue instructions to all Italian depots, effective 1 July 1945, that no issues will be made to Carabinieri Units in excess of the authorized strength, properly adjusted on the SF/8 to reflect the actual number of rations due for a particular period.

5. All MILIA LO's will insure that depots in their areas are familiar with this instruction.

CC.RR TERRITORIAL LEGION CAGLIARI  
Administration office - 1st Section

No. 6059/21

16 June 1945

SUBJECT: Strength of the Legion.

TO : M.M.I.A. Liaison Office

Cagliari

Reference letter R/3 dated 7 June, you are informed:

1. The strength of 3398 was not communicated by this Headquarters. From information received from the Commissary it seems that this figure represents the average of rations drawn in the 15 day period 21 April-5 May, a total of 50,988 rations which divided by 15 days gives 3398, the forementioned figure. Your attention is invited to the fact that many of the stations drew, in the 15 day period, for a month and therefore the average stated does not correspond to the real situation, but is somewhat greater.

2. The strength of 2504 was not communicated by this Headquarters. It represents the average of rations drawn in the 15 day period 6-20 May 1945, for a total of 37,560 rations, which when divided by 15 gives the forementioned figure 2504. Your attention is invited to the fact that many of the stations already having drawn for a month, did not draw rations for this 15 day period as a result, the daily average reported does not correspond to the real situation but is noticeably less.

Nevertheless, the general average of rations drawn in the two 15 day periods (  $3398 + 2504 \div 2$  ) is 2951 which corresponds to the daily average ration strength for the Legion.

3. The strength of 2270 represents the T/O strength which will be met as soon as the situation in Italy becomes normalized but it is pointed out that the CC.RR surplus in this Legion are deficient in other Legions, however, they are included in the general strength for the CC.RR which is 55,000 units (65,000 according to communication from General Headquarters).

As requested by said General Headquarters 850 CC.RR are alerted for Legions in Northern Italy and upon their departure this Legion will have a strength less than that stabilized.

Declassified E.O. 12356 Section 3.3/NND No. 785020

4. In any event it is pointed out that the strength as per paragraphs 1 and 2 of this letter, as well as the ration strength reported by this Headquarters periodically, includes the men of Training Battalion at Iglesias (average strength 370) which cannot be considered as strength of this Legion but is included in the general strength 55,000 or 55,000 stabilized for the CC.RR Services.

In relazione al foglio n.R/3 del 7 corrente si comuni-

ca:

1°)-La forza di 3398 non è stata comunicata da questo comando. Dalle notizie potute assumere presso il Commissariato risulta che essa corrisponde alla media dei prelievementsi effettuati nella quindicina di aprile -5 maggio 1945, per un totale di 50939 razioni che divise per 15 giorni danno appunto la forza suddetta (3398). E' però da tener presente che molte stazioni prelevarono, nella suddetta quindicina, per un mese e quindi la media segnalata non corrisponde alla reale situazione, ma risulta sensibilmente maggiorata.

2°)-La forza di 2504 non è stata comunicata da questo comando. Essa corrisponde alla media dei prelievementsi effettuati nella quindicina 6-20 maggio 1945, per un totale di 37559 razioni, che, divise per 15 giorni, danno appunto la forza suddetta (2504). E' però da tener presente che molte stazioni, avendo già prelevato per un mese, non prelevarono viveri in questa quindicina, di guisa che la media giornaliera segnalata non corrisponde alla reale situazione, ma risulta sensibilmente inferiore.

Cosunque, la media generale dei prelievementsi effettuati nelle due quindicine [(3398+2504):2] è di 2951, che corrisponde appunto alla reale media giornaliera della forza vettovagliata della Legione.

3°)-La forza di 2270 costituisce l'organico al quale <sup>69</sup> <sub>(2951)</sub> arrivare

risponde alla media dei prelievi effettuati nella quindicina 21 aprile -5 maggio 1945, per un totale di 50959 razioni che divise per 15 giorni danno appunto la forza suddetta (3398). 3°)-La forza di 2270 costituisce l'organico al quale dovrà arrivare quando la situazione sarà normalizzata in tutta Italia, ma è da considerare che i militari che in eccedenza a questa Legione sono in seno presso altre Legioni. Essi, comunque, sono compresi nella forza generale autorizzata per l'arma dei CC.RR. che è di 55000 unità

(65.000 secondo quanto è stato di recente comunicato dal Comando Generale).

Per richiesta di detto comando generale, 850 militari sono approntati per le Legioni dell'Italia del Nord e con la loro partenza, questa Legione avrà una forza inferiore a quella stabilita.

4°)-Ad ogni modo è da tener presente che nella forza di cui ai nr. 1 e 2 della presente, come in quella che viene periodicamente segnalata da questo comando quale forza vettovasciata, sono compresi gli uomini del battaglione allievi di Islesias (forza sedic 370) i quali non possono gravare sulla forza assegnata alla Legione, ma essere compresi in quella generale (55.000 o 65.000) stabilita per tutta l'ARMA. -

SUBJECT: Ration Strength.

TO : MMIA

1. The report made with letter 6059/17 dated 20 April is for the present strength of the month of March at the 280 stations that have the right to draw rations. Also are the soldiers of other corps attached for rations to the Carabinieri (soldiers attached to recruiting centers) the Carabinieri attached and afterwards sent back to their original corp, and the cadet Carabinieri at the Bn. of Iglesias.

2. In the letter 1148/18 dated 30 April has been shown instead the strength approximate average in service at the various stations at the date 30 April, and therefore have not been included the soldiers of other corps attached for rations to the Carabinieri, the attached Carabinieri, and the cadet Carabinieri.

3. The discrepancy, therefore, is due to the fact that the data contained in letter 6059/17 are for the month of March while the data contained in letter 1148/18 are for 30 April.

4. In respect to this we assure you that the strength report is subject to an examination by our legion on the basis of exact charts that the stations fill in and forward monthly to this office, which checks and sees that the rations drawn are according to the present strength.

General Hq of CC.RR. Branch in telegram No. 89/3 dated 29 April ordered that 850 servicemen be assembled in proper stations and organized so that they will be ready to leave upon 12 hours notice.

Upon agreement with military authorities the assembling will take place 2 and 3 May at Iglesias (350 men) and Cagliari (500 men).

In compliance with above dispositions, the following personnel will be alerted:

|             |     |
|-------------|-----|
| Captains    | 2   |
| Lieutenants | 4   |
| NCOs        | 50  |
| Troops      | 620 |
| Total       | 850 |

The requested strength represents slightly less than a third of the average present strength of the Legion (2700 men of which 593 are NCOs) and such proportions have been used in reducing the strength of respective provinces.

Consequently, all the services will be proportionally reduced and orders have been given in that regard.
