Request #2

RATIONING - ITALIAN TROOPS

It is requested that authority may be given to ration a further 35 Italian soldiers from service supplies at this headquarters.

2. The increased commitment of this Headquarters in handling bombs, petrol, etc., have rendered it impossible for these men to be transported to their camp site for meals.

3. This headquarters already has authority to feed 47 Italians from service supplies so the total will now be 82.

SUBJECT: Request to Draw Ration for Yugo-Slav Soldiers.

TO : G-4, Headquarters Allied Garrison of Sardinia, APO 650, U.S. Army.

1. There are attached to this unit, the 1972nd Quartermaster Company Trk. (AVN), fifteen (15) Yugo-Slav Soldiers. These men came to the organization on or about 18 December, 1943 and since the date have lived and rationed here in the company.
2. For some time we drew class "B" ration for all of these men but recently a communication from higher headquarters directed that this practice be stopped immediately. The order was complied with until 14 May, 1944 at which time we received a letter from your headquarters, subject, "Rationing of Italian Personnel Employed in U.S. Messes", authorizing an organization of 100 men to employ 5 helpers for the mess. At this time we began to draw class "B" ration for only the five men we employed for labor in the kitchen.
3. However, in addition to the five men mentioned above, the unit employs ten (10) Yugo-Slav soldiers who do guard duty and other labor details other than those of the kitchen. During the day light hours these men walk guard duty alone but at night they are accompanied by one of our men. They have been of great assistance in keeping a sanitary camp and also in ridding the area of any Italians, ~~in~~ civil or military, who otherwise would trespass. In handling these duties in the area these men have relieved approximately ten (10) of our drivers each day who otherwise would have been held in camp for the duties. Due to this fact we have always been able to operate to capacity sending ten trucks more on the road per day than would be possible under ordinary operating conditions.
4. It is requested that this unit be permitted to draw class "B" ration for these ten (10) additional men as it would be very inadvisable to feed five (5) a class "B" ration and then draw for the other ten (10) at the Italian Supply Depot. This would necessitate the running of two messes.
5. The closest Yugo-Slav mess is at the St. Bartholomew Barracks in Cagliari and it would be rather impractical to take these men on a six mile trip each way, three times a day for ration. In view of the fact that this extra help has done and is still doing so much to enable us to run an efficient trucking company it is the hope of the undersigned that the requested permission will be granted.

SUBJECT: Rations for Italian Military Personnel.

TO : Commanding General, Allied Garrison of Sardinia, APO 534,
U.S. Army. (Through: Commanding Officer, 310th Service
Group, APO 650, U.S. Army).

1. Due to the shortages of American personnel for the operation of this Depot, it has been necessary to secure the services of ten (10) Italian Military personnel from the 361st Gruppo da 149-19 Artiglieria Corpo di Armata. These soldiers are used on a seven-day-per-week basis, in the four classes of QM supply handled by this organization, and have become, over a period of time, at least semi-skilled in almost every phase of the Depot operation. On the average, they work 12 hours per day, but have always exhibited a willingness to work even longer, if the occasion demands it (as it frequently does).

2. Both because of the distance involved between this Depot and the camp of the 361st - and there is no Italian mess closer to this Depot than that of the 361st - and because of the difference in hours of messing between the Italian and the American armies, it is impossible to have these men return to their organization for messing, since their services are frequently required at mealtime. But, even if it were possible to mess these soldiers with their own group - as it is not - it is not felt that maximum effort and cooperation would be secured from these men, were they required to work long hours with American rations, and then be "kicked out" at meal time, to be inadequately fed through Italian sources. At present, these soldiers are subsisting solely on unwanted leftovers from this platoon's mess which is at best an inadequate compensation for the really valuable services they perform. It has been verified that no scale rations are being drawn by the 361st Gruppo to feed these men.

3. With the above facts in mind, it is felt that the Allied war effort would benefit to the greatest extent possible, in this instance, if these Italian soldiers were permitted to eat the standard "B" ration, while in the employ of this Depot. Therefore, authority is requested for the drawing of ten additional type "B" rations, to be used for this purpose.

U.S. Army (Attn. G-4)

1. It is requested that authority be granted under Memo 55-2, dated 12 March 1944, HQ. AGS to ration four Italian soldiers.

2. A malaria control program will be initiated at Chilivani immediately. The supervision will be performed by three enlisted men of the 20th Malaria Control Unit, quartered at the airfield. Their duties require their presence in the field with the laborers throughout the day. There are no Allied Units on the airfield to which these men may be attached for rations. It is planned to provide this detachment of men with four Italian soldiers to perform duties as guards, cooks and K.P.'s in the American area. Tools and equipment will be stored in the area. The trustworthiness of the Italian soldiers remaining in the area during the day is important. It is believed that if we can provide them with American rations we can procure that degree of trustworthiness required.

1. In compliance with Par. 1 (H), Administrative Memorandum No. 2, Allied Force Headquarters, subject "Subsistence for Italian Military", dated 10 January 1944, it is requested that this organization be authorized "B" rations for the following unit:

Unit Designation - 223 Comp. Speciale Lavoratori
(Yugoslav Ground Troops).

Strength - 13

Operations involved - Guard duty inside Depot Area.

2. The above Yugoslav personnel are housed on a 24 hour-per-day basis in buildings at this Depot.

3. This request is made because of the fact that it is not practical, due to a lack of kitchen equipment, to organize a separate mess to feed these soldiers the scale ration.

1. In compliance with Par. 1 (h), Administrative Memorandum No. 2, Allied Force Headquarters, subject "Subsistence for Italian Military," dated 10 January 1944, it is requested that this organization be furnished "B" rations for the following:

Three (3) Carabinieri Reali attached to this organization for the purpose of police liaison duty.

Four (4) Italian soldiers attached to this organization for the purpose of repairing Italian motorcycles operated by the men of this organization.

Two (2) Italian soldiers attached to this organization for the purpose of kitchen work.

2. The above Italian personnel are housed in the organization's building.

3. The reason for this request is that the number of Italian personnel attached to the organization is so small that it is not practical to organize a separate mess to feed the scale ration.
