Codesto Ufficio ha già dato disposizioni circa il numero degli automezzi autorizzati a restare nell'isola per i bisogni del Comando Militare e della Divisione "Calabria".

2.- In relazione a quanto sopra, gli stabilimenti che resteranno in attività sono quelli indicati nell'allegato 6; quelli che invece saranno soppressi risultano nell'allegato 7.

3.- Ho già dato disposizioni per l'urgente afflusso al porto d'imbarco dei materiali da inviarsi in Continente.

Rappresento però che, dato l'esiguo numero di automezzi a mia disposizione e la scarsa efficienza delle ferrovie, i movimenti non potranno eseguirsi con la celerità desiderata.

Molti dei materiali sono ancora sparsi in varie località dell'Isola e prima della spedizione dovranno essere riordinati ed imballati a Cagliari.

SUBJECT: Inspection of Pack Saddles and other Equipment Suitable for Mule Pack Groups.

TO : Col. F. L. Simmons, Senior MMIA Liaison Officer, Sardinia.

1. The following is a list of saddles and equipment found at the Artillery Depot at Nuoro.

ITEM	COMPLETE	INCOMPLETE
Pack saddles, Alpine	166	583
Pack saddles, model 98	20	495
Saddles, officers	28	67
Saddles, troup	20	208
Saddles, Carabinieri	17	---
Gear, pack saddles	20	120

2. There are approximately 150 pack saddles without straps in the 16th Regiment Depot at Cagliari. These have been used as a part of cart harness and are stripped of all straps and fittings.

3. There is much equipment suitable for use by Mule Pack Groups in a Depot at Ozieri, such items as pack saddles, Alpine, Model 98, and Machine Gun, troop saddles, officer saddles, bridles, halters, and straps and fittings used in the repair of pack saddles. From all information available, previously this Depot was non-existent as of early in 1944, at which time some 5,500 pack saddles were shipped to Allied Forces. However, upon questioning the Officer in charge of Medical Depot at Ozieri, it was found that the Saddler Depot was still existant. The Marchello in charge was called and a tour of the depot was made. It has been requested that an inventory be made and submitted to MMIA of such items as pack saddles, troop saddles, officer saddles, saddle blankets, bridles, halters and leather fittings in stock at the Ozieri Depot.

LAWRENCE E. SPONG,
Captain, Vet. Corps.

30 April 1946

MEMO TO: Lt. Colonel Albert, Senior MMIA Liaison Officer, Sardinia.

On Tuesday April 24, Major Martin and I, accompanied by Lt. Colonel Alecci, Chief of Commissary Section, inspected the 13th Subsistence Company Clothing Depot at Via Don Camino, Caglieri.

We pointed out tolt. Colonel Alecci that more action must be taken to close out this depot at once. If necessary, more civilians must be hired.

Specific items we pointed out that must be moved to Via Liguria for shipment to the mainland, were:

(a) New typewriters
(b) Bolts of Cloth, of all kinds
(c) Tent Poles
(d) Infantry Packs
(e) Black cotton shirts
(f) Cotton blouses and trousers

All material not useable in the Clothing Sub-Depot must be prepared for shipment to the mainland.

Later, after our inspection, Lt. Colonel Alecci wrote us a note saying the depot should be cleared by about 15 May.

I have seen some of the material being moved to Via Liguria Depot for shipment.

1. Depot records show that six truck loads of shoes were sent to the docks for loading on the S.S. Argentina. The number of sacks and shoes on each truck are as follows:

Sacks	Shoes (pr)
36	892
25	625
25	625
30	750
25	612
36	896
177	4400

2. When the shoes arrived at the dock it was not possible to load them on the ship immediately, so they were off loaded onto the dock. Two guards were stationed to guard the shoes on the dock. The shoes remained on the dock for two days before they were put on board ship.

3. When the shoes were unloaded onto the dock it was noticed by Capt. Zryaz that a number of the sacks had large holes in them. A detail from Depot 591 was sent down to resack those shoes that were in broken sacks. It is not known exactly how many sacks had to be resacked, but was reported to be between 25 and 50. This may account for the discrepancy in the number of sacks received.

97

FILE: IND. CAPT

Declassified E.O. 12356 Section 3.3/NND No. 785020

4. These shoes were taken from the old stock of shoes repaired by the British. This will probably account for the poor state of repair and the quantity of unmatched shoes. They apparently had not been regraded by the depot before shipment.

5. It has been reported to MMIA L.O. Naples by MMIA L.O. Sardinia that dock personnel had opened sacks at Cagliari, removed good shoes, and replaced their own shoes in the sacks. This would indicate an extreme lack of supervision on the part of the receiving authorities. It is quite possible that more shoes were removed from the sacks at Cagliari than were replaced with worn out shoes.

1. Quoted below is report from MMIA LO Sardinia: (ST would report) 14 Oct.

"We also discussed the recent transfer of repaired shoes from Naples, which turned out to be a Comedy of Errors.

Lt. DeStefano was sent to Naples to assist in this transaction. Instead of loading the shoes on cruisers, the Naples office arranged for the shoes to be shipped on S.S. Argentina. This caused a delay of two weeks. Shipping order showed 88 sacks of shoes, Lt. DeStefano was informed that 177 sacks of shoes containing 4425 pairs were sent to be loaded, and 192 sacks were received at the Depot in Cagliari. Checking at the depot in Cagliari showed 3322 pairs of repaired shoes, 51 pairs of worn out shoes and 192 unmatched shoes. The Italian authorities did not provide an escort on the ship for the shoes and no papers showing the number of shoes shipped were received.

The Director of Commissary states that he has a letter from the W/M which indicates that MMIA accepts responsibility for the transfer to Cagliari. I asked for a copy of this letter but have not yet been able to see a copy*. I told the Director of Commissary that when shoes were turned over to the Italian Depot in Naples for repair that the responsibility from then on rested with the Italian Army. The assistance of Lt DeStefano was not to be construed as acceptance of responsibility by MMIA.

The shoes that I saw were repaired in a very sloppy manner. The bags that they were shipped in were not suitable for the purpose. No markings as to contents of bags or their destination were present on sacks. As before stated no escort was provided and no records of shipment were forwarded. These are some of the discrepancies that should be corrected at once."

2. Will you please investigate the Depot records and your office records regarding the Naples end of this transaction. The reason for loading on S.S. Argentina instead of a cruiser is already understood, but the discrepancies in number of sacks of boots shown on the shipping order, reported to Lt. DeStefano and actually off loaded as well as the over all shortage is not understood. How many sacks did the Depot actually

PHONOGRAM TO COLONEL GIULIANI

13 March 1945

On a recent inspection trip to Casermaggio Depots at Cagliari, and Macomer, the Officers in charge stated that it was required for them to retain some items. This is not correct as both MMIA and Ministry of War have ordered all Casermaggio items shipped to the mainland. Request that all officers in your department be so informed and ordered to expedite the preparation of this material for shipment.

SUBJECT: Shortages in Shipment.

TO : Commanding General, Land Forces Sub Commission AC (MMIA), Rome
Attention: Lt. Colonel Shipley

1. In response to your letter Q/18/1 of 16 March, on above subject, the following information is furnished.

2. During process of off loading and movement to depots, an Italian Officer of the Commissary Section and a soldier from Sardinia Detachment MMIA, in addition to two Carabinieri guards, observed the off loading. A tally of the number of bales off loaded is kept. During movement of bales to depot, a member of the escort detail, provided by shipping depot, rides each truck.

3. In the shipment which arrived on the SS "Samleyte" on 3 March, 11 bales of shoes showed signs of damage but upon investigation it was found that there was no shortages from these bales.

4. A soldier from this Detachment is present while all bales are opened and counted and verifies any shortages. I personally saw at least two bales, which had the seals intact, opened and counted, and it was found that only 14 pairs of shoes were present.

5. All shortages in this shipment were from bales which showed no signs of tampering.

1. Please refer to MMIA LO Sardinia letter C/5 dated 9 March, in regards to the above subject matter. It appears from the information supplied that the reported loss is due to concealed shortages within unbroken packages. The report of the investigating committee does not, however, completely establish this point, and the losses might have been caused by pilferage or breaking of packages during transit.

2. Will MMIA LO Naples please furnish this Headquarters with all available information regarding:

a. The condition of packages at the time of loading on the vessel.

b. Whether or not packages were made up in the Italian Warehouses, or were original packages received from Allied Sources.

c. The arrangements employed for guarding and protecting shipment during the process of movement to port, during loading, and during transit.

d. Information as to why leggings were included in the shipment.

3. Will MMIA LO Sardinia please furnish this Headquarters with all available information regarding:

N O T E

It is called to your attention that a Commission, composed of 2nd Lieut. Guido Pesa, Subsistence representing the receiver, 2nd Lieut. Achille, Motti representing the shipper and a representative from the local MMIA, assembled in the Special Clothing Depot, Detachment of Macomer, in Cagliari, to witness the opening of 710 bales of clothing from Allied sources. Of these 710 bales, 400 bales contained shoes, 100 contain shirts, 150 contain trousers and 60 contain drawers.

After opening and examining the bales, we found that of 150 bales of trousers, 1 bale contained gray green leggings from Italian sources.

In the 400 bales of shoes, 11 bales were badly damaged. This statement has been stated on the receipt of each bale, when they were received.

These bales arrived on the SS "Samleyte" on 3 March 1945.

All the bales have been checked by the Commission and the following has been ascertained:

Wool drawers, long	stated by shipper	6,000
	Received by Commission	5,945

SUBJECT: Shortages in Shipment.

TO : Laision Officer, Land Forces Sub Commission AC (MMIA), Naples.

1. In reply to your letter AC/4/SA/1 of 22 March, on above subject, it is noted that the Italian General only reported on the shipment of 10,000 pairs of shoes and 10,000 pairs of trousers. Perhaps he picked that shipment because the statement of receiver was not so clear and concise as the statement of the receiver on shipment of shoes which arrived here on the Albania on 23 January.

2. We will be interested in learning how he talks his way out of the shortages on the last mentioned shipment.

COMANDO MILITARE TERRITORIALE DI NAPOLI
UFFICIO SERVIZI

FM 3400, 11/3/45

No. 2/1743/CO di prot.

SUBJECT: Shortage of Cargo by the "ABBAZIA"

TO : MMIA Naples

1. I refer to the letter of this MMIA, AQ/4/SA/1 dated 1st instant.

2. From attentive investigation promptly executed it results the following:

a. The shipment of 10000 pairs of allied repaired boots to Direzione Military Commissariat Cagliari and 10,000 dyed trousers was prepared in 917 parcels and precisely:

666 sacks containing	15 pairs each	9990 pairs
1 sack	10	10
	TOTAL	10,000 pairs

250 sacks containing 40 trousers each 10,000

b. The sacks were prepared in presence of the prescribed commission of officers. The sacks were tied with thread at the mouth and sealed, as per statement, here enclosed (enclosure No. 1).

c. Was present to the shipment, which was estimated about hour 20 on the 4th Feb. 1945, an officer of the local Special Food Depot, two soldiers of the 10th Subsistence unit ordered as escorts and also a civilian workman of the above said depot who had the duty to sew and seal the parcels that eventually might have had, during the loading and unloading of trucks, some damage. On the spot there was also the American Sergeant of this MMIA on duty at the clothing depot, the consignee of such depot that personally attended to have all damaged sacks sewn again after ascertaining the right content. 917

d. Finished the shipment (it took place at Torre Annunziata) the shipmaster delivered the Bill of Lading No. 35 (enclosure No. 2) for 917 parcels shipped with the note of 22 sacks broken; evidently such note on the Bill of Lading must refer to tearing of small dimensions not allowing the passage of the articles since that all the sacks had been checked and replaced in order those with sewing out or with holes. 81

3. From the statement of the receiving unit emerges that 44 paracels of boots and 21 of trousers arrived damaged. Evidently

Declassified E.O. 12356 Section 3.3/NND No. 785020

such condition could only take place after shipment, otherwise the fact would not have appeared on the Bill of Lading where only 22 parcels are mentioned. The parcels of boots shipped were 667 while on arrival they resulted 668. It is to be presumed that if on arrival there was found one parcel more, there must have been some movements with the material after shipment.

5. I do not enclose the statements of the two escort soldiers because not yet back to their unit.

THE GENERAL COMMANDER

13TH SUBSISTENCE COMPANY DEPOT

No. 233 of Re ister. 11 February 1945

Acceptance Note to ascertain the opening of 668 bales of shoes and 250 bales of trousers from Allied sources arrived from the Special Depot of Clothing and Equipment in Naples.

It is called to your attention that on the 11th of February 1945, the named Commission composed of Lt. Cera Raffaele, Commissary, representing the shipper; Lt. Pesci Guido, Subsistence, representing the receiver; and an MMIA representative assembled in the building of the Magazzino Arredamento to witness the opening of 668 bales of shoes and 250 bales of trousers, which are from Allied sources. The 668 bales were to contain 15 pair of shoes each, and the 250 bales, 40 trousers each. They arrived from the Special Clothing and Equipment Depot of Naples.

After examining the bales we found that 44 bales of shoes and 21 bales of trousers were damaged. This statement has been stated on the receipt of the bales, when they were received. These bales arrived by sea on the SS Abbazia, 8 February 1945.

All the sacks have been checked by the Commission and the following are the results:

The consignee will show on his records, and be responsible for the quantity received, exactly 9,909 pair of shoes and 9,928 trousers. We have made out the present acceptance note, for all the possible reasons, made, read and signed at the date and place shown above.

Reference phone call with Director of Commissary and Chief of Staff on 14 February 1945.

First I called Colonel Giuliani and he said that it was very difficult to prepare in a short time, the cots. He had received instructions from the War Ministry to ship the said cots but he had observed that these cots were being used in the barracks and that they were very old, so that in case of a shipment, many would be unserviceable. However, he would give all the necessary instructions to get them ready as soon as possible.

Colonel Castellani said also that there would be some difficulties about transportation. He also knew about the order for shipment of the cots and said he would give all the possible assistance to gather them and ship them on the SS Samleyte.

10 February 1945

SUBJECT: Barracks Stores Blankets.

TO : Commanding General, Italian Forces in Sardinia
Attention: Director of Commissary.

1. Confirming our conversation today, on above subject, barracks stores blankets should be prepared at once for shipment to the mainland.

2. While it is not customary for these barracks stores blankets to be taken into the field, it is pointed out that there is a grave shortage of field blankets and these blankets are being used in place of field blankets. Many troops in the Combat areas are without sufficient blankets. Barracks stores blankets, neatly piled in depots in Sardinia, are not contributing to the effort to win the War.

3. Request that this office be notified when at least 35,000 barracks stores blankets are ready for shipment.

SUBJECT: Shortages in Shipment.

TO : Commanding General, Land Forces Sub Commission AC (MMIA), Rome
Attention: Lt. Colonel Shipley

1. In response to your letter C/15/1 of 16 March, on above subject, the following information is furnished.

2. During process of off loading and movement to depots, an Italian Officer of the Commissary Section and a soldier from Sardinia Detachment MMIA, in addition to two Carabinieri guards, observed the off loading. A tally of the number of bales off loaded is kept. During movement of bales to depot, a member of the escort detail, provided by shipping depot, rides each truck.

3. In the shipment which arrived on the SS "Samleyte" on 3 March, 11 bales of shoes showed signs of damage but upon investigation it was found that there was no shortages from these bales.

4. A soldier from this Detachment is present while all bales are opened and counted and verifies any shortages. I personally saw at least two bales, which had the seals intact, opened and counted, and it was found that only 14 pairs of shoes were present.

5. All shortages in this shipment were from bales which showed no signs of tampering.

a. The condition of packages at the time of loading on the vessel.

b. Whether or not packages were made up in the Italian Warehouses, or were original packages received from Allied Sources.

SUBJECT: Shortages in Shipment.

TO : Laision Officer, Land Forces Sub Commission AC (MMIA), Naples.

1. In reply to your letter AQ/4/SA/1 of 22 March, on above subject, it is noted that the Italian General only reported on the shipment of 10,000 pairs of shoes and 10,000 pairs of trousers. Perhaps he picked that shipment because the statement of receiver was not so clear and concise as the statement of the receiver on shipment of shoes which arrived here on the Abbazia on 23 January.

2. We will be interested in learning how he talks his way out of the shortages on the last mentioned shipment.

No. 2/1743/CO di prot.

SUBJECT: Shortage of Cargo by the "ABBAZIA"

TO : MMIA Naples

1. I refer to the letter of this MMIA, AQ/4/3A/1 dated 1st instant.

2. From attentive investigation promptly executed it results the following:

a. The shipment of 10000 pairs of allied repaired boots to Direzione Military Commissariat Cagliari and 10,000 dyed trousers was prepared in 917 parcels and precisely:

666 sacks containing	15 pairs each	9990 pairs
1 sack	10	10
	TOTAL	10,000 pairs

250 sacks containing 40 trousers each 10,000

b. The sacks were prepared in presence of the prescribed commission of officers. The sacks were tied with thread at the mouth and sealed, as per statement, here enclosed (enclosure No. 1).

c. Was present to the shipment, which was estimated about hour 20 on the 4th Feb. 1945, an officer of the local Special Food Depot, two soldiers of the 10th Subsistence unit ordered as escorts and also a civilian workman of the above said depot who had the duty to sew and seal the parcels that eventually might have had, during the loading and unloading of trucks, some damage. On the spot there was also the American Sergeant of this MMIA on duty at the clothing depot, the consignee of such depot that personally attended to have all damaged sacks sewn again after ascertaining the right content.

317

d. Finished the shipment (it took place at Torre Annunziata) the shipmaster delivered the Bill of Lading No. 35 (enclosure No. 2) for 917 parcels shipped with the note of 22 sacks broken; evidently such note on the Bill of Lading must refer to tearing of small dimensions not allowing the passage of the articles since that all the sacks had been checked and replaced in order those with sewing out or with holes.

81

3. From the statement of the receiving unit emerges that 44 paracels of boots and 21 of trousers arrived damaged. Evidently

Declassified E.O. 12356 Section 3.3/NND No. 785020

such condition could only take place after shipment, otherwise the fact would'n have appeared on the Bill of Lading where only 22 parcels are mentioned. The parcels of boots shipped were 667 while on arrival they resulted 668. It is to be presumed that if on arrival there was found one parcel more, there must have been some movements with the material after shipment.

5. I do not enclose the statements of the two escort soldiers because not yet back to their unit.

13TH SUBSISTENCE COMPANY DEPOT

No. 233 of Register. 11 February 1945

Acceptance Note to ascertain the opening of 668 bales of shoes and 250 bales of trousers from Allied sources arrived from the Special Depot of Clothing and Equipment in Naples.

It is called to your attention that on the 11th of February 1945, the named Commission composed of Lt. Cera Raffaele, Commissary, representing the shipper; Lt. Pesci Guido, Subsistence, representing the receiver; and an MMIA representative assembled in the building of the Magazzino Arradamento to witness the opening of 668 bales of shoes and 250 bales of trousers, which are from Allied sources. The 668 bales were to contain 15 pair of shoes each, and the 250 bales, 40 trousers each. They arrived from the Special Clothing and Equipment Depot of Naples.

After examining the bales we found that 44 bales of shoes and 21 bales of trousers were damaged. This statement has been stated on the receipt of the bales, when they were received. These bales arrived by sea on the SS Abbazia, 8 February 1945.

All the sacks have been checked by the Commission and the following are the results:

Reference phone call with Director of Commissery and Chief of Staff on 14 February 1945.

First I called Colonel Giuliani and he said that it was very difficult to prepare in a short time, the cots. He had received instructions from the War Ministry to ship the said cots but he had observed that these cots were being used in the barracks and that they were very old, so that in case of a shipment, many would be unserviceable. However, he would give all the necessary instructions to get them ready as soon as possible.

Colonel Castellani said also that there would be some difficulties about transportation. He also knew about the order for shipment of the cots and said he would give all the possible assistance to gather them and ship them on the SS Samleyte.

10 February 1945

SUBJECT: Barracks Stores Blankets.

TO : Commanding General, Italian Forces in Sardinia
Attention: Director of Commissary.

1. Confirming our conversation today, on above subject, barracks stores blankets should be prepared at once for shipment to the mainland.

2. While it is not customary for these barracks stores blankets to be taken into the field, it is pointed out that there is a grave shortage of field blankets and these blankets are being used in place of field blankets. Many troops in the Combat areas are without sufficient blankets. Barracks stores blankets, neatly piled in depots in Sardinia, are not contributing to the effort to win the War.

3. Request that this office be notified when at least 35,000 barracks stores blankets are ready for shipment.
