Essential that feeding some of above mentioned Troops commence immediately and probably all before arrival of ships with above food items. Therefore, total strength involved will be fed for a minimum of 30 days prior to receipt of initial shipments. Such supplies must be drawn from U.S.ARMY reserve stocks and therefore must be replenished. Above amounts should be increased 1/3 on each of 3 successive convoys so as to enable replacement of U.S.ARMY reserve stocks.

Subsistence shipments intended for ITALIAN ARMY should be bulk loaded in as few ships as possible for each destination. Advise ability to comply with above and shipping schedule.

Meat and/or							
Cheese, canned	3,750	2,000	350	650	0	0	6,750
Matches	25	0	0	0	0	0	25
TOTAL	7,975	5,140	370	690	95	530	14,800

Excluded from this requisition is an additional AMG requirement of 1,600 long tons of canned meat for TOMB which will be supplied within the theater from excess Quartermaster stock.

According to AGWAR cable CAL-328, March 10, total quantity of wheat and flour required above will be shipped from AUSTRALIA. Request that all supplies from U.S. for EJAR and GUGI be loaded on a vessel scheduled for discharge at TOMB or MIAN from which place transshipment will be made to final destination, and that supplies from U.S. for TOMB, and BONL be shipped on a convoy for early May arrival. In view of the limited tonnage from the U.S., it is considered that a more detailed loading schedule by ship and convoy would not serve a useful purpose.
