SUBJECT: Release of Italian Soldier

TO : Land Forces Sub-Commission

Attention: Major MARTIN

1. With reference to a recent conversation between Major MARTIN and Lt SCANLAN of this Hqs concerning the release of an Italian soldier, the following information concerning said soldier is submitted.

a. His name is Caporale Capicciola, Marco di Luigi of Firas lucia Classe, 1923, Number 2226.

b. He is in the 3rd Company 226 Battaglione Mitraglieri.

c. His Commander is Ten. Colonello Vassinis, Santoro of the 226 Divisione Commandata dal Generale Nazzaiui. GAZZANINI ?

2. As has been previously pointed out in conversation, Capt GAEL E. SULLIVAN, Regional Supply Officer this Hqs is anxious to employ this soldier as a civilian. Since the nature of the work which this man would be required to do, would necessitate his having considerable authority over civilian Ware-house workers, it is evident that better use of this man's capabilities could be made if he were in a civilian status.

3. If release of this man from the Italian Army is impossible under existing Italian Regulations, this Hqs requests that this soldier be assigned to duty with the ACC and to report to Capt SULLIVAN.

Following your conference with His Exellency the Commander concerning the case in question you are informed that the VII Army Corp has already arranged to place the servicemen requested at the disposal of the Allied Headquarters.

It was necessary to provided the replacement of 37 servicemen with other elements from the 59th Infantry Regiment since 31 servicemen were already transferred to other units located in different parts on the Island, 5 were eliminated because of previous disciplinary offences and we cannot account for the other man.

You are requested to consider the possibility of replacing Capt Delitala with another officer in view of the fact that he is a Regular Army Officer to whom the command of the 1st Group - 547th Artillery Regiment is now intrusted.

SUBJECT: Request for Assignment of Italian Officer.

THRU : Commanding General Allied Garrison of Sardinia, APO 534, U.S. Army. (Attn: G-3).

TO : Commanding Officer, Headquarters Italian Air Force, Cagliari.

1. For the past several months this headquarters has availed itself of the services of Captain Raffaele Silvagni, Commanding Officer of an Italian Air Force Signal Company on an unofficial, but highly satisfactory basis. Captain Silvagni has rendered invaluable services to the Allies and the retention of this officer for such liaison is deemed essential.

2. It has been brought to our attention that there is a possibility of reorganization within the Italian command whereby Captain Silvagni might not be available to this headquarters for continuation of such work. Further, in the event of a move to the mainland, this command would be greatly handicapped if Captain Silvagni could not accompany the group.

3. It is therefore requested that said officer be assigned to Headquarters, 310th Service Group at once, as official liaison officer.

A. P. O. # 534

11 May 1944.-

MEMORANDUM: To Transportation Officer. A.C.S.

SUBJECT : Military Labor at Sassari's Rail-head.

1.- A great deal of doubt and uncertainty still exist in the minds of the Italian Officers here, as to just what steps should be taken relative to Military Labor at this Rail-head.

2.- This Office has confered with Local Military HQS, and so far no agreements have been reached that will meet the requirements of this Rail-head.

3.- It has been suggested by Italian Military HQS, that the present experienced labor from 59th Inf. Reg. and 295th Canon Co. be replaced by labor companies of much solder men.

4.- As the men employed at present from 59th Inf. Reg and 295th Canon Co. have to serve a dual purpose, namely:

(a) Rail-head and train guards to Alghero.

(b) To handle heavy drums of supplies.

This Office is of the opinion that it is imperative to the war effort that the present Officers and men be retained

5.-At present the Officers and men employed are attached or assigned to several local Units, thereby giving this Office no Central Control Office which to contact in case of necessity.

6.- As all Officers and men now employed have been very cooperative and efficient in the past the following recommendations are submitted for your consideration:

Subject : ODDI Gino.

Reference : HQ/1012.

Reference our H.Q. 1012 of 24th April 1944.

The above named soldier is now working for us but on going into the matter I am of the opinion that he is a British Subject.

As such, I feel he should be discharged from the Italian Army. We would continue to employ him as a civilian. Will you please put the matter in hand for us?

The facts on which I base my opinion are:

(1) He was born at Peckham on 30th December 1918.

(2) His parents were Italian.

(3) He lived in London till 1st June 1939.

(4) He came to Italy to see relatives for a couple of months.

(5) About a fortnight after a Policeman came and demanded his British Passport. They took his passport officially to find out about him. 1641

(6) When he called for his passport he was told he must do 6 months service in the Italian Army before he would get it back.

(7) Went to British Consul at Milan who said he could not help him as he was in the Italian Army.

(8) The Italians refused to release him after his service.

ROUGH DRAFT.

Subject : Road Maintenance.

1. With reference to our conversations regarding road maintenance and correspondence which has passed between this HQ and your HQ from time to time in recent months.

2. It is regrettable that in the past there has been delay in proceeding with the necessary work, and it appears on investigation that this delay is due to many causes, which include :-

   a. Lack of supervision of the work.
   b. An insufficiency in the number of the troops & civilians employed, and failure on the part of the latter to work on Sundays.
   c. Lack of the necessary steam-rollers, crushers, etc.

3. As you point out in your reply to Brig.Gen.Webster's letter of 31 March 44, difficulties have been encountered owing to the removal to the continent of certain Pioneer units and other skilled personnel.

4. Owing to the re-organisation of certain units which is at present taking place, it is understood that several of the units which are at present being utilised on road work will no longer be available, and it is therefore requested that you will replace them with others, selected essentially from units which are likely to remain permanently in Sardinia.

5. I shall be glad if you will confirm the replacement of these units at the earliest possible date, and supply me with copies of any orders and instructions which you issue regarding the repair and maintenance of the road communications of the Island.

In view of Col Costantino's arrangements which he explained to us yesterday, there will be no need to send this letter now -

Also in Allied use are the 101st Truck Compny, 47th Reg't Artillery (1 section 45 trucks, 2 motorcycles), and the 595 section 120 Auto-reparto Pesante (20 trucks).
