Reference your letter of 30 December 1944.

1. The field bath unit which has been recently installed is functioning well. Your assistance in this matter is much appreciated.

2. At present the boiler has to be fired with wood as only one oil burner is working, this causes the temperature of the water to fall quickly, however arrangements have been made for the NCO W/C Mobile Bath to visit the Bath Unit to see if he can make the heating system work efficiently with paraffin.

For the Regional Commissioner.
