1. Information has now been received from O.A.S., O.A.F., that the Allies are not importing electrolyte into this theatre, but are fulfilling their own requirements by local purchase.
2. In consequence no electrolyte will be available for issue to the Italian Army or the Carabinieri.
3. It is therefore strongly recommended that the Ministry of War take immediate steps towards making a contract with a civilian firm for the supply of electrolyte. Until this is effected almost all the batteries recently issued to the School of Signals (Cecignale), the Ministry of War for the Italian Interior Army, and to the Carabinieri must remain out of use.
4. The present requirements of the School of Signals and the Carabinieri are as follows:-

School..... 150 gallons
Carabinieri..... 1250 "

The initial requirements of the Army (apart from the School) will, of course, be much greater.

Date: 11/17/1995

Subject: Distribution of Signal material supplied by Allies

Reference Letter 4/11/2/2017, dated 20 June 46

The M.M.I.A., through Engineer Major Foxcombe, stated the following to the liaison officer of this General Directorate, concerning the known Allied Signals material which are being drawn at Pontecorviano.

1. The Infantry Divisions must be equipped only with Signals material laid down in the new W.D. (see enclosure). The Divisions must, therefore, be issued with only material needed to complete said new W.D., considering of course the efficient material already held. The R.A.I.A. has already received, through A.D.V. Hqs, the list of Signals material held by the Dye. Several items in said lists do not agree with items shown in lists sent to this Office and sent by Territorial Commands.

This Gen. Directorate has already asked explanations on the matter (see letters 5533/M dated 25th June 45 and 5561/M dated 25th June 46, addressed to Bologna and Turin Territorial Commands respectively and for information to SMIP).

2. Several W/T Stations, i.e. W/T Stations type 11 and 22 type and the Australian 109 will no longer be used: All W/T stations of such types, as well as all u/s or inefficient material held by the Divs and not laid down

stated the following to the Liaison Officer of the Central Directorate, concerning the known Allied Signals material which are being drawn at Pontecagnano.

1. The Infantry Divisions must be equipped only with signals material laid down in the new W.S. (see enclosure). The divisions must, therefore, be supplied with only material needed to complete said new W.S., considering of course the sufficient material already held. The M.F.I.A. has already received, through M.I.B. HQs, the list of Signals material held by the Divs. Several items in said list do not agree with those shown in list sent to this Office and SMRE by Territorial Commands.

This Gen. Directorate has already asked explanations on the matter (see letters 5383/M dated 25th June 46 and 5561/M dated 25th June 46, addressed to Bologna and Turin Territorial Commands respectively and for information to SMRE).

2. Several W/T Stations, i.e. W/T Stations type 11 and 22 type and the Australian 109 will no longer be used: All W/T stations of such types, as well as all u/s or insufficient material held by the Divs and not laid down in the new W/S must be returned to the 21st Signal Repairs Workshop, Rome, where they will be held at the disposal of the Allies.

3. Artillery Divisions have been equipped as explained above, and material in excess at Pontecagnano will be stored at 21st Workshop and held as reserve.

In view of the above it will be necessary to amend SMRE circular referred to above.

In view of regulating the distribution of the material being withdrawn at Pontecagnano as well as the returning of material in excess or u/s; this office proposes:

1) to forward the new W.S. for signal material to Infantry Divisions, asking them to state the exact items they will withdraw and those they will send up;

2) to subsequently ask the divisions, according to the degree of priority fixed by your SMRE to hand in and withdraw stores at the 21st Signal Repairs Workshop, Rome.

Should you have no objection to the above, kindly approve.

The Liaison Officer

La M.M.I.A., nella persona del Maggiore del Genio Morecombe, ha comunicato quanto segue all'ufficiale di collegamento di questa Direzione Generale in merito ai noti materiali alleati per i collegamenti in corso di prelievo a Pontecagnano -

1) - Le divisioni di Fanteria devono avere in dotazione i soli materiali per collegamenti previsti dal nuovo organico e descritti nell'annesso specchio; per conseguenza, debbono essere distribuiti alle divisioni soltanto i materiali occorrenti per raggiungere detto nuovo organico, tenuto naturalmente conto dei materiali efficienti di cui le divisioni stesse già dispongono. La M M I A ha già ricevuto attraverso i Comandi B L U, gli specchi di esistenza dei materiali per i collegamenti attualmente in distribuzione. Tali specchi sono per alcuni voci discordanti con quelli pervenuti alla scrivente e a codesto S.M. dal Comando di Territoriali.

Questa Direzione Generale ha già chiesto chiarimenti al riguardo (vedi disp. 55363/M del 25-6-46 e 55617/M del 25-6-46,

././.

indirizzati rispettivamente ai Comandi Territoriali di Bolzano e Torino e per conoscenza a codesto S.M.) .

2) - Alcune stazioni R.T. per es. quelle tipi 11 e 22 e quelle 109 austriache non saranno più impiegate ; per tanto tutte le stazioni dei tipi indicati attualmente in distribuzione alle divisioni e tutti gli altri materiali fuori uso od inefficienti oppure non previsti del nuovo organico debbono essere versati alla 21^a Officina Riparazioni Genio Roma restando a disposizione degli alleati.

3) - Quanto eccede dal materiale di Pontecagnano dopo aver provveduto come sopra detto a completare l'organico delle Divisioni, dovrà essere accantonato presso la 21^a Officina come riserva.

In relazione a quanto sopra, risulta necessario apportare qualche modifica alle norme emanate da codesto Stato Maggiore con la circolare in riferimento.

In proposito la scrivente anche allo scopo di disciplinare le operazioni di distribuzione dei materiali in corso di prelievo a Pontecagnano nonché le operazioni di versamento dei materiali eccedenti o fuori uso, propone di:

1)- trasmettere alle Divisioni di Fanteria lo specchio del nuovo organico dei materiali per i collegamenti, invitandole a far

provveduto come sopra detto a completamento e dovrà essere accantonato presso la 21^a Officina come riserva.

TRANSLATION

To Land Forces Sub Commission (MMIA)

From Italian Ministry of War

The firm of S.I.E.T.T. has recently recovered, under orders from the Allies, a quantity of telephone material which was previously the property and was used by the Italian Army in the CARBOGNANO Area.

A small part of this material has been retained by the Allies for their use, the remainder has been placed in a warehouse belonging to the firm in the TRATTASI District.

The material in question is as follows :-

(a)	Arm'd Cable - copper	7/10	Lead covered	10/C	5817 metres
(b)	"	"	"	15C	1148 "
(c)	"	"	"	20/C	6377 "
(d)	"	"	"	25/C	7447 "

It is requested that authority to move this material to a military warehouse may be given, as the material is valuable and can at the moment be utilised.

Oggetto: recupero materiali militari.=

La Ditta S.I.E.T.T.E. ha recentemente recuperato, per ordine del Comando Alleato, un certo quantitativo di materiale telefonico a suo tempo posto in opera per esigenze del R. E. in zona Carbognano (centro Magliana).

Una minima parte è stata dallo stesso Comando Alleato utilizzata per proprie esigenze, mentre la rimanente trovavasi depositata presso i magazzini della succitata località.

Trattasi di:

- a) - cavo armato telefonico rame 7/10 sottopiombo a 10/c
ml. 5517
- b) - cavo armato telefonico rame 7/10 sottopiombo a 15/c

Subject:- American Ordnance Stores - Signal Equipment.

1. A considerable quantity of signal equipment of American origin is now in this theatre. New sections for American pattern signal stores will consist of a number and a letter, representing the American section and sub-section respectively, preceded by the letters "USA". At Appendix "A" is a complete list of the sections under which signal stores will be held. The Sub-Depot to which they will be allocated and the British VAOS Section to which they are allied, are also shown.

2. There are three exceptions:-

- (a) American signal stores which have an exact counter-part in the V.A.O.S. will be held as a corresponding item under the V.A.O.S. designation and catalogue number.
- (b) Spares for American Charging and Generating Sets which are supplied from America will continue to be held under the maker's part numbers in Section X3.
- (c) Spares for American signal stores with exact counter-parts in the V.A.O.S. will be held in the same section as their British counter-part, e.g., the spares for American Teletype and spares for Tele Sets RSR will be held in Section Y.

No. 12735

SUBJECT: Material belonging to the Allied Troops.

The Mayor of S. Teresa di Gallura writes:

During the last year the U.S. troops while billeted in this area, constructed a telephone line with copper wire for military reasons. This line is made of 10 wires on poles. It begins at S. Teresa di Gallura and goes to Olbia.

After the departure of the troops, the line remained unused. I request you therefore to take up the matter with the Allied authorities of Sardinia so that the line in this country will be turned over to the local Administration Communes.

The reason for this request is because it is necessary to get the wire to carry the electric to town. This village in fact is the only one that is without electric power and it is in urgent need for same.

We call to your attention that among the other counties of the Island, this one is in worst shape for all reasons. While instead it is located in a wonderful position but without lights.

The administration of this Commune is looking forward to the kind interest that your Excellency will show on this matter, because this deficiency must be eliminated.

I therefore request that you do everything possible to grant the request.

REPLY OF NAVAL STORES

Reference is made to correspondence regarding the monthly issue of 1000 telephone batteries, 1.5 volt, and 20 lbs of fuel oil.

It is noted in this T.O. letter of your reference dated 17 Dec 48, it is necessary that a weekly request for the issue of these stores be sent to Ordnance (British), from the Allied Command, stating as authority for release their letter to this A.C. ref 15/100/4 of 27 Dec 48.

If such weekly requests are made it is not anticipated that there will be any difficulty in obtaining release of the stores in question.

W. GAINLEY, Major,
For Major General,
M. H. I. C.

Batteries and insulating tape

We beg you to order the assignment of 2000 1.5 volt batteries and 60lbs. of insulating tape to meet the requirements, for the month of June, of the units under ~~command~~ of this ministry

If possible, we would be grateful if the assignment could be made from a depot in ROME or nearby, this in view of the fact that the unit that has to carry out the withdrawal is the rear office of the C.M.T. & I.M.S.T. of ROME

Subject:- Batteries and insulating tape
(Attn Maj Sepleston)

- I. As is known the Allied HQ gave authority in the early part of 1944 to this Ministry for the collection of 2000 telephone batteries 1.5 volt and 60 lbs insulating tape for territorial units under command.

The authorisation was given by AAI (Adm Ech) in their letter 3407/Q(AE) dated 12 Apr 44 for the batteries and ~~xx~~ in their letter Flambo 3I/5/Q3 dated 26 Feb 44 for the insulating tape.

The material was collected from 557 Allied Depot at Pontecagnano (Salerno).

2. In March this ~~xxx~~ year OC 557 Depot would not make the issue saying that the authority was valid only until OCT 44 and that successive issues had been made in exceptional circumstances.

3. On the 28 March this Ministry (letter II/21852/M) asked Ordnance RAAC for the authority for this material for the month of April. So far no reply has been received.

4. We therefore ask you to obtain the necessary authority for the issue of 4000 batteries and 120 lbs of insulating tape for the months of April and May.

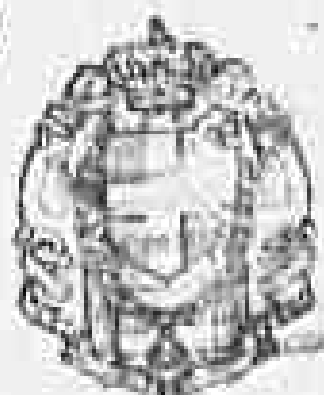

If this is possible will you please arrange for them to be issued from a Depot in or near ROME since the collecting unit is Ufficio Stralcio of OMT and of IMST of Rome.

5. Will you please also let us know whether it is necessary or not ~~to~~ submit a monthly request for the 2000 batteries and 60 lbs of insulating tape.

(All'attenzione del Mag. Co. Pleston)

- 1)- Come è noto il Comando Alleato fin dai primi mesi del 1944 concesse a questo Ministero di poter prelevare 2000 pile telefoniche da 1,5 Volt e 60 libbre di nastro isolante occorrente per gli enti territoriali dipendenti.

L'autorizzazione venne data dall'H.Q.A.A.I. (Adm Ech) con lettera 3407/Q(AR) del 12 Aprile 1944 per le pile, con lettera Flambo 31/5/Q3 del 26.2.44 per il nastro isolante.

Il prelevamento veniva effettuato presso il deposito alleato 557 in Pontecapriano (Salerno).-

- 2)- In Marzo u.s. non è stato possibile effettuare il consueto prelevamento in quanto l'addetto al deposito alleato 557 ha dichiarato che le autorizzazioni in suo possesso si limitavano all'Ottobre 1944 e che le successive cessioni erano state effettuate in linea del tutto eccezionale.

- 3)- In data 28 Marzo c.a. questo Ministero con dispaccio n. II/21852/M pregava l'ufficio "Ordinance" della Rome Area Allied Command di autorizzare il prelevamento del noto materiale, occorrente per il mese di Aprile. Finora non si è ricevuta alcuna risposta.-

- 4)- Si interessa pertanto codesta Sottocommissione ⁴⁶³ a poter ottenere la cessione delle 4000 pile da 1,5 Volt e delle 120 libbre di nastro isolante, occorrenti per i mesi di Aprile e di Maggio c.a.-

Qualora fosse possibile, gradirebbe che l'assegnazione dei suddetti materiali venisse fatta su di un magazzino di Roma o viciniore, dato che l'enxte incaricato del prelevamento è l'Ufficio Stralcio dell'O.M.T.e

dell'I.M.S.T. di Roma.-

- 5)- Si prega, infine di voler comunicare se è necessario o meno inviare mensilmente la richiesta delle 2000 pile e delle 60 libbre di nastro.-

MEMORANDUM: for Executive Commissioner, ASGOM

Reference your 998/EC of 14 March 1945, on the subject of removal of materials from Italian Arms Factory, Terni.

1. The report of investigation attached to your letter is returned herewith.
2. This report of investigation establishes:
 - a. That materials were actually removed by 10 men from without authority, from the arms factory at Terni as reported by the Italian military command and as reported to you in our letter of 23 February.
 - b. That a part of the building has evidently been requisitioned by AMG for a civilian manufacturing concern.
 - c. That the officers concerned, including the Regional Commissioner of Lazio-Umbria Region, are not familiar with AFHQ Circulars 13 and 28, 1944, Hq AAI letter 1 July 1944, file 3850/12/22 and Hq ACI letter 10 Aug 44, file 360/11/04, all of which are the basic regulations regarding the use of Italian Army property of all kinds.
3. Under the present instructions, this Sub Commission has no authority to delegate permission to the Provincial Commissioner or any other Allied officer to enter into, or remove Italian Army property except as directed in the regulations referred to above. It is a very simple procedure that has been established for securing permission to use Italian Army property, and it is being done every day throughout Italy by officers who are familiar with regulations. Under the AFHQ instructions Allied personnel is not permitted to enter Italian Army property without permission. Up to this date no requisitions for any Italian Army property in Terni have been received from Allied personnel there, nor has this Sub Commission been advised that any Italian Army property is desired.

4. With reference to the second part of Par 3 of letter Latio-Umbria Region, file 3/6338 of 12 March, the statement that this Sub Commission has set aside an order is not understood. The statement evidently has reference to Italian Army transport, and no agreements have been made by this Sub Commission, nor could they be made in regard to Italian Army transport beyond the directive issued by AFHQ. Experience has shown that Italian Army officers will comply with the requests of Allied officers in violation of the instructions which they have received, especially when the Allied officer is insistent in his demands. However, it must be remembered that Italian Army property is at the disposal of the Supreme Allied Commander, and agreements made unilaterally with Italian officers in violation of the Supreme Allied Commander's instructions have no force in effect.

5. It is suggested that appropriate action in this case would be for the Allied Commission to republish the directive referred to above for wide distribution among Allied Commission officers in order to eliminate further difficulties in connection with Italian Army property as the advance continues to the North.

Ref No. 11/21277/M

Date: March 2, 1945

From: Mr. of W, Engineer Directorate
 To: Arms Factory of the Italian Army, Terni
 MMIA for info. (ref. letter X 511/4 of 2/1/45)
 Artillery Directorate, for info.

Subject: Material relinquished to Civil Engineering Dept.

Your above mentioned letter has been submitted to MMIA who, having looked into the matter, ordered that both the officer mentioned in your letter (Lt. John A. Van Berde of A.M.G., Terni) as well as other Allied military personnel must be denied entrance to the depot unless they exhibit the required authority signed by MMIA.

Such order is contained in the attached copy of the letter from MMIA.

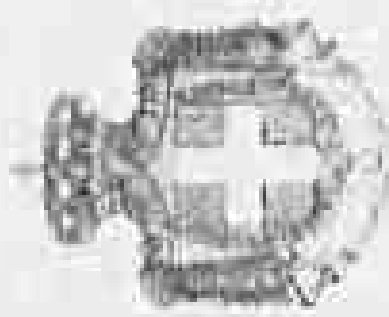

Your Arms Factory may exhibit this letter to Lt. John Van Berde should the latter wish to issue further instructions for the relinquishment of material to the Civil Engineering Dept. or other organizations.

The Artillery Directorate is requested to ascertain the facts concerning the allegations of MMIA in the 2nd paragraph of the attached letter.

La lettera in riferimento al collaudo Fabbrica d'Armi è stata sottoposta alla Land Forces Sub Commission A.C. (MIA) che esamina la questione ha disposto che sia all'Ufficio Mensionale nella lettera (Tenente John A. Van Berde del Governo Militare Alleato di Terri) sia ad altri militari alleati deve essere negato l'ingresso al deposito a meno che essi non presentino la prescritta autorizzazione firmata dalla MIA.

Tale disposizione è trascritta nell'allegata copia del foglio della Land Forces Sub Commission A.C. (MIA).

Codesta Fabbrica d'Armi potrà esibire al Tenente John A. Van Berde tale foglio qualora questi voglia dare ulteriori disposizioni per la distribuzione dei materiali al Genio Civile a altri Enti.

X511/4

23 February 1945

To : Hq ALCOM for Executive Commissioner

1. It is reported by the Italian Military Command of Rome that Lt John A. Van Eerde of the Allied Commission at Terni is removing materials belonging to the Italian Army, from the Italian Army Arms Factory at Terni, and giving such materials to civil engineers and others, and that he has informed the Italian officer in charge of the Arms Factory that it is necessary that these materials be removed for immediate use, and that he will later confirm the removal by communication with ALCOM, but that he is going to continue to withdraw the materials regardless of his lack of authority.
2. This action of an Allied officer, if true, is contrary to the provisions of Circulars 13 and 29 AFHQ, 1944, and pertinent Allied Commission instructions to its officers in the field.
3. Request that this Allied officer be instructed to secure necessary authorizations before removal of any Italian Army materials. This depot has been properly posted in accordance with the pertinent AFHQ instructions, and the Italian Ministry of War is being directed to refuse this, or other Allied officers permission to enter the depot without authority.

It is communicated that on the 12th of this month the writer had a conversation with Lt John Van Gorder of the Allied Military Government of Fermi, regarding the issuing of material to civil engineers, and others mentioned in letter from this factory, No 481 of this month 9th Feb.

The Lt has explained the necessity of issuing the material actually not being used, for immediate use in the reconstruction of dwelling houses.

He has assured us, he will communicate with the AG (MMA) for its confirmation of authority, and more over has pointed out that the withdrawal of material by the Lt civil engineers will not be interrupted.

1. There were stored in the above mentioned warehouse a number of cases containing automatic telephone equipment destined for civil use in Ethiopia.

2. This equipment was the property of the Africa Ministry but has now been turned over to the Ministry of Poste and Telecommunications. Allied Forces now require that this equipment be placed at their disposition and it is therefore necessary to remove it from its present location.

3. To accomplish this the Spolettificio Militare will require instructions from the Direzione Generale di Artiglieria del Ministero della Guerra.

4. May instructions be issued that Commandante Osti of the Azienda di Stato is authorized to enter the warehouse with the personnel necessary to remove this equipment.
