are to above further request for

The Ordinance" copy appears below
then passed by the then HRCOT &
Signals and there seems no doubt it
was accepted by all concerned that
"Signal" was handling the matter

Col JAMWARRING was informed but
little seems to have resulted

Bill handed over to Stewart about
19 Jan and the latter left to War

little good will result from George over
split with but I suggest G & Regs
now follow up through War when with
HARR to determine whether or not

signal equipment of value to coast
can still be recovered

George

of 16 personnel transferred to George Belmont

1st. Bill copy at Belmont is lost collected
and copy at Clourens was being
collected. Smile now forward forward forward

SUBJECT: C.P.M. - Signal Stores.

(10)
Land Forces Sub Commission A.C.
(M.M.I.A.)
X511/10/1.
24 Feb 46.

TO: HQ 2 District.

1. Attached herewith is a list of wireless stores, valves, lamps etc., all of Italian origin.
2. If any of these items are available in the C.P.M. Signal Dump in Verona, which it is understood is still under your control, may they be released to the Italian Army, please.
3. On receipt of advice from you, this HQ will arrange collection through the Italian Ministry of War.
4. The valves are required to put into service wireless sets released from Basun di Sotto and Cloransa dumps under previous release notes, which sets it is understood were deficient of valves when drawn by the Italian Army.

CONFIDENTIAL

SUBJECT: CAPTURED ENEMY EQUIPMENT

SIGNAL SECTION
A.F.H.Q.

X8792

13 Sep 1945

OSO HIA
OSO 2 District

In further reference to X8792 dated 6 Sep 45 on the above subject, and to my X111, dated 11 Sep 45.

1. The policy for the disposal of captured enemy equipment has been under consideration by the Combined Chiefs of Staff, who, it is understood, have ruled that equipment not specifically required by the IJAB and by theatres may be used to re-equip the armies of foreign nations such as the Italians and the Greeks or for the rehabilitation of their civil communications. Certain points in the implementation of this policy are still not entirely clear and the War Office has been asked to elucidate.

2. In the meanwhile, pending the receipt of detailed instructions will you kindly

(a) advise what items, if any, of stores in the lists already submitted to this HQ through Ord and Signals channels you now require to take up for your own use, and

(b) arrange for all captured enemy equipment which is considered useless to be segregated with a view to its ultimate destruction when authority is given.

3. Reference is being made by this HQ to AC and to LP 3 with regard to the possible requirements of the Italians and Greeks respectively, and further instructions in this respect will be issued in due course.

4. It should be particularly noted that until further notice the possibility of the disposal of captured enemy signal equipment to foreign nations in the way covered by Para 1 above will not be discussed with authorities likely to be directly or indirectly interested.
