1. There exists on the WH of this Mission (CM/241/5), a vacancy for a WO II (SQMS) under the QG branch.
2. Up till now it has been possible for the branch to function efficiently with its subordinate personnel, but, owing to recent unforeseen Class 'B' releases, the situation has rapidly deteriorated to such an extent that efficient functioning is becoming a virtual impossibility.
3. Owing to overall clerical difficulties within the HQ it has not been found possible to transfer a clerk to Q branch, nor are any of the junior personnel of the branch considered sufficiently capable to warrant their upgrading to senior rank to assume responsibility for the branch.
4. It is therefore most urgently requested that a WO II or other senior NCO with experience of Q staff duties, be posted to this HQ as early as possible to assist in relieving the precarious position in which MCLA now finds itself as regards clerical staff.

May the a/n P/A Cpl. be down graded to Private on the grounds of inefficiency. He has been a Corporal employed in the MEHA Garage for three months and has proved most unsatisfactory. He is slow, has no personality or initiative, no leadership qualities, nor any other quality that gives me the right to keep him as an NCO.

Recently Capt. Riggs took over the MEHA Garage and he completely verified my opinion.

2. Will you therefore please render casualties for everyone not on the posted or permanently attached strength of your unit as follows:-

(a) If belonging to the arm, or branch of RA, of your unit, casualty will state :-

"Posted to (or in excess of) full WE of this unit as (trade or employment)".

(b) If belonging to another arm, or branch of RA, casualty will state:-

"Posted to X/7 list and F/L within (or in excess of) full WE of this unit as (trade or employment)".

Immediate action will be appreciated.

3. Personnel will now be accounted for in Part 'A' and in Part 'D' of AF W3009 as applicable.

4. Please note that personnel who are held surplus to WE on detachment from other Units or Pools, will not be affected by Parts 1 and 2 above.

At present, this point is not clear and requires clarification if we are to speed up transfers. Up to date I have been working on the assumption that (b) above was what OZE wanted, but from recent letters from them I begin to suspect that we should have been working on the policy outlined in (a) above.

In order to ensure that the best use of Low National Category personnel is being made, please complete this pro-forma and enter a proficiency rating for this man in the appropriate section. This rating will be made on a five letter scale as below and will be a rating only on the job for which the man was recruited. It is strongly urged that the pro-forma should not be completed until thorough enquiries have been made from the Section Officers & NCOs who are actually working with the individual on whom the proficiency is being made.

Man rated "g" should be extremely good in all branches of their work.

Man rated "f" should be good in all branches of their work.

Man rated "e" should be average and satisfactory, with no defects which will not allow one with further training.

Man rated "d" should be rather poor, but in view of the urgency of the manpower situation, might prove satisfactory after further training.

Man rated "c" should be unsatisfactory, with such defects as can never be removed by any length of training.

TRADESMAN, (M.E. to delete this section if not applicable)

Where the man has been recommended for a trade, he should be trade tested after a reasonable period of training and the pro-forma returned to this HQ immediately after the test, the result of which should be entered in the appropriate section, and also reported on AF W301A to this HQ.

REASONS FOR THE COMPLETION OF THIS RATING REPORT

Reasons for these ratings are of great value in reviewing selection standards and in the re-allocation of men where necessary. They should be given in every case. A guide to the type of comment most valuable is given below.

- (1) Physically unsuitable, e.g. "Cannot stand at a machine for a normal working day owing to a leg injury."
- (2) Temporamentally unsuitable, e.g. "Cannot stand workshop noise"; "Lacks interest in this type of work"; "Lacks concentration."
- (3) Intelligence too slow to absorb the necessary training, e.g. "Slow to learn new work."
- (4) Educational attainments inadequate, e.g. "Fighting weak"; "Poor handwriting"; "Lacks even elementary knowledge of the ABC and English."
- (5) Insufficiently experienced, e.g. "Experience too specialized (or too extensive) or too limited" or "Lacks experience in this type of work."

27. May 46

TO : GEN 2nd Echelon,
C.M.F.

601475 GS/Sgt MINE, O - Queens

The a/c HCO has been employed in this HQ since Jan 45 as a translator and intelligence clerk. His knowledge of the ITALIAN language, both spoken and written, is excellent. His duties as a translator include intelligence matters on a high level affecting the ITALIAN Army and Carabinieri, and, in addition, matters of high policy regarding the operation (in the past) and administration of the ITALIAN Army and to a lesser extent that of the Carabinieri.

It has recently been observed that his duties, qualifications and abilities cover those laid down for a Clerk (Special Intelligence Duties) in "Army Tradesman - Regulations and Trade Tests, 1943". In consequence, he was duly tested in these duties on 23 May 46 and attained the standard required in all respects, incl typing of 300 words in 10 minutes with less than 3% errors.

From the above, it is considered that he qualifies for mustering as a Clerk (Special Intelligence Duties) entitled to draw trade pay at the rate laid down for such a trade.

Authy is therefore requested for this HQ to publish the casualty necessary to implement the above, to be effective from 1 Jun 46, the date at which he assumed control of the Translator and Interpreter Section of this HQ.

It is assured that transfer to the Intelligence Corps will not be necessary in this case, but this is recommended should mustering not be possible without its being effected.
