INSTRUCTIONS

1. The stores are provided under **VOTE 9A.**

2. Designations are arranged alphabetically.

3. A list of abbreviations used is shown below ; items printed in *italics* are obsolescent.

4. An index to catalogue numbers will be found at the end of the Section.

5. All stores introduced by List of Changes before paragraph B 9336 are embodied in this edition.

6. Where the letter " B " appears in place of a List of Changes number, the reference is to List of Changes, paragraph B 9583, dated 31st August, 1944, which gives effect to this edition.

7. When preparing indents for items in **Section B 3,** separate sheets of the indent *must* be tendered for each group of prefix letters BD, BE, etc. The prefix letters and catalogue number *must* be stated against each item.

8. **AMENDMENTS** are published in the monthly List of Changes in War Material. When directions are given to :—

(a) *Insert* items, the new entries will remain unpriced pending publication of " Additional Rates " in the appropriate amendments.

(b) *Substitute* new items *for* existing items, the rates last shown against the latter will be transferred to the new items. Wherever appropriate the amendment will be completed up to the " unit of rate " column.

(c) *Delete* items, the rates and catalogue numbers, where shown, will also be deleted.

(d) *Underline*, this indicates obsolescence.

In all cases the L. of C. paragraph No., including suffix " P " in the case of provisional paragraphs, will be inserted against the items affected thereby. For the most part amendments are printed complete for insertion in the V.A.O.S., but in cases in which the amendment is necessarily made in MS. the paragraph No. given in brackets *must* be quoted in the margin against the entry made.

ALL REQUISITIONED VEHICLES held will be shown in the "B" Veh. Return.

10. Units are requested to compare current vehicle returns with previous veh. returns for the purpose of ensuring that Part X Orders have been published for all movements of vehs. which have occurred during the month.

Declassified E.O. 12065 Section 3-402/NND No. 785020

given as called for under instruction No.9 of Census Form 45 viz.:

Calibre (where applicable)
Make or type
Model
Country of origin

13. No alterations to the printed nomenaclature on Census Form 45 may be made. If the nomenclature of a particular mark or make is not printed on the form, it will be entered under the heading of "other types". (Instruction No.3 Census Form 45).

16. (a) Units holding C.M.L. 3" Morters will report holdings of mountings by marks in addition to the barrels.

(b) Some units are reporting holdings of:

Vickers 303 Mk. I using Mk VII Amn.
and " " " " " VI, I Z Amn.
as " " " VI
and " " " VII

Units appear to confuse the mark of amn. with the mark of the M.M.G. and not realise that Vickers Mk. VI and VII are Tank Weapons.

(c) Units are not reporting holdings of Bomb Throwers 2" by their particular marks.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

17. C.C.'s of units are requested to pay stricter attention to Instructions Nos.11 and 12 on Census Form 45.

18. To ensure that all units are covered by this census, distribution of blank forms is sometimes unavoidably. duplicated, and forms received by units from more than one ADOS or DADOS. It is important that units already submitting returns through H.Q.'s of companies, or A.D.'s O.S. or D.A.D.'s O.S. of another area or formation, or who for any reason do not compile the blank forms circulated by this office, should bring these facts to the notice of this office AT ONCE. Many units are failing to carry out this essential action.

1. Commencing with the census at 31 Dec 44 and monthly thereafter the new type of form, viz. Census Form 45, will be used. This new form combines :-

(a) the old Census Form 45F which was used each month
(b) the old Census Form 45S which was used every fourth month to cover the additional range of items required for the four monthly census.

Both the forms at (a) and (b) above are now cancelled.

2. Units are now required to complete census form 45 each month in respect of all items listed on the form which they hold or to which they are entitled. If a unit has no holding of any of the items and also no entitlement the form will be rendered as a nil return.

3. The new form represents one document which is perforated into four separate copies. The unit is, therefore, able to complete the four copies of the return simultaneously. After completion the unit tears off copy No 4 (the unit copy) and forwards the other three copies direct to the Ordnance Officer concerned. The Ordnance Officer, on receipt of completed forms (copies 1, 2 and 3) separates and distributes as follows:-

Copy No.1 to Q(AD), GHQ AEF.
Copy No.2 to Q(Ad) AFHQ AEF
Copy No.3 retained as OO copy.

4. Instruction No.2 of Instruction Sheet of Census Form 45 (as applicable to units under Q(AD) AFHQ) clearly sets out how units are required to dispose of completed forms. This must also follow the remaining instructions carefully.

5. Census Form 45S (artillery and AA) and 'A' and 'B' vehicle returns are unaffected and will continue to be rendered as heretofore. OOs are requested to ensure that the copies of the vehicle returns sent to Q(AD), GHQ, AEF are the original copies.

be rendered as a nil return.

3. The new form requirement on document which is perforated into four separate copies. The unit is, therefore, able to complete the four copies of the return simultaneously. After completion the unit forwards one copy no 4 (the unit copy) and forwards the other three copies intact to the Ordnance Officer concerned. The Ordnance Officer, on receipt of completed forms (copies 1, 2 and 3) separates and distributes as follows:-

Copy No.1 to Q(AE)4, GHQ MEF.
Copy No.2 to Q(AE) AFHQ CMF
Copy No.3 retained as OO copy.

4. Instruction No.2 of Instruction page of Census Form 45 (as applicable to units under command AFHQ) records that new units are required to dispose of completed forms. Units must also follow the remaining instructions carefully.

5. Census Form 450 (Artillery (A) and (CA)) and 'A' and 'B' vehicle returns are unaffected and will continue to be rendered as before. OOs are requested to ensure that the copies of the vehicle returns sent to Q(AE)4, GHQ MEF are the original copies.

6. Blank Census Forms 45 and 450 are being despatched to you in the quantities indicated on Appendix 'A' to this letter.

7. Census labels are enclosed as usual.

8. Census Form - Radar Equipment, will be sent direct from this Headquarters to the units concerned and returned by them direct to the appropriate addressees. The Radar Section on the reverse of Census Form 450 need not be completed. Census Form 450 (CA) and 45 (AA and SL) are no longer used as the items covered are now included in the new Census Form 45.

9. All Indian Units under British Command are to be included in the census and OOs must ensure such units are included in their distribution and completed forms returned. In the case of Indian Combat Groups, blank forms are being issued to DADOS of each HQ as per Appendix 'A' to this letter.

10. It is essential that all units are covered by the census. Ordnance Officers must ensure that NO unit is omitted due to confusion as to the OO responsible. This letter has been sent to the addressees in Appendix 'A' to this letter which shows in general terms only, the responsibility of each addressee. Details of the obligations of OOs in regard to the monthly census are set out in DOS Circular No. 68.

ROME AREA ALLIED COMMAND
ORDNANCE (BRITISH).

Subject: Census of Vehicles and War Office Controlled Stores

Ref.: OS/650/7
Tel.: 66516
Date: Dec.'44

To: ALL BRITISH UNITS in Rome Area Allied Command

1. For special reasons higher authority have requested that all units' census returns for this month (December) be in their hands by 21 January '45, which is much earlier than the usual date. To ensure that this is achieved, it is most important that all units carry out the following:

(a) Complete returns as soon as forms are received, showing actual date of completion instead of 31 December '44.

(b) Return 3 copies of Census Form '45, correctly completed together with 3 copies of "A" and "B" Vehicle Return, to this Office with a minimum of delay.

2. Commencing with this December census and monthly thereafter the new type of form viz. Census Form 45 will be used for the return of War Office Controlled Stores. This new form combines:

(a) The old census form 45B used monthly

(b) The old census form 45D which was used every fourth month to cover the additional range of items required for the four monthly census.

Both the forms (a) and (b) above are now cancelled.

3. Units are required to complete Census Form 45 each month in respect of all items listed on the form which they hold or to which they are entitled. If a unit has no holding of any of the items and also no entitlement the form will be renderedas a

(b) Return 3 copies of Census Form '45, correctly completed together with 3 copies of "A" and "B" Vehicle Return, to this Office with a minimum of delay.

2. Commencing with this December census and monthly thereafter the new type of form viz. Census Form 45 will be used for the return of War Office Controlled Stores. This new form combines:

(a) The old census form 45D used monthly

(b) The old census form 45D which was used every fourth month to cover the additional range of items required for the four monthly census.

Both the forms (a) and (b) above are now cancelled.

3. Units are required to complete Census Form 45 each month in respect of all items listed on the form which they hold or to which they are entitled. If a unit has no holding of any of the items and also no entitlement the form will be renderedas a nil return.

4. The new form represents one document which is perforated into four seperate copies. Units will therefore be able to complete all four copies of the return simultaneously. After completion the unit tears off copy No.4 (the unit copy) and forwards the other 3 copies intact, to this office.

5. INSTRUCTION No.2 of Instruction page of census form 45 clearly sets out how units are required to dispose of completed forms.

6. Census Forms 45C (Artillery and F.C.I.'s) and "A" and "B" Vehicle returns are unaffected and will continue to be rendered as here to fore.

7. Census Form - RADAR EQUIPMENT, will be sent direct from AFHQ to units concerned and returned by them direct to the appropriate addressees. The Radar Section on the reverse of Census Form 45C need not be completed. Census Forms 45C (CA) and

7811

45 (AA and SL) will not longer be used as the items covered are now included in the new Census Form 45.

8. Vehicle Return (3 copies) will be routed through this office with Census Forms 45 and NOT sent direct by units to Q(AE) GHQ MEF and Q(AE) AFHQ CMF.

9. Nil returns for "A" and "B" Vehicles will be rendered. A brief note (with requisite number of copies) is sufficient but in the case of nil holdings of "A" vehicles, an endorsement on the "B" Veh.Return will suffice. ALL REQUISITIONED VEHICLES held will be shown in the "B" Veh. return.

10. Units are requested to compare current vehicle returns with previous veh. returns for the purpose of ensuring that Part X Orders have been published for all movements of vehs. which have occurred during the month.

11. British equipment held by British employed ITALIAN UNITS must be incluced in the census of the present unit.

12. Full particulars of captured enemy equipment will be given as called for under instruction No.9 of Census Form 45 viz.:

Calibre (where applicable).
Make or type
Model
Country of origin

13. No alterations to the printed nomenclature on Census Form 45 may be made. If the nomenclature of a particular mark or make is not printed on the form, it will be entered under the heading of "other types". (Instruction No.3 Census Form 45).

14. Enfield and Albion Pistols No.2 Mk I or Mk I* should be shown against Item No.3 Pistols Revolver 38 No.2 Mk I or Mk I*.

15. Equipment removed from A.F.V. and held on unit charge must also be included and a remark added to the effect that it is held as A.F.V. kit.(Instruction No.3 on Census Form 45).

[illegible] holdings of

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

must be included in the census of the present unit.

12. Full particulars of captured enemy equipment will be given as called for under instruction No.9 of Census Form 45 viz.:

Calibre (where applicable).
Make or type
Model
Country of origin

13. No alterations to the printed nomenclature on Census Form 45 may be made. If the nomenclature of a particular mark or make is not printed on the form, it will be entered under the heading of "other types". (Instruction No.3 Census Form 45).

14. Enfield and Albion Pistols No.2 Mk I or Mk I* should be shown against Item No.3 Pistols Revolver 38 No.2 Mk I or Mk I*.

15. Equipment removed from A.F.V. and held on unit charge must also be included and a remark added to the effect that it is held as A.F.V. kit.(Instruction No.8 on Census Form 45).

16. (a) Units holding C.M.L.3" Mortars will report holdings of mountings by marks in addition to the barrels.

(b) Some units are reporting holdings of:

Vickers 303 Mk.I using Mk VII Amn.
and " " " " " VIII Z Amn.
as Vickers 303 Mk VI
and " " Mk VII

Units appear to confuse the mark of amn. with the mark of the M.M.G. and not realise that Vickers Mk. VI and VII are Tank Weapons.

(c) Units are not reporting holdings of Bomb Throwers 2" by their particular marks.

17. C.O.'s of units are requested to pay stricter attention to Instruction Nos.11 and 12 on Census Form 45.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

18. To ensure that all units are covered by this census, distribution of blank forms is sometimes unavoidably duplicated, and forms received by units from more than one ADOS or DADOS. It is important that units already submitting returns through H.Q's of companies, A.D's O.S. or D.A.D's O.S. of another area of formation, or who for any reason do not compile the blank forms circulated by this office, should bring these facts to the notice of this office AT ONCE. Many units are failing to carry out this essential action.

It is regretted that the entitlement of Warlike stores to be held by this unit is unknown, owing to the fact that no Army Form C 1098 has been promulgated to date.

The War Establishment number is inserted on census form und at the head of vehicle census return submitted by this unit.

The authority under which the warlike stores and vehicles are held is the W.E. number. (GA/2ki/2 dated 15/6/44.) No issues of stores have been received under this authority as all warlike stores held were taken over from M.G. 50(M) Div. LIST 'C' less 5:30, 32, 33, 34, 35, 36, 53, 56, 57, 61, 62, 63, 64, 65, 66, 67, 69, 70, 71?73, 74, 80, 81.

1. A number of Thompson Machine Carbines are being damaged by an explosion in the feed-way, due to an unfired round lodging incompletely home in the chamber.

2. Until an amendment has been issued to Lesson 2 of SAT Pamphlet No. 21, the following immediate action will be implemented:-

(a) If the Thompson stops before the magazine is empty, cock it, inspect the feed-way and chamber, and if clear continue firing. In darkness, feel inside the feed-way.

(b) If a live round is found in the chamber, remove magazine, press trigger, and if necessary, re-cock. If an empty case is found in the feedway, shake it clear, removing the magazine if necessary.

(c) In each instance, replace magazine (or a full one) and continue firing.

3. The weapon will only function reliably when clean, especially when using steel cased ammunition. Stoppages are also caused by bent or damaged magazine lips. Care will therefore be taken to ensure that guns are kept properly clean and that damaged magazines are not used.
