Subject - Categorisation.

Rather to my surprise some 43 men turned up for category check tonight. I had only expected 24 in accordance with our conversation this morning. I therefore assume that this represented all the category men. I shall therefore not expect any on evening of Wed. 11th..

The only definite change made is the raising of Category of L/Cpl. Davidson E. IO587642 from BI to A2.

In the case of Pte. Kingston H. I43I5877 the correct category according to his AB 64 is B2. The entry showing A2 has never been signed. I should be grateful if it could be verified from other records which is his correct Category. If as I suspect it is found to be B2 I should not suggest altering. I think that probably the only way to check is with Records.

There are several men for whom no very obvious cause for present category exists. I propose sending these to the specialist as listed below to get his opinion on them.

SUBJECT: Venereal Disease

APPENDIX 'A'

1. All other ranks, before and after intercourse with a woman will carry out the directions on their ET packets. They will then visit the nearest Pro Station (PA Centre) and make use of its facilities. There are 10 American and 2 British Pro Stations (PA Centers) located in Rome City. If no such installation is immediately available, they will proceed to, and use, the ET Room provided by their units.

2. Pro Stations (PA Centers) MUST be used whenever possible and as soon as possible after intercourse. ET Rooms are not as efficient and should only be used when it is not practicable to visit the former.

3. Every individual who reports for treatment at a British PA Centre will enter his regimental number in a register kept by the N.C.O. i/c for that purpose. Each entry will be given a serial number and the user will receive a printed slip (CMF) Form 16), copy attached, certifying that he has used No. X PA Center and bearing the serial number.

4. Every individual who reports for treatment at an American Pro Station will likewise inscribe his regimental number and unit in a register kept for the purpose and will receive a Prophylactic Certificate, copy attached, certifying that he has used the Pro Station.

5. Every individual who for any reason cannot use a Pro Station (PA Center) but has to fall back on a unit ET Room will likewise be registered as having attended there under arrangements to be made by unit concerned.

6. Disciplinary action will be taken against any individual without exemption who contracts VD, and who fails to produce the prescribed certificate that he has taken preventive measures after intercourse with a woman.

7. Where units are able to provide a guard or orderly NCO, the following procedure will be adopted. Any soldier below Warrant rank on return to unit lines, except when returning from duty, will report to the Guard Room or Orderly NCO. The Guard Commander or Orderly NCO will check the man's sobriety. He will interrogate any man under the influence of alcohol, as to whether he has had intercourse with a woman, and if so, whether he has used a PA Center. A NCO will be interrogated by one of at least equal rank.

8. Any man so interrogated, who is found not to have used a PA Center after intercourse, will be immediately taken to the ET Room. This is to ensure that any man, who, under the influence of alcohol, has had intercourse with a woman and who therefore may have omitted to use a PA Center, receives treatment at an ET Room at the earliest possible opportunity.

4. Every individual who reports for treatment at an American Pro Station will likewise inscribe his regimental number and unit in a register kept for the purpose and will receive a Prophylactic Certificate, copy attached, certifying that he has used the Pro Station.
5. Every individual who for any reason cannot use a Pro Station (PA Center) but has to fall back on a unit ET Room will likewise be registered as having attended there under arrangements to be made by unit concerned.

On instructions received from your U.C., the
a/m NCO appeared before the Medical Officer at H°2 District
on the 12 May 44.

The Medical Officer states that he cannot reclass-
ify this NCO as he was placed in medical category
(B7 permanently) at 96 General Hospital on 26 August 43,
and NCE "B7 temporary" as your letter stated.

This a/m NCO AB64 Part 1 states that he was placed
in the category of (B 7 permanently) on 26 August 43 at
96 General Hospital. His medical category must then be
considered B 7 permanently.
