Declassified E.O. 12356 Section 3.3/NND No. 785020

UNITED NATIONS RELIEF AND REHABILITATION ADMINISTRATION

ITALIAN MISSION

20 October 1945

Colonel Clayton P. Kerr,
Land Forces Sub Commission, M.M.I.A.
Allied Commission, Rome

Dear Colonel Clayton:

The attached list of medical supplies includes items which UNRRA has programmed and which the Italian Army has in Stores in Sardinia.

This list also indicates the quantities of those supplies which your medical officer has agreed can be released in Sardinia to our officer in Cagliari, Captain Elfleda Sprague, provided certain quantities are released from UNRRA Stores in Italy as shown in the four columns of this list.

If you will issue instructions which will authorize the release of these supplies in Sardinia, Captain Sprague will, together with the Medico Provinciale of Sardinia, sign the receipt. Professor Bergami will issue instructions to his warehouse superintendent to set aside equivalent quantities as listed for replacement.

The purpose of this transfer is to expedite a distribution of medical supplies in Sardinia which is urgently needed, and it will also permit us to withdraw our medical staff from Sardinia at an earlier time.

Yours very truly,

D. A. Reekie

D. A. Reekie, Lt. Col.,
Director of Health,
UNRRA Italian Mission

C. Bergami

C. Bergami, High Commissioner
Hygiene and Public Health

Encl.
DAR/alb
CC: Prof. Bergami
Capt. Sprague
Mr. Morgan

M.W. asked to send instructions - sent on 28/10/45 that this has been done 25/10/45
Instructions have been sent by M.W. 26/10/45

SUBJECT: Request for vehicle for the transport of 5 Field Radiology appliances from Rome to Milan.

5 Field Radiology appliances which are in need of repairs and replacement of some parts, are stored in the G 1098 stores of the "Virgilio" Hospital, Rome. (3 Arcioni type and 2 Meschia type).

The two manufacturers of the appliances, who have been approache on the matter, have informed us that they can arrange for the reconditioning of the apparatus at their Milan workshops only.

This Directorate General points out the necessity of putting these appliances back into a serviceable condition, both to avoid their further deterioration and to be able to use them at medical units which are without such installations.

2825

In view of the ~~delicacy~~ fragility of the material, packed in about 40 packages, and the impossibility of dispatching ~~them~~ by rail in closed and escorted wagons we beg of th

on the matter, have informed us that they can arrange for the reconditioning of the apparatus at their Milan workshops only.

This Directorate General points out the necessity of putting these appliances back into a serviceable condition, both to avoid their further deterioration and to be able to use them at medical units which are without such installations.

2825

In view of the ~~delicacy~~ fragility of the material, packed in about 40 packages, and the impossibility of dispatching it ~~them~~ by rail in closed and escorted wagons, we beg of the S.M. to examine the possibility of the radiology apparatus in question being transported from the Military Hospital of Rome to the Military Hospital of Milan, by road, on a truck.

We await the favour of your kind reply in order that we may issue further instructions in the matter.

UNITED NATIONS
RELIEF AND REHABILITATION ADMINISTRATION
ITALIAN MISSION

(da restituire al cap. Corfer)

Ref. No.

Rome
29 September 1945

Lt. Colonel F. G. Holman, Land Forces
Headquarters Allied Commission
Rome

Dear Colonel Holman:

Following further our discussion with you and Colonel Kerr recently, we are able herewith to list our supply program for Sardinia. In the third column we list the medical supply items program for the year; in the fourth column is listed supplies that have been packed by the Ministry of Health here in Rome from supplies we have turned over to the Italian Government. These are boxed and are being shipped immediately to Sardinia. In the fifth column are shown the quantities of supplies to be provided in 1945 to Sardinia, when and as we receive additional supplies.

At the present time we have 1300 tons unloading and being inventoried. We are unable to tell at the moment what these supplies are, but we have every reason to believe that we will find large quantities of the items here listed. I am asking Mr. Morgan to bring this list over to you and ask you to look it over and indicate which items could be supplied to us in Sardinia from Italian Military stocks, and for which we would release immediately to the Italian Army similar supplies held here on the mainland.

Further, if you would indicate against those items that you could authorize the issue of to us in Sardinia, against our replacement in say thirty, sixty or ninety days from now, items which I understood Colonel Kerr to say might be surplus and not likely to be drawn against by the Italian Army.

Respectfully,

D. A. Reekie

D. A. Reekie, Lt. Col.
Director of Health

Translation

Ref. no. 6/7801/MT
8525

From: Ch of W
To: Territorial Military Command, Bolzano
MMIA, for info.

Date: October 5, 1945

Subject: Sulphamilimide preparations.

Serious difficulties are being reported due to the lack of "sulphamidopiridine" at pharmacies under the command of your Directorate.

The writer points out that a report received in July shows that your Directorate had a stock of not less than 54,000 sulphamilimide tablets and that later on, i.e. towards the end of September, the Bagliana Central Depot shipped [redacted] for you another 4,500 Tablets and 48 Vials of "sulfamidotiazolo".

While, therefore, you are requested to explain why "sulphamidopiridine" was not used and why "sulfamidotiazolo" was used instead, we wish to stress the need for economy in the use of the above-mentioned products, in order that they may be available in cases of proven necessity.

Signed 2813 Badda

****

Vengono segnalati gravi inconvenienti dovuti alla mancanza di sulfamidopiridina presso le fanterie dipendenti da codesta Direzione.

Lo scrivente osserva che dalla segnalazione pervenuta in luglio risulta che codesta Direzione aveva a disposizione ben 54.000 tavolette di sulfamidici e che successivamente, e cioè verso la metà di settembre, il Deposito Centrale della Magliana ha costi spedito altre 4.500 tavolette e 48 fiale di sulfamidotiazolo.

Mentre pertanto si invita a fornire chiarimenti circa il mancato impiego di sulfamidopiridina e, in sua vece, di sulfamidotiazolo, si raccomanda l'uso parsimonioso dei prodotti sopra detti, appunto per poterli riservare ai casi di comprovata necessità .

Further to telescript No. 6/6336/MT dtd 19 Aug 45.

In order to be able to obtain a more uniform application of the rules governing the distribution of medicinal goods to the Corps and Units, we stipulate the following :

1) the principal military hospitals of Palermo, Bari, Rome, Naples, Florence, Bologna, Turin, Genoa, Milan, Bolzano and Udine, will be supplied, through the offices of this Ministry :
   a)-by withdrawals made from the Central Italian Medical Medical Material Stores, Magliana (Rome),
   b)-by withdrawals made from the Military Chemical and Pharmaceutical Institute,
   c)-by the passing, from hospital to hospital, of material.

2) the secondary hospitals and medical establishments must be supplied by the pharmacies of the Principal Hospitals through the offices of the Territorial Medical Directorates;

3) field units and Corps of the Italian Army (including CC RR) and of the Italian Air Force, under the command of the Italian H.Q.'s (ITI-ITI forces), or under the command of British HQ's (BR-ITI forces), must draw supplies from the military pharmacies of the jurisdictional areas concerned through the Territorial

Copy for Col Holman

Subject: Release of Italian Army Medical Supplies in Sardinia to UNRRA.

LAND FORCES SUB COMMISSION
A.C. (M. M. I. A.) R O M E

13 September 1945

Memorandum for General Browning:

Lt. Col. Reekie of UNRRA called this morning at my invitation to discuss the above subject and the letter Lt. Col. Reekie wrote the Chief Commissioner under date of 12 September.

Lt. Col. Holman, AIMS, MMIA, was present at the conference.

The following points were covered:

1. UNRRA has attempted to handle direct with the Italian Army officials who referred UNRRA to MMIA, but UNRRA had not discussed with us.

2. The only information we had was from Col. Albert in Sardinia who had reported that UNRRA had approached him and were referred to us.

3. It was explained to Col. Reekie that (1) the medical supply of the Italian Army is a British responsibility and is therefore controlled, (2) the Italian Army is not a free-agent in regard to medical supplies, as all supplies in Italian depots are available for the entire army in order to save Allied supplies, (3) discussions with the Italian Army or our liaison officers will not be productive of results and (4) the letter to the Chief Commissioner was uncalled for until after UNRRA had first discussed the matter with us.

4. Col. Holman has discussed the matter with the Surgeon General of the Italian Army. The Italian Army is opposed to selling its supplies to UNRRA for cash, but is willing to exchange supplies in Sardinia for supplies on the mainland. The Surgeon General's desire is approved.

5. In order to save transportation, MMIA is willing to deliver to UNRRA in Sardinia any supplies available, surplus to Army levels, for like supplies to be turned over by UNRRA on the mainland. UNRRA will submit the list to Col. Holman, who will handle.

6. UNRRA will submit to Col. Holman a list of supplies now needed, but which cannot now be exchanged in kind as UNRRA has not

2802

M/H/3131

Declassified E.O. 12356 Section 3.3/NND No. 785020

yet received the supplies and cannot guarantee a date for repayment in kind. If any such supplies are available in Italian Depots surplus to the foreseeable needs of the Army, we will release on the promise of repayment by UNRRA. It was pointed out that this will only be done where we are able to clearly see that such action will not cause any demands to be made on the Allies by the Italian Army for such items prior to repayment in kind by UNRRA.

7. The Italian Army will not be allowed to sell, loan, or dispose of any Allied supplies without authority of MMIA, nor will the Italian Army be allowed to dispose of any of its own stocks where such action would require replacement from British Army stocks.

UNITED NATIONS

Relief and Rehabilitation Administration

ITALIAN MISSION

12 September 1945

TO: Adm. E.W. Stone, Chief Commissioner, AC

FROM: D.A. Reekie, Lt. Col., Director of Health

SUBJECT: Release of Medical Supplies Owned by Italian Army in Sardinia to UNRRA in Sardinia for Distribution to Civilian Hospitals

During the first week in June 1945, the Italian Army together with MMIA were planning to move a quantity of Italian Army medical supplies from Sardinia to the mainland. We learned of this and undertook negotiations to borrow certain quantities of these supplies for civilian distribution in Sardinia against repayment in kind to the Italian Army on the mainland of Italy.

The matter dragged along until we were told in the last week of July that these medical supplies had been moved from Sardinia; however, the last week in August we learned that General Pinna had somehow blocked the movements of these supplies to the mainland. Then we reopened negotiations to borrow these supplies against repayment in kind on the mainland. As matters now stand, the Italian Army is willing to authorize the release of these medical supplies to UNRRA for distribution in Sardinia provided they can have the permission of MMIA.

We have a copy of the inventory of these medical supplies, we know what we are importing in our program, and we propose that our district health officer in Sardinia together with the medico provinciale study the two lists to determine which of the Italian medical supplies we can use for civilian distribution and which we can repay from our supplies here on the mainland. Many of the supplies we can repay in kind immediately and others we can repay in October and November.

This is a request that you use your influence to obtain consent by MMIA to allow the Italian Army to proceed with this negotiation.

Subject:- Local Resources.

To:- A.D.M.S., Land Forces
Sub Commission, A.C.,
(M.M.I.A.).,
ROME.

It is reported that the firm Tullio Locatelli, Address:- Via Marsala 15, PADOVA, (Trade - Pharmaceutical Products) normally produce Anti-arthritics, analgesics, heart stimulants, revulsives, depuratives, diuretics, expectorants, hypnotics, laxatives, tonics and sulphamides.

The present stock of this firm includes the following:-

Paraffin Molle	K.G. 500
Salicydated Metile	K.G. 120
Jodine Salts	K.G. 5
Benzolated Sodium	K.G. 150
Sulphamide	K.G 50
Camphesulphonated sodium	K.G. 30
Lactophosphated calcium and iron	K.G. 200

None of the above are required for British Depots of Medical Stores but it is thought that these products may be of interest for use in the Italian Armed Forces.

and for info to MMIA
Subject : Recovery of medicel materials.

Ref. : 6/4691/5630
Date : June 23, 1945

Ref. M/4/2416 dated June 14, 1945.

MMIA has reported that huge quantities of medicel materials, belonging to military hospitals, have been transferred to the Chieppelle Hospital at Acqui for reasons of safe-keeping.

According to orders issued by said MMIA, the a/m materials are intended for exclusive use by Italian Armed Forces.

Therefore, we beg you to order, in agreement with the dependent Medicel Directorate, the recovery of the materials in question, and to send confirmation of this to this Ministry, to which a list of the items recovered should be sent.

Subject: Medical Supplies

Land Forces Sub Comm.
A.C. (MMIA)
RCSM
M/M/2458
19 June 45

F/L. Dennis,
Air Force Sub Comm. AC.

Reference your visit on 19.6.45.

1. Folio 5(a). Is substantially correct but somewhat misinformed. Supply of medicines etc., cannot be based on the number of bodies in a given area. Requests should be based on average expenditure over the preceeding 3 months.

Para 4. Shortages in detail.

Antiluetici etc.	Warm in short supply but now OK.
Ricostituenti etc.	In very short supply as the majority of these items are not used to any extent by the Allies, the supply is likely to cease altogether.
Acqua distillata in fiale	In short supply but may improve when local factories are working again.
Purgenti	Now OK.
Chinino in fiale	Very short and situation will get worse. There is however no limit on other forms of quinine - many millions of tablets are available.
Anastetici	Plenty available but not necessarily as "Novocaine" which is a trade-name.
Acqua canforata	As short in the British Army so the Italians can't complain.
Alcool denaturato	Is a local product and NOT in short supply.
Profilattici di Gomma	Short in British Army.
Siringhe per iniezione, Aghe per dette, Termometrici clinici	Warm short but now OK

2. With regard to the list comparing "receipts" against requests:-
The cuts appear to be not unreasonable, having in view the fact that

Declassified E.O. 12356 Section 3.3/NND No. 785020

Ricostituenti etc.	In very short supply as the majority are not used to any extent by the Allies, the supply is likely to cease altogether.
Acqua distillata in fiale	In short supply but may improve when local factories are working again.
Purganti	Now OK.
Chinine in fiale	Very short and situation will get worse. There is however no limit on other forms of quinine - many millions of tablets are available.
Anastetici	Plenty available but not necessarily as "Novocaine" which is a trade-name.
Acqua ossigenata	In short in the British Army so the Italians can't complain.
Alcool denaturata	Is a local product and NOT in short supply.
Profilattici di Gomma	Short in British Army.
Siringhe per iniezione	Items short but now OK
Aghe per dotte Termometrici cliniei)	

2. With regard to the list comparing "receipts" against requests:-
The cuts appear to be not unreasonable, having in view the fact that when present stocks are exhausted there will not be any more until local factories are in full production, or until further captured stocks (if any) arrive from the Middle East.
As a point of interest the majority of these items are not used in Allied Armies. Other items could in many cases be substituted but the onus is on the Doctor using the stuff to say what he wants as a substitute.

3. Folio 6(a) is answered in para 1 above.

4. Folio 7(a) OK.

5. Folio 8(a) appears to be a fault in administration. Items ARE available if requested through the proper channels in accordance with scales as approved by the Joint Chiefs of Staff.
Requests should be passed through No. 8 Territorial Command, Rome, Direzione di Sanita.

AIRMAIL.

The War Office,
LONDON. S.W.1.
6 June, 1945.

35532 (A.M.D.3b)

Director of Medical Services,
A. F. H. Q.

The supply of medical equipment has been arranged as follows :-

(A) Iti-Iti Medical Store, Elbow.
Indent M.4130/10 (May 1945) under War Office Issuing No. 35532, and B.M. 1670 (A.M.D.3b) dated 5th March, 1945, for items from Persia/Iraq, except as follows :-

1A-1200) Substituted by 1A-2410 and 2420.
1201)
1720 " " 1A-1140.

1C-7484 Not issued. Report received indicates theatre holdings sufficient to meet all requirements and large consignment returned to Mideast.
7770 Reduced to G.100.

3A-3530 Increased to 500) 10 c.c. held in lesser quantity.
3540 Reduced to 100.)

Reference your M.4130/10 dated 3rd May, 1945. Both sizes of Plaster Adhesive have been reduced in length to 5 yards as a matter of necessity and economy whilst no increase in the number of spools in unit equipments has been authorized. No supply is being made from the U.K. against this indent. The Persia/Iraq transfers should be regarded in equivalents of 5-yard spools.

(B) No. 10 Command Depot of Medical Stores, Elbow.
Indent No.218 (April, 1945) under War Office Issuing No.35678, and B.M.1670 (A.M.D.3b) dated 5th March and 4th April, 1945, for items from Persia/Iraq, except as follows :-

Items) Not available from stock. Will take several months to
15 & 16) obtain from trade. As supply of a limited number has been made to C.M.F. previously are the U/S items available for return to U.K. for repair.

38 Dealt with separately under W.O. Issuing No. 35872 (30 despatched Air Mail).

Declassified E.O. 12356 Section 3.3/NND No. 785020

38 Dealt with separately under W.O. Issuing No. 35872 (50 despatched Air Mail).

70 Deleted. Already demanded on indent for Optical Appliances etc.

77 Reduced to 200)
78 " " 200)
79 " " 250)
80 " " 100)
81 " " 200)
82 " " 120)
83 " " 200)
84 " " 200)
85 " " 120)
Plates and Screws are in difficult supply. Quantities of Screws demanded for C.M.F. are far greater than other operational theatres. It is felt that the reductions will prove adequate but further information would be appreciated. Since indent was approved for supply in early April changed conditions have arisen.

86 Reduced to 6.
87 " " 1.
In short supply. Further details to support the A.M.I. Rate of 2 sets of Emergency E.N.T. Instruments would be welcomed.

100 Deleted. Not available for supply.
101/102 Reduced to 6 of each. Limited stocks available. C.M.F. holdings should suffice.
104/105 Supply withheld. May the necessity for these items be confirmed with a note of units to which issue is being made.
132. Reduced to 2. Special supply to complete scales previously made. A.M.I. Rate of 6 is therefore thought to be inclusive of initial issues and not true maintenance.

Declassified E.O. 12356 Section 3.3/NND No. 785020

136. Reduced to 2.

(C) No. 10 Command Depot of Medical Stores, Elbow.
Indent 232 (May, 1945), under War Office Issuing No. 35773, except as follows :-

1D-9020 Reduced to 5000 phials) See Note below.
9021 5000 phials added)

NIPL Dmelcos Vaccine - Not available for supply.

NIPL Lygranum Test and Control. It is hoped to obtain 16 to 20 tests at an early date for issue. This is imported and being expiry dated trade imports are small and infrequent at present. Would it be possible to give a firm future monthly requirement of actual consumption so as to permit of arranging if possible a constant supply from the trade by import.

1D-9020 Antitoxin, Diphtheria. The following change is notified pending amendment to the P.L.M.E. -

1D-	ANTITOXIN, DIPHTHERIA, REFINED, PEPSIN TREATED -	
9020	8,000 UNITS	phials
9021	24,000 UNITS	phials

As 24,000 Units is normally the minimum dosage required scehdules are being based generelly as one-third 8,000 Units and two-thirds 24,000 Units of the total unitage authorized. Provision has been arranged accordingly and demands will be met in this ratio otherwise difficulties will arise in production of the 8,000 Unit phials. May indents be scaled in this way by No.10 C.D.M.S.

Please inform demanding unit of supply approved.

Subject: Forecast of Medical Supplies Requirements

Land Forces Sub Comm.
A.C. (MMIA)
RCAM
W/4/2143
21 May 45

DMS AFHQ ✓

Forecast of medical supplies required by the Italian Armed Forces for the period 1st October 1945 to 31st March 1946 is forwarded herewith.

In compiling this forecast no allowance has been made for items which may later be found in Northern Italy.

It is anticipated that the Italian Military Pharmaceutical Factory in Florence will commence work in the immediate future. Providing that the raw materials are made available through the usual A.C. channels, production of items marked thus + could commence almost at once. As each item becomes available in sufficient quantity you will be duly informed.

Your attention is invited to certain non-expendable items in Section 5 A. Although these are considered necessary, the final decision as to whether or not they should be supplied is left to you.

This forecast is made without exact knowledge of the future policy of the Italian Armed Forces which may alter as the result of the cessation of hostilities in Europe.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Subject: X-ray Equipment.

Land Forces Sub Com.
A.C. (SHAEF)
IN/4/2575
12 June 45

DSS AFHQ (2 copies)

Reference your M.4660 of 2 June 45.

As the question of payment between Governments is involved, it is suggested that before the X-ray films in question are offered to the Italian War Ministry, some agreement should be reached as to the actual value thereof.

May the X-ray films be offered to the Italian War Ministry at one-third of the price as shown in P.L.E.M.? Freight charges and departmental expenses would of course be added.

It is thought that the Italian War Ministry would probably accept the whole consignment if put to them as a business proposition.

ALLIED FORCE HEADQUARTERS

OFFICE OF THE SURGEON

Need 4/6

Subject : X-Ray Equipment. Reference : M.4660.

To : A.D.M.S. Army Sub-Commission, A.C., (M.M.I.A.), ROME.

1. There is in the Middle East a quantity of X-Ray Films which have become surplus due to the change over from the ordinary speed X-Ray film to the ultra rapid type. This change over was done by Areas and the last Area is now using up old stocks.

2. The following are the details of the surplus films and D.M.S., G.H.Q., M.E.F., has suggested that they may be used by Italian Units :-

$6\frac{1}{2}$" x $4\frac{3}{4}$"	4,500	Doz.
$8\frac{1}{2}$" x $6\frac{1}{2}$"	1,000	Doz.

3. The Adviser in Radiology, M.E. is of the opinion that due to heat fog, 25% of these films are useless and 25% are usable. The remaining 50% are perfect.

4. Will you please say if these films can be used by the Italian Army and if so, how many of each size you require. It should be borne in mind that the unserviceable films are mixed with the serviceable ones.

R.A. MORRISH,
Major D.A.D.M.S. (S),
for Major-General,
Surgeon, D.M.S., A.F.H.Q.

Rep. No. 6/4181/MT/4922

From: Min. of W.
To: Italian Liaison Office with American 5TH Army M.M.I.A., for information

Subject: Supply of medicines to northern Territorial Military Hospitals.

As regards the supply of medicines to the hospitals under the command of the Territorial Military H.Q.'s of Turin, Genoa, Milan, Bolzano, Udine and Bologna we wish to inform you that similar to what was done in the central and southern area, northern Medical Directorates should – first of all – henceforth send to the writer – on or before the 21st of each month – a table showing:

a) the amount of medicines on hand as of the 15TH of that month
b) amounts consumed during previous month
c) estimated monthly requirements.

After the above tables have been received, the writer will arrange for the necessary movements and will, if necessary, forward proper monthly requisitions to MMIA.

To this end instructions were issued to all Medical Directorates concerned ever since their organization, by sending them a copy of the attached circular No. 6/2937 of October 14, 1944 and, moreover, in order to start the aforementioned system of reporting and supply, orders have just been issued (please see tele. and regular, dated the 28th and 29th ult. respectively, likewise enclosed) to northern Directorates to send in an initial

Subject :- Salvage of Italian Army Medical Supplies.

The attached translation of a letter from the Ministry of War gives information and the locations to which some 2,000 tons of Medical Stores and machinery from the Military Pharmaceutical and Chemical Institute MILANO were removed by the Germans in June and July '44. Some of the machinery was set up by Italian workmen and it is believed that many of these materials may still be located in these cities.

Please ensure the Italian Commands of 210 and 231 Divisions endeavour to trace these supplies. If found, they should be placed under a guard and reported to No.5 Italian Territorial Command (on arrival at BOLZANO) and MMIA when further disposal instructions will be given.

TRANSLATION.

From :- Military Chem. & Pharm. Institute.

To :- Gen. CALDOROLA.

Subject :- Location of Stores and Laboratories of the Military Chem. & Pharm. Institute in the North of Italy.

From verbal information supplied by personnel actually on duty at this Institute and who were, during the German occupation in the North of Italy, either to repair machinery or to escort pharmaceutical materials, it appears that :-

1. The temporary workmen ABBIATI LUIGI, VASCO GUISEPPE, LANZI ACHILLE CARADOSSI VASCO notify the exact location of the various laboratories and stores in ROVERETO, stating also the names of the Republican Officers and workmen employed at a/m laboratories.

(a) A Stores with medical materials in the centre of ROVERETO near to the Railway Station (ex-gymnasium of G.L.L.)

(b) A laboratory of Medical materials located in two stories of a wing of the KOFLER factory at about 1500 yards from the Railway Station and at about 100 yards from a railway bridge.

(c) A stores with medical materials at LIMONA in the vicinity of ROVERETO Castle.

(d) A stores with medical materials in the ex MAFFEI BERSAGLIERI Barracks, on the road to TRENTO.

(e) A SANITATSPARK (German) with a considerable quantity of materials manufactured by the institute in ROVERETO on the road leading from the town to KOFLER Factory.

Major CONTALDI, Pharm. temporary workmen PIERI LUIGI, GIORDA PIETRO and workmen NIEBI LINA, NICOLOSI LUISA and her daughter are working at a/m laboratories and stores.

2. Temporary workmen TURCO UMBERTO and LANZI ACHILLE notify the location of labs and stores in PERTRE, stating also the names of the officers and workmen on duty at same.

(a) A Med and raw materials store of the Institute and of CARLO ERBA firm in the Castle of PETRE

Declassified E.O. 12356 Section 3.3/NND No. 785020

Station and at about 100 yards from a railway bridge.

(c) A stores with medical materials at LIMONA in the vicinity of ROVERETO Castle.

(d) A stores with medical materials in the ex MAFFEI BERSAGLIERI Barracks, on the road to TRENTO.

(e) A SANITATSPARK (German) with a considerable quantity of materials manufactured by the institute in ROVERETO on the road leading from the town to KOFLER Factory.

Major CONTALDI, Pharm. temporary workmen PIERI LUIGI, GIORDA PIETRO and workmen NIBBI LINA, NUCLOSI LUISA and her daughter are working at a/m laboratories and stores.

2. Temporary workmen TURCO UMBERTO and LANZI ACHILLE notify the location of labs and stores in FELTRE, stating also the names of the officers and workmen on duty at same.

(a) A Med and raw materials store of the Institute and of CARLO ERBA firm in the Castle of FELTRE - Alpine troops Barracks - highest point of the town.

(b) A raw materials stores in the premises of PEDAVENA beer house at about 1 mile from FELTRE .

(c) Stores with machinery not working (at that time) in the 2745 communal school FELTRE.

(d) Laboratory in the vicinity of the Asylum at about 1 mile from the centre of the town on the road to BELLUNO.

(e) GARIBALDI Barracks in the town of FELTRE.

(f) S MARCO colony and TREVISANA colony, 500 yards apart, at about 1 mile from FELTRE on the left of Mount TOMATICO - on the road to BELLUNO.

The following officers are on duty at a/m laboratories and stores (see names in original copy).

In consideration of the eventual freedom of Northern Italy, a vehicle with an officer and some workmen well acquainted with the places should be sent immediately to FELTRE and ROVERETO to avoid loot and destruction of these precious materials. Of course, passes are needed for a/m

Pro-memoria per il Signor Generale CALDAROLA

OGGETTO: Dislocazione dei vari magazzini e laboratori dell'I.C. F.M. nel Nord.

Da informazioni verbali assunte presso il personale in servizio presentemente in questo Stabilimento ecche si è recato, durante la occupazione tedesca, nel Nord per sistemare impianti od accompagnare materiali farmaceutici e macchinari, risulta quanto segue:

1°) Gli operai temporanei Abbiati Luigi, Vasco Giuseppe, Lanzi Achille, Caradossi Vasco segnalano l'ubicazione precisa dei vari laboratori e magazzini siti in Rovereto, citando anche i nomi degli ufficiali repubblicani e operai impiegati in questi stabilimenti;

a) un magazzino con oggetti di medicatura nel centro della città di Rovereto, presso la stazione ferroviaria (ex palestra della GIL);

b) laboratorio per oggetti di medicatura sistemato in due piani di un padiglione dello stabilimento Kofler a circa 1500 metri dalla stazione ferroviaria ed a circa 100 metri da un ponte ferroviario;

c) magazzino di oggetti di medicatura a Limona nei pressi del Castello di Rovereto;

d) magazzino di medicatura nella ex Caserma Maffei dei bersaglieri, sulla strada che conduce a Trento;

e) Sanitätspark tedesco con molto materiale già confezionato dall'Istituto, in Rovereto, nella via che dalla città conduce allo stabilimento Kofler;

Declassified E.O. 12356 Section 3.3/NND No. 785020

ufficiali repubblicani e operai impiegati in questi stabilimenti;

a) un magazzino con oggetti di medicatura nel centro della città di Rovereto, presso la stazione ferroviaria (ex palestra della GIL);

b) laboratorio per oggetti di medicatura sistemato in due piani di un padiglione dello stabilimento Kofler a circa 1500 metri dalla stazione ferroviaria ed a circa 100 metri da un ponte ferroviario;

c) magazzino di oggetti di medicatura a Limona nei pressi del Castello di Rovereto;

d) magazzino di medicatura nella ex Caserma Maffei dei bersaglieri, sulla strada che conduce a Trento;

e) Sanitätspark tedesco con molto materiale già confezionato dall'Istituto, in Rovereto, nella via che dalla città conduce allo stabilimento Kofler;

Prestano servizio in questi vari laboratori e magazzini il maggiore chimico farmacista di complemento CONTALDI e gli operai temporanei PIERI Luigi, GIORDA Pietro (cardatore) e le operaie NIBBI Lina, Nicolosi Luisa e figlia.

2742

2°) Gli operai temporanei Turco Umberto e Lanzi Achille segnalano l'ubicazione dei laboratori e magazzini in Feltre, citando pure i nomi di ufficiali e operai in servizio nei laboratori stessi:

a) magazzino medicinali e materie prime dell'Istituto e di

./.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Carlo Erba nel Castello di Feltre - Caserma degli alpini (punto più alto della città);

b) magazzino materie prime nei locali della Birreria Pedavena a circa 2 km. da Feltre;

c) magazzino con macchinari non in funzione (a quell'epoca) nelle Scuole Comunali di Feltre;

d) laboratorio officinali presso l'Ospizio dei vecchi,a circa 2 km. dal centro della città sulla strada di Belluno;

e) Caserma Zanatelli entro Feltre;

f) Colonia S.Marco e Colonia Trevisana a circa 500 metri l'una dall'altra a circa 2 km. da Feltre sulla sinistra del Monte Tomatico - strada per Belluno.

Sono in servizio in questi laboratori e magazzini i seguenti ufficiali: Col.chim.farm.Cappelli Giuseppe,Ten.Col.chim.farm.Ferraris Adolfo,Cap.chim.farm.Botrini Mario,Magg.chimico farm.di compl. Somigli Gustavo,Cap.chim.farm.di compl.Vassallo Michele,Cap. di artiglieria di compl.Gasparetti Giov.Battista,Ten.chim.farm.di compl.Sgarbossa Andrea,Ten.chim.farm.di compl.Manna,Ten.chim.farm. di compl.Lancini e gli operai Fresia Tommaso,Falchi Francesco (squadrista),Merchionne Carmine (squadrista),Vasorri Quintilio (squadrista),Bindi Giuseppe (squadrista).

Nell'eventualità di una liberazione prossima dell'Italia del Nord occorrerebbe tempestivamente predisporre che un automezzo,con un ufficiale e qualcuno degli operai citati pratici dei,luoghi,possa recarsi immediatamente a Feltre e Rovereto per impedire,se possibile,la distruzione ed il saccheggio di tanto materiale prezioso. COMANDO MILITARE TERRITORIALE DI NAPOLI
UFFICIO ASSISTENZA

No. 12/6212 di prot P.M. 3400, 28/4/45

Subject: Medicines

When I have visited some soldiers coming back from prison and now in a Civilian Hospital (SANATORIO), because they were ill of pulmonary tuberculosis, I have seen the great shortage of medicines which ought to be the base of the cure for this illness.

As it is known, the medicines for the soldiers being in hospital (with civilian ration) cannot be supplied by the military pharmacies, but must be drawn, on payment, from the Prefetture, that are inefficiently supplied.

The case of tubercular soldiers is particularly pitiful because they are gravely sick, far from their homes, in the majority of cases without any news from their families and besides having low morale, are insufficiently cured.

Therefore I appeal to your sense of humanity in order that you meet with the needs of these sick soldiers and please assign to the SANATORIO that have soldiers some quantity of medicines and particularly phials of calcium.

With my best greetings.....Thank you very much.

Reference your M/4/1722 of 18 Apr 45.

Complete check of equipment is now being made in our Depots of Medical Stores and as items of captured equipment of Italian origin are located they will be assembled in cases and issued to the Iti-Iti Depot of Medical Stores, Rome. Copies of costed vouchers will be submitted to you for necessary action as each consignment is forwarded.

From: Territorial Military Command, Naples — Ref. No. 1602/R.U.
To: Ministry of War, Medical Directorate, Rome — Date: March 28, 1945
(Ref. letter 6/21/S/MT of the 20th inst.)

Subject: Complaint by MMIA concerning the operation of the Naples Medical Depot.

With reference to the above letter and to the complaint received from MMIA, this Directorate, after due investigation at the Pharmacy of the "Miracoli" Military Hospital by Lt. Col. Silvio Guglielminetti, Pharmacist, of your Ministry, wishes to report the following:

1) - Shortages in supplies for the "Mantova" Combat Group.

The reported unavailability of medicines concerns withdrawals made by the 104th Medical Section which has so far made 3 substantial requisitions, in January, February and March of this year, respectively.

The complaint evidently refers to the requisition dated January 2, 1945, submitted to the pharmacy on the 20th and delivered on the 25TH inst. — since the following requisition was met practically in full, while the one for the month of March is still in preparation.

Also the requisition for February had been cut down in the course of preparation, but was later met in full due to the intervention of an officer from MMIA who appeared there on an inspection round accompanied by the Medical Director of the "Mantova" Group and who — the head of the Pharmacy stated — requested, among other things, a complete list of shortages and promised that they would be filled promptly, which, however, has not happened so far.

Now then, the January requisition, consisting of 6 vouchers, form 577, and comprising about 200 items,

P/A

Lett. 19/4 → CST Corps.

Declassified E.O. 12356 Section 3.3/NND No. 785020

(2)

were submitted to the Pharmacy a few days after the preparation of the periodical situation report and were not in any way cut down by this Medical Directorate.

The Pharmacy, in addition to cutting down the amounts in accordance with available supplies and with the requirements of the various organizations, struck off 36 items, 16 of which were already actually short as of the date of the situation report (January 15TH).

The Pharmacy justifies its failure to deliver the 20 items appearing in the table of stocks on hand, by giving various reasons and especially because of the fact that — it claims — some of the items became unavailable in the days between the preparation of the table and the filling of the requisition.

Some of the items were not available at the Pharmacy at the time of delivery, but were at the Montesanto Depot.

To clarify matters further, we are listing below the items struck off and the explanations offered by the head of the Pharmacy.

— 10 c³ hypodermic needles (struck off because the needles with point 5 are identical with those carrying point 10: out of 140 needles requested only 12 could be obtained from trade sources and were supplied.

— "Collirio glassi all'ossido giallo" (stocks on hand consisted only of collyriums of different composition)

— "Ferro clorato liquido" (at the time the medicines were drawn the product was at the Montesanto Depot)

— "Etile cloruro" (as above)

— Basic lead acetate (at the time of delivery this was still to be prepared)

— "Pomata ammoniacale solforrisolata" (became unavailable after

2733

Declassified E.O. 12356 Section 3.3/NND No. 785020

(3)

January 15th and before the preparation of the voucher)

- 10 c³ syringes (as above)
- talcum powder (the 116 Kilos on hand had been scheduled for delivery to VS-Ili '1)
- athofan tablets (became unavailable after January 15th and before the preparation of the voucher)
- Quinine, Atebrin, "certuna" tablets (were not delivered due to an erroneous interpretation of War Ministry circular No. D. G. S. M. 4/3746/IS of December 19, 1944)
- permanganate tablets (the available tablets, not of Italian origin, were labelled for oral consumption)
- thermometers (became unavailable after January 15TH and before the preparation of the voucher)
- plaster bandage 6 x 0.08 (were completely lacking, the positive information in the table being wrong)
- bismuth salicylate (in) vials (vials were unavailable and Bismevan bottles had become unavailable after January 15TH)
- lecithin (in) vials (vials on hand had exceeded their date of validity and were in an altered state)
- bi-chloride of mercury (in) vials (became unavailable after January 15TH and before the preparation of the voucher)
- "sparteina" (in) vials (as above)
- methyl alcohol (was not delivered due to the extremely small amount available, strictly necessary for the work of the biological laboratory of the Hospital)

2) Captured medical supplies previously on hand in the basement of the pharmacy:

The 100 and odd cases found in the basement of the "2732" Hospital last Summer represented a lot delivered direct to the Pharmacy on July 25TH and later inventoried and transported

1528

Declassified E.O. 12356 Section 3.3/NND No. 785020

to the Montesarchio depot toward the end of August 1944, for issue to the hospitals (see report dated August 29, 1944).

These supplies remained at the Miracoli hospital about a month, primarily because of the fact that all other depots were full of supplies which were being inventoried.

3) Non-delivery of quinine tablets.

The non-delivery to the Montesarchio Group of the 90,000 quinine tablets as well as of the atebrin and certuna tablets, which were available at the Pharmacy and of which there was a large stock at the Depot, was justified by the head of the Pharmacy with the fact that when the requisition was made, circular 4/3746 IS. of December 19, 1944, received at the pharmacy on December 31, 1944, relative to the stock-taking of all materials used in the control of malaria, was in the course of application. The circular ordered the delivery to pharmacies by all units of chemical products for the prevention, prophylaxis and cure, and was interpreted by the Pharmacy as an order to discontinue all issues.

CONCLUSIONS

1) In reply to observations from MMIA concerning shortages in the supply of medicines to the "Mantova" group, the head of the pharmacy at the Military Hospital in Naples, Major Anthos Gambino, Pharmacist, offered explanations which are only partly acceptable. For instance, there is evidence of a lack of initiative on the part of Major Gambino in failing to procure from the Montesarchio Depot - likewise under his command - the materials unavailable at his pharmacy and which were on hand at the Depot. Concerning the non-issuance of quinine and other anti-malarial preparations, it is pointed out that the Pharmacy should have asked this Directorate for instructions before

2731

Declassified E.O. 12356 Section 3.3/NND No. 785020

placing such a restrictive interpretation upon the instructions of your Ministry concerning the stock-taking and surrender of anti-malarial products.

2) The lot of 100 cases of medical supplies which was found in the basement of the "Miracoli" Hospital was subsequently inventoried by the then head of the Pharmacy in Naples. The delay is due to the fact that at that time other important lots - which had arrived before - were in the process of being checked and had to be kept seperate both because of a lack of space and because of the need to prevent the supplies from getting mixed up.

3) An examination of the medicine withdrawal vouchers submitted by the 104th Medical Section shows that the number of items and the amounts requested of each item are very large, as your Ministry will be able to establish by referring to the attached table.

4) In view of the foregoing it is recommended that a reprimand be administered to Major Antonio Gamboni, IC of the Pharmacy, since he must be regarded as responsible for the difficulties encountered.

It would, moreover, seem advisable to request the medical director of the "Mantova" combat group to limit requisitions for medicines and medical supplies to actual needs, one of the reasons being the difficulty of obtaining supplies.

Signed: Guido Ferri
Colonel
Medical 27.30

Translation

From : Min of War
To : Army Territorial Command
Medical Directorate
Naples

Ref. No. 6/28/MT
Date : April 12, 1945

The inquiry conducted by your Directorate in connection with the unsatisfactory operation — as established by MMIA — of the Naples Medical Depot, proves that a certain amount of blame must be placed upon the shoulders of the present head of the Pharmacy at the "Miracoli" Military Hospital, due to lack of initiative, in connection with the non-delivery of certain medicines to the "Mantova" Combat Group.

While the writer intends to remind the medical direction of said Group of the need for a greater sense of responsibility and greater economy, in the matter of excessive consumption of medicines, this office — following the recommendation made by your office — administers the following reprimand to Major Antonino Gambino, Pharmacist, to be inscribed on his personal record :

" Placed at the head of an important pharmaceutical depot
" he neglected — contrary to the instructions received from
" the Ministry and due to a lack of initiative — to
" properly supply a Combat Group, thus drawing a
" complaint from the Allies.

Translation

From: M of W
To: Medical Office, "Mantova" Combat Group

Ref. No. 6/25/S/MT
Date, April 12, 1945

Subject: Consumption of medicines.

An examination of the medical Vouchers submitted by the 104th Medical Section of your Combat Group to the Army Pharmacy at Naples in January, February and March 1945 discloses that withdrawals were excessive, both as to number of items and amounts requested, in relation to what, instead, should have been the actual need.

We are listing on the attached sheet all items requested in excess (of estimated requirements), and your attention is called to the evident and total lack of sense of proportion and control at your end when the requisition was prepared.

While, therefore, a request is made to your office to show a greater sense of responsibility and to exercise a stricter control over its subordinate units, designed to keep the consumption of medicines within reasonable bounds, due to the present manifold requirements and the extreme difficulty of obtaining supplies, this office awaits your explanation concerning the reasons which prompted requisitions of such considerable proportions.

Signed: F. Caldarola
for Minister

1. In equipping the Combat Groups, the supply of medical equipment (I 1248) was made entirely from Italian Army resources. As a result there are now only small reserves of field and certain other medical equipment in Italian depots.

2. As the Allies and Italian Army units moved north, base hospitals in rear areas ceased to belong to the Italian Army, but have nevertheless continued to function for the ever-increasing number of "over 60-day" patients and also to accomodate chronic sick and wounded repatriated Italian Ps.O.W. As there was no other solution, hospital equipment remained with these institutions.

3. Further Italian service units are still being created and the demand for unit medical officers' equipment still exists. A certain amount of miscellaneous equipment has already been returned together with the expendable captured medical supplies.
Medical Directorate are organising specialist officers (dental, eye, E.N.T. etc.) to collect all surplus medical equipment and reform these items into their previously constituted "sets" and panniers etc.

4. In order to assist them in this purpose and at the same time avoid demands on British equipment, enquiry is made if any further captured Italian non-expendable medical equipment is held in Allied depots and could be made available to the Italian Army. Attached at Appendix 'A' is a bi-lingual list of items most urgently required.

Assignment of material to n°1 ambulance convoy.

According to request made by MMIS that Directorate will arrange for the following material to be made ready and conned to "MANTOVA" C.G for n° 1 Ambulance convoy:

90 Thomas splints for legs
16 first aid pt boxes
15 alluminium bowls
2260 first field dressings.

M/4/1683

The Thomas splints, bowls, and f.d dressings will be issued from available stocks in the Mob depot. and Depot and pharmacy of said Hospital

The first aid boxes will be made as soon as possible by the RANIERI firm of ROME, already contacted as regards this work, and must be completed and filled by the pharmacy of the Hospital according to the rules as per the other similar first aid boxes, recently prepared 27/15 dec letters 6/1263/1569 and 6/1675/2086 from this n ofw dated 26-2. and 10-3 respectively

P/A

Declassified E.O. 12356 Section 3.3/NND No. 785020

As soon as all the material is ready That Directorate will make direct contact with MANTOVA C.G HQ for the withdrawal of same to MANTOVA combat Group we point out that.

One of the 16 first aid boxes will be issued to 318 field bakery.

The first field dressings will be packed in 90 cloth bags containing each ~~four~~ 24 of those dressings, said bags will be assigned separately by this M of W - General Directorate of the Commissariat and Admin services.

This matter will be treated as urgent. Please inform this ministry when same carried out.

12 April 45

Ministry of War,
Direzione Generale di Sanita Militare

Copy to: DMS AFHQ for info

AFHQ have requested a forecast of medical supplies required by the Italian Armed Forces for the period 1st October 1945 to 31st March 1946.

For your guidance the following points are noted:

1. Only stocks within liberated Italy will be taken into consideration. Subsequent supplies found in northern Italy will be taken into consideration after capture and adjustments made.

2. Items which have not been included in the forecast may not be requested afterwards.

3. Items about which there is any doubt as to rate of expenditure should be included in the forecast.

4. Although the forecast is for a fixed amount, it does not follow that the full amount must necessarily be requested and expended. This will be adjusted as at present according to current stocks and expenditure.

5. The forecast should be in this office not later than 30th April 45.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Subject: Evacuation Hospitals - Medical Supplies

Land Forces Sub Comm.
A.C. (MMIA)
ROME
M/4/1606
12 April 45

Ministry of War,
Direzione Generale di Sanita Militare

1. Comment by Allied authorities has been made on the small amount of expendable medical stores carried by the Evacuation Hospitals (200 beds).

2. As these hospitals (previously catering for 70 patients) will in future always work at the 200-bed level, their holdings of expendable medical supplies as shown in No. 11 "Caricamento dell' Ospedale da Campo (Modello 1915-31)" should be multiplied by 3.

3. It is requested that instructions to this effect be issued and indents submitted to the appropriate medical depots. The sixteen units affected are Nos. 230, 232, 429, 519, 866, 522, 470, 576, 331, 520, 85, 91, 964, 231, 291 and 292 Evacuation Hospitals.

4. If proper containers are not available the increased amounts should be held by units in ordinary packing cases.

Lieut-Col.
A.D.M.S.

M/4/1474.
4 April 45

NDMS
8th Army (2)

1. Enclosed at Appendices 'A' to 'H' are copies of receipt vouchers which were received at MMIA for accountancy purposes. Of the total value of these supplies (£ 237), items to the value of £147 were readily available in Italian Depots.

2. Reserve holdings of certain items in Italian depots are rather low at present as part of February's and the whole of March's consignments ex U.K. have not yet arrived. It is appreciated that operational needs may necessitate the immediate issue of certain items but it is requested that these should be kept to a minimum and the Italian Army made to use their own supply channels. For your guidance in this matter, attached at Appendix 'I' is a short list of items not available or in short supply in Italian depots.

3. Delay in the Italian postal services also gives rise to a time lag between demand and delivery. During a visit to 8th Army in February by ADMS, MMIA, it was agreed by all concerned that the C.C. "S" Advance Depot Medical Stores would submit a copy of his monthly indent to MMIA through Allied postal channels using either C.C. 7 Advance Depot Medical Stores (MZ) or MMIA L.O. Rear 8th Army for this purpose. This has only been done on one occasion. The present C.C. of "S" Advance Depot Medical Stores is being replaced. Subject to your approval it is requested that the C.C. British Advance Depot should ensure that one copy is forwarded through Allied postal channels to HQ MMIA.

4. "S" Advance Depot demands direct on Ministry of War and normally, issues are made from Ancona on receipt of approval by Ministry of War. C.C. Ancona Hospital however has been instructed by Ministry of War to release at once any items urgently required without their covering approval. The real purpose of the demand being sent to Ministry of War and MMIA is to have the earliest possible notice of requirements and enable as far as possible their supply from existing Italian sources or consignments ex U.K. or M.E.F.

2703

Declassified E.O. 12356 Section 3.3/NND No. 785020

Appendix 'I' is a short list of items not available or in short supply in Italian depots.

3. Delay in the Italian postal services also gives rise to a time lag between demand and delivery. During a visit to 8th Army in February by AD&S, MMIA, it was agreed by all concerned that the C.C. "S" Advance Depot Medical Stores would submit a copy of his monthly indent to MMIA through Allied postal channels using either C.C. 7 Advance Depot Medical Stores (BR) or MMIA L.O. Rear 8th Army for this purpose. This has only been done on one occasion. The present C.C. of "S" Advance Depot Medical Stores is being replaced. Subject to your approval it is requested that the C.C. British Advance Depot should ensure that one copy is forwarded through Allied postal channels to HQ MMIA.

4. "S" Advance Depot demands direct on Ministry of War and normally, issues are made from Ancona on receipt of approval by Ministry of War. C.C. The real purpose of the demand being sent to Ministry of War and MMIA is to have the earliest possible notice of requirements and enable as far as possible their supply from existing Italian sources or consignments ex U.K. or M.E.F.

2703

5. For AD&S (5th Army (Br Incr). It is suggested that a similar procedure should apply to "T" Advance Depot Medical Stores with the exception that until "T" Advance Depot moves north of Florence, its supply commitments should be limited to Combat Groups only and BR-ITI and ITI-ITI units should continue as before, to draw direct from the depot at San Gallo Hospital, Florence.

6. For urgently required items, C.C. British Advance Depots could telephone direct to AD&S, HQ MMIA, telephone No. Rome 478202.

7. The above procedure is suggested only in respect of Italian troops under command 5th and 8th Armies as MMIA has not the staff to deal with detailed issues to other formations. Staff Capt. Medical Supplies, HQ MMIA is visiting 8th and 5th Army areas to inspect "S" and "T" Depot Medical Stores and will be available to give any further assistance in this matter.

I; ADMS, 7I Sub Area, inspected ORVIETO Depot on I5 Feb. He understood that the last indent for vaccines was made in December 44 and had not yet been satisfied.

2. The Italian O.C. was ignorant as to where he got his disinfectants from. Neither I nor apparently 209 Div, were asked for information.

3. Confusion has been caused by the inefficiency of the O.C. 9I Ospedaletto in not knowing his procedure. He has now been replaced. A recent inspection by General OLMI and another by ten col SALINARI has shaken them up.

4. The DDMS, I District, on hearing of the lack of vaccines was very forceful in his comments. Could the question of the non satisfying of the December indent for vaccines please be checked. Drugs for VD cases have been indented for on ROME and are urgently needed.

No. 56/p.c. APO 75 a, 17 March 1945

Memo for Colonel F.L. SIMMONS

Colonel Rose from M.M.I.A., Rome, in our meeting of 1 March, kindly told me to apply to him for any possible emergency needs of medical equipment.

The Military Hospital of Sassari is now in bad need of a Roengten tube - air cooling - for radiologist examination for hospitalized servicemen: I have ascertained the real and urgent need of said material which is not available in our medical warehouses.

I will be very grateful to you if you would relay and recommend my request to Col Rose, keeping in mind its high humanitarian purpose.

1. This firm manufactures a variety of pharmaceutical and fine chemicals, surgical and Medical supplies, etc. drugs and drug preparations.

2. The factory is well equipped on a moderate scale and is very clean. There are excellent laboratories.

3. Specialities of this firm are Anaesthetic ether, glycerophosphate preparations, Steridrolo (the firm's proprietary product for chlorine sterilization), ampoules for hypodermic injection, surgical gut etc.

4. The firm is also well equipped for the manufacture of tablets and ointments.

5. Opinion This firm is very suitable for employment by the British Army. The factory may also be of interest to Medical.

MMIA L.O. Rear 8th Army (2)

Reference your M/102/2 of 21 Feb 45., attached deficiency list is returned.

1. MMIA are not responsible for equipping the Combat Groups. This is a British responsibility which was delegated by AFHQ to 3 District and B.L.Os. under their command. Purely medical equipment (I 1248) was an Italian commitment. Ordnance (G 1098) is a British responsibility. Certain G 1098 items were supplied by MMIA to the "tail" medical units due to a delay in supply or non-availability from British sources.

The unit has now passed from command 3 District to 8th Army and requirements should be demanded through the appropriate British Ordnance channels. As the need for mattresses was urgent it was considered quickest to send them from Italian resources. These supplies left Rome by road on 27 Feb 45. Many items of hospital equipment are in short supply in Italian Depots and are needed for FFI-FFI Base Hospitals.

2. Before passing these deficiency demands to British Ordnance, it is considered that they require revision for the following reasons:-

230 Evacuation Hospital was complete to Italian scale of equipment (i.e. for 70 patients). Authority to issue British G 1098 equipment as contained in S.R.L. No. 186 is identical to that of a 200-bedded British hospital. It was therefore not necessary to issue the full amount of all items as certain Italian equipment was already held in lieu. The deficiency list as submitted does not therefore represent actual requirements and O.C. 230 Evacuation Hospital should revise this list requesting only items essential to complete expansion to 200 beds.

3. The deficiencies are regretted and are largely due to the fact that the

Declassified E.O. 12356 Section 3.3/NND No. 785020

due to a delay in supply or non-availability from British sources.

The unit has now passed from command 3 District to 8th Army and requirements should be demanded through the appropriate British Ordnance channels. As the need for mattresses was urgent it was considered quickest to send them from Italian resources. These supplies left Base by road on 27 Feb 45. Many items of hospital equipment are in short supply in Italian Depots and are needed for FFL-FFI Base Hospitals.

2. Before passing these deficiency demands to British Ordnance, it is considered that they require revision for the following reasons:-

230 Evacuation Hospital was complete to Italian scale of equipment (i.e. for 70 patients). Authority to issue British S 1098 equipment as contained in S.R.L. No. 186 is identical to that of a 200-bedded British hospital. It was therefore not necessary to issue the full amount of all items as certain Italian equipment was already held in lieu. The deficiency list as submitted does not therefore represent actual requirements and O.C. 230 Evacuation Hospital should revise this list requesting only items essential to complete expansion to 200 beds.

3. The deficiencies are regretted and are largely due to the fact that the auxilliary units suffered from a change of B.L.C. during the equipping period when the Groups themselves moved to other training areas. MMB has frequently represented to AMG that "tail" medical units were not being equipped according to ~~their~~ TIME schedule.

MGIA L.O. 53 B.L.U. (2 copies)

Reference your AG/2 of 10 Feb 45.

1. Hospital Diet Items.

(a) AFHQ authorise issue of hospital diet items only to Military hospitals but not to unit M.Os. The issue of these items to unit M.Os. of the Combat Groups has nor previously been raised but as a fairly generous estimate has always been made for the two Field Hospitals with each Combat Group, it is felt that a proportion of the hospital allotment could be given to the medical section and unit M.Os. under arrangements entirely within the Gruppo. Please treat this as a suggestion only. Your allotment for February was authorised for release in 1 District and was based on 200 beds.

(b) HQ 1 District have a local arrangement with 209 Division who receive the bulk amounts for all Italian hospitals in their area. Polgore should therefore request 209 Division for their share for 516 and 517 Field Hospitals (200 beds - see scale at Appendix 'A') for the month of Feb.

(c) 8th Army find it more convenient to issue to individual hospitals and the procedure is exactly the same as for British units but issues are restricted as per scale at Appendix 'A'.

2. Disinfectants etc. from RASC Sources.

(a) In rear of Army boundaries, disinfectants are always obtained through Italian medical supply channels in the same manner as for drugs. Polgore should therefore obtain these items as per scale at Appendix 'B' from Medical Depot Store, Ancona Military Hospital.

(b) 8th Army again find it more convenient to issue to units direct from D.I.Ds., although they may change this policy as there is now an Italian Depot of Medical Stores at Rimini.

Declassified E.O. 12356 Section 3.3/NND No. 785120

THE WAR OFFICE,
LONDON. S.W.1.
5 February 1945.

34966 (A.M.D.3.b.)

Director of Medical Services,
Allied Force Headquarters.

Indent No. - (M.4130/7) - Feb. 1945 - Iti - Iti HACKLE.

1. Supply against the above indent for February 1945 has been arranged under War Office Issuing Number 34966, except as follows :-

Item		
5	Reduced to	G.2000
13	"	G.4000
21	"	Amps.1000
39	"	lbs.100

These quantities represent a high issue rate compared with British Operational theatres. Quantities demanded appear excessive in the absence of explanatory notes.

44	"	lbs.644 (Nearest pack)
60	Deleted.	No longer available.
110	10 grammes issued	Quantity required not clearly stated on indent.
112	40 grammes issued	

A number of items not included in the forecast of requirements including dental burs, are now being demanded and have (with the modifications shown above) been approved for issue.

2. Please inform demanding unit.

3. The period of the forecast forwarded under cover of your memorandum M.4527 dated 17th August 1944, has expired, and indent 4130/8 (March 1945) has been included in that 6 months period.

It would be appreciated if information could be forwarded as early as possible for the six months commencing 1st April, 1945, against which Indent No. 4130/9 has been received and will be taken into account.

(Sgd) J.J.WEESE, Capt.

Information has been received from the War Office that tablets, sulphapyridine are no longer available.

It is suggested that demands for sulphanilamide and/or sulphathiazole should be increased in future to make up for the sulphapyridine deficiency.

Major,
D.A.D.M.S.

The following extract from War Office letter 24/Stores/1618 (A.M.D.3) of 8 Jan 45 regarding the issue of Morphine Ampoule Syringes is forwarded for your information.

"Cat. No.1A-2030 Morphine Ampoule - Syringes.

1. Early batches of these Ampoule Syringes were found to leak. An improved tube with a welded turnover was introduced. In spite of this some evaporation continues to occur and it appears that after approximately one year the ampoule syringe may be found to be unserviceable.

2. It is requested that arrangements be made for the regular inspection of all Morphine ampoule syringes. Those showing signs of deterioration should be dealt with by Board of Survey. The systematic turnover of stocks in Medical Stores is essential.

3. Demands will be submitted for necessary replacements. It will be appreciated that there may be difficulty in meeting these in full until the necessary increased production can be arranged. Priority will be given to operational theatres".

1. Medical supplies to the ITI-ITIs are an international commitment fulfilled by U.K. in line with other commitments fulfilled by U.S. (see para 4(c) of Italian Army Admin Instruction No. 12).

Medical supplies to BR-ITIs are a British national commitment. Both commitments are fulfilled by MMIA and only MMIA, by importing bulk medical supplies (ex U.K. and M.E.F.) to supplement existing Italian stocks. Such stocks are handed over in bulk to the Italian Army Medical Services and distributed entirely through normal Italian medical supply channels to all ITI-ITI and BR-ITI units.

2. All Italian General Hospitals are classified ITI-ITI and cater for all categories of Italian troops. Paras 11(d) and (e) state that medical supplies are the normal ITI-ITI procedure (entirely through Italian channels). Para 11(f) states that medical supplies to ITI-ITIs and BR-ITIs units below the level of hospitals ~~is~~ ARE again ITI-ITI procedure but for US-ITIs ~~is~~ ARE a U.S. responsibility.

3. Appendix 'D' to Italian Army Admin Instruction No. 12 is the procedure for issue from U.S. Medical Depot Stores to US-ITI units below the level of hospitals (see para 8(b)). It may also be used for an emergency issue by British Depots (see para 11(h)).

4. It may be briefly stated that, except in an emergency, all ITI-ITI and BR-ITI formations received their supplies through Italian channels. US-ITI units below the level of hospitals draw direct from American Supply Depots.

MMIA letter M/4/2647 of 22 Dec 44 is therefore correct and in accordance with Italian Army Admin Instruction

Declassified E.O. 12356 Section 3.3/NND No. 785020

ROME.

Reference your M/4/32 dated 2 Feb 45.

It is regretted that Sheaths, Protective are not available from British Depots of Medical Stores, we barely receive sufficient to meet all British commitments for this theatre.

Owing to difficulties in provision of this item in the U.K. for British forces in all operational areas, the War Office have ruled that indents are not to be submitted to U.K.

Subject: Medical Supplies - Italian Armed Forces

10

Land Forces Sub Comm.
A.C. (MTA)
Rome
M/4/61
6 Jan 45

Director,
Public Health Sub Comm. A.C.

1. Prior to the Armistice on 8 Sept. 1943, it was the custom for representatives of the Medical Directorates of the Italian Army and Navy to purchase medical supplies from civil firms. This was additional to the supplies manufactured from raw products in purely military institutions (e.g. the Pharmaceutical Institute of Florence).

Since 6th Sept. 43., Ministry of War have occasionally made purchases from civil firms of items which were still available from local resources.

2. (a) Sometime prior to 15 Dec 44., the Medical Directorate of the Italian Military Council of Apulia and Macania endeavoured to purchase 1800 Plaster of Paris bandages from the civil firm [redacted], Francesco at Bari. It was stated that these supplies were chosen by the local authorities.

(b) Sometime prior to 21 Dec 44., the Ministry of Navy endeavoured to purchase the following items of medical supplies from the civil firm of [redacted], Francesco at Taranto.

Alchea root	Kg	15	Soligula root	Kg	20
Ammon chloride	"	3	Mag. zinc oxide	"	100
Bismuth subnitrate	"	5	Vaseline white	"	200
Bismuth tribrom-phenate	"	5	Zinc oxide	"	27
Caffeine	"	1	Tabs. pyramidon	No	20,000
Codeine hydrochloride	"	5	Camphor in oil	Flels	10,000
Guaicol carbonate	"	5			

Ministry of Navy were informed that these items were frozen by order of the Allied authorities.

These two cases are cited as examples for which it is felt some policy or directive is required.

3. It is considered that the Italian Armed Forces should be allowed to continue to purchase in the civil market.

Declassified E.O. 12356 Section 3.3/NND No. 485020

stated that these supplies were frozen by the local authorities.

(b) Sometime prior to 21 Dec 44, the Ministry of Navy endeavoured to purchase the following items of medical supplies from the civil firm of ARNEDANI, Francesco at Vicenza:-

Althea root	Kg	15	Soligala root	Kg	20
Amen chloride	"	5	Mag. alno oxide	"	100
Bismuth subnitrate	"	5	Vaseline white	"	200
Bismuth tribrom-phenate	"	5	Zinc oxide	"	25
Caffeine	"	1	Tabs. pyramidon	No	20,000
Codeine hydrochloride	"	5	Camphor in oil	Flals	10,000
Guaicol carbonate	"	5			

Ministry of Navy were informed that these items were frozen by order of the Allied authorities.

These two cases are cited as examples for which it is felt some policy or directive is required.

3. It is considered that the Italian Armed Forces should be allowed to continue to purchase in the civil market,

(a) items which are still in fairly abundant supply to meet the needs of both civil and military populations,

(b) items which are manufactured locally in sufficient quantity to meet all needs, e.g. alcohol derivatives, olive oil, T.A.B. Fe. vaccine, calf lymph etc.

4. Can you furnish this office with a list of items available for purchase by the Armed Forces? No doubt this list will be revised periodically with the recovery of the drug industry in Italy.
