MMIA L.O. Rear 8th Army (2 copies)

1. Disinfectants and other RASC supplies as per attached Appendix are normally handled and distributed through Italian medical supply channels. This has always been the custom in the Italian Army and in rear of Army boundaries bulk allotments are drawn from RASC Depots by Italian Medical Depot Stores for redistribution to units.

It is understood that in 8th Army supplies of AL 63 etc., are issued to Italian troops in the same manner as in the British Army (i.e. direct from RASC Depots to units).

2. As there is now an Italian Depot of Medical Stores with 8th Army it is for consideration whether British or Italian procedure will be adopted for supplying these items to combat and service units under 8th Army command.

3. Request you consult MDST and DDMS on this point and inform this office of their decision. The information is required in order that Ministry of War may publish a complete instruction on medical supplies and associated items to all Italian Commands.
