Ref your letter Uff. Serv. SMRE 4/1296/Serv dated 18 May 46.

1. You are reminded that on 29 Jan 1946 a release of 8,000,000 rds of 9 m/m parabellum was made to you under cover of our letter Q.130 dated 29 Jan.
2. It is suggested that you transfer the necessary number of rounds to the battalions in question from the nearest Arty Directorate to which the 8,000,000 rounds were originally despatched as per your letter Dir. Art. c Mot. 18722/3822 dated 23/3/46.

DATE: 18 May 1946.

SUBJECT:- Distribution of British  
Ammunition to C.A.R.s.

The Military Territorial Command of Palermo has informed us that further to the recent distribution of British ammunition effected by 501 B.A.D. Bitonto, 11 C.A.R., under its command, received 19653 cartridges for the Thompson automatic carbine (.45 Auto) instead of cartridges for the Sten automatic carbines, with which the a/m C.A.R. is armed.

We ask you to give instructions to 9 B.L.U., in Bari, in order that the necessary change be effected.

Ref. 4/1296/Serv.

Date 18/3/46.

Subject Ammunition for Automatic Sten Carbines belonging  
to the "Legnano" Division.

- 1 - "Sten" carbines have been issued in place of "Thompson" carbines to the two guard battalions which have recently replaced the two alpine battalions belonging to the "Legnano" division.
- 2 - The "Legnano" division has no ammunition available at all for sten carbines and, on the other hand, the release of 10.000 tons of ammunition already allocated to the Italian army has been postponed to an unspecified date.
- 3 - During the present delicate situation, in order to permit the two new "Legnano" division battalions to eventually use the weapons they have on issue, we ask you to kindly consider the advisability of obtaining at least the release of 160.000 cartridge cartridges for sten carbines from the Supreme Allied HQ.

Ref CHQ signal to DMIA of 9 May 46 in reply to your Q 926 of 7 May 46.

For your information it is reported by 501 B.A.D. that owing to heavy commitments for the sorting of issues for export, it will be impossible for them to commence inspections of ammunition for the Italian Armed Forces for at least two weeks.

Subject Issue of Ammunition to Infantry Divisions.

Further to letter 4/578 dated 14/3/46 and letter 4/IOII dated 20 inst. in which was laid down the quantities of ammunition required in order to complete the scale of issue to Infantry divisions and and relative training requirements and also the priority with which this ammunition is to be issued.

In view of foreseen requirements it will be necessary that infantry divs have the planned allocation of ammunition available by the 20 of May.

In view of this limited period it will be necessary:

- that the Mil.Terr.HQ Bari speeds up to maximum the taking on charge of the ammunition being released at the Bitonto Allied Ammo Dump, making, if necessary, further contact with M.M.I.A.
- to issue - as soon as the Bari Mil.Terr.HQ Artillery Dir. has taken this ammunition of charge, instruction by telegram to infantry division to send the necessary personnel and vehicles in order to effect the withdrawal and transport of the ammunition.

TO : War Ministry

1. Reference your 15260/2818 of 2 Mar 46 and further to our Trg/42/1 of 28 Mar 46 (copy list "B"), release has now been obtained for approx. 10,000 tons ammunition from 501 B.A.D.

The discrepancy between this quantity and the originally estimated as available is due chiefly to the fact that mortar ammunition of any calibre is not at present to be issued.

2. Separate instructions will follow regarding Mortar ammunition and any further Allied surplus ammunition which may later become available.

The quantity now released is estimated to cover your immediate requirements.

Bulk may be broken at 501 B.A.D. and your representative should be instructed as to details of initial distribution to Territorial Commands.

3. Details as to natures and quantities are being sought but should be obtained direct by your representative from 9 B.L.U. in conjunction with the Depot Commander.

4. You are required to arrange for rail move and for safe custody during transit and should report in due course:-

- (a) breakdown of loads arranged to each Territorial Command.
- (b) completion of delivery to Unit or Depot concerned.
- (c) Remaining deficiencies by types against your estimated requirements for period ending 31 Dec 1947.

Subject Allocation to C.A.Rs of British Ammunition Required  
for the Training of the 1<sup>o</sup> Recruit Batch.

The release of the ammunition allocated by the allies for the training of the 1<sup>o</sup> recruit batch will take place from the 8 to the 14 April 1946 at the British Ammo Dump at Bitonto.

In the attached list is shown:

- the entire quantity of ammunition which will be released for each type of weapon;
- the quantities of each type of ammunition which will be sent to each of the 1<sup>o</sup>, 4<sup>o</sup>, 6<sup>o</sup>, 7<sup>o</sup>, 8<sup>o</sup>, 9<sup>o</sup>, 10<sup>o</sup> and 11<sup>o</sup> recruit training centres;
- quantities which will be sent to the HQ and detachment for each of the 2<sup>o</sup>, 3<sup>o</sup> and 5<sup>o</sup> C.A.R.

Ammunition for the 4<sup>o</sup> C.A.R. (Montorio Veronese) will be sent to the Verona station where it will be withdrawn and taken by road to Montorio by the 4<sup>o</sup> C.A.R.

The same for ammunition for the 7<sup>o</sup> C.A.R. (Siena) the railway communications with said locality being broken, it will be sent to the station at Poggibonsi (25 Km; from Siena) where it will be withdrawn and taken by road to Siena by the 7<sup>o</sup> C.A.R.

This S.M.'s Transport Office will arrange in order that, within the a/m time limit, the required railway transportation is carried out.

We ask ~~EEE~~:

20

- Mil. Terr. HQ at Bari to kindly arrange that an officerx belonging to the artillery HQ under its command reaches agreement at once with the directorate of the British dump for the proper carrying out of the release;

- the Dir.Gen.of Art.and M.T. to kindly issue the necessary instructions in order that the Detached Art.Section at Bari arranges to:
  - withdraw and take the ammunition on charge.
  - split up the quantities for the various C.A.Rs and their detachments bearing in mind that,in order to avoid opening the already sealed boxes,it will be necessary to slightly even out the figure shown in the attached list so that any differences between the quantities of ammunition allocated to various C.A.Rs and their detachments be kept within the most restricted limits possible;
- the various shipments in accordance with the movement orders which will be issued by the S.M's Transport Office.

## Translation

From : M. of W.  
to : Gen. Art. and M. T. Directorate  
for info; M. M. I. A.

Ref. 4/578/Serv.  
Date 14/3/46.

*See 326*  
*See 337*  
Subject Ammunition for Infantry Divisions.

In the attached lists (copy also attached for M. M. I. A.) are shown the requirements of ammunition required by infantry divisions in order to:

- complete the 1° and 2° line scale of issue
- training requirements planned for the the training cycle in progress

Whilst pointing out that the ammunition deficiencies in relation to the planned scale of issue appears heavy and that it is necessary that the scale be completed in the shortest time possible, we ask your Directorate General to kindly, after reaching agreement with M. M. I. A., to arrange to satisfy the requests.

With the object of quickly settling the question we ask M. M. I. A. to kindly confirm whether the ammunition requested can be definitely drawn from the quantities of ammunition stored in the Allied depots at Puglie and concerning which grant of it to the Italian army had been planned in letter Q/I25 dated 5/3/46.

ref letter Q136 dated 6th last

Subject: British armament scale of issue for C.A.R.s

In order to clear any eventual doubt, we confirm  
that British arms and equipment, which are being dis-  
tributed to C.A.R.s, are permanent scale of issue of  
the CARs.

Consequently it is confirmed also that the recruits  
at the end of the training cycle will be sent unarmed  
to the Corps and Units to which posted.

Ref your Q 3627 of 9 Mar 46.

1. The question of the disposal of British amn in Italian Dumps and Depots has been taken up by CMF with Land Forces Sub Commission AG, MMIA, ROBE. It has now been agreed that MMIA will arrange disposal.
2. The Artillery Directorate BOLAGNA should therefore be directed to apply to Land Forces Sub Commission AG, MMIA, ROBE, for the necessary instructions and all arrangements for its disposal made by them.

Subject Ammunition for the Italian Armed Forces.

See Q1391. Form 31

Concerning the storing of 27.000 tons of ammunition which is to be granted by the allied government for the Italian armed forces we report:

- half of the entire quantity will be split up between 3 or 4 directional depots located on the Padua plain, possibly south of the Po:
- the other half:
  - Infantry ammunition will be equally split up between the directional depots at all Mil.Terr.HQs.
  - Art ammunition will also be split up equally between the directional depots belonging to the Mil.Terr.HQs Turin, Genoa, Milan, Bolzano, Florence and Rome, under each one of which is one of the infantry divisions and, concerning the one at Rome, the Central Art. School.

The various Mil.Terr.HQs have been informed in this sense for the choice of stores.

In order to have some regulations for the detailed instructions to be issued, we ask you the quantity and the kind of ammunition which will be granted.

SUBJECT : Ammunition request for the training of the 1st Recruits platoon at the Recruits Training Centre.

In reply to letter TRG/42/1 dated 7th inst.-

The quantities of ammunition for British Arms required for the training of the 1st Recruits Party at the Recruits Training Centres, are shown in the attached list.

The quantities have been reckoned according to the instructions contained in pamphlet 18 " Small Arms training " Vol 1 Range Shooting lessons (war).

Considering that the training cycle will start on the 1st April, we point out the advisability to grant the present request of ammunitions with the utmost kind rapidity.

Further informations concerning the requirements of ammunitions for the Central Military Schools, will be forwarded in due course.

Land Forces Sub Commission A.C.  
(M. M. I. A.) RECD.  
Q.003.

26 January, 1946.

To:- War Ministry.

1. The provision of an adequate reserve of ammunition for the Interim Italian Army has been under consideration. Taking into account present holdings and estimating the quantity required as:

1 month at Contact rates  
2 months at Quiet rates  
12 months at Training rates

It would appear that 27,000 tons will be required.

2. This ammunition would be available at 501 B.A.D. Bari. The War Ministry would be required to ~~assume~~ responsibility for the holding, care and maintenance of this ammunition not later than 1 June 1946.

3. You are requested to examine this proposal and to submit your plan for the implementation of the above policy, if agreed by the Supreme Allied Commander.

4. It is suggested that sufficient experienced personnel could be obtained from the BR-ITI unit now working at Bari.

SUBJECT: Ann for Italian Armed Forces

4109/Q-1

22 Jan 46

Allied Commission,  
Land Forces Sub Commission (MIA)

1. It seems likely that the provision of ann for the Italian Armed Forces will, with certain minor exceptions, become a British responsibility: this policy is under discussion at C.M.F. and will be forwarded to War Office for approval.
2. In view of para 12 of AFHQ letter file AG 091.711 G(SD)-C dated 2 Nov 45, it is considered that the Italian Army should, as soon as possible, assume responsibility for the holding, care and maintenance of:-

one month at contact rates  
two months at quiet rates  
twelve months at training rates

3. Assuming the proposed re-equipment of the Italian Army to be agreed in principle, we estimate that such holdings would represent 27,000 tons. All this Ann would be made available at 501 BAD BART, and the Italian Army would be required to take over this ann by not later than 1 Jun 46.

4. Your proposals for the implementation of this policy, if agreed by the War Office, should be submitted as soon as possible to GHQ.
