Subject Food Commodities

184

The Land Forces Sub Commission (M.M.I.A.) has informed us that - letter Q/150 dated 6/3/46 - the stocks of concentrated tomato sugar, sweets, etc. which were stored in the C.E.M. at Varna have been granted to the A.R.A.R.

The report was made, this ministry having requested the assignment of foodstuffs, an assignment which had already asked for from the allied authorities roundabout.

At present the s/m foodstuffs appear to be already exhausted.

This ministry had asked M.M.I.A. to be warned of all grants of foodstuffs which will be made to the A.R.A.R.

Pending the reports which will be made from time to time by the Allied Authorities, we ask you to order that before proceeding to prepare foodstuffs that this ministry be approached, which is meeting many difficulties for the supply of foodstuffs required for army ration supplies.

1. Further to this headquarters letter of 21 March 1946, file and subject as above.

2. It is desired that you arrange an initial inspection of the arms listed in our letter under reference as soon as possible.

3. It is further desired that, upon completion of inspection, you inform this headquarters the place of storage of these arms, what arms you consider to be economically repairable and for what purpose the repaired arms might serve.

4. It is requested that an initial report be forwarded this headquarters by 25 April 1946.

FROM: Ministry of War — REF: 4953/S/1

TO: M.M.I.A. — DATE: 21.3.46

SUBJECT: Materials captured from the enemy. Stocks of rations at Varna.

/84

In reply to your Q/150 of the 6th.inst.

In the letter referred to above, your Mission informed us that the stocks of foodstuffs on charge of the Varna C.E.M. Depot had been released to the A.R.A.R. w.e.f. 24th.February.

No advice of the concession had been previously received by this Ministry, which had applied to your Mission, following the communication received from the Bolzano Military Territorial Command, which had applied to the local 60th. Sub Area and to No.2 District Milan, to obtain the assignment of the foodstuffs at a date previous to that of the cession of the same to the A.R.A.R.

On the 4th.inst., 60th. Sub Area informed the above mentioned Military Territorial Command that the quantities of rations were all exhausted.

No action could be taken by this Ministry at the A.R.A.R. since it knew nothing of the cession.

We take this opportunity of requesting your Mission to kindly order that the cession of foodstuffs to the A.R.A.R. be communicated to this Ministry from time to time. 2328

DATE	SECTION or SERVICE FROM	TO	ACTION REQUIRED
11 Mar	A	AHA	To see attached. Our action in receipt of AHA and flagged Y was on Q 150 of 14 Feb. War Air have discretion as to disposal of arms and there is no provision at present of Our supervising disposal of arms not required for the CCRR. As X is a copy of a proposed letter to AHA on which we are invited to comment I suggest such a letter is unnecessary and need not be sent at all. If War Air are however not responsible for disposal of arms other than Civilian ones. However para 2 a (4) refers only to Civilian arms.

(c) A sufficient quantity of eqpt and ammos, stores and ammunition for training, if available, will be transferred to the Italian Army for the purpose of carrying out this special training.

(d) Training facilities will be given by us in so far as this can be done without prejudice to British Military requirements.

3. Med Arty

(a) Trg teams can NOT be made available.
(b) The necessary eqpt will however be given to the Italian Army.
(c) Certain facilities for the training of Italians at the CMF School of Artillery exist at present and demands should be sent to G(Trg) Branch at this HQ for co-ord with demands from other sources.

(d) As no trg in Med Arty is now being done at the School - no eqpt is held here.
(e) Therefore all eqpt will have to be provided by the ITALIAN Army from that given to them under para 3(b).

4. My AA

Trg teams can be made available part time at present. Demands should be sent to G(Trg) this HQ who will make the final decision regarding allotment of trg teams.

5. My Bridging

It appears that this refers to Pontoon bridging with Bailey eqpt.
It is unlikely that much eqpt will be available, but Trg facilities will probably be available at British establishments or formations.

From M.of W. Ref. 204725/II

To N.M.I.A. Date 2/3/46.

Subject Store at Varna(Bressanone).

It has been recently reported to me that foodstuff up to date stored in the store at Varna(Bressanone)is being sent by rail to Klagenfurt (Austria)in order to be distributed to the German population.

Concerning this I think it advisable to report that most of the aforesaid foodstuff - specially preserves and sweets - are of Italian production and are the result of the stealing carried out by the Germans after the 8 Sept 1943.It would therefore be desirable that at least a part of it be allotted to the Italian Military Authorities for subsequent allotment to hospitals.

We ask you to kindly take the above into consideration,in the eventuality that something may be done about the matter.

1. HQ., No 2 District reports that information is now being made available and that B.L.U's are assisting the investigation into the recovery of CEM by Italian Units, and that lists of material now being translated into English will be forwarded to this Headquarters at an early date.

2. It is not the intention to withdraw material of Italian origin from the Recovery Units. CEM is, of course, the property of the United Nations and it is necessary to maintain records of all material recovered from the enemy, particularly when such material has been disposed of as surplus to Allied military requirements.

3. In this connection it is understood that 5 B.L.U. are investigating the origin of vehicles, believed not to be of Italian military origin, now located at CAMPOROSSO near TARVISO. Final disposal of these vehicles will be in accordance with AFHQ letter AG 386.3 Q(AE)-0 dated 2 Oct 45.

TO : G.M.O.CMF.

1. It is learned from the Italian War Ministry that in captured enemy material depots at VARNA (BULGARIA) there are certain stocks of supplies including tomato paste, sugar, sweets, etc. These are stated for the most part to be of Italian origin having been plundered by the Germans during their occupation.

It is understood that these supplies are being forwarded to KLAGENFURT.

2. The supply situation in the Italian Interim Army, particularly so far as hospital supplies are concerned, is critical. The War Ministry is concerned with the immediate needs of the Italian Military Hospital, MERANO.

3. As the Italian Government are dependent primarily on indigenous resources (including CMF) for feeding the Italian Army, it is requested approval be given for part at least of these supplies to be released for the Italian Army for use at MERANO.

1. The following instructions concerning the disposal of ammunition of Italian origin are forwarded for information and necessary action:

(1) The location and quantities of all ammunition of Italian origin situated in Italy will be made known to the Italian Government or, in the case of the provinces of Udine and Venezia Giulia, to the Allied Military Government concerned.

(2) The Italian Government or the Allied Military Government will make immediate arrangements to take over the ammunition and will be totally responsible for its safe custody until its final disposal. The Italian Government or the Allied Military Government concerned will assume the responsibility, within a time limit to be set by mutual agreement with the competent Allied Military Commander, for safeguarding such ammunition.

(3) In the interest of Internal security the Italian Government or the Allied Military Government concerned will be instructed to concentrate for particular guarding all ammunition of 20 mm calibre and below including mines, grenades, etc. They will be further instructed to place special guards on ammunition of a dangerous nature until its disposal. Commanders will satisfy themselves, when handing over, that such arrangements are in fact in hand. Such handover will only be at their discretion having regard to any operational directives to the contrary and to the maintenance of internal security.

(4) The Italian Government, or Allied Military Government concerned, will make necessary arrangements, and be totally responsible for the disposal of all ammunition of Italian origin whether by destruction, dumping or breaking down into component parts for use in the civil rehabilitation of the country. Products resulting from the breaking down processes will not be employed in the production of further armaments except as permitted by the Allied authorities. The Italian Government

- G.150
9 February, 1946.

To:- G.H.Q. for G(C&S).

1. It is understood that an amendment is about to be issued to the AFHQ Directive of the 2 October 45, in so far as that refers to material of Italian military origin.

2. It has been reported that the following factories have continued in operation although the manufacture of small arms has been transformed into industrial output of non-military nature:

(a) Soc. Fabbrica Nazionale d'Armi - Brescia, part of the Caprani group, produced machine pistols. Manufacturing shot guns, bicycle parts and general carpentry work.

(b) Soc. Beretta - GARDONE. Produced automatic pistols and carbines. Manufacturing sporting guns.

3. It is understood that in order to reduce the number of men required to guard the weapons in the Beretta factory, the entire stock was recently removed under the order of 2 District, and are now held in a depot under allied control. It is presumed this stock includes automatic pistols and carbines of a similar nature to those of which 3,000 pistols and 10,000 carbines were released to the Italian Army for the CC.RR under authority, AFHQ G5:000.5 of 7 November 45.

It is not known what has become of the weapons held by the factory at Brescia.

4. At the present time it is most desirable that the War Ministry shall have control of all modern weapons of Italian manufacture, in order that they may revise their present stocks and arrange to re-arm the newly organised units of the CC.RR with the latest pattern weapons. Approval is therefore sought for the release to the War Ministry of all weapons held by and removed from the factories in question and for others of similar nature known to 2 District. The future manufacture of small arms would be subject to the conditions laid down in AFHQ G5.004-01-1 of 31 January 46.

1. It is understood that Units of the Italian Army designated as Recovery Units have been operating in Northern Italy for the purpose of recovering Land Forces material of Italian origin. It is now apparent that in certain instances, these units have been recovering material which may be defined as captured enemy material, and have failed to declare this material to the appropriate Allied military authorities.

2. No authority exists for any Italian Units to recover CEM, and HQ., No 2 District was requested to investigate, and report to this Headquarters.

3. HQ., No 2 District reports that difficulty is being experienced in conducting this investigation, particularly in respect of the Bolzano Province, and to a lesser degree in the Turin area.

4. It is therefore requested that the B.L.Us., be instructed to assist HQ., No 2 District in this investigation and that B.L.Us will report the following information to HQ., No 2 District forthwith, and in no case later than 18 Feb 46.

a. The authority giving these Recovery Units permission to recover and retain CEM.

b. The number of Units engaged in recovering CEM.

c. Inventories and countries of origin of recovered stocks, present location of such stocks and their proposed use.

1.

The following 2 Dist letter 1255/43 of 29 Jan entitled CEI of Ital Mil Origin has been received.

"CMHQ in their letter [illegible] dated 24 Jan 46 have issued the following policy with regard to issues to the Italian Army.

"CMHQ letter AG 386.3 Q(AS)-0 dated 2 Oct 45 states that material surplus to Allied military requirements will be turned over to the Italian forces for maintenance purposes. It is not considered that the supply of arms and ammunition, now that hostilities have ceased constitutes maintenance.

This Headquarters, therefore is in agreement with HQ No 2 District inasmuch that only material required for maintenance purposes will be released. The channel of transaction will be the HQ of Land Forces Sub Commission, AC (SCIA) and not the BLUs thereby ensuring that the authorised maintenance scales of the Italian Army are not exceeded.

Material of Italian military origin surplus to Allied military requirements and which is not required for the authorised maintenance of the Italian Forces is reported to this Headquarters in accordance with para 12 of CMHQ letter AG 386.3 (AS)-0 dated 2 Oct 45. Demands for release of such material should be submitted to this Headquarters."

2. This conflicts with Annexure B. of Directive No 3 of 21 Jan, para (a) as arms and ammunition are not being considered as constituting maintenance and therefore not all CEI of Italian Military Origin, surplus to Allied Mil requirements will be turned over to SCIA.

5 February, 1946.

To:- 3 BIU, Milan.

Reference your Q/37/17 of 28 Jan 46 and Q/37/15 of 30 Jan 46.

"Reference your AFHQ/506/1/Q(CE S) dated 24 Jan 46.

1. The statement that "Supply of Arms and Ammunition now that hostilities have ceased is not considered to constitute maintenance" is not understood. A separate communication is being addressed to your H.Q. seeking clarification on this point. The reorganisation of the Italian Army and CC.RR, and the active steps being taken to give the CC.RR units priority in re-equipment inevitably demand the supply of small arms ammunition.

2. Reserves of certain natures of small arms ammunition are dangerously low and it has been necessary to approve manufacture under authority GHQ ESD/81/3 of the 25 January 46 of the following:

9 mm Pistol	8,000,000
7.65 mm	500,000
10.35 mm	1,400,000
6.35 mm	1,100,000

3. It was understood by the War Ministry and by this H.Q. that arms and ammunition of Italian manufacture located in dumps of C.E.M. in the north of Italy would be released, after identification, to the Italian Army, under the terms of the AFHQ Directive of the 2 October 45. These dumps, however, are under the control of H.Q. 2 District, and pursuant to the policy explained in your letter under reference, 2 District refuse to grant permission for Italian ammunition to be withdrawn by the Italian Army, thus seriously hampering the War Ministry in their task of re-equipping units of the CC.RR and further reducing stocks of available ammunition.

4. In accordance with the last sentence of paragraph 3 of your letter quoted above, the immediate release is requested of the following ammunition to the Italian Army:

Serial No.	Location	Calibre	Quantity.
1	SOLBIATE OLONA	9 mm	8,000 rounds
2	SOLBIATE OLONA	8 mm	500,000 rounds
3	LEON BEAUX Factory Milan	7.65 mm	9,000 rounds"

1. The above copy of Q.125 of 5 Feb 46 to AFHQ is forwarded for your information.

2. Every effort is being made to secure for the Italian Army, possession of Italian Arms and ammunition wherever located. Meanwhile, it is necessary to obtain a separate release from GHQ for such items as are allocated and demanded.

2. Every effort is being made to secure for the Italian Army, possession of Italian Arms and ammunition wherever located. Meanwhile, it is necessary to obtain a separate release from GHQ for such items as are allocated and demanded. Further to your Q 150 dated 17 Jan copy to this HQ.

1. Further difficulties regarding the obtaining of Italian natures of S.A. Amn has been experienced by 3 Territorial Cmd.

2. Two releases of Italian S.A. Amn have recently been made through Italian channels to 3 Territorial Command, the Amn to be drawn from the dump at SOLBIATE OLONA which was apparently an Arty Depot. The releases are as follows:-

I. From Comando del Corpo di Stato Maggiore RE by signal ref. 11/40/9 dated 1/1/46 which authorised the CC RR to draw 8000 rds of 9 mm. amn.

II. From the Ministero della Guerra by letter 40296/4295 dated 3/11/45 which authorised 3 Territorial Command to hand over to the R. Guardia di Finanza 500,000 rds 8 m m amn for Breda 37s.

3. SOLBIATE OLONA Depot is guarded by British tps and when CC RR reps went to collect the amn authorised in 2 (I) above they refused.

4. Until the position has been clarified and an answer received to your above quoted letter it is felt that the War Ministry should not authorise releases of this nature as unnecessary confusion results.

1. Allied Force Headquarters letter file AG 386.3 Q (AE)-0 dated 2 October 1945, paragraph 9d (3), states that "Italian military vehicles can usually be identified by two stars to be found on the engine".

2. The Italian Ministry of Marine states that it is having difficulty in recovering its motor vehicles from CTM dumps because of the above statement, it being assumed in some instances that the two star indentification applies to Italian Naval vehicles. The Italian Ministry of Marine further states that:

a. I.R.N. regulations have never provided for motor vehicles to be marked in this manner.

b. The only distinctive markings on I.R.N. motor vehicles are the engine and chassis numbers.

c. From information received it would appear that the above marking - two five pointed stars - was adopted by the Italian Army for several lots of motor vehicles.

d. All Italian manufacturers have been approached formally in the matter and have given assurance that in supplying motor vehicles to the I.R.N. in no cases have they used this marking to distinguish them from those supplied to the public.

3. It is desired that information be promulgated to the effect that the two five-pointed star identification does not hold true for Italian Naval vehicles.

Subject:- C.M.N. Weapons of Italian origin.

Land Forces Sub Commission A.C.
(M. M. I. A.) Brit.
G.150
12 January 1946.

To:- A.F.H.Q.

The release of a quantity of Italian Arms and ammunition from a C.M.N. Dump at CREMIARIELLO was recently the subject of communication between 2 Dist and M. . 2 District.

It was the intention of the Italian Army Territorial Command to transfer this material to Italian Army Depots.

3 Dist have, however, been notified by M. . 2 District as under:

> "The question of the handover of Italian Arms and ammunition is still under discussion at GHQ.
>
> The current policy is that all such material of Italian origin will be concentrated and guarded under arrangements made by this HQ and the material will be "frozen" pending publication of the new policy.".

This would appear contrary to provisions of paragraph 6(c) of AG 336.3 G(AS)-O of 2 Oct 45 as endorsed by your signal G.12682 of 11 Jan 46 (copy to 2 District).

Authority is requested for weapons and ammunition of Italian military origin to be released to the Italian Army.

SUBJECT: Materials "frozen" at the firm of Gaetano BASILE and Co.,Palermo.

1) - In accordance with H.Q.,A.C. letter WMD/71/1064 of 21.11.45,sent to your Mission for information,we forward herewith a list of the materials of military origin shown on the unloading reports of railway wagon No.170622, consigned to the firm of Gaetano BASILE And Co.,Palermo (Corso dei Mille,284).

2) - These materials,which were dispatched from Messina to the above mentioned firm of BASILE in Palermo,were frozen in April 1945 by the local Artillery Territorial H.Q. as they were considered as of probable Military Administration ownership.

3) - The firm not having submitted,despite the request made to them,by the 2nd.June 1945, any documentation proving the regular and purchase and possession of the material in question,the above mentioned Artillery H.Q. arranged for the withdrawal of the said material.

4) - On the 21st.July 1945 only,i.e. four months after the freezing of the materials,the firm of BASILE notified the

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Palermo Artillery H.Q. that the sequestrated shell cases were part of a consignment purchased by the firm of MONDELLO of Messina (Via Tommaso Cannizzaro,223) from the Salvage Depot,H.Q. 56 Area, and that the other materials were purchased by the said firm of BASILE from the I.B.S. Salvage Section.

5) - They fowarded the enclosed invoices in respect of the latter.

6) - In view of the fact that all the materials included on the attached list (only for the 15 lorry springs has it not been possible to definitely establish whether they are of military or civilian origin),we submit the matter to your Mission in order that you may kindly inform us of your decisions regarding the employment of the materials in question.

Subject : PROPERTY ~~RE~~RTAINING TO ITELIAN FORCES

1. As a result of the bombardement of the Island of Pantelleria two years ago, four thousand people found themselves homeless. Some of the few habitations remaining had previously been erected by the Italian Navy, Army or air force in order to accomodate personnel.

2. These rooms and houses have since been let by AMG to the homeless in return for monthly payments which in many cases have been going on since the surrender?.

3. Please may instructions be issued regarding the handing over of these houses.

4. In addition there are several schooners on essential continual service between Pantelleria and Sicily, utilizing motors belonging to the Italian forces. Diverse others motors and machines under the same category have been hired by the Commune or by private concerns. If these motors were withdrawn, saw mills and flour mills would not be able to function. Monthly payments are here again made to AMG, according to the size and horse power of the motors.

5. Two lorries only, provide to transports, for the whole Island and its Population, and these belong to the Italian Army. They come under the control of the Commune which remit a monthly sum of 50.000 Lire for the AMG garage in its entirely. If this public service, still on a minimum basis, is stopped, and two lorries taken away, workers would be unable to proceed from one fraction to another.

6. In view of the impendin handing over on the 31 December 1945, instruction are requested as to the manner in which the points raised are dealt with.

2. It is realized however that continual piecemeal subtraction of stores is a great handicap to the local Italian military authorities.

3. It has therefore been decided to make one final release as per Appendix "A" attached and then to inform HQ 2 District that engrs have no further requirements from PIACENZA.

In this manner it is hoped both to meet our own requirements and cause as little inconvenience as possible to the Italians.

Q.150
14 December 1945.

To:- G.H.Q.
C.M.F.

1. During the German occupation of Italy, the Germans removed from the Italian Army Precision Workshop in Rome, instruments as shown in the attached lists. These are now believed to be either in Austria or Germany.

2. In view of their very high technical value, and the difficulty in replacing them, the War Ministry request that efforts be made to trace them and, if possible, return them to the Italian Army.

3. It is requested that the help of Allied Formations in the countries concerned be enlisted, to achieve this.

1. I have seen WMD, BERN and also Sig LOMBARDI, head of the local HMSA. The latter is sending off to the two Arms concerned with a copy to Territorial Cmd a letter stating that his past intervention together with any instructions that may have emanated from his office is now completely cancelled.

2. The position has been made perfectly clear to the local HMSA. Further trouble is not anticipated. It would appear that HMSA had not understood the procedure where material connected to the Ministry of War was concerned.

1. Further to this H.Q.'s letter G.154 of 8 Nov 45, assurance is sought that the recovery of Italian Army property from U.S.F. will not be obstructed by the activities of U.S.F.I.T.

2. This organisation under reference 666/32 of 5 Nov 45, wrote to the Military Territorial H.Q. at Turin objecting in strong terms to the recovery by the Army of 23 motor vehicles for which A.F.H.Q. release had been obtained. It is further alleged that U.S.F.I.T. is threatening the firm of Ditta Garavini with a view to obstructing the removal of the balance of the 23 vehicles not yet collected.

U.S.F.I.T. has also obstructed the removal of 10 motor vehicles from the firm of Ansia Marina for which A.F.H.Q. release had been obtained. The incidents have been reported by M.M.I.A. I.T. to your representatives at R.A. A.M.G. Piedmonte and Milan.

3. Such action is directly contrary to A.F.H.Q. orders and to the Policy Directive issued by the Security Executive Commission under its ref/SX/10/1 dated 5 Nov 45.

4. In accordance with 2 District Adm. Instruction No. 35 of 23 October, M.M.I.A. will be notified of stocks of Italian Military stores by T. . 7 District and will arrange collection. Being, however, by the number and size of the items, it may be that Italian Army material will be included in stores handed over to the Material Disposal Sub Comm.

5. You are requested to issue appropriate instructions that when any item is taken over from 2 District, an M.M.I.A. or War Ministry representative will be present and that the disposal of Italian Army material will be subject to agreement with M.M.I.A.

There is an M.M.I.A. Liaison Unit attached to each Territorial Headquarters, and no difficulty should be experienced in obtaining the services of a suitable representative.

SUBJECT: Captured Enemy Materials - General Policy.

TO : Regional Commissioner, PG AMG Liguria Region

" " " " Lombardia Region
" " " " Venezia Region
Aleom Liaison, Bologna

1. On 12 October 1945 two copies of a revised AFHQ Directive on the subject of disposal of captured enemy material were forwarded to you for your information and guidance by the War Materials Disposal Sub-Commission.

2. Reports have been received from the Land Forces Sub-Commission that AMG Officers in the field do not appear to be familiar with this Directive or do not appear to understand it. Specifically, the following points may require clarification:

(a) Responsibility for the Control and Disposal of Captured Enemy Material.

All captured enemy material must be reported to the appropriate District Commander for disposal instructions.

(b) Definitions.

All material, regardless whether it is actually in dumps or has been seized by civilians or others following Germany's surrender goes under the heading of captured material.

(c) Policies.

Under no circumstances may authority be granted to official or private individuals to retain property except as directed by the controlling authority.

Recaptured war material of Italian origin is claimed by the Italian Army and under no circumstances will it be disposed of by War Materials Disposal Sub-commission. It will normally be released to M.M.I.A. by the District Commander, the only exception being such items as are retained by him for military purposes including maintenance of P.O.W.

(d) All vehicles of Italian military origin are to be returned to the Italian Army, unless retained for Allied military purposes. You have already been informed of the transfer arrangements whereby military vehicles reported by you as now in the hands of civilians are to be replaced by the Ministry of Transport. No further release of military vehicles of Italian origin to civilians may be made.

1. The question of release of CEM of It. military origin in this area back to the It. Army has now reached the stage when considerable clarification should be made as to what materials, if any, are to be returned to the It. Army.

2. At the present moment the only releases made are those which are specifically asked for from 2 District to meet immediate needs of tps in this area,(and these in most cases are halved) if one is in time before these are removed, and two releases from AFHQ, both of reference AG 386.3.QM-O dated 8 Oct. Of these one has been agreed to by MMDSC and the other is awaiting decision.

3. The present situations is as follows:-
CEM is being controlled by (a) CEM Gps established by 2 District and (b) War Materials Disposal S.C.

(a) The two CEM Gps now operating in this area are now collecting all materials from the various dumps into central General Stores Depots. They receive instructions from 2 District and know nothing about handing over anything to the It. Army. They have a considerable amount of clothing, mess tins and mess equipment, equipment webbing, signal

stage when considerable clarification should be made as to what materials, if any, are to be returned to the It. Army.

3. The present situations is as follows:-
CEM is being controlled by (a) CEM Gps established by 2 District and (b) War Materials Disposal S.C.

(a) The two CEM Gps now operating in this area are now collecting all materials from the various dumps into central General Stores Depots. They receive instructions from 2 District and know nothing about handing over anything to the It. Army. They have a considerable amount of clothing, mess tins and mess equipment, equipment webbing, signal and engineer stores, all of It. military origin and classified as such. All these materials together with German stores have been ordered by 2 District to be sent to 218 Special Area Riccione presumably for maintafnance of POW.

CEM Gps are working on two main policy letters from 2 District in as far as MMIA and the It. Army are concerned (1) 2 District letter ORD/5106 dated 27 Sept. addressed to all CEM Gps which talks of meeting held at 2 District for policy on CEM Gps at which were present Col. CAMPBELL (War Materials Disposal S.C.) and Col. HAMILTON A.C. LO There was no MMIA rep. One paragraph reads as follows:

" MMIA - Primarily interested in It. Military MT and

Declassified E.O. 12065 Section 3-402/NNRC No. 785020

spares. Has secondary interest in military stores and equipment and clothing but for reasons connected with the ultimate disposal of CEM this interest may be disregarded. "

(2) 2 District directive based on AFHQ policy letter Ab386.3 Q(AE)-o dated 2 Oct. " Disposal of CEM in Mediterranean Theatre." Para 8 (c) states " Recaptured material of It. origin which is not required for military purposes, including maintenance of P.O.W. will be turned over immediately to the It. military authorities.

At the present moment it would appear that all material of It. origin is required for maintenance of P.O.W.

(b) War Material Disposal S.C. section.

This section has several large dumps which hold considerable quantities of It. stores mostly clothing.

No releases are made except on specific authority from AFHQ.

Two releases have been authorized by AFHQ, quoted in para 2 above but there are still further quantities available. AFHQ should be requested to release all these remaining quantities as otherwise these will eventually fall into civilian hands, releases being made from these dumps irrespective of origin.

4. There is also a question of Commissions which needs to be solved.

A few days ago Gen.BIGLINO turned up with 1 CCRR officer and one civilian rep from It. State Rlys as being a "Commission appointed by M.of W. for recovery and disposal of all materials of It. origin from CEM dumps."

The exact scope of this "Commission" is not understood. Furthermore to-day a further "Commission" arrived made up of

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

of It. origin is required for maintenance of P.O.W.

(b) War Material Disposal S.C. section.

No releases are made except on specific authority from AFHQ.

Two releases have been authorized by AFHQ, quoted in para 2 above but there are still further quantities available. AFHQ should be requested to release all these remaining quantities as otherwise these will eventually fall into civilian hands, releases being made from these dumps irrespective of origin.

4. There is also a question of Commissions which needs to be solved.

A few days ago Gen.BIGLINO turned up with 1 CCRR officer and one civilian rep from It. State Rlys as being a "Commission appointed by M.of W. for recovery and disposal of all materials of It. origin from CEM dumps."

2810

The exact scope of this "Commission" is not understood. Furthermore to-day a further "Commission" arrived made up of two civilians who bore with them the original of the attached letter. These persons stated they would decide what would be given back to the Army.

5. On my recent visit to MMIA I was clearly given to understand by Col. KERR that ALL stores of It. military origin would be handed back to the It. Army.

As things stand at present the It. Army will not get any stores back except for a very few already authorized releases. Any further requests to 2 District for releases of materials as laid down in MMIA letter Q/5/10 dated 3 Oct. will now reach me at time when the materials in question will

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

already have been cleared from the dump and disposed of.

6. It is therefore essential for me to have a clear-cut policy on CEM of It. military origin and its handover to the Italian military authorities.

The easiest and less complicated solution would be for all It.military stores to be handed back direct to the Terr. H.Q., who will keep M.of W. informed, through myself who is in constant touch with the appropriate authorities. Any special items required for maintenance of P.O'W. could always be excluded.

TO : Headquarters Allied Commission
Land Forces Sub-Commission (MMIA)

1. Reference is made to your memo Q/5 dated 8 October 1945 reference above subject, and the inclosed interpretation of existing instructions re the disposal of Captured Enemy Material.

2. It is agreed that the addressees of the AFHQ directive No. AG 386. 3 Q(AE)-O dated 2 October 1945, namely GOC No. 2 and 3 Districts, PBS and XIII Corps, have disposal jurisdiction. The additional commentaries on the AFHQ instructions dated 2 October 1945 are agreed as a basis for present and future action, except that the last sentence in your comment on para 9 g (3) is not clear.

3. War Materials Disposal Sub-Commission and AMG officers are in possession of all directives concerning disposal of vehicles and are fully conversant with the fact that MMIA is the deciding factor in determining origin of any vehicle under dispute.

4. Great care is taken by officers engaged on vehicle inspections to segregate vehicles of Italian military origin from civilian, and MMIA is notified of any vehicles awaiting its disposal instructions.

5. I do not deem it necessary or desirable to publish further instructions to AC/AMG officers, as suggested in your para 5 (b).

6. I should appreciate information from you as to specific violations of existing directives, in order that steps may be taken towards rectification.

My dear

Reference our conversation this morning on the above subject:-

On the 12 Oct last, Major Dees (for Director War Material Disposal Sub Commission) issued to your Regional Commissioners, etc. an A.F.H.Q. Directive on the above subject. My C/S of 8 Oct to you stated that I considered it advisable that you should issue a more detailed explanation of the A.F.H.Q. Directive, underlining certain points, so as to make it quite clear to your people what was the full intention of A.F.H.Q.

This morning you told me that you would be glad to have a suggested draft of what you should send out now, to amplify the A.F.H.Q. Directive. I attach such a draft herewith, and would be most grateful if you would issue it over your signature, so that it will really carry weight, as compared with the issue over the signature of a junior officer. May I have a copy of what you send out please?

Among other materials, the Germans carried away the instruments listed on the enclosure from the Italian Army Precision Workshop in Rome after Sept. 8, 1943.

These instruments have a very high technical and venal value and their loss would constitute serious damage for the military administration.

We point this out to AMIA in order that it may kindly examine the possibility of having this Ministry recover the apparatus in question which are presumed to have been transferred to Germany.

29 October, 1945.

SUBJECT: Disposal of Captured Enemy Material in ITALY.

TO : Allied Force Headquarters.
Attn: Chief Administrative Officer.

1. Action is being taken on your CAO/214/6 of 20 October 45, but the Italian Government, in the person of the Prime Minister himself, has raised a point of great importance which is referred to in para 6, i.e. the guarding of the material.

2. The Prime Minister recognizes the immense value to the Italian Government of this material. He also recognizes that the police forces of the country are inadequate for the taks before them and that in computing the strength of the interim army the Minister of War did not take into account the added responsibility of guarding the depots and dumps of captured enemy material. I think that the Minister acted reasonably in this.

3. As you know, in previous communications the Prime Minister has asked for an overall increase in the strength of the CC.RR from 65,000 to 75,000. It has not yet been possible for this figure to be accepted. He now does make this specific request that the strength of the CC.RR shall be increased, temporarily at any rate, by 4,000 men in order that this most valuable material can be guarded and that the responsibility of the Italian Government can be properly implemented. He proposes to effect the increase by deferring the discharge of time expired CC.RR up to the number proposed for a period of 4 - 6 months, during which time he hopes to dispose of the material.

4. I think that the Prime Minister's request is eminently reasonable. We cannot expect the Italian Government to fulfil their responsibilities in keeping law and order and in guarding this immense amount of material if we do not allow them to maintain the force which they consider necessary. In this matter I fully concur with the Prime Minister that the extra CC.RR are necessary and that unless he receives them either law and order will suffer or the material will not be properly guarded, the economy of Italy will suffer and additional materials will be demanded from the Allies.

5. I therefore strongly recommend that without prejudice to consideration for the overall increase of the CC.RR from 65,000 to 75,000 which will be the subject of a further communication, immediate permission be granted to the Italian Government to maintain with the colours the 4,000 CC.RR requested.

NOTES ON C.E.M. SITUATION :

1. - C.E.M.

New A.F.H.Q. Directive of 2 October 1945.
M.M.I.A. letter of 8 October 1945.
Executive Commissioner Conference of 25 October told that instructions had gone out. No copy to M.M.I.A., not traceable in A.C. Latest information to day is that a draft is still circulating in A.C.
Thus no A.C. orders have gone out yet ref. A.F.H.Q. orders of 2 Oct.

Result

a.g. Bolzano dump still frozen illegably and melting.
Probably other outstation A.C. officials still do not know orders.

2. - Compromise - MT.

Delivery due to start 29 October has not started (153 & 500 p m)
Full information on details of MT. authorised by A.M.G. to be used by civilians still not coming in properly.
Protest by M.M.I.A. met by letter from Transportation Sub Commission to say that M.M.I.A. should find out this (lush talk).
I am disturbed as to whether this MT. will be forthcoming.
Intention to allot to CC.RR.
Letter to M.M.I.A. re CC.RR.

G.O.C. mentioned the above at the Chief Commissioner's conference on 31 October.
CC. directed that immediate action was to be taken by Colonels FISHER and WAYNE.
CC. said M.M.I.A. had cooperated generally and A.C. must play up.

RAC 1 Nov

My dear General Browning,

1. Reference is made to the points you raised this morning in the Chief Commissioner's meeting.

2. I find that instructions in regard to AFHQ directive on disposition of captured enemy material have gone forward to AC/AMG officers in the field as of 18 October. I enclose a copy. (1A)

3 Reply to your letter of 9 October had been prepared and is now awaiting signature of Chief Commissioner.

4 In view of the fact that officers in the field have been instructed, I should like to have every information of violations of these instructions which may come to your notice, in order that I may take specific action in any individual case.

5 Provision of equivalent tonnage for the 153 vehicles covered by the agreement you referred to has been given first priority by the Italian Ministry of Transport. The Italians have been extremely slow about reconditioning this transport. I have asked for full information to be given you tomorrow. It would appear that our earlier estimates have been somewhat optimistic.

Sincerely yours,

Major General L. BROWNING, CB., CBE., MC.,
H.Q., M.M.I.A.,
S O M E W.

8 October, '45.

H.Q., A.C. (for Chief Commissioner).

1. I have been much disturbed over the "clash" that has been in force for some time now between M.M.I.A. (in contredistinction to "Land Forces Sub Commission, A.C.") and AC/AMG over the matter of recovery of Italian Army property and captured enemy material.

2. (a) I am sorry to state that there has been violation, often flagrant, of specific A.F.H.Q. orders on the part of AC/AMG officials (and, sheltering behind these, of Italian civilian government officials). The case of the CGMO Factory and A.M.G. or civilian service and use of C.M.P. M.T. are the most notorious examples.

(b) The CGMO matter is now settled between Brig. ANDERSON and M.M.I.A. and orders have gone out for the factory and stocks to be handed back forthwith to M.M.I.A. Actually the reply from A.M.G. MILAN, on analysis, proved to be a complete substantiation of our contention and NOT a "denial", as was stated at your conference on Wednesday, 26 Sep. However, that is now past. We have reached agreement on the "compromise" regards Italian army vehicles in the hands of civilians, with the exception of one point (i.e. the immediate issue to M.M.I.A. by Italian Ministry of Transport of the equivalent of 153 vehicles which has long known to be illegally in possession of and used by civilians to the detriment of the Italian Army). I wrote to Executive Commissioner re this today and I expect agreement.

3. As M.M.I.A., Colonel BANE and I are specifically charged by our respective Governments as an independent supply agency to see that their orders in this connection are fully complied with. We have no option but to insist on those orders being carried out and if we cannot ensure compliance to report this to A.F.H.Q.

4. (a) I wish to obviate "clashes" in the future, but these will be unavoidable unless AC/AMG officials obey A.F.H.Q. orders and make it quite clear to the Italian civil Government authorities that they are to do likewise.

(b) Moreover, this continual disobedience of orders imposes a great extra burden of work on my already attenuated staff, who cannot continue to devote so much time and energy to this aspect of their work so unnecessarily.

2. (a) I am sorry to state that there has been violation, often flagrant, of specific A.F.H.Q. orders on the part of AC/AMG officials (and, sheltering behind them, of Italian civilian government officials). The case of the CGAO Factory and A.M.G. or civilian service and use of C.M.P. M.T. are the most notorious examples.

(b) The CGAO matter is now settled between Brig. ARMSTRONG and M.M.I.A. and orders have gone out for the factory and stocks to be handed back forthwith to M.M.I.A. Actually the reply from A.M.G. Milan, on analysis, proved to be a complete substantiation of our contention and NOT a "denial", as was stated at your conference on Wednesday, 26 Sep. However, that is now past. We have reached agreement on the "compromise" regards Italian army vehicles in the hands of civilians, with the exception of one point (i.e. the immediate issue to M.M.I.A. by Italian Ministry of Transport of the equivalent of 153 vehicles which has long known to be illegally in possession of and used by civilians to the detriment of the Italian Army). I wrote to Executive Commissioner re this today and I expect agreement.

3. As M.M.I.A., Colonel KERR and I are specifically charged by our respective Governments as an independent supply agency to see that their orders in this connection are fully complied with. We have no option but to insist on those orders being carried out and if we cannot ensure compliance to report this to A.F.H.Q.

4. (a) I wish to obviate "clashes" in the future, but those will be unavoidable unless AC/AMG officials obey A.F.H.Q. orders and make it quite clear to the Italian civil Government authorities that they are to do likewise.

(b) Moreover, this continual disobedience of orders imposes a great extra burden of work on my already attenuated staff, who cannot continue to devote so much time and energy to this aspect of their work so unnecessarily.

(c) On 27 Sep. for instance, again I had another example. The A.M.G. officer (Colonel FIGGS) in TURIN turned over on his own authority to a Captain in the Italian Air Force 23 vehicles which A.F.H.Q. has specifically directed be turned over to M.M.I.A. for the Italian Army. These are now being turned back to the Italian Army.

(d) A further aspect is that all this tends to produce a cleavage between the Italian Civil Government and its own Army on which it depends for support, and to bring that Army into bad odour with civilians when we are doing our best to produce the reverse effect.

5. (a) You have of course issued orders yourself on this matter, BUT the delinquencies continue.

(b) I feel the time has come to ask you to issue a very strongly worded order to all AC/AMG officials:-

/(i)

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

5. (b) contd.

(i) Insisting again that A.F.H.Q. orders are to be carried out in the spirit as well as the letter.

(ii) Enjoining them to ensure compliance on the part of Italian Civil Government officials also.

(iii) Ensuring that all your officers understand the full import and implications of the relative A.F.H.Q. orders.

(c) To assist you as regards para 5(b)(iii) I attach relevant extracts from A.F.H.Q. orders, together with comments on what is implied and the intention of A.F.H.Q. in each case.

(d) It seems to me that unless some such order is issued by you we will continue to waste time and effort and prolong bickering, which cannot but be to the grave disadvantage of all concerned.

FILE AG 386.3/163 LOG-O
SUBJECT: DISPOSITION OF CAPTURED ENEMY
MATERIAL IN ITALY DATED 22 JUNE 1945
AS AMENDED BY LETTER AG 386.3 Q(AS)-O DATED
2 OCTOBER, 1945.

See 804

1. PAR 2. "RESPONSIBILITY FOR THE CONTROL AND DISPOSAL OF ENEMY MATERIAL.

SEE 64

a. The control of all enemy material in this theatre is vested in the Supreme Allied Commander.

b. The allocation, use and ultimate disposal of enemy material is a responsibility of command, which will be exercised by you in accordance with the provisions of this directive.".

SEE 68

(Comment - The Command referred to in Par 2b above is the District Commander at the present time as addressee and not AC/AMG.).

PAR 5. " DEFINITIONS

a. Captured or Surrendered Enemy War Material - (hereafter referred to as enemy material) includes any material of whatever nature and wherever situated, intended for war on land, in the air or on the sea, or which is, or may be, or has been at any time in use by, or intended for use by, the armed forces, civil defence or other formations or organisations under the control or influence of the German Government, German Authorities, or Governments or authorities of any states now allied to or associated with GERMANY.".

(Comment - This definition is so all-embracing that there can be no question as to its applicability to any material affected. 2794 undoubtedly includes as captured material all materials regardless of

(Comment - This definition is so all-embracing that there can be no question as to its applicability to any material affected. 2794 Undoubtedly includes as captured material all materials regardless of whether such materials have actually been in dumps or have been seized by civilians or others following the German surrender.).

b. Disposal Authority is the military authority in whom is vested the power to dispose of enemy material.".

(Comment - Disposal authority is either AFHQ or an Allied Commander as specified throughout the letter, not MC/AMG officials.).

SEE 68

SEE 73

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

PAR 6b "Allied Ground Forces, Staff and Service Responsibilities for Control and Disposition of Enemy Material.

The responsibility for the control, safeguarding or disposition of all enemy Ground Forces war material is placed upon the Commanding Generals of all major commands in their respective areas. This responsibility will be exercised through the normal Allied Staff and Technical service channels appropriate to the type of material concerned. It is desired that arrangements made by each command be such that continuity of control can be maintained when changes of territorial command occur.".

PAR 7. "CONTROLLING AUTHORITIES AT AFHQ - The control of enemy materials will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.".

(Comment - Since the responsibility is that of the District Commander at the present time, it is obvious that any unilateral action on the part of AC/AMG in taking over any enemy material is unauthorized, and it follows that any action prior to this directive taken by AC/AMG must be brought in line with this directive, and this could only be done by AC/AMG rendering sufficient reports to Districts to enable the Districts to assume control from AC/AMG and forward inventories to AFHQ as required in Par 7 of the cited letter, which is not quoted.).

PAR 8 - "PROHIBITIONS

a. Retention of materials by units or individuals 2753

Retention by units or individuals of such materials unless properly authorized in accordance with this instruction and other pertinent directives is forbidden.".

(Comment - It is obvious that this paragraph includes all Allied units and/or Allied individuals and Italian civilians either officials or

PAR 7. "CONTROLLING AUTHORITIES OF AMG" - The control of enemy materials will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.".

(Comment - Since the responsibility is that of the District Commander at the present time, it is obvious that any unilateral action on the part of AC/AMG in taking over any enemy material is unauthorised, and it follows that any action prior to this directive taken by AC/AMG must be brought in line with this directive, and this could only be done by AC/AMG rendering sufficient reports to Districts to enable the Districts to assume control from AC/AMG and forward inventories to AFHQ as required in Par 7 of the cited letter, which is not quoted.).

PAR 8 - "POLICIES

a. Retention of materials by units or individuals. 3793

Retention by units or individuals of such materials unless properly authorised in accordance with this instruction and other pertinent directives is forbidden.".

(Comment - It is obvious that this paragraph includes all Allied units and/or Allied individuals and Italian civilians either officials or private individuals. Therefore authority granted by AMG officials to official or private individuals to retain property is void as being directly forbidden.).

c. "Recaptured material of Italian Military Origin. -

Recaptured material of Italian origin which is not required for military purposes, including maintenance of POW, will be turned over immediately to the Italian military authorities, for maintenance of the Italian Forces within the authorised ceilings. The channel of transaction in material of

Declassified E.O. 13065 Section 3-402/NNDC NO. 785020

Italian Ground Force or origin, which is to be returned to the Italian Army authorities, will be the Land Forces Sub Commission A.C. (MMIA). Receipt for material so handed over will be taken by the issuing Allied Services and forwarded to this headquarters through normal service channels. All remaining recaptured Italian War material not required for maintenance as above, will be reported to AFHQ and disposal instructions awaited, except that in the case of Naval and Air Force material, when the instructions of the Navy or Air Force Sub Commission of the Allied Commission, acting on behalf of the Allied Naval and Air Force Commanders, may be accepted.".

(Comment - This is an all-embracing paragraph and covers all material of military origin made in Italy or originating in Italy by order of the Germans or their satelites. The Allied Commanders are authorised to do only certain things with material of this classification, that is, first to be used for Allied military purposes including maintenance of POW, second to be turned over to the Italian military authorities, and third to report the remaining material to AFHQ for disposal instructions. It is clear that MMIA is the channel for such transactions with the Italian military authorities, therefore any disposal of this material other than through MMIA is unauthorised. It is obvious that this paragraph is included in the directive in order to comply with the express instructions of the Combined Chiefs of Staff that such material be returned to the Italian Army.).

PAR 9g (3) - "Vehicles of Italian military origin, if surplus to Allied requirements, will be returned to the appropriate Italian Army authorities through the Land Forces Sub Commission A.C. (MMIA) under the

may be accepted.".

PAR 9g (3) - "Vehicles of Italian military origin, if surplus to Allied requirments, will be returned to the appropriate Italian Army authorities through the Land Forces Sub Commission A.C. (MMIA) under the terms of paragraph 8 c above. All other captured Italian vehicles, if surplus to requirments, will be returned to the Italian Government, through Allied Commission, under the terms of par graph 9 a (1) above. Italian military vehicles can usually be identified by two stars to be found on the engine. If doubt arises as to whether a vehicle of Italian make is a civilian or military vehicle, such vehicle will be turned over to MMIA who will determine the ownership and subsequent allocation in conjunction with Allied Commission. Every effort will be made to hand over ALL vehicles of Italian make to the appropriate Italian authorities

2792

at the earliest possible date. Every effort will be made to hand over to MMIA all stocks of spare parts including tyres for Italian military vehicles which are marked with two stars, or are otherwise identifiable as having been the property of the Italian Ministry of War. Stocks of spares for Italian civilian vehicles will be handed over similarly to Allied Commission, or in doubtful cases, to the MMIA. Sufficient spares may be retained for such Italian vehicles as are held against deficiencies in unit establishments. Responsibility for repair of vehicles, proper registration, and provision of drivers for all vehicles handed over to them will be that of Allied Commission or MMIA as the case may be.".

(Comment - The language of this paragraph can permit of no doubt as regards the intention of AFHQ. It is obvious that the turn-over to the Italian Army authorities of military vehicles and of civilian vehicles to the Allied Commission is to be accomplished by the District Commanders and not by unilateral action on the part of the Italian authorities or AFHQ. AFHQ has authorised certain Recovery Commissions of Italian Army personnel which operate direct y under Allied Military Command, and the Italian Army does not, therefore, take any unilateral action in this regard. Furthermore, the Italian Army has been specifically directed by AFHQ to recover its vehicles throughout all Italy. It is very obvious that no vehicles, except civilian vehicles, are authorised to be turned over to the Allied Commission, and in case there is any question as to the ownership of the vehicles, the vehicles will be turned over to MMIA who will decide ownership. The violation of this particular instruction by AMG officials is widespread and flagrant and cannot be excused on the basis of "operational necessity" which has been specifically abolished by AFHQ in regard to all Italy except the

will be that of Allied Commission or MMIA as the case may be.".

(NOTE: On the basis of the compromise proposed by the Executive Commissioner, and accepted, the vehicles which are being used by, or licensed by AMG (with exceptions as specified in the compromise) will remain in the hands of civilians, co-operatives, or partisans, and all such are to be reported by AD/AMG so that the equivalent tonnage can be secured by transfer to the Army of Allied vehicles made available to the Italian Government. When the vehicles are returned, and the substitutes are received from the Ministry of Transport, the Italian War Ministry will furnish a

2791

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

certificate for each vehicle retained by civilains under AMG/AC permits. However, no Italian Army vehicles, other than those shown on the original lists to be supplied by AMG/AC, are subject to the compromise. It must be made clear that AMG/AC must return to the Italian Army all Italian Army vehicles (other than those shown on the original AC/AMG lists) which come into their possession. This also applies to all vehicles which are classified as captured enemy material, as none of these are subject to the compromise.).

PAR 9. b. "Captured Civilian Material.

Captured material which is apparently of a civil character and surplus to known military requirements will be disposed of as in a above. The Governments or Allied Military Government of the country will be responsible for investigating and settling claims to ownership.".

(Comment - It is obvious from the wording of this paragraph that the only captured materials which will be turned over to AC/AMG is that "which is apparently of civilian character". It certainly follows that where AC/AMG officials have seized, blocked, or assumed control of any material other than that which is "apparently of civilian character" is unwarranted, and the mere fact that the District Commander or AFHQ has permitted it to be done as a result of not having the information from AC/AMG as to their actions, certainly cannot be considered as justification of the action of AC/AMG.).

(Comment - It is obvious from the wording of this paragraph that the only captured materials which will be turned over to AG/MG is that "which is apparently of civilian character". It certainly follows that where AG/MG officials have seized, blocked, or assumed control of any material other than that which is "apparently of civilian character" is unwarranted, and the mere fact that the District Commander or ATFG has permitted it to be done as a result of not having the information from AG/MG as to their actions, certainly cannot be considered as justification of the action of AG/MG.).

2. The AFHQ letters cited above were published as a result of a conference held in Florence during the early part of June, attended by representatives of AFHQ, Districts, Armies, ASC, AG, MGA, and others. Each and every word of the instructions was thoroughly discussed during the conference and the interpretation of the instruction was made clear by the AFHQ representatives in order to avoid any argument in the future. It will be noted that in no instance does the instruction authorize any action on the part of AG/MG in regard to this property until it has been turned over to AG/MG in accordance with the various paragraphs quoted. No place in the instruction can mention be found of the War Materials Disposal Sub Commission, and it follows that the War Materials Disposal Sub Commission begins to exercise control of any of this property only after it has been turned over to AG/MG by the military commanders.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

3. The various controlling instructions, including AFHQ Circ No. 13 of 1 May 1944, AAI letter 2030/12/02 of 1 July 1944 and AFHQ Circ No. 29 of 9 December 1944 specifically provide that no materials, supplies or stores will be removed from any Italian military depots, factories or other Italian military installations, without the express written authority of one of the Service Subcommissions. Therefore, any action taken subsequent to the publication of these orders and prior to the AFHQ letter cited in Par 1 above is patently unauthorized and such action cannot be excused on the premise that AC/AMG officers were not thoroughly advised as to the proper procedure in these matters. Also AIOCM published very specific orders in compliance with all of the directives cited in t is paragraph, and these orders of AIOCM have not been complied with by AC/AMG officials.
