TRANSLATION

FROM: Mil.Terr.Command of Bolzano
TO : M.of W.

REF: 3607/ant
DATE: 27/3/46

SUBJECT: Captured enemy materials.

See 9A in 2nd packet

Ref. letter 011937/24757/LM dated 11 inst

At Verona in the ex Engrs Barracks at S.Zeno there is a large quantity of tyres of various sizes held by the Allies employing German personnel.

In the yard there are approximately 500 part worn tyres, most of which are R/S and on the 1st and 2nd floors in large rooms there are from 2 to 3000 tyres of various types and sizes most of which are Pirelli tyres new and part worn.

By special permission granted by CLM Branch through the CMF of Bolzano (4 B.L.U.) I have been able to inspect the a/m Depot and I approached said BLU in order to have from 2 District of Milan an allocation of at least 800 tyres of various sizes.

The sizes of the tyres held there are not exactly those which would be suitable for us but at least a part of these could be adapted. The sizes are as follows:

5,50x18	500x19	6,50x20
700x18	500x18	600x20
600x18	3,50x19	210x18
400x19	5,25x20	4,50x16
5,20x18	15x50	5,25x16
4,40x19	14x50	

3493

In the Catena Barracks, formerly occupied by 8th Bersaglieri Rgt., there are lorries, many vehicles, of which 12 Italian lorries belonging to the Army, 6 cars and some spares.

I was informed ~~came to the knowledge~~ that said material would be dispatched at later date: the German material would be sent to Germany and Italian material to Modena. As not all the vehicles have tyres, the tyres mentioned above will be used for completing the vehicles deficient of same.

sgd. Frontero Col.

Translation

From M.of W.

To M.M.I.A.

Ref. 25513
OI4073

Date 21/3/46.

Subject Recovery of M.T. Stores.

I - Your mission knows of the grave crisis that the Italian army is passing through due to the absolute deficiency of tyres and the small availability of efficient trucks to allocate to units in replacement for those which daily become unserviceable.

2 - As your mission also knows, we have reason to think that large stocks of tyres and trucks are still being held on charge to the Allied Authorities, being in excess to unit requirements, and requiring personnel and premises for their storage and guarding

3 - In particular it seems that N° 2 District rules the destination of large quantities of tyres and an appreciable number of trucks formerly belonging to the army and which during this particular time would be very useful in order to complete - among other things - W/Es and repairs to vehicles on issue to the CC.RRs.

4 - We therefore make appeal to the well known sence of understandin which your mission has always shown concerning Italian army needs and we rely on your interest in order to obtain the grant of all or part of the materials concerned.

DAK

P.G.Properzj.

1. Captured Signal and Wireless equipment of Italian origin located at the 918 German Ordnance Depot VISERBA is surplus to Military requirements.

2. Will you please arrange forthwith for a representative to examine this material for the purpose of selecting such items as are required by the Italian Army. The balance will then be passed to ARAR. As it is essential that this Depot should be cleared as quickly as possible, it is requested that every effort may be made to hold the inspection, and to clear the Depot of items selected by the 30th Mar '46.

To: HQ.MMIA ROME.

May the position regarding the CEM stores which are now stored with the CCRR. Bolzano please be clarified.

To day on the telephone;Q Branch 2 District informed us that:

1. This HQ. is responsible for the disposal. However we feel that it is the responsibility of MMIA or Ministry of War.
2. That the stores were released for the clothing of CCRR in BOLZANO & PIEMONTE REGION.

Considerable difficulty is being met in assessing the amount of materials released by 2 District as there is no copy of the schedule attached to this HQ letter Ref. 4/GB/7-18 forwarded to you on the 1st March 46, may a copy please be returned.
It seems that 27 rolls of leather have already been released to FRIULI Inf. Div. -Authority unknown.

The following have already been released to BOLZNO CCRR:

40 rolls leather,
8000 meters of Green cloth,
1200 " of Black ",
2300 " of Boots.

To day Major Vincent ,Q Branch 2 District requested this HQ to release immediately for PIEMONTE REGION:

3600	Jackets	or equivalent material
3600	Trousers	" " " "
3500	Boots	
6200	Shirts	" " " "

3461

For authority please be given for this release.

1. Ref your signal No. 8385 dated 25 Feb . referring to Distwo signal CEM/37 dated 22 Feb.

2. Procedure adopted for drawing CEM is as follows:- Release is requested from Distwo who on approval forward the necessary release notes. These are then normally given to the Recovery Commission who arrange collection. The release notes are taken to the dump concerned by those drawing the material and the release is made on presentation of it. Receipts have not been necessary and no receipts are held or have passed through this HQ.

3. In view of 2 District request, 3 Territorial Command have been asked to produce receipts for all CEM that they have drawn including all items of Italian Military origin. These will undoubtably take a little time to produce because there have been over the course of the past months., fairly considerable quantities of material released.

4. When completed the receipts will be passed to 2 District as they request.

SUBJECT: CEM - Releases

RECEIVED 25 FEB 1946 2142 BAR

HQ M.M.I.A.

rptd: CE 2 Dist. (Conversation WILLIS-METCALFE 22 Feb refers).

HQ 4 BLU (This HQ signal Q/263 dated 21 Feb refers).

1. Ref your signal Q 154 dated 21 Feb.

2. 2 Distrɑict RE Branch has been contacted re the release of material given under cover of their letter CE/471/2/Gen dated 2 Feb(copy att for easy reference).

3. The position is as follows:

I. The material in question was released to Public Works & Utilities Division AMG Lombardia Region at the request of a Major Evans who has now left Lombardia and is at TRIESTE.

II. The material was apparently to be handed by A.M.G. to Italian firms who require it for the reconstruction of bridges.

III. The material in question being in the category of CEM it was within the powers of CE 2 Distr. to release. The release notes are in fact dated 30 Nov 45.

4. Please state action to be taken.

Subject: Recovery by Italian units.

G

Further to my Q 9/I of I5 Feb

I. Attached lists of material recovered by the Recovery Commission and Services of I Territorial Command. It is material of Italian Military origin, with the exception of Appendix 2, which concerns material of French origin. This latter artillery material was collected in the general interests of security and was being concentrated by 45 MARU in dumps near TURIN where it could eventually be railed to France.

2. The War Ministry circulars and the legislative decree authorising the collection of this material were detailed to you in my Q 9/I of I5 Feb. The Ministry of War was acting in accordance with M.M.I.A. instructions.

SEE 43

3. The attached lists, comprising well over one hundred pages, are not complete. A further supplement will be sent as soon as possible. The work involved preparing these is very considerable.

2603

4. It is suggested that the best way of obtaing the information required would be through the Italian Ministry of War.

3. The attached lists, comprising well over one hundred pages, are not complete. A further supplement will be sent as soon as possible. The work involved preparing these is very considerable.

4. It is suggested that the best way of obtaing the information required would be through the Italian Ministry of War. as all Services and Recovery Commissions send monthly returns to the Ministry where they are doubtless collated and summarised.

5. The authority for retaining the recovered material was regarded as implicit in the M of War circulars. The material is either in use by dependent units or stored in dumps.

SUBJECT:- Releases to Italian Army.

HQ 2 District CMF.
Tel. Ext: 317.
ORD/9004.
29 Jan 46.

3330

RECEIVED 3 FEB 1946 1583

HQ
MMIA,
ROME.

1. In spite of having bæn in possession of this HQ Release Nos. CEM/664A and CEM/730A dated 4th and 11th Jan 46 respectively for some considerable period, the Italian Military have not as yet collected Signal Stores due to them from GLORENZA or RASUN di SOTTO Depots.

2. W.e.f. 31 Jan 46 these two Depots are being handed over to AC for ARAR-URMIT and all British Guards will be removed.

3. It is felt that all possible efforts have been made by this HQ to enable the Italian Military to withdraw their outstanding releases and that should the Italian Army suffer with the result of the handover that they have only themselves to blame.

4. It is however proposed to endeavour to segregate their stores and to hand over the Depots to URMIT with the proviso that certain specified stores are for the Italian Army and will be "frozen" pending collection.

5. Would you please notify the Italian Army authorities concerned in order that they may liaise with ARAR-URMIT, Milan, for the collection of their outstanding releases ?

Capt.,
R.M. DOBRASHIAN,

rptd: MMIA

24 Jan 46.

1. Confirming verbal notification of 24 Jan 46.

2. 2 District have informed me that there are 10.650 grey-green jackets of German type in possession of the un - dermentioned firmes at CARATE BRIANZA : -

Ditta ROSSI e MENEGALDI	6.650
" COLOMBO Mario	4.000

3. URMIT have blocked these jackets and have asked 2 District to make a release in favour of the Questura.

4. As it is thought that the jackets if dyed might be of use to the Italian Army either as a rough training uniform for recruits or possibly to provide clothing for returning ex - prisoners of war. 2 District have asked for an early reply on the subject.

5. It is not known whether any question of payment arises, but undoubtly the a/m firms will make a claim, as they presum mably manufactured the jackets for the German Army.

6. If you require the jackets, you should inform the War Ministry and ask them to bid for the jackets through MMIA, treating the matter urgently in view of the claims of the Questura.

Further to letter 26022/3540 dated 30/7/45

Torino Military territorial Command has informed us that, with letter 3/2/Q (copy attached), the local Allied Command has ordered to defer the withdrawal from Ivrea of the vehicles that M.M.I.A. had placed at the disposal of the Italian Army (400), because they have been partially sold by A.C. to Mr. Quagliati of Milan.-

The number of carts withdrawn by Torino Military territorial Command is of 256 units.

In compensation of the 144 carts which should still be withdrawn, the N.I S.L.U. has placed at the disposal of the Italian military authorities 124 Italian metal carts.

The above is forwarded to you for information.

TRANSLATION

From: V Military Territorial Command
To: Udine Mil. Ter.Command.

Ref: 45
Date: 9/1/46

Subject: Activities of the 22nd Recovery Commission

1)- On the basis of instructions issued by us the units uneder command have orders to carry out the recovery of material belonging to the military Administration only.-

2)- An exception was made to this principle, at the time, by the Recovery nucleus which was then stationed at Poggio Rusco, for the following reasons:
- ~~Xxshxrrxxixexxxxxxxxxxxxxxx~~ xhs A changing of the front occured a short time ago, and war material was abundonned everywhere, along the roads and in the fields.
- The civilian population rapidly carried out the theft or destruction (some material which were still serviceable became in a few days unserviceable wrecks);
- Nobody was interested at the time to the withdrawal of said material with the exception of civilians who carried out an active commerce of the parts they removed. In view of that the foresaid recovery nucleus deemed advisable to gather all the M.T. materials which they found abundonned, in a fenced area and duly guarded, where this materials are now.-
- To us such a measure appears logical, although it was not in the duties of the commission, because for the general interest it was advisable to save from distruction whenever possible, disregarding the quality and type of material recovered.-
- In fact, the said material, duly inventiorated (enclosure 1), has been forwarded to higher authoritie which will decide, according to the laws for the recovery, which of these materials must be transferred to the Military authorities and what is to be done with the remainder.-
- The Commandant of the Poggia Rusco nucleus at the time, referred to me that he received the visit at his depot of an Allied officer, (I believe the Governor of Mantova) to whom he showed all the material recovered, explaining to him the a/m principles, and the officer himself was pleased of the operation carried out for the common interest.-
- Anyway, I believe that it was the only way to save material which was certainly going to get lost, whilst to day it is still available at Poggio Rusco Park.-
In conclusion, if the salvaged material not belonging to the Miliatry administration, has any interest to the Allies, the writer considers that in this case he has acted in their favour.-

R-23-1-46 Ra

./. Q154

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

2)- This H.Q. is not informed of the recovery of other materia not belonging to the military administration, and they do not appear in the monthly lists of materials recovered forwarded by the units under our command. Anyhow considering that the services directorates are withdrawing, according to said lists, the materials they are concerned in (belonging to the military authorities), eventual material not belonging to the military administration will remain at the disposal of the unit which carried out the recovery. In this respect I deem advisable to inform you that already some months ago, an authorised firm for recovery, has remonstrated to this Commission because this H.Q. had carried out recovery of ex- German materials in Venice area.-

The complaint had no foundation, because at this time, the commission was only operating in the Rovigo area and had never sent any elements in the Venice area.-

Many military and civilians organisations are carrying out recoveries and I dont refuse the possibility of an enuivoque which can be brought up to the Central organisations of the parties concerned.-

4)- In respect of the work carried out by the commission, we inform you:

Up to the month of September the commission has operated in the Rovigo areax . In this period the main work has been the census of all the vehicles issued by the local C.L.N., making sure of their availability, efficiency, data of the car and the owner.- Dealing with about 400 vehicles, there has moreover been collected in one Park the material mainly M.T., found abandonned, or in workshops or held by civilians who were holding it illegaly. In September the Commission widened its own operative radius, transferring the command to Udine and detaching nucleus at Padova, Pordenone, Villa Vicentina, Treviso and Tolmezzo.-

Those groups have carried out their work, particularly on informations tending to retrace a part of the material belonging to the Italian Army before the 8th September.

In November a nucleus was formed at Monte Belluno and their duty was to recover all the Italian material abandonned in the Park of Villa Manin and in the estab lishment of Monte-Cabini. Said material was almost entirely composed of complete a/a guns 90/53 and shooting accessories. Towards the end of November the provincial offices of Udine, Treviso, Padova, Venice and Rovigo were formed, and were transferred under command of the commission. A nucleus was also formed at Tarvisio.

The total result of the activities of the recovery commission is the following:

75% M.T. material
15% Arillery material
18% Commissariak material
2% Engineers medical and Veterinary materials.

The M.T. materials recovered are mostly formed by wrecks; only 15

33:8 Q150

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

efficient vehicles and 30 which could be repaired.

The arty. material is composed mostly of a hundred of guns 90/53, of which ten only with mountings.-

At present:

- The ascertaining work is carried out , ~~by~~ through checking at the control post in the various provinces (for the vehicles in circulation) and through investigations tending to retrace the material removed by the civilians from barracks, military depots etc.,
- the material belonging to the Italian military administration, non declared and hidden by civilians are recovered.
- On the material belonging to the Italian military administration, regularly declared and assigned to private organisations by the civil authorities a seal will be placed in order to avoid the loss of said material(issue, theft)
- On the material not belonging to the Italian Miliatry administratio the same seal will be placed pending investigations.-

R.ERRERA.Cpl

January 11, 1946 -
Udine.

Subject : Activity of 22nd recovery committee,

(Reference to M.A.G. of the 27th of December 1945 of 5th B.L.U.)

1) According to the orders given by the writing office, the dependent institutions shall undertake only the recovery of materials belonging to the Military administration.

2) The "Recovering Unit" (Nucleo Recupero), at that time placed at Ruscio, has not complied with, for the following reasons:

- the passage of the front had taken place not so long before and other materials abandoned were lying everywhere along roads and on the country.

- civilians used suddenly often to pillage the or destroy waste them (some efficient materials had in a few days turned into useless wrecked)

- nobody was taking interest in collecting them

3356

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

time placed at Russe, have not complied with, for the following reasons:

- ~~After~~ the passage of the front had taken place not so long before, abandoned [illegible] were lying everywhere along Roads and off the country.

- Civilians used suddenly after to pillage ~~them~~ or destroy waste them (~~were materials~~ [illegible] efficient materials had in a few days turned into useless wrecks)

- nobody was taking ~~note~~ interest in collecting them, excepting the civilians attending to trade the stolen parts. Thus the aforesaid "Recovering Unit", opportunely thought of collecting all abandoned moto-car materials into a closed and guarded area, where they are still now. The writing office did it, though it was not its task, because it was of general interest to keep [illegible] destruction

3356

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(2

what was possible, nor whether whatever
~~was~~ might be the end of ~~the~~ recovered material.
~~Had matters~~ An inventory of the said material
shortly
has been made (Enclosure N. 1) and notice
given hereof to the superior Authorities,
that will decide, ~~on the basis of~~ conformity with the actual
agreements on the recovering subject,
which shall flow into the A.M. and what is
to be done about the remainder. -
The commander of the Foggia Rusco recovering
unit ~~reported~~ at that time ~~received~~ told
me that an Allied officer (most probably the
Governor of Manfredonia) had paid a visit to
his warehouse, and after he ~~had~~ was shown
all recovered material, he ~~had~~ ~~remarked~~
congratulated ~~to do~~ for the ~~work~~
~~in favor of~~ achievements
and works in favour of the
~~service~~ public welfare.
However I think

3375

Declassified E.O. 12065 Section 3-402/NNDC No. 7850020

to be done about the remainder. =

The commander of the Poggio Rusco recovering unit ~~reported~~ at that time reported told me that an Allied officer (most probably the Governor of Mantua) had paid a visit to his warehouse, and after he ~~was~~ shown all recovered material, he ~~congratulated~~ congratulated me for the work achievements and work in favour of the ~~country~~ public welfare.

However, I think that it was the only way of saving material, which would undoubtedly be displaced and will is at disposal, in the park of Poggio Rusco.

Consequently, the writing officer thinks to have proceeded in favour of the Allies, if they are interested in the recovered materials, which don't belong to the A. M.

3365

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

2)- The writing Command has no knowledge about the recovering of other materials, which neither belong to the A.M nor appear in the ~~matched~~ lists ~~the depending institutions~~ of the recovered materials which every month have been sent by the depending institutions. However, since the directions of services withdraw, on the base of the aforesaid lists, ~~the~~ any materials ~~interesting~~ ~~them~~ belonging to the A.M and interesting them, all eventual materials not pertaining to the A.M, remain at disposal of institutions which have to comply with the recovering. And as far as it concerns it, I think opportunely to inform that, a few months ago, a firm authorized to recovering, had made complaint to Allied Command, because the writing office had proceeded to the recovering of ex-german materials in ~~the~~ Venezia Province, as they presumed. But that statement had no reason, because at that time the Committee was operating in Rovigo Zone only and had never sent its men into ~~the~~ Venice Province. Many military and civil institutions are proceeding

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

it. M, remain at disposal of institutions which have to comply with the recovering. And as far as it concerns it, I think opportunely to inform that, a few months ago, a firm authorized to recovering, had made complaint to this Committee, because the writing office had proceeded to the recovering of Ex-german materials in ~~the~~ Venice Province, as they presumed.
But that statement had no reason, because at that time the Committee was operating in Rovigo Zone only and had never yet its men into ~~the~~ Venice Province.
Many military and civil institutions are proceeding to recovery and ~~the procedure~~ of ~~misunderstandings~~ it is not excluded the possibility of misunderstandings, that might reach the managing ~~staff~~ staff of the interested parties.
3) And now there is a report about the work done by the Committee:
Till the month of Sept. the Committee has been operating in ~~the~~ Rovigo Zone.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

The main thing we have taken care of has been the census (=numbering) of all motor-cars distributed by the local C.L.N. and the verification of their ~~existence~~ being, efficiency, their own date and proprietor. There are some 400 vehicles. all material (~~the most~~ motor-car material in greater part), which was found either abandoned or by work-shops or private persons, was collected into a park. On Sept. the Committee ~~enlarged~~ amplified its ~~action~~ operative field, moved to Udine and established new units at Padua, Treviso, Pordenone, Villa Vicentina, Tolmezzo. Those units have been working on the ground of informations leading to ~~find~~ discover material belonging to Italian Army, before Sept. 8.

On Nov. a unit was constituted at Monte Belluna, in order to recover all italian material abandonned in Villa Marina and "M. C. Pt.

Declassified E.O. 12065 Section 3-402/NSDC NO. 785020

greater part), which was found either
abandoned or by work-shops or private
persons, was collected into a park. - On
Sept. the Committee ~~enlarged~~ amplified
its ~~action~~ operative field, moved to Udine
and established ~~a~~ new units at Padua,
Treviso, Pordenone, Villa Vicentina, Tolmezzo.
Those units have been working on the ground
of informations leading to ~~find~~ discover
material belonging to Italian Army, before
Sept. 8.
On Nov. a unit was constituted at Monte
Belluna, in order to recover all italian
material abandoned in Villa Marin park
~~at~~ and "Monte Cativi" plant. —
It was almost mainly consisting of 90/53 anti-aircraft
and ~~accessori~~ shooting accessories.
On the end of Nov. Provincial branches were
constituted at Udine, Treviso, Padua, Venice,
Rovigo, at the dependence of the Committee.

0420
Declassified E.O. 12065 Section 3-402/NNDC No. 7850220

A new unit was also established at Tolmezzo.
The following figures show the recovering activity of the Committee:

75% motor-car material
15% ordnance "
10% commissariat ship "
2% engineer, sanitary, veterinary "

The motor-car recovered material consists mostly of wrecks; only 15 vehicles are efficient, and some 30 can be repaired.
The ordnance material consists mainly of some 100 (90/53) guns, of which only ten have carriage.
At the present time:
- the verification work is going on, and through traffic-control stations, established for running vehicles and by means of researches of material stolen by civilians from barracks, military warehouses
- Material belonging to the A. [illegible]

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

The motor-car recovered material consists mostly of wrecks; only 15 vehicles are efficient, and some 30 can be repaired.

The ordnance material consists mainly of some 100 (90/53) guns, of which only ten have carriage.

~~Actually~~ at the present time:

- the verification work is going on ~~as~~ through traffic-control stations, established for running vehicles and by means of researches of material stolen by civilians from barracks, military warehouses etc.
- Material belonging to the ~~A.~~ Italian A.M., which has not been given notice of fraud is hidden by private persons, has to be recovered.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

All material belonging to the Italian A.M.,
which has already been given notice of and
granted to, (has been) to private institutions by civil
authorities, has to be stopped in order
to preserve and keep it from disappearing
(allowance, bidding etc...).
- While waiting for verification, all material
on the purpose of maintaining, all
material, which doesn't appear as
surely belonging to Italian A.M. has
to be stopped too.

Declassified E.O. 12065 Section 3-402/NNTD No. 785020

(allowance, trading etc...).
- While waiting for verification, all materials on the purpose of maintaining, all material, which doesn't appear as surely belonging to Italian A.M, has to be stocked too.

Jan. 3, 1946

No. 46 Prot.

Reference to Lt. Nr. AQ/61/51 of Dec. 27, 1945 of 5th B. L. U. I. C. M. T. -:

1) This Command, after the Commission moved to Rovigo Zone, was informed that:
- in the Adige and Po rivers were lying a great many sunk war-materials;
- gangs constituted by civilians of the surroundings used to draw, day and night time, the aforesaid material from the rivers, without any control and authorization, and illicitly trade it.

2) The writing office had neither means nor personnel to employ for this recovery, since it was engaged in the withdrawal of materials which were displaced everywhere in that Zone, and to be continuously stolen by private persons. Besides, the efficiency of recovering in the above-mentioned rivers from unknown and liable

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

time, the aforesaid material from the rivers, without any control and authorization, and illicitly trade it.

2) The writing office had neither means nor personnel to employ for ~~the~~ this recovery, since it was engaged ~~in~~ in the withdrawal of materials which were displaced everywhere in that zone and ~~subject~~ liable to be continuously stolen by private persons.

Besides, the efficiency of recovering in the above-mentioned areas was unknown and uncertain.

And things being so, it was not convenient to leave the certain for the uncertain one.

At the contrary one could not do without taking interest in the matter, since materials were drawn every day by civilians and brought carried to unknown places.

Then a new proceeding was thought of, so that the A.M. might dispose of said materials, without any risk of useless expenses.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

Taking into consideration that the A.M. used to award a prize to anyone giving back recovered material belonging to it, private persons were invited to cooperate with the Commission and recover the aforesaid material on behalf of the A.M., which promised them to pay the established rewards.

Consequently the aforesaid personnel undertook a contract-work, keeping the A.M. from useless expenses for eventual failure, and (from) continuous inspection.

In short, any recovery was done on behalf of the A.M, without fixed-salary personnel, but by job-work, on the base of rewards established for recovering.

The Ministry was informed about, by ~~the~~ N. 1163 of 2/8/1945 (enclosure N. 1).

3) ~~Marinella Bandolieri case~~

Mr. Turolla Bruno was entrusted, as first allotment of work, previous favourable information on his morality given by Royal Carabinieri, but after a short time he resigned, either because ~~of strong objection~~

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

continuous inspection.

In short, any recovery was done on behalf of the A.M, without fixed-salary personnel, but by job-work, on the base of rewards established for recovering.
The Ministry was informed about, by ~~the~~ N. 1163 of ~~the~~ 2/8/1945 (enclosure N. 1).

3) ~~Mr Turolla Bruno was~~
Mr. Turolla Bruno was entrusted a first allotment of work, previous favourable information on his morality ~~received~~ given by Royal Carabineers, but after a short time he resigned, either because of ~~strong opposition he met~~ the local gangs already attending to recovery set themselves against him, or because ~~he got nothing~~ he was not lucky while recovering owing perhaps to scarcity of means).
Mr. Turolla was afterwards engaged as a driver by the Commission, since he was a ~~relieved soldier~~ good, clever released soldier, and in order to restore him ~~the reimburse of his loss~~ partially from losses.

Declassified E.O. 12065 Section 3-402/NNRG No. 785020

4) after that, Dr. L. a Domenico, ex-senior officer, took this ~~charge~~ job.
The same agreement came into effect with him and concerned only the recovery of materials belonging to the A.M., but it was cut off ~~after~~ some time after, because Dr. Elia's activity was uncertain (no recovery was done, notwithstanding his continuous work, ~~though~~ and no charge could be made against him).

5) Any recovering on the subject concerns only a.m. materials, as it is clearly ~~specified~~ specified in the agreement laid down. The writing office will send ~~a translation~~ copy of it, as soon as it comes from the "Vice-Command" of Rovigo, which requested it. And besides, there was no other way of dealing with the matter, because the writing office would not be able to justify any payment of rewards for recovered materials belonging to other parties.

6) It is not true that the Commission granted

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

him).

5) Any recovering on the subject concerns only a.m. materials, as it is clearly ~~specified~~ specified in the agreement laid down. The writing office will send ~~him~~ copy of it, as soon as it comes from the "Vice-Command" of Rovigo which requested it. And besides, there was no other way of dealing with the matter, because the writing office would not be able to justify any payment of rewards for recovered materials belonging to other parties.

6) It is not true that the Commission granted a ~~not~~ Dodge vehicle to Dr. Elia, to restore him from expenses. The writing office has no information about such a recovery.

Most probably, ~~Dr. Elia~~ after the aforesaid vehicle was recovered, and it seems almost unlikely that he has recovered it in the "Adige" (river), Dr. Elia, tried directly to get it, as an allowance, from Allied Authorities, since he knew

Declassified E.O. 12065 Section 3-402/NNDS NO. 785020

that the Commission would have given him no reward, because the recovered vehicle didn't belong to the Italian A.M.

All drawing work in the Adige and Po rivers is largely done by various private persons. This Commission has not leased out any work to private firms, but has invited civilians to proceed, on its behalf, to recover material belonging to the A.M., and it has been agreed to pay them at the earliest convenience for the A.M, that is on the ground of settled rewards.

The A.M. owes nothing to Dr. Elia, because ~~no allowance~~ he has been given no allowance. The expenses, ~~of~~ Dr Elia's ~~claim~~ alleged to have been afforded by him, concern him only, because this Commission agreed with him, that only rewards should be paid ~~to him~~ for eventual recovered and delivered material, belonging to

Declassified E.O. 12065 Section 3-402/NNDS No. 785020

work to private firms, but have invited civilians to proceed, on its behalf, to recover material belonging to the A.M., and it has been agreed to pay them at the earliest convenience for the A.M, that is on the ground of settled rewards.

The A.M. ows nothing to Dr. Elia, because ~~non-allowance~~ he has been given no allowance. The expenses, ~~of~~ Dr. Elia ~~Elia~~ alleged to have been afforded by him, concern him only, because this Commission agreed with him, that only rewards should be paid to him ~~to~~ for eventual recovered and delivered material, belonging to the A.M.

Ministry of war.
22nd Recovery Commission

Subject: Recovery

.... omitted addresses.

3/ Clandestine recovering gangs, either authorized by local Authorities or not, have already gathered, with adequate equipment and some divers, and are everyday pillaging materials, specially rubber-tyres and motor-accessories. This Office is trying to stop such an illicit activity; through great difficulties and evident hostility of persons interested in that lucrative work.
Attached herewith you find an agreement laid down with a private person, concerning recovery in the Po (river). The contracting party is a released soldier, whom the Royal Carabineers have sent good reference about. He will engage some partners in that work, and has got aims of little earnings, owing to scarcity of means and money necessary to manage work on his own account. Meanwhile the writing office ~~at~~ is trying to get a military diver. We think these are the most convenient proceedings, either ~~recovering~~ as far as it concerns economic work (where the employed persons are less efficient), or as to private firms, which wish to get greater rewards, whenever any recovering work is leased out to them.
We are going to lay down the same agreement on the purpose of recovery in "Adige" river.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Annexed herewith you find an agreement laid down with a private person, concerning recovery in the Po (river). The contracting party is a released soldier, whom the Royal Carabineers have sent good reference about. He will engage some partners in that work, and has got aims of little earnings owing to scarcity of means and money necessary to manage work on his own account. Meanwhile the writing office ~~at~~ is trying to get a military diver. We think these are the most convenient proceedings, either ~~recovering~~ as far as it concerns economic work (where the employed persone are less efficent), or as to private firms, which wish to get greater rewards, whenever any recovering work is leased out to them.

We are going to lay down the same agreement on the purpose of recovery in "Adige" river.

Things being so, we explain now how the Commission is dealing with the said recovery.

a/ Referring to materials which are still abandoned and directly recovered by the Commission or will be drawn from the Adige and Po rivers, there is nothing to object: absolutely they shall be considered as property of the R.M excepting german or foreign materials, which are still considered as war-prey by the Allied.

As to it, the undersigned officer ~~talked~~ spoke with Capt. Borne at Padua and got confirmation

3366

Declassified E.O. 12065 Section 3-402/NND NO. 785020

by him that genuine or foreign materials shall be retained as their own by the Allies and no reward shall be paid for their recovery and withdrawal from the rivers. Therefore it would be a ~~transaction~~ gratuitous service to the Allies, without any indemnity. Besides, it is not easy ~~to~~ to train a diver, who hasn't also got the necessary thecnical training to distinguish at a ~~depths~~ 10-15 meters depth, the standard of vehicle and as soon as it is carried to the surface, the ~~recovering work~~ 9/10 of recovering work is already over. And it would be of no use to ~~to~~ sink the vehicle again. The ~~Ministry of War~~ Staff of Ministry of war will, please, discuss the case with the center Allied Authorities.

—

3365

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

got the necessary [illegible] [illegible] English,
at a ~~depths~~ 10-15 metre depth, the standard
of vehicle, and as soon as it is carried to
the surface, the ~~recovering work~~ 9/10 of
recovering work is already over. And it would
be of no use to ~~to~~ sink the vehicle again.
The ~~Ministry of War~~ Staff of Ministry of War
will, please, discuss the case with the
center Allied Authorities.

1. Att as Annexure "A" is a copy of an authy in the possession of Sig Dr Elia Domenico which has been granted by the Italian Recovery Commission N° 22, and under the stamp of the Italian Ministry of War, for the collection of Material from a portion of the River ADIGE in ROVIGO Province, on behalf of the Italian Military Administration.

2. It is noted that this authy does not confine recovery to material of Italian Mil origin.

3. Expense so far expended by Dr Elia Domenico are as set out on List of Annexure "B".

4. In payment of these expenses N° 22 Italian Recovery Commission have allocated to Dr Elia Domenico, one DODGE truck with four tyres as listed at Annexure 'C'. It is understood that this truck was recovered from the bed of the River ADIGE.

5. Dr Elia Domenico is now working in preparation for draining that portion of the River ADIGE from which he has been authorised to recover material and has come to this office to clarify his position as regards the legality of his title to the DODGE truck and to other material which he may be allotted subsequently resulting from the fruits of his labours.

SUBJECT: Collection of Material from Battle Areas

HQ 2 District

1. Att as Annexure "A" is a copy of an authy in the possession of Sig Dr Elia Domenico which has been granted by the Italian Recovery Commission No 22, and under the stamp of the Italian Ministry of War, for the collection of Material from a portion of the River ADIGE in ROVIGO Province, on behalf of the Italian Military Adminstration.

2. It is noted that this authy does not confine recovery to material of Italian Mil origin.

3. Expenses so far expended by Dr Elia Domenico are as set out on list of Annexure 'B'.

4. In payment of these expenses No 22Italian Recovery Commission have allocated to Dr Elia Domenico, one DODGE truck with four tyres as listed at Annexure 'C'. It is understood that this truck was recovered from the bed of the River ADIGE.

5. Dr Elia Domenico is now working in preparation for draining that portion of the River ADIGE from which he has been authorised to recover material and has come to this office to clarify his position as regards the legality of his title to the DODGE truck and to other material which he may be allotted subsequently resulting from the fruits of his labours.

6. The matter is referred to you for such action as you may require to take. It is assumed that this recovery should be carried out with your knowledge under the supervision of MMIA.

SIGNED I.S.DREW Maj RA
for Director CEM BRANCH.

HQ MMIA

1 The following copy of letter 1134/2/Q3 of 5 Dec from 2 Dist refers to the release to you by 3 Dist of 400 CEM horse drawn carts. You have already withdrawn 256. As will be seen from this letter, further collection by you under this release is no longer authorised.

2 " Ref your Q422 dated 30 Nov 45. On the 6 August 45, authority was given by AFHQ, vide their AFHQ/5057/Q(AE), for all captured enemy horse drawn carts to be handed over to AC War Material Disposal Sub Commission for disposal.

A return was called for on the availability of these carts, and the figures given for IVREA were serviceable 500 ; unserviceable 22.

These accordingly were released by Ord HQ No 2 District to AC who subsequently disposed of them to a Signor QUAGLIOTTI of MILAN, who paid for the full number of carts.

On going to collect these vehicles, Sig QUAGLIOTTI was informed that they had all been claimed by the TURIN Arsenal, who were loading them onto trains, and that no carts were available for him.

In view of the impossibility of providing carts from other sources of the type bought by the civilian, it is requested that all further withdrawals of carts from IVREA by the Diregione Artiglieria be stopped forthwith, and the remaining carts handed over to the civilian in order that his contract may be fulfilled.

A quantity of Italian metal carts, as shown below, which are not suitable for civilian use, can be made available to make up the number outstanding to the Diregione Artiglieria.

4 D.L.U. Bolzano.
5 D.L.U. Udine.
6 D.L.U. Bologna.
))

Further to this H.Q. Adm. Instruction No. 30.

1. The following Italian Army Recovery Commissions are at present located in Northern Italy. They are at the disposal of D.L.Us, who will assist them in their dealings with Allied authorities and ensure they are in possession of clear instructions, which should emanate from the War Ministry and be conveyed to them through Territorial Commands.

No.	Location	Territorial H.Q. concerned.
21	Austria (temporary)	4 Bolzano.
22	Treviso	5 Udine.
23	Milan	3 Milan.
24	Austria (temporary)	5 Udine.
25	Turin	1 Turin
26	Genoa	2 Genoa

2. The location of all dumps of C.R.M. should be carefully recorded and made known to Territorial H.Q.

Stocks released to M.M.I.A. under paragraph 9(c) of 2 District Adm. Instruction No. 35 of 23 October should be removed as soon as possible to Italian Army Depots.

2 District authority should be obtained for all dumps not so far visited to be inspection by War Ministry representatives specifically detailed by name by the Territorial H.Q. concerned.

3. It is of the utmost importance that so far as possible Italian Army material is listed and claimed by you for the War Ministry before adump is handed over to War Material Disposal Sub Commission. In the event, however, of 2 District handing over a dump before the Recovery Commission has been able to remove stores

6 B.L.U. Bologna.

Further to this H.Q. Adm. Instruction No. 30.

1. The following Italian Army Recovery Commissions are at present located in Northern Italy. They are at the disposal of B.L.Us, who will assist them in their dealings with Allied authorities and ensure they are in possession of clear instructions, which should emanate from the War Ministry and be conveyed to them through Territorial Commands.

No.	Location	Territorial H.Q. concerned.
21	Austria (temporary)	4 Bolzano.
22	Treviso	5 Udine.
23	Milan	3 Milan.
24	Austria (temporary)	5 Udine.
25	Turin	1 Turin
26	Genoa	2 Genoa

2. The location of all dumps of C.R.M. should be carefully recorded and made known to Territorial H.Q.

Stocks released to M.M.I.A. under paragraph 9(e) of 2 District Adm. Instruction No. 55 of 23 October should be removed as soon as possible to Italian Army Depots.

2 District authority should be obtained for all dumps not so far visited to be inspection by War Ministry representatives specifically detailed by name by the Territorial H.Q. concerned.

3. It is of the utmost importance that so far as possible Italian Army material is listed and claimed by you for the War Ministry before a dump is handed over to War Material Disposal Sub Commission. In the event, however, of 2 District handing over a dump before the Recovery Commission has been able to remove stores released by 2 District, it is essential that M.M.I.A. or the War Ministry are represented as well as War Material Disposal Sub Commission. U.R.M.I.T. is not a recognised organisation for dealing with Italian Army material which, in accordance with A.F.H.Q. instructions, is to be handed over to M.M.I.A. when released by the Allied Commander.

4. No. 3 B.L.U. Milan is requested to keep this H.Q. informed of any instructions issued by 2 District in this connection.

All B.L.Us. are required to report as stated in paragraph (f) of M.M.I.A. Adm. Instruction No. 30.

Ref your Q.154 dated 16 Nov 45.

It would appear that the correspondence received from AMG BERGAMO Province was forwarded to you in error, and should have been dealt with by the NMIA IO MILAN.

As the dump in question is a recently discovered one, and as items in it are required for military purposes, it is essential that an inventory of the dump may be made available to Services of this HQ. in order that they may state their requirements. The surplus can then be passed to NMIA Control in accordance with Para 8(c) of AFHQ AG 386.3 Q(AE)-O dated 2 Oct 45.

DATE: 12.11.45

SUBJECT: Restoration of a trimming machine to the firm of F.A.R.E.T. - Terni.

On the orders of the Allied Authorities the Terni Arms Factory handed over a "double mounted eccentric trimmer (?)" to the "Terni" Steel works, some months ago.

Since this machine, the only one left at the F.A.R.E.T., does not appear to be essential to the "Terni", we beg of you to kindly take the necessary action in order that it may be returned and thus permit of a great economy and increase in the works of the Repairs Unit.

Distribution as Adm Instruction No 35 dated 23 Oct 45

The following instructions are issued in amplification of para 9 of this HQ Adm Instr No. 35 dated 23 Oct 45.

1. DEFINITION.

The word "dump" below refers to any collection of CEM other than a central Depot formed by this HQ. The word "Depot" refers to a depot formed by this HQ especially to contain CEM.

2. POLICY.

(a) It will be the responsibility of Areas and Sub Areas to organise the work on CEM dumps so that CEM can be made ready for handing over to the Italian Government in accordance with a definite plan and with a minimum delay.

(b) The quickest and best method of handing over is to hand over the dump complete, all stores of military value having been previously removed.

(c) Where this is not practicable, stores for release to Italian Government will be earmarked and listed and prepared for removal by the Italian Government agency.

3. FUNCTION OF UNRRA.

A civil organisation known as UNRRA has been authorised by the Italian Government to act on their behalf in the collection, acceptance and disposal of CEM. This organisation is responsible for providing the necessary guards and storemen for the dumps taken over and for the necessary transport and labour to remove stores that have been released. An UNRRA Liaison Offr will be attached to Area and Sub Area HQs.

4. METHOD OF HANDOVER.

(a) When dumps or stores are ready for handing over to UNRRA, Area and Sub Area HQs will:

3319

(c) ... report to this HQ stating:

Declassified E.O. 12065 Section 3-402/NND No. 785020

The word "dump" below refers to any collection of CEM other than a central Depot formed by this HQ. The word "Depot" refers to a depot formed by this HQ especially to contain CEM.

2. POLICY.

(a) It will be the responsibility of Areas and Sub Areas to organise the work on CEM dumps so that CEM can be made ready for handing over to the Italian Government in accordance with a definite plan and with a minimum delay.

(b) The quickest and best method of handing over is to hand over the dump complete, all stores of military value having been previously removed.

(c) Where this is not practicable, stores for release to Italian Government will be earmarked and listed and prepared for removal by the Italian Government agency.

3. FUNCTION OF UNRRA.

An UNRRA Liaison Offr will be attached to Area and Sub Area HQs.

4. METHOD OF HANDOVER.

(a) When dumps or stores are ready for handing over to UNRRA, Area and Sub Area HQs will:

3319

(i) report to this HQ stating:

location of the dump or stores,
the nature of the stores and approximate quantities.

(ii) notify the UNRRA Liaison Officer who will at once make the necessary arrangements to take over.

(b) On receipt of the info in para (a)(i) above, this HQ will obtain approval from W&D Sub Commission AC for the stores to be handed over to UNRRA.

(c) This HQ will notify Area/Sub Area as soon as agreement with AC has been obtained. Areas and Sub Areas will then arrange to hand over to the UNRRA Liaison Offr. After taking over, a stock list will be prepared by the UNRRA Liaison Officer who will hand two copies to the Area or Sub Area as a receipt, these will be forwarded to this HQ for onward transmission to AC and GHQ CMF.

Q207

/Contd.....

3/11 R HQ.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(d) From time to time this HQ will notify WMD Sub Commission AC of stores held in Depots or Dumps that are available to Italian Government. As soon as AC approval has been received this HQ will instruct Area/Sub Area concerned to release to URMIT Liaison Officer accordingly. Similarly AC will notify URMIT for information URMIT Liaison Officer concerned that this release has been authorised. Clearance will be effected forthwith.

(e) From time to time URMIT will apply through AC to this HQ for release of stores urgently required; applications will be made in English, in duplicate.

5. DUMPS OR DEPOTS ALREADY OCCUPIED BY URMIT OR ALCOM.

(a) No CEM in dumps or depots occupied by URMIT or ALCOM will be moved by any agency without a release form from this HQ.

(b) Mil requirements take priority as in other dumps, but releases already authorised by CC 5 US Army or HQ 1 District will normally be confirmed.

(c) Areas/Sub Areas will arrange inspections of such dumps and will forward list of stores needed to meet Mil requirements to this HQ which will issue release note.

(d) Applications for release of stores to URMIT will be made by URMIT through WMD S/C to this HQ. Applications will be in English in duplicate. 5 Army or HQ 1 District releases will accompany such applications where applicable. This HQ will issue the release to URMIT through WMD S/C.

6. ASSISTANCE TO URMIT.

Although it is the responsibility of URMIT to provide the means of taking over the dumps and stores released to them, there is no objection to Area and Sub Area Commanders placing transport and labour not otherwise required, at the disposal of the URMIT Liaison Officer, should he request this. The only proviso is that if German Units are employed they will not work under the orders of any Italian civilians.

for Colonel,
DA & QMG.

23 Oct 45.

Copy No. 14

No 2 DISTRICT ADM INSTRUCTION NO 35
DISPOSITION OF CAPTURED ENEMY MATERIAL

OBJECT

1. The object of this instr is to indicate the manner in which captured enemy eqpt will be dealt with and the responsibility for its handling and distribution.

DEFINITION

2. Captured enemy eqpt includes any material of whatever nature and wherever found intended for war on land, at sea or in the air, or which is, or may be, or has been or any time in use by, or intended for use by the Armed Forces, Civil Defence, or other fnns or organisations under the control or influence of the German Govt, German Authorities, or Govts or Authorities of any States allied or associated with Germany.

CAPTURED NAVAL AND AIR FORCE STORES.

3. (a) Responsibility for reporting, guarding and issuing these stores is that of the appropriate Service, except that military authorities must be prepared to assist the Naval and Air Force Authorities where these Services are not in a position to assume full responsibility. Common user items will normally be the responsibility of military authorities.

(b) All stores, eqpt and vehs of Italian Air Force or Naval origin will be handed over under arrangements Services this HQ to Italian Air Force or Naval authority designated by AFSC or Naval Sub Commission of Allied Commission.

CAPTURED ARMY [illegible]PS

4. (a) The responsibility for guarding all enemy stores rests initially on the Area/Sub Area in whose territory the stores are found.

(b) Dumps and dogs will be reported by Area/Sub Area to this

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

captured enemy eqpt will be dealt with and the responsibility for its handling and distribution.

DEFINITION

2. Captured enemy eqpt includes any material of whatever nature and wherever found intended for war on land, at sea or in the air, or which is, or may be, or has been at any time in use by, or intended for use by the Armed Forces, Civil Defence, or other fans or organisations under the control or influence of the German Govt, German Authorities, or Govts or Authorities of any States allied or associated with Germany.

CAPTURED NAVAL AND AIR FORCE STORES.

3. (a) Responsibility for reporting, guarding and issuing these stores is that of the appropriate Service, except that military authorities must be prepared to assist the Naval and Air Force Authorities where these Services are not in a position to assume full responsibility. Common user items will normally be the responsibility of military authorities.

(b) All stores, eqpt and vehs of Italian Air Force or Naval origin will be handed over under arrangements Services this HQ to Italian Air Force or Naval authority designated by AFSC or Naval Sub Commission of Allied Commission.

CAPTURED ARMY STORES

4. (a) The responsibility for guarding all enemy stores rests initially on the Area/Sub Area in whose territory the stores are found.

(b) Dumps and deps will be reported by Area/Sub Area to this HQ which is responsible for arranging conc in the main central deps est or to be est.

(c) Services this HQ will est central deps as required for conc of such CEMs as are normally their responsibility to provide. Locns of central deps will be notified by Services to all concerned.

(d) Where through differences in the org and scope of German and Brit Services items normally issued by one Service are found in a dump taken over by another, the services concerned will make mutual arrangements for its transfer.

(e) Provision of guards on central deps is responsibility of this HQ.

.....2./

Declassified E.O. 13065 Section 3-402/NNDG No. 785020

CLASSIFICATION

5. (a) Chem army material will be classified into categories by authorities designated below.

Category	Description	Classification Authority
1	Material required for intelligence purposes and technical research	GHQ, CMF
2	Material required by the District Commander for use within his sphere of responsibility.	Services this HQ
3	Material required by the London Munitions Assignment Board	GHQ, CMF
4	Material which requires special handling (e.g. toxic gases)	Services this HQ.

(b) Any war material not placed in Categories 1-4 above will be known as uncategorised material.

(c) Lists of items classified as Category 1 and 3 will be forwarded by AFHQ from time to time and notified to all concerned through Staff channels. Current list of classified material is attached as Appx A.

6. Disposal

(a) Demands for release of CBW will be made to the appropriate service at this HQ.

(b) Demands for materials classified as category 1 or 3 material will be forwarded to GHQ CMF through service channels, GHQ CMF alone having authy to release.

(c) Releases for Category 2, category 4 and unclassified materials will be made by services at this HQ in accordance with policies set out in paras 9 and 10 below.

7. Issue of passes for Entry to CBW Dumps

Entry into CBW dumps will not be permitted without an authorised pass. Services at this HQ will be responsible for issuing passes to personnel requiring entry into CBW dumps under their control and for

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

	Ammunition for use within his sphere of responsibility.	Services this HQ
3	Material required by the London Munitions Assignment Board	GHQ, CMF
4	Material which requires special handling (e.g. toxic gases)	Services this HQ.

(b) Any war material not placed in Categories 1-4 above will be known as uncategorised material.

(c) Lists of items classified as Category 1 and 3 will be forwarded by AFWI from time to time and notified to all concerned through Staff channels. Current list of classified material is attached as Appx A.

6. Disposal

(a) Demands for release of CEM will be made to the appropriate service at this HQ.

(b) Demands for materials classified as category 1 or 3 material will be forwarded to GHQ CMF through service channels, GHQ CMF alone having authy to release.

(c) Releases for Category 2, category 4 and unclassified materials will be made by services at this HQ in accordance with policies set out in paras 9 and 10 below.

7. Issue of passes for Entry to CEM Dumps

Entry into CEM dumps will not be permitted without an authorised pass. Services at this HQ will be responsible for issuing passes to personnel requiring entry into CEM dumps under their control and for maintaining records of all such passes issued. A specimen pass is att at Appx B.

8. Reports

Services at this HQ will forward the following reports in duplicate to Q Branch by 21st of each month showing the position as at 15th of the month, the first reports being required on 21 Oct 45 showing the position as at 15 Oct 45:-

(a) Materials of other united Nation origin giving description type quantity, serviceability and location.
(b) Category 3 materials.
(c) Materials of Italian origin surplus to requirements - see para 9 (c) below.
(d) Vehs surplus to requirements in accordance with para 10 below.

.....3./

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(ii) Italian Amn

A ruling from the Combined Chiefs of Staff as to the method to be adopted for the disposal of Italian amn is expected shortly. Until this ruling is received Italian amn will be left in situ. No action will be taken to destroy it or dispose of it by any other means

(iii) Rec[illegible]d Italian military vehicles - see para 10 (c) below.

(d) War Material of US or Brit origin

Will be returned to appropriate US or Brit Service.

(e) War Material French, Czech or Russian Origin

All recaptured material of French Czech or Russian origin will be segregated and reported separately to CMH CMF under arrangements to be made by appropriate Service at this HQ.

(f) Amn

(i) All enemy mines, grenades, demolition explosives and their ancillaries, initiators of rocket projectiles, small arms amn and amn of 20 mm calibre or below and surplus to know mil requirements will be destroyed by dumping in the sea or lakes or by being exploded. Dumping will take place only in water of 50 fathoms depth or more. Where such enemy amn in built up areas presents a hazard to civ or mil security it will be moved to a suitable site outside. Until destroyed, as indicated above, enemy material of this nature continues to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel will be used under Allied supervision.

Reports will be forwarded through Service channels to this HQ as the conc of amn of the classes above is completed, and will give the locns and approx tonnages of amn contained in these dumps. Instrs for the mov[illegible] this amn to lakes or ports for dumping in deep water will then be [illegible]d.

(ii) The locn and quantities of all enemy amn larger than 20 mm calibre will be made known to the Italian Govt through AC. The Govt will then become totally responsible for the amn and will make the necessary arrangements with civ firms for the breaking down of the amn into its component parts. AC will be responsible for ensuring that the resultant products from the breaking down process are not employed in the production of further armaments by the Italian Govt.

3217

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

All recaptured material of French Czech or Russian origin will be segregated and reported separately to G(Q) CMF under arrangements to be made by appropriate Service at this HQ.

(f) Amn

(i) All enemy mines, grenades, demolition explosives and their ancillaries, initiators of rocket projectiles, small arms amn and amn of 20 mm calibre or below and surplus to know mil requirements will be destroyed by dumping in the sea or lakes or by being exploded. Dumping will take place only in water of 50 fathoms depth or more. Where such enemy amn in built up areas presents a hazard to civ or mil security it will be moved to a suitable site outside. Until destroyed, as indicated above, enemy material of this nature continues to be a guard responsibility of the command in whose area it is located. In the destruction of this material, German personnel will be used under Allied supervision.

Reports will be forwarded through Service channels to this HQ as the conc of amn of the classes above is completed, and will give the locns and approx tonnages of amn contained in these dumps. Instrs for the mov of this amn to lakes or ports for dumping in deep water will then be issued.

(ii) The locn and quantities of all enemy amn larger than 20 mm calibre will be made known to the Italian Govt through AC. The Govt will then become totally responsible for the amn and will make the necessary arrangements with civ firms for the breaking down of the amn into its component parts. AC will be responsible for ensuring that the resultant products from the breaking down process are not employed in the production of further armaments by the Italian Govt.

3217

Locns and approx tonnages of amn in formed road side deps and dumps to be made known to the Italian Govt, will be reported to this HQ through Service channels. The first report will be rendered as soon as recces of areas are completed or on 31 Oct 45, whichever is the earliest, and thereafter from time to time. This HQ will inform the Italian Govt through the Material Disposal Sub Commission HQ of Dumps to be taken over. When the locn and quantity of amn larger than 20 mm calibre has been made known to the Govt, it will be responsible for the safeguarding of the amn until its final disposal. Allied responsibility for safeguarding such arm will cease from the time satisfactory arrangements have been made to this effect.

.....5./

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

This report will show:

Number
Type etc
(classification and serviceability).

9. Policies

(a) Retention of Materials by Units and Individuals

(i) Areas/Sub Areas may authorise retention by units of captured enemy eqpt held within 'E in lieu of WD stores, except that retention of vehicles may only be authorised by this HQ.

(ii) Retention of enemy eqpt surplus to 'E will be authorised by this HQ in the case of Staff Controlled Stores and vehs in all other cases by Area/Sub Area concerned.

(iii) Retention of captured enemy eqpt without authority from the appropriate HQ is forbidden. Disposal instrs for un-authorised enemy eqpt will be given through the appropriate Staff or Service channels.

(b) Use of Captured Eqpt

(i) Max use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where WD stocks are adequate for needs of Brit Forces, German eqpt will be used first for needs of surrendered forces; where WD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and in order to reduce tpt commitments, the material will be reduced to scrap in situ. Services will arrange for the disposal of the material through AC to the Italian Govt from the loca where the material is reduced to scrap. It will be the responsibility of the Services concerned to ensure that all enemy mater[illegible]
further mil value [illegible]

Declassified E.O. 12065 Section 3-402/NNDG No. 785020

(ii) Retention or enemy eqpt surplus to [illegible] will be authorised by this HQ in the case of Staff Controlled Stores and vehs in all other cases by Area/Sub Area concerned.

(iii) Retention of captured enemy eqpt without authority from the appropriate HQ is forbidden. Disposal instrs for un-authorised enemy eqpt will be given through the appropriate Staff or Service channels.

(b) Use of Captured Eqpt

(i) War use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where WD stocks are adequate for needs of Brit Forces, German eqpt will be used first for needs of surrendered forces; where WD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and in order to reduce tpt commitments, the material will be reduced to scrap in situ. Services will arrange for the disposal of the material through AC to the Italian Govt from the loca where the material is reduced to scrap. It will be the responsibility of the Services concerned to ensure that all enemy material is rendered of no further mil value, in its existing form, before it is made available for disposal as scrap.

(c) Recaptured Materials of Italian Mil Origin.

(i) It is the intention that recaptured material of Italian mil origin, except arms, surplus to any requirements under (b) above be handed over to the Italian mil authorities.

Stocks of Italian stores will be reported to Services at this HQ who will in turn notify MMIA N Italy. MMIA will nominate the authority to whom such stores are to be handed over and this HQ will inform Areas/Sub Areas accordingly. Receipts for material so handed over will be taken by issuing Service and forwarded through Service channels to GHQ CMF. All remaining recaptured Italian war material not required for maint as above will be reported to this HQ and disposal instrs awaited except in the case of Naval and Air Force Material.
Instrs of the Navy or Air Force Sub Commission of AC may be accepted.

.....4/

Declassified E.O. 12065 Section 3-402/NNDG No. 785020

(iii) All Chemical Warfare amn will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore in at least 250 fathoms water, and away from shipping routes, fishing grounds, and submarine cables. As special conditions are imposed on the movement of toxic material by rail, this amn will not be mixed with other m.tures when loaded for movement to port for dumping. Loons will be reported to this HQ.

(iv) Any phosgene or di-phosgene (valuable materials for dye stuffs manufacture) in bulk will be released to the Italian Govt for use only by reputable concerns whose plant can be subjected to suitable control. Alternatively such material will be dumped at sea under conditions as in (i) above.

(v) Any other bulk toxic material will be treated as in (i) above unless its tpt is considered dangerous, in which case it will be rendered innocuous by methods, approved by the Chemical Warfare advisers, to be advised later if the circumstances arise.

(vi) Nothing in these instrs is to be regarded as in any way preventing the destruction of any quantitity which is in a dangerous condition or consitutes a hazard to internal security. Areas/Sub Areas will report loons of such dumps to this HQ, which will make arrangements for its destruction. So far as practicable German personnel under Brit supervision will be used for this work.

(g) Animals

Any enemy animal surplus to known mil requirements will be reported to this HQ when disposal instrs will be obtained from G(SD2) CMF.

10. Vehicles

(a) Captured enemy vehs are to be used to the fullest possible extent to save Allied transport; their retention and issue in this Dist is controlled by G(SD2) this HQ.

(b) Captured enemy vehicles will not be taken into use without prior application through Staff channels to G(SD2) HQ 2 Dist under the terms of this HQ General Staff Instruction No 14 and CRO 248/45.

(c) It is the policy ultimately to return to certain Allied and Associated governments and the Italian government through AC and appropriate Military Missions vehs surplus to Allied requirements. No such transfers will however take place without written authority of G (SD2) this HQ. A directive on this subject giving full details is shortly to be issued.

3316

11. HQ No 2 Dist Adm Instr No 30 is hereby cancelled.

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

(vi) Nothing in these instrs is to be regarded as in any way preventing the destruction of any quantity which is in a dangerous condition or consitutes a hazard to internal security. Areas/Sub Areas will report locns of such dumps to this HQ, which will make arrangements for its destruction. So far as practicable German personnel under Brit supervision will be used for this work.

(g) Animals

Any enemy animal surplus to known mil requirements will be reported to this HQ when disposal instrs will be obtained from G(R) CMF.

10. Vehicles

(a) Captured enemy vehs are to be used to the fullest possible extent to save Allied transport; their retention and issue in this Dist is controlled by G(SD2) this HQ.

(b) Captured enemy vehicles will not be taken into use without prior application through Staff channels to G(SD2) HQ 2 Dist under the terms of this HQ General Staff Instruction No 14 and GRO 843/45.

(c) It is the policy ultimately to return to certain Allied and Associated governments and the Italian government through AC and appropriate Military Missions vehs surplus to Allied requirements. The attached copy of a letter AC-M/WMD/14 dated 18 Oct 45 from War Materials Disposal Sub-Commission, A.C., Milan, is forwarded for information.

I have spoken to CEM Officer 2 District as to the undesirability of handing over CEM dumps to "U.R.M.I.T.", which is an organisation alleged by WMD Sub-Commission to be representing the Italian Government's interests.

I suggest that this matter be taken up by you with A.C. in Rome, as there are indications that they have not officially approved U.R.M.I.T. as a receiving agency.

Meanwhile CEM Officer 2 District has promised to keep this office informed of any proposed hand-over of dumps.

18 October 1945

Subject: Military guards for CEM dumps and depots

To : WMD. HQ. AC. - Rome

1. At a conference held at No 2 District to-day, the following point was raised:

When CEM dumps and depots are handed over to URMIT (representing the Italian Government in Northern Italy) URMIT would find it difficult to provide adequate guards, and it was therefore considered advisable that the majority of the Italian Military Guards should be retained.

2. It was further pointed out that when the Allied control of Italian Military personnel in Northern Italy ceases, the Italian Ministry of War might, unless otherwise advised, withdraw all Military Guards from CEM depots and dumps. This might lead to confusion and extensive losses of valuable material.

3. Therefore there seemed to be no objection to representation being made to Italian Ministry of War that these Military Guards should continue to safeguard the CEM materials when they have become the property of the Italian Government.

4. AC representative then consulted with URMIT and it was decided that URMIT should request the competent Italian Government Ministry (Ministry of Transportation) to make representation to the Italian War Ministry that Italian Military Guards on CEM dumps and depots should continue.

3313

5. Therefore will you please support as strongly as possible any representation by the Italian Ministry of Transportation, to this effect.

Declassified E.O. 12065 Section J-402/NNNG NO. 785020

Ref : 3624/IC/Ris.

Dtd : 20 Oct 45

Subject : Stores and Materials of the Commissariat Service in the Territorial Area of Bolzano.

The Military Territorial H.Q. of Bolzano has communicated that, in its own jurisdictional area, there are located various stores of military material of Italian origin and interesting the Commissariat Service. The said stores, which are included on the attached list, are up to the present, under the control of the Allied Military Authorities and are largely staffed by German P.O.W. units.

In view of the existing instructions issued by the MMIA in their Q/15 dtd the 10th of this month, we beg you kindly to examine the possibility of these stores and materials being handed-over to the Italian Military Administration, with the procedure which the MMIA itself will be able to arrange.

We should be grateful for your kind acknowledgment regarding this matter.

For the Director General;

The Inspector General,

sgd. W. Egidi.

Q2 - is this on the list of material released ? 3311

(K)

LIST OF STORES CONCERNING THE COMMISSARIAT SERVICE, WITH THE SPECIFICATION OF MATERIAL THEREIN CONTAINED.

LANA	:	1500 small packs-Italian Army type. 100 cases of Monviso Fuel.
CERTOSA	:	Barracks containing used shoes and used linen of German type;huts containing about 200 packs and 200 Water-Bottles.
PLERES	:	Unserviceable materials of various kinds.
CASTELBELLO	:	Numerous huts,formerly belonging to the Montecatini firm,containing various materials controlled and listed by German personnel. The guard duty provided by this group is exclusively that of impeding unauthorised exit.
MORTER	:	50 graters,2 cases of aluminium cups;10 cases of kitchen utensils,70 cases of bakelite bowls,3 cases of aluminium plates,2 cases of cups,200 table-spoons,10 cases of teaspoons, 80 shovels without handles,500 zinc buckets.
3 STORES NORTH OF BRESSANONE.	:	Closed premises-the keys are in the possession of German personnel . The guard duty of this group is limited to the checking of whether or not personnel drawing stores are regularly authorised.
BOLZANO	:	Residues of Clothing Materials.
PONTE ALL'ADIGE	:	Numerous sacks containing compressed animal foodstuffs.
TERLANO	:	A small quantity of tobacco.
GARGAZZONE	:	10 cases of glasses,1500frying-pans, 1500 jars,70 terracotta pots,500 sacks, 5 strong-boxes,1000 earthenware soup-tureens, 200 earthenware cups,300 wickerwork baskets, 35 scrubbing-brushes,19 cases of knives,30 cases of table-spoons;300 lanterns of various

OGGETTO Depositi e materiali del servizio di commissariato nella zona territoriale di Bolzano.-

Il Comando Militare Territoriale di Bolzano ha comunicato che, nella propria circoscrizione, sono dislocati varii depositi di materiale militare di provenienza italiana interessanti il servizio di commissariato. Detti Depositi che si riportano sull'elenco allegato sono tuttora sotto il controllo delle Autorità Militari Alleate e vengono in buona parte gestiti da unità di prigionieri di guerra tedesche.

Stanti le disposizioni emanate da codesta Missione col foglio Q/15 del 10 corrente, si prega di voler esaminare la possibilità del passaggio all'Amministrazione Militare Italiana dei depositi e materiali di cui sopra, con le modalità che potranno essere fissate da codesta Missione medesima.

Si gradirà un cortese cenno di riscontro al riguardo.-
