3 June 1946

TO : War Ministry

1. It has come to notice that in July 1945 a number of Italian Army tanks were given to the SPA works in CASALE for repair and that subsequently they were disposed of, some by the Ministry of Interior and some by the local Allied Hq's.

A claim is being made by SPA for the repair of the vehicles.

2. It appears that three tanks as under are now held by the Arsenal at TURIN:-

Model G.V. 33	-	Motor No 063666	-	No. Plate 2328	-	chassis No. 1502
"	"	"	"	"	"	" 48296
"	"	"	"	"	"	" 18036

3. Allied H.Q. have been informed that no liability can be accepted by the War Ministry for the works carried out by SPA nor are the tanks required by the Italian Army.

You are requested to report whether the tanks in question are under the control of Territorial Command No. 1, TURIN and what action you propose should be taken before the tanks are de-militarised.

Reference your Q 154 of 10 May 46 and attached correspondence.

1. As the Italian Army are not authorised to hold tanks, the three tanks in question should be reduced to scrap under British supervision and disposed of accordingly.
2. In view of the fact that the tanks were originally repaired on the instructions of the QUESTURA TURIN (your Q 924 of 2 May 46 refers), any claims made by Spa for payment will presumably have been dealt with by you.

Reply to letter Q/154 dated 1/4/46.

As regards the Medical materials, this Ministry, in relation to what your Subcommission requested with letter 26/2 last, immediately approached the concerned Medical Directorates in order that information be given urgently on the material (enemy captured) existing in the medical Depots under command.

Until the present, only information sent by Medical Directorates of Turin and Genoa (1st and 2nd Military Territorial Commands) reached this Office, and a signal has been forwarded to the other Directorates in order that they may forward the data requested.

It will be, however, up to this Ministry to compile and forward, as soon as the a/m data are received, the final receipt of all medical stores in question.

Ref 2 Dist.signal CEM/37 dated 22 Feb.

On receipt of the above signal this HQ requested 3 Terr.Comd. to produce receipts for all C.E.M. for onward transmission to 2 Dist.

It is understood from Terr.Comd. that they have received instructions from the War Ministry to pass such receipts to them for onward transmission to your HQ. The instruction is apparently based on your letter Q 154 dated 26 Feb. addressed to the War Ministry.

2 Dist. have been asked whether in view of the above they still require the receipts but they state that as long as the receipts are forward to G.H.Q., they are not interested.

May it please be confirmed that the receipts will be forwarded by you to G.H.Q. in order that unnecessary duplication of work be saved.
