1. The Artillery Repair Training Centre (S.M.O.A.) is in urgent need of a Compressor Lorry for recharging the Air Bottles for charging the recoil systems on Artillery Equipments used for instructional purposes.
2. It is understood that several British Compressor Lorries may be available at CASARSA. A release of one with serviceable equipment would greatly add to the efficiency of S.M.O.A.

1. There will apparently be a large discrepancy between vehicles released to the Italian Army and the number which will finally be received. They are at the moment approximately 70 short.
2. On visiting the park we were informed that remaining vehicles are being checked by REME and if requiring more than 2 hours labour to put right, are sent immediately to Ministry of Supply disposal dump.
3. It is anticipated that only about ten more vehicles will become available from this source.
4. Can you take up with GHQ the question of the balance of the release.

1. In order to provide adequate repair and inspection facilities for the British Small Arms on loan to the Italian Recruit Training Centres (GAR's) and shortly to be issued to the Internal Security Divisions and Independent Regts, 2 Mobile Armourers Shops are being formed by the Italian War Ministry.

2. These shops will operate in a manner analogous to a British Recruit Armourer pending the arrival at the GAR's of the Armourers Tools requested in our 9.138 of 31 May 46 and the completion of training as Armourers of suitable Italian personnel.

3. It is believed that suitable Workshops Lorries fitted for Armourers work exist at 15 Vehicle Park 33 Vehicle Coy; the precise nomenclature is not known but is believed to be:-

Trucks (American) 15 out 4 x 4 Weapon Carriers (Machy).

4. In order to assist the Italian Army to maintain British Weapons with which it is being equipped it is requested that consideration be given to the issue on loan of these two vehicles with their specialised equipment.

5. It is pointed out that many of the Arms being issued from Allied Sources are not in a fully serviceable condition and consequently the need for inspection and repair services is urgent.

Subject Allied Vehicles belonging to the Disbanded Maiella
Patriot Band.

With reference to letter N° 442/C/I dated 7/2/46 received by us through the HQ to whom this is addressed for information, we inform you that the s/m vehicles have been handed in, on the 30/7/45, to the IO° R.V.P. at Cesena, as is shown by the attached copy of the receipt signed by the British Capt PEARCE belonging to the aforesaid unit.

As shown from the Attached handing in note, some of the vehicles bearing the numbers shown in the letter to which we reply, appear properly handed in whilst others do not appear to have been handed in.

Since the number of the vehicles handed in are higher than those listed by your HQ, we have reason to believe that there is an error in respect of the series numbers of the s/m vehicles.
