Ref. telephone conversation Major Sneezum, 11 B.L.U.-Major King
M.M.I.A. on 12.Jan. re vehicle holdings of this unit.

1. Present vehicle holdings of this Unit is as attached list rendered in quadruplicate.
2. It is understood that the additional Jeep on the W.E. (see serial 4 att list) was sent to this unit as a result of a request made by Major Hector to Col.Curties during the formers visit to M.M.I.A. 3/7 Jan.46. to the effect that additional transport was in fact required by this unit.

Reasons given were:

- a) Unavailability of 15 cwt for 2 or 3 days during the week owing to routine journey to Catania for collecting N.A.A.F.I. and other stores.
 - b) Bad state of roads liable to put either vehicle off road and if occurring to Jeep when 15 cwt was at Catania would leave the unit without means of transport.
 - c) During spells of heavy rain airfield was not approachable by M/C necessitating the use of Jeep by D.R. this causing a further call on limited transport.
 - d) Owing to reasons (a) (b) (c) if either the D.A.A. & Q.M.G. or G II required to make a tour of units on the island the remaining officer would in all probability be left without transport.
3. When Major Hector made request stated in para 2 he was under the impression that present Jeep (see serial 1) was to be B.L.R'd., owing to faults in steering and recurring gasket trouble and so even if a further Jeep arrived the request for an increase in transport would not have been met.
 4. On Major Hectors' return he was offered by A.C. to take over their Car Utility (see serial 6 att list) pending receipt of disposal instructions with a view to it replacing a/m Jeep in

15.2.46
R

Q204

the event of it being B.L.R'd. M.M.I.A., were informed of this transfer by G 4 (B). Transfer was authorised by GHQ/3093/3/Q (AE) letter dated 10/1/46.

This vehicle although officially on strength of this unit was not rendered in Monthly Vehicle Return owing to the fact that the authority for transfer had been retained in A.C. files and the D.A.Q. who had just returned from 10 B.L.U., had understood that this authority was awaited, in which case the vehicle would still have been on A.C. strength.

5. It is now thought that original Jeep (see serial 1) can survive being placed B.L.R., previous faults having been repaired by Italian Autocentro.
6. Disposal instructions are therefore required for Car Utility (serial No.6). The British Naval Base at Messina are in the process of disposing of numerous vehicles to Naples and are willing to include any vehicle we may have due for disposal. Can authority be given for disposal by this channel.
7. Clarification is also required as to whether Jeep (serial No.4) at present held surplus to W.E. is to be authorized as such. For reasons given in para 2 above an extra Jeep is in great demand by this Unit.

2. You will render an explanation to this HQ forthwith, ^{16.4}
3. Mt Maintenance has been the subject of a special drive throughout CMT and the extreme importance of full maintenance has been strongly stressed. Each vehicle on charge will be inspected once monthly by RASC Wsps or REME Wsps, the former being applicable in your case.

4. Vehicles will always report to Wsps on the date laid down by them on the JG 81C. If for any reason this is impossible, Wsps will be informed immediately and alternative date will be mutually arranged. Wsps are kept pressed with the volume of work in hand, and therefore it is absolutely essential to liaise with them to collect on MT Maintenance.

5. Their own programme is worked out each month as regular routine monthly inspections, and any deviation by you causes much inconvenience which could well have been avoided, apart from the detrimental effect on the maintenance of your vehicles as a whole.

3. Reasons for Retention

The vehicle was issued to this unit (then 56 BLU) from the Captured Enemy Material Dump at GHEDI, on authority of HQ 2 District letter 2358 G (SD 2), dated 6 Nov 45, and drawn with 2 District Release Note 156.

The retention of this vehicle is required, as, with the change over of WE, this unit, which is responsible for liaison, supervision, etc of all Italian Army Units in the South of Italy, has a staff of some 18 British Officers and men, and thirty Italian ORs who have to be maintained.

Most of the WE transport is used in transporting officers on their daily duties, and no allowance is made for the carriage of bulky items (clothing barrack stores, etc) which are constantly required by this unit. Further a heavier type of vehicle is very necessary in the case of a move.

Ref:-BC/611/19.

SUBJECT:- Unauthorized repairs to WD.Vehicles.
Chevrolet 8cvt L. 5905871.

Camp

The above vehicle reported to this workshop
18/1/46 requiring a new engine.

On examination by the fitters of this unit, it
was found that this engine had been decarbonised by some unexperienced
person, who had left the overhead valve gear loose, and attempted to adjust
the tappets with the gearing in this condition. The result of this being
complete lack of compression.

Within one hour this engine was rectified and
the vehicle rendered roadworthy; fortunately, with very little damage.

This unit has been obliged on many occasions, to
point out to NCO's belonging to M.I.A. garage, that unauthorised major
repairs must not be carried out within that garage by inexperienced
personnel, but this continues so persistently, that it would appear that
this cannot be stopped short of severe disciplinary action.

May this action please be considered in view of
the fact that the above engine might have been damaged beyond repair, and
was practically new.

1. Major D.C. Mayle R.A. has been contacted as requested in your above quoted and the position is as follows:

2. In view of AMG closing down in the North there is to be a re-allocation of vehicles to the West and Rome Area.

3. From the Venice Area 84 Vehicles are held of which only 30 are expected to be made available and for Trieste 25 vehicles are held of which only 8 are likely to be made available. These are not sufficient to meet their own requirements.

4. Contact was also made with Capt. Hoyle the Tpt Officer who promised to inform this office when and if any vehicles were to be requisitioned but he stated that any such vehicles would be in a very poor condition. In view of the fact that the repair service available to this HQ is superior to that available to AMG, it was agreed that EME this HQ would inspect any such vehicles and withdraw any which could be brought up to Class I Standard.

5. You will be informed immediately any such vehicles are made available.

The above vehicle reported to this workshop at approximately, 1100 hrs 10-1-46, with engine trouble. On examination, it was found that this engine was seized solid; further examination proved the engine was deficient of oil, this having been the cause of seizure. Due to the fact that these engines are at present almost unobtainable, it will be necessary to evacuate an otherwise sound vehicle due entirely to this gross neglect. Ref your sig Q734 dated 18 Dec 45.

Instructions regarding the return of LANCIA 5643114 are noted. At present the veh is at 3(It) Repair Unit in Milan having a complete overhaul of engine, transmission and body-work and will not be in a fit state to travel to Rome for some; say 2-3 weeks.

3 Repair Unit have been requested to expedite repair but it is not considered practical that your dvr should wait in Genoa until this is complete. He will therefore be sent back to you at the first opportunity and the LANCIA will be despatched as soon as it is again on the rd. Repairs will be limited to essentials.

It should be noted that the veh is shod with five brand new 500x16 GOODRICH WD tyres of civilian pattern, recently obtained through Ord 3 District. By their pattern and size these tyres might easily be mistaken for Italian civilian models.

Major,
DAA&QMG.

Appendix "D"

1. The Officer in charge of M.T. is responsible that each passenger vehicle is allocated to an individual driver, to be detailed by Camp. Every endeavour will be made to avoid changing drivers so allocated. The driver will thus be encouraged to take a personal interest in his vehicle.

Drivers allocated will receive their instructions daily either from:
 - (a) the officer to whom the car has been allotted,
 - or
 - (b) the Officer i/c M.T. either directly, or through the N.C.O. i/c transport.
2. The officer i/c M.T. will detail daily cars as under:
 - (a) Stand by for duty journeys of more than 12 hours duration - 3
 - (b) Off the road for maintenance - 5
 - (c) At the disposal of A.D.S.T. - 5
3. The exception to paragraph 2 above will be that on Saturdays and Sundays the number of cars to be detailed as off the road for maintenance will be reduced to those actually undergoing repairs in workshops and the number of cars at the disposal of A.D.S.T. will be proportionately increased.
4. All officers will be informed by A.D.S.T. of the method by which cars at his disposal are to be allocated.
