Captured Enemy Vehicles - Northern Italy.

1. Reference is made to your AFHQ/5067B/Q(AE), December 16.
2. Up to the present time no release of captured vehicles has been made to the Italian Air Force except in one or two cases. But it is proposed to release all vehicles of Italian Air Force origin in the immediate future. There is no specific authorised ceiling for vehicles but the numbers which have been salvaged from dumps are for the most part in such deplorable condition that no more than 25% can possibly be made serviceable even by the process of cannabilisation and it is doubtful whether more than 100-150 vehicles will finally become road worthy. In any case the limiting factor of their use is the amount of petrol available which is controlled by the Allies and based on the number of personnel. Further the vehicles now in use have been running for a considerable number of years and their condition leaves much to be desired. They will therefore require replacing in the not very distant future.
3. Instructions in accordance with A.P.H.Q. Directif of October 2 have been given to the Italian Air Ministry that all French vehicles which have been recovered are to be segregated and when a complete list is at hand the French authorities will be informed and requested to dispose of them as they require.
4. Certain vehicles of German origin have been salvaged prior to the promulgation of the October 2 Directif by contractors to the Italian Air Force and are now in the custody of the contractors. No repair work has been carried out on these vehicles. But should these vehicles not be released to the Italian Air Force compensation for salvage operations will have to be made. It is considered unfair to expect the Italian Air Ministry to pay for their salvage if they are not to have the benefit of their use. A complete list of such German vehicles will be forwarded as soon as it can be compiled. In the mean time it is requested that consideration may be given to releasing them to the Italian Air Force.
5. It is now understood that the number of Italian Air Force vehicles still remaining in the 6 parks listed in paragraph 2 of our AFHQ/655/3/Rq. November 27, is so small and the vehicles are in such bad condition as to make further salvage operations by the Italian Air Force inadvisable and uneconomical.
6. It is considered that if you would authorise the German vehicles mentioned in paragraph 4 to be released to the Italian Air Force or if this cannot be allowed suggest in some way how compensation for their salvage can be made to the firms concerned, that the whole very unsatisfactory situation can be cleared up.
7. It is regretted that no indication can be given as to the future of the Italian Air Force but it is believed that a Directif on the subject is being prepared by your HQ.

Ingegnere Riccardo Lombardi
Minister of Transport
Rome.

Dear Ingegnere Lombardi;

RAD

I will ask you to refer to your predecessor's letter No. 4827/S.P. of 9 November 1945 on the question of transfer of certain ex-Allied vehicles from your Ministry to the Ministry of War, for the Italian Army, as agreed with this Headquarters in October 1945.

It is noted in a further letter from Dottore La Malfa dated 27 November 1945, that 153 vehicles, out of the total of several thousand outstanding, had been made available to the Ministry of War. At that date, however, there was still no information as to when the balance, which it was originally agreed should be handed over by your Ministry at the rate of five hundred per month commencing 1 November, would be made available. No reply can be traced to my further request for information on this subject contained in letter AC/62/91/Tn.5 of 15 December.

It is appreciated that this is now primarily a matter for settlement between yourself and the Minister of War, who is no doubt most anxious to obtain the balance of the vehicles in question. At the same time the Chief Commissioner, while appreciating your difficulties in the reconditioning of the ex-Allied vehicles, is a little perturbed at the slow rate at which these vehicles are being turned over to the Italian Army.

5536

It is intended, therefore, with a view to examining the present position and the future program as regards handing over the balance of these vehicles to the Ministry of War for the Italian Army, to hold a meeting in this Headquarters on Thursday next 3 January in the small conference room at 1600 hours. It is requested that you will attend, and the Minister of War is also being invited; it is hoped that you will be able to put forward at this meeting a firm acceptable program for the handing over of the balance of the vehicles involved.

Will you please confirm by telephone (AC Extension 376) on Monday 31 December if the above time and date are suitable. If, on the other hand, you are unable to be present at the time and date proposed, will

FROM : Presidency of University Students Club of MAZZARA

University students of Mazzara on behalf of whole population angered by impolite and arbitrary gesture ask for intervention of authorities to derequisition FIAT Car PR 8866 used by Major HECTOR MATA PALERMO belonging to generous industrialist old pro Allied FORACI Ludovico, Mazzara. Foraci when informed of riot at MAZZARA due lack of light had offered his car with normal permit and his intervention with authorities in PALERMO on condition that riot ceased forthwith and students returned to schools and workmen to work. FORACI paid for his good efforts to save public order in MAZZARA with the loss of his car. FORACI had only the one car with which he travelled on business which enabled him to give bread to nearly 300 families. Major HECTOR might requisition for his own use another less luxurious car. Population awaits serious and honest intervention higher authorities.

Reference your 10434/U.S.C. dated 7 Dec 45.

1. You state in paragraph 4 that officials of the Ministry of Transport have indicated verbally that the reconditioned Allied vehicles which are to be handed over to the War Ministry in exchange for the Army vehicles retained by civilians, will have to be paid for by the War Ministry. This is directly contrary to the terms of the agreement proposed by Transportation Sub Commission on behalf of the Ministry of Transport, and agreed by W.S.C.

2. You are advised to obtain, as soon as possible, written confirmation from the Ministry of Transport that they undertake to hand over an equivalent amount in reconditioned Allied vehicles free of charge to the Italian Army, in accordance with the agreement. Under no circumstances should vehicles be accepted that have not passed a road test. Any difficulty in obtaining confirmation from the Ministry of Transport should be notified to this S.C.

SUBJECT: Vehicles belonging to the Italian Army handed over to civilians and their replacement with Allied vehicles.

1. - In letter Q/031 of 13th. November, your Mission gave orders that this Ministry should refrain from recovering a group of vehicles (about 1600) which are at present in civilian hands and run by them on A.M.G./A.C. passes.
2. - To offset this, the Ministry of Transport will have to issue to this Ministry a number of Allied vehicles whose total tonnage is equal to that of the vehicles referred to in para.1.
3. - On completion of the deal referred to in para.2, the Ministry of War will have to hand over the 1600 vehicles to the definite ownership of the civilians who are at present holding them.
4. - Official also of the Ministry of Transport, approached verbally, have stated that the allied vehicles to be issued as laid down in para.2, will have to be duly paid for by this Administration, their free issue not being permitted.

To:- 3 B.L.O. Milan.

1. A few months ago, information was received by this H.Q. that 24 Italian Army lorries were being used by Displaced Persons Sub Commission to convey refugees from Switzerland to Italy. It was agreed that the return of these lorries to the Italian Army, be suspended until such time as the conveyance of refugees terminated.
2. On the 2 Oct 45, our Liaison officer at Milan, wrote the attached letter (MIL/3/9) to Displaced Persons Sub Commission, requesting information as to when, Italian Territorial Command MILAN, could have these vehicles.
3. On the 19 Oct 45 the attached letter MIL/3/9 was sent by our Liaison Officer to Italian Territorial Command MILAN, requesting investigation be made to clarify No. of vehicles actually being used by D.P.S.C., as it appeared the No. was not 24 as claimed by this H.Q.
4. It is requested you confirm No. of vehicles actually involved, and whether they have now been returned to the Italian Army.

1. In para 4 of the above quoted letter it is laid down that BLU's will decide whether vehicles are of civilian or military origin. It is thought that BLU's are only competent to decide this point in the case of vehicles which have been specially designed for military purposes, such as gun tractors. In other cases there is nothing to show whether a chassis is of military origin or not. The enclosed copy of letters DA/1258/RR dated 16 Nov 45 and DA/1399/RR dated 24 Nov 45 are cases in point.
2. To protect the BLU's from being put in a false position in cases of this nature it is requested that further instructions be issued for their guidance.
3. The vehicles referred to in the enclosed correspondence are at present impounded. May a decision please be given in these cases, as this BLU is not competent to decide in either case.

Ref. your Q 031 of 25 November 1945.

1. Attached herewith for your information is a copy of a letter dated 27 November 1945 from the Minister of Transport. You will note that the 153 vehicles to be allocated to the Ministry of War were ready for transfer on that date, and that arrangements had already then been made direct between the two Ministries for their collection.

2. With regard to the turnover of the balance to the Ministry of War, the Minister of Transport has stated on 9 November that the schedule for delivery of additional vehicles (500 per month until complete turnover was effected) would inevitably be delayed, since contractors who were to be engaged for the reconditioning of the vehicles had asked exorbitant prices for the repair work and the necessary bargaining had greatly retarded putting the repair work in hand. At this time therefore, the Minister of Transport is unable to give a firm date regarding the future delivery of additional vehicles. He has however stated that he has personally discussed the matter with the Ministry of War, who has agreed to wait till the vehicles are repaired.

3. In reply to your question in Para 4 (a), vehicles of Allied origin have now been turned over to the Italian Government as follows : -

4. This Sub-Commission will continue its endeavour to ensure that the Minister of Transport carries out his obligations to the Ministry of War with the least possible delay. No doubt the Minister of War will also be pressing the matter with the Minister of Transport.

Reference is made to AC/62/62/Tn 5 of 17 Oct and this H.Q. Q/5/10 of 23 Oct.

1. Vehicles listed to date total 1,666.
2. No further communication has yet been received as to when the delivery of equivalent tonnage is to commence.
3. It will be recalled that the equivalent tonnage of the 153 vehicles listed in our Q/5/10 of 31 Aug was to be made first priority. The tonnage was notified as being 525 tons in our Q/5/10 of 27 Oct.
4. You are requested to state:
 - (a) how many Allied vehicles are actually in possession of the Ministry of Transport and where they are at present located.
 - (b) When delivery of the priority 525 tonnage will be made.
 - (c) What arrangements are proposed regarding the balance ⁴⁵¹
5. It is pointed out that the terms of the agreement proposed in your 540/16/Tn 1 of 7 Oct 45 are reciprocal, that the necessary action has been taken by M.M.I.A. as regards the War Ministry responsibility, but that to date the Ministry of Transport has done nothing more than continually revise their estimate of when Allied vehicles will be made available. A reply is therefore requested not later than 1 Dec, giving the information detailed in paragraph 4.

SUBJECT : Request for lengthening
of loan period of two trucks
of Italian Origin.

TO : ALLIED COMMISSION
R O M E

The Command of 218 Area Speciale C.M.F. 569/Q
on Nov. 5 has informed us that on the 20 November the two
trucks of Italian Origin, sent by the a/m Company, and of the
following characteristics Truck Lancia Cap/L 5697843 and
5697845, must be given to the Allied Commission.

Since the a/m trucks are used for the movement
of food with great benefit of the population, we beg the
Allied Commission to protract the loan for another period of
time and possibly until next spring.

In making this request we underline *its 5404*
importance and the benefit it would bring to our people which
together with us hopes you will favorably decide.

1. In accordance with the policy laid down by the Supreme Allied Commander vehicles of Italian military origin may be lawfully claimed by the War Ministry.

Under the agreement between the War Ministry and the Ministry of Transport to which reference is made in the above quoted letters vehicles specifically listed as Army vehicles in the hands of Civilians are to be replaced on a ton for ton basis by Allied vehicles.

Vehicles whose description does not tally with this list may be seized if of Italian Military origin.

2. Recovery action instituted by the War Ministry in accordance with the above policy sometimes results in an appeal by the civilian "user" on the grounds either that :

(a) the vehicle was salvaged and retained after repair on the authority of AMG/AC;

or

(b) the vehicle is of civilian and not military origin.

3. In the case of 2 (a) above the claimant will be required to produce a copy of the AMG/AC authority, which will be forwarded to this H.Q. Pending a decision the vehicle may be held by the Army in the nearest Efficient Vehicle Park.

If no authority can be produced the vehicle may be taken on charge and be made available for re-issue without reference to Land Forces

Reference Q/5/AO dated 23 October 45.

1. The agreement by which the Ministry of Transport will reissue Army vehicles with reconditioned vehicles obtained from Allied sources on a ten for ten basis has been, it is understood, the subject of conversations between the respective Ministers.
2. Army vehicles so far listed by IC/AVR are detailed at Appendix VI. No additions will be permitted after 17 November and any amendment to Appendix VI which in then necessary will be communicated.
3. All concerned will be notified that recovery action is not to be taken in connection with the vehicles so listed and any hold should be released.
4. Vehicles identified as of military origin and found in possession of civilians should be seized unless their destination appears on these lists. Should, however, a liaison advise us to whether or not a vehicle falls within the above except the civilian concerned should be informed that he must obtain from the appropriate IC/AVC officer a certificate in order that the vehicle in question has been listed. The vehicle should be included pending receipt of this certificate.
5. The certificate should quote number and date of the letter which forwarded the list in question to H. V. A.C. If the certificate is produced it will be forwarded to the War Ministry for comparison with the latest information available and the vehicle may be released.
6. If the War Ministry are unable to identify the vehicle mentioned in the certificate as coming within the agreement, the matter will be referred to W.I.A. who will verify the claim.
7. Additional information concerning the vehicles listed at Appendix VI is being sought to enable the transfer documents to be prepared. No action will be taken to transfer any vehicle described on Appendix VI until

replace Army vehicle tags for tonnage... sources on a tonnage basis... of conventions between the respective Ministers.

2. Army vehicles so far listed by AC/AGC are detailed at Appendix 1. No additions will be permitted after 17 November and any amendment to Appendix 1A which is then necessary will be communicated.

All concerned will be notified that recovery action is not to be taken in connection with the vehicles so listed and any field should be calculated.

Vehicles identified as of military origin and found in possession of civilians should be seized unless their description appears on these lists. Should, however, a list of such vehicles be identified as to whether or not a vehicle falls within the above agreement the civilian concerned should be informed that he must obtain from the appropriate AC/AGC officer a certificate under that the vehicle in question has been listed. The vehicle should be immediately pending receipt of this certificate.

The certificate should state number and date of the letter which forwarded the list in question to H. C. A.C. If the certificate is produced it will be forwarded to the War Ministry for comparison with the latest information available and the vehicle may be released.

If the War Ministry are unable to identify the vehicle mentioned in the certificate as coming within the agreement, the matter will be referred to C.V.I., who will verify the claim.

Additional information concerning the vehicles listed at Appendix 1A is being sought to enable the transfer documents to be prepared. No action will be taken to transfer any vehicle described on Appendix 1A until notification is received from C.V.I.

This will be given as and when the Ministry are in a position to state the number and tonnage of Allied vehicles received in exchange.

It is to be understood that recovery action is only suspended and that transfer of ownership in the case of vehicles listed is dependent absolutely on the receipt by the War Ministry of an equivalent tonnage.

It is reported that a civilian named BONA GIUVANNI, has been found in possession of the above vehicle which has been identified as of Italian Army origin.

The present location of the vehicle is not known, but it is understood that Mr. Napoli are aware of the case and await instructions as to whether the vehicle is to be impounded or struck off Army records.

It has been ascertained that:

- (a) Scrap materials was purchased by Mr. Leopoldi Surico from the U.S. Salvage Dept under letter N/4/Arg/284, dated 11/8/44 from HQ, RESEARCH IV Allied Commission APO 394. (Seen and checked by this office).
 - (b) The scrap was then sold to the S.I.R.A. (Societa' Italiana Ri-costruzioni Automobilistiche) who built up complete vehicle and sold them to various civilians such as Mr. Bove Giovanni.
- It would thus appear that the engine and chassis were obtained by the present owner in good faith.

The matter is passed to you for decision as no compensation in kind can be arranged by M.M.I.A. You are therefore free to take recovery action but may consider this unnecessary in present circumstances.

TO : War Ministry

Further to this HQ, 9/5/45 request relating to vehicles in possession of Mr. Emilio Adamo.

It has been confirmed that all vehicles listed were handed over by U.S. or British salvage organizations. In the case of those disposed of by U.S. organizations it is considered in sufficient number of vehicles has been returned to the War Ministry in the nature of captured vehicles released by U.S. A.A.S. organizations.

In the case of those disposed of by British salvage organizations prior to the intervention of A.S.A. a number have been released by captured vehicles brought to Italy from Africa. Representations have been made by HQ that a further number of German captured vehicles should be released to the War Ministry.

In reply this HQ is informed that German vehicles no longer required for Allied Military purposes are already offered to the Italian Government through A.S.A. It is therefore not possible to make any special release of such vehicles to the War Ministry.

The decision therefore as to whether the vehicles in question proceed with Mr. Emilio Adamo without compensation by him must rest with the Ministry.

If under the circumstances it is agreed that ownership should be vested in Mr. Emilio Adamo, you are requested to furnish HQ with a copy of your letter to him.

Further to this in, (5/1 15 August, relation to vehicles in possession of Lt. Grillo above.

It has been confirmed that all vehicles listed were handed over by U.S. or British salvage organizations. In this case it seems unlikely that any restoration is to be considered as equivalent number of vehicles has been restored to the War Ministry in the nature of captured vehicles released by U.S. A.S.V. organizations.

In the case of those disposed of by British salvage organizations vehicles brought to Italy five months. Organizations have been made by to the War Ministry.

In reply this is. It is noted that German vehicles no longer required for Allied Military purposes are already offered to the Italian Government through A.S.V. It is therefore not possible to take any special release of such vehicles to the War Ministry.

The decision therefore as to whether the vehicles in question remain with Lt. Grillo with or without compensation by him must rest with the Ministry.

Draft letter to Regional Commissioners is given below:

"Agreement has been reached between the Ministry of War and the Ministry of Transport, whereby Italian Army vehicles at present operated by civilians, may be retained by them, subject to an equivalent tonnage of Allied vehicles now being made available to the Italian Government being handed over to the Italian Army.

Only such vehicles as have been reported on lists forwarded by you are covered by this agreement. Provided sufficient information, i.e. Targa number, engine and chassis numbers have been furnished, a Transfer Document will be prepared by the War Ministry and delivered to the Ministry of Transport, entitling the present owner to continue to operate the vehicle. Transfer Documents will be issued in respect of vehicles of equivalent tonnage to those which have been received by the Italian Army from the Ministry of Transport. A specimen Transfer Document is attached at Appendix 'A'.

It is to be clearly understood by all concerned that the lists forwarded by you are final, that no additional vehicle may be added, and that recovery action will be taken by the War Ministry in the case of any other Army vehicles in the possession of civilians."

This Comune has been authorized by the Command of the 218 Army (Riccione) to use two motor - vehicles lancia, which belonged to the Italian Army, and were parked in the Viserba depot.

This Comune has put the two vehicles at the disposal of the Ufficio Tecnico and of the "nte Comunale dei Comuni, which use the trucks for transport and therefore help the population which due to the damages of the war badly needed transportation.

The population would have even a greater advantage if it would be possible to have two trailers which would be joint to the trucks.

There are a great number of said trailers in the Viserba dumps

We therefore beg your S.C. to consider the a/m matter and if possible assign to this commune two trailers from the Viserba dept.

Yours sincerely.

Reference your letter Q/5/10 of 23 Oct.

I submit the enclosed letter to you as a test case. While there is no doubt that the vehicle concerned is of Italian Military origin, it appears to me that the owners are being unjustly penalised in losing both the vehicle and the considerable sums of money they claim to have spent on it. I should therefore be grateful if you would advise me:+

- a) whether any provisions have been made by Italian Government for recompensing the civilian firm in such a case,
- or b) whether, where a good case can be made for the return of the vehicle, the provisions of your a/m letter can be applied retrospectively.

REQUISITION OF A FIAT 626 MOTOR CAR - LICENCE 13537 C.N.

Dear Sirs,

On September 21st. Lieutenant Rosso of the 7th. A.G.R.A. has seized the motor car Fiat 626 Licence 13537 C.N. frame 003934, motor 00416, as war emergency material.=

We mention herewith, in a few lines, the facts concerning this car:

Said motor car had been found in the neighbourhood of Madonna dell'Olmo (Cuneo) and nobody was watching on it.=

On September 12th/1943 we put that motor car in a garage of our Factory.= It was necessary at that time to denounce it to the occupation authorities and file an application for having that car assigned to us.= Such an application was filed and favored, so we kept this car in our possession but inefficient until May 1945.=

During the long while the occupation as lasted our workshops reestablished the same in full efficiency through the repairs mentioned in the enclosed list, marked "A".= Many spare parts were substituted or repaired or bought as new material on the free market.= The expences we met are mentioned in the list marked "B" and "C" =

Dear Sirs,

On September 21st. Lieutenant Rosso of the 7th. A.G.R.A. has seized the motor car Fiat 626 Licence 13537 C.N. frame 003934, motor OC416, as war emergency material.=

We mention herewith, in a few lines, the facts concerning this car:

Said motor car had been found in the neighbourhood of Madonna dell'Olmo (Cuneo) and nobody was watching on it.=

On September 12th/1943 we put that motor car in a garage of our Factory.= It was necessary at that time to denounce it to the occupation authorities and file an application for having that car assigned to us.= Such an application was filed and favored, so we kept this car in our possession but inefficient until May 1945.=

During the long while the occupation as lasted our work-shops reestablished the same in full efficiency through the repairs mentioned in the enclosed list, marked "A".= Many spare parts were substituted or repaired or bought as new material on the free market.= The expences we met are mentioned in the list marked "B" and "C" =

To the cost of repairs the Lit.75.000 cost of the purchase of the motor car from the occupation authorities must be added.= The latter is represented by Lit.50.000 - paid to the occupation authorities, as per enclosed contract, and Lit.25.000 - paid to the Prefecture as tip for having accepted our application.= In

addition to that the cost of six tyres fitted to the car, amounting to Lit. 180.000.= also must be added.=

Of course to the above mentioned data, about which we can follow a track, even the cost of the material taken from our warehouses, included in the general expences of our Factories and hardly findable, after one year from that time, should be added too.=

The car has been completely assembled in last May and after that it has covered the following distances:

- a) - about 1000 Kms in a trip Cuneo - Verzuolo - Cuneo for picking up men who had been transported to Germany.=
- b) - 1500 Kms for supplying our mills in Cuneo and Verzuolo.=

The motor car, recovered by us and consequently protected from the German use, put in efficiency and fitted with tyres, in accordance to the regulation of the free market of that time, has been utilized by us for a very short while owing to lack of oil to be assigned.=

As you will notice the car has been purchased by us at a low price considering the present market (Lit.175.000 against Lit.125.000.= cost of the same tyreless car in September 1943)= We met considerable expences which increase its cost up to Lit. 453.000.= We ask therefore for a reimbursement of our expences or, preferably, for an order from the Headquarters to the Comando Militare Territoriale - Ufficio Servizi - Corso Stati Uniti - assigning that car to us for supplying our mills during 18-24 months, so that we may repay in this way the money disbursed by us.=

Hoping you will give your best consideration to our request we remain

Very truly yours

- 1.- District Letter 2365/4 G (SD 2) of 27 Oct referring to the withdrawal of Italian military vehicles from captured enemy vehicle parks, refers only to vehicles marked with a military star in the engine.
- 2.- It is pointed out there are vehicles which do not bear this distinguishing mark and yet are the property of the Italian Army. Such are the following types which are exclusively military and were produced under Min: of War contract.
Breda tractors, Spa Gouvaque, Spa 39 and 45, Lancia 3 RO (with handle device for starting) and Isotta D 65.
- 3.- In addition, there were a number of civilian vehicles duly requisitioned by the Min: of War in 1943. Records of these are kept in Rome and in Turin. 23 Italian Recovery Commission, Milan, refers to this record Office in Turin in doubtful cases.
- 4.- While the task of withdrawing the Italian Mil. vehicles marked with a star is about to begin, it is requested that authority be granted for the withdrawal of other vehicles which can be proved to be the property of the Italian Army.

Reference conversation CLARK-MOORE of 25 Oct.

There are at present 10 FIAT 1100 cars in the workshop of PININ FARINA and 23 FIAT 626 Autofurconcini in the workshop of Comm. GARAVINI, ordered and paid for by the German military forces.

Before my arrival in this office my predecessor had entered into lengthy negotiations for the purpose of obtaining these vehicles for the Italian army, which is; as you know, in great need of vehicles for essential military services. And finally, acting on instructions from MMIA, he had ordered the Turin Territorial HQ to undertake the recovery of the vehicles.

Since, however, you have raised the objection that these vehicles were the property of the German Army, do not bear Italian Army markings, and can therefore be considered as Captured Enemy Material, I refer you to AFHQ Directive AG 286.3 Q(AE)-0 of 4 Oct, para 9g(3), with the following observations.

MMIA has already represented to AFHQ the need of the Italian Army for these vehicles. They are of a type that would have been supplied to the Italian Army had not German diverted them to their own use.

Will you therefore please, under the terms of para 9a/m para of the AFHQ Directive, agree to the allocation of these vehicles to the Italian Army, and permit Turin Territorial HQ to proceed with their recovery.
