Q.212.

26 July, 1946.

Dear

May I ask your help over a simple accommodation problem which has a US-Italian angle. I hope after reading my suggestion you will feel you can ask Colonel Dasher to give the proposal his support.

The situation is that the Italian War Ministry are still hoping to find suitable accommodation for the refugees remaining in Cecognolo Camp. They would like very much to remove them to "Villaggio Operati" which is a mile or two North of the camp on the road back to Rome. This village, which would contain them all, is at present occupied by about 90 negroes of the 156th Truck Coy. I think you told me that the US, as well as ourselves, were endeavouring to concentrate all their small units in one place and it might well be that the solution is therefore a very simple one, i.e. move the truck drivers to the American concentration area, believed to be the Forum Mussolini, and hand the village back to the Italian Government. But perhaps this is too simple and there may be some snags. My US staff officer is in contact with the American G.I. section and feels that an understanding word from you to Colonel Dasher might help things along. If you feel justified in doing so I should be grateful for your help.

Yours

W.P.

23rd. May '46. Q.

TO: 86 Area.

COPY TO: M.M.I.A. ✓

1. Attached is a letter from the O.C., Italian Garrison, ROVIGO asking for the derequisition of barracks recently vacated by Polish Troops.
2. Could these barracks be handed over to the Italian Army if they are not needed by you, as there seems to be a frightful shortage of barrack accommodation in ROVIGO.

(1) It deals with works included in the draft and costing 7.500.000 lire, which was sent for examination by the Engr. Inspectorate with covering letter I2650/L dated 8/3/45. The most urgent works which cost 4.500.000 have been authorised forthwith, amount included in the sum of 44843548 shown in the respective column.

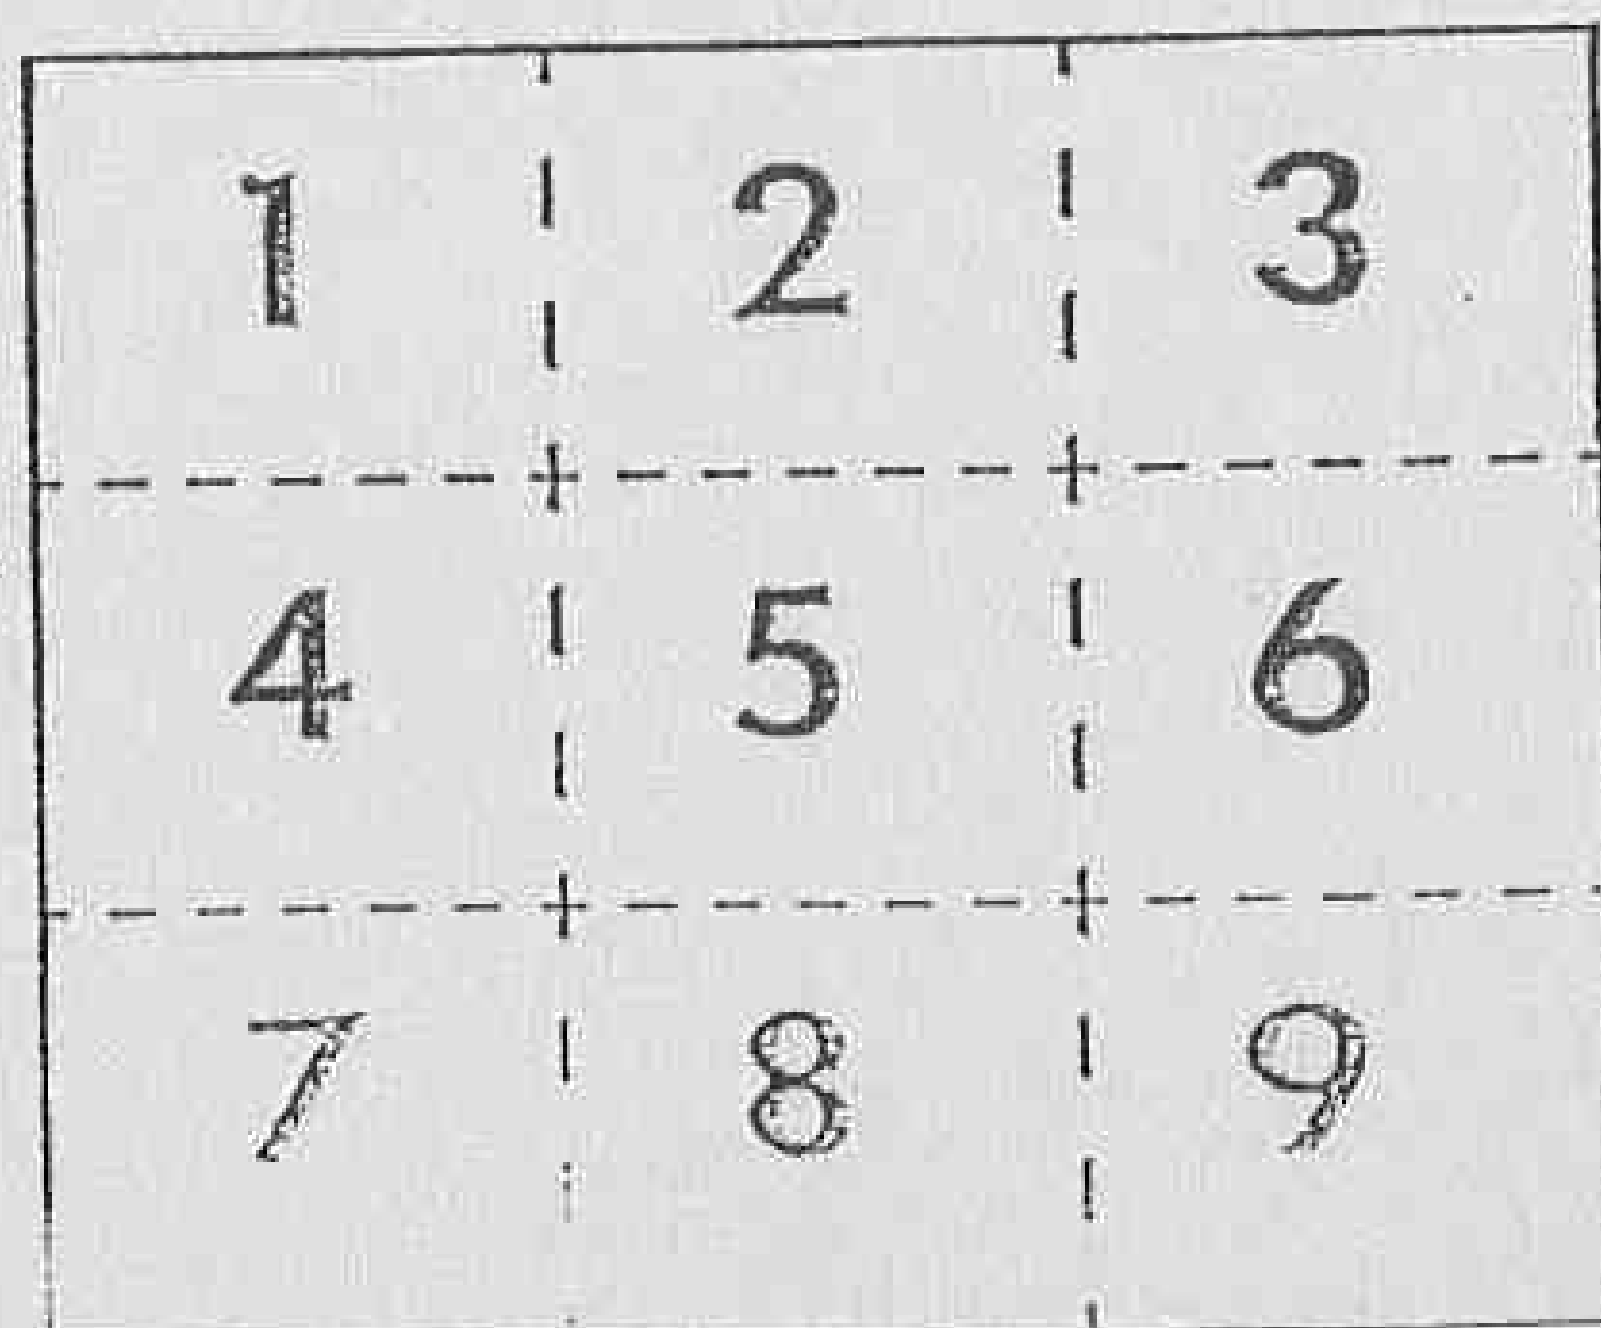

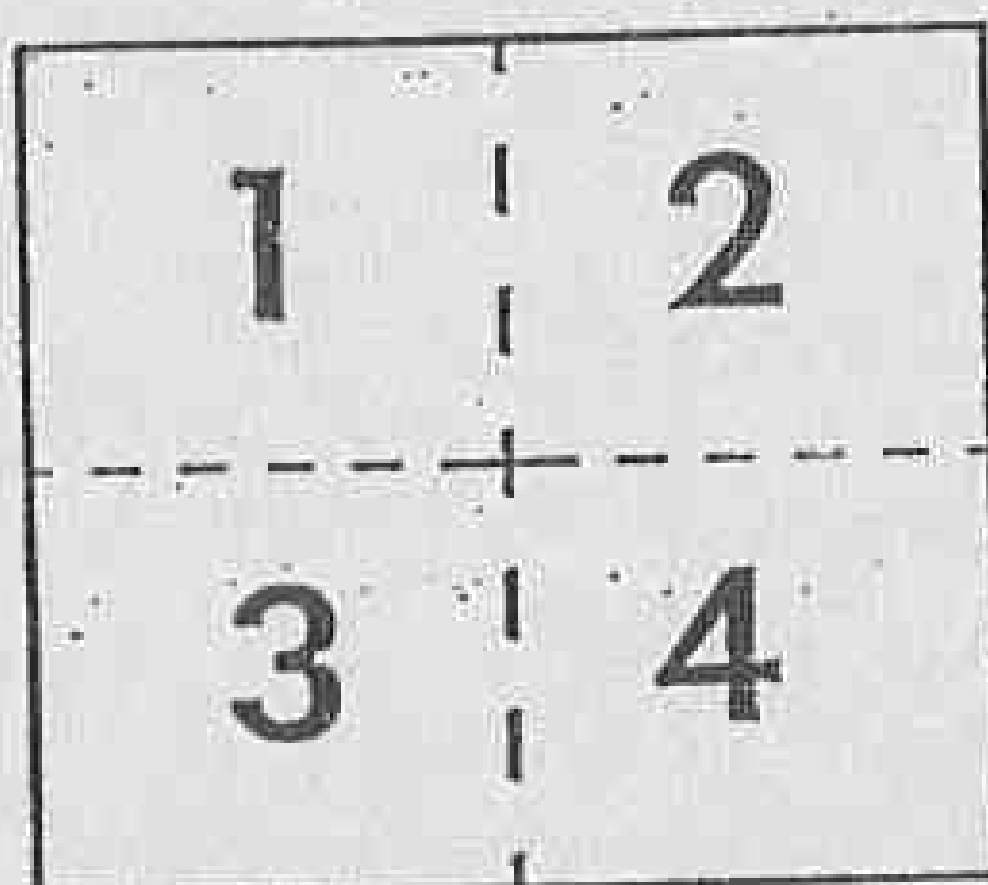

(2) The relative drafts are being examined by Engr. Inspectorate and regard works of repair of roads and squares-partly connected with the hygiene and water systems.

NOTES

- a) For C.A.R.S. a sum of 500.000.000 not yet allocated has been put at disposal.
- b) S.M.R.E. with letter 2037/P/3 dated 22/3/46 has pointed out the necessity that ^{each} C.A.R. has its various firing ranges. Instructions have been issued by telegram authorising the immediate start of the works not exceeding the maximum limit of 300.000 lire and requiring for works exceeding this limit, the forwarding of urgent and concrete proposals.

2. Herewith my recommendations on completion of recess of LODI and GRUMONA with reps from your HQ. The intention of the recess being to find suitable accommodation for approx 1000 Displaced Persons in order that alternative accommodation can be offered to that at present in use by them at MONTEA.

3. The barracks at LODI were considered generally in suitable the only likely ones being:-

- a) RAMPULLA bks - These are already being used to accommodate displaced persons. At the most there is only room for a further 80 persons and this further accommodation is in a very poor state of repair.
- b) GRUMONA bks - Legnano unit at present moving in. The accommodation is good and would be adequate to house approx 500 displaced persons. The rooms however are very large and would be generally unsatisfactory for housing families also there being good garage space it is considered that it would be wasteful to use it for housing refugees.

4. It is considered that GRUMONA provides the answer to the problem and the following suggestion is submitted:-

a) EUGENIO DI SAVOIA bks. This is empty in a moderately good state of repair and is divided into small rooms ideal for housing families. Would take approx 500 persons.

b) PAOLINI bks. This is in part occupied by Legnano. The wing not occupied by Legnano is in a moderately good state of repair and is also suitable for housing families. Would take approx 100 persons.

c) Legnano are using 3 bks in GRUMONA and it is considered that with very little inconvenience to them they could vacate one of them the most satisfactory being that they vacate the part of the PAOLINI bks they at present occupy. If the whole of the PAOLINI bks were made available it would accommodate at least 500 persons. From the standpoint of the administration of the Displaced Persons and the unsatisfactory nature of having soldiers and refugees in the same building the above suggestion is considered the most satisfactory solution.

to find suitable accommodation can be directed to
order that alternative accommodation can be directed to

3. The barracks at LODI were considered generally insuitable the
only likely ones being:-

- a) PARVILLA bks - These are already being used to accommodate
displaced persons. At the most there is only room for a further 80
persons and this further accommodation is in a very poor state of repair.
- b) CHIAVARI bks - Legnano unit at present moving in. The
accommodation is good and would be adequate to house approx 500 displaced
persons. The rooms however are very large and would be generally
unsatisfactory for housing families also there being good garage space
it is considered that it would be wasteful to use it for housing refugees.

4. It is considered that CREMA provides the answer to the problem
and the following suggestion is submitted:-

- a) EUGENIO DI SAVOIA bks. This is empty in a moderately good
state of repair and is divided into small rooms ideal for housing families.
Would take approx 500 persons.
- b) PAOLINI bks. This is in part occupied by Legnano.

1. Attached at Appendix "A" is a list of Italian Military Barracks at present in possession of Displaced Persons Sub Commission.

Very early confirmation is requested that this list is complete and that no other Italian Military accommodation is claimed for either:-

- (a) Displaced Persons (including UNRRA)
- or
- (b) Refugees.

2. The War Ministry have been instructed to prepare details of any suitable alternative accommodation they may be in a position to offer. They wish to claim, under the terms of AFHQ Administrative Memorandum No 48 of 2 November 1945, the return, of all accommodation shown at Appendix "A" at the earliest possible date.

3. It is requested that the Sub Commission concerned be required to examine as a matter of urgency

- (a) the possibility of releasing part at least of the accommodation listed without exchange for other military barracks.
- (b) alternative accommodation other than Italian Military barracks.

For example it has been suggested that AFHQ may be in a position to offer the Royal Palace at Caserta.

4. The efficiency of the Italian Army and the execution of training policy approved by AFHQ demand the early release of the barracks at Modena for the Military Academy.

3. In order that claim for retention, or any of the above barracks which you require, may be relinquished by UNRRA and UNRRA it is essential that you offer alternative accommodation of similar size and condition, situated in the proximity of the I.C. at REGGIO EMILIA and PARMA.

4. D.I.C.'s in the areas concerned will assist you in the selection of suitable alternatives.

5. As a substitute to be offered in lieu of the MILITARY ACADEMY, MODENA; which you urgently require as per letter from the Cabinet 226226 of 6 Dec 45, and your letter 212.1.22

154/3/6 Add of 11 Jan 46, good accommodation will have

found by you for 5,000 displaced persons immediately
 otherwise it is unlikely that the Military Academy
 will be released in time for you to use as planned.

1. Reference letter to War Ministry of even referenced date.
2. L.P. 2/3 and 2/4 are responsible to HQ for the control of approx 40,000 displaced persons of non-Italian nationality. There have been no reports within reasonable distances of L.P.'s of U.S. or M.B.I.A. or M.B.I.S.
3. It is most unlikely that authority can be obtained for any of the barracks listed in 1/1 letter to be requisitioned until L.P. commitments become untenable. Suitable alternative accommodation is required. Suitable implies barracks (or similar) not dispersed, and of the same size and condition and in the same area (see para 1 above) as the barracks it is intended to substitute.
4. Please ensure that suitable alternative accommodation is not selected by the Terr. Comd concerned and offered to War Ministry.

2. March 1946.

SUBJECT: Claims for Accommodation -
 Displaced Persons & Italian Army.

TO : GOC, Land Forces Sub-Com (MELA).
 Attn: Col. Pidsley.

1. We discussed (Colonel Pidsley - Lt. Col. Pothergill - Brigadier Lush) the question of accommodation in MODENA where there is conflicting claims between the Italian Army and Displaced Persons over the Montecucoli barracks. These barracks are earmarked by Displaced Persons for the accommodation of residual refugees for whom UNRRA cannot be responsible. No decision on this point will be made, probably for a month. We agreed, therefore, that the battalion of the Italian Army should move into these barracks forthwith on the condition that they will quit the barracks on 1st April, or any time after at a week's notice being given by Displaced Persons.

2. It was also agreed that the question of conflicting claims of the Ministry of War and Displaced Persons should be considered at once and a general plan submitted.

RGMR.

Q.212

16 February, 1946.

To:-

Roman Area Allied Command.

Reference your Q.171 dated 11 February 46.

1. The War Ministry have been approached concerning the alleged refusal to carry out engineer work required by your H.Q. It is regretted that some misunderstanding has arisen as a result of verbal communications between M.M.I.A. and the War Ministry on the subject of priority to be given to work on Italian Army barracks. This has now been corrected, and the War Ministry have given an assurance that their responsibility in this matter to the Allied authorities will be fully discharged.

2. It will be appreciated that the demands on the Genio Militare have greatly increased with the recovery of certain Italian Army barracks, and partly in connection with the preparation of the Recruit Training Centres. They are faced with a shortage of labour and material. It is therefore essential that the Ministry of War exercise strict control over the work authorized in connection with buildings occupied by the Allies. Territorial Commanders no longer have the same financial powers in this respect as they did formerly, and it is the intention of the War Ministry to press the Italian Government for a greater share of "Allied" engineer services to be performed by the Genio Civile.

3. It is therefore requested that demands on the Genio Militare may be most carefully screened at your H.Q. No difficulty should be experienced by you in obtaining the prompt execution of necessary maintenance repairs. In the case of structural alterations, it is not understood how, in present circumstances, such work can be justified, and it is probable that the War Ministry will require special instructions from the Allied H.Q. before their subordinate commander is authorized to execute such work. M.M.I.A. will be the normal channel for such Allied instructions to be transmitted to them.

4. You are therefore requested to refer any works projects which are not accepted by the Genio Militare to S.B.L.U. who will ascertain the reason for War Ministry approval not having been given, and who will, if necessary, refer the matter to this H.Q.

Ref conversation PIDSLEY - DELLA ROCCA - MAXWELL - BANKS

1. Considerable difficulty has been experienced at RAAC in effecting engineer work normally carried out by the Genio Militare.
2. Demands for engineer work are not now being accepted by Genio Militare which is having considerable repercussion on maintenance of buildings etc. This applies particularly to American units in RAAC who depend on the Genio Militare for all maintenance work and new projects.
- British operated Transit Hotels are also affected.
3. It is understood that the following arrangement has been made with the Italian authorities for engineer works in Rome Area.
 - (a) Maintenance services (e.g. repairs to existing installations etc) will be carried out by Genio Militare as before.
 - (b) New projects requested will be sent to G-4 Section MMIA for approval.

Q/31/1

31 Jan 46

Ref your Q 212 of 24 Jan 46.

1. The Villa in question was occupied by MMIA NW ITALY.
2. It was requisitioned as far as is known by Major Edwards, on behalf of Major Bird, but on what date is not known.
3. In the capacity of CSO 1 (L) I visited the villa and stayed there on two occasions during July - August 1945, when Major Bird, Capt. Fox and Major Monaco were in residence. On the last occasion I was there Col. Noakes passed through on his way to UK on release. Col. Pidsley was I think visiting Milan at the same time.
4. When I was posted to Milan as Senior MMIA LO N. Italy in September 1945, Major Bird had already obtained alternative accn at 2 Via Perotti, which accn is now the Officers Mess 3 BLU.
5. This B.L.U. never therefore occupied the Villa Wanda at CERNOBBIO, and it is not prepared to accept action or any responsibility for damage done to the property.

ROME.

✓ C.212

30 January, 1946.

To:- GHQ (For G-2 Section)

1. Attached at a perfix "A" is a statement obtained from the War Ministry regarding the barracks and other premises in Albania, constructed and/or renovated by the Italian Army prior to the 8th September 1943. No further information is available regarding the condition of the buildings after that date.

2. There is no objection to this information being supplied for use by Allied officers. Information sought by the Albanian Government should, it is suggested, be obtained through diplomatic channels.

Ref. 20I247/II

Date 17/1/46. (3)

Subject Barracks in Albania.

Ref.requested report by Maj.Bauman.

We forward the attached pamphlet containing the information requested concerning barracks, barrack buildings and various factories built or fixed up by Military Eng.in Albania.

Concerning the state of preservation of the brick-work of the factories we report that at the 8 Sept.43, they were in a good state of preservation.

It is however to be presumed that, after this date, the same as has happened in Italy and on a very greater scale, due to the particular surrounding conditions and the lack of maintenance and custody, damage and miss-handling must have inevitably taken place, particularly concerning roofs, fittings, hygenic plants, electrical, hydraulic, heating, by units which have been stationed in the area (German, local partisans, looters etc.)
