1. Extensive enquiries have been made by this HQ to trace the above quoted vans, but it is regretted that they are NOT now identifiable from records held by this HQ.
2. There is every reason to believe that these vans were BBRd as shown in the unit transport book for month of September 45 but no documentary evidence can be traced.
3. It should be realized that this HQ has continually pressed for a Tpt officer to be added to the HQ ME but until recently this had invariably been turned down, which has given rise to continual changes in the officers taking on this duty, resulting in considerable confusion of the MT records.
