SUBJECT: Disposal of Captured Enemy Material in the Mediterranean Theater
 (To include ITALY, AUSTRIA, GREECE and MIDDLE EAST)

TO: Commanding General
 Peninsular Base Section, APO 782
 Land Forces Greece
 General Officers Commanding
 XIII Corps
 GHQ, Middle East
 Number 2 District
 Number 3 District
 Headquarters British Troops in Austria

1. OBJECT OF THIS DIRECTIVE

The object of this directive is to indicate the method of disposal of, and policies and conditions controlling the disposal of the remaining captured and/or surrendered enemy war material in the Mediterranean Theater. The following letters from this headquarters, as amended, are hereby rescinded:

AG 386 3/163 LOG-0, dated 22 June 1945, subject: "Disposition of Captured Enemy Material in ITALY".

AG 386.3/143 GCT-0, dated 9 April 1945, subject: "Allocation and Disposal of Enemy Material in GREECE".

AG 386.3/219 GCT-0, dated 3 August 1945, subject: "Disposition of Captured Enemy Material in AUSTRIA".

2. RESPONSIBILITY FOR THE CONTROL AND DISPOSAL OF ENEMY MATERIAL

a. The control of all enemy material in this theater is vested in the Supreme Allied Commander.

b. The allocation, use and ultimate disposal of enemy material is a responsibility of command, which will be exercised by you in accordance with the provisions of this directive.

3. OWNERSHIP

The property of all enemy material in this theater is vested in the Supreme Allied Commander.

RESTRICTED

RESTRICTED

Ltr, AFHQ, AG 386.3 Q(AE)-C
dated 2 October 45, (Cont'd)

4. LOCATION

The majority of enemy material available for disposition is located in ITALY and AUSTRIA. Therefore this directive has been prepared with full reference to disposal in these two countries. Where the policy varies for other countries within the theater, notes have been added indicating the different procedure to be applied.

5. DEFINITIONS

a. Captured or Surrendered Enemy War Material - (Hereafter referred to as enemy material) includes any material of whatever nature and wherever situated, intended for war on land, at sea, or in the air, which has been at any time in use by, or intended for use by, the armed forces, civil defence, or other formations or organizations under the control or influence of the German Governments, German authorities, or Governments or authorities of any states allied to, or associated with, GERMANY.

b. Disposal Authority is the military authority in whom is vested the power to dispose of enemy material.

6. PRINCIPLES TO BE APPLIEDa. Allied Naval, Ground and Air Force Responsibilities -

Enemy Naval, and Air Force material will be controlled and disposed of by the Allied Naval and Air Forces respectively. Enemy Ground Forces material will be controlled and disposed of by the Allied Ground Forces and co-ordination, where necessary, between the Allied Naval, Ground and Air Forces will be effected by the Ground Forces Commanders. The latter, in the appropriate cases, must be prepared to assist Allied Naval and Air Force Commanders in the control and disposition of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces, Staff and Service Responsibilities for Control and Disposition of Enemy Material -

The responsibility for the control, safeguarding or disposition of all enemy Ground Forces war material is placed upon the Commanding Generals of all major commands in their respective areas. This responsibility will be exercised through the normal Allied Staff and Technical service channels appropriate to the type of material concerned. It is desired that arrangements made by each command be such that continuity of control can be maintained when changes of territorial command occur.

7. CONTROLLING AUTHORITIES AT AFHQ - The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

RESTRICTED

RESTRICTED

Lt., AFHQ, AG 396.3 Q(2)-0
 dtd 2 October 45, (Cont'd)

8. POLICIES

a. Retention of material by units or individuals - Retention by units or individuals of such material unless properly authorized in accordance with this instruction, and other pertinent directives is forbidden.

b. Use of material by Allied Commanders - Authority is granted for the maximum use to be made of enemy material required for the support of Allied Forces in the accomplishment of their assigned mission (including essential civil requirements) or for the maintenance of enemy forces.

c. Recaptured material of Italian Military Origin - Recaptured material of Italian origin which is not required for military purposes, including maintenance of POW, will be turned over immediately to the Italian military authorities, for maintenance of the Italian Forces within the authorized ceilings. The channel of transaction in material of Italian Ground Force origin, which is to be returned to the Italian Army authorities, will be the Land Forces Sub Commission A.C. (MSEA). Receipt for material so handed over will be taken by the issuing Allied Services and forwarded to this headquarters through normal service channels. All remaining recaptured Italian War material, not required for maintenance as above, will be reported to AFHQ and disposal instructions awaited, except that in the case of Naval and Air Force material, when the instructions of the Navy or Air Force Sub Commission of the Allied Commission, acting on behalf of the Allied Naval and Air Force Commanders, may be accepted.

d. War material of United States, British or other United Nation Origin

- (1) It will be the policy for material of United States or British origin recovered from the enemy by recapture or surrender to be turned over to the American or British services normally responsible for the class of material concerned.
- (2) War materials which can be readily identified as having been acquired during the war in any way by the Germans, from any United Nations, will be restored, providing however, that material susceptible only of warlike use shall be restored only when it can be identified as having been captured from the armed forces of any United Nation.
- (3) Any enemy material, apparently previously belonging to any of the United Nations as defined above will be segregated and reported to this headquarters. Particular attention is requested in this theater to material of Russian, Czechoslovak or French origin.

RESTRICTED

Ltr, AFHQ, AG 386.3 Q(AE)-O
dated 2 October 45, (Cont'd)

e. Enemy material required by the London Munitions Assignment Board
There still exists outstanding requirements of the London Munitions Assignment Board to meet global demands for enemy material. A list of these requirements is contained in this headquarters letter AG 386.3/163 SUP-O of 23 September 1945, as amended. A copy of the required items is attached at Appendix "A" for reference. Reports of availabilities of this material will be made in accordance with the letter under reference.

f. Enemy material required for research - A search list of enemy material required for research in U.K. and U.S. has been supplied to major commands and items on this list are still required by Technical Intelligence. This material when found, is regarded as Category 1.

g. German Naval Equipment - All material appertaining to ships and vessels of the German Navy (including armament, ammunition and supplies) which must be handed over to the power receiving the ships and vessels, will be safeguarded and reported through naval channels.

h. War Factories and War Factory Production - The policies contained in letter, this headquarters, file AG 386.3/087 GEG-O dated 2 August 1945, subject: "Policy on Italian Munitions Production" will apply.

i. Remaining Surplus Material - All enemy material surplus to the requirements contained in a and g above will be disposed of in the manner indicated in the following sections of this letter.

With the exception of vehicles - see paragraph 9 g below - if material is surplus within any one particular command, it will be assumed to be surplus to theater requirements, unless notification received to the contrary, and will be disposed of as indicated.

9. METHODS OF DISPOSAL

a. Enemy material suitable for use in the civil rehabilitation of the country - In order that the maximum use may be made of surplus enemy material in its present form, all such material having a value in the civil rehabilitation of a country will be made available immediately for disposal to the government of that country as follows:

- (1) In ITALY (less Venezia Giulia) - To the Ministry of Transportation through the Allied Commission to ITALY.
- (2) In VENEZIA GIULIA - To Allied Military Government XIII Corps.
- (3) In AUSTRIA - To British Troops in Austria (Military Government Staff) and later to Allied Commission to Austria when responsibility for civil supply passes to them from Military Government Staff.

RESTRICTED

Ltr, AFHQ, AG 386.3 (AE)-0,
dated 2 October 45, (Cont'd)

- (4) In other countries - To the respective Governments through the Allied Military agency in that country.

b. Captured Civilian Material

Captured material which is apparently of a civil character and surplus to known military requirements will be disposed of as in a above. The Governments or Allied Military Government of the country will be responsible for investigating and settling claims to ownership.

c. Enemy material unsuitable for civil use (excluding ammunition)

All enemy material surplus to known requirements and having no value in its present form, in the civil rehabilitation of the country will be disposed of by being rendered innocuous, reduced to scrap and disposed of by the normal Allied Salvage organization. As far as possible, and in order to reduce transportation commitments, the material will be reduced to scrap in situ. Salvage organizations will arrange for the disposition of the material through normal channels to the Government or Allied Military Government concerned, from the location where the material is reduced to scrap. It will be the responsibility of the command concerned to ensure that all enemy material is rendered of no further military value, in its existing form, before it is made available for disposal as scrap.

d. Chemical Warfare Equipment and Toxic Material

(1) All defensive chemical warfare equipment which may have a value in the civil rehabilitation of the country will be disposed of as in 9a above. All other defensive chemical warfare equipment will be reduced to scrap.

(2) All chemical warfare ammunition will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore, in at least 250 fathoms of water and away from shipping routes, fishing grounds and submarine cables. The provisions of AFHQ Operation Memorandum Number 77 and of AFHQ Administrative Memoranda Numbers 14, 15 and 33 will be adhered to in connection with all movement of toxic material.

(3) Any PHOSGENE or DIPHOSGENE (Valuable materials for dyestuffs manufacture) in bulk will be released to the Government or Allied Military Government of the country in which it is found, for use only by reputable concerns whose plant can be subjected to suitable control, or such materials will be dumped at sea under conditions laid down in paragraph (2).

(4) Any other bulk toxic material will be treated as in paragraph (2) unless its transportation is considered dangerous, in which case it will be rendered innocuous by methods approved by the chemical warfare advisers.

(5) Further instructions will be issued by Chemical Warfare Staffs.

RESTRICTED

Ltr, AFHQ, AG 386.3 Q(AE)-O
dated 2 October 45, (Cont'd)

e. Ammunition

- (1) All enemy mines, grenades, detonators and initiators, explosives, small arms ammunition and ammunition of 20 mm caliber or below and surplus to known military requirements will be destroyed by dumping in the sea, or lakes or by being exploded. Dumping will take place only in water of 50 fathoms depth or more. Until destroyed, as indicated, enemy material of this nature will continue to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel, under Allied supervision, may be utilized and if necessary, German technical units may be formed for the purpose.
- (2) The location and quantities of all enemy ammunition, larger than 20 mm caliber, will be made known to the Government or Allied Military Government of the country concerned by the Command in whose area the material is located, through the Allied Commission or similar Allied agency. The Government or Allied Military Government of the country will then become totally responsible for the ammunition and will make the necessary arrangements with civilian firms, for the breaking down of the ammunition into its component parts. The Allied agency will be responsible for ensuring that the resultant products from the breaking down process, are not employed in the production of further armaments by the Governments of the countries. When the location and quantity of ammunition larger than 20 mm caliber has been made known to the Government or Allied Military Government of the country concerned, that organization will then be responsible for the safeguarding of the ammunition until its final disposal. Allied responsibility for safeguarding such ammunition will cease from the time that satisfactory arrangements have been made to this effect.
- (3) Nothing in these instructions is to be regarded in any way as restricting the authority of addressee to dispose of ammunition, in any quantity, or in any manner considered suitable, which is in a dangerous condition, or constitutes a hazard to civil or military security.

f. Animals - Any enemy animals surplus to known military requirements will be reported to this headquarters and disposal instructions awaited.

g. Vehicles

- (1) All captured enemy vehicles will be used to the fullest possible extent in order to save Allied transport. Whenever practicable, however, such vehicles will not be issued without workshop inspection, and never without WD numbers and full registration.

RESTRICTED

Ltr AFHQ, AG 386.3 Q(A), -0
dat 12 October 45 (Cont'd)

- (2) The issue of enemy vehicles to existing Allied Units will be permitted only in cases where such units have deficiencies in their TE's (W.E.'s), except within the powers delegated to commands to issue vehicles in excess of T.E. (W.E.).
- (3) Vehicles of Italian military origin, if surplus to Allied requirements, will be returned to the appropriate Italian Army authorities through the Land Forces Sub Commission A.C. (MIA) under the terms of paragraph 8 c above. All other captured Italian vehicles, if surplus to requirements, will be returned to the Italian Government, through Allied Commission, under the terms of paragraph 9 a (1) above. Italian military vehicles can usually be identified by two stars to be found on the engine. If doubt arises as to whether a vehicle of Italian make is a civilian or military vehicle, such vehicle will be turned over to MIA who will determine the ownership and subsequent allocation in conjunction with Allied Commission. Every effort will be made to hand over ALL vehicles of Italian make to the appropriate Italian authorities at the earliest possible date. Every effort will be made to hand over to MIA all stocks of spare parts including tires for Italian military vehicles which are marked with two stars, or are otherwise identifiable as having been the property of the Italian Ministry of War. Stocks of spares for Italian civilian vehicles will be handed over similarly to Allied Commission, or in doubtful cases, to the MIA. Sufficient spares may be retained for such Italian vehicles as are held against deficiencies in unit establishments. Responsibility for repair of vehicles, proper registration, and provision of drivers for all vehicles handed over to them will be that of Allied Commission or MIA as the case may be.
- (4) Vehicles of other United Nation origin will be disposed of as in paragraph 8 d above.
- (5) All other vehicles if surplus to the requirements of any particular command (including in Military Government areas requirements for civil relief to the extent needed to prevent disease and unrest) will be reported as surplus to this headquarters and disposal instructions awaited. If vehicles are surplus to theater requirements they will be disposed of as in paragraph 9 a above.
- (6) All non runners, unless earmarked for any other particular purpose, will be made available to and handed over immediately to the Government or Allied Military Government of the country under the terms of 9 a above for repair by the civil organization of that country.

10. DISPOSAL OF MATERIAL IN MIDDLE EAST AND GREECE

Arrangements for the disposal of surplus enemy material in MIDDLE EAST and GREECE will be made to suit the locally existing conditions of those countries provided the policies established in paragraph 8 above are complied with at all times.

11. RECORDS

In order that any financial adjustments may be completed at a subsequent date records of all issues and receipts and material reduced to scrap will be maintained. Salvage organizations will record quantities and nature of scrap disposed of through normal salvage disposal channels. Copies of all records of transactions will be forwarded to G(AE)AFHQ, through service channels, for maintenance, of the records.

12. REPORTS

a. Addressees will render reports, as called for by this directive as at 15th each month (commencing with 15 October 1945) to reach this headquarters by the 28th of the same month. No other monthly reports other than those shown below are required:

- (1) Material of other United Nation origin giving description of type, quantity, serviceability and location.
- (2) Requirements of London Munitions Assignment Board in accordance with paragraph 8 a above.
- (3) Material of Italian origin and surplus to command requirements as defined in paragraph 8 c above.
- (4) Vehicles surplus to the requirements of the command in accordance with 9 c (5) above.

Reports will give:

DATE: 22 Sept. 45.

SUBJECT: Shipment of Arms from East Africa.

TO : Movements (M.M.I.A.)

- Below find copy of letter from AFHQ (Q/AE). We have had no word either through Allied or Italian channels of the arrival of these two consignments. Can you determine the port of discharge and date of arrival please, as I imagine Hq. East Africa will want some sort of receipt and accounting for these shipments.

GEN. ARTY DIR.

Rome, 14 Aug 1945

TO: Land Forces Sub Commission, AC (MMIA), Rome.

SUBJECT: Foreign Ammo.

Forwarded herewith return requested with letter Q/26/6 dated 2 August 1945. It is pointed out that:

1. Breakdown refers to depots in southern and central Italy u/c of this Arty Dir.
2. Foreign ammo have been divided in three categories.
 - a. Foreign material manufactured in Italy and already used by R.E. before the war.
 - b. Material purchased from abroad in 1939-40-41 and used by R.E.
 - c. Captured enemy material.
3. Detailed reports on a/m materials stored in Northern Italy are not available as yet nor will it be possible in the near future since, according to letter Q/23/1 dated 7 August "No authorization can be released by the M of W to become in possession of or classify Italian ammo depots in Northern Italy. A/ m depots belong to the Allies on or under Allied control."

Sgd. Gen. Russo.

21/02/11

Reference your 220-10-21 of 25 June 45, subject "Tepasiti
Munizioni".1. The present orders of the Supreme Allied Commander on the subject
of ammunition are as follows:-

(a) Ammunition of German manufacture if in "Category 3" (a list
of category 3 items is attached) and in original containers will be
controlled in a few selected parks under Allied arrangements. German
transport and personnel are being used under Allied arrangements.

(b) Small quantities of loose ammunition in unguarded dumps which
constitute a hazard to life or property will be reported by C.C.R. or
other responsible persons to the nearest M.I.A. L.O. through C.C.R. or
Italian Military channels. The M.I.A. L.O. will authorize the
destruction by the Ministry of War of all such small quantities of German
or Italian ammunition. The M.I.A. L.O. is authorized to obtain the
necessary Allied help as regards suitable detonators explosives, etc. if not
available at the dump under consideration. Salvage of certain materials
such as brass, etc. may be made under authorization of the M.I.A. L.O.

(c) Small dump of German or Italian ammunition (other than that in
category 3 in original containers) in dumps of 500 tons or less will be
destroyed by the most suitable means by CCBAL personnel under Allied
supervision. Salvage of useful materials is under Allied control.

(d) Larger dumps of German or Italian ammunition in excess of
500 tons will be placed under guard under Allied arrangements. Allied
instructions will be given covering disposal.

2. The above orders are now in process of implementation by the Allied
Armies. It will be noted that the responsibility of the War Ministry is
restricted to the small quantities covered by paragraph 1 (b) of the letter.
The destruction or otherwise of dumps under 500 tons in an Allied letter and
not Ministry of War, in this connection No letter 20630 of 16 June over
2263

the signature of General Proserj requires correction. You are requested
to issue this correction forthwith. In other respects the letter of
General Proserj is agreed.

APPENDIX "A" to minutes of Conference

held at HQ 15 AG on 4 June 45

The following proposed amendments to this Headquarters letter A.G. 336.3/163 LHM-9 of 28 April 45 will be examined by ARMA/41303A.

SECTION 1

The following will be substituted for para 9(f) of this Headquarters letter referenced AG 336.3/163 LHM-9 of 28 April 45.

AMENDMENT

- (i) Attention is drawn to current instructions on the handling of enemy ammunition.
- (ii) Ammunition of German manufacture if in Category 3 and in original containers will be centralized in a few selected parks under arrangements to be made by addressees. German transport and personnel will be used for this purpose under allied supervision.
- (iii) Small quantities of loose ammunition in unguarded dumps which constitute a hazard to life or property will, under arrangements to be made by ARMA, be reported by Carabinieri to the Italian Ministry of War. ARMA will authorize the destruction by the Italian Ministry of War without reference to this Headquarters, of all such small quantities of German or Italian ammunition, explosives will, if not available in the dumps, be demanded by ARMA from armies, Districts, or Base Section.
- (iv) Small dumps of German and Italian ammunition (other than that in category 3 in original containers) of 500 tons or less will be destroyed by the most suitable means by German personnel under allied supervision. German technical units may be formed for this purpose. If practicable the brass will be recovered and be returned through Allied Army Salvage organizations.
- (v) Larger dumps of German and Italian ammunition in excess of 500 tons will be placed under guard, their contents reported and disposal instructions awaited.
- (vi) Nothing in these instructions is to be regarded in any way as restricting the authority of addressees to destroy ammunition in any quantity which is in a dangerous condition or constitutes a hazard to internal security, utilizing German personnel, under allied supervision, for the work.

1. The 9 mm Parabellum pistol mentioned in the a/m letter is at present in the possession of the Naples Territorial HQ. If you will contact this office, arrangements will be made for you to collect it.

2. Naples Territorial HQ has no knowledge of the "Smith" revolver also referred to in the a/m letter. The only weapon of this type that passed through their hands was one taken from a civilian and handed over to the British CMP Lost Property Office on 13 February.

SUBJECT: GERMAN AMMUNITION IN SICILY

TO : MINISTRY OF WAR

1. In our AG/23/1 of 9 Jan. 1945, authority was given you to proceed with the plan for utilizing German ammo. Stocks in Sicily for industry & agriculture, as outlined in your 306535/02 of 16 Dec. 1944. 133/2 2nd jacket 23/1

2. We have now been advised by AFHQ that the work of neutralization is not progressing rapidly enough with the result that this ammunition is becoming dangerous due to pilferage of components and deterioration from exposure. 55 (133/2 2nd jacket 23/1)

3. You are therefore directed to issue the necessary orders so that vigorous action will be taken to neutralize all German ammunition in Sicily by 30 May 1945. Alternatively, if the neutralization cannot be completed by that date, you will arrange to have all remaining German ammunition in Sicily blown.
