3 Terr HQ report that there is difficulty in obtaining coal for the military hospitals in Lombardy. Formerly coal was obtained from the Ufficio Carbone in Milan, but since the departure of AMG the Terr HQ has to demand on the War Ministry, with consequent delay.

Will you please exert pressure at your end so that the War Ministry may speed up the allotment of coal, as the situation is becoming acute.

not Guiso

CMF
FMCE/LO

We understand difficulty in getting coal but it has come to our attention that military hospitals in Lombardy are in difficulty re supplies of coal. We are doing what we can to help.

DRAFT REPLY TO ST.

193

SUBJECT:- Coal supply for the Italian Army.

Ministry of War.

Ref Ministry of Industry and Commerce 7212/D dated 26 Dec 45.

1. Since your Ministry is responsible for its own maintenance, enquiries regarding fuel etc should be submitted direct by you to the Ministry of Industry and Commerce and not through this HQ or through the Coal Division of AG.

2. For your information coal is not available for military use, but your Ministry can obtain lignite from the FLORENCE and AREZZO area and a small quantity of Sardinian coal for hospital use, such demands should be submitted as referred in para 1 above.

H.Q. M.M.I.A.

1. Complaints have been received from A.M.G. that Units in the Bolzano Area have been requisitioning chopped fuel wood from civilian contractors thereby creating a shortage on the civilian market and consequent hardship to the civilian population, for whilst there is no shortage of wood the facilities for chopping it are very limited.

2. The system adopted by British Units is to requisition an Area of Forest and for the Units to make their own arrangements for cutting up the wood. Please therefore instruct all Italian Units to adopt the same system so that civilian supplies of chopped wood for the coming winter will not be jeopardized.

15/01/2015

3 October 1945

[illegible]

The following is a resume of the fuel situation in N. H. Italy, also details of requirements for the six months ending 31st March 1945.

7 NEW TRICITAI COMMAND (TERRI)

The requirements of the Command are as follows:

Reading: 124,300 quintals
 Owing: 30,840 quintals

The Commissariato Turin submitted a request for the above amount to the Commissariato Regionale per i Combustibili. Soldi and to the R. Corpo delle Foreste, but owing to the large quantity required no supplies were drawn which in itself is in order because the Commissariato Combustibili itself had to make contracts with the civilian firms (Appendix 1 zero) in order to meet the needs of the civilian population. It may be necessary for fuel to be brought into this Command.

© 2000 CONCEPTS, INC. 00000000 (05/01/00)

14, 200 quintals are required for this Command, but in view of the fact that no difficulty is being experienced by units stationed outside Gence who are able to obtain fuel locally only newly for troops stationed in

COBOL

The requirements of the Command are as follows:

Heating: 124,300 quintals
Cooking: 30,840 quintals

The Comdi. Caristo Turin submitted a request for the above amount to the Commissariato Regionale per i Combustibili Solidi and to the R. Corpo delle Foreste, but owing to the large quantity required no supplies were drawn which in itself is in order because the Commissariato Combustibili itself had to make contracts with the civilian firms (Appendix I refers) in order to meet the needs of the civilian population. It may be necessary for fuel to be brought into this Command.

*Presumably a kilo is a ton
allow for the contract with Turin
figure contract with Turin*

3332

2 TERRITORIAL COMMAND (CHICK)

14,100 quintals are required for this Command, but in view of the fact that no difficulty is being experienced by units stationed outside Genoa who are able to obtain fuel locally only 10,000 quintals is required namely for troops stationed in Genoa City. Commissariato Genoa can meet its requirements up to approx 21 Nov locally, if the Ministry of War will approve of the contract for supplying 2,000 quintals at 310 lire per quintal, the price is justified owing to high taxation and high cost of labour. Further 180 high tree trunks have been offered and discussion are going on to effect settlement for sale; total lot is 3,000 quintals. Further details of this source will be forwarded as soon as known.

3 TERRITORIAL COMMAND (MILAN)

Requirements for this Command are:

Cooking: 40,000 quintals
Heating: 140,000 "

of which approx 25% is required for Hospital purposes. It is requested that information be to local resources is not yet available, but it is known that they are very restricted owing to the heavy civilian requirements.

"S. A. T. Milan"

SUBJECT:- Allocation of Fossil Coal.

161

In accordance with MMIA letter ST/14 of 21 March, this Ministry has arranged for the modification of the previous orders concerning the withdrawal of the mineral coal, recently allocated by the Industry Sub Commission AC., in our letter 10429/VO of 23 March (copy attached), as requested by you.

We take the opportunity of informing you that the NAPLES Direzione di Commissariato has informed us that there are no mineral coalmines at Morcone, but only vegetable coal is produced which is therefore unsuitable for the use requested.

We therefore ask you to kindly ask the Industry Sub Commission AC, to examine the possibility of allocating mineral coal from another locality nearer Naples.

 AI LA LAND FORCES SITE
 COMMISSION A.C. (MIA)

ROMA

OGGETTO: Assegnazione carbone fossile.

In esito alla nota n. 87.14 del 21 marzo 1945, comunicasi che questo Ministero ha provveduto a modificare le precedenti disposizioni circa il ritiro del carbone minerale, recentemente assegnato dalla Industry Sub Commission A.C., con il foglio n. 10489/VO. in data 23 marzo 1945, di cui si unisce copia, come da richiesta di codesto Comando.

Con l'occasione si fa presente che la Direzione di Commissariato di Napoli ha comunicato - via breve - che a Forcone non esistono miniere di carbone minerale, ma produzione di carbone vegetale, non idoneo quindi all'uso per cui è stato richiesto (ad esempio, laboratori, ecc.).

Si prega pertanto di voler interessare l'Industry Sub Commission A.C. affinché esamini la possibilità di assegnare carbone minerale su altra località, la più vicina a Napoli.

P. IL MINISTRO

1. In reply to your 11/1/45 of 9 Feb 45: Coal Division
of Industry Sub Commission has no objection to your applying
to local branches of coal section, AFHQ.

2. Documents should be presented to local WIA 10's for
"screening" and counter signature.

3. The contention that the fuel be supplied by the Allied
authority which supplies the clothing, cannot be upheld; the
clothing has been supplied to the Italian Army for its own
benefit, and it would be inequitable if the Allies were made
to supply fuel for work of which they do not get the benefit.

Prot. N° 6082/C

Subject : Coal for the "Tintoria Bernardi" in Bari.
.....

Refers. letter ST/14 dated the 17 Nov. 44.

The Bari Commissariat Directorate, having been informed of the ST/14 dated the 17/11/44 letter of this Sub-Commission as regards coal, has informed us that the above mentioned Dyeing Establishment, can keep on working till the beginning of December with Sulcis coal provided by the local Economic Counsel.

Therefore, so as to be able to keep this Dyeing Estab. working, this Ministry considers satisfactory the solution proposed by the MMIA, by which the Bari Commissariat Directorate would receive an allotment of 60 tons, that will be soon arriving, and we would be grateful if you would take actions in that sense.

Subject: Request for Carbon Fossil.

Following letter: 387/C of 26 Sep. 44, will you please see to the allotment of the carbon fossil necessary for the functioning of the kitchens and of the laundries of the War in Military Hospital.

As this deals with an urgent necessity, and as there are also numerous other necessities to be faced up to, such as hospitals, military bakeries, workshops etc., would you please examine the possibility for the unfreezing of the amounts of fossil carbon- about 10000 quintals- now at the military establishment at MADRID and already the property of this Administration.

URGENTISSIMO.Subject: Request for fossil carbon.

119
Following letter 5302/0 of 14 Oct. 44., we inform you that H.C. CAMBRIA has requested for telegraphic allotment of carbon fossil needed for the MARNE Military Hospital, as all reserves have given out.

Furthermore the Commissariat Directorate has requested the urgent supply of fossil carbon for its own establishments, stating that the Military Bakery alone uses over 30 quintals a day.

Bearing in mind the importance of the question, and not having at the moment other sources of supply, we think it opportune to again request DMX M.M.I.A. to examine the possibility of unreezing, possibly partly the amounts of coal in the Depot at MONTAIGNY, so as to be able to surmount the exigencies of the service.

~~~~~

A seguito del foglio n° 5302/C del 14 ottobre 1944, si fa presente che il Comando Militare della Campania ha chiesto l'assegnazione telegrafica del carbone fossile occorrente all'Ospedale Militare di Napoli, essendo esaurita ogni scorta.

Inoltre, la Direzione di Commissariato di guerra del Comando Militare ha chiesto l'urgente rifornimento di carbone fossile anche per i propri stabilimenti, precisando che solo il panificio Militare ne consuma oltre 30 quintali il giorno.

Data l'importanza della questione e non avendo si per il momento altre fonti di rifornimento, si ritiene opportuno pregare nuovamente codesta Sottocommissione affinché esamini la possibilità di disporre, con urgenza, per il carbone, magari in parte, dei quantitativi di carbone esistenti nello stabilimento di Maddaloni, così da poter far fronte alle esigenze del servizio.

EXTRACT

AFHQ ADMINISTRATIVE MEMORANDUM NUMBER 74

22 August 1944

	x	x	x	x
I	x	x	x	x
II	x	x	x	x

III DISCHARGE, HANDLING AND DISTRIBUTION OF COAL BY CIVILIAN AGENCIES IN ITALY, SICILY AND SARDINIA

1. In order to enable effect to be given to the provisions of paragraph 3b (3) of AFHQ Memorandum Number 40, 1943, arrangements have now been made by A.C.C. with the Italian Government whereby the Italian Ministry of Communications will, under the supervision and control of A.C.C., undertake certain functions hitherto performed by the military authorities in connection with the discharge, handling and distribution of coal, whether imported or locally produced, in Italy, Sicily and Sardinia.

2. It is recognized that, so long as certain ports are being used for operational purposes or are being operated by the military authorities, it may be necessary or desirable that the military authorities continue to exercise their present functions in regard to coal at those ports. Subject to that qualification, and to port operators' concurrence, authority will be given from time to time for the assumption by A.C.C. of any or all of the following functions in such ports or territories as may be notified by Coal Section, this headquarters, after consultation with appropriate sections of this headquarters and other headquarters concerned:

- a. Discharge ex ship.
- b. Handling operations in the port.
- c. Transport by rail or otherwise insofar as such transport is not assumed by the military authorities.
- d. Distribution.
- e. Keeping such records of receipts and issues of coal, and the maintenance of such accounting procedure as may be required by this headquarters or A.C.C.
- f. Furnishing such reports and information on the above named matters as may be required from time to time.

COAL SECTION, A.F.H.Q.
c/o Main Hq., A.A.I.

9 August 1944.

Ref : Coal/5.

Subject : Coal and Coke - Italian Armed Force.

To : ADST, Army Sub Commission, (MMIA), Hq., A.C.C. *98*

1. Your letter of 5th August, reference ST/14 is acknowledged with enclosure.

2. May we take it please that the demand is for the ^{now} allocated amounts of the Italian Army, in accordance with AAJ letter 16 June '44.

3. It is pointed out that this Section does not deal with requirements for Sardinia, nor for Sicily. As set out in Administrative Order No. 16, Allied Garrison Commander Sardinia, is responsible for coordinating, screening and submission to A.F.H.Q. of all requirements of that island. Further Coal Section attached AFLR (Sicilian) B., c/o A.C.C. Sicily Region Hq., deals with requirements of Italian Army in Sicily.

4. Referring to the remainder of the demand, viz. 85 tons at Naples, 125 tons Crotone and 16 tons Bari/Taranto, on the assumption for the time being, that they do not properly fall to be supplied by U.S. Army P.B.S., or British S & T., please state what coal is at present being used for these formations and through what channels up to date the coal has been supplied.

5. Further it would be useful to know to what use the coal is put, as there is little Coke available, and no Anthracite in this Theatre.

"S & T., MMIA.
