1. Reference is made to the agreement reached between your Office, the "Commissariato Militare" and this Hq. to the effect that 1736 tons of bran, previously allocated to S.T. in Naples and subsequently released by them in order to facilitate the supply to the Italian Army, would be actually delivered to the latter.

2. It now appears that the above allocation to the Italian Army, has not yet been made and that your Regional Inspector in Naples is continuously delaying the delivery on the ground of several excuses.

3. Such delay is not understood by this Office and it is urged that prompt action be taken in order to implement the a/m agreement.

4. Needless to say, bran is urgently needed by the Italian Army as their supply situation is extremely tight.

SUBJECT:- Supply for animals of Italian Army.

As a result of the intervention of MMIA, the High Commissariat for Food has notified to this Ministry the allocation to the Military Administration of 17,690 qls of Bran for supply to animals of Italian Interim Army.

This bran should have been made available by Naples Regional Inspectorate for Food, to which we had already applied in order to know the quantities monthly available.

But the a/m Inspectorate has notified by letter attached hereto, that the amounts of bran actually existing and those in course of production are far inferior to the provincial requirements and asked the High Commissariat for Food to request the units concerned to suspend the withdrawals, for the moment.

We therefore ask MMIA to contact again the High Commissariat for Food in order to examine the possibility for us to draw the 17,690 qls of bran.

Please let us know whether the Government of Malta has notified of any possibility of shipping the by-product in question.

ROMA

OGGETTO: Vettovagliamento quadrupedi dell'Esercito
Italiano.

In seguito all'interessamento di codesta Land Forces Sub Commission, l'Alto Commissariato dell'Alimentazione comunicava a questo Ministero di aver attribuito all'Amministrazione Militare 17.690 quintali di crusca per l'approvvigionamento dei quadrupedi dell'Esercito Italiano di transizione. Detta crusca avrebbe dovuto essere messa a disposizione dallo Ispettorato Regionale dell'Alimentazione di Napoli, al quale questo Ministero già si era rivolto per conoscere i quantitativi disponibili mensilmente. Ma il predetto Ispettorato, col foglio che si trasmette in copia, ha fatto presente che i quantitativi di crusca attualmente esistenti e quelli in corso di produzione sono di gran lunga inferiori al fabbisogno provinciale, pregando, perciò, l'Alto Commissariato dell'Alimentazione ad invitare gli enti interessati a desistere, per il momento, da qualsiasi prelevamento.

In considerazione di ciò pregasi vivamente codesta Land Forces Sub Commission di compiacersi interessare nuovamente l'Alto Commissariato dell'Alimentazione allo scopo di esaminare la possibilità di disporre perchè i 17.690 quintali di crusca possano essere ritirati dallo scrivente.

Con l'occasione si prega, altresì, comunicare se il Governatorato di Malta abbia fatto conoscere se ci sia possibilità di spedizione del sottoprodotto in questione.

Si ringrazia.-

Federazione Consorzi Agrari (Agriculture Federation)
Food Provincial SectionSUBJECT:- Supply of bran to animals of Italian Army.

Ref letter ANP/IV/938 dated 5 Jan same subject, the following informations are forwarded in respect of consignment of bran to Allied Armed Forces, notified by Naples Interregional Office of Federazione Italiana Consorzi Agrari.

- Of the first allocation of 25,000 qls at Naples, 22,352 qls have actually been released and therefore 2,648 qls are still to be released.
- Of the second allocation of 22,950 qls at Naples (previously at Foggia) no amounts have been released.

Therefore, 25,608 qls are still to be released in the whole, of which, in accordance to instructions laid down in a/m letter of High Commissariat, 5,000 qls should be released to the Allied Army and the remaining 20,608 qls to the Italian Armed Forces.

The 'Molino Macinazione' should care for the supply of the 5,000 qls to the Allied Army while the Mill Savino Salvatore should care for the supply of 2,224 qls, the Mill Barbato Bros of 2,800 qls and the Molino Macinazione of 15,584 qls to the Italian Armed Forces.

As regards the monthly issues which can be carried out by a/m mills it is pointed out that the present production is very much reduced owing to the fact that pasta is not being produced and therefore no provision can be made.

We moreover ask the High Commissariat to request the units concerned to suspend the withdrawals for the moment, since the quantities actually existing and those in course of production are far inferior to the provincial requirements.

It will be possible to decide a plan of release only after the production of pasta has been completely re-established.

Subject:- Theft of engines in the factory of concentrating forage in Maddaloni.

We inform that on 8th January the caretaker of the a/m factory, informed by a guardian on duty, found in an empty barrack at disposal of the Palestinian Coy. 16 (Pal) Field Survey Depot R.A., three sacks containing each an electric engine.

After a summary verification effected the following day by the caretaker, it has been found that a/m engines were taken away by unknown from the mill of the a/m factory, together with other 4 engines, that have not been found and the date of which are as follows:-

engine no.	63973	power	HP	3
"	"	63943	"	"
"	"	57775	"	2
"	"	57786	"	2

Besides the Carabinieri, we have informed the OC of the Palestinian Coy regarding the theft and investigations held, for him to take action.

Having in mind the a/m facts, may M.S.I.A. intervene in order that the troops now occupying the factory adopt the necessary security measures, to avoid that above facts happen again; ~~1/2/48~~ the decision is taken that a/m factory be released back to us, because it is necessary for the needs of the Army.

La Direzione di Commissariato militare di Bari col telegramma in riferimento ha comunicato che il Deposito Cavalli Stalloni di Foggia ha urgente bisogno di rifornimento di foraggi.

La Land Forces Sub Commission A.C. (MMIA) col foglio suindicato ha fatto presente che le poco confortevoli condizioni di salute dei cavalli a causa della mancanza di foraggi richiedono un immediato intervento facendo affluire al menzionato deposito il mangime necessario.

Pertanto pregasi cotesto Ministero di volersi compiacere provvedere in conseguenza dandone cortese comunicazione a questo.

SUBJECT:- Forage and bedding straw rations.

W.o.f. 1 November, having been ceased by the Allies the supply of oats and balanced grain to animals of the Italian Army, this Ministry will see to the provisioning of these items purchasing them directly from the market, as it has already been done for hay and straw. Difficulties will be encountered owing to very scarce crops caused by adverse weather conditions.

Consequently, as the supply to animals by Mil Terr Commissariat units is very difficult, this Ministry, in order to facilitate the matter and after having contacted the General Inspectorate of Equine and Veterinary Services, has come to the decision of adopting a new policy in rationing.

Therefore animals are divided into 3 categories: the first one includes horses only; the second one includes middle-size mules and the third one all remainder animals.

As you will notice from the attached list, in correspondence of each category a different type of ration is fixed. On the basis of equivalency rules, indicated in the list, several variations are allowed to the normal composition of the ration.

The ration of bedding straw is fixed as follows:

1 category	2,500 kgs
2 & 3 category	1,350 "

2238

As regards the quantity of straw for troop bedding the ration of 10 kgs per month formerly adopted by Italian Army, as prescribed in "Instructions for Military Commissariat Services" volume III para 80, has been re-established.

All previous instructions on this matter are cancelled by this letter.

Subject: Barley requirement for 1946.

W.e.f. 1st November 1945, Allied depots have stopped supplying barley and other grains. ~~and~~ Difficulties, which were already existing, for the feeding of the Italian Army animals, ~~are~~ considerably increased.

This Ministry in order to overcome these difficulties has authorised the purchase of barley and other substitutes, but the results obtained up to date are far from being satisfactory, owing to the very scarce availability of a/m items on the national market.

We have therefore approached the Food Ministry, which has informed us that Army requirements cannot be met ^{by them} because barley and the other grains are not subject to restrictions.

Consequently the chances of feeding animals with national grains are very poor.

In the past, barley was substituted with concentrated fodder, ~~which~~ which now is no longer available, owing to the fact that out of the 2 factories ~~existing~~ producing fodder, one (Bologna) was destroyed by air raids and the other (Maddaloni) ^{is} occupied by the Allies, and because the ~~are~~ present availability of raw materials needed, cannot be relied upon.

nal market.

We have therefore approached the Food Ministry, which has informed us that Army requirements cannot be met because barley and the other grains are not subject to restrictions.

Consequently the chances of feeding animals with national grains are very poor.

In the past, barley was substituted with concentrated fodder, ~~which~~ which now is no longer available, owing to the fact that out of the 2 factories ~~xxxxxxx~~ producing fodder, one (Bologna) was destroyed by air raids and the other (Maddaloni) is occupied by the Allies, and because the ~~xxx~~ present availability of raw materials needed, cannot be relied upon.

In view of these facts, and in order to provide sufficient food for Army animals, we should import barley from abroad.

Therefore we beg this Ministry to include in the ^{national} supplies forecast for 1946, the following barley requirement:

1st six monthly period	1946	Qls	54000
2nd "	"	"	66450

ALLA LA E PONTES SUP COMISSA N A.O. (MIA)
AL MINISTERO DELL'ALIMENTAZIONE

Dal 1° novembre u.s., data dalla quale sono cessati i rifornimen-
ti di avena e di altri tipi di granaglie da parte dei depositi alle-
ti, le difficoltà che già sussistevano nel settore dell'alimentazione
dei quadrupedi dell'Esercito sono notevolmente aumentate.

Per superare tali difficoltà questo Ministero non ha mancato di
sopperire acquisti dal commercio sia di avena, che di altri succe-
nei, ma i risultati finora ottenuti sono tutt'altro che soddisfacenti,
data la scarsissima disponibilità di tali generi sul mercato nazionale.

Interessato in merito il Ministero dell'Alimentazione, questo ha
fatto conoscere di non poter venire incontro alle necessità dell'Eser-
cito dato che l'avena e altre granaglie non sono soggette a vinco-
lo.

Conseguentemente la possibilità di provvedere all'alimentazione
dei quadrupedi con granaglie di produzione nazionale appare proble-
matica.

In passato si suppliva alla deficienza di avena con la produzione
di mangime concentrato, ma oggi non è possibile ricorrere a tale succe-
daneo, sia peron dei due stabilimenti nei quali si effettuava la lavo-
razione del mangime uno (quello di Bologna) è stato distrutto dai bom-
bardamenti aerei e l'altro (quello di Maudaloni) è ora occupato dagli
alleati, sia perchè non si potrebbe contare su adeguate disponibilità
della materie prime occorrenti.

In tale stato di cose non si vede altra possibilità, per assicurare
una sufficiente alimentazione ai quadrupedi dell'Esercito, che impor-
tare avena dall'estero.

Ciò premesso, s'interessa questo Ministero a voler inserire nel
piano di approvvigionamento del Paese per l'anno 1946 il seguente fab-

1. The monthly requirement of the Italian War Ministry for Balanced Grain is made up as under.

220	tons	Barley or Oats
250	"	Brass
200	"	Carcass
120	"	Horse Beans

Total 870 tons

2. It is understood that you will endeavour to assist in the supply of the necessary quantities of Barley, Oats and Brass but that in view of the fact that the Allies are no longer purchasing Carcass and Horse Beans from local resources you consider the War Ministry should arrange supply of these through their normal channels.

3. For your information the War Ministry have to-day notified that they are responsible for the maintenance of 7,000 Horses and Mules and that their stocks of Barley, Oats and Brass amount only to approximately a fortnight's supply.

SUBJECT:- Food Supplies for Italian Army animals.

With reference to letter 19866/S/1 of 16 Oct, in which you requested us, further to letter ST/234 dated 12 Oct from MIA, to arrange the supply of barley for Army animals.

Concerning this it is pointed out that the availability of barley is limited and moreover due for issue as follows:-

10,600 gls for seed
6,600 " " Allied Command.
the

We inform you moreover that/c/m Command has forwarded request for additional amounts of said cereal.

The small remains of barley are held in various depots, not easily approachable and we therefore regret to state that any possibility of carrying out the supply requested by you is out of question.

As regards the supplying of bran, we notify that up to now the Food Sub Commission has not informed us of any, even small, withdrawal of bran foreseen from Naples province mills.

This Ministry has contacted Food Sub Commission regarding such minor withdrawal of bran and the supply of said by-product from MAFIA.

While waiting for a reply this Ministry confirm what already notified on the question in letter ANR/IV/35 of 15 October.

R O M A

Si fa riferimento alla nota n. 19064/S/1 del 14 corr., con la quale codesto Ministero, a seguito della sua relazione SE/234 del 12 ottobre pervenutagli da parte della Sottocommissione Alleata per l'Esercito, ha chiesto a questa amministrazione di provvedere al rifornimento di orzo per i quadrupedi dell'Esercito.

Al riguardo si fa presente che la disponibilità di orzo non è illimitata e per ciò più opportuno come segue:

- C. 11 10.000 per uso di semina;
- C. 12 6.600 per il Comando Alleato.

Si comunica inoltre che detto Comando ha avanzato richieste di ulteriori quantitativi di detto cereale.

La codeste rimprovera di orzo si trovano dislocate in numerosi magazzini non facilmente accessibili, e pertanto questo Ministero è spinto a dover ritenere precluda ogni possibilità di effettuare il rifornimento richiesto da codesto Ministero.

Per quanto si riferisce poi alla fornitura di orzo, si comunica che finché l'A.O. - Sottocommissione per l'Alimentazione non ha comunicato alcun parere ritine di orzo non previsto sui molini della provincia di Napoli.

Comunque questo Ministero ha interessato la stessa Sottocommissione per l'Alimentazione in merito a tale minore prelievo di orzo ed alla fornitura di detto sottoprodotto della Targa di Malta.

Nell'attesa della risposta quest'Amministrazione conferma quanto già comunicato al servizio con la relazione alla AMB/24/286 del 15.11.49.

SUBJECT:- Request for allocation of forage.

NAR

Reference to your letter no. 17560/S/1 dated 19 Sept 45 with which you informed us that from November 1st the Allied Authorities will cease to supply forage (oats, horsebeans, etc) for the animals of the Italian Army and consequently you requested us to provide for the allocation of forage which being controlled cannot be freely bought on the market.

We regret to inform you that we cannot allocate the forage referred to for the following reasons.

- 1) A decree authorising free trade of oats is being published and therefore supplies can be bought on the market;
- 2) It is not possible to supply the barley required as this cereal is exclusively used for human food. Only some condemned quantities of barley can be allocated for forage, if any such quantities are available. But the supply cannot be guaranteed.
- 3) As for horsebeans we inform you that this product is requisitioned and as provided for in DM 8 June 1945, the amount (60%) which is left to the owners can be sold freely, after they have consigned the due quantity.

You will therefore be able to buy freely your requirements on the market.

- 4) As for hay and straw there is no governmental control and they can be freely purchased on the market.

In Foggia Province only, the Prefect has provided for the requisition of 40% of the straw production for the requirements of the Allied Armies in Italy.

Erans and similar products are still controlled, but their production is so inadequate to the requirements of each Province that supply for other than agricultural purposes will be very difficult.

Oggetto - Richieste di assegnazione mangimi.-

Si fa riferimento alla nota n. 17560/S/1 del 19 settembre u.s. con la quale cotesto Ministero ha segnalato che, col 1° novembre p.v. il Comando Alleato cesserà di provvedere al fabbisogno di mangimi (avena, fave ecc.) per i quadri dell'Esercito Italiano e, conseguentemente, cotesto Ministero stesso si è rivolto a questa Amministrazione perché sia provveduto al predetto fabbisogno con assegnazioni di mangimi che per essere sottoposti a disciplina di vincolo non possono formare oggetto di libero scambio.

Questo Ministero è spiacente dover comunicare che non ha possibilità di provvedere all'assegnazione dei mangimi di cui trattasi per le seguenti ragioni:

- 1) per l'avena è in corso di pubblicazione il decreto di evincolo e, pertanto, al relativo rifornimento potrà essere provveduto mediante acquisti sul libero mercato;
- 2) per l'orzo non è possibile provvedere al fabbisogno richiesto in quanto detto cereale è riservato esclusivamente all'alimentazione umana. Solo eventualmente, partite di orzo condizionato possono essere destinate agli usi contadini, ma ciò non può garantire la continuità del rifornimento;
- 3) per quanto si riferisce al rifornimento delle fave si fa presente che tale prodotto è contingente, ed ai sensi del D.M. 8 giugno 1945, la quota libera (50%) lasciata a disposizione dei detentori può essere immessa al libero commercio, dopo che essi abbiano ottenuto il conferimento del contingente dovuto. Cotesta Amministrazione potrà, pertanto, provvedere al proprio fabbisogno con acquisti diretti, in conformità del decreto sopra citato;

provvedere all'assegnazione dei mangimi di cui trattasi per le seguenti ragioni:

- 1) per l'avena è in corso di pubblicazione il decreto di svincolo e, pertanto, al relativo rifornimento potrà essere provveduto mediante acquisti sul libero mercato;
- 2) per l'orzo non è possibile provvedere al fabbisogno richiesto in quanto detto cereale è riservato esclusivamente all'alimentazione umana. Solo eventuali partite di orzo scondizionate possono essere destinate agli usi zootecnici, ma ciò non può garantire la continuità del rifornimento;
- 3) per quanto si riferisce al rifornimento delle fave si fa presente che tale prodotto è contingente, ed ai sensi del D.M. 8 giugno 1945, la quota libera (60%) lasciata a disposizione dei detentori può essere im messa al libero commercio, dopo che essi abbiano ottenuto al conferimento del contingente dovuto. SUBJECT:- Supply of forage to the Italian Army.

The Land Forces Sub Commission, which - following a conversation with some representatives of your Ministry - has been informed that it is not possible to guarantee the supply of forage to the Italian Army, has informed us, ref SI/234 dated 12 Oct attached, that your Ministry is authorized to allocate to the Italian Army the barley required, allocating in its stead an equal quantity of flour for bread making, which as confirmed in a conversation with the above mentioned Sub Commission, will be supplied from Allied Sources for consumption by the civilian population.

Your Ministry should not find any difficulty in supplying to the Army the requirements of bran from the stocks in CAMPANIA, as the Allied Armies will reduce their requirements of this commodity.

The monthly requirements of the Army, ~~as~~ calculated on the present strength of 5,250 animals is about 3,450 qls of barley and about 2,820 qls of bran.

Will you please authorize the allocations relative to the areas as from attached scheme, keeping in account that these requirements for 2 months (November and a month's reserve) should be allocated within 20 Oct 45 to guarantee the service.

R O M A

La Sottocommissione Alleata per l'Alimentazione, alla quale, in seguito alle risultanze del recente colloquio avuto sull'argomento con alcuni rappresentanti di cotesto Ministero, è stata rappresentata l'impossibilità di assicurare il servizio relativo al vertovagliamento dei quadrupedi dell'Esercito Italiano, ha fatto presente, come si rileva dalla lettera 51/234 in data 12 corr., unita in copia, che cotesto Ministero potrà mettere a disposizione per i quadrupedi della M.F.A. il quantitativo di orzo occorrente al loro vertovagliamento, designando in cambio alla pacificazione un eguale quantitativo di farina che, secondo quanto confermato verbalmente nella predetta Sottocommissione, sarà fornito da fonte Alleata per l'alimentazione civile. - Parimenti cotesto Ministero non incontrerà alcuna difficoltà a cedere all'Amministrazione Militare il necessario quantitativo di crusca delle giacenze esistenti in Campania, dato che l'Esercito Alleato ridurrà di molto la richiesta di tale genere per le proprie necessità.

Il fabbisogno mensile dell'Amministrazione Militare, calcolato sull'attuale forza di 5.250 quadrupedi, è di circa 3.400 circa di orzo e di 2.820 circa di crusca.

La Sottocommissione Alleata per l'Esercito, alla quale, in seguito alle risultanze del recente colloquio avuto sull'argomento con alcuni rappresentanti di cotesto Ministero, è stata rappresentata l'impossibilità di assolvere il servizio relativo al perfezionamento del quadripartito dell'Esercito italiano, ha fatto presente, come si rileva dalla lettera 52/234 in data 12 corr., unica in copia, che coteste Ministero potrà mettere a disposizione per i quadripartiti dello P.T.A. il quantitativo di orzo occorrente al loro perfezionamento, destinando in cambio alla perfezionazione un eguale quantitativo di farina che, secondo quanto confermato verbalmente dalla presidenza Sottocommissione, sarà fornito da forte Alleata per l'alimentazione civile. - Perimenti cotesto Ministero non incontrerà alcuna difficoltà a cedere all'Amministrazione Militare il necessario quantitativo di orzo dalle riserve esistenti in Campania, dato che l'Esercito Alleato rimporrà di molto la richiesta di tale genere per le proprie necessità.

Il fabbisogno mensile dell'Amministrazione Militare, calcolato sull'attuale forza di 5.350 quadripartiti, è di 4.113.400 circa di orzo e 4.113.200 circa di crusca.

Si prega pertanto cotesto Ministero di cominciare disporre le assegnazioni per circoscrizione, come dell'unito prospetto, tenendo presente che i quantitativi richiesti, per i due mesi di servizio (mese di novembre più un mese di ricerca) dovrebbero essere messi a disposizione non oltre il 20 ottobre p.v. al fine di non compromettere la continuità del servizio.

Si gradirà ricevere con tutta sollecitudine notizia dei provvedimenti adottati.

12 Oct 45.

1. Confirming telephone conversation with Col. FISICARD to-day the following suggestions are made with a view to assisting you to meet your forage commitment for the period commencing 1 Nov 45, the date from which supply of forage will cease from Allied Army Depots.
2. It is understood that stocks of barley now available in the country are being used by the Ministry of Food for breadmaking. It is thus considered that the Minister of Food should be in a position to release the necessary quantity of barley for the Ministry of War and make good any deficiency for breadmaking by obtaining additional flour.
3. It is further understood that bran should be available at NAPLES on application to the Ministry of Food particularly in view of the fact that Allied Army demands will now be reduced.
4. Meanwhile no further action will be taken by M.M.I.A. but should any difficulty be experienced please communicate with this office immediately bearing in mind the short period that now remains before the provision of forage becomes your responsibility.

Produce Supplies by Italian Ministry of War. Hla

The policy is that the Italian Ministry of War will arrange for the Italian Ministry of Food to request additional quota of flour from Allied Powers. This will enable the Italian Ministry of Food to release Barley to the Italian Ministry of War for forage purposes.

Barley to be released to Italian Ministry of War by arrangement with Italian Ministry of Food who should be able to arrange supply ex Mills at Naples in view of reduced demands of Allied.

Meanwhile no further action will be taken by M. M. A. but the Italian Ministry of War should communicate to this Branch any difficulties experienced with the minimum delay bearing in mind the short time that now remains before this forage will be required i.e. Period commencing 1 Nov.

1. In view of the large number of animals the Italians will have in the Italian Army, it is necessary for the War Ministry to reorganise present Remount Depots, so as to ensure adequate facilities and forage for these animals.
2. As from the 1st November, 1945, the responsibility for feeding all Italian Army animals will fall on the Italian Government, and therefore arrangements have to be made for increase agriculture production at the Remount Depots to cater for the increase in animals.
3. In order that a proper plan may be formulated, it is necessary for War Ministry to know the probable dates of evacuation, either partial or total, of Allied Units at present using such Remount Depots.

1. Your estimate of the future animal strength of the Italian Army is understood to be as below:

Serial No.	Unit.	Quadrants.
1	Pack Mule Tpt. Group.	2,500
2	11 x Terr. Bns.	1,650
3	3 x I.S. Divs	900
4	Mil. Distc. & Depots	1,000
5	6 x Remount Depots	400
6	Various	1,000
7	C.R.R.	2,650
		10,100
		<u>5297</u>

The present animal strength is approximately 5,200 leaving a deficiency of 6,300.

2. Of the above, it is understood you required up to 1,100 horses for units of the C.R.R., and are prepared to accept this number now without increase in personnel.

3	3 x I.C. Divs	300
4	Mil. Dist. & Depots	1,000
5	6 x Remount Depots	400
6	Various	1,000
7	CC.RR.	2,550
		<u>13,100</u>
		<u>5297</u>

The present animal strength is approximately 5297
3,800 leaving a deficiency of 6,500.

2. Of the above, it is understood you required up to 1,400 horses for units of the CC.RR. and are prepared to accept this number now without increase in personnel.

A bid has been made accordingly, should these animals become available from those surplus to Allied requirements.

3. It is agreed that no immediate increase be made in Serials 2, 3, 4, 5 and 6, but that you will distribute existing animals as most required.

4. As regards Serial 1, a request has been made for 2,500 trained mules to be earmarked for the Italian Army. Should your proposals for the Italian Army include a Pack Coy. Group.

It is understood this is the case, and that you anticipate the need of such a unit to serve the requirements of Alpini Regiments.

OGGETTO: Rifornimento foraggi per la Sicilia.-

S.I.

Si è preso atto di quanto comunicato da codesta Sotto-commissione con foglio ST/234 del 31 luglio 1945.

Da esso si rileva che grandi quantitativi di foraggio eccedenti il fabbisogno delle FF.AA. Alleate della Sicilia si trovano giacenti in depositi Alleati dell'Isola.

Poichè questo Ministero, a causa dello scarsissimo raccolto e dei conseguenti altissimi prezzi, incontra in tale regione particolare difficoltà nel provvedere all'approvvigionamento del fieno e della paglia, si prega di voler esaminare la possibilità di lasciare in Sicilia per il fabbisogno delle FF.AA. Italiane sufficienti quantitativi oltre che di granaglie anche di tibben da richiedersi mediante le consuete richieste settimanali.

Notes of meeting between

Capt. WIRALDON (AFHQ/RS)
Mr. BURCALOW (Agricultural Sub Commission)
Capt. COTTON (S & T MILA)

The discussion was based on attached letter from AFHQ.

1. It was agreed that a system should be laid down that would be of a permanent nature - and in this connection the Ministry of War should submit their requirements to the Ministry of Agriculture who in conjunction with the Ministry of Food would authorise release. It was not anticipated that any difficulties would arise between the various departments of the Italian Government, but should any come about, the Ministry of War should refer to M.M.I.A.
2. Movement of forage acquired by the Ministry of War should be "bid" for in the normal manner.
3. At the moment forage is not being imported, but this may be altered owing to the bad harvest.
4. Whether the Ministry of War can take over the handling of forage on the 1 October as suggested by AFHQ depends on the speed at which arrangements can be made between the various Italian Government departments concerned.

The Army Pirotechnic Section at BOLOGNA has one donkey on strength, which is used for the establishment's services.

Since one must see to the rationing of the quadruped in question, please let us know what the daily ration scale should be - also so that it may be a ruling for similar cases in the future.

It appears to us that the same ration could be issued as for ordinary transport mules.

1. This headquarters has 5 horses purchased on the market and put on the regular supply records. These horses are essential in this period of lack of transportation, for light transportation to for any units (transportation of patients, mail etc.). It would be very difficult also for major transportation to reach these units because of the bad conditions of the roads and would use up tires.

2. These horses were attached to the local Infantry Battalion which provided forage for them. Recently the Battalion Headquarters has notified us that it could no longer feed the horses because instructions had been received from S.A. to feed only the number of horses of the Army. This number was in accordance with the service.

3. We call to your attention the absolute necessity to purchase forage on the market and therefore request you to supply the number of rations for the above horses.

4. Please expedite the matter because the horses have not received the rations for many days and do not get sufficient nutrition. Their forage is provided at present by pasture, small quantities of straw bought on the market.

1. The fact that BARI Commissariato is experiencing difficulty in maintaining adequate stocks of straw in instances where supplies earmarked for purchase by local contract are requisitioned by the Allied Authorities, is fully appreciated.
2. The obvious practical way to overcome this difficulty is for the Commissariato to closely liaise with the local Allied Commander and the civilian contractor to ensure that consignments set aside for Italian purchase are not allowed to be taken over by other authorities.
3. Commissariato should be instructed accordingly, and any trouble which arises in the future should be immediately reported to the appropriate MMIA Liaison Officer, who will take action to regularise the position.
4. It is already known that the general policy for forage provision is that AFHQ are responsible for all releases, which are based on demands submitted by you through this HQ, except where they consider it more advantageous and economical to obtain certain items such as straw, by designating authority to Italian Military to buy locally.
5. In the event, however, of Commissariato being unable to procure sufficient supplies locally, bids to make up the required quantities for normal maintenance, should be included in your weekly forage demand.

This Ministry is informed that there are 2000 Qls of barley and 900 Qls of oats held in stock at a Depot managed by the Consorzio Agrario, Rome.

The barley, was intended for baking bread for civilians, apparently had not been withdrawn by the mills which have plenty of it, while the oats would certainly be available.

Since the a/m articles of food could be advantageously used by this office for feeding animals, please examine the possibility of assigning both items, or at least only the oats, for use by the Italian Army.

The Bari Commissariat Directorate have reported that the supplies of straw, employed and contracted by the Military Administration have not been able, especially during the latter period, to meet requirements of the Italian Forces because, while awaiting to assign the straw it was requisitioned by Allied units. On other occasion some straw could not be transported to the various garrison depots because the railway trucks assigned by MMIA in the weekly transportation programme, were not available because otherwise employed by the Allies.

So as to avoid, if possible, further interference causing the Italian Military Administration to have insufficient stocks in depots, also having some time ago issued orders to use the quantities of straw required to meet requirements, this Directorate have made agreements with Lieut. La Direzione di Commissariato di Pari ha riferito che fornitori di paglie, impegnati con regolare contratto verso l'Amministrazione militare italiana, non sono stati in grado, spesso negli ultimi tempi, di far luogo alla consegna alle autorità italiane dei quantitativi stabiliti in quanto, in attesa di tale consegna, i quantitativi stessi sono stati richiesti da Reparti Alleati. Altre volte è avvenuto invece che di alcuni quantitativi di paglia non è stato possibile effettuare il trasporto ai vari magazzini presidiati italiani in quanto i vagoni a ciò destinati, finché il programma settimanale di trasporti, preventivamente approvato da codesta Sub-commissione, non sono stati disponibili, venivano diversamente utilizzati dagli Alleati.

Allo scopo di eliminare qualsiasi possibilità di successione interferente, per cui l'amministrazione italiana si vede costretta a tenere i magazzini non sufficientemente riforniti, pur avendo provveduto a tempo debito ad impegnare i quantitativi di paglia occorrenti ad assicurare il servizio, la predetta Direzione di Commissariato ha concluso accordi

La Direzione di Commissariato di Bari ha riferito che l'ordinamento di pagella, impegnati con regolare contratto verso l'amministrazione militare italiana, non sono stati in grado, anche negli ultimi tempi, di far luogo alla concessione alle autorità italiane per quantitativi pubblicati in quanto, in attesa di tale consegna, i quantitativi sono stati stati richiesti da Reparti Alleati. Altre volte è accaduto invece che ai alcuni quantitativi di pagella non è stato possibile effettuare il trasporto ex vera magazzino provvisori italiani in quanto i vapori a ciò destinati, anche il programma settimanale di trasporti, preventivamente approvato da cedere sottoscrizione, non sono stati disponibili, perché diversamente utilizzati dagli Alleati.

Alla scopo di eliminare possibilmente le succedute interferenze, per cui l'amministrazione italiana si vede costretta a tenere i magazzini non sufficientemente riforniti, pur avendo provveduto a tempo debito ad impegnare i quantitativi di pagella occorrenti ad assicurare il servizio, la prefetta pensa che si commissionato ha concluso accordi con il Tenente Richfield inglesi a rivedere la ripartizione delle zone delle quali possono attingere rispettivamente le Forze Armate Italiane e quelle Alleate con un migliore riguardo ai bisogni di queste ultime. Ma purtroppo, anche in seguito a tali accordi, non risulta che la situazione sia sostanzialmente mutata.

Però ciò determina un evidente grave inconveniente all'andamento del servizio. La prefetta prende cognoscenza della questione ed esaminerà il caso di intervenire nella questione, tenendo informato lo scrivente delle decisioni che verranno adottate.

SUBJECT: Remounts strength foreseen for the 1945-46 period.

Ref SS/113/16 of 11/5/45

In respect of the expectation of forage requirements for the July 45 to June 46 period we inform you that we have not the required data to give a precise answer.

We think that the strength of remounts will presumably be the present with an addition of 3000 horses and 5000 mules as requested by the Mippic Services Gen Directorate of this Ministry with letter 1014/IPA dated 16 inst.

In respect of the location, it is to be foreseen that some changes will take place following the movement of some Corps and Units in view of the liberation of Northern Italy.

It is to be noted moreover that a certain number of remounts will be recovered in the recently liberated parts of Italy, but we are unable to foresee the amount.

Ai fini della previsione del fabbisogno foraggi per il periodo luglio 45 - giugno 46 la scrivente non ha elementi per dare una risposta precisa.

Si ritiene che la forza quadrupedi corrisponderà presumibilmente a quella attuale, con l'aggiunta dei 3.000 cavalli e i 5.000 muli richiesti dall'Ispettorato Generale del Servizio Ippico e Veterinario di questo Ministero con foglio n.1014/ipp. in data 16 corrente mese.

Circa la dislocazione è da prevedere che qualche variazione si renderà necessaria nei confronti di quella attuale per effetto del trasferimento di alcuni Corpi in seguito alla liberazione dell'Italia del Nord.

E' inoltre da prevedere che un certo numero di quadrupedi sarà recuperato nelle regioni settentrionali recentemente liberate, ma al riguardo manca ogni elemento di valutazione.

Further to our 7523/8/4 of 8 April.

MIA Rome has lately ordered that the APC 1053 forms must be signed equally without getting corrections in red ink on them, when forage is received from Allied Depots by Italian depots, since there may be discrepancies between the amounts shown as sent and the amounts actually arrived. The following annotation will be appended on the forms in such cases:

"Except for discrepancy report attached", and the appropriate declaration will be attached to the form in accordance with the specimen sent by the Ministry (ref above).

However it will be necessary that this declaration is amplified:

- 1) if the railway wagon has arrived sealed by hand;
- 2) if the deficiency has been determined by the lack of a certain number of sacks or the weight of the sacks themselves.

For any deficiencies encountered in the future, the addressees are asked to let us know details in 1, and 2, not omitting to show the number of the APC 1053 to which each batch of forage refers.

FILO FERRO PER IMBALLAGGI Fieno e PAGLIA

Balio Vice P. Hey & Stea
La Vostra richiesta ci mette in serio imbarazzo poichè il quantitativo di filo ferro per imballaggio fieno e paglia esistente in Italia è stato importato totalmente dagli Alleati, dato che le trafilatorie nazionali non sono ancora in grado di funzionare: conseguentemente detto quantitativo è così esiguo in rapporto alle esigenze agricole che ci troviamo in gravi difficoltà per la ripartizione di tale prodotto tra le provincie dell'Italia fino ad oggi liberata.

Comunque comprendendo l'importanza della Vostra richiesta, proponiamo di cederne al Commissariato Militare di Bari Q.li 70. = lasciando il rimanente per gli usi agricoli di tale provincia.

Certi di trovarvi con noi d'accordo, rimaniamo in attesa di leggervi, onde dare le opportune disposizioni per la consegna.

SUBJECT:- Wire for Bales of Hay and Straw.

The Bari Commissariat Directorate is encountering difficulty in proceeding with the supply of forage to the Armed Forces, since the wire needed for binling the bales is not available in the amounts required.

The Allied Authorities have informed this Ministry that they have nothing against the use of the 150 quintals of wire of 12/10 mm. diameter, which are at present at Bari Consorzio Provinciale.

We know that you understand the needs of the Military services, and we ask you to kindly issue that said material to Bari Commissariat Directorate, who will at once make arrangements for its withdrawal and for the payment.

(rif. teleg. n.1238/UGA del 12 corr.)

La direzione di Commissariato Militare di Bari incontra difficoltà nel procedere all'approvvigionamento dei foraggi per le FF.AA. in quanto non dispone dei necessari quantitativi di filo di ferro occorrenti per il confezionamento delle balle.

Le Autorità Alleate hanno fatto presente a questo Ministero di non avere nulla in contrario che per lo scopo anzidetto siano utilizzati i q.li 150 di filo di ferro del diametro 12/10 mm., esistenti presso il Consorzio Provinciale di Bari.

Confidando nello spirito di comprensione di codesta Federazione per le attuali esigenze dei servizi militari, si prega di compiacersi disporre la cessione di detto materiale alla Direzione di Commissariato di Bari, che provvederebbe direttamente al ritiro e al pagamento.

Si sarà grati di un cortese sollecito riscontro.

Info Bari Communiato (ref 1230/VCA of 12 April)

SUBJECT :-

Wire for Bales of Hay and Straw.

The Bari Communiato Directorate is encountering difficulty in proceeding with the supply of forage to the Armed Forces, since the ~~wire~~ wire needed for binding the bales is not available in the amounts required.

The Allied Authorities have informed this Ministry that they have nothing against the use of the 150 quintals of wire of 12/10 mm diameter, which are at present at Bari Consergio Provinciale.

We know that you understand the needs of the military services, and we ask you to kindly issue the said material to Bari

Commercial Directorate, who will at once make
arrangements for its withdrawal and for the payment.

We await your acknowledgement.

SUBJECT :-

Distribution of forage and the strength of mules and horses.

Further to our 6007/S/1 of 22nd March. We give assurance to MMIA that, in accordance with the various directives issued by the Ministry of War on various occasions to the Territorial organisations, we have never consented to the distribution of the forage ration to ~~not~~ privately owned mules or even mules being used by private farmers. Moreover the details ⁵²¹⁸ ~~given~~ of mule strengths given to MMIA must only include those under the Military Administration, which are being employed by the

KKN 27/3/87

Administration itself.

This Ministry has come to the conclusion that the request in your ST/13/16 of 4th March must have been due to possible irregularities pointed out by MMIA through its liaison officers and for this ^{reason} we have asked ^{for} confirmations from the Territorial Commands in our 5350/S/1 of the 10th of March.

Territorial H.Q., Palermo
Commissary H.Q., 1st Section.

Ref. No 1874/I

P.M. 72, 21 March, 1945.

Subject: Grain, forage.

To : M.M.I.A., L.O. Sicily.

As your office already knows, all Horses and Mules belonging to the Military Administration in Sicily are foraged as follows:

by this Commissary H.Q. for the Army Horses and Mules (about 70);

by the CC.RR. H.Q.s for CC.RR. Horses and Mules (about 350). This Commissary H.Q. also supplies hay and straw to the CC.RR. H.Q.s, on request, when needed.

As is also known, the Army Horses and Mules are fed grain (Barley, Carrubes, Oats, Ground beans, etc.) which has been supplied to this Commissary H.Q. by M.M.I.A., at about 14 Tons per week.

Following the suggestion and wish of the War Ministry to unify the supply of Grain for all the Horses and Mules of the Military Administration in Sicily, this Commissary H.Q. contacted the Palermo and Messina CC.RR. H.Q.s in order to obtain their views on the matter.

The said H.Q.s both pointed out the necessity of being supplied with Grain from the Commissary Depots, because of the continually increasing difficulties being encountered in buying the Grain from the local market (nearly the whole production is now destined to Human consumption) and also because of the high price, which is also continually on the increase.

This Commissary H.Q. therefore suggests the following, in order, to take care of and regulate the necessities mentioned above:

that the Grain needed for all the Horses and Mules of the Military Administration in Sicily (therefore including the CC.RR. Horses) be supplied from this Commissary;

that the Allies continue to supply the 14 Tons of Grain per week to the Catania Bulk Food and Forage Depot. With this periodical allotment of Grain (about 800 qrs per month), this Commissary H.Q. would be able to supply both Army and CC.RR. Horses and Mules.

We await to hear your ideas on the subject, so as to be able to send our War Ministry definite suggestions.

Sgd. Lo Vecchio, Col, O.C. Commissary.

Whenever your Sub-Commission advises us of the amounts of tinned or grains which AFHQ allots for the animals in the Italian Army, this Ministry does not fail to ~~write~~ properly notify the bodies charged with the withdrawal, specifying in each instance the weekly period to which the allotment refers.

It may, however, happen that amounts allotted for a certain period will arrive at destination either later or earlier with respect to the starting date of said period; it may even happen that due to rail traffic conditions, amounts for one week may be preceded - in their arrival at destination - by those for the following week; and since these amounts - because of railway loading requirements - do not coincide exactly with those indicated in the allotment letter, it follows that consignees who in the meantime have been notified of allotments for several periods, are finding it difficult to determine which allotment has been dispatched and which is still outstanding.

Copy to:- Direc. Gen. Cassinariato,
Italian War Ministry (Your 3215/1 dated 10 Feb refers)

With further reference to this HQ's ST/48 dated 13 Sept 44:-

1. 24 Tons of iron baling wire are now in possession of Italian Army. The War Ministry state that the diameter of the wire is too wide for handling and cannot be used by the forage presses.

2. Would it be possible to make the following exchanges:-

- (a) 20 Tons of wire at Naples: substitute 15 Tons
16 D.S.T. Birmingham wire (diameter 1.6mm)
(b) 4 Tons of wire at Bari: substitute 4 Tons 15
16 D.S.T. Birmingham wire (diameter 1.2mm)

3. It is regretted that the Italian Officer who inspected the samples did not take up the matter on inspection.

SUBJECT: Supplying of hay and straw for the Italian Armed Forces.

The very high prices on the current market make the supply of hay and straw ~~xxxxxxxxxxxxxxxxxxxx~~ for the needs of the Italian Army extremely difficult. On the other hand the attempt to proceed to requisition the product does no more than determine it's concealment, and therefore further raises it's price.

The results reached up to now for the supply in question give rise to justified apprehensions as the season for purchase is now well advanced, whereas the complete need for forage up to the next campaign 1945-1946 is only assured for a very small part.

Things being as they are, this Ministry has turned to the Ministry of Agriculture and Forests so as to obtain that sufficient amounts of hay and straw be frozen for the needs of the Italian Army.

We inform you of this in case you might wish to request the Agriculture Sub Commission to see to the freezing of the forage in question for the Italian Armed Forces.

Proposta di Fieno

OGGETTO : approvvigionamento di fieno e paglia per le FF.AA. Italiane.-

ST
21/1

Gli elevatissimi prezzi correnti sul mercato rendono oltre- modo difficile la provvista del fieno e della paglia occorrente per il fabbisogno dell'Esercito Italiano. D'altro canto il tentativo di procedere alla requisizione del prodotto non fa altro che determinare il suo occultamento e quindi un maggiore aumento del prezzo.-

I risultati sinora raggiunti per l'approvvigionamento in parola fanno edito a giustificate apprensioni essendo la stagione degli acquisti ormai notevolmente inoltrata, mentre il fabbisogno complessivo di foraggi fino alla prossima campagna 1945-46 è assicurato soltanto in minima parte.-

Giò stante questo Ministero si è rivolto a quello dell'Agricoltura e Foreste allo scopo di ottenere che congrui quantitativi di fieno e paglia siano vincolati per i bisogni dell'Esercito Italiano.-

Quanto sopra si porta a conoscenza di codesta Sottocommissione per il caso che essa ritenga di interessare la Sottocommissione dell'Agricoltura a voler disporre il blocco dei foraggi in questione a favore delle FF.AA.-
