SUBJECT: Advanced training for Subistence recruits.

From reports received from various territorial units regarding the subsistence recruits sent to the Advanced Training Centre of Milan, it resulted that the degree of technical training acquired by them at the a/m Centre has been generally, sufficient.

Undoubtedly, better results could have been obtained from that course if various difficulties would have not hindered the carrying out of same.

In fact, it was the adoption of a new system for which neither the instructors were sufficiently prepared nor could we obtain immediately all the necessary teaching material.

To this, we add that the premises which could be allotted to that Centre, were not the best ones and repair works had to be carried out while the course was in progress.

The procedure of sending to a single unit the subsistence recruits for their technical training, instead of sending them directly to the subsistence coys (ex supply units) is, under all aspects, the solution to be preferred. And this, because:-

1. The subsistence coys have not sufficient staff to detail personnel for training the recruits.
2. The subsistence coys have many duties to carry out and, notwithstanding any superiors intervention, the recruits would have been taken off their training and employed in urgent service.
3. The accommodation of subsistence coys is generally just enough for a limited number of men and hence it would not permit the easy carrying out of regular courses.
4. It is much easier and more practical to have in one single unit, all the teaching material required for this particular training.
5. By having one unit for the training of the recruits we can obtain better results because of the standard system adopted.

SUBJECT: Advanced Training of Recruits for
Subsistance Duties.TO : Ministry of War

1. Reference your 2592/IC/RIS of 20 September and your 5998/R/4 of 19 September.

2. This Mission is in agreement with the views expressed in the above letters, namely:-

- (a) that advanced training of Subsistance Personnel is better carried out at a Central School than within Subsistance Companies.
- (b) that the existing Central School at Milan needs a thorough reorganisation.
- (c) that pending this reorganisation it will be necessary, temporarily to train the next intake with certain selected Subsistance Companies as an emergency measure.

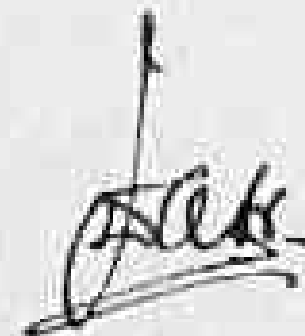

3. It is considered that a complete overhaul and reorganisation of the Central School for Subsistance Duties is a very urgent need, that it should be proceeded with as quickly, yet as thoroughly, as possible, with a view to its reopening with a qualified staff and proper syllabus either at Milan or elsewhere, if found more suitable, at the earliest possible date.

4. Technical Officers of this Mission will be pleased to give you any advice or assistance in regard to the reorganisation of this school or with regard to any other training matters connected with Subsistance Personnel.

5. Will you please, therefore, notify me of your intentions in regard to this form of training and keep me informed of progress in reorganisation of the school.

SUBJECT: - Training Centre for Subsistence Recruits:

Further to previous information already supplied by Lt.Col; PISICARO I inform you that Lt.Col. ARDIZIONI Giuseppe, this General Directorate, came back from Milan where he inspected the a/m Training Centre.

The works that I ordered to be done are being carried out by the Military Engineers.

The a/m officer has hastened the completion of the outstanding works and the Milan Commissariat Directorate is due to complete the organisation for as far as it is concerned.

I will look after the progress of this organisation because I wish that the Recruits Training Centre be put on the same level with other CARS.

SUBJECT: - Advanced training for subsistence personnel (Recruits).

The S.M.R.E. - Training and Operational Office - has ordered that, after the recruits have finished the preliminary training course, the advanced training course (technical-professional) take place at establishments of Milan III Territorial Command, by care of Milan Commissariat Directorate.

The duration of the course will be 8 weeks, commencing at the beginning of May 46.

49/596 men will be trained every 4 months and 4 of them will be sent by CAR to the Drivers' School to be trained as motorcyclists.

According to the above it is ordered:-

1. The Milan Commissariat Directorate will take care of the following:-
 - a) Appointment of a Senior Commissariat Officer as director of the training course.
 - b) Compilation of a detailed programme of instructions, copy of which will be sent to this Ministry for approval.
 - c) Arrangement of necessary billets on the date stated.

2. The Commissariat Directorates in address will send, by the 1st May 46, one Officer and three NCOs (Subsistence Personnel) particularly fit to be troop's commanders for the enrolling and instruction of recruits. Regular Army officers are required chosen among those who for their professional ability give full assurance of accomplishing their task satisfactorily. At the end of the course the director of the course will compile an informative report on their activity which will be taken into account by their hierarchic superiors in compiling the normal personal report.

3. The subsistence recruits will depend administratively from 3rd Supply Unit in Milan and will be enrolled in one company with 11 platoons of 3 squads each. O.C. the Company will be Capt. PECORARO Corradino, who will be appointed by Rome Commissariat Directorate.

Platoons and squads commanders will be the officers and NCOs respectively, appointed by Commissariat Directorates in address.

1. No precise programme or syllabi are yet available from the Italian authorities, despite the fact that frequent contacts have been made on the subject. So far as the Junior Officers' Course is concerned this will cover all the aspects of MT Training to be given to the recruits details of which are already in your possession. The scope of this training will however naturally be more detailed.
2. In addition it will include instruction on the following:
 - (1) Organisation and Roles of MT Companies.
 - (ii) Duties of Platoon Officers.
 - (iii) MT Convoy Control.
 - (iv) Troop carrying.
 - (v) Camouflage.
3. So far as Cadet Officers and Potential NCOs Training is concerned, the School authorities still lack exact information as to the standard which these pupils will already have attained but they are preparing syllabi and programmes to cover anticipated requirements.
4. The necessity for completing precise syllabi and programmes with the minimum of delay is being impressed on the Italian authorities and it is hoped that these syllabi etc., will be completed in the course of a week or so.

1. It is understood that the Ministry of War has submitted a proposal for the training of supply personnel to be carried out under the Comissariat BOMS in their Supply Installations.

2. This branch disagrees with this proposal for the reasons stated below.

(a) Training of personnel in Bulk Depot work is impossible as no Bulk Depot exists in Ross Territorial Command and the Distribution Depot does not hold large stocks.

(b) There is no suitable central Military Bakery where recruits can be trained.

(c) The only possible place where practical training may be carried out is the Distribution Depot but this is not recommended for the following reasons.

(1) Personnel trained in the Distribution Depot will have no knowledge of handling bulk supplies, documentation of same, warranty expiry technicalities, recovery of damaged commodities, despatch of rail or road trucks.

(2) The depot is sited in antiquated buildings, badly laid out, does not lend itself to modern supply methods, hence would give wrong impression to recruits.

3. The proposal of this branch is that training be done in the MILAN Territorial Command. This is proposed for the following reasons.

(a) There is a Bulk Depot situated in MILAN approx 2 miles from the Distribution Depot. This Depot is rail and road served and well laid out in a modern warehouse.

(b) The Distribution Depot and Bakery are situated in the same building.

(c) The Distribution Depot is well laid out, clean and conforms to a high technical standard.

- 2 -

- (d) The Bakery has adequate facilities for training and machinery for recovery of damaged or suspected flour.
- (e) It is understood that a location has been found for a Forage Depot in MILAN, hence enabling instruction on this subject.

4. Courses for officers engaged in supply work are at present being held in the MESTRE Bulk Depot and are found to be of great value.

5. The R&S officer with 3 RH is located near to all depots and in view of the fact that he is only responsible for the MILAN Territorial Command & T work he would be available to supervise all the courses on the spot.

SUBJECT:- Training of Commissariat personnel.

1. We are of the opinion that the commissariat, subsistence and administration officers drawn from civilians graduated in economic and commercial sciences (commissariat officers) or provided with diploma of accountant (administration and subsistence officers) be trained at an appropriate school to be founded in Rome for the perfecting of commissariat services.

We will give further communications on the W/E of the school and on the number of students.

Each course should last one year and have the following tasks:

- Commissariat Officers: military education, knowledge of services and of relative administration.
- Subsistence Officers: military education, knowledge of commissariat services and of military administration and accounting.
- Administration Officers: military education, knowledge of W/E, of administration and of military accounting.

2. The subsistence NCOs should be recruited by the same rules as for other arms, corps and services: primary training course for a solid military preparation; further specialisation course, directed especially to a good knowledge of current rules for depot accounting. The primary training will have to be carried out at the same unit in charge of a training of NCOs of the infantry corp; advanced training, of specialisation, will be carried out either at school for perfecting of Commissariat Officers or at a Commissariat Directorate.

3. As regards the training of subsistence personnel (ORs) we are of the opinion of carrying it out as follows.

- Primary training: at Recruits Training Centres, as it will be effected for the whole personnel of various arms, corps and services;
- Advanced training: subsistence and bakers of static bakeries, at Rome Commissariat Directorate.

In relation to the number of military personnel due to attend this training course we will examine the convenience of decentralising it at various Commissariat Directorates.

As regards personnel of mobile bakeries or refrigerator units, at one establishment for each trade.

Riserva di comunicazioni per quanto concerne organici della Scuola e numero degli allievi.

Ciascun corso dovrebbe avere la durata di un anno e prefiggersi i seguenti scopi:

- ufficiali di commissariato: educazione militare, conoscenza dei servizi e della relativa amministrazione;
- ufficiali di sussistenza: educazione militare, conoscenza del servizio di commissariato e dell'amministrazione e contabilità militare;
- ufficiali di amministrazione: educazione militare, conoscenza dell'organica, dell'amministrazione e della contabilità militare.

- ufficiali di amministrazione: educazione militare, conoscenza dell'organica, dell'amministrazione e della contabilità militare.

2.- I sottufficiali di sussistenza dovrebbero essere reclutati con gli stessi criteri seguiti per le altre armi, corpi e servizi: corso di addestramento primario per una solida preparazione militare; successivo corso di specializzazione, diretto soprattutto alla profonda conoscenza delle norme pratiche di contabilità dei magazzini e depositi. L'addestramento primario dovrebbe effettuarsi presso lo stesso ente incaricato della formazione dei sottufficiali dell'arma di fanteria; l'addestramento avanzato, di specializzazione, potrebbe essere compiuto o presso la stessa scuola di perfezionamento prevista per gli ufficiali di commissariato oppure presso una Direzione di Commissariato.

./.

3.- Per l'addestramento della truppa di sussistenza questo G.M. è del parere che convenga effettuarlo come segue:

- addestramento primario: presso i centri di addestramento reclute, analogamente a quanto si attuerà per tutto il personale delle varie armi, corpi e servizi;
- addestramento avanzato: sussistenza e panettieri dei forni fissi, presso la direzione di commissariato di Roma. In relazione al numero dei militari che dovranno ricevere tale addestramento potrà anche esaminarsi la convenienza di decentrarlo presso più direzioni di commissariato. Per gli addetti alle panetterie mobili o ai frigoriferi presso un unico stabilimento per ciascuna specialità.

4.- La durata dei periodi di addestramento avanzato potrebbe essere la seguente:

- personale generico di sussistenza (addetto a magazzini principali di distribuzione viveri, magazzini presidiari, alle compagnie di sussistenza, ai distaccamenti portuali e ai magazzini vestiario): 4 settimane.
- panettieri dei forni fissi: 8 settimane.
- panettieri delle panetterie mobili: 8 settimane.
- addetti ai frigoriferi: 4 settimane.

I corsi per panettieri potrebbero essere ridotti della metà per il personale che esercita tale mestiere nella vita civile.

Ministry of War

1 I have been informed by the G1 Training this Bn that you have submitted a proposal for the formation of a "Commissariato School of Application" to be established in ROE and also a Commissariato MOOs School.

Could you please let me have particulars concerning these two schools, i.e., staff required to administer and run the schools, scope of instruction to be undertaken, number of students to be catered for and number of courses (and length of courses) it is proposed to run each year.

Will the School of Application be for officers only?

2 Will you please let me have your comments on the following suggestions for the training of supply personnel.

(a)	Supply personnel for Bulk Food Depots	60	all ranks	S.M.
"	" " Distribution Depots	672	"	"
"	" " Supply Coys	240	"	"
"	" " Port detachments	85	"	"
	Total	1057		

should be trained at specified Bulk Food Depots and Distribution Depots after their initial military training when called up for Army service.

In view of the fact that the soldier will only serve for one year it means that a very large number will have to be trained and a figure of 75% requiring training annually is estimated with a further 5% for sickness, absence etc also required. On these assumptions it will be seen that courses for 2(a) above would be $1057 \times 80\% = 845$ to be trained annually.

Do you consider that a course of 4 weeks by attachment to one of the depots would be sufficient? If so, it would mean 12 courses of approximately 70 students each year, and to make the size of the course smaller it is suggested that these courses be held at four (or more) depots, for instance 17 students could be attached to say WESTON Bulk Food Depot, 17 to KILIAN Bulk Food Depot, 17 to MILLAR Distribution Depot and 17 to ANCHER Distribution Depot. Each course could complete 2 weeks instruction at a Bulk Food Depot and 2 weeks at a Distribution Depot.

The figures quoted above are maximum possible requirements because consideration has not been given to the fact that there will be certain personnel such as unit barbers etc who will not

Copy sent to
12 1310

- 2 -

require supply technical instruction.

- (b) Training for Military Bakery and increment to Military Bakery Units total 102 war establishment and based on assumptions made in para 2 (a) it would be necessary to train 81 all ranks annually. I suggest that this could be done by attachment to three Military Bakeries, say at MILAN, ROME and NAPLES. This would entail 6 courses of 8 weeks per annum, each course consisting of 5 persons.

In the event of civilian bakers coming into the army, you will probably consider that a refresher course of two weeks or less would be quite sufficient.

- (c) Mobile Field Bakery personnel total 198 all ranks and based on above assumptions it would be necessary to train 158 annually. A suggested course of 8 weeks mean 18 courses of 9 students each. Six courses could be run at the same time i.e., at each of the existing Mobile Field Bakeries.
- (d) Refrigerator Unit personnel total 24 and a course of 4 weeks for approximately 5 students could be run at a Refrigerator Plant, say at CASARATA.
5. Can you please let me have your Comments on the above suggestions as early as possible.

Military Territorial Office SARDINIA.SUBJECT:- Training course for Commissariat and Subsistence officers.

The Allied Authorities have pointed out that not all the officers i/c of Food Depots know the procedure to follow in issuing Allied provided items and in accounting.

As to give the officers i/c of rationing service the possibility of completing their technical preparation in relation to administrative organization stated by the Allies, this Ministry have come to the decision, in agreement with MMIA, of re-establishing on the basis of attached programme the training courses at the Bulk Food Depot of MESTRE.

Said courses will last 14 days, starting the 1st and 15th of each month, w.e.f. 15 Nov 1945.

Each Commissariat Directorate will designate to attend each course a Commissariat or Subsistence officer, whose rank is not higher than captain, from officers in service at the Commissariat Directorate or at the Detached Sections.

Autonomous Commissariat Section of CAGLIARI, owing to difficulties in transportation and to limited personnel at its disposal, will send an officer every two courses, i.e. to the course starting on the 16th of each month.

In appointing the officers to attend such courses it will be opportune to give the precedence to those who are in service at Military Food Depots and who have not attended said courses. Moreover officers who will be discharged shortly should not be appointed to attend such courses.

MESTRE Commissariat Section will see to the developing of courses and is asked to send to this Ministry, at the end of each course, a detailed report and the list of officers attending the course.

A/m Section will take necessary steps with local Garrison Command to arrange lodging and eating at a military mess for officers attending the courses.

The Commissariat Directorates and the Autonomous Section of CAGLIARI will see that respective officers, appointed to attend the courses, report to MESTRE Commissariat Section the day before each course will start.

Le Autorità Alleate hanno rilevato che non tutti gli ufficiali addetti ai Depositi e ai Magazzini Viveri sono a conoscenza della procedura da seguire nella consegna di derrate di provenienza alleata e della contabilità relativa.

Nell'intento quindi di dare agli ufficiali preposti al servizio di vettovagliamento la possibilità di completare la loro preparazione tecnica in rapporto alla organizzazione amministrativa voluta dagli alleati, questo Ministero è venuto nella determinazione, di concerto con la M.I.I.A., di ripristinare i corsi orientativi, sulla base del l'unito programma, presso il Deposito Speciale Viveri di Mestre.

Detti corsi avranno la durata di 14 giorni con decorrenza dal 1° e dal 15 di ogni mese e si inizieranno il 15 novembre prossimo. Ogni Direzione di Commissariato designerà a partecipare a ciascun corso un ufficiale commissario o di sussistenza, di grado non superiore a capitano, da farsi tra gli ufficiali in servizio in sede o alle Sessioni Staccate. Invece la Sezione Autonoma di Commissariato di Cagliari, in considerazione delle difficoltà dei trasporti e del numero limitato di personale a sua disposizione, invierà un ufficiale ogni due corsi e cioè il solo turno che ha inizio il 1° di ogni mese.

Nella designazione degli ufficiali da inviare a detti corsi opportuno dare la precedenza a quelli che prestano servizio presso i Depositi e Magazzini Viveri Militari e che non abbiano già frequentato i corsi stessi; inoltre non dovranno essere comandati a parte.

La Land Forces Sub Commission A.C. (M.M.I.A.) ha disposto che,
ultimati a suo tempo i noti corsi di addestramento per ufficiali com-
missari e di sussistenza, si provveda a designare complessivamente n°12
ufficiali, giovani, attivi e capaci, da aggregare ai Depositi Speciali
Viveri, allo scopo di perfezionarne la preparazione professionale nel
campo del vettovagliamento, con particolare riguardo al funzionamento
dei Depositi Speciali Viveri e dei Magazzini Distribuzione Viveri.

Gli ufficiali di che trattasi verranno preferibilmente scelti
tra coloro che abbiano frequentato i corsi di addestramento e che cono-
scano e parlino la lingua inglese: saranno considerati extra organico
e faranno carico all'aliquota di ufficiali prevista per il Ministero
Guerra - D.G.S.C. e A.

La designazione dovrà avvenire come segue:

1. In reply to your letter 14592/S/1 dated 14 Aug it is agreed that the courses which have been running at BARI should be discontinued. In their place it is suggested that 12 keen young and capable officers should be attached to each of the sections of Commissariat which are most actively employed i.e. at BARI, NAPLES, GENOA, MESTRE, ANCONA, TRIESTE. Instructions should be sent to the respective HQs stating that these officers should be given experience in Distribution and Bulk Depots and in all subjects dealt with by the Commissariats. English speaking officers would be preferable.
2. By the above means it should be possible at the end of say three months to weed out a corresponding number of inefficient officers or those who are not considered suitable for this type of work thus increasing the efficiency of the supply services as a whole.
3. Officers may be found from disbanded units mentioned in paras 1 and 2 of this HQ letter A 1251 dated 21 Aug 45.

Subject Training course for Commissariat and Subsistence officers
at Bari Food Bulk Depot.

Up to date the Commissariat Directorates of the Territorial Hqs have been able to ensure the functioning of their Service using officers of the Groups formed for the North to carry out tests, inspections, enquiries, shipments etc. Therefore the absence of officers attending the training Course at Bari did not slow down work in the various offices and factories under command. But, now that the Commissariat units for Northern Italy have been formed and the officers ~~assigned~~ assigned to the North must reach them, the normal requirements of the Service can be barely met by the Commissariat Directorates owing to their W/E. Bearing in mind the a/n circumstances and the fact that a considerable number of officers has attended the training courses with good results from December 1944 up to date (thus reaching the aims for which the courses had been opened), this Ministry proposes to close said courses. Anyhow we would like to know the opinion of MMIA before taking a decision concerning this matter.

Corso orientativo per Ufficiali Commissari e di Sussistenza presso il Deposito Speciale Vivieri di Bari.

OGGETTO

Finora le Direzioni di Commissariato Militare Territoriale hanno potuto assicurare il funzionamento del complesso servizio avvalendosi per l'effettuazione di collaudi, ispezioni, accertamenti, spedizioni ecc. degli ufficiali a disposizione delle stesse per i nuclei nord per cui l'invio degli ufficiali al corso orientativo di Bari non importava eccessivo pregiudizio nello svolgimento del lavoro dei vari uffici e stabilimenti dipendenti.

Ma, poichè in seguito alla costituzione degli organi di Commissariato nell'Alta Italia, gli ufficiali destinati al nord raggiungono le rispettive sedi, ne risulta che con l'organico di cui dispongono le varie Direzioni di Commissariato possono essere appena soddisfatte le normali esigenze del servizio.

Tenuto conto di quanto sopra detto e della circostanza che dal dicembre 1944 ad oggi un buon numero di ufficiali ha partecipato con profitto ai corsi orientativi, sicchè possono dirsi raggiunti gli scopi per cui i corsi stessi furono istituiti, questo Ministero sarebbe dell'avviso di sopprimere tali corsi.

Prima tuttavia di emanare un provvedimento in tal senso, si gradirà conoscere il pensiero di codesta Missione.

SUBJECT:-- Report on 1st and 2nd orientation courses for Officers of the Commissariato and Sussistenza at the IX bis Bulk Depot at Taranto.

1st part omitted

Both courses took place at IX bis Bulk Depot at Taranto for 9 days and for the remainder of the time at the Distribution Depot at Taranto.

The course has been started in order to give the officers participating direct knowledge of the operation of the Commissariato and its ordinary daily routine - executive, technical and administrative - with particular attention to the accounting system as laid down by the Allies.

Particular emphasis is laid on the following points:

- arrival of stocks in general.
- arrival of stocks from Allied sources by sea; functions of a Port Detachment; documents relative to the storage of the stocks on arrival; report working; acceptance notes; etc.
- arrival of stocks from Allied Sources by land; organisation of and supplies received from CRASC and ESDs; acceptance notes.
- arrival of rations from Italian Bulk and Distribution depots; movement orders; issue notes.
- brief notes on supplying the Navy and Airforce; MATA form ST/8 (mod K).
- issues to Allied DIDs; procedure; compiling of tally-out and shipping tickets etc.
- accounting rules for the reception of rations furnished by the Allies or proceeding from Allied Bulk Depots; registration of receipts; stock-taking; registration of rations issued; registration ~~information~~ of shipments.
- MATA ST/12 (mod P) and their compilation.
- had food: compilation of reports, rectification notes.

- had food: compilation of reports, rectification notes.

At the end of each course officers have compiled, on their own initiative and in collaboration amongst themselves synopsis essays on the lines above.

arm in collaboration amongst themselves, synopses were compiled by 2nd Lieut. Meucci on the 30th and the course 3 - 17 April has been compiled by 2nd Lieut. Meucci.

The one for the course 3 = 17 April has been completed by [redacted] From the one for the course 17 = 30 April by Lieut. Gelli Piccardo.

- arrival of stocks from Allied sources by sea; functions of a Port Detachment; documents relative to the storage of the stocks on arrival; port working; acceptance notes; etc.
- arrival of stocks from Allied Sources by land; organisation of and supplies received from CRASC and BDDs; acceptance notes.

- bed food; compilation of reports, rectification notes.

At the end of each course officers have compiled, on their own initiative and in collaboration amongst themselves, synopsis essays on the lines above. The one for the course 3 - 17 April has been compiled by 2nd Lieut. Meucci and the one for the course 17 - 30 April by Lieut. Gelli Riccardo. From these synopses and through direct information we know that the officers participating have sufficiently benefitted from the course, in consideration of its shortness and the complexity of the arguments and the profundity of the theoretical and above all of the practical part.

 C I S I S

Entrambi i turni si sono svolti per 9 giorni presso il IX bis Deposito Centrale Viveri di Taranto e, per i rimanenti, presso il Magazzino Presidiario Viveri di Taranto, osservando l'orario dalle 9 alle 12 e dalle 14 alle 16.

Il corso è stato improntato al criterio di dare agli ufficiali partecipanti la diretta conoscenza del funzionamento dello stabilimento nelle sue diurne e naturali mansioni gestionali, tecniche, amministrative, con particolare riguardo alla organizzazione contabile disposte dagli Alleati. Particolarmente, la materia trattata si è orientata in sintesi, sui seguenti punti:

- arrivo di derrate in generale;
- arrivo di derrate da fonti alleate - per via mare -; funzioni del Distaccamento Portuale; documenti relativi all'immagazzinamento delle derrate giunte; distinta Portuale; Nota di accettazione; ecc.
- arrivo di derrate da fonti alleate - per via terra; funzionamento e rifornimento attraverso i URASC e TSD; note di accettazione;
- arrivo derrate da Depositi e Magazzini italiani; ordini di movimento; bollette di spedizione;
- brevi notizie sul rifornimento dei reparti della R. Marina e della R. Aeronautica; buoni di prelevamento Mod. K (MMA form SI/8);
- spedizioni ai vari Depositi e Magazzini;
- spedizioni a Magazzini Alleati; procedura; compilazione dei TAIL-OUT e dei SHIPPING-SHEET, ecc.;
- norme contabili per la ricezione delle derrate fornite dagli Alleati o provenienti da Depositi italiani; registro delle ricevute; conto derrate; registro razioni uscite; registro delle spedizioni;
- tabelle movimenti delle partite mod. P. (MMA) form SI/12) e loro.

o/o/o/

compilazione;

- derrate avariate; compilazione dei verbali relativi, uscite ed entrate di rettifica.

Al termine di ogni turno, gli ufficiali hanno, di loro iniziativa ed in collaborazione tra loro, compilati degli appunti in forma di sinossi, stesi, per il turno 3-17 aprile, dal S.Ten. MUSCOI, e, per il turno 17-30 aprile dal tenente GILDI Riccardo. Dai detti appunti ed attraverso la diretta conoscenza, lo scrivente ha tratta la sensazione che gli ufficiali partecipanti si sono resi abbastanza conto della materia trattata, pur considerando la brevità del corso e la complessità degli argomenti da conoscere, ed approfondire nella parte teorica e soprattutto pratica.-

SUBJECT:- Report on 1st and 2nd parts of the orientation
courses for Officers of the Commissariats and
Sussistenza at the IX bis Bulk Depot at
Taranto.

1st part omitted.

Both parts of the courses took place
at IX bis Bulk Depot at Taranto for
9 days and for the ^{remainder of the time} ~~taken place~~ at
the Distribution Depot at Taranto.
The course has been started in order to
give the Officers participating direct knowledge

of the working operation of the Commissariato and its ordinary daily routine - executive, technical and administrative - with particular attention to the accounting system as laid down by the Allies. Particular emphasis is laid on the

following points:

- arrival of stocks in general.
- arrival of stocks from Allied sources ^{on} by sea; functions of a Port Detachment; documents relative ^{to} the storage of the stocks on arrival ^{at} port ~~or~~ ^{and} ~~or~~ ^{and} working; acceptance notes; etc.
- arrival of stocks from Allied sources by land; organisation of and supplies received from CRASCs and BSDs; acceptance notes.
- arrival of rations from Italian Bulk and Distribution depots; movement orders; issue notes.
- brief notes on supplying the Navy and Airforce; MMIA form ST/8 (Mod K)

- issues to Allied DIDs; procedure; compiling of Tally-out and shipping tickets etc;
- accounting rules for the reception of rations furnished by the Allies or proceeding from Allied Bulk Depots; registration of receipts; Stock-taking; registration of rations issued; registration of shipments.
- MMHA ST 12 (mod P) and their compilation.
- bad food; compilation of reports, rectification notes.

The AT, ^{the} end of each course officers have compiled, on their own initiative and in collaboration amongst themselves, synopsis essays ^{on} the ~~above~~ ^{lines} ~~points~~ above. The one for the course 3-17 April has been compiled by 2nd Lieut Meucci and the one for the course 17-30 April by Lieut Gelli Pizzardo. From these synopses and through direct information we know that the officers

participants, have sufficiently benefitted from
the course, in consideration of its shortness
and the complexity of the arguments and
the profundity of the theoretical and above
all of the practical part.

Stante la deficienza di personale e il lungo periodo di assenza degli ufficiali partecipanti ai corsi orientativi che si svolgono a Taranto, la Sezione Autonoma di Commissariato della Sardegna ha chiesto di essere dispensata dall'inviare un proprio ufficiale nei corsi successivi.

Questo Ministero concorda col punto di vista della predetta Sezione.

Prima tuttavia di decidere in tal senso si gradirà conoscere il pensiero di codesta Missione al riguardo.

1. The a/m officer and W.Os. of the Italian Army have been attached to this unit for 14 days training from the 3 Regg. Misto, Divisione "Picerio". A.D.S.T. M.M.I.A., has requested a report on the training given, for onward transmission.

2. S. Tenente LOMBARDI Mario.

This Officer has completed the course outlined in the programme forwarded under this office letter dated 14th March 45. He has shown great interest and enthusiasm, and has obtained a good insight into the operation of a British D.I.D. He has also visited other RASC installations in Rome Area (Petrol Transport, Bakery and Butchery) in addition to your Directorate. It is considered that he would become, in due course, a very good supply officer.

Serg. Magg. STANCO Aristodemo.

This N.C.O. completed a large portion of the course outlined, including visits to installations, and showed considerable interest throughout the course. With experience, he would become capable of carrying out any C.R. appointment in a supply Depot.

Serg. Magg. LE CHIARA Nicola

Serg. Magg. LO TUFO Giovanni

Serg. Magg. SALVADORI Antonio

These W.C.Os. did not complete the full course, it being found

the operation of a Division D.I.D. and has been in installations in Rome Area (Petrol Transport, Bakery and Butchery) in addition to your Directorate. It is considered that he would become, in due course, a very good supply officer.

Serg. Maggiore STANCO Aristodemo.

This N.C.O. completed a large portion of the course outlined, including visits to installations, and showed considerable interest throughout the course. With experience, he would become capable of carrying out any C.R. appointment in a supply Depot.

These N.C.Os. did not complete the full course, it being found that they could not suitably absorb training beyond that of stores work. They were shown the method of operation of the clerical and accounting sections of the D.I.D., but it is considered that their standard of work would not rise above that of N.C.O. storeman.

3. Throughout the period, S.Ten. Lombardo has kept in touch with the four N.C.O.s, and has supervised their progress.
4. The officer and N.C.Os. were despatched to their respective units this morning.
5. A further copy of the training programme is appended, for favour of onward transmission to A.D.S.T., M.M.I.A., at his request.

Further to my TPD/6 of 5 Feb 45, and your ST/115 dated 29 Jan 45, both on the above subject.

1. The following suggestions for the proposed courses are forwarded, as requested.

- (a) Duration: 9 days at Bulk Depot, MONTECATINI, under Capt. GRIECO.
5 days at Distribution Depot, TAMBURI, under Lt. MICELLI.

It is considered advisable that each course of 14 days should be made to coincide with the following periods:

1 - 14 and 16 - 30 of each month.

so that officers attending can take part in the fortnightly closure of books and drawing up of Stock States and Movement Cards.

(b) Programme should include instruction in the following :-

- 1.) Accounting Procedure
- 2.) Movement of Stocks
- 3.) Maintenance of Stocks *turnover of stocks*
- 4.) Disposition of Depot, Stocking, etc.
- 5.) Loading and off loading of Railway Wagons.
- 6.) Security and Guard arrangements, Fire Precautions.
- 7.) Coffee Toasting and Roasting. (Plant will shortly be working)
- 8.) Distribution of Rations from D.D.

1. It is considered that it would be beneficial for officers commanding Italian Army Supply Depots (and also potential Depots commanders) to be attached to TARANTO Bulk Depot for a short period, in order to accustom themselves with all sides of running a depot. They could also do a short attachment with the Distribution Depot, which appears to be running very well under Lt. NICELE.
2. Please contact the D.C.'s Depots concerned, and ask them to prepare a rough outline training programme. It is suggested that officers stay 3 days at MONTECATINI and 5 at the DD.
3. You are requested to submit such programme to this office, together with any suggestions by Capt. GRIECO, Lt. NICELE or yourself.
4. Will you please ascertain how many officers can be accommodated at MONTECATINI, at one time.

1. In view of the Courses for Supply Officers proposed by our HQ MMIA in their letter: ST/115 dated 28 Jan 45, it is considered desirable that the work at MONTICATINI Bulk Depot should attain the highest Standard.

2. In this connection, I am sorry to state that Ten. COLUCCIA Donato, at present with the Distaccamento Portofale, does not appear to be interested in his work, and is continually making errors, which have to be rectified.

3. It would be appreciated if Ten. LONGO, who was previously at the BULK Depot, and who is understood to be working at BARI, could replace this officer, and thus ensure more satisfactory instruction for those attending the proposed courses, as well as relieving Capt. GRIECO, OC. of a certain amount of unnecessary worry.
