Subject : Rome Military Bakery.

As already previously reported, the bakery service for the Rome Garrison continues to be carried out under somewhat difficult and precarious conditions due to the lack of an establishment for the entire requirements of the garrison and the consequent necessity to carry out baking:

- with a very small rented oven, which often requires repairs, situated in very unsatisfactory premises and on the whole are not suitable for a well organised bakery, specially as far as actual baking is concerned;
- by 4 civilian ovens which work at the same time for the civilian population, which must be therefore continually supervised and watched: these ovens being situated in a notable distance from each other it is not always possible to exercise an efficient watch which often gives rise to inconveniences.

Since it is our wish that all baking required for the Rome Garrison be done in a single bakery under the direct control of Military Admin., so as to have a complete guarantee of first class and well made bread, we approach your Mission to kindly let us know whether the military bakery in Via Re Boris di Bulgaria is to be shortly vacated.

If not, we ask you to examine the possibility of granting the Rome Commissariat Directorate the use of the 6 brickbuilt ovens which are situated in the above premises in the cellar, ground floor and first floor which it appears are not being used at present. Said ovens have a productive capacity of 20,000 loaves in the 24 hrs and would therefore be suitable and sufficient in order to concentrate the entire daily bread requirement for the Rome Garrison.

It is well understood that should these ovens and buildings be granted to the Rome Commissariat Directorate they would be conveniently isolated from these being used by Allied troops, in accordance with any orders given by your Mission.

Thanking you in anticipation.

SUBJECT : Military bakery at Rome.

With reference to what was pointed out to your Subcommittee in letter 14814/S/1 of 25 August 1946 in order to obtain the derequisitioning of the military bakery at Rome, R.A.A.C. - Real Estate Section - APO 784 U.S. Army - in letter G.P.5 of 17 September 46, informed us that they are willing to release the ground floor of the building in Via Re Boris di Bulgaria provided that it is possible to open an entrance direct from the street.

It appeared from an inspection carried out by a senior officer of the Commissariat Directorate of Rome, in agreement with Capt. Petrie Ritchie of 25 Field Bakery, that:

- the cellar with brick ovens would be handed back to the Italian Military Administration;
- to make use of said cellar; it would be necessary, that besides the necessary work of repair, that the Allied Authorities also hand back a part of the floor above where the service lift is situated, where the grain and bread store can be situated, the distribution point and office and the opening of an exit to the street can be made.

In order to make a definite decision regarding the matter, we beg you to inform us if 25 Field Bakery would be willing to release the floor above the ovens as mentioned above.

We await your kind reply.

MEIA has pointed out in letter ST/134 dated 13 May 46 (copy attached) various inconveniences noticed by Liaison Officers in respect of premises used as food depots, sleeping, dining and recreational quarters, and latrines and recommends that these inconveniences are eliminated at the earliest in order to guarantee the good conservation of food and to keep the troops' morale on a high level.

This Ministry have recommended several times that the hygienic-sanitary works must be given priority and that the funds at the disposal of Engineers HQs for the normal maintenance of premises must be essentially used to take care of hygiene in barracks.

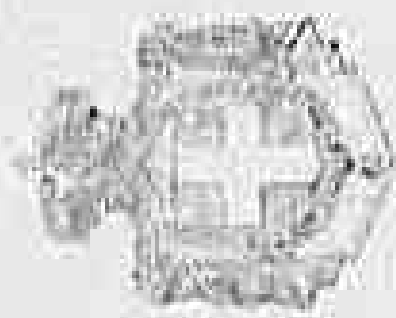

On recommending again the above we ask all the addressees to use with the maximum of urgency the a/m funds for the necessary works in order to avoid the inconveniences and we ask moreover to make prompt and definite proposals for the works which will not be possible to carry out using the a/m funds.

5°)- I gabinetti e le docce per la truppa lasciano a desiderare di frequente e non sempre ci si rende conto dell'utilità, ai fini sanitari, dei disinfettanti. Molti gabinetti risultano addirittura indocenti.

Questo Ministero non può fare a meno di rilevare come, nonostante tutte le raccomandazioni fatte anche in occasione di visite e di ispezioni, continuano ad essere segnalati deplorabili deficienze specie nei riguardi degli alloggiamenti della truppa; deficienze che debbono attribuirsi soprattutto a scarso interessamento degli ufficiali più direttamente responsabili.

Si pregano pertanto i Comandi in indirizzo di voler portare la loro particolare attenzione su quanto segnalato e, nel contempo, di voler intervenire affinché siano presi tutti i provvedimenti atti ad eliminare senza indugio gli inconvenienti di che trattasi.

In reports received from our Liaison Officers on inspection of Supply Units over the past three months the following points, though not applicable in all cases, would appear to be fairly general, and it is suggested that an immediate drive is made by you to effect improvements in the points outlined in an endeavour to increase the efficiency of Supply Depots in the Italian Army.

1. The necessity for adequate drainage does not appear to be fully realised, and supplies are frequently stored in direct contact with the floor to their obvious detriment.
2. It would appear from reports that Engineering work is outstanding at most of the depots visited. Since food is vital to the well being of the whole Army, priority should be given to any essential repairs in Supply Depots.
3. Fire precautions are generally inadequate.
4. Accommodation for the men including sleeping, dining, recreational quarters etc., are of very low standard, little interest apparently being taken in the welfare of the troops. It is of the greatest importance that morale is kept at a high level, and one of the first essentials to this end is comfortable accommodation.
5. Latrines and ablutions leave much to be desired and the health value of disinfectants is not fully appreciated. More attention should be paid to the cleanliness of latrines to avoid a filthy condition.

The NAPLES Commissariat Directorate has communicated that Maj. HART DYKE of MMIA during his recent visit to NAPLES has pointed out the opportunity of closing down the COSENZA and REGGIO CALABRIA Food Depots.

This General Directorate considering that the strength rationed by the a/m depots is very low and that the withdrawals could take place periodically from CATANZARO Food Depot by Garrison HQs concerned is of the opinion of closing down the depots.

La Direzione di Commissariato di Napoli ha fatto presente che il Maggiore HART DYKE di codesta Missione, nella sua recente visita a Napoli, ha prospettato l'opportunità di sopprimere i magazzini viveri di Cosenza e Reggio Calabria.

Questa Direzione Generale, in considerazione che la forza da detti magazzini vettovagliata risulta di numero molto limitato e che i prelevamenti potrebbero essere effettuati periodicamente sul magazzino viveri di Catanzaro a cura dei Comandi di Presidio interessati, sarebbe del parere di addivenire alla soppressione prospettata.

You are requested to reconsider the proposed formation of a Garrison Ration Depot at BRESCIA and a Sub-Depot at COMO. The distances between those two towns and MILAN are not excessive and it is considered that the special needs of the CAR's might be met by authorising a 15 day reserve of rations at those centres.

Q.002.

5 February, 1946.

To:- War Ministry.

1. It is understood that Engineer Services are now being restricted and must in future be limited to such repairs and alterations specifically approved by the War Ministry or by a Territorial Command within their financial powers.

It is appreciated that considerable expense is being incurred in the preparation of the barracks allocated as C.A.R's.

2. You are advised to stress the importance of giving priority to buildings utilised as food storage and distribution depots.

In the present circumstances it is essential that the food reserves of the Army shall be most carefully preserved, and it is desirable that all buildings used for distribution and preparation of food be maintained in the best possible condition.

3. You are requested to inform this H.Q. of any policy directive issued by you to Territorial Commands on this subject.

1. The Ministry of War have requested the derequisition of the premises at SCATELLO-PIEPIORS near POLIGNO which were formerly used for Canning Military Food supplies.
2. The Ministry of War are experiencing considerable difficulty in the provision of food supplies to the Interim Army. The release of the above premises would enable them to re-commence canning which would greatly alleviate the difficulty of maintenance of food and distribution to the Italian Army.

The following is passed to you for such action as deemed necessary.

As has been reported 2 Distribution Depot Genoa was badly damaged by rain on 29 October, the damage resulting deemed it necessary to obtain a temporary depot.

Attempts were made in conjunction with the Italian Military Authorities without success and on Tuesday 30th Oct Capt Cotton visited Garrison Commander (Maj Rse - 97 Field Regt RA) to discuss the loan of an empty Barrack Block in Sturla Barracks. The whole barracks being in possession of 97 Field Regt and Genoa Transit Camp. The barracks consisted of four blocks, ground floor of two being empty but was informed by Major Rse that they were earmarked for use of two batteries of the Regiment and they would be occupied as soon as repairs had been carried out. Major Rse pointed out alternative accommodation outside the barracks but on inspection it was found they were occupied by Italian Artillery and Engineers for storage and to remove same would take considerable time and in addition alternative accommodation would have to be found for the stores, further the accommodation was not suitable for storage of foodstuffs. Major Rse was informed that

Attempts were made in conjunction with the Italian Military Authorities without success and on Tuesday 30th Oct Capt Cotton visited Garrison Commander (Maj Rae - 97 Field Regt RA) to discuss the loan of an empty Barrack Block in Sturla Barracks. The whole barracks being in possession of 97 Field Regt and Genoa Transit Camp. The barracks consisted of four blocks, ground floor of two being empty but was informed by Major Rae that they were earmarked for use of two batteries of the Regiment and they would be occupied as soon as repairs had been carried out. Major Rae pointed out alternative accommodation outside the barracks but on inspection it was found they were occupied by Italian Artillery and Engineers for storage and to remove same would take considerable time and in addition alternative accommodation would have to be found for the stores, further the accommodation was not suitable for storage of foodstuffs. Major Rae was informed that MMH Rome would be advised that the only suitable accommodation was the empty barrack blocks in Sturla Barracks and ~~MMH~~ would be requested to refer the matter to Higher Authority. Major Rae stated he would fight to prevent the Italians using part of Sturla Barracks.

On receipt of MMH message Q 669 31 Oct on 1st Nov Capt Cotton visited Garrison Commander and in his absence saw the Adjutant who allotted one barrack block until 10th Nov when the new depot ^{will} be available; in order to ensure smooth running in the barracks it was arranged for Italian Military Police to work in conjunction with the Regimental Police of 97 Field Regt and for food to be prepared at a nearby Italian Unit and brought by containers to the Italian Depot Personnel; further this office stated that they would ensure that the premises when vacated would be handed over clean. It was then agreed that at 1030 hours 2 Nov the Italians would begin to move in Stocks, etc.

At 1615 hours 2 Nov Major Rae requested to see Capt Cotton and he was informed that the Italians would not be permitted to have a depot in the barracks and said that this office had gone over his head to 2 District.

Major Rae then spoke to the Town Major and a garage requisitioned by the British was placed at the disposal of the Italian Armed Forces. This has been inspected but is not entirely suitable but owing to the approaching date of issues Capt Cotton has instructed the Commissariato Genoa to make the best of this accommodation.

It is pointed out that it wasn't until 1015 hours 2 Nov whilst Stocks were in transit that this office was informed that it couldn't use Sturle Barracks as a depot despite agreement having been reached between the Adjutant and Capt Cotton the previous afternoon. Further, despite the offer of the Italian Military to co-operate and assist in the problem of administration and discipline the Garrison Commander (Major Rae) has made it clear from the start that he would fight all the way to prevent the Italians using the Sturle Barracks as long as he was in occupation.

Considerable difficulty in supplying the Food Distribution Centre in ANCONA is being experienced owing to lack of Italian Military Transport. It has been ruled that British Transport will not be used for carriage of Italian Military Supplies. As CC, ANCONA Depot cannot provide sufficient transport for this purpose, maintenance of that Depot is not being satisfactorily carried out, and there is considerable hold up in transfer of supplies.

To overcome this difficulty it is suggested that extra transport be attached to your ANCONA Depot.

With effect from the 21st October the 75th Distribution Depot will start operating from PIACENZA. Major GE will contact the Allied Liaison Officer for getting the premises ready at PIACENZA, 2) for seeing to the transfer of the remains of the stocks from ALESSANDRIA to PIACENZA.

Units now receiving rations from the Alessandria Distribution Depot will go to the nearest depots at TURIN, GENOA or MILAN, according to their locations.

TURIN Territorial Command is asked to contact the GENOA & MILAN Territorial Commands regarding units authorised to draw and their respective strengths.

MILAN Territorial Command is requested to compile a list of units on the 21st October that the 75th Distribution Depot has to supply from the new premises at PIACENZA, in accordance with orders given in the circular 12451/S/1 of the 27 June. *NTD*

The Alessandria Commissariato will inform units concerned of the transfer of the 75th Depot, so that rations may be drawn from the new premises.

Supply of rations to the 75th Depot will always be made from the 2nd Bulk Depot under the supervision of the Genoa Commissariato.

1. It is understood that neither HQ MMIA nor Italian Ministry of War have any objection to the transfer of the above depot from ORTONA to PESCARA.
2. In company with Ten. MACCIA (O.C. Depot) I have yesterday visited the proposed premises in PESCARA at Caserma Tito Acerbo, and these appear to be quite suitable for his needs.
3. He states that it will take him 3 or 4 days to move, and that he would require 2 or 3 x 3 - Ton vehicles to effect this. He has been instructed, therefore, to arrange with Lt. Robinson, O.i/c Tpt, PESCARA, for allocation of necessary vehicles, as soon as possible.

1. Authority required to move a/m DID from ORTONA to PESCARA for the following reasons:
 - (a) Accommodation in ORTONA not entirely suitable and more suitable accommodation is available in PESCARA.
 - (b) Petrol Point at ORTONA will close within the next fortnight and reopen in PESCARA.
 - (c) Area Commander has instructed that when possible all units in outlying districts should concentrate in PESCARA.

On the morning of 28th August 1945 I was informed by the Commissariato Genoa that a pilferage of 2190 lbs of tinned cheese had taken place from the Food Distribution Depot, Genoa.

I inspected the building at about 1100 hours 28th August and report as follows:

1. The place of entry was in the rear of the building and not under the "eye" of the Guard.
2. It was necessary to remove a wire guard prior to forcing the window and it is not understood how the Guard did not hear any disturbance whilst he was patrolling the yard about 30 yds away.
3. In order to remove the cases of cheese steps had to be made and for this purpose other cases of cheese were used; the height from the floor to the window ledge being approx 6 feet.
4. The Guard stated that they heard no undue noise during the night.

Entered on 11/1/45
they had it.

1. With reference to your proposal to close down the above named Depot, the following observations are forwarded for your consideration, together with a list of Units at present drawing ex BRINDISI.

2. Arguments against the suggestion may be summarized under the following:-

(a) increased distances for units to travel for collection of rations.

The majority of units are located in or south of LECCE, which means a journey of 3 times the present distance, to draw from TARANTO D.D.

A large number of units, including the 2 Guard Battalions, are located in BRINDISI area, itself, and would have to go 80 Kms to draw ex TARANTO D.D.

(b) the present premises at BRINDISI are admirably and centrally suited for distribution purposes, and are conveniently situated for drawing of supplies ex 28 B.S.D. 2008

There is also the Casermaggio Depot in the same building, which would still require personnel to run it, unless it was absorbed elsewhere, e.g. BARI.

(c) R. Marina, Brindisi, with an approx. strength of 4,300, draw from this depot; in the event of closure, they would have to draw ex BARI.

3. It is pointed out that, although on the attached list units are shown, e.g. LECCE, this means that they are located over a considerable area. Consequently, any system introduced whereby one vehicle is used to draw for a number of units, would involve considerable complications.

4. The advantages ~~occurring~~^{accruing} from closure of depot are well known to you, and can be summed up, as follows:-

- (a) concentration of foodstuffs, effecting a saving in distribution, and tighter control on issue of same.
- (b) release of Commissariat personnel for duty elsewhere.

SUBJECT:- Inspection of Commissariat Services in SICILY.

In accordance with my order, Lieut.Col. NISICARO Giuseppe, Vice-Director Chief Supply Branch, has inspected the following Commissariat Services in SICILY.

1. 11th Bulk Depot, CATANIA.

Distribution Depots suitable for storage, well-looked after and arranged. Stocks systemised and each hold marked with placards showing contents. It was discovered that the piles of flour sacks were very high, and therefore there was the possibility that the sacks at the bottom should rot. It was recommended that the piles should be halved and sent to other premises, which are at the moment under construction by the engineers.

The amount of sugar and coffee in the depot was checked and it was found that amount on paper corresponded exactly to the amount actually held.

2. Bakery at MESSINA Presidario.

The baking is done by a private firm. The bread is well leavened, soft and properly baked. The yield is 150%, as prescribed. Weight of each loaf - about 272-273 grams.

This is for your information.

SUBJECT: Closing of the Food and Forage Depot at CROTONE.

NOTE. This is a letter sent by H.Q. CALABRIA to W/M and passed by them to this Office for information.

Considering that the strength in rations in the CROTONE Area, after the 'MANTOVA' Combat Group leaves, which it is due to do in the next few days, will be reduced to about four hundred soldiers, I do not see the use of maintaining there the food Depot, and have ordered it, on 1 DEC. 44. to close, so as to bring the personnel once more into availability.

The forage Depot on the other hand will be dissolved as ~~the~~ soon as the destination of the horses now on the strength of 155 Artillery Regiment of the above Group has been decided upon.

OGGETTO: Soppressione magazzino viveri e foraggi di Crotone.

In considerazione che la forza da vettovagliare nel Presidio di Crotone, dopo la partenza del Gruppo Combattimento "Mantova" già programmata per i prossimi giorni, si ridurrà a circa quattrocento militari, non ravvisando la necessità di mantenere in luogo il magazzino viveri ed allo scopo di recuperare il personale ivi impiegato ne ho disposto la soppressione sotto la data del 1° dicembre p.v.

Il magazzino foraggi sarà invece abolito non appena verrà decisa la destinazione dei cavalli attualmente in forza al 155° Rgt. Artiglieria del Gruppo Combattimento suddetto.
