Subject : Stock S es -

A.D.S.T.

Thro' D.A.D.S. ←

Reference folio 32 in ST/6/1

- Part 1. ST/461 instructs that stocks be stacked separately with tally boards etc. Issues to Distribution Depots could be controlled by issuing balanced rations.
For stock figures, the figure in the Bulk Depot is as per tally board, the figure from the Distribution Depot is, balanced rations put in, less estimated issues to Br-ITI over the period.
The location of BR-ITI units is given in O.B. with strengths.
- Part 2. ST/449 lays down the policy for issues, viz. 1 Dec and balanced of stocks must be receipts of BR-ITI stocks from 20 Nov less issues 1 - 9 Dec. It would appear that BARI were prepared to calculate issues for 15 day period. If they could do it at (2) they could also do it at (1)
- Part 3. Stock statement as at any given date must be concerned only with the receipt of the specified item less issues of specified item.
- Part 4. BARI informed by phone on 2 Dec that Commissariato would not know anything as the time element does not permit W.M. taking action through own channels.
- Part 5. Not understood as ST/461 says nothing about restricting issues. It would appear that ITI-ITI stocks have been feeding BR-ITI since 1 Dec.
- Part 6. Not when issues have been made from Bulk Depot to Distribution Depot.
- Part 7. No comment.
- Part 8. I submit that the instructions contained in ST/449, ST/461 and ST/474 are adequate.

SUBJECT:- Stock State Signals.

ITALIA 10:- Cardinia
Naples
10/12.

Copy 101:- A/1 ITALIA.

Land Forces Sub Comm. A.C.
(H.M.L.A.).
02/01

2 Recd 1/12

1. Your original stock signals as of the 24 Oct have been amended by a further signal received in this office on -

Cardinia - 2 Rev
Naples - 1 Rev
Rome - 1 Rev

2. Amended signals show large discrepancies in a number of particulars.

3. It is pointed out that as soon as figures are received at this HQ a consolidation is prepared for reporting to higher authority for future action maintenance of the Italian Forces. Amendments cause repetition of reports plus duplication of work. It is imperative therefore that initial stock signals are accurate and reach this office as soon as possible.

1. Your para 1.

The stock balances in respect of BARI and SIGILY as at 25 August 44 should read 194,883 lbs and 65,700 lbs respectively and NOT 914,883 lbs and 26,000 lbs as shown.

The total is therefore 929,274 lbs and NOT 1,609,571 lbs as shown - a difference of 680,300 lbs

2. Your para 2

The figures submitted showing stock state as at 25th Sep 44 are correct.

7 October 1944

Attached hereto is a Balance Sheet showing the stock situation on subsistence in the Italian Army Depots as of September 25th 1944. (Quantities shown in net lbs)

You can readily see that our stocks are unbalanced, and that we need additional quantities of some items to meet our commitments to November 30th. This however, does not take into consideration items to be off-loaded from ships at EARI, therefore our stocks should change as additional items are received there. Also the stock will be somewhat changed if the U.S Government failed to issue all the rations to the US-ITIs beginning October 16th. In some instances Dehydrated vegetables will be issued as a substitute for dried vegetables, which will assist in balancing the stocks of those two items.

The minus figures shown in columns are the items which will have to be drawn for U.S Army stocks.

COMZONE NATOUSA has asked for our stock situation, and I believe this will give them the picture of the Italian stock states. I will arrange with COMZONE NATOUSA to draw the quantities needed in U.S Depots at the appropriate time.
