ALLIED FORCE HEADQUARTERS
Q MAINT BRANCH

SUBJECT : Minutes of Food Sup. Committee Meeting - 11 Oct 44.

TO : Allied Force Local Resources (Italian) Board.

AFHQ/6361/7/Q(Maint)

21 Oct 44.

Ref para. 9 of the minutes of the Food Supply Committee meeting of 10 Oct 44 - LRS/216 of 11 Oct 44.

1. It is not considered necessary to lay down priorities other than those given in AFHQ Administrative Memorandum No. 42 of 21 Sep 44.

2. The needs of the Italian Armed Forces and of the mid-shift meal are a civil commitment and should be covered before any availability is declared to the Food Supply Committee for allocation between the Allied Forces.

3. On the basis of the existing instructions contained in Administrative Memorandum No. 42, ACC would provide for the needs of hospitals and the victualling of ships as priority commitments. They would then meet the needs of the Italian Armed Forces, the mid-shift meal for civilian workers, and the civil population. After all these commitments were met, the surplus would be declared as available to the Food Supply Committee for allocation between the Allied Forces.

ADMINISTRATIVE MEMORANDUM)

III - ALLOCATION OF LOCALLY PRODUCED FOODSTUFFS

1. It is anticipated that the problem of feeding the Italian civil population will become increasingly difficult as the large centers in the North fall into our hands.

2. To meet this situation the following principles will govern allocations of locally produced foodstuffs by the Food Supply Committee of the Allied Force Local Resources (Italian) Board:

(a) In principle, locally produced foods which are readily stored or transportable will not be made available for allocation to the Armed Forces from 1 October 1944. Specifically, the following are not so available:

Dried Vegetables
Dried Fruits.

(b) The local military and ACC authorities shall consult together as to local surpluses, having regard to the possibility of moving the surpluses to another area as directed by the ACC. That portion of the surpluses which cannot be moved so as to arrive in good condition will be available to the Armed Forces under local arrangements. Specifically, the following fall in this category:

Green Vegetables
Root Vegetables
Hard Fruits

(c) Certain relatively small quantities are required for the victualling of ships. These will be made available as a second priority after meeting the needs of hospitals (see paragraph 6 below).

(d) Where green or root vegetables are bid for by the Armed Services at the Food Supply Committee, but of which there is no declared surplus, the Armed Services will offer at the same time the equivalent, or some other proportion, of preserved vegetables to the ACC for use as directed by the ACC in substitution of the green and root vegetables made available for the Armed Forces.

3. The ACC will not withhold from declared surpluses any commodities for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required.

4. Potatoes: Owing to a failure of crop it will not be possible to meet of the full estimated offtake which the Armed Forces [illegible]

Dried Fruits.

(b) The local military and ACC authorities shall consult together as to local surpluses, having regard to the possibility of moving the surpluses to another area as directed by the ACC. That portion of the surpluses which cannot be moved so as to arrive in good condition will be available to the Armed Forces under local arrangements. Specifically, the following fall in this category:

Green Vegetables
Root Vegetables
Hard Fruits

(c) Certain relatively small quantities are required for the victualling of ships. These will be made available as a second priority after meeting the needs of hospitals (see paragraph 6 below).

(d) Where green or root vegetables are bid for by the Armed Services at the Food Supply Committee, but of which there is no declared surplus, the Armed Services will offer at the same time the equivalent, or some other proportion, of preserved vegetables to the ACC for use as directed by the ACC in substitution of the green and root vegetables made available for the Armed Forces.

3. The ACC will not withhold from declared surpluses any commodities for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required.

4. Potatoes: Owing to a failure of crop it will not be possible to meet the full estimated offtake which the Armed Forces should receive from the seed sown. The Chief Quartermaster, AFHQ and the Director of Supplies and Transport respectively, in consultation with AFLRS, AFHQ, will make an agreed final bid for locally produced potatoes. Thereafter, paragraph 2 (b) above will apply.

5. Citrous fruits, soft fruits and nuts will continue to be made available under existing procedures.

6. Hospitals: The certified minimum requirements for hospitals for patients only, both British and American, will be met, and nothing in this instruction is to be read as limiting the necessary minimum supply of locally produced products to hospitals.

The minutes of the meeting held on 20 June 45 were approved.

102. EXCHANGE OF FRESH VEGETABLES FOR PULSES.

It was reported that QM, MTOUSA was at present unable to deliver pulses on the exchange basis against releases of fresh vegetables made during the months of MAY and JUNE. Negotiations were still in hand for the delivery of pulses on QM, MTOUSA account from U.S.A. stocks, but that on account of an alleged shortage in U.S.A. it was feared that these negotiations would be unsuccessful. In view of the exchange agreement made, the Italian Government was now asking for delivery of the pulses claimed to be due against fresh vegetable releases in MAY and JUNE. The Committee considered that a ruling should be given by the Board as to whether QM MTOUSA should continue to obtain supplies of fresh vegetables on the exchange basis in view of the nebulous prospect of pulses being delivered to the Italian Government in exchange.

ST, AFHQ representative reported that the MAY replacement due from ST, AFHQ would be made available during JULY and the JUNE replacement should be available during AUGUST.

103. ALLOCATIONS OF FOODSTUFFS.

A report was received from HQ ALCOM on the availabilities of foodstuffs for the month of August, and the allocations set out in Appendix "A" were made against the requirements submitted by Services.

104. MALT.

HQ ALCOM representative stated that subject to an agreement being reached on the rates of exchange of flour for barley, 4000 tons malting barley could be made available to E.F.I. during the next three months.

The E.F.I. representative said he was prepared to negotiate with ST to obtain the flour required for the exchange.

E.F.I. undertook to investigate the suitability of malt made from rice, and to report the result of their investigation to AFLRS AFHQ.

105. FISH.

HQ ALCOM representative reported that at present there was no availability of white meat fish for general issue, the catch being predominantly blue fish (sardines and anchovies). ALCOM were agreeable to pursuing the negotiations for a general issue of fish if services would agree to take the catch in the proportions of blue and white fish as landed, but, if not, it was feared that the supplies of white fish would be sufficient to meet hospital requirements only.

106. EXPORTS.

The committee approved the export of 750 tons of onions to NORWAY against replacement by imports of other foodstuffs from NORWAY. It was agreed that no surpluses of vegetables should be made available for export unless service requirements of the particular vegetables in the area concerned were being met in full without replacement.

107. NEXT MEETING.

The next meeting will be held at 0930 hours on Wednesday 22 Aug 45, in the AFLRS (AFHQ) Conference Room, ROME.

Secretary,

84. MINUTES OF TWENTY THIRD MEETING

The minutes of the previous meeting held 13 April 45 were approved.

85. MINUTES OF THE BOARD

No matters arose for discussion from the meeting of the Board held on 5 May 45.

86. YEAST

HQ ALCOM reported that the estimated availability of Yeast during June is 375 tons, to be produced in the following centres:-

ROME	135	Assured production 73
GENOA	50	
BARLETTA	40	
MILAN	70	Probable production
NAPLES	10	
UDINE (Dist. Italiana)	30	
PADUA	20	Possible production
UDINE (Eridania)	20	

Declassified E.O. 12356 Section 3.3/NND No. 785020

Service requirements were met in full and the following allocations were made:-

	ALCOM	S & T	G.M.	U.S.NAVY	TOTAL
ROME	45	42	45	-	155
GENOA	14	18	18	-	50
BARLETTA	2	20	18	-	40
MILAN	32	-	38	-	70
UDINE	30	20	-	-	50
PADUA	8	12	-	-	20
NAPLES	7½	-	-	2½	10
	141½	112	119	2½	375

In view of the possible reduction in numbers of troops based in ITALY, QMG and ST agreed to re-examine their estimated monthly requirements of yeast for the remainder of 1945 and to submit such estimates to AFLRS by 15 June 45.

87. ALLOCATION OF FOODSTUFFS

A report was received from HQ ALCOM on the availabilities of foodstuffs for the month of JUNE, and the allocations set out at Appendix 'A' were made against the requirements submitted by Services.

88. MEMBERSHIP

It was recommended to the Board that the Commander of French Forces in ITALY be elected to membership of the Committee.

NOT APPROVED

89. REPLACEMENT OF FRESH VEGETABLES BY PRESERVED VEGETABLES

Services expressed the opinion that, in view of the many reports of large quantities of fresh vegetables now available in ITALY, there is now no necessity for the replacement of fresh vegetables by preserved vegetables as called for in para 2 (d) Sec III of Administrative Memorandum No 42, 1944. The Chairman referred to his recent tour of the North and stated that no overall surpluses existed. After discussion the Committee agreed that this matter should be placed before the AFLR (Italian) Board at its meeting of 2 JUNE 45 and AFLRS undertook to place this on the Agenda for the Board's meeting.

NO CHANGE

90. PROCUREMENT OF SPOT SURPLUSES OF FRESH FRUIT AND VEGETABLES

The Committee agreed that the procedure outlined in AFLRS letter LRS/326/41 of 19 April 1945, Subject: "Procurement of Spot Surpluses of Fresh Fruit and Vegetables" had proven cumbersome and slow to operate. The representative of ALCOM stated that instructions have now been issued whereby the directors of SETFRALs in Italian Government territory and the Regional Supply Officers in AMG/AC territory will not declare spot surpluses of vegetables until they have ascertained, through their own channels, that the vegetables are not required for civilian consumption in other areas. It was therefore agreed that the local procurement officers of services could purchase such spot surpluses without reference to AFLRS or ALCOM and that Services would issue the necessary instructions to their officers to ensure that the interests of all services are considered

and to submit such estimates to AFHQ by 15 June 45.

90. PROCUREMENT OF SPOT SURPLUSES OF FRESH FRUIT AND VEGETABLES

10 d 5/5/45.

The Committee agreed that the procedure outlined in AFLRS letter LRS/526/4.1 of 19 April 1945, Subject: "Procurement of Spot Surpluses of Fresh Fruit and Vegetables" had proven cumbersome and slow to operate. The representative of ALCOM stated that instructions have now been issued whereby the directors of SEPRALs in Italian Government territory and the Regional Supply Officers in AMG/AC territory will not declare spot surpluses of vegetables until they have ascertained, through their own channels, that the vegetables are not required for civilian consumption in other areas. It was therefore agreed that the local procurement officers of services could purchase such spot surpluses without reference to AFLRS or ALCOM and that Services would issue the necessary instructions to their officers to ensure that the interests of all services were considered before purchases were made.

91. PURCHASING FACILITIES

The Chairman drew the attention of services to the facilities offered by the C.N.E.I.P.O., 14 via Sant' ISAIA, BOLOGNA (telephone BOLOGNA 22189), which is a co-operative association of fruit and vegetable wholesalers with representatives throughout Northern ITALY.

a. Bids for Rail Transport.

All individuals, producers, exporters, exporting companies, wholesale firms with regular licence, industrial firms, cooperatives with apposite authorization of the High Commissariat, the Provvida, the Federconsorzi, the Federfrutta, the Azienda Servizi Annonari of ROME Commune, who want to transport non-rationed foodstuffs by rail, must put in their request at the Sepral of the Province in which the foodstuffs to be transferred are located. Request must contain full particulars of consignor, consignee, quality, quantity and price of goods and off-loading and loading station.

b. Bids must be put in weekly with the separate bid for each Division of the railway.

On receipt of these bids, the Sepral will pass a copy as quickly as possible to the Regional Office of the Vice-Commissioner for Food.

c. Regional Officers will get into touch forthwith with the Allied Transportation Officer and ascertain from him the tonnage available for each destination. On receipt of this information, Regional Officers will compile a final list from the bids received from the Seprals and transmit this to the Allied Transportation Officer in order that arrangements may be made by him with the appropriate Sezione Movimenti del Compartimento Ferroviario for the allocation of wagons.

d. Regional Officers will inform both the Seprals at the exporting and importing end of the wagons allocated, with full particulars including price of goods. Seprals will notify the bidders and provide them with a special form which will authorize them to obtain the wagons allocated. Stationmasters will be informed direct of these arrangements by the appropriate railway authorities.

6. General Instructions.

Bids will be compiled by the Friday of each week and passed to the Regional Officers in time for transmission to Allied Transport Officers by the Wednesday following. The final allocation of bids will be received from the Allied Transportation Officer by the following Tuesday.

This information will be passed to Seprals as quickly as possible in order that the successful bidders may be notified and their goods ready for shipment by the following Monday.

7. In conclusion, in view of the great shortage of rail space, preference

46. AVAILABILITIES OF FRESH VEGETABLES

The Chairman stated that further efforts were being made to increase the imports of dry pulses by AC into Italy from U.S.A. with a view to increasing correspondingly the availability of fresh vegetables.

AC

Declassified E.O. 12356 Section 3.3/NND No. 785020

HQ AC representative stated that after careful consideration AC was unable to agree to the 60% unrestricted purchase suggested at the last meeting.

The Committee is of the opinion that the following new conditions are necessary in order to ensure that a reasonable amount of fresh vegetables produced can be made available to the Allied Armed Forces.

(i) That the importation of dried pulses for civilian consumption should be sufficient to compensate for the purchases of fresh vegetables by the Allied Armed Forces.

(ii) That within the area under Italian Government control, Italian Compartmental and Provincial organisations should be established in the producing areas to furnish more accurate and reliable information both with regard to availability and distribution.

(iii) That adequate means of transportation must be placed at the disposal of AC to permit of an economical distribution.

47. EXPANSION AND EXTENSION OF MID-SHIFT MEAL.

The Chairman reported that the question of the increase of the calorific content of the mid-shift meal was still under consideration at HQ AC.

The study of the possibility of extending the issue of the mid-shift meal was delayed pending the submission by employing services of the numbers of employees involved in such a step.

48. ALLOCATION OF FOODSTUFFS.

A report was received from AC on the availabilities of foodstuffs for the month of February and the allocations set out at Appendix 'A' were made against requirements submitted by Services.

49. YEAST.

In view of the considerably increased military demand for yeast amounting to 190 tons in all plus the minimum civilian need (estimated at 75 tons), the total availability of 150 tons was inadequate. Representatives of ST,AFHQ., QM,AFHQ., and HQ AC agreed to reconsider the demands as submitted and to survey existing stock positions with a view to reducing their demands for February to a level at which requirements could be satisfied by the availability.

50. EXPORT TO MALTA.

A demand for export from Italy to MALTA was received and considered. The following allocations were approved, the final ratification and detailed arrangements to be dealt with by the Exports Division, Commerce Sub-Commission, AC.

For the month of February

Almonds	220 tons from APULIA
Vinegar	5 tons
Citric Acid	1 ton from SICILY

Declassified E.O. 12356 Section 3.3/NND No. 785020

48. ALLOCATION OF FOODSTUFFS.

51. PRIORITIES OF ALLOCATION.

QG, AFHQ represented to the Committee that the priorities of allocation established in AFHQ Adm Memo No 42 dated 21 SEP 44 should be amended in respect of the victualling of ships, i.e. number two priority, and that this category

Declassified E.O. 12356 Section 3.3/NND No. 785020

should be relegated to the same priority as Allied Armed Forces demands for normal maintenance namely number four priority. This matter was referred to the Board for a decision, the opinions of members of the Committee being equally divided.

40. ALLOCATION OF FRESH VEGETABLES

The Committee considered what new conditions are necessary in order to ensure that a reasonable share of the fresh vegetables produced on the Mainland can be made available to the Allied Armed Forces.

The Chairman stated that the import demands of foodstuffs made by HQ AC on AFHQ for onward transmission to the Combined Chiefs of Staff had been considerably cut down resulting in higher consumption of vegetables by the civilian population with an ensuing reduction in availability to the Purchasing Agents of the Allied Armed Forces. In consequence of this, HQ AC found itself unable to continue to offer vegetables to meet the full demands of the Allied Armed Forces without some degree of replacement. It was strongly recommended to the Board that the only means of obtaining an adequate supply of vegetables for the Allied Armed Forces appeared to be the avoidance of reduction of the civilian import demands for foodstuffs submitted by HQ AC.

A proposal made by HQ AC that purchases of vegetables by the official Purchasing Agents of the Allied Armed Forces should be unrestricted, and that a 100% replacement on an agreed basis of dried vegetables would be made for quantities so purchased, was considered. This was not acceptable to the representatives of the Purchasing Agents of the Allied Armed Forces. A proposal for a compromise to the effect that the exchange clause should only apply to purchases which exceeded the average purchases over the past 3/6 months was rejected.

38

As no acceptable solution could be found, members of the Committee agreed to consult higher authority as to whether official Purchasing Agents should be permitted to place direct contracts by zones for 60% of their requirements (based on strength and ration scales) without restriction, on the understanding that any supplies so obtained over this percentage would be replaced by agreed quantities of dried, tinned or de-hydrated vegetables from Allied Armed Forces' stocks. The Chairman undertook to consult the Chief Commissioner on this counter-proposition, and to raise the matter at the next meeting of the Board.

Declassified E.O. 12356 Section 3.3/NND No. 785020

The priority requirements of local foodstuffs for hospitals, ships' crews, the Italian Armed Forces and the mid-shift meal commitment will be met by HQ AC in accordance with existing procedure.

41. EXTENSION OF MID-SHIFT MEAL

In accordance with the instructions of the Board the Committee considered the possibility of providing a more substantial calorific diet for all civilian workers employed by the Allied Armed Forces in Italy.

HQ AC representative stated that a plan was at present being examined providing for the addition of a ration of olive oil to this meal.

42. EXTENSION OF MID-SHIFT MEAL TO OFFICE WORKERS

HQ AC representative stated that the possibility of the extension of the mid-shift meal to office workers was being considered.

16. AFHQ G(Maint) Branch letter AFHQ/686/7/G(Maint) dated 21 Oct 44 was received and it was agreed that the interpretation to be placed upon the letter was that the needs of the Italian Armed Forces and of the mid-shift meal for civilians employed by the Armed Forces were to rank equally after the priority requirements for hospitals and ships' personnel and before the needs of the ordinary civilian population.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Declassified E.O. 12356 Section 3.3/NND No. 785020

It was agreed that the availabilities declared by AC each month should be the quantities available for allocation after meeting priority requirements of hospitals and ships, cross in full, and before considering the requirements of the Italian Armed Forces and the civilian economy. It will be the responsibility of the Italian Government to submit its requirements on the scale and in the form laid down by the Combined Boards. If such declared availabilities were not sufficient to meet the requirements of the Italian Armed Forces and the civilian economy, the Italian Government would be advised accordingly.

18. The Chairman then stated that no recommendations to the Combined Boards could be made until the Italian Government had been consulted as to the quantity it would be able to make available for the Italian Armed Forces and the civilian economy.

19. The representative of Admiralty pointed out that the instructions to the Allied Commissions in Italy and Sub-Commissions in Sicily and Sardinia would be amended to avoid any investigation action which might be construed as an attempt to control the distribution of petroleum products.

20. The Chairman then stated that the Combined Boards had decided that the Allied Commissions in Italy and Sub-Commissions in Sicily and Sardinia should be advised accordingly.

21. A representative of the Italian Armed Forces Headquarters was then admitted to the meeting.

22. The Chairman then stated that the Combined Boards had decided that the Italian Armed Forces should be supplied from the Italian petroleum resources available in Italy, and that the allocation between the Italian Armed Forces and the civilian economy would be made by the Combined Boards.

23. The Italian representative stated that the Italian Government had hoped that the allocation in favour of the Italian Armed Forces would be made before the end of December, and that the allocations for the month of December, and the allocations for the month of January would be made before the end of January.

24. The Chairman stated that the Combined Boards had decided that the allocations for the month of December, and the allocations for the month of January would be made before the end of December.

25. It was agreed that the Italian Government should be informed that the Combined Boards were instructed to continue to submit monthly allocations for all Services for the empire, in order that Services might be able to plan their requirements, but that no petroleum should be delivered from Sardinia to the mainland of Italy, until the Combined Boards had decided that the requirements of the Italian Armed Forces and the civilian economy could be satisfied.

26. The Chairman then stated that he would recommend to the Board that the Italian Government should be informed that the Combined Boards were unable to allocate petroleum products to the Italian Armed Forces and the civilian economy, but that the allocations would be made before the end of December, and that the allocations for the month of January would be made before the end of December.

27. The Chairman then stated that the Combined Boards had decided that the Italian Government should be informed that the Combined Boards were instructed to continue to submit monthly allocations for all Services for the empire, in order that Services might be able to plan their requirements, but that no petroleum should be delivered from Sardinia to the mainland of Italy, until the Combined Boards had decided that the requirements of the Italian Armed Forces and the civilian economy could be satisfied.

declared.

19. The representative of Adriatic Depot was instructed to investigate surpluses he had discovered in his area and report these for interim action in accordance with the established procedure. AC Food Sub-Commission agreed that the whole of any such additional surpluses discovered should be available for immediate allocation by AFLRS between the Allied Forces as AC does not propose to increase the quantity to be transported from the area in December.

20. The representatives of DST, AFHQ and MMIA were instructed to consult each other before the next meeting in order to avoid any duplication of bidding for the needs of any of the Italian Armed Forces.

21. A report was received from AC on the availabilities of foodstuffs for the month of December, and the allocations set out at Appendix "A" were made against requirements submitted by the Services.

22. In view of the large stocks of salt available at the three principal depots in MARGHERITA DI SAVOIA, TRAPANI and CAGLIARI, it was recommended to the Board that salt ex these depots should be deleted from the list of restricted items.

23. AC was instructed to take up with the Italian Government the question of instituting some form of egg control in Southern Region in order to meet the hospital requirements of LOT and Adriatic Depot.

24. The total anticipated availability of citrous fruits in January and February will be ample for all Service requirements, but Services were instructed to continue to submit monthly bids for such fruit, in order that regional allocation could be effected.

25. It was recommended to the Board that representatives of WSA, MWTR, CEFI, AFHQ and Army Exchange Service, U.S.A. should be allowed to attend the meetings, but should not be voting members of the Committee.

26. The representative of C-in-C Med. was instructed to ensure that he was adequately briefed to represent the technical viewpoint of all of the navies under command of C-in-C Med, even though their channels of supply were not identical.

27. MMIA were informed that no dried fruit and vegetables were available for purchase by the Italian Armed Forces.

28. The next meeting will be held at 0930 hrs on FRIDAY, 15 Dec 44, in the AMLRS CONFERENCE ROOM, 68 Piazza Dell'Esedra, ROME (2nd Floor).
