1. Attached are two reports from the C.A.O. BITHIRIA which have been received from the Deputy Regional Commissioner, TOSCANA Region, on cases of Italian military personnel making local purchases of foodstuffs.

2. It is true that both these purchases were made before units could have received your letter dated 30 March 1945, ref no. 7140. It is, however, thought that you will wish to take appropriate action in these two cases which are of an exceptional nature.

He was carrying 32 live lambs and one quintal of potatoes which he said he had bought in Perugia Province. Also 3 turkeys which he had just purchased from Poppi. These stores and ani als he said were for consumption by his unit for the Easter Festival.

SUBJECT: Production of Potatoes in Avezzano Valley
for Consumption by the Allied Military Forces
(Extracts from correspondence)

Letter S-5, G-5 Section, dated 3 February 1945, to Headquarters, AC:

The main purpose of this letter is to ask you to investigate as a matter of urgency what quantities of potatoes will be available for consumption by the Armies in July and the ensuing three months. A grave potato shortage is imminent. The United Kingdom crop has failed as a result of the severe winter. The needs of the Armies in Italy for the four months July/October will, therefore, be very large. The balance of military requirements not available from the potato crops of Italy can only be met as dehydrated potatoes from the United States. An early provisioning action by the QM and the DSI will be necessary you are requested to examine the position as soon as possible and to forward the result to this Section.

Letter AGR/341.0, Economic Section, Headquarters, AC, dated 14 February 1945, to G-5 Section:

Reference your letter S-5 of 3 February 1945, subject as above.

Availability of potatoes for consumption by the Armies during the summer and fall of 1945 has been kept in mind throughout the development of the potato production program. While the matter will be investigated further, a grave potato shortage is imminent in Italy as well. In the area south of the Pisa-Rimini Line civilian food availability will be limited to a point rendering undesirable and impracticable the collection of eating potatoes from areas close to large centers of population.

The extremely active demand for potatoes during the past season has reduced the local supply of seed, and shipping restrictions have reduced the imports. Furthermore, the availability of seed potatoes from the Avezzano Valley has not materialized to the extent expected. Hence, the present program does not permit commitment of any potatoes for Army consumption during the July-October 1945 period, with one possible exception.

It may be practicable to arrange for direct contracting of the production of one large estate, and a number of smaller estates, in the Avezzano Valley to meet Army requirements. The potential production will vary from 10,000 to 20,000 tons of eating potatoes, available in September, October and November. Owing to the destruction of the railroad, road transport of 2,000-3,000 tons of supplies for a distance of 150 kilometers will be necessary to make available fertilizer and fungicides for this additional production.

Owing to the destruction of the railroad, road transport of 2,000-3,000 tons of supplies for a distance of 150 kilometers will be necessary to make available fertilizer and fungicides for this additional production.

In view of the transportation problem involved solely to meet military requirements, it is desired that the SGT and QM indicate that they can undertake responsibility for moving the above mentioned supplies into the area in time for planting of these special acreages, should that prove to be necessary. If this can be assured without delay, the practicability of carrying out such a special program can be determined on or about 1 March.

In any event, it is necessary to make clear the fact that all other production will be so urgently required for the civilian population that purchasing by the Army south of the Pisa-Rimini Line will have to be restricted to instances such as this suggested special program.

Letter S-5, G-5 Section, dated 24 March 1945, to Headquarters, AGI,

Both QM and DGT are now prepared to arrange the lift of fertilizer required for the Avezzano Valley scheme outlined in para 4 of your first letter, provided that you can guarantee 10,000 to 20,000 tons eating potatoes for consumption by the Armies without any prejudice whatsoever to the civilian economy.

Letter AGR/341.0, Agriculture Sub-Commission, dated 31 March 1945, to G-5 Section,

Reference your letter S-5 dated 24 March 1945, subject as above.

In connection with points raised in paragraph 1 thereof, the matter has been discussed with the Food Sub-Commission, and subject to complete fulfillment of the conditions contained in letter AGR/341.0 of 14 February, and further that Army purchases will be restricted to this special program, the Food Sub-Commission is in favor of this special production to meet the requirement of the Armed Forces.

Action is being taken to obtain the support of the Ministry of Agriculture, and to obtain the data requested in your paragraph 2.

In the meantime, it is requested that QM and DGT give consideration to the advisability of placing an officer in that area to work with an Italian intermediary in the development of firm contracts with the growers involved, having in mind that the realization of the program will be largely dependent upon a clear understanding of the farms and fields engaged in the project. This can best be handled by putting an Italian civilian in charge of the actual relations with the farmers, by making direct contracts in order to insure the allocation of adequate acreage - and this could be done under the supervision of an officer who will be in full charge of the program.

It is suggested that the contracting be scheduled for the next two weeks, and that the officer concerned contact this Sub-Commission prepared to go to Avezzano - we will arrange for an employee of the Federation of Consorzi Agrari to accompany him.

1. The question of release of the potatoes confiscated by the CC.RR. has been taken up with the Director, Food Sub Commission, and he has issued instructions to the Regional Supply Officer MARCHE-ABRUZZI Region for their release.
The Commander 1st Bn should now get in touch with the Regional Supply Officer and arrange to collect.
2. The Food Sub Commission has pointed out that all potatoes in the AVEZZANO area are being reserved for seed but in view of the fact that the purchase by the 1st Bn was made in good faith, it has been decided to release the potatoes.
3. The purchase of fruit and vegetables should be made in conjunction with the local A.C. or Italian Authorities who are in a position to know whether the goods are available and where.
4. In regard to the supply of the daily ration of fruit and vegetable i.e. fruit 4 ozs. and Veg 8ozs., is it practical for your Commissariato to buy in bulk for the whole of your camp and for issues to be made through your Distribution Depot.

1. Reference the above, the position with regard to priorities is as follows:

The Italian Armed Forces together with the requirements of Military Hospitals, certain Ship Crews and the Midshift Meal have a first priority over civilians for fruit and vegetables and certain other non-rationed commodities.

2. Requirements are submitted at the Food Supply Committee monthly and the allocation is made automatically on the understanding that the commodities required are available.

3. The purchase of these commodities therefore should be made in conjunction with the local AC or Italian Authorities who are in a position to know whether the goods required are available or not.

1. A report has been received from the B.L.U. at Cesano stating that on the 15th February 1945 the Commander of the 1st Bn despatched a truck to the COMUNE of GIOIA dei MARSÌ to purchase potatoes. On the return journey the truck was stopped at AVEZZANO and as the driver carried no authority to move foodstuffs from one area to another, the CC.RR, acting on proper authority, confiscated the whole load.
2. It is understood that Italian Headquarters have now requested the release of these potatoes from the authorities at AVEZZANO.
3. As several cases similar to the above have occurred would you please state what documents are necessary to prevent a repetition.
4. It should be pointed out that the country round about Cesano is most barren, and therefore, it is necessary to purchase at places some distance from Cesano.

1. Several cases have occurred of vehicles sent to buy foodstuffs for the 'miglioramento rancio' of the Italian troops, being stopped either by Allied Police or Carabinieri and their purchases confiscated. My A/8/37 is a case in point.

2. The 'miglioramento rancio' is a most important adjunct to the basic ration and enables the Unit Commander to increase and better the ration of his troops with a resultant heightening of morale.

3. It is believed that there are restrictions on the free passage of food from one area to another in Italy. These restrictions are designed to defeat Blackmarket activities. Unfortunately the area round CESANO is most barren and "miglioramento rancio" items have often to be bought at places at a considerable distance and brought to CESANO.

4. May this HQ please be informed of the documents necessary to ensure that such military foodstuffs are given protection to pass from one area to another freely.

5. May this matter please be treated as urgent.

The undermentioned Units dependent by this Command, as per direct arrangements agreed between MMIA, Rome and War Ministry, are issued as per ration of civilians:

- Transit Camp ex Prisoners of War - Naples
- Garrison Company - Naples
- Military Prison - Naples
- Military District - Naples

In the prescribed ration of foods are comprised, besides other foods, also the potatoes that may not be bought from market, because they are now frozen.

It is becoming very difficult to prepare mess on account of shortages of potatoes. We ask MMIA to order release of 400 Quintals of potatoes on behalf of this command, which we will provide for distributing them to concerned Units.

SUBJECT: Items to be taken from local resources.

As regards the new system of supply ordered for the supply of Additional Items by the Allied Authorities, and so as to diminish the difficulties that have arisen for the concentration of items of national production, that are part of the rationing scale adopted by this Ministry, and in base of agreements reached with the MMIA, we instruct that the supplying of local resources items shall from now on proceed as follows:

- 1°)- SUPPLY. The supply of wine and dried fruit will be principally carried out by the Commissariat Directorates of Apulia & Lucania and of Naples, according to the instructions in para. 4 letter A and B. For tobacco, matches and salt, this Ministry will provide through direct contact with the Direzioni Monopoli, and through the Commissariat Directorates of the Areas in which are the Manufactures, factories and saline, from which allotment will be obtained. The supply of oil will also be provided by this Ministry through direct agreements with the Agriculture Ministry and through the Commissariat Directorates in the Areas of production. For this matter instructions will be give with a following letter. Lastly, as regards fresh vegetables and fruit the units will collect them from local resources, limiting their purchases to the items that this Ministry will indicate with a monthly list.
- 2°)- STORING. The amounts constituting the scale of the Italian Army will be as a rule stored in the Central Food Depot of Taranto and the Special Food Depots of Bari and Naples, in the proportions shown in the following paragraphs.
- 3°)- REFRESHING. Periodically the Commissariat Directorates of Naples and Bari, and the autonomous Depot of Taranto, will despatch the items that this Ministry will indicate. In this matter, we state that as a rule, the envoy of rations to the

Calabria and Sicily Areas will be provided by the Central Food Depot of Taranto, whilst for the Rome, Sardinia and Corsica Areas it will be provided by the Naples Special Food Depot. The three abovementioned Depots will furthermore provide the supplying of the Distribution Depots located in their Areas. The supplying to troops located in the forward areas will be provided by giving the items to Allied Organisations, that will be indicated time by time, and who in their turn will provide to forward them to the units. The Commissariat Directorates will, however, from now on, only supply the troops located in their areas, and all supplies to Units not belonging to their areas are strictly forbidden, except in the cases that will be authorised time by time by this Ministry. The doubtful cases that may arise, such as Units passing through these areas, will be decided by the Regional Military HQ.

4°)- DISTRIBUTION. The distributions will be carried out with the usual modalities according to the present ration.

For action on what is above written, we instruct:

a)- Dried Fruit: In the Central Food Depot of Taranto, and in the Special Food Depots of Naples and Bari the following amounts will always be available:

-Central Food Depot of Taranto	ql. 350
-Special Food Depot of Bari	" 500
- " " " " Naples	" 1.000

approximative amount of 20 days distribution.

The Commissariat Directorates of Apulia and Lucania, and Campania, are therefore authorised to purchase, restoring each time the amounts distributed or dispatched. -The Apulia & Lucania Commissariat Directorate will also provide the purchase for the requirements of the Taranto Central Food Depot. -The abovementioned quantities regard the purchase of dried fruit without shell, and in the case of purchase of dried fruit with shell, these amounts will be augmented by the known proportion. -The purchases will be carried out with maximum haste, and eventual difficulties will be reported to this Ministry in due time.

The Calabria and Sicily Commissariat Directorates, drawing from local resources will provide the purchase of dried fruit necessary to the troops of their areas, keeping always available 20 days distribution power. They will in due haste inform this Ministry of eventual difficulties that would require envoys from Apulia.

The Sardinia Commissariat Directorate, whose allotment is available in the Naples Depot, will please inform us of eventual possibilities of the local production, and of the prices, so that one may avoid greivous transports from the mainland.

./.

-3-

The Apulia & Lucania and Naples Commissariat Directorates will furthermore inform us telegraphically of the average prices now current in their sectors for each quality of dried fruit and the approximate amounts available, so that this Ministry can consider the convenience of buying in one sector more than another for economy reasons.

- b)-WINE. The Catanzaro and Palermo Comm/to Directorates will provide the requirements for the troops in their sector through purchases from the local resources, bearing in mind that 10 days distribution must always be available in their Depots.

As regards the supply to the troops in the forward areas and other sectors, it is necessary that the Central Depot of Taranto and the Special Depots of Naples and Bari, should have available 20 days of distribution, in the same proportion as indicated for dried fruit.

However considering the great difficulties due to the lack of casks and of space in the Depots, we are studying the possibility of supplying forward troops from local resources, and will in future endeavour to give instructions accordingly. In any case these three Depots will purchase in their respective areas the maximum amount that the casks they have will allow, informing this Ministry of the amounts that they have available.

- c)-TOBACCO FOR FREE DISTRIBUTIONS. The following amounts must always be stocked and be kept turning at the Central Depot at TARANTO, and at the Bulk Depots at BARI and NAPLES:-

Central Depot, TARANTO.....	60	quintals.
Bulk Depot, BARI.....	45	" "
" " " NAPLES.....	180	" "

This Ministry will see to it that the above amounts will be sent to these places in conformity with the monthly allotments made by the General State Monopoly Directorate, from their source.

It is intended to absorb the reserves, whose constitution was ordered in previous letters by the amounts mentioned above.

SARDINIA Commissariat Directorate will continue to bid for its own needs to the Bodies Administating the monopolies in the Island, stating monthly the amounts obtained, so that the balance may be despatched from the Mainland.

As for the tobacco issued on payment, however, this Ministry will see to the monthly distribution as usual, according to the availability.

-4-

d)-SALT. The following amounts must be stored and made to change all the time at the Central Depot at TARANTO and at the Bulk Depots at BARI and NAPLES:-

Bulk Depot, NAPLES.....700 quintals.

" " BARI.....300 " "

Special Depot, TARANTO.....400 " "

which this Ministry will see arrive from their source.

The SICILY & SARDINIA Commissariat Directorates will see that they are supplied from the local salt marshes for the needs of the troops stationed in those Islands.

e)-OIL. Instructions will follow about the supply and the storage of oil as soon as the Ministry of Agriculture and Forests has stated the names of the Agrarian Committees where the oil may be drawn. Thus, temporarily, the supply will be assured on the system practised up to now based on the instructions that will be sent out from time to time by this Ministry.

f)-MATCHES. This Ministry will see to replenishing the Bulk Depots at BARI & NAPLES and the Special Depot at TARANTO, in which the following amounts will always be held:-

BARI BULK Depot.....7000,000 matches.

NAPLES " " 30,000,000 " "

TARANTO Special Depot.....6000,000 " "

We take this opportunity to say that whereas CALABRIA and SICILY will for the most part be supplied by the Central Depot at TARANTO as far as the other items are concerned, they will get their matches from the Bulk Depot at NAPLES.

So as to be able to restock the reserves which are to be constituted on the basis of the above instructions as quickly as possible, referring to goods whose supply is the direct responsibility of this Ministry, the Commissariat Directorates of APULIA & LUCANIA and of CAMPANIA and the Commissariat Office at TARANTO will send stock states of their additional items to this Office every ten days, that is to say on 5th., 15th., and 25th. of each month, detailing the amounts in stock, those to be sent or to be issued and those to receive.

Delegazione 'T' is requested to inform ~~this Ministry~~ all Units under its command that, on the basis of the new supply system, the troops stationed north of ROME who do not belong to the ITI-ITI category will be supplied with additional items through the Allied Armies, and that therefore, from now on, for no reason will direct allotments be made in their favour.

-5-

For the Ministries of Marine and Air we add that the supply of additional items will continue to be looked after by each branch of the Service on it's own account.

We will only inform you about the oil and the matches.

Would the above Ministries, however, examine the possibility of bringing their systems into line with the supply and replenishment system detailed above, particularly as far as concerns the constitution of the reserves in the BARI, TARANTO and NAPLES Areas in the proportions fixed by this Ministry for the Army, bearing in mind that M.M.I.A. has expressed the wish that the same organisation be adopted by all the Armed Forces.

Will the addressed Commissariat Directorates and the TARANTO Autonomous Commissariat Office take immediate steps to put the instructions contained in this letter in to practice, informing this Office with rapidity of all the practical difficulties which crop up as one goes along and their suggestions ~~which~~ as to what might be done to sove such difficulties.

ACK.

1°) APPROVVIGIONAMENTO: L'approvvigionamento sarà curato, per il vino e la frutta secca, principalmente dalle Direzioni di Commissariato Militare della Puglia e Lucania e della Campania secondo l'ipotesi di più sotto riportate. - Per i tabacchi, il sale ed i fiammiferi, invece, verrà curato direttamente da questo Ministero, con accordi con la Direzione Generale Monopoli di Stato tramite le Direzioni di Commissariato dislocate nelle zone ove trovansi le manifatture, fabbriche e saline presso le quali si otterranno le assegnazioni.

L'approvvigionamento dell'olio verrà del pari curato da questo Ministero con accordi diretti con il Ministero dell'Agricoltura e delle Foreste e tramite le Direzioni di Commissariato dei luoghi di produzione, secondo le modalità che verranno fissate con successivo dispaccio. -

o/o/o/o/

1°) FRUTTA SECCA: Le Direzioni di Commissariato Militare di Napoli e Bari e l'Ufficio Autonomo di Taranto provvederanno ad effettuare le spedizioni che verranno disposte da questo Ministero. Al riguardo si fa presente che, in linea normale, il rifornimento al settore della Calabria e della Sicilia avverrà dal Deposito Centrale Viveri di Taranto, mentre per il settore di Roma e del la Sardegna e Corsica avverrà dal Deposito Speciale Viveri di Napoli. I tre Enti su indicati provvederanno inoltre al rifornimento dei magazzini di distribuzione dislocati nel proprio settore. Il rifornimento alle truppe dislocate nelle zone avvenute avverrà mediante consegna da parte dei tre conati Depositi agli Enti indicati che verranno di volta in volta indicati. Tali Enti cureranno il successivo inoltro ai reparti.

2°) FRUTTA SECCA: I quantitativi costituenti il fabbisogno di tutto l'Esercito Italiano saranno, di massima, individuati nel Deposito Centrale Viveri di Taranto e nei Depositi Speciali Viveri di Bari e Napoli, nelle proporzioni appresso indicate.

3°) FRUTTA SECCA: Periodicamente le Direzioni di Commissariato Militare di Napoli e Bari e l'Ufficio Autonomo di Taranto provvederanno ad effettuare le spedizioni che verranno disposte da questo Ministero. Al riguardo si fa presente che, in linea normale, il rifornimento al settore della Calabria e della Sicilia avverrà dal Deposito Centrale Viveri di Taranto, mentre per il settore di Roma e del la Sardegna e Corsica avverrà dal Deposito Speciale Viveri di Napoli. I tre Enti su indicati provvederanno inoltre al rifornimento dei magazzini di distribuzione dislocati nel proprio settore. Il rifornimento alle truppe dislocate nelle zone avvenute avverrà mediante consegna da parte dei tre conati Depositi agli Enti indicati che verranno di volta in volta indicati. Tali Enti cureranno il successivo inoltro ai reparti.

Pertanto le Direzioni di Commissariato Militare, d'ora innanzi, direttamente assicurare il solo rifornimento alle truppe dislocate nel proprio settore, restando senz'altro vietati i prelievi dalla parte di Corpi non appartenenti al settore, tranne nei casi di volta in volta autorizzati da questo Ministero. I casi cubri che potrebbero eventualmente presentarsi per lo spostamento di reparti ecc., saranno risolti dai Comandi Militari di regione.

4°) DISTRIBUZIONI: Le distribuzioni ai reparti avverranno con le modalità consuete in base alle ragioni vigenti.

Per l'attuazione di quanto sopra si dispone:

a) FRUTTA SECCA: Nel Deposito Centrale Viveri di Taranto e nei Depositi Speciali Viveri di Bari e Napoli dovranno essere sempre tenuti accantonati i seguenti quantitativi:

- Deposito Centrale Viveri di Taranto	di 1.000
- " Speciale Viveri di Bari	" 500
- " " Napoli	" 1.000

Presumibile fabbisogno di 20 giornate di distribuzione.

Le Direzioni di Commissariato della Puglia e Lucania e della Campania restano senz'altro autorizzate ad effettuare gli acquisti, reintegrando di volta in volta i quantitativi consegnati o spesi. La Direzione di Commissariato della Puglia e Lucania provvederà agli acquisti anche per il fabbisogno del Deposito Centrale Viveri.

...e Corsica, avverta del Deposito Speciale Vivieri di Napoli. I tre Enti su indicati provvederanno inoltre al rifornimento dei magazzini di distribuzione dislocati nel proprio settore. Il rifornimento alle truppe dislocate nelle zone avanzate avverrà mediante consegna da parte dei tre comandi Depositi agli Enti indicati che verranno ai volta in volta indicati. Tali Enti cureranno il successivo inoltro ai reparti.

Per tanto le Direzioni di Commissariato Governativo, d'ora innanzi, direttamente assicurare il solo rifornimento alle truppe dislocate nel proprio settore, riservando senz'altro vietati i prelevamenti da parte di Corpi non appartenenti al settore, tranne nei casi di volta in volta autorizzati da questo Ministero. I casi dubbi che potrebbero eventualmente presentarsi per lo spostamento di reparti ecc., saranno risolti dal Comando Militari di regione.

4°) DISTRIBUZIONI: Le distribuzioni ai reparti avverranno con le modalità consuete in base alle Nazioni vigenti.

Per l'attuazione di quanto sopra si dispone:

a) Frutta secca: Nel Deposito Centrale Vivieri di Taranto e nei Depositi Speciali Vivieri di Bari e Napoli dovranno essere sempre tenuti accantonati i seguenti quantitativi:

- Deposito Centrale Vivieri di Taranto	5.14	350
- " " Speciale Vivieri di Bari	"	400
- " " " Napoli	"	1.000

presumibile fabbisogno di 20 giornate di distribuzione.

Le Direzioni di Commissariato della Puglia e Lucania e della Campania restano senz'altro autorizzate ad effettuare gli acquisti, reintegrando ai volta in volta i quantitativi consegnati o spediti. La Direzione di Commissariato della Puglia e Lucania provvederà agli acquisti anche per il fabbisogno del Deposito Centrale Vivieri di Taranto. Tener presente che i quantitativi sopra indicati riguardano la frutta secca sguanciata a mandorla e pertanto essi andranno migliorati secondo le note equivalenze, nel caso di acquisti di frutta secca a polpa.

Gli acquisti dovranno essere effettuati con la massima sollecitudine: eventuali difficoltà saranno tempestivamente comunicate a questo Ministero.

0/0/0/0/

Le Direzioni di Commissariato della Sicilia e della Calabria, sfruttando le risorse della zona, provvederanno del pari agli acquisti della frutta secca occorrente per le truppe del proprio settore, tenendo sempre accantonate almeno 20 giornate di distribuzione. Eventuali difficoltà che rendessero necessarie esenzioni dalle Puglie saranno segnalate tempestivamente a questo Ministero.

La Direzione di Commissariato della Sardegna il cui fabbisogno è compreso nei quantitativi accantonati presso il Deposito Speciale Viveri di Napoli, è stata segnalare le eventuali disponibilità dei mercati dell'Isola ed i prezzi correnti, affinché possa esaminarsi la opportunità di eliminare gravosi trasporti del Continente.

Le Direzioni di Commissariato della Puglia e Lucania e della Campania comunicheranno, inoltre, telegraficamente i prezzi medi attualmente correnti nel proprio settore per i vari tipi di frutta secca e le presumibili disponibilità del mercato, modo che questo Ministero possa esaminare la possibilità di spostamenti di quantitativi da un settore all'altro, al fine di realizzare economie di spese.

b) VINO: Le Direzioni di Commissariato di Catanzaro e Palermo provvederanno senz'altro ad assicurare il fabbisogno per le truppe dislocate nel proprio settore con acquisti diretti, tenendo presente che per evitare discontinuità nel servizio, occorre che nei dipendimenti magazzini siano sempre accantonate almeno 10 giornate di distribuzione.

Per il rifornimento alla truppa e agli altri settori ed alle truppe dislocate nelle zone avanzate, occorrerebbe che nel Deposito Centrale Viveri di Taranto e nei Depositi Speciali Viveri di Bari e Napoli venissero accantonate 20 giornate di distribuzione, nelle proporzioni indicate per la frutta secca.

Tuttavia, tenuto conto che, per difficoltà sopravvenute della distribuzione, l'attività di rustine e di stoccaggio nei Depositi, il rifornimento da Taranto riesce di difficoltà estrema, e allo studio il problema della provvigione, entro un periodo dei reperti avanzati, si fa quindi riserva di precisare i quantitativi da accantonare.

In ogni modo la Direzione di Commissariato di Bari e la Direzione di Commissariato di Napoli, provvederanno sin da ora senz'altro ad assicurare nelle proprie zone i massimi quantitativi possibili in relazione alle disponibilità di fusti, comunicando a questo Ministero i quantitativi occulti così accantonati nei Depositi.

c) TACACCI E R. DIS. INDUZIONI: Presso il Deposito Centrale Viveri di Taranto ed i Depositi Speciali Viveri di Bari e Napoli dovranno essere sempre accantonati e...

truppe secca e le presunte perdite. Questo ministero possa esaminare la possibilità di spostamenti di quantitativi da un settore all'altro, al fine di realizzare economie di spese.

b) VINO: Le Direzioni di Commissariato di Catanzaro e Palermo provvederanno senz'altro ad assicurare il fabbisogno per le truppe dislocate nel proprio settore con acquisti diretti, tenendo presente che per evitare discontinuità nel servizio, occorre che nei dipendimenti magazzini siano sempre accantonate almeno 10 giornate di distribuzione.

Per il rifornimento alla truppa e agli altri settori ed alle truppe dislocate nelle zone avanzate, occorrerebbe che nel Deposito Centrale Viveri di Taranto e nei Depositi Speciali Viveri di Bari e Napoli venissero accantonate 20 giornate di distribuzione, nelle proporzioni indicate per la truppa secca. Tuttavia, tenendo conto che, per difficoltà dipendenti dalla limitatissima disponibilità di fucile e di saggio nei Depositi, il rifornimento da cargo riesce di difficilissima attuazione, è allo studio il problema della provvigione sul posto dei reparti avanzati, si fa quindi riserva di precisare i quantitativi da accantonare.

In ogni modo la Direzione di Commissariato di Bari e la Direzione di Commissariato di Napoli, provvedano sin da ora senz'altro ad acquistare nelle proprie zone i massimi quantitativi possibili in relazione alle disponibilità di fucili, comunicando a questo Ministero i quantitativi potuti così accantonare nei tre Depositi.

c) TACACCHI PER ISOLATORI: Presso il Deposito Centrale Viveri di Taranto ed i Depositi Speciali Viveri di Bari e Napoli dovranno essere sempre accantonati e fatti rovere i seguenti quantitativi:

- Deposito Centrale Viveri di Taranto.....	9.11	60
- " Speciale " " Bari.....	"	45
- " " " Napoli.....	"	100

A cura di questo Ministero si provvederà a far affluire i quantitativi sopra indicati nelle fonti di approvvigionamento in conformità delle assegnazioni mensili da parte della Direzione

././.

Generale dei Monopoli di Stato.

Le scorte la cui sostituzione è stata disposta con precedenti dispacci s'inventano assorbite dai quantitativi soprastipificati.

La Direzione di Commissariato della Sardegna continuerà a richiedere il proprio fabbisogno agli enti dell'Amministrazione dei Monopoli dell'Isola, segnalando mensilmente i quantitativi ottenuti, perchè possa spedirsi al Continente la differenza. Per i tabacchi a pagamento, invece, questo Ministero disporrà la ripartizione mensile come di consueto, in relazione alle disponibilità.

a) SALÉ: Presso il Deposito Centrale Viveri di Taranto e presso i Depositi Speciali Viveri di Bari e Napoli dovranno essere sempre tenuti accantonati e fatti notare i seguenti quantitativi:

- Deposito Speciale Viveri di Napoli.....	q.li	700
- " " " Bari.....	"	300
- " " Centrale " " Taranto.....	"	400

che a cura di questo Ministero verranno fatti affluire dalle fonti di approvvigionamento.

Le Direzioni di Commissariato della Sicilia e della Sardegna provvederanno all'approvvigionamento sulle Saline locali dei quantitativi occorrenti per le truppe dislocate nelle Isole. -

e) OLIO: Per l'approvvigionamento dell'olio e per l'accantonamento dei quantitativi seguiranno disposizioni allorchè il Ministero dell'Agricoltura e Foreste avrà segnalato i Consorzi Agrari presso i quali dovranno effettuarsi i ritiri.

Temporaneamente, pertanto, il servizio sarà assicurato con le modalità fin qui praticate in base alle disposizioni che di volta in volta verranno emanate da questo Ministero.

f) FIAMMIFERI: A cura di questo Ministero sarà provveduto ai rifornimenti ai Depositi Speciali Viveri di Napoli e Bari e al Deposito Centrale di Taranto presso i quali saranno sempre tenuti accantonati i seguenti quantitativi:

- Deposito Speciale Viveri di Bari.....n°	7.000.000-fiamm.
- " " " Napoli.....	" 30.000.000 "
- " " Centrale " " Taranto.....	" 6.000.000 "

A questo proposito si fa presente che, mentre per gli altri generi, di massima, il rifornimento al settore della Calabria e della Sicilia avverrà dal Deposito Centrale Viveri di Taranto, per i fiammiferi invece verrà effettuato dal Deposito Speciale Viveri di Napoli.

Perchè si possa, per i generi il cui approvvigionamento viene curato direttamente da questo Ministero, con la massima pos-

 che a cura di questo Ministero verranno fatti affluire nelle fonti di approvvigionamento.

Le Direzioni di Commissariato della Sicilia e della Sardegna provvederanno all'approvvigionamento sulle Saline locali dei quantitativi occorrenti per le truppe dislocate nelle isole.
 e) OLIO: Per l'approvvigionamento dell'olio e per l'accantonamento dei quantitativi seguiranno disposizioni allorchè il Ministero dell'Agricoltura e Foreste avrà segnalato i Consorzi Agrari presso i quali dovranno effettuarsi i ritiri.

Temporaneamente, pertanto, il servizio sarà assicurato con le località fin qui praticate in base alle disposizioni che di volta in volta verranno emanate da questo Ministero.

f) FIAMMIFERI: A cura di questo Ministero sarà provveduto ai rifornimenti ai Depositi Speciali Viveri di Napoli e Bari e al Deposito Centrale di Taranto presso i quali saranno sempre tenuti accantonati i seguenti quantitativi:

A questo proposito si fa presente che, mentre per gli altri generi, di massima, il rifornimento al settore della Calabria e della Sicilia avverrà dal Deposito Centrale Viveri di Taranto, per i fiammiferi invece verrà effettuato dal Deposito Speciale Viveri di Napoli.

Perchè si possa, per il genere il cui approvvigionamento viene curato direttamente da questo Ministero, con la massima possibile urgenza ordinare i reintegri delle scorte che verranno costituite in base alle disposizioni di cui sopra, le Direzioni di Commissariato della Puglia e Lucania e della Campania e l'Ufficio Autonomo di Commissariato di Taranto provvederanno a trasmettere telegraficamente ogni 10 giorni e precisamente il 5, 15 e 25 di ciascun mese, la situazione delle scorte di tutti i generi addizionali, precisando i quantitativi esistenti, quelli da spedire o cedere e quelli da ricevere.

o/o/o/o

La Delegazione "T" Celio S.M.A.M. è pregata di voler comunicare a tutti i reparti dipendenti che, in relazione al nuovo sistema di rifornimento, le truppe dislocate a nord di Roma e che non appartengono alla categoria III-III verranno rifornite dei generi addizionali tramite le M.A. e che pertanto, d'ora in poi, non si procederà all'assegnazione diretta ad essi per nessuna ragione.

Per i Ministeri della Marina e dell'Aeronautica si suggerisce che l'approvvigionamento dei generi addizionali continuerà ad essere curato da ciascuna Forza Armata per proprio conto.

Si fa soltanto riserva di comunicazioni circa l'olio ed i fiammiferi.

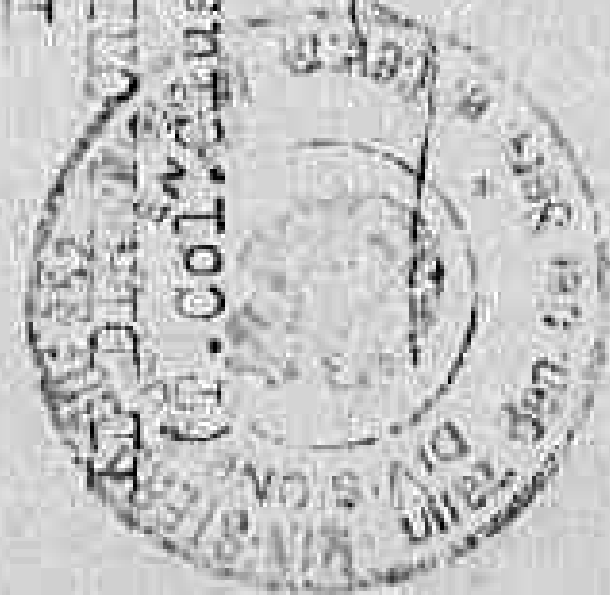

I predetti Ministeri, tuttavia, vorranno esaminare la opportunità di adeguare i loro sistemi di approvvigionamento e di rifornimento a quello sopra indicato, soprattutto per quanto attiene alla costituzione delle scorte nei settori di Bari, Taranto e Napoli nelle porzioni fissate per l'Esercito da questo Ministero, tenuto presente che la Sotto-commissione Alleata ha espresso il desiderio che la medesima organizzazione venga adottata per tutte le M.A.

Le Direzioni di Commissariato in indirizzo e l'Ufficio Autonomo di Commissariato di Taranto provvedano d'urgenza all'attuazione di quanto disposto con il presente dispaccio, segnalando tempestivamente tutte le difficoltà pratiche che eventualmente si presentassero e gli eventuali accorgimenti che potrebbero venire adottati per la pronta eliminazione di tali difficoltà.

Assicurare.

SUBJECT: Unfreezing of Potatoes for the Italian Armed Forces.

This Ministry has received new requests for unfreezing potatoes in the Avezzano area, for the Italian Armed Forces.
As this unfreezing would be very helpful for the supplying of fresh vegetables to the troops in the Rome area, would the MMIA be so kind as to examine the possibility of allotting at least 200 tons. of potatoes to the Rome Commissariato.
We understand that this allocation would not diminish the supply of potatoes to the civilian population, due to the large quantities available in that area.

Questo Ministero ha ricevuto nuove richieste di sblocco di patate nella zona di Avezzano, per le P.E.AA. -

Poichè con tale sblocco verrebbe ad essere notevolmente facilitato l'approvvigionamento dei vegetali freschi per le truppe dislocate nel settore di Roma, pregasi voler cortesemente riesaminare la possibilità di una assegnazione alla Direzione di Commissariato di Roma di almeno 200 tonnellate di patate. -

Si ritiene, d'altra parte, che tale assegnazione non verrebbe ad incidere in maniera apprezzabile sul rifornimento di patate per la popolazione civile date le grandissime disponibilità esistenti nella indicata zona. -

TO : Allied Force Local Resources
(Italian) Board.

Ref para. 9 of the minutes of the Food Supply Committee meeting of 10 Oct. 44 - IRA/216 of 11 Oct. 44.

1. It is not considered necessary to lay down priorities other than those given in AFHQ Adm. Memorandum No. 42 of 21st Sept. 44.
2. The needs of the Italian Armed Forces and the mid-shift meal are civil commitment and should be covered before any availability is declared to the Food Supply Committee for allocation between the Allied Forces.
3. On the basis of the existing instructions contained in Administrative Memorandum No. 42, ACC would provide for the needs of hospitals and the victualling of ships as priority commitment. They would then meet the needs of the Italian Armed Forces, the mid-shift meal for civilian workers, and the civil population. After all these commitment, were met, the surplus would be declared as available to the Food Supply Committee for allocation between the Allied Forces.

1. Your authority is requested, on behalf of the Italian War Ministry, for permission to purchase Dried Vegetables, Dried Figs, and Filberts of which the latter two items are understood to be in plentiful supply.
 2. As there is a shortage of Fresh Fruit, these two items could be issued in lieu to make the most of local resources in each area.
 3. It would be appreciated if special attention could be given to this request, as the local resources items on the Italian Ration Scale are in very short supply, and the surpluses allocated to them each month by no means meet their requirements.
 4. It is pointed out also, that there are no allied items supplied to them from Allied Sources, which can be issued in lieu.

TO : War Ministry.

1. There is a severe shortage of potatoes in the local markets for civilian consumption. Due to this fact, you will please issue instructions to all units of the Italian Armed Forces to the fact that no potatoes will be purchased until further notice. Severe penalties will be taken against the sellers, and the potatoes are liable to confiscation from the purchasers.
2. Please give this matter your prompt attention, and send us copy of your directive concerning the same.

Subject: Defreezing of Potatoes.

Ref your ST/56 of 12 Aug 44.

With your ST/56 dated 19th July 44, you authorized the supplying of 1070 tons of Potatoes in Western Italy - consequently orders were issued to Commissariat Directorate for the purchase.

In the meantime, the potatoes were frozen at the NAPLES market, for which the Mil Comm. Dir. of NAPLES has had to request the defreezing of quantities for its own requirement to the Local Resources Section.

Therefore, we do not understand the reason for which the Local Resources Section has sent the Naples Com Dir request to MMIA.

Therefore, on returning aforementioned request we beg MMIA to approach the organizations concerned in order to obtain the defreezing of the quantities once authorized by Local Resources Section.

As is evident, we are dealing with quantities once authorized by Local Resources Section and therefore no obstacle should be placed in the way for their defreezing.

P. M. 107. li 21 agosto 1944

Con il foglio ST/56 del 19 luglio 1944 contesta Sottocommissione autorizzava l'approvvigionamento di 1070 tonnellate di patate nell'Italia occidentale. - Furono in conseguenza impartite istruzioni alle Direzioni di Commissariato per l'acquisto.

Nel frattempo le patate, presso il mercato di Napoli, sono state bloccate, per cui la Direzione di Commissariato Militare di Napoli ha dovuto richiedere lo sblocco dei quantitativi per sé occorrenti alla Sezione Risorse Locali.

Non si comprendono, pertanto, i motivi per i quali la Local Resources Section abbia trasmesso a contesta Sottocommissione la richiesta della Direzione di Commissariato di Napoli.

Pertanto, nel restituire l'anzidetta richiesta, si prega contesta Sottocommissione di voler intervenire presso i competenti organi per ottenere lo sblocco dei quantitativi autorizzati, o di comunicare se eventualmente detta richiesta non debba essere inoltrata ad Autorità italiane.

Trattasi, come è evidente, di quantitativi già autorizzati dalla Sezione Risorse Locali e quindi nessun ostacolo dovrebbe frapporsi al loro sblocco.

Subject Estimate of food requirements to be acquired from local resources during August.

ST/56

We enclose, in triplicate copy, the list of requirements of foodstuffs to be acquired from local resources for St. Anne's Forces located south of Allied operating zone.

The estimate was calculated on the basis of the ^{present} strength of said line, as the Ministry does not have ^{the} info from which to deduce the variations in strength on the movement of units from north to south and south to north.

The salt ration was ³⁸⁹ 23 grams, as a consequence of reduction of quantity distributed for the cooking in the messes (25 grams)

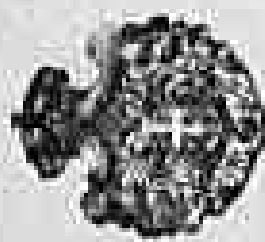

- to 2 grams). The other three grams
are used for making bread.

- For the fresh veg. and fruit,
the percentage of the various types
(which are forecast as being available
in August, on the market in the
various regions) have been
indicated

Reply to 57/56 of June 16, 1944. 11.

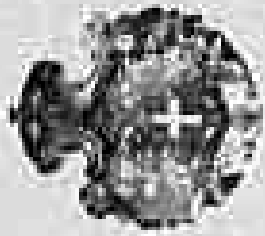

As known, fresh veg. and fruit, & dried fruit in almost all of the cases, are brought from local necessities.

Therefore, as a consequence of the complete disappearance of the requirement reported, the units have been authorized to purchase all the quantities they require on the basis of the quantities for them for the aforementioned localities.

As for paragraph 2 of said letter, please note that it is absolutely impossible to report the exact quantity required of the various types of veg. & fruit, given that the units required them in different quantities from local necessities according to the availability which differs from time to time and from zone to zone. Now, on the other hand, as it says to 3850 the requirement reports distinguished by type for all the units and also for those located in the most remote localities.

However, in the limits of possibility, we will specify the kinds of veg. and fresh fruit required for each region, in our next report.

Come è noto, i vegetali freschi e la frutta fresca e secca vengono acquistati, nelle quasi totalità dei casi, a cura dei reparti dal commercio locale.

Pertanto, come conseguenza della integrale approvazione del fabbisogno segnalato, sono stati autorizzati i reparti ad acquistare tutti i quantitativi loro occorrenti in base alle aspettative previste per i suddetti generi.

Per quanto riflette il paragrafo b) del detto foglio, si fa notare che è assolutamente impossibile poter segnalare esattamente i quantitativi occorrenti dei vari tipi di verdura e frutta, dato che i reparti si riforniscono sul posto a seconda delle disponibilità che variano nel tempo e da zona a zona; nè d'altra parte è agevole avere le segnalazioni dei fabbisogni distinto per tipi da tutti i reparti ed anche da quelli dislocati nelle più remote località.

Comunque, nei limiti del possibile, si provvederà dalla prossima segnalazione a specificare la specie di vegetali e frutta fresca occorrenti per ciascuna regione.

Date June 1, 1944

SUBJECT Estimated local purchase requirements.

We enclose, in triplicate copy, ~~into estimated~~ local purchase requirements for the Italian Army for the month of July. The estimate was calculated on the basis of the strength actually fed as the Ministry did not have the elements from which to deduce its strength of the month of July.

For CAMPANIA (Lt. Army) the calculation was ~~based~~ on the basis of a strength considerably ~~exceeded~~ in regard to the one reported with the previous list because of the new arrival in CAMPANIA of units located previously in SARDINIA.

However, when possible, the requirements of said Region for the month of June, sent by letter 5187/5 of May 21, should be modified and equal to that of the month of July, less one day.

The salt rations have been calculated at 2.5 grams this time ³⁸⁰ instead of 3.0 grams as 3 grams are sufficient for the mauling of bread.

did not have the elements of known value to deduce the strength of the Month of July.

For CAMPANIN (At. Army) the calculation was ~~Value~~ on the basis of a strength considerably ~~superior~~ in regard to the one reported with the previous list because of the new arrival in CAMPANIN of units located previously in SARDINIA.

However, when possible, the requirements of said Region for the month of June, sent by letter 5187/3 of May 24, should be modified and agreed to that of the month of July, less one day.

The salt ration has been calculated at 28 grams this time ³⁸⁰ of 30 grams as 3 grams are sufficient for the making of bread.

Si trasmettono, in triplice esemplare, gli specchi relativi al fabbisogno per mese di luglio delle derrate da acquistarsi dalle risorse locali per le FF.AA. italiane. =

Il preventivo è stato calcolato in base alla forza attualmente vettovagliata non avendo questo Ministero elementi dai quali poter desumere la forza del mese di luglio. =

Si precisa che per la Campania (R.Esercito) il calcolo è stato effettuato in base ad una forza notevolmente superiore rispetto a quella segnalata con lo specchio precedente a causa dei nuovi arrivi in Campania di Reparti precedentemente dislocati in Sardegna. =

Pertanto, ove possibile, il fabbisogno della detta Regione per il mese di giugno, trasmesso col foglio 5187/S del 24/5, dovrebbe essere modificato e considerato uguale a quello del mese di luglio diminuito di un giorno. =

La razione del sale è stata calcolata questa volta in gr. 28 anziché in gr.30 essendo sufficienti 3 gr. per la cotizzazione del pane. =

a. Fresh Vegetables.

The ration scale for Fresh Vegetables has been increased from 8 ozs to 12 ozs by the Italian War Ministry. The reason for this increase is due to reports made to the effect that the Vegetables when purchased include many outside leaves and stalks which are not edible, and to enable the individual to receive his proper ration of 12 ozs per man per day is purchased.

b. Salt.

The increase in the salt ration is explained by:

25 grms for cooking meals.

5 grms for use in Bread making.

20 grms a day (only issued during every second fortnight) per animal. The AFHQ forage scale was adopted in Mar 44 on the suggestion of DDST, AFHQ (Adm Ech) (ST Flambo signal ST/20641 dated 3 Mar 44, refers).

1. Receipt is acknowledged of your ST/56 dated 2 MAY 44 enclosing requirements of Italian Armed Forces.
  2. On future returns it is requested that the requirements be shown for the following month and not for the current month, for example the next return which is due on the 7th June 44 should be the requirements for the month of July.
  3. It is noted from the figures submitted by you for the month of May that Fresh Vegetables are being demanded at the rate of slightly over 12 ozs. per man per day, and salt at a rate slightly in excess of 1 oz. per man per day.
  4. In both the basic ration and combat ration it is understood that the scale of issue is 8 ozs. of fresh vegetables and  $\frac{1}{2}$  oz. of salt (HQ AAI Adm Instr. No. 3 dated 19 Mar 44 refers) and a statement of the authority under which these additional amounts are being demanded is requested.

1. Will you please forward to this Sub Commission, on the last  
day of each month, statement (in triplicate) showing the total  
of the Italian Armed Forces estimated local purchase requirements  
for the following month. These returns are required in respect  
of the Italian Armed Forces on the Mainland of Italy, behind  
Combat Zone.

2. The items to be shown on the return, are those on the Italian  
Ration Scales which are purchased locally by the Italian Armed  
Forces, namely:

|                  |         |
|------------------|---------|
| Fresh Fruit      | Lbs.    |
| Fresh Vegetables | Lbs.    |
| Olive Oil        | Lbs.    |
| Nuts             | Lbs.    |
| Salt             | Lbs.    |
| Wine             | Litres. |

that they be shown in the above measure, and it is requested

3. The return should be made out in a similar manner to the  
enclosed pro forma, to show the estimated strengths in each  
Province, and the amounts required.

4. Please arrange for your first return, for the month of MAY, 44,  
to reach this Sub Commission by not later than the morning of the  
1st May 1944.

5. It is brought to your notice, that these returns will be  
passed to Allied authorities who require the data in connection with  
the Importation, etc., of foodstuffs, and it is most essential that  
they reach this office promptly.
