Further to our 60/5019 dated 4 Dec 1946 it is confirmed that the POL allocation for the month of January has been cut by 50%. All addressees are asked to make a further reduction in consumption and to draw the quantities of POL required for urgent services and for public security services from the reserves at the disposal of respective Military Territorial Command.

An additional further allocation will be made.

SUBJECT:- Provision of POL for Italian Army.

Ref A.C. letter 8255/204/EC dated 3 June 46 and your reply G5:960/51 dated 17 June 46.

1. Owing to the non-arrival of shipping in Italy the Italian Ministry of Industry and Commerce have been forced to cut the allocation of POL to the Italian Army for the month of November by 50%. A Similar cut is expected in December.

2. As a result of this reduction the Italian Army has introduced emergency measures to reduce its petrol consumption but has also had to draw on its reserve stocks.

3. It is possible that the shipping situation may improve but failing this by 1 Jan 47 the Italian Army will be faced with the situation of having only 1 month's supply of POL plus whatever is allocated for January.

4. Naturally, this is a cause of grave concern to the Italian Ministry of War and they have approached this Mission with a request that we examine the possibility of POL being supplied on loan to the

5. The Ministry of War estimate their requirements as:-

Petrol M.T.	3,500	tons	per	month
Derv.	1,000	"	"	"
Kerosene	40	"	"	"
Engine Oil	160	"	"	"

...../2

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

6. It is realised however by this HQ that these quantities represent a commitment which is far too heavy to be met in full and it is therefore suggested that the figures be reduced to, say:-

Petrol M.T.	1,200	tons	per	month
Derv.	400	"	"	"
Kerosene	15	"	"	"
Engine Oil	60	"	"	"
Gear Oil	10	"	"	"

7. May ~~the~~ a reply please be given in order that the Ministry of War may be informed if such assistance would be forthcoming should the situation referred to in para 3 above arise.

SUBJECT:- POL requirements for a month.

Further to letter 6C/2113 dated 13 May 1946.

Further to verbal agreements.

As you are aware, owing to reduced imports from the USA, the Ministry of Industry and Commerce have reduced the allocations of POL for the month of November by the 50% to the whole Army (incl. Carabinieri).

It is understood that allocations for December will also be reduced as during November.

This S.M. has faced the a/m reduction by taking the necessary steps in favour of dependent Territorial Commands and by using the availabilities of POL at the disposal of various Territorial Commands as an intangible reserve; these reserves will allow to secure all the indispensable services during the month of December if, as already said, the same reduction will be necessary.

But as it is indispensable to meet entirely the requirements of POL at least for the month of January and to reconstitute the reserves of POL being used now, we ask MMIA to examine the possibility of applying to the Allied GHQ and request that if the present position will last, the Army be allowed to draw POL from Allied depots.

For this purpose forwarded herewith is a proforma showing the quantities of POL, relative to one month's requirements, to be collected in the following places in case of CIP failing to consigne POL:-

PROVISION OF P.O.L.

From information received from Capt. STOPFORD R.N.V.R., Industries & Utilities (Fuels) Sub Division, the supply of POL to Italy appears to operate as follows:-

I. ALLIED FORCES.

Supplied through Allied Forces channels.

II. ITALIAN ARMED FORCES.

The Ministries concerned bid to the Ministry of Industry and Commerce, copy to the Ministry of Foreign Trade.

The Ministry of Foreign Trade determine to dollar availability and purchase accordingly. So far purchasing power has been sufficient to meet requirements.

III. INDUSTRIAL AND CIVILIAN REQUIREMENTS.

This is purchased entirely by UNRRA. UNRRA notify in advance the probable availability. An inter-Ministrial meeting is then held and a share out of the POL amongst the various consumers agreed upon. If actual availability falls short of the forecast figure the consumers are notified that their allocations has been cut.

This system is due to finish at the end of January 1947 with the cessation of UNRRA aid and it will then devolve on the Italian Government.

The present availability of POL in Italy is low but four tankers have been advised for December, the first due on 5 Dec. These will produce about 540,000 barrels which based on recent figures (Armed Forces plus Civil) represents approximately two months maintenance.

Ministry of War (Ten.Col. ALOIA) state that POL demands have been met until November when C.I.P. imposed a 50% cut and a similar cut is anticipated for December. Figures for the past three months are:-

		DEMANDED	RECEIVED
September	Petrol	30,000 brls	30,000 brls
	Derv	10,000 "	7,000 "
October	Petrol	30,000 "	25,250 "
	Derv	10,000 "	5,198 "
November	Petrol	30,000 "	12,630 "
	Derv	8,000 "	2,599 "

and Commerce, copy to the Ministry of Foreign Trade.

III. INDUSTRIAL AND CIVILIAN REQUIREMENTS.

This is purchased entirely by UNRRA. UNRRA notify in advance the probable availability. An inter-Ministrial meeting is then held and a share out of the POL amongst the various consumers agreed upon. The present availability of POL in Italy is low but four tankers have been advised for December, the first due on 5 Dec. These will produce about 320,000 barrels which based on recent figures (Armed Forces plus Civil) represents approximately two months maintenance.

Ministry of War (Ten.Col. ALOIA) state that POL demands have been met until November when C.I.P. imposed a 50% cut and a similar cut is anticipated for December. Figures for the past three months are:-

		DEMANDED	RECEIVED
September	Petrol	30,000 brls	30,000 brls
	Derv	10,000 "	7,000 "
October	Petrol	30,000 "	25,260 "
	Derv	10,000 "	5,198 "
November	Petrol	30,000 "	12,630 "
	Derv	8,000 "	2,599 "

Presumably this cut is due to the failure of shipping to arrive (strikes in USA, etc.) and will be restored when POL becomes available in Italy. This is confirmed by C.I.P.

Army reserves at the moment represent approx two months supply and Ministry of War have written to MMIA today asking about loans from Allied stocks in an emergency.

SUBJECT:- Mk Containers.

1. The S & T Liaison Officer recently visited 20 Transport and Supply Coy (POW) Div.) and during the course of his inspection of the MOL he found the unit was considerably handicapped by the lack of sufficient quantity of barrels.

2. These barrels are required as various units of the Division are out on training and it is found difficult to make issues owing to this shortage.

3. It is therefore requested that if possible an allotment of 200 barrels be made to this Coy during subsequent releases of POL.

In reply to letter ST/366 dated 2 Nov 46.

CIP in letter 8114 dated 12 Oct 46, forwarded to MMIA with letter 6C/4363 of 21 Oct 46, have informed that the quantities of POL issued by AGIP Refinery of BARI to 1 Special Tpt Coy for the transport of ammunition have been considered as issued on account of CIP.

This withdrawal, as per agreements in course, will be regularised by payment to be made by the Military Administration directly to CIP.

For the above, it is in the opinion of this S.M. that the petrol in question is not to be returned to Allied Depots.

We will be awaiting for your decisions.

A complaint has been received from the General Officer Commanding the Military Mission to the Italian Army, to the effect that officers of this mission are still experiencing difficulty in obtaining POL from GIP Depots whilst on tour outside Rome. 3903

Will you please ensure that all depots under your control are instructed to issue POL to all Military Vehicles, the drivers of which produce the correct authority.

He also complains that the quality of Lubricating Oils as supplied by GIP to units of the Italian Army would appear to be much inferior to that supplied to British Vehicles.

Will you please take steps to rectify this.

1. The paragraph referred to concerns Italian Transport Units only.

2. The percentage of oil allowed by the Ministry of War to Italian Transport Units has been raised from 3,5% to 4,1% of Petrol or Derv. allocations per month.

3. Owing to the majority of engines on Italian Army vehicles having done excessive milages without re-boring, and due to worn bearings, the average oil consumption is considerably in excess of the 4,1% allowed.

4. 7 Territorial Command has requested an increase of oil from 4,1% to 5 or 6% which is considered reasonable.

5. The question of drawing P.C.I. from C.I.P. will be solved when the Ministry of War assigns the promised Road Tanker.

LOANS TO THIRD PARTIES
Issues to British Military.
Issues to British Civil Agencies.
Issues to British Embassy.

1) The denomination "Loans to third parties" substitutes the one in use till now i.e. "Consignments".

In accordance with N°1 Petrol Insp. SACMED letter CL/I/8 dated 19/9/46, addressed to C.I.F., Rome, we hereby notify all CIF dependences as to the procedure to be observed and followed with effect from 1st October 1946.

The following instructions are, naturally, to be considered partly in substitution and partly as completion of those sent out in the past.

2) ISSUES TO BRITISH MILITARY (Bulk products).

The British Military Units have been notified by SACMED/ACMERCU in a General Routine Order that POL bills to CIF will be made by completing the Army Form G 1033 in quadruplicate.

With effect from 1st October 1946 this "voucher" will, therefore, be considered the only document valid as to the return to CIF of the products consigned by them to the Units in question.

../..

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

One copy of A.F. S 1033 will be detained by the withdrawing Unit, a second copy by the issuing Depot; the other two will be forwarded as follows:
a) to DST (HQ) direct from Genoa, Livorno, Taranto and Naples by the 6th of the succeeding month;
b) to CTP Head Office in Rome or to CTP Branch Office in Genoa, as per prevailing instructions, together with form 0150 (ex 32 CTP).

All the Installations other than the above mentioned and all inland depots will follow the routine procedure i.e. by submitting both copies with form 0150 (ex 32 CTP), to CTP, Rome or Genoa.

Though obvious, we wish to point out that POL consignments to British Military Units must not determine transmutations of packages. If necessary, said movements will be arranged on exchange basis.

The address of DST/QMG is: General Headquarters G.S.F.
3. d T. BRANCH.

3) ISSUES DIRECT TO BRITISH MILITARY VEHICLE TANKS.

All Installations and depots will, in this case, follow the old procedure i.e., by submitting to the driver, upon presentation of the British Work Ticket or Travel Order, CTP form 0151 for its filling out.

At first, said documents will be forwarded, with CTP form 0150, to CTP in Rome or Genoa.

4) ISSUES TO BRITISH CIVIL AGENCIES AGAINST A.F. BRASCH COUPONS.

The British civil agencies are allowed to withdraw POL from CTP without payment against presentation of special coupons issued by A.F. BRASCH.

Every book contains N° 20 sheets of 5 coupons each, bearing the heading "One Unit (A.F. Fuel)". These coupons are entitled to:

4.50	Litres of	G.P. Spirit, each	(Blue coupons)
0.50	"	of Lube Oil "	(Pink ")
0.45	Kgs	of Grease "	(" ")

Upon presentation of the book, CTP personnel has to:
a) ascertain that the cover of the book be duly filled out and provided with the signature and seal of the issuing officer, keeping in mind that the instruction N° 2 shown in the inside book cover, is to be considered void.
b) refuse any coupons if detached, pretending the whole book be presented.

The issues in question, supported by coupons and by CTP form 0151, will be listed in the form 0150 (ex 32 CTP) which will be forwarded to Rome or Genoa.

The British Civil Agencies entitled to withdraw petrol are:

1) WAAFI/CTY
2) Polish Y.M.C.A.
3) Polish Y.W.C.A.
4) British Red Cross
5) Polish Red Cross
6) Council of Voluntary War Workers (Catholic Women Leagues; Church Army and Canteens; Salvation Army; Y. es M.Y.M.C.A. Y.W.C.A.; Christian Scientists Welfare and Methodist and U.K. Board Churches)
7) Clubs for British Forces

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

8) BRITISH Officers Clubs
9) Polish War Relief Service
10) Polish Catholic League.

The Depots authorized to accept these coupons are those shown in the list attached to our letter V/4003 dated 25/3/43, subject "Petrol for British Vehicles - Coupons G.P. STANDI".

9) Issues to British Embassy.

Also in this case the procedure remains unchanged.

CIP Zone Office in Rome issues to the British Embassy a quantity of special coupons, similar to those used by Diplomatic Corps, the colour of which is white as to the petrol and pink for the lubes. These coupons bear the heading "British Embassy".

Said coupons are to be spent with CIP Depots and Petrol Impregnated direct by CIP, without any payment as to the products withdrawn.

We wish to remind you the assuming of said issues:

a) the goods delivered free each Depot shall be discharged on the "direct reports" as transfers to CIP Provincial Agency, Rome.

b) take note of these deliveries and, at the end of the month, issue an only shipping ticket as to the transfers to CIP Provincial Agency in Rome (keep negregated fuels from lubes).

c) said shipping ticket shall be supported by a list showing the coupons spent keeping in mind that on these documents the quantity is indicated in volume, while on CIP forms it shall be accounted in weight. As to the petrol, the conversion will be made on the basis of the effective gravity of the day of delivery and, on the above mentioned list, the coupons will be classified according to the various gravities. As to the lubes it will be followed same procedure by adopting 0,900 gravity, except for CIP 31 which gravity is 0,905.

d) The transfer shipping ticket and the list, both in duplicate, together with the relative coupons, will be sent by registered letter to the CIP Provincial Agency in Rome by the 1st day of the consecutive month.

e) CIP Provincial Agency, Rome, which is in possession of all monthly transfers shall take in charge on its situations (Form 0159 CIP and 0140 CIP) the total amount and shall, at the same time, discharge same quantity under item "Issues to British Embassy". After these records, same agency will prepare the Form 0160 (ex 29 CIP) which shall bear the heading as above, providing that the coupons, a copy of the list and the shipping tickets be attached to same. Such documentation will be submitted to CIP Zone Office in Rome who, in accordance with agreements existing with the Embassy Representative, will prepare, upon receiving of said forms, a sole cumulative voucher.

On Form 0160 (ex 29 CIP) the issues are shown in the column headed "Issues to third parties".

The "Imperial Navy/Land/Air" of the Service Communications, to whom Form 0150 shall be forwarded, shall record these issues in expectation of regularment by British Authorities.

5901

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

The special compress "British Embassy" are distributed to:

1) British Embassy and its Consulates in Italy;
2) British Council and British Schools;
3) British Press and Information Offices;
4) Ministry of Transport;
5) Ministry of Supply;
6) Imperial War Graves Commission;
7) South African Legation.

SUBJECT:- Allocation of POL.

In reply to letter 717813/12 dated 11 Oct 46.

This S.M. in letter 60/3136 dated 16 July 46 pointed out to your Ministry that the percentage of lubricants allocated monthly to the dependent units (3,5%) was inferior to the actual requirements also the opportunity of increasing this percentage to the 5% for amounts of petrol drawn during spring and summer and to the 4% for the amounts drawn during autumn and winter.

In the meantime this S.M. had been asking, as during the past, for the following lubricants:-

- motor oil 3.5%
- gear oil 0.5%
- grease 0.2%

in the whole equal to the 4.2% of the petrol needed by the Army.

Your Ministry, in the letter referred to above, has allocated only a quantity equal to the 4% of petrol required by the Army.

By detracting from the a/m percentage the 0.5% of gear oil and the the o.2% of grease, the oil percentage is reduced to the 3.3%; this quantity is inferior to the one asked for so far (3.5%) and to the one to be reached (4 or 5% according to the season).

Although knowing the difficulties encountered in supplying POL this S.M. again points out the matter to your Ministry for further consideration asking to establish for the lubricants the following balance in respect of petrol allocated.

- motor oil 4 and 5% according to the season
- gear oil 0.5%
- grease 0.2%

We are awaiting for an urgent reply.

Risposta al foglio 717813/12 data 11 c.m.-

Questo S.M., col foglio 6C/3136 in data 16 luglio c.a., nel segnalare a codesto Ministero che il percento di lubrificanti assegnati mensilmente alle Unità dipendenti (3;5%) era inferiore all'effettivo fabbisogno, rappresentava l'opportunità di elevare detta percentuale al 5% per i quantitativi di carburante prelevati in primavera ed in estate ed al 4% per quelli prelevati nell'autunno e nell'inverno.

Nell'attesa questo S.M. continuava a richiedere come per il passato il seguente fabbisogno di lubrificante:

- olio per motori — 3;5%
- olio per cambi e diff.le — 5 per mille
- grasso — 2 per mille

complessivamente pari al 4,2% del carburante occorrente all'Esercito.

Codesto Ministero, con il foglio al quale si fa riferimento, accogliendo solo in minima parte le richieste inoltrate, ha assegnato globalmente, per gli olî e per i grassi, un quantitativo pari al 4% dei carburanti necessari all'Esercito.

Detraendo da detto percento il 5 per mille di olio per cambi e differenziale ed il 2 per mille di grasso, il percento utile per l'olio si è ridotto al 3,3%; quantitativo inferiore a quello sino ad ora richiesto (3,5%) ed a quello che è necessario raggiungere (4 o 5/ a seconda della stagione).

Pur essendo note le difficoltà relative all'approvvigionamento dei c. e l., questo S.M. rappresenta nuovamente la questione a codesto Ministero per il riesame e con preghiera di voler stabilire per i lubrificanti i seguenti rapporti nei confronti dei carburanti assegnati :

- olio motori — 4 e 5% a seconda delle stagioni;
- olio cambi e diff.: — 5 per mille
- grasso: — 2 per mille.

Si rimane in attesa di urgente riscontro.-

1. Recently several complaints have been received from various parts of the country as to the quality of oils, particularly engine oil, which have been supplied by you to the Italian Army.

2. As it appears that these oils are definitely inferior to those in use by the Allies would you please state how many miles you recommend that the engine should run before the oil is changed ?

Further to verbal informations.

This SME, even considering the present position and activity of your Commettee in order to met the requirements of the Army, is obliged to remark the deficiencies of the distribution of POL complained by the dependent Territorial Commands.

The result of the examinations of the a/m deficiencies is that the traitment used by the CIP Areas to the Units of the Italian Army is not careful and unsatisfactory.

Particularly it is pointed out

that very often the amounts of Benzina and Gazolio are mixed with water and other impurityes. (We have received this information from Cremona Div HQ about the amounts drawn af the CIP Depot of Turin.)

that the Benzina issued during the month of Sept from Cuneo CIP Depot to 114 Inf Regt was mixed with a considerable quantity of Karosene.

5876

that in the distribution of POL the requirements of the various seasons are not taken into account, and the phisicho-chemical caracteristics of POL are not suitable for the types of vehicles.used.

that some amounts of motor oil drawn by Milan Terr Command were mixed with water and considerable traces of rigenerated oil, (this SME has already recalled the attention of your Commmette on this matter by letter 6C/2178/ES dated 25 May 46 and 6C/2953/Q4 dated 10 July 46.)

In order to avoid the a/m deficiencies and discrepancies relative to the characteristics of the products, rules of consignment, weight etc; it appears necessary to stipulate as soon as possible a regular contract in which are definitely shown the clauses to be followed by CIP and dependent Units in every moment.

The Ministry of Tresure , by letter 15 7010 dated2 oct has clearly expressed their opinion on the matter.

The following discrepancies are due to the non exsistence of contractual obligations :-

between Genoa Terr Command and Genoa CIP Depot (see letter 02/22569/S of 7 Oct)°

———

Declassified E.O. 12065 Section 3-402/NNDG No. 785020

between Bolzano Terr Command and Padoa CIP Depot (see letter 6C/3495/B of 10 Aug):

Considering the above and awaiting for the stipulation of the contract, please issue necessary instructions to the dependent Units in order to :-

avoid the definciencies complained, the importance of which is well known by your Commettee.

recall the dependent CIP Units to the strict compliance with the temporary rules which regulate their contract with the Army represehtatives.

control the characteristic of POL before the issue , as to avoid controversies after the issue.

issue POL to the Army Units in every CIP Area by the suitable personnel , in order to avoid waist of time and incompetencies of the personnel incharged.

An urgent replay is requested.

N.66/4186/T1
Dated 6 Oct 46

Subject ; Gazolio for the Army.

This SME by letters 6C/2952 and 6C/3394 dated 11 July and 2 Aug 46 has asked your Committee to return 2,537,735 Kgs of Gazolio drawn, after agreements with the Allied Authorities, in the months of March, April and May 46 from the POL Depot in Puglia.

We have not yet received any replay.

The matter has in this moment the greatest importance because the a/m amounts of Gazolio, which price is very high, are prejudically burdening on the limited budget of the Italian Army.

Therefore we ask you to inform us about the amounts of Gazolio which are monthly returned to the Army, and the aliquot of the a/m amounts which will be returned to the POL Depot in Puglia.

Sgd Generale Liuzzi.

1) The copy of a translation 6c/3864/3-3 from the Ministry of War to HQ M.M.I.A. and for information to Udine Territorial Command dated 7 Sept 46, tries to make the point that POL for Italian Army Authorities in areas under AMG jurisdiction was supplied by the regional office concerned and quotes a letter ST/1601 of 11 April 1945.-

2) This HQ categorically states that POL for the 5 Comilit is not an AMG responsibility and never has been within the experience of the writer.

The allocation of POL in this Area as for the Italian Military Authorities is made direct on allocations from Rome to HQ offices of C.I.P. in Mestre and is not controlled by this HQ and is as follows :

Petrol	: Q.ls	500
Nafta	: "	350
Petroleum	"	500

3) This month the firm of DORIO Bros is engaged in removing C.E.M. on account of this HQ and has therefore been issued with an appropriate quantity of P.O.L. It must again be stressed that this HQ has NO reserves of POL available for any contractors working for the Italian Military Authorities.-

4) It is understandable that the 5 Comilit does not wish to reduce its own allocation of POL by supplying a contractor but, it is and remains the responsibility of the 5 Comilit to do so.-

1. A certain amount of difficulty has been experienced by officers of this HQ in drawing POL from CIP while on long journeys in particular at BELLUNO.

2. Your HQ letter ST/367 dated 31 May quotes a GHQ authority for drawing from CIP under the above circumstances.

3. Can you please take the matter up with CIP HQ ROME and get them to issue concise instructions to their depots on this matter, or alternatively to issue an authority in Italian which officers can produce to the local CIP depot.

Subject:- Lubricants and special Oils.

Since it is almost impossible to find the original Lubricants having the graduation of viscosity perscribed for the various seasons, the Hidraulic brakes fluid and the Shock absorber fluid, it would be necessary to have a list of the phisicho-chemical characteristics of such items, in order to choose those which, , in the Italian Market, have their characteristics more similar to those required, without running the risk to use unfitted items which could be dangerous.

Owing to the above, we ask MMIA to send to our Ministry the following books :-

a) Clearing, preserving and lubricating material recoil fluids, special oils and similar items of issued (S N L K-1.
b) Clearing, preserving Lubricants, and welding material and similar items issued by the Ordnance Department (T.M. 9-850/

If it is not possible to have the a/m books or if they do not show the informations wanted, we would be gratefull to MMIA if you would send to us at least 1 Litro of each item undermentioned, in order to analyse their characteristics in our laboratory in the Centro Studi.

1. In answer to your request about our opinion regarding the allocation of POL to DORIO Broths Firm of Udine, this Inspectorate specify that :-

the Military Administration has stipulated a contract with the DORIO Broths Firm for the fulfilment of the mines clearance in the Udine Privincial Territory.

the undertaking of the works, in all the National Territory, although belonging to the Ministry of War, is a very important matter of Public Utility, because besides the recovery of Italian Material which is in the Area, it is supposed to destroy all the explosive machines (projectiles, bombs and mines) in order to eliminate the various incidents which have been complained in the past and which could be complained in the future, and also to make possible the resumption of the agricoltural works, reducing the present unemployment.

the POL required by all the Firms which are carrying out the works in all the National Territory, has never been issued by the Military Administration, but by the Industry and Utility Sub Commission.

2. Owing to the above, we ask you to inform again AMG of Udine in order to come to the allocation of POL required by DORIO Broths Firm.

SUBJECT:- POL for Italian Military Vehicles.

We forward, herewith attached, copy of the letter 2117/ST2 received from GHQ CMF ST Branch, in which the a/m HQ ask the return to a British Depot of the amounts of POL handed to 1st Special Tpt Coy for the transport of ammunitions.

Further to telephone conversations, we ask your Ministry to let us know your opinion on the matter and give us details for an answer to the Allied HQ, specially pointing out the reasons for your Ministry would not eventually agree on the request.

We take the opportunity to inform you that Bari Area has let us know that during the month of July 46 the following issues of POL have been effected to 1st Special Tpt Coy on request of 56 Sub Area.

1,7,46	Benzina	Kgs.	3.016
"	Gazolio	"	2.028
10,7,46	Benzina	"	3,000
"	Gazolio	"	8.960
"	"	"	2.400
11,7,46	Benzina	"	2.940

The a/m issues, after the request of the Allied HQ located in the reffinery ANIC of Bari, have been effected for account of the Italian Ministry of War, and therefore our Provincial Agency located in the same Area has ordered the issue of a regular debit voucher to the 1st Special Tpt Coy.

INFO : CIP (ref letter 7281 of 23 Aug 46).

SUBJECT:- Issue of POL to Italian Military Vehicles.

We forward, herewith attached, copy of letter 7281 dated 23 Aug 46 of CIP relative to the return of POL issued in Puglia by the Allied Authorities to 1st Special Tpt Coy for the transport of ammunitions from TERLIZZI to BITONTO,

As it is known, in a meeting held in MMIA it was decided that the amounts of POL necessary for the a/m transport ~~from~~ should be issued by the Allied Depots, and the relative orders were issued by MMIA in signal Q/972 of 26 June 46.

After the beginning of the movement, MMIA ordered verbally that the amounts of POL required for the transport should be issued by S.M.E. and S.M.E. issued the necessary orders.

As a result of the above, this SME's opinion on the matter is that the POL issued by the Allied Depots to 1st Special Tpt Coy must be debited to MMIA and therefore no POL will be returned by this SME to the same Depot.

Please let us know your decisions on the matter.

folio 6 2nd letter

MMIA in letter ST/1601 of 11 April 45, ordered that the POL required by the Civilian Firms which work for the Italian Military administration, must be issued by the Italian Government.

In fact:-

In the areas under command of the Italian Government, the requirements of POL for the vehicles working for the Italian Army, are monthly forwarded by this SMRE to the Ministry of Industry and Commerce who provides at the relative allocation.

In the areas under the command of AMG the Italian Military Authorities, under which the Civilian Firm is working, forward to the regional Office concerned of AMG, the requirements of POL (as per letter ST/1601 of 11 April 45).

Considering the above, the POL for DORIO Brothers Firm, which work in the area under Allied control, must be requested by UDINE Terr Command to the regional office of AMG, which should arrange the issue of POL, drawing the necessary amount from the reserves at the disposal of Civilian Firms.

1. The following POL issues were made from British Petrol Points at BARI to Italian Military transport engaged on the movement of ammunition earmarked for the Italian Army from 501 BAD.

MT Petrol	1766 Imp gallis
Derv	528 " "
HD 30	132 " "
HD 50	250 " "
O 600	57 " "
Grease No 2	100 lbs

2. These issues were made solely because at the time of this movement the stocks of POL at the disposal of the Italian War Ministry proved to be insufficient, and in order to assist in the completion of this commitment, the above issues were authorised, for future repayment from the Italian War Ministry's stocks.

3. It is now desired to notify this position and it is requested that the above quantities be physically handed back to a British Depot.

4. Please inform this Directorate of the arrangements that can be made to effect this transfer.

5. Vouchers supporting the above issues are attached.

P.O.L. Division

1) Reference is your letter AC/I&U/POL/5146/9 dated 5th July 1946.-

2) The work being done by Messrs Dorio Bros. does not only onsist of removal of mines but in general the removal and breakdown of Italian ammunition.-

3) The breakdown of CEM ammunition has not yet begun but this will be commenced shortly.-

4.) The amount of petrol that this HQ has been able to allocate to the a/m firm is 2000 litres per month, and 500 litres of nafta. For reasons mentioned in para 2 above, this HQ considers that the Italian War Ministry should supply this firm with their POL requirements. This HQ agrees entirely with the contents of the letter dated 1st July from ADST, Land Forces Sub-Commission A.C. (MMIA) addressed to you.-

5) This HQ is not in a position to comply with the request of this firm for P.O.L. since the request of Messrs Dorio Bros. was made after our bid for P.O.L. had been made.-

CIP personnel are in general strike. In order to guarantee the supplies of POL necessary to Public Order services and works of national interest; the Ministry of Interior, after agreements with the other Ministries concerned, and C.I.P? Directorate, by signal 25659 of 17 July, have ordered the immediate requisitions and occupation of coast and land Depots located under their Command.
The Police with Army Units will accomplish the occupation.
As soon as the Depots are occupied all the Terr Comds and Calabria Div, after contacts with the concerned Authorities and C.I.P. Directorate, will guarantee the discipline and the running of the Depots under their Command by C.I.P. personnel.
The running of the coast Depots of Genoa, Vado Ligure, Leghorn, Naples, Palermo and Augusta is the care of Ministry of Navy; and the coast Depots of Porto Marghera and Bari is Ministry of Air Force's.
The administrative responsibility will be care of C.I.P.
The POL will be drawn only from the Depots located in the location of Terr Comds and in Cagliari, and will start after order of respective Terr Comd and Calabria Div.

1. MMIA in agreement with Chemical Provincial Laboratory of Mantova, have pointed out, by the letters herewith attached, that the Motor Oils "CIP 3" issued to the dependent Units are of inferior quality and they seriously damage the efficiency of the engines of the vehicles employed.

This SMRE has often recalled your attention on this matter and now we ask you to arrange as soon as possible the issues of the types of Oils under mentioned whose physicho- chemical characteristics can insure the perfect running of the engines.

2. Here under is the list of lubricants needed for the vehicles employed by the Italian Army.

1) - Reference yours 2110/6/SM2 dated 6 Jul 46 and enclosure.

2) - The question of the quality of labs supplied to Italian Forces has already been taken up with CIP from this office on representations by MMIA; with particular reference to Oil HD 50 which has been completely out of supply in some areas.

3) - The following factors are relevant:

a) - CIP supplies are maintained by ATS and a large back-log on deliveries of stated requirements has produced an all-round shortage, particularly in heavy grades. The situation is now improving.

b) - Motor Lubricants stated for on the Italian National Stats intended for use by civilians and the Armed Forces are commercial grades. Releases from Allied Military, mainly from RSS depots, in respect of stated requirements have very often been detergent oils and hitherto no action has been taken by CIP to segregate detergent from commercial grades. CIP are now making an inventory of stocks of Heavy Duty Oils held by them with a view to transferring these to depots where Italian Military demands are being made.

4) - Air Forces Allied Sub-Commission have been asked to give estimates of number of vehicles by locations at which supply is demanded in order that CIP may maintain adequate stocks of Military grades at those depots for one month's maintenance and one month's reserve.

5) - Monthly demands for Italian Military requirements are already being forwarded to CIP by the War Ministry. CIP have been requested to freeze their stocks of detergent grades to meet these requirements and to keep a stock at each depot for Italian Military constituents on a minimum basis of one month's requirement plus one month's reserve.

5805

6) - Should CIP stocks not prove sufficient to meet these demands, it will be possible to get supplies through on the National Stat in less than three [illegible] be obtained it may be considered necessary [illegible] from Allied Military

2. ADST MMIA has called at this Directorate and personally complained of inferior oils being issued to the Italian Army.

3. It will be appreciated that a great many MD vehicles are on loan to the IAF and Italian Army, and therefore it is in our own interests to ensure that sound MD 30 is issued to the formations concerned.

4. Please take up these complaints very strongly with CIF, and obtain assurance that sound lubs only are issued to the formations under discussion.

During the month of October 45 our establishment in Arezzo, that at that date was working as CIP Depot and as Allied Depot, handed to the a/m Unit Kgs 1486 of Benzina.

That amount, detracted from CIP reserves was considered as an allocation to Allied Forces. Major Peterson of CIP, refused the credit, because in his opinion, considering the receipt 093 CIP signed by the person incharged of the withdrawal of the stock, the allocation was to be considered as made to the Italian Army.

Our Florence Area which was informed that 7th Italian Pack Tpt Coy to which the issue voucher had to be made, was in the meanwhile disbanded, approached through Bari Area 14th Artillery Rgt Depot Bari Center of Molibilisation of the disbanded Unit.

a) at that date (Oct 45) the vehicles with 7th It Pack Tpt Coy, where under Command of British Cadres that used and supplied them with POL without any information to the Italian Commands.

b) 14 qs are certainly too many for the use of 4 vehicles.

RIFORNIMENTI BENZINA AL 7° ITALIAN PACK TRASPORT COY.-

Nell'ottobre 1945 il ns. impianto in Arezzo, che in quell'epoca funzionava in parte come deposito C.I.P. ed in parte come deposito alleato, consegnò al reparto in oggetto Kg. 1.486 di benzina.

Tale quantitativo, tratto dalle scorte CIP venne considerato fra le "cessioni alle FF.AA. alleate" - Il maggiore Peterson del C.P.C. rifiutò però l'accredito perchè, a suo parere, stando alla ricevuta 093 C.I.P. firmata dall'incaricato del ritiro della merce, la fornitura era da considerarsi come effettuata alle FF.AA. Italiane.

La ns. Zona di Firenze, venuta a conoscenza che la 7° Comp.Trasporti a carico della quale si doveva emettere la fattura, era stata nel frattempo disciolta, interessò per il tramite della ns. Zona di Bari, il Deposito del 14° Rgt. Artiglieria - Bari centro di mobilitazione della disciolta compagnia.

Il deposito 14° Artiglieria ha restituito il mod. 093 C.I.P. aggiungendo una dichiarazione del Comandante del 7° reparto Salmeria, della quale uniamo copia, che non consentirebbe al predetto Deposito la sistemazione della partita in contestazione, se non in seguito ad ordine delle Autorità Superiori.

Preghiamo pertanto codesto On. Stato Maggiore di voler cortesemente disporre per la definizione della pendenza, segnalandosi il Comando o il Reparto italiano incaricato di provvedervi, od eventualmente, nel caso codesto On. Stato Maggiore ritenesse esatta la nostra iniziale classificazione della fornitura quale cessione alle FF.AA. alleate di voler cortesemente interessare il Combined Petroleum Committee per un riesame della questione.

La ns. Zona di Firenze, venuta a conoscenza che la 7° Comp.Trasporti a carico della quale si doveva emettere la fattura, era stata nel frattempo disciolta, interessò per il tramite della ns. Zona di Bari, il Deposito del 14° Rgt. Artiglieria - Bari centro di mobilitazione della disciolta compagnia.

Il deposito 14° Artiglieria ha restituito il mod. 093 C.I.P. aggiungendo una dichiarazione del Comandante del 7° reparto Salmeria, della quale uniamo copia, che non consentirebbe al predetto Deposito la sistemazione della partita in contestazione, se non in seguito ad ordine delle Autorità Superiori.

Preghiamo pertanto codesto On. Stato Maggiore di voler cortesemente disporre per la definizione della pendenza, segnalandoci il Comando o il Reparto italiano incaricato di provvedervi, od eventualmente, nel caso codesto On. Stato Maggiore ritenesse esatta la nostra iniziale classificazione della fornitura quale cessione alle FF.AA. alleate di voler cortesemente interessare il Combined Petroleum Committee per un riesame della questione.

1°) - Al sottoscritto non è possibile rintracciare il Comando Britannico del 7° It. Pack Trasport Coy non avendone più alcuna traccia. Unica informazione che posso fornire è che il Comandante del suddetto reparto era il Maggopre britannico MASON.

2°) - In quanto ai buoni di prelevamento che mi vengono richiesti informo che non mi è possibile rintracciarli per queste ragioni:

a) - In quell'epoca (ottobre 1945), gli automezzi del 7° Reparto Salmerie erano ancora alle dirette dipendenze dei quadri Britannici i quali ne disponevano e rifornivano di carburanti senza dare al comando italiano alcuna informazione.

b) - la quantità di 14 q. è certamente eccessiva per il consumo dei 4 automezzi del 7° Reparto.

c) - il sottoscritto non è mai stato autorizzato dai propri superiori comandi ad effettuare prelevamenti di benzina.

Pertanto non potendo dare alcuna maggiore spiegazione, ritengo nei miei riguardi chiusa la pratica che restituisco.-

(1) It is reported that the only method of storage available to 8 Territorial Command at present is by holding petrol in metal containers; resulting in the normal losses which occur under such conditions.

(2) Information has reached this H.Q. that the Ministry of War has approved the reconstruction of army storage tanks.

(3) It is submitted that enquiries be made of the "Direzione Generale, Artiglieria e Motorissasione" (Col. Balanzino) to ascertain what is being done and to enquire into the method adopted, probable date of completion and storage capacity overall as well as that to be allocated to 8 Territorial Command.

Subject :- Allocation of POL for Mines Clearance to DORIO Brothers Firm.

1. DORIO Brothers Firm, appointed to the Mines Clearance in Udine Province, have requested to the Chamber of Commerce , which has forwarded the request to the Allied Command of that town, the amounts of POL monthly required for the a/m works as follows:

Benzina	litres	8.000
Gazolio	"	2.800
Oils	"	420

2. Further to that request, the Allied Command has issued orders to the Chamber of Commerce of Udine, to release monthly to that Firm, only 2.000 litres of Benzina.

3. In order to avoid a prejudicial interruption of the work, we have contacted Capt STOPFORD of POL Branch A.C Industry and Utilities S.C, after suggestion of Maj. BERRIDGE of MMIA.
The a/m Officer has informed that A.F.H.Q have already allotted to A.M.G. the amounts of POL requested for a six months period, and as the request of DORIO Brother was made after that allocation it is to be considered as a new one.
If MMIA would recall the attention of Industry and Utilities on the essential nature of Clearance work and their importance in the National Economy, recovery of tillable ground and safety for the population, Industry and Utilities could support the request to A.M.G. in order to give to DORIO Brothers priority on the allocations of POL.

4. We kindly ask MMIA to take interest on the matter as required in respect of Industry and Utilities.

1. There is at the moment a temporary shortage of SAE 50 oil in this theatre but we are informed that shipments of this oil are expected to arrive in the very near future which will enable deficiencies to be made up.

2. The position has been discussed with Doctor ROSSI (Liaison CCP & PW) who requests a list of those Territorial Commands most affected by this shortage in order that he can deliver supplies to alleviate the position where it is most acute. You are therefore requested to forward this information to this department as soon as possible.

Ref Analysis Report on CIF oils.

1. From a recent analysis report CIF oil no. 3 cannot be regarded as a substitute for HD 50 oil and further a sample of regenerated oil used in the Italian Army is proved unsuitable as a substitute for HD Lubricants.

2. You are therefore requested to ensure standardisation of quality of all CIF oils within specification limits of the corresponding HD oils to avoid further undue wear of engines in Allied type vehicles.

Reference analysis report on C.I.P. Oils.

1. From the analysis report submitted by 302 BPSS it is noted that C.I.P. N°3 oil is not to be regarded as a substitute for HD 50 oil. However it is considered that this also indicates the possibility of C.I.P. oil being issued generally whether or not it acceptable as a substitute to the WD Lubricant to be specifically applied to Allied vehicles.

2. It is also noted that a sample of regenerated oil, which is understood to be widely used in the Italian Army, on being analysed has been proved not suitable as a substitute for WD Lubricants, and it is recommended that it should not be used in engines or any vehicle component having highly stressed or heat generating bearing surfaces.

3. The importance of correct grades of oils being issued by C.I.P. cannot be overemphasised and as numerous adverse reports have already been received from various B.L.U.s it is requested that you take action with the Ministry of War to ensure standardisation of quality of all C.I.P. oils within the specification limits of the corresponding WD oils.

REMARKS. The sample No I has been received in so small quantity, that it has been impossible to determine any caracteristics.

The sample No 2 for the same reason of the sample No I, has not been analyzed. The flash point has been checked on reduced quantity.

Flashes on reduced quantity have been run on samples 3 , 6, 7

The sample No 4 contained a considerable amount of water, therfore the flash point has not been checked.

The sample No 5 was received badly contaminated by foreign matter, pre=

sumably added in transit.

Samples 4,6,8, altough having viscosities approximating to the O.E.50 range @ 210F. cannot be regarded as equivalent to O.E.50, having very low viscosity index.

N° 6C/2029/Q4/S
Dated 7 May 46

Subject:- POL Position.

18

Ref your ST/1601 of 12 April 46 this SMRE will forward to you in a few days the states of POL (reserves, amounts drawn in the month of April, amounts to be drawn.).
All these details are still in course of collection.

We think, therefore, that it is necessary to inform you that specially in Turin, Milan, Genoa, and Florence Terr Cmds a serious lack of POL is to be complained, due to the irregular arrival of material.

As a result of it, it has been necessary to start using reserves and in the case of Folgore and Legnano Divs they have been exhausted. Important amounts of POL of the allocation of April are still to be drawn.

Considering the particular exigencies of Public order which might require to normalize at the earliest the POL position and to have the maximum possible availability by the end of the month, we ask MMIA to intervene to the Offices concerned in order to meet Army requirements as soon as possible.

In wiew of next elections, these exigencies must be considered of a great importance, we point out that it is deemed opportune to make arrangements in order to give priority in issues during this month to Army Units and CC.RR, neglecting Civilian requirements.

N° 01942/S
Dated April the 8th 1946

Ref your 6C/1254/Q2 of March the 22nd 1946.

After enquiries executed about withdrawal of POL by 230 Div and 716 Admin Group from CIP, it is understood that when the a/m Units went to Petrol Points to draw POL they were sometimes directly supplied and sometimes they were sent by Military Allied Personnel, to be supplied by CIP;
CIPs effected the issues, without any opposition, after the exhibition of the work ticket vised by the Allied Liaison Unit, or (for 230 Div) by British Quadre of the various Units.

As a result of the above:-

a) No H.Qs or Italian Units have authorized any withdrawal of POL from CIP, but all them were ordered By Allied Military Personnel on duty at CIP.

b) the amounts drawn were effectively required by the Units concerned as they were already been vised by the Allied Authorities.

c) the amounts drawn from CIP have been used for account of Allied Forces.

With letter 443, herewith attached, the Ufficio Stralcio of 716 Admin Group has informed 2 District H.Q. in Milan of the above, asking the ensuing statement in order to entitle CIP to effect the balance in accordance with Combined Petroleun Committee of Rome.

Moreover, just in these days, CIP Florence had asked and obtained from the local BLU, a statement from which it results that until their disbandement the a/m Units were at the dependence of Allied, and they think that with the said statement they will obtain the balance with the Allied Units concerned.

Considering what is said above, we ask you to let us know if this Command has to effect the payment of the full amount of POL drawn from CIP by 230 Div and 716 Admin Group or they must wait for the results of the steps made by the Ufficio Stralcio of 716 Admin Group to 2 District and CIP Florence.

1. All details regarding containers which have been forwarded to Military Terr Comds of Northern and Central Italy are shown in the attached list. Many of those containers are without stoppers.
Bologna Terr Comd will draw in the next week 370 inefficient containers (or in bad conditions) and the depending Repair Unit will repair them.
With this withdrawal the allocation of all the containers of the Bressanone Depot will be finished.

2. As an explaination of what is shown in the a/m letter 04/4384/S we add that:

a) the assignment by CEM Bolzano to ARAR of 536 Depot in Bressanone where the containers were kept, took place without this Command being aware of it.

b) in the period between the date of the assignment of the Depot and the date on which the order of allocation of MMIA is arrived, ARAR had already sold about 5.000 containers to civilian Firms in Milan.

c) during the last February this Command succeeded in obtaining from 60th Sub Area (through 4th BLU) the allocation of 1.000 containers drawn from the a/m Depot , which have been distributed as follows:
650 to Friuli Inf Div and 350 to the remaining Units in the Territory.

Tel : Rome 489091 Ext 326

To :- 7 HAU.

1. Confirming telephone conversation Major GORDON - Capt. GAUV, a soldier of the Squadra Remotiland of the FOLGORE Division came into this office yesterday waiting for the enclosed AFC 3318 to be sanctioned by us.

2. Petrol for the Folgore Division is of course an Italian commitment, and the AF C3318 enclosed herewith was therefore confiscated, and the soldier told to report to the L.A.I.S.B. Branch of the War Ministry for instructions as to how to obtain the necessary P.O.L.

3. Will you please take the matter up with Folgore (W.E. have signalled them for explanation) and have the rubber stamp "entitled to draw from Allied Military Stocks" returned to you also any Allied Work Tickets that may be in their possession.

4. It is thought that other Iti-Iti units recently of Bri-Iti category may have such stamps in their possession, will you please have a thorough check made to ensure that this is not the case.
