SUBJECT: P.O.L. Allocation

TO : G.O.C., Land Forces Sub Commission AC (MMIA), ROME

1. Reference AFHQ Petrol Section letter attached to your ST/1602 of 28 September 1945.

2. This office had previously requested that allocations of P.O.L. for Sicily be altered in respect to Gasoil and gasoline. Our letter MT/5, subject as above, dated 13 August 1945, copy attached, refers.

3. Since no action has been taken we are again requesting that gasoil and gasoline for the Italian Army in Sicily be allocated as mentioned in our above quoted letter. It is further requested that the allocation for October be changed accordingly as the demand for gasoline is greater than the supply. Furthermore, in anticipation of possible public disorders it is deemed necessary that a sufficient supply of gasoline be made available.

Ministry of War, - Q/2.

The following points regarding the supervision and distribution of P.O.L. products to ITI-ITI Units are re-iterated for the benefit of MMIA LOs who have not previously been concerned with this subject.

1. DEMANDS.

Demands for P.O.L. are prepared by this HQ in conjunction with the War Ministry (S.M.R.E.). Quantities demanded are based on the amount of Tpt operating within each Territorial Command and are calculated on the following daily consumption figures :-

Type of Vehicle.	U.S. Gallons per day.
Motorcycle	1
Passenger Vehicles	3
Loadcarriers	8

per 7d

In the absence of accurate information regarding vehicle holdings, demands are based on vehicle WE/TOs and in such cases AFHQ Pet Sec RAAC, are not prepared to release the full amounts demanded.

2. MONTHLY ALLOCATION.

On receipt of figures setting out the quantities actually authorised, MMIA LOs should proceed as follows :-

(a) Arrange for the Italian Commands concerned to furnish to them a list showing the proposed sub-allocation to units.

(b) Scrutinise such lists and approve (with amendments as necessary) before individual units are authorised to collect from C.I.P. In this connection it is recommended that initial distribution should not exceed the following figures :-

Type of Vehicle.	U.S. Gallons per day.
Motorcycle	1
Passenger Vehicles	3
Loadcarriers	5

(c) Arrange to hold whatever proportion is notified by this office as reserve which will not be

In the absence of accurate information regarding vehicle holdings, demands are based on vehicle WE/TOs and in such cases AFHQ Pet Sec RAAC, are not prepared to release the full amounts demanded.

2. MONTHLY ALLOCATION.

On receipt of figures setting out the quantities actually authorised, MMA LOs should proceed as follows :-

(a) Arrange for the Italian Commands concerned to furnish to them a list showing the proposed sub-allocation to units.

(b) Scrutinise such lists and approve (with amendments as necessary) before individual units are authorised to collect from C.I.P. In this connection it is recommended that initial distribution should not exceed the following figures :-

Type of Vehicle.	U.S. Gallons per day.
Motorcycle	1
Passenger Vehicles	3
Loadcarriers	5

(c) Arrange to hold whatever proportion is notified by this office as a reserve which will not be released from C.I.P. without prior authority from this HQ.

(d) Arrange to hold a further reserve (either in the local P.O.L. Reserve Post or in C.I.P.) which can be released only on the authority of the local MMA LO.

3. C.I.P. DEPOTS.

Monthly allocations of P.O.L. are notified as being available for drawing from the main C.I.P. depot in each Territorial Command. In fact, C.I.P. depots exist at each Provincial Capital, and Italian Territorial Commands can make appropriate arrangements with the main C.I.P. office within the territory regarding any proportion of the allotment they may require to draw from Provincial C.I.P. depots.

4. SUPPLEMENTARY ALLOCATIONS.

Should any Territorial Command require a supplementary allocation of P.O.L. it should approach the appropriate MGLA LO, with facts and figures in support. The case should be carefully examined by the LO in relation to the number of vehicles held and operating within the command, and any special duties they may have been called upon to perform, and, if it appears that the quantity originally allocated was genuinely inadequate, a supplementary allocation should be demanded by the MGLA LO from this HQ. It will be appreciated that AFHQ Pet Sec, are unable to grant supplementary allocations unless the request is well substantiated, and that such allocations must be regarded as the exception rather than the rule.

5. GENERAL.

The necessity for strict economy in P.O.L. products still continues, and it is requested that MGLA LOs will continue to liaise closely with Territorial Commands in order to prevent waste. Since demands are based on vehicle holdings it is essential that the importance of the monthly vehicle return is impressed on all Territorial Commands; lack of information regarding vehicle holdings will usually result in an inadequate allocation of P.O.L.

Demands for supplementary allocations will not be considered unless :-

(a) they emanate from MGLA LOs.

(b) they are accompanied by full supporting data.

1. Attached Appendix "A" contains ETI-ITI requirements of P.O.L. for the month of August 1945.

2. Figures for Sardinia are based on previous requirements and bear no relation to the number of vehicles operating. The unusually high proportion of gasoil requested is due to the tank repair programme in progress there.

3. Figures for Bologna, Milan, Genoa, Turin, Udine and Bolzano are based on the Tpt WE/TO of units operating in those areas. It is anticipated that all these units will be up to full strength in August.

4. In view of the fact that the load carriers in the Bari area include vehicles of a mobile workshops at present employed in a static role the quantities of P.O.L. demanded are below estimates on the ~~normal~~ basis normal
