1. GENERAL. Encountered the same difficulty regarding recovery of vehicles held by ex - partisans - some 16 in all - and the same reluctance by Terr HQ to attempt recovery. Discussed the matter with Maj BRD in absence of Maj EDWARDS - and it appeared that A.M.G. have not obstructed in this area. The Capo S.M.R.E. was not energetically inclined in this direction, and stated that, in his opinion, since A.M.G. had lent Italian Army vehicles in the first place, they should be responsible for getting them back. I informed him that it was an Italian Army responsibility, and that Maj BRD had already told the O.O. of 23 Recovery Commission to liaise with Transportation Branch A.M.G. and proceed immediately with recovery of these vehicles. I got the impression that the Comd did NOT intend to proceed with this. On subsequently meeting Major EDWARDS in BOLZANO it transpired that his opinion of the Capo S.M.R.E. MILAN was also low.

2. Discovered that No 3 Ambulance Car Section had not really been formed. Ambulances on the strength of this unit at TURIN are driven by drivers of No 1 Adm Tpt Coy, and those at MILAN by drivers of No 3 Admin Tpt Coy. Gave orders for its immediate formation.

3. Production averages about 5 load carriers a week.

4. Suggested that some of the tyres on vehicles standing idle in the Inefficient Vehicle Park might be transferred to TURIN and GENOA Commands, but hope to see Maj EDWARDS later to confirm that this may be done.

5. No 3 C.T.A. ABs 412 - 406 and work tickets alleged to have been received only 2 days ago, and data regarding vehicles was being filled in by Coy H.Q. office. The task system was not, therefore, yet in operation.

6. Number of efficient vehicles held by the Coy was as follows :-

M/O	-	10
P/V	-	10
L/O	-	41

of which 11 in use on MMIA order transporting ex P.W. from Switzerland.

7. Accommodation - normal standard III-III

Sanitation - average.

8. All except 2 vehicles were in service at the time of my visit.

9. No 7 E.V.P. Sited too near Tpt unit and Repairs Unit to be healthy. I instructed Terr Command to recon new site in either PLACENZA or LODI and inform MILA of result.

O.C. E.V.P. is also O.C. Inefficient Vehicle Park, pending absorption of the latter in the Repairs unit. Agreed that Passenger Vehicles and Motorcycles could now be issued by ROME - since MILAN, GENOA and TURIN now complete to W.E. in this type.

1. Ref your 6/6341 of 28 June 45.
2. The responsibility for searching and salvaging military material rests with the appropriate Recovery Units. If sufficient transport is not available to handle the amount of work involved application should be made to this HQ for an increase in the WE/TO of the Recovery Unit.
3. No increase can be made in the WE/TO of 3 Admin Ept Coy until a statement of their present holdings is received. The total of 150 vehicles suggested exceeds the personnel WE/TO of the company i.e. 134 all ranks.
4. If as is claimed the F.O.I. allocation to the Milan Territorial Command is insufficient, application should be made by that command to MMIA LO, N.W. Italy providing facts and figures. Should this be agreed by LO he will signal this HQ accordingly and a supplementary assignment will be asked from ANM; PRT SEM.

I)-

Per le esigenze del Comando Militare Territoriale di Milano, è prevista una assegnazione organica di 10 autovetture.

Tale assegnazione è assolutamente insufficiente ai bisogni di detto Comando che deve far fronte - oltre alle normali necessità di funzionamento - ad un lavoro di vasta mole e di indiscussa importanza per la ricerca ed il ricupero dei materiali di proprietà dell'amministrazione militare.

Si tratta di notevoli quantità di materiale per un valore di miliardi di lire, sperso un po' dovunque e per il cui ricupero si rende necessario che ufficiali dei comandi d'arma e delle direzioni dei servizi, abbiano la possibilità di effettuare tempestivi e rapidi giri per accertamenti, controlli ecc.- Inoltre è necessario che anche i comandanti dei distretti dispongano di un mezzo per poter efficacemente collaborare, come previsto, a tale vasta opera di ricupero.

Solo le disponibilità di adeguati mezzi di trasporto potrà assicurare in questo campo risultati soddisfacenti.

Si richiede pertanto che l'organico degli automezzi della 3^a compagnia trasporti amministrativi sia aumentato:

- per le autovetture: a 30 unità
- per gli autocarri: "120 unità.-

II)-

Per il mese di giugno sono stati assegnati complessivamente al predetto Comando Militare Kg.11.000 di benzina e Kg. 4.600 di gasolio, quantitativi che si sono dimostrati assolutamente insufficienti alle necessità del Comando stesso che deve provvedere al ricupero di ingenti quantitativi di materiale e, in assenza del posto carburanti, al rifornimento di tutti gli automezzi militari in transito per Milano.
