dated 27 Oct.-

1. The only Italian Army vehicles so far transferred to the Italian Army with Allied markings are those from disbanded Senza Units, working under Allied authorities. These transfers have not yet been completed, and it is suggested that should particulars of these vehicles be required, the Allied formations concerned would be in a better position to supply the required information to Q(AE) CMT by means of Part X Orders striking the vehicles off strength.
2. Italian vehicles not of Italian Military origin have not been transferred to the Italian Army; any such transfers would be implemented by Allied Commission (Transportation Sub-Commission) in conjunction with the Italian Ministry of transport, and would not come within the province of MIA.
3. It is, of course, possible to obtain from the War Ministry details in respect of the vehicles mentioned in para 1 above, but in view of the fact vehicle transfers are as yet incomplete, it is thought that speedier information would be obtained by the method suggested above, and your decisions on this point are awaited.

Army with Allied markings are those from disbanded German Units, working under Allied authorities. 13 Feb 45;

1. The Italian vehicles belonging to HQ 228 Div are mostly VCR for lack of tyres, batteries and spares, which, if available, could be fitted under local arrangements.
2. The attached list shows what is required.
3. Will you please say if you can manage to have the above consigned to HQ 228 Div as soon as possible. It is realised that this can only be a temporary measure, pending assignment of a workshop, yet possession of these spares now will enable 228 Div, with its growing commitments, to be less of a drain on the hard-pressed resources of Army.
