2. The high consumption for this month has been caused by :
 - (a) Phase II of the Call-up, necessitating much additional use of transport, and
 - (b) An extensive tank repair programme, ordered by AMHQ, ^{whereby} ~~whereby~~ all tanks in Sardinia have to be repaired and shipped to the mainland as soon as possible.

Ref your 503 Q. of 11 Jan and subsequent signals.

1. It is regretted that an earlier reply was not given. The matter has been thoroughly investigated, and the apparent shortage of POL was due to a reservation having been made to allow for additioned MT. movement anticipated as attendant upon Phase 3 of the Sicily Call-up.
2. This phase was subsequently cancelled, and it was considered that the normal allocation of P.O.L. to Sicily should suffice.
3. The monthly allocation of POL to Italian Army Units is closely supervised by this HQ in conjunction with AFHQ Petroleum Section, and is based on vehicle holdings of authorised units in the regions concerned. You will appreciate that, unless a rigid and economical control is exercised considerable wastage occurs, since there are still in existence many unauthorised units whose locations and vehicle holdings are not known to the Italian War Ministry, and who are not, in fact, entitled either to draw P.O.L. or hold Italian Army MT.
