2. Ref para 2 of the above letter. NO copy is held in this office as originals were forwarded to HQ, but 2 Terr HQ will be able to help there.

3. In the period in question 5 Army were in command in N.W. Italy, and further 57 Area were operating in GENOA. NO MMIA LOs were forward at that time. The Italian Comds do not appear to have obtained receipted documents, and it seems probable that the only further records maintained are the normal returns made by Districts and Areas to AFHQ. SUBJECT: Lend Lease Accounting - POL for Italian Army
Period ending 30 June 1944

Land Forces Sub-Commission (MMIA) HQ. A.C.

1. Whereas POL supplies to the Italian Army rear of Army boundaries are accounted for monthly, no accounting is possible in the forward areas, so that it is necessary to divide the products consumed in these areas in an equitable manner amongst the Allies and Co-Belligerents.

2. The Italian Army is therefore debited with:-

25,010	bbls.	MT 80
3,435	"	Gasoil
1,850	"	Kerosene
530.24	"	Motor Oil SAE 10 50
157.93	"	Gear lubes
58.29	"	Greases No.1 - No.4
676.33	"	Sundry Lubricants

3. Quantities were arrived at as follows.

MT 80: Percentages of Italian combat vehicles based on Brake Horse Power to total in theatre were used as follows:

Jan. 1944	.3 %	-	3116 bbls
Feb. 1944	.4 %	-	3895 "
Mar. 1944	.4 %	-	3638 "
Apr. 1944	.4 %	-	4333 "
May. 1944	.4 %	-	4914 "
June 1944	.4 %	-	5150 "
		TOTAL	25,010 "

GASOIL:

40% of the total consumption of gasoil in the theatre, after deduction of quantities was considered as used for automotive purposes. Based on Brake Horse Power, the Italian Army was charged with 4% of the 40% or 3,435 bbls.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Kerosene:

3% of the kerosene, based on personnel strength figures was considered consumed by the Italian Military. The Italian Army was charged with $\frac{1}{3}$ of this or 1,850 barrels.

Sundry Lubricants:

Same as for kerosene.

All other products

Figures based on known issues X

3. Please secure certificate of Italian Army agreeing to quantities shown in para. 2.

4. In event the above needs clarification, please arrange Meeting between your Sub-Commission, this Section and the Italian Army.

HQ AAI

Reference your letter PET/20/1/1 dated 22 Aug 44.

1. Owing to the number of transfers of vehs between different commands, the difficulty of establishing the number of vehs on charge although not actually operating at the material dates, and the desirability of avoiding duplication, the compilation of the required figures is proving well nigh impossible.

Your additional requirement of breakdown between diesel and petrol burning vehs is an added complication. Further, when the Italians have finally succeeded in producing these figures, they will be quite uncheckable and their accuracy extremely doubtful.

2. S & T (Pet) EIGHTH ARMY point out that these statistics, made up to an arbitrary date once a month, are quite valueless as a basis for calculating the fuel used by the Italians. Moreover, such calculation is unnecessary, seeing that accurate figures of actual monthly issues of fuel to the Italians are supplied by them to S & T (Pet) AAI.
