ST/522 STA Army P.O.L. Forecasts  
June - Oct. 1945

62

SUBJECT :- P.O.L. for Italian Army.

SA/1609/A

Land Forces Sub Comm A.C. ( MIA )  
ROME  
Tel : Roma 489084 Ext 526

1st Oct 45

4 Oct 45

To :- AFHQ Pvt Sec., RANGO.

1. Reference your PTE 30/8/20 dated 25 Sept, the following comments are made.

2. It was observed, in para 3 of our SI/1609/A dated 29 June 45 that the figures shown therein did not constitute a "bid" for P.O.L., since the exact composition of the Interim Italian Army had not yet been decided by AFHQ. The final composition of this army has still not been determined, and it would therefore not be sound to base future forecasts on the estimates given in our above-quoted letter.

3. With reference to para 3 of your letter, there would have been no difficulty in supplying you with vehicles M1/30s, in respect of the Combat groups, but it was understood that you wished to prepare the allocation to these Groups on the basis of past average consumption, rather than on vehicle holdings multiplied by the factors at present used for III-ITF units.

As regards the increase in III-ITF requirements for October, this is due to the inclusion in the bid of the Gruppi Tatt units as far as authorised for continued operation, but which previously drew P.O.L. from Allied Sources. Such units are not included in bids made by Gruppi. In addition, it must be remembered that the Allies have previously been in a position to assist the Italian Army with the occasional loan of Ppt for supply duties; such assistance is unlikely to continue, and, with this in view, it is probable that there will be further increases in the amount of III-ITF Ppt authorized to operate in the near future.

4. It is thought that the intended November allocation mentioned in para 4 of your letter will fall considerably short of actual requirements. At Appx 'A' is shown a comparison between the demand for COMBAT, the amounts allocated by your office for COMBAT and those proposed for NOVEMBER. It is not considered that any reduction can be made in the allocation either to the III-ITF or Tatt Unit Groups; this will result in only the following quantities being available to the Combat Groups :-

|       |   |        |         |
|-------|---|--------|---------|
| MT 80 | - | 17,844 | barrels |
| Gasol | - | 244    | "       |

against their October requirement of :-

|       |   |        |         |
|-------|---|--------|---------|
| MT 80 | - | 27,356 | barrels |
| Gasol | - | 1138   | "       |

2822

To :- AFHQ Post Box, HAAG.

1. References your PFI 30/3/50 dated 25 Sept, the following comments are made.
2. It was observed, in para 3 of our SE/1609/A dated 29 June 45 that the figures shown therein did not constitute a "bid" for P.O.L., since the exact composition of the Interim Italian Army had not yet been decided by AFHQ. The final composition of this army has still not been determined, and it would therefore not be sound to base future forecasts on the estimates given in our above-quoted letter.
3. With reference to para 3 of your letter, there would have been no difficulty in supplying you with vehicles MA/TGs, in respect of the Combat groups, but it was understood that you wished to prepare the allocation to these groups on the basis of past average consumption, rather than on vehicle holdings multiplied by the factors at present used for III-III units. As regards the increase in III-III requirements for October, this is due to the inclusion in the bid of the Gruppo Tail units so far authorised for continued operation, but which previously drew P.O.L. from Allied Sources. Such units are not included in bids made by Gruppo. In addition, it must be remembered that the Allies have previously been in a position to assist the Italian Army with the occasional loan of Tpt for supply duties; such assistance is unlikely to continue, and, with this in view, it is probable that there will be further increases in the amount of III-III Tpt authorised to operate in the near future.
4. It is thought that the intended November allocation mentioned in para 4 of your letter will fall considerably short of actual requirements. At Appx 'A' is shown a comparison between the demand for OCTOBER, the amount allocated by your office for NOVEMBER and those proposed for NOVEMBER. It is not considered that any reduction can be made in the allocation either to the III-III or Tail Unit Groups; this will result in only the following quantities being available to the Combat Groups :-
 

|        |   |        |         |
|--------|---|--------|---------|
| MT 80  | - | 17,844 | barrels |
| Gasoil | - | 241    | "       |

2002

against their October requirement of :-

|        |   |        |         |
|--------|---|--------|---------|
| MT 80  | - | 27,356 | barrels |
| Gasoil | - | 1138   | "       |
5. Will you please confirm that you require bids in respect of November to be submitted on a vehicle strength basis in respect of all categories of the Italian Army.

*W.P. Kelly*

For Major General,

AFHQ PETROLEUM SECTION  
ROME AREA ALLIED COMMAND  
APO #794

ST

CDP/efm  
25 September 1945

PET 30/B/20

SUBJECT: Italian Army POL Requirements

TO: HQ. A.C., Land Force Sub-Commission, (MMIA)  
APO 394.

1. Confirming conversation Colonel King - Major Peterson - Captain Simpson.

2. This section feels that the amounts of POL shown in column "F" of the attachment to your ST/1609/A of 29 June 1945, subject "POL Forecasts" should be taken as more or less firm annual motor fuel requirements of the Italian Army. The Italian Army would then be given a total gasoline and gasoline allocation of 29,411 barrels to divide amongst the Iti-Iti units previously supplied and the Gruppi.

3. This section wishes to state that it does not approve the basis on which October's allocation is being made to the Gruppi in the absence of firm vehicle figures, but has made an exception due to the time element. Furthermore an exception has been made in increasing the Iti-Iti allocation for October over September.

4. For November this section intends to allocate for the Italian Army. (Iti-Iti and Gruppi)

|                  |        |      |      |
|------------------|--------|------|------|
| M.T. 80 Gasoline | 25,211 | bbls |      |
| Gasoil           | 4,200  | "    |      |
| Kerosene         | 150    | "    |      |
| Motor Oil        | 835    | "    | 2800 |
| Grease           | 14,700 | lbs  |      |
| Gear Oil         | 147    | bbls |      |

It will be the responsibility of your Sub-Section and the Italian Ministry of War to advise C.I.P. where you wish the products made available.

5. Any comments that you may wish to make on the above will be appreciated.

of 1945

Subject :- P.O.L. forecasts.

SE/1609/A

29 June 45Land Forces Sub Corps A.C. (ISMA)  
Rome  
Tel : Rome 489041 Ext 526To :- AMM FEE SEC., RASO.

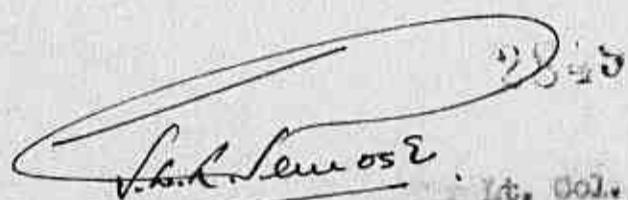

1. Ref your FEE 30/B/19 dated 6 June 45.

1. Attached Annex "A" sets out the vehicle WE/TO of all Italian Army Units at present authorised, with the exception of IR-ITL and US-ITL Service troops, together with comparative figures showing the estimated yearly consumption calculated both on a vehicle WE/TO and on a gallonage per head basis. Figures showing the average yearly consumption, based on actual monthly consumption, are also included in column "F".

2. It has been assumed, as tentatively agreed, that IR-ITL and US-ITL Service troops will continue to draw P.O.L. from Allied Sources until disbanded.

3. It will be appreciated that the number of Italian Army Units which may be authorised to operate in the future is dependent on the policy of AMM, and the figures given herewith represent the present position only, and must in no way be considered as a "bid".

AFHQ PETROLEUM SECTION

ROME AREA ALLIED COMMAND

Tel:- ROME 478875

PET 30/B/19

6 June 45

SUBJECT: Supplies of Petroleum to Italian Armed Forces.

ST 719

Land Forces Sub-Commission, H.M.I.A., APO 394.  
Air Forces Sub-Commission, HQ. A.C., APO 394.  
Navy Sub-Commission, HQ. A.C., APO 394.

1. At present the Italian combat forces serving under the direct operational command of Allied Headquarters, are drawing supplies of petroleum through the Allied Army supply channels. This is in accordance with AFHQ Administrative Memorandum No. 49.
2. The time is shortly approaching when it will be desirable to arrange for the Italian Armed Forces to draw their requirements nationally, and to make their own arrangements for internal distribution.
3. For some time to come, it is anticipated that the world supply and tanker situation will make it desirable to restrict the consumption of petroleum in all countries. In order that this Section may plan for future importation, it is requested that you will arrange for this Section to be supplied with an estimate of the requirements of the Italian Armed Forces, under the 12 months commencing 1 July 45. This estimate should be supported by as good information as is available, of the equipment for which these supplies will be necessary.
