SUBJECT :- Vehicle Maintenance.

1. The attached correspondence is self explanatory.
2. It is felt that the system envisaged contradicts the " 16 task " system in all respect, and that, as both this HQ and the War Ministry have already instituted the task system, and published and distributed instructions and pamphlets based on it, any change is to be deplored.
3. It is therefore, ^{strongly} recommended that 880 U.M.In. proposal's be rejected.
