Since the BIA have office and living accommodation in the town where the Terr. H.Q. is situated, and since these buildings are normally fitted and furnished, there appears to be no need for a Special Equipment list (G. 1008).

Training stores and equipment will be obtained from the Terr. H.Q.

All other BIA will be equipped to scale with cooking utensils etc.

For such additional items as are required, BIA will contact the nearest Area ADG or - where this is not possible - furnish a list of requirements to Camp Commandant BIA.

Ref your 230/1 of 23 July 45 and 230/G of 20 July 45.

1. While it is agreed that it is desirable for stocks of Italian Unit equipment to be held in Div sub depots, it is regretted that stocks of these stores are insufficient to permit dispersion at present.

2. It is therefore necessary for the procedure laid down in MMIA Adm No 11 to continue to be followed - 2 copies of demands for unit equipment should be forwarded to the Ministry of War and one copy by you to this office for information.

3. Releases will be made where possible from Italian stocks. Items not available from Italian sources will be so certified in order that the relative demand may be placed through British channels.

4. It is not necessary for all items on B.S.L.'s and S.B.L.'s to be demanded as they are not required under present conditions.

5. The provisions of the following extract from QRO 312/45 apply with equal force to BR-IVI Units :-

"In future before submitting indents for Ordnance Stores, units will consider whether such stores are absolutely necessary for their present role. Units will not draw Ordnance Stores merely because there is an entitlement under AF G1098, SBL or other authority. The fact of a unit refraining from drawing stores under this QRO will not preclude a subsequent indent being placed should necessity arise."

No Special Equipment List has been published for a Pack Tpt Inc. to a R.S.R. nor has the necessary data ever been submitted for such a list. In actual fact, it is doubtful if any special equipment is necessary as an increment normally only provides the necessary personnel to man the parent unit's equipment.

Land Forces Sub Comm. A.C.
(M. M. I. A.) ROME
2/03/11/1

2 April 1945

To: AFHQ for Q(AS)

May further instructions be issued as to the extent which such Basic Equipment lists are to be implemented.

1. Att is an example from 802 ORVIERO Base Rft Depot (which please return in due course).

Many of the items on the list are either not available in Italian Depots or no equivalent is known.

2. Section A.1. Table 1 & 2.

Blankets and some new gear is found from Italian Stocks and there is still available a selection of assorted haversacks/kitbags/packs. All ground sheet material is being made into badly needed tentage, stocks of steel helmets are negligible. It is felt that to implement the equipment list by the wholesale issue of Br items such as steel helmets, covers camouflage etc. was NOT your intention.

3. The same applies to other sections such as section J.2 cookers portable.

4. The ~~full~~ implementation of the list in full for all BR-ITI Service Units will give rise to very large demands on Br stocks.

5. Your instructions are requested.

1. AFHQ Q (AE) letters ref 6508/2 numbered 617 to 637 incl. dated 3 March 45 call for preparation of twenty-one proformae to form the basis of Special Equipment Lists for various sections of the Reinforcement Training Depot, Italian Combat Forces.
2. It will be appreciated that a considerable amount of work is involved if these proformae are to be accurately, fully and quickly completed. The DADOS and his Staff of the BLU attached to this Depot are fully occupied with their normal duties and unable to undertake this additional work. I am informed that, in response to a telephone request, an Ordnance Officer is being temporarily attached for one month for the purpose of collecting and assembling the necessary information. It is requested that in addition, a WO II or Senior NCO (Clerk) be similarly attached to assist the Ordnance Officer.

Reference "Special Equipment List" for an Italian
Field Surgical Unit (Italian Military Personnel) on MA/575/4
S.E.L. No 129/1 of December 1944.

I am informed that an amendment deleting the words
"(From Italian Sources)" in the vehicles section on Part 1 of
this S.E.L. was verbally agreed to. As the amendment has not
yet been published, will you kindly confirm this amendment
and arrange to have it published.

1. A.F.H.Q. Q(AE) letters 6508/2 numbered 617 to 637, forwarded under cover of your letter Q/OS/20 dated 9 March 1945, are duly acknowledged.

2. D.A.D.O.S. has a tremendous amount of work on hand without yet his full complement of staff, and, coupled with the fact that to complete the forms accurately it will be necessary for each unit concerned ^{to be visited} to study their requirements and secure the information, I submit that it is necessary for an additional Ordnance Officer to undertake the work.

3. I should be glad, therefore, if an Ordnance Officer, together with a B.O.W.O., could be attached for approximately one month, for the purpose of completing the forms.
