231 Div.

1. Attached at Appendix 'A' is the clothing situation of 231 Div as at 31 January, the figures having been personally checked or calculated by me.

It gives:

Col. (a) (B) (c) receipts into the 231 Div Clothing Depot from the time it opened until 31 Jan.

Col. (d) (e) clothing notified as about to arrive at the depot. (At the moment it is not clearly understood whether all the items in col. (d) are included in (e) or not. If they are not two separate and distinct allocations the situation becomes rather worse than set forth in the Appendix).

Col. (f) The sum total of the receipts when all outstanding allocations have arrived.

Col. (g) The demands made by units at 1st January, representing in most cases the outstanding needs of several months. The date is chosen because it is the first demand made on the depot - AND IT HAS NOT YET BEEN MET. (See (l) below).

Col. (h) The items issued on arrival to Reinforcements arriving up to Jan 31st.

Col. (i) The items which must be set aside for the Reinforcements expected about Feb. 4 (50 series have been added to account for 40 drivers not noted in col. (h) plus odd issues to casualties, returned absentees etc.)

Col. (j) The clothing which will be needed for 1,200 men from SARDINIA, advised 11/19 Feb. (It is appreciated that a further allocation may arrive before then).

Col. (l) Originally intended to show clothing needed for 600 5001 muleteer Rfts (350 now arrived at ORVIETO) - has been left blank on the information from MMIA H.Q. that these particular Rfts will arrive clothed.

Col. (m) The total of (g) (h) (i) (j) and does NOT take into account wastage from 1 Jan to 15 Feb. or any kind of reserve.

2. I have been asked by 'Q' Branch, British Increment, whether the

opened until 31 Jan.

- Col. (d) (e) clothing notified as about to arrive at the depot. (At the moment it is not clearly understood whether all the items in col. (d) are included in (e) or not. If they are not two separate and distinct allocations the situation becomes rather worse than set forth in the Appendix).
- Col. (f) The sum total of the receipts when all outstanding allocations have arrived.
- Col. (g) The demands made by units at 1st January, representing in most cases the outstanding needs of several months. The date is chosen because it is the first demand made on the depot - AND IT HAS NOT YET BEEN MET. (See (l) below).
- Col. (h) The items issued on arrival to Reinforcements arriving up to Jan 31st.
- Col. (i) The items which must be set aside for the Reinforcements expected about Feb. 4 (50 series have been added to account for 40 drivers not noted in col. (h) plus odd issues to casualties, returned absentees etc.)
- Col. (j) The clothing which will be needed for 1,200 men from SARDINIA, advised 11/19 Feb. (It is appreciated that a further allocation may arrive before then).
- Col. (l) Originally intended to show clothing needed for 600 5001 muleteer Rfts (350 now arrived at ORVIEVO) - has been left blank on the information from MMIA H.Q. that these particular Rfts will arrive clothed.
- Col. (m) The total of (g) (h) (i) (j) and does NOT take into account wastage from 1 Jan to 15 Feb. or any kind of reserve.
2. I have been asked by 'Q' Branch, British Increment, whether the most recently advised allocation of clothing, combined with the previous ones, will
- (a) Satisfy all outstanding demands from units already in the field.
 - (b) Clothe the reinforcements notified as about to arrive.
 - (c) Meet the wastage subsequent to the latest demands.
 - (d) Permit the constitution of a modest reserve.
(This to meet the normal flow of reinforcements and make up immediate wastage without having to wait each time for an allocation from Base)

Contd 2

-2-

since it had been intimated to them that this would be the case.

My answer to 'Q' was based on the information set out in Appendix 'A' which shows quite clearly that:

- (i) In the case of items underlined in RED, neither (a) (b) (c) nor (d) is met.
- (ii) In the case of items underlined in BLUE, (a) above is accounted for, and part of (b).
- (iii) In the case of the remaining items, a slight margin remains above (a) and (b).
- (iv) (c) OR (d) is possible in the case of one or two items - but unfortunately they are not the items with the highest wastage percentage.
