Opened Jan. 17, 1945. Closed May 12, 1945

ROME AREA ALLIED COMMAND
ORDNANCE (BRITISH)

ORDNANCE CIRCULAR No. 12

(Revised).

Subject:- ORDNANCE SERVICES - ROME AREA

1. This circular is published for the information and guidance of British Units in Rome Area, and is an endeavour to indicate the facilities that are available and how advantage can best be taken of them. The strict observance by units of such instructions as may be incorporated in this circular is a necessary adjunct of such facilities.

INFORMATION

2. This office is designated as ORDNANCE (BRITISH) ROME AREA ALLIED COMMAND.

Communications should be addressed as under:-

Correspondence: Ordnance Officer Rome Area Allied Command

Signals : ORD (Br) Rome Area

An ORD. Dump is located at 56 Rest Camp, Via Pietralata, Rome.

STORES - SUPPLY THROUGH NORMAL CHANNELS.

3. Channels of demands. All demands for Ordnance Stores (including those for vehicles and War Office Controlled Stores) from units in Rome Area, except as detailed in paras. 8, 10, 14 and 15 below, will be submitted through this office.
4. Method of Demand. Indents will be submitted on ATG.994, ATG.997 or ATG.1058 in TRIPPLICATE and must be signed by an Officer. As these Army Forms vary considerably in form, a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on ALL indents:-

- (a) The correct and full designation of the unit demanding.
- (b) A unit indent number and date of signature (to facilitate reference)
- (c) The VAOS Section in which the item(s) demanded is listed. A list of VAOS Sections is shown as Appendix 'A'.
- (d) Part or catalogue number of item(s) demanded (if known)
- (e) The unit entitlement to each item showing, where applicable, the scale employed (e.g. 2 per man, 5 ozs per man per week, 1 per vehicle or 6 per battery etc.)
- (f) The authority from which the unit entitlement is derived (e.g. the appropriate Clothing Scale, the ATG.1098 number and date or Special Equipment List or War Office letter, the reference of the appropriate AMIQ or lower Command CRO or letter or such other recognisable written authority as may be relevant).
- (g) Present serviceable unit holdings of each item demanded, including

STORES - SUPPLY THROUGH NORMAL CHANNELS.

3. Channels of demands. All demands for Ordnance Stores (including those for vehicles and War Office Controlled Stores) from units in Rome Area, except as detailed in paras. 8, 10, 14 and 15 below, will be submitted through this office.

4. Method of Demand. Indents will be submitted on ATG.994, ATG.997 or ATG.1058 in TRIPlicate and must be signed by an Officer. As these Army Forms vary considerably in form, a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on ALL indents:-

- (a) The correct and full designation of the unit demanding.
- (b) A unit indent number and date of signature (to facilitate reference)
- (c) The VAOS Section in which the item(s) demanded is listed. A list of VAOS Sections is shown as Appendix 'A'.
- (d) Part or catalogue number of item(s) demanded (if known)
- (e) The unit entitlement to each item showing, where applicable, the scale employed (e.g. 2 per man, 5 ozs per man per week, 1 per vehicle or 6 per battery etc.)
- (f) The authority from which the unit entitlement is derived (e.g. the appropriate Clothing Scale, the ATG.1098 number and date or Special Equipment List or War Office letter, the reference of the appropriate ATG or lower Command GRO or letter or such other recognisable written authority as may be relevant).
- (g) Present serviceable unit holdings of each item demanded, including any quantities held in Units Stores.
- (h) Unit Strength (in terms of personnel, vehicles, weapons etc., as applicable.
- (i) Make and type of vehicle or equipment (for MT spares and Assemblies and all Technical spares).
- (j) A proper explanation of the circumstances under which the requirement is considered justified in ALL cases where the demand cannot be supported by a known authority.
- (k) Care should be taken to observe the following additional points:-
 - Only items in any one VAOS Section may be demanded on any one Indent. Failure to observe this rule means that items incorrectly demanded must be extracted in this office with consequent delay both to the individual indent and to the general flow of work.

1193

- (1) The certificate at the top left of ATG.994 and the bottom left of ATG.997 must be completed.
- (m) Neither the completion of this certificate nor the use of such endorsements as "To replace unserviceable", "To complete to scale" etc. constitute in themselves authority for issue and will NOT be accepted as such.
- (n) Thoughtless use of the space headed "To be sent to" (ATG.994) and "Address for Stores" (ATG.997) can lead to considerable delay in receipt of stores. The inserting of the sentence "Unit will collect" may well result in stores being held indefinitely in Base Ordnance Depots awaiting collection. The "Address for stores" is c/o O.O., R.A.A.C. (write in full).
- (o) Units for whom no specific ATG.1098 has been notified or who are in the process of forming can demand normal requirements of non-controlled Ordnance Stores up to the Scales shown in ATG.1098/1000 on the basis of the strength authorised in their unit W.I. or the posted strength, whichever is the lesser.
- (p) Indents for IT Spares in respect of which the Catalogue or Makers Part Numbers are not known must show either the contract number of the vehicle or in case of American makes the Supply Mech. number to allow for identification.
- (q) Not more than ten items should be demanded on any one indent.

5. Frequency of Submission. Indents for Bulk Items (i.e. those detailed at Appendix 'B') will be submitted monthly between the 10th and 15th of each month. Collection of these indents will be arranged in the last week of the month, on appropriate days as outlined in para 7. Indents for all other stores (including IT Spares) may be submitted as and when necessary. In all cases indents must be lodged as to allow 7 clear days before date of collection (except that in the case of indents passed to 3 DOD for supply, a delay of 24 days should be expected.).

6. Supply. Stores detailed in Appendix 'B' are classified as "Bulk Items" and are normally held in Ord. Dump. Indents for these items will be met from that source. All other indents except as specified in paras. 8 to 16 inclusive below, are passed direct to 3 D.O.D. for supply and railed forward by then to Ord. Dump, Rome for distribution. Notification of receipt of such stores by Ord. Dump is made direct to unit who should collect from Tuscolana Station on their appropriate collection day (see para 7 below). Authority for units to collect stores direct from Base Ordnance Depots will NOT be granted.

7. Days for collection. In order to facilitate working at ORD. Dump, units are required to effect collection of stores on specified days of the week according to their Arm of Service. Days are allotted as below and stores will not normally be issued to units except on these days:-

Mondays	-	R.A., R.A.C., ORD., and RME
Tuesdays	-	R.E. and Postal.
Wednesdays	-	P.O., T.S., and H.G. units
Thursdays	-	R.A.S.C. and Provost
Fridays	-	R.A.M.C. and all units of other arms. than above.

to allow for identification.

(d) Not more than ten items should be demanded on any one indent.

5. Frequency of Submission. Indents for Bulk Items (i.e. those detailed at Appendix B) will be submitted monthly between the 10th and 15th of each month. Collection of these indents will be arranged in the last week of the month, on appropriate days as outlined in para 7. Indents for all other stores (including IT Spares) may be submitted as and when necessary. In all cases indents must be lodged as to allow 7 clear days before date of collection (except that in the case of indents passed to 3 DOD for supply, a delay of 21 days should be expected.).

6. Supply. Stores detailed in Appendix 'B' are classified as 'Bulk Items' and are normally held in Ord. Dump. Indents for these items will be met from that source. All other indents except as specified in paras. 8 to 16 inclusive below, are passed direct to 3 D.O.D. for supply and mailed forward by then to Ord. Dump, Rome for distribution. Notification of receipt of such stores by Ord. Dump is made direct to unit who should collect from Tuscolana Station on their appropriate collection day (see para 7 below). Authority for units to collect stores direct from Base Ordnance Depots will NOT be granted.

7. Days for collection. In order to facilitate working at Ord. Dump, units are required to effect collection of stores on specified days of the week according to their Arm of Service. Days are allotted as below and stores will not normally be issued to units except on these days:-

Mondays	-	R.A., R.A.C., ORD., and RME
Tuesdays	-	R.E. and Postal.
Wednesdays	-	P.C., T.S., and M.G. units
Thursdays	-	R.A.S.C. and Provost
Fridays	-	R.A.M.C. and all units of other arms, then above.

ITEMS. DEMANDS FOR WHICH REQUIRE SPECIAL ROUTING

8. IT Spares - demands from RASC and RME Workshop Units
RASC and RME Workshop Units only will demand IT spares (except below) direct on 3 D.O.D. and engine assemblies, see para 10 is stressed that this authority does not extend to the placing of demands on other Sub Depots which may carry stores common to IT/Miscellaneous Sections. Demands from all other Units will be routed through this office.
9. Tyres and Tubes. All demands will be submitted through this office, RASC and RME Workshop Units will submit weekly bulk forecasts to reach this office by 1200 hrs. each Friday. RASC unit forecasts will be routed through DAIST, Rome Area.

The following sizes of tyres and tubes are at present subject to control by D.O.S., G.H.Q.:-

325 x 19	1050) x 16	825 x 15
600 x 16	1100)	1100 x 24
700 x 16	1050) x 20	1200 x 20
900 x 16	1100)	
900 x 20	1350) x 20	
	1400)	

Applications for release based on consolidation of unit indents and workshop forecasts are submitted to D.O.S. weekly by this office through ADOS 3 District. Tyres and tubes are released and despatched in bulk to Ord. Dump, Rome Area, which notifies units to collect. A minimum delay of two weeks must be expected between date of submission of indent and ultimate notification of availability in Ord. Dump.

10. Engine Assemblies. RASO transport Units will demand their requirements of Engine Assemblies through S. & T., Rome Area. R.E.M.E. Units will demand weekly showing requirements as at 1800 hrs. each Thursday and send the demand to this office not later than 1100 hrs. each Friday.

11. DOS Reserved Stores. Certain stores other than those controlled by the Staff are in short supply and are controlled by DOS, GHQ and are known as "DOS Reserved Stores". A list of those items at present controlled is attached at Appendix 'C'. This list necessarily varies from time to time.

Indents for these items may be submitted at any time. Application for release is made as and when necessary only in the case of Part I items and monthly in the case of Part II items except in cases of operational urgency, and consequently supply of stores will normally be subject to an average delay of 3/4 weeks.

12. War Office Controlled Stores. The items listed on Census Form 45 are subject to Staff control. Indents for deficiencies will be submitted in the normal manner and application for release will be made by this office. Notification of release and place of collection or method of delivery will be made direct to the unit. It is essential that the following information is provided in respect of all these demands:-

- (a) Number and date of AFG.1098 under which entitled
- (b) Full entitlement of items demanded - by types (and makes where specified).
- (c) Actual holdings and deficiencies of serviceable stores against entitlement (including any items held "in lieu" of the authorised equipment).
- (d) Quantity now demanded.
- (e) Reason for demand.

AFG.1043 (HLR Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

requirements of Engine Assemblies through S.A.T., Rome Area, R.E.M.E. Units will demand weekly showing requirements as at 1800 hrs. each Thursday and send the demand to this office not later than 1100 hrs. each Friday.

11. DOS Reserved Stores. Certain stores other than those controlled by the Staff are in short supply and are controlled by DOS, GHQ and are known as "DOS Reserved Stores". A list of those items at present controlled is attached at Appendix 'C'. This list necessarily varies from time to time.

Indents for these items may be submitted at any time. Application for release is made as and when necessary only in the case of Part I items and monthly in the case of Part II items except in cases of operational urgency, and consequently supply of stores will normally be subject to an average delay of 3/4 weeks.

12. War Office Controlled Stores. The items listed on Census Form 45 are subject to Staff control. Indents for deficiencies will be submitted in the normal manner and application for release will be made by this office. Notification of release and place of collection or method of delivery will be made direct to the unit. It is essential that the following information is provided in respect of all these demands:-

- (a) Number and date of AFG.1098 under which entitled
- (b) Full entitlement of items demanded - by types (and makes where specified).
- (c) Actual holdings and deficiencies of serviceable stores against entitlement (including any items held "in lieu" of the authorised equipment).
- (d) Quantity now demanded.
- (e) Reason for demand.

AFG.1043 (HLR Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

13. Vehicles. Vehicles may be demanded in the same manner as War Office Controlled Stores. The information to be shown is:-

- (a) Number and date of VE or special authority under which entitled.
- (b) Entitlement by types of vehicles.
- (c) Holdings and deficiencies.
- (d) Now required.
- (e) Reason for demand.

Application for replacement vehicles will be supported by AFG.1043 in respect of the condemned vehicles.

14. Controlled Signal Stores. Demands for controlled signal stores as listed at Appendix 'D' attached will be placed by units direct on CSC 3 District.
15. Searchlight and AA Fire Control Instruments. Demands should be submitted as for DOS Reserved Stores and they will be forwarded through Ord. channels to Q(AE) A.F.H.Q.
16. Radar Equipment. Demands for these items will be submitted through RA channels to AA 2 CD AFHQ.
17. Spare for Teletypes 7B, Teletypes 97 and Cipher Machines Type 'K'. Demands will be submitted through Signal and Cipher channels respectively in accordance with Service instructions and not through this office.
18. Surgical Boots and Light Shoes. The conditions of issue are outlined in War Clothing Regs 1943, paras 14 and 15. Indents for surgical boots must be supported by a recommendation from an Orthopaedic or Surgical Specialist. Indents for Boots Ankle No. 4 or Shoes require to be accompanied by a certificate from the Unit Medical Officer and must be countersigned by an OC, NOT below field rank (vide AGI 2124 of 1941 as amended by AGI 4307 of 1942).

CANCELLATION OF INDENTS.

19. Indents for "Bulk Items" passed to Ord. Dump for supply are automatically cancelled after issue of all availabilities and no "to follows" are maintained. BULK ITEMS declared "NOT AVAILABLE" on such indents should, if still required, be redemanded on the next monthly bulk demand and the indent suitably endorsed "Redemanded of Unit Indent No.dated.....".
"To follows" are maintained for a period of two months in respect of all indents passed to 3 D.O.D. for supply, except where issue vouchers are specifically endorsed to the contrary. All such indents outstanding for more than two months from date of indent must be considered as having been automatically cancelled and fresh indents should be submitted.
20. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indents within their allocation and not exceeding 25% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to Ord. through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder basis from Ordnance Dump, Rone.
21. Issues of Tentage. Tentage is in short supply and at the moment all issues are controlled by Q. Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AG.1098 or other scale where not required for immediate use cannot be considered. Careful conservation of tentage in use will assist in alleviating the difficult supply position.

must be supported by a recommendation from an Ordnance or Sergeant Specialist. Indents for Boots Ankle No. 4 or Shoes require to be accompanied by a certificate from the Unit Medical Officer and must be countersigned by an OC, NOT below field rank (vide ACT 2124 of 1941 as amended by ACT 4307 of 1942).

CANCELLATION OF INDENTS.

19. Indents for "Bulk Items" passed to Ord. Dump for supply are automatically cancelled after issue of all availabilities and no "to follows" are maintained. BULK ITEMS declared "NOT AVAILABLE" on such indents should, if still required, be redemanded on the next monthly bulk demand and the indent suitably endorsed "Redemand of Unit Indent No.dated..... item previously declared not available".

"To follows" are maintained for a period of two months in respect of all indents passed to 3 D.O.D. for supply, except where issue vouchers are specifically endorsed to the contrary. All such indents outstanding for more than two months from date of indent must be considered as having been automatically cancelled and fresh indents should be submitted.

20. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indent within their allocation and not exceeding 25% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to Ord. through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder for cylinder basis from Ordnance Dump, Rome.

21. Issues of Tentage. Tentage is in short supply and at the moment all issues are controlled by Q. Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AUG. 1098 or other scale where not required for immediate use cannot be considered. Careful conservation of tentage in use will assist in alleviating the difficult supply position.

SCALES.

22. Clothing. The current scale of winter clothing for all British and British maintained Allied Troops in this theatre is laid down in AMIQ GEO 760/44.

Italian cooperators will be clothed in accordance with the Scales authorised in para 53 of "Administration of Italian P.M. Cooperators in British Bands" issued by AMIQ on 15 Nov. '44.

23. Accommodation Stores. Attention is directed to No. 3 District Routine Order Serial No. 34/576 dated 20 December 1944. Proformas as at Appendix 'D' to the above GEO will be distributed by this office.

24. Blankets. The summer scale of blankets for this area is 2 per man.

Sheet No. 5.

25. Cleaning Materials. Authorised scales are as laid down in GRO 423/44 as amended by GRO 702/44.

26. Soap.

(a) Where no laundry facilities are provided troops are entitled to a free issue of soap at a scale of 5 ozs per man per fortnight in winter and 7 ozs per man per fortnight in summer (vide GRO 338/44). This free issue may be extended to Officers where no W.D. laundry or laundry contract facilities exist and when Soap Yellow or equivalent is not obtainable from EPI. Attention is, however, directed to para 31 below, which details laundry facilities available in this Area.

(b) A free issue of 3 ozs per man per month is authorised for personnel detailed in Appendix to ACI 1566/42, with the addition of engine drivers. Individuals concerned are:-

Blacksmiths and Hammermen, Coppersmiths and Welders, Constructional work personnel, Fitters and Turners, Motor mechanics, Drivers IC., Driver Mechanics, Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks (GRO 488/43).

(c) A special issue of 12 ozs per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).

Soap for cleaning billets etc. will be drawn to scale in GRO 403/44 (see para 25 above).

RETURNED STORES.

27. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AMG.1033 duly completed to the R.S.D. Section of Ordnance Dump. Clothing items so returned should be tied in bundles of ten articles.

RETURNS.

28. The following periodic returns are required to be made by units in this area in connection with holdings of Ordnance Stores:-

- (a) Monthly vehicle state as laid down in GRO 395/46
- (b) Quarterly census of Warlike Stores - Form 45
- (c) Monthly Accommodation Stores Return (in accordance with GRO 376/44)
- (d) Fortnightly bulk type forecast (BASE and REE units only) as para 9 above.
- (e) Part X Orders as necessary - see GRO 395/46.

(f) Weekly Engine Assembly maintenance.

(b) A free issue of 3 ozs per man per month is authorised for personnel detailed in Appendix to ACI 1566/42, with the addition of engine drivers. Individuals concerned are:-

Blacksmiths and Hammermen, Coppersmiths and Welders, Constructional work personnel, Fitters and Turners, Motor mechanics, Drivers IC., Driver Mechanic, Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks (GRO 188/43).

(c) A special issue of 12 ozs per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).

Soap for cleaning billets etc. will be drawn to scale in GRO 403/44 (see para 25 above).

RETURNED STORES.

27. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AUG.1033 duly completed to the R.S.D. Section of Ordnance Dump. Clothing items so returned should be tied in bundles of ten articles.

RETURNS.

28. The following periodic returns are required to be made by units in this area in connection with holdings of Ordnance Stores:-

- (a) Monthly vehicle state as laid down in GRO 395/46
- (b) Quarterly census of Warlike Stores - Form 45
- (c) Monthly Accommodation Stores Return (in accordance with GRO 376/44)
- (d) Fortnightly bulk tyre forecast (RASC and RME units only) as para 9 above.
- (e) Part X Orders as necessary - see GRO 395/46.
- (f) Weekly Engine Assembly requirements - as para 10 above.

OTHER SERVICES.

29. Hospitals and medical units, arriving in area and requiring laundry facilities for hospital laundry will apply to Ordnance Officer, R.A.A.C.

30. Troops washing.

(a) A centralised contract for units under Command is in existence between this office and The Buon Pastore Laundry who operate a steam Laundry located at Via della Lungara 19, Rome

(b) This laundry provides washing and pressing where required of clothing delivered to the Contractor under authority of this office in accordance with the terms of GRO/477/43 (as amended by GRO 572/43 and 338/44).

Sheet No. 6.

30. (Cont'd).

(c) O's Units should apply to this office for copies of the contract and a price list showing the items authorized to be washed at the public expense. Applications must state the number of ORs whose laundry is to be washed under the contract.

(d) Laundry will be sent ~~in~~ individual bundles. Responsibility for delivery, collection and checking rests with the unit.

(e) Payment will be made direct to the Contractor by unit from Imprest Account. Where possible this should be done at time of collection but there is no objection to the making of any arrangement for weekly payment which may be acceptable to the Contractor.

(f) Laundry will be checked in at the laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

(g) Collection will be effected on the due date by presentation of the unit copy of this check list.

(h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been done and certified as correct. Unit imprest copy should be endorsed "O.O. Contractor".

31. Boot Repair. Units holding a Boot Repairer on their W.E. or who have an O.R. employed under GRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to Ord. Dump, Rome Area. Each pair of boots will be securely tied and clearly labelled in ink with the owner's name and unit.

GENERAL

32. First Aid Unit Outfits. Unit requiring scaling in accordance with the terms of GRO 100/44 amended by 475/ and 1047/44 should make application through this office.

33. Vehicles - Allotment of WD numbers. All WD vehicles, normal WD types, requisitioned or captured vehicles, must bear a WD number. Numbers will be obtained from this office, to whom application should be made with a full details of the circumstances under which held. Numbers for captured enemy vehicles will bear the prefix "CAP" which must always be used. Numbers already allotted and painted on such vehicles will have prefix "CAP" added.

34. Local Purchase. Application for the local purchase of Ordnance Stores must be made to this office for onward routing to A.D.O.S. 3 District. No purchases will be made unless this authority is obtained. As a general rule purchase will be undertaken by O.O. and not by the unit. It is emphasised that purchase will only be undertaken or authorised to meet deficiencies on normal scales of entitlement where stores are not available from Depot stocks. Purchases

(f) Laundry will be checked in at the laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

(g) Collection will be effected on the due date by presentation of the unit copy of this check list.

(h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been done and certified as correct. Unit imprest copy should be endorsed "O.O. Contractor".

31. Boot Repair. Units holding a Boot Repairer on their W.E. or who have an O.R. employed under GRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to Ord. Dump, Rome Area. Each pair of boots will be securely tied and clearly labelled in ink with the armor's name and unit.

GENERAL

32. First Aid PT Outfits. Unit requiring scaling in accordance with the terms of GRO 100/44 amended by 475/ and 1047/44 should make application through this office.

33. Vehicles - Allotment of WD numbers. All WD vehicles, normal WD types, requisitioned or captured vehicles, must bear a WD number. Numbers will be obtained from this office, to whom application should be made with a full details of the circumstances under which held. Numbers for captured enemy vehicles will bear the prefix "CAP" which must always be used. Numbers already allotted and painted on such vehicles will have prefix "CAP" added.

34. Local Purchase. Application for the local purchase of Ordnance Stores must be made to this office for onward routing to A.D.O.S. 3 District. No purchases will be made unless this authority is obtained. As a general rule purchase will be undertaken by O.O. and not by the unit. It is emphasised that purchase will only be undertaken or authorised to meet deficiencies on normal scales of entitlement where stores are not available from Depot stocks. Purchases of items for which there is no entitlement will only be undertaken when Staff authority to hold in excess of scale is in possession. Spare parts of WD requisitioned cars are stores of Ordnance supply and will be demanded in the normal manner and NOT purchased indiscriminately.

35. Arrivals and Departures. Units are requested to notify arrival and departure to this office as early as possible. Stores due in from 3 D.O.D. will be re-direct but indents for stores enumerated in Appendix 'B' will be cancelled.

"M.T. SPACES - IN TAPERS - STOPPED AT SEEDS. T.M."

11. Following the closure of No. 1 (20) Sub Depot 557 B.O.D., a small M.A. Dump is being set up under control of A.G. Wilson's Pass (anticipated opening date 18 June 46). This Dump will be incorporated into the present ADOS DUMP under the joint designation of "3 DIGITON CANNON DEPOT". The interim period between the closure of 1 Sub Depot and the opening of the new Dump has been covered by the issue to Workshops of 2 months stocks of available maintenance spares.
12. STANDARD MAINTENANCE only will be catered for in the future, (i.e. 1st to 3rd Echelon repairs as covered by Chilwell L & E Standard Maintenance Schedules), and the initial Holdings of 3 B.O.D. will consist solely of available standard maintenance spares transferred from 1 Sub Depot 557 B.O.D. and 502 Base Workshops Stores Depot.

5. The following notes and types only are being called :-

3	ton	4x2	CS	REDFORD	Heavy Utility 4 str	4x2	FORD
3	ton	4x4	CS	CHEVROLET	Car 4 str	4x2	HUMMER
3	ton	4x2	CS	TOUGE	Heavy Utility 4 str	4x4	HUMMER
3	ton	4x4	CS	FORD	Light Utility 2 str	4x2	HILMAN
15	cwt	4x2	CS	REDFORD	"	"	MORRIS
15	cwt	4x2	CS	CHEVROLET	"	"	STANDARD
15	cwt	4x2	CS	DOAGE	"	"	AUSTIN
15	cwt	WOT	2	FORD	5 str 4x4 (Jeep)	"	FORD/WILLYS
15	cwt	CUN		FORD	W/cycle	"	ESA
	Ambulance	4x2		AUSTIN	"	"	MATCHLESS
					"	"	ARTEL

+ NON-BUYER

4. Indents, which will cover actual requirements only, will be forwarded in duplicate on AF C1033 to Indent Clearing Center c/c, S. B. Depot 557 H. O. D. Separate indents will be submitted for each item. "IN" and "OUT" in respect of items H. A. will be maintained at 3 D. O. D. for a period of 3 months from date of indent and units will be notified and authorized when these items become available. Should such notification be received within 3 months, units will re-demand. Hasteners will NOT be submitted at any time as these would only involve waste of time and paper.
5. There will be NO "over the counter" issues at 3 D. O. D. In the first place the Dump staff would not be large enough to cope with this and secondly such a procedure would give local units an advantage over units in other Areas. Units and Areas will be notified when stores are available for collection.

Students submitted covering letters not studied in Student Maintenance

2. STANDARD MAINTENANCE only will be entered for in the future, (i.e. 1st to 3rd Echelon repairs as covered by Chilwell A & B Standard Maintenance Schedules), and the initial holdings at 3 D.O.D. will consist solely of available standard maintenance spares transferred from Sub Depot 557 B.O.D. and 502 Base Workshops Stores Depot.

3. The following makes and types only are being needed:-

3 ton 4x2	GS	FEDDORD	Heavy Utility 4 str	4x2	FORD
3 ton 4x4	GS	CHRYSLER	Car 4 str	4x2	HUMBER

+ NON STANDARD

4. Indents, which will cover actual requirements only, will be forwarded in duplicate on AF G4033 to Indent Clearing Centre c/o Sub Depot 557 B.O.D. Separate indents will be submitted for each item. "BUY OUT" in respect of items N.A. will be maintained at 3 D.O.D. for a period of 3 months from date of indent and units will be notified automatically when these items become available. Should such notification not be received within 3 months, units will re-demand. Restorers will not be submitted at any time as these would only involve waste of time and paper.

5. There will be NO "over the counter" sales at 3 D.O.D. In the first place the Dump staff would not be large enough to cope with this and secondly such a procedure would give local units an advantage over units in other Areas. Units and Areas will be notified when stores are available for collection.

6. Indents submitted covering items not sold at Standard Maintenance Schedules will be returned to units enclosed "NOT REQUIRED".

7. Types & Tubes - Demands for types and tubes will be submitted direct to C.O. 3 D.O.D. accompanied by P&EE confirmation certificate.

8. Engines - Limited number of engines are being made available and Workshops will demand in accordance with existing procedure.

1184

0082

785020

- 2 -

9. It is the intention to replace Standard Vehicles beyond 3rd Echelon repair by the issue of non standard types. As non standard vehicles, other than those indicated above will not be scaled for Standard Maintenance, it will be in the interests of all units to conserve their present holdings of the makes and types now notified by the most rigid economy in their use.

ROME / VIA ALLIED COMMAND
OF AREA (BRITISH)

ADCS MEMORANDUM No. 12

Subject: - DEMANDS SERVICES - ROME AREA

1. This Circular is published for the information and guidance of British Units in Rome Area, and is an endeavor to indicate what facilities are available and how advantage can best be taken of them. The strict observance by Units of such instructions as may be incorporated in this Circular is a necessary adjunct to the efficient maintenance of such facilities.

The contents of this Circular are applicable to Units under Command 201 Sub Area in so far as general subjects are concerned, but NOT as affecting such particular Sections of this Circular (e.g. Channels of Demand etc.) which are or may be the subject of separate instructions issued by DACS 201 Sub Area.

INFORMATION

2. This office is designated as DEMANDS (BRITISH) ROME AREA ALLIED COMMAND.

Communications should be addressed as under:-

Correspondence: ADCS Rome Area Allied Command

Signals: ORD (Tr) Rome Area.

An ADCS Dump is located in Direzione Distrettoria, Via Etruria, Rome (Map Reference 65849) and is controlled by this office, to which all communications should be addressed.

(Via METRONIA
- Via GALLIA
- Via ETRURIA)

STORES - SUPPLY THROUGH NORMAL CHANNELS

3. Channels of Demands. All demands for Ordnance Stores (including those for vehicles and War Office Controlled Stores) from Units in Rome Area, other than those under command 201 Sub Area and except as detailed in paras. 6, 10, 14 and 15 below, will be submitted through this office.
4. Method of demand. Indents will be submitted on AFG. 994, AFG. 997 or AFG. 658 in duplicate and must be signed by an officer. These Army Forms vary considerably in form and accordingly a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on ALL indents:-

- a) The correct and full designation of the Unit demanding.
- b) A unit indent number and date of issue.

Command 201 Sub Area 111. For all general subjects are concerned, but NOT as affecting such particular Sections of this Circular (e.g. Channels of Demand etc.) which are or may be the subject of separate instructions issued by DDCS 201 Sub Area.

INFORMATION

2. This office is designated as DEMAND (BRITISH) ROLE AREA ALLIED COMMAND.

Communications should be addressed as under:-

Correspondence: ALOS Rome Area Allied Command

Signals: OFD (Fr) Rome Area

An ALOS Det is located in Direzione Distrettoria, Via Etruria, Rome (see Reference 75545) and is controlled by this office, to which all communications should be addressed.

(RA METRONIA
- VIA GALLIA
- VIA ETRURIA)

STORES - SUPPLY THROUGH NORMAL CHANNELS

3. Channels of Demands. All demands for Ordnance Stores (including those for vehicles and War Office Controlled Stores) from Units in Rome Area, other than those under command 201 Sub Area and except as detailed in paras. 8, 10, 14 and 15 below, will be submitted through this office.

4. Method of demand. Indents will be submitted on AFG 994, AFG 997 or AFG 998 in triplicate and must be signed by an officer. These Army Forms vary considerably in form and accordingly a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on ALL indents:-

- a) The correct and full designation of the Unit demanding.
- b) A unit indent number and date of signature (to facilitate reference)
- c) The VLOS Section in which the item(s) demanded is listed. A list of VLOS Sections is shown as Appendix A.
- d) Part or catalogue number of item(s) demanded (if known)
- e) The unit personnel, to each item showing, where applicable, the scale employed (e.g. 2 per man, 5 per man per week, 1 per vehicle or 6 per battery etc.)

1180

Sheet 2.

- f) The authority from which the unit entitlement is derived (e.g. the appropriate Clothing Scale, the AFG. 1098 number and date or Special Equipment List or War Office letter, the reference of the appropriate AFG or Lower Command CIO or a letter or such other recognisable written authority as may be relevant).
- g) Present serviceable unit holdings of each item demanded, including any quantities held in Units Stores.
- h) Unit strength (in terms of personnel, vehicles, weapons etc. as applicable).
- i) Make and type of vehicle or equipment (for MT Spares and Assemblies and all Technical Spares).
- j) A proper explanation of the circumstances under which the requirement is considered justified in ALL cases where the demand cannot be supported by a known authority.

Care should be taken to observe the following additional points:-

- k) Only items in any one VACS Section may be demanded on any one Indent. Failure to observe this rule means that items incorrectly demanded must be extracted in this office with consequent delay both to the individual indent and to the general flow of work.
- l) The certificate at the top left of AFG. 994 and the bottom left of AFG. 997 must be completed.
- m) Neither the completion of this certificate nor the use of such endorsements as "To replace unserviceable", "To complete to Scale" etc, constitute in themselves authority for issue and will NOT be accepted as such.
- n) Thoughtless use of the space headed "To be sent to" (AFG. 994) and "Address for Stores" (AFG. 997) can lead to considerable delay in receipt of stores. The inserting of the sentence "Unit will collect" may well result in stores being held indefinitely in Base Ordnance Depots awaiting collection. In case of doubt the unit designation should be inserted in the space.
- o) Units for whom no specific AFG. 1098 has been notified or who are in the process of forming can demand normal requirements of non-controlled Ordnance Stores up to the Scales shown in AFG. 1098/1000 on the basis of the strength authorised in their Unit W.E. or the posted strength, whichever is the lesser.
- p) Indents for MT Spares in respect of which the Catalogue or Makers Part Numbers are not known must show either the contract number of the vehicle or in case of American makes the Supply Mech number to allow for identification.
- q) Not more than ten items should be demanded on any one indent

- j) A proper explanation of the circumstances under which the requirement is considered justified in ALL cases where the demand cannot be supported by a known authority.

Care should be taken to observe the following additional points:-

- k) Only items in any one VAOS Section may be demanded on any one Indent. Failure to observe this rule means that items incorrectly demanded must be extracted in this office with consequent delay both to the individual indent and to the general flow of work.
 - l) The certificate at the top left of AFG. 994 and the bottom left of AFG. 997 must be completed.
 - m) Neither the completion of this certificate nor the use of such endorsements as "To replace unserviceable", "To complete to Scale" etc. constitute in themselves authority for issue and will NOT be accepted as such.
 - n) Thoughtless use of the space headed "To be sent to" (AFG. 994) and "Address for Stores" (AFG. 997) can lead to considerable delay in receipt of stores. The inserting of the sentence "Unit will collect" may well result in stores being held indefinitely in Base Ordnance Depots awaiting collection. In case of doubt the unit designation should be inserted in the space.
 - o) Units for whom no specific AFG. 1998 has been notified or who are in the process of forming can demand normal requirements of non-controlled Ordnance Stores up to the Scales shown in AFG. 1998/1000 on the basis of the strength authorised in their unit W.E. or the posted strength, whichever is the lesser.
 - p) Indents for MT Spares in respect of which the Catalogue or Motors Part Numbers are not known must show either the contract number of the vehicle or in case of American makes the Supply Mech number to allow for identification.
 - q) Not more than ten items should be demanded on any one indent
5. Frequency of Submission. Indents for Bulk Items (i.e. those detailed at Appendix B) will be submitted fortnightly only, on the 10th and the 25th of each month. Indents for all other stores (including MT Spares) may be submitted as and when necessary. In all cases indents must be lodged as to allow of 7 clear days before anticipated date of collection (except that in the case of indents passed to BODs for supply, a delay of 21 days should be expected.)
6. Supply. Stores detailed in Appendix B are classified as "Bulk Items" and are normally held in ADOS Dump. Indents for these items will be met from that source. All other indents except as specified in paras 8 to 16 inclusive below, are passed direct to Base Ordnance Depots for supply and railed forward by them to ADOS Dump, Rome for distribution. Notification of receipt of such stores by ADOS Dump is made direct to unit who should

Sheet 2

6. Cont'd

collect from the Transit Station, ADOS Dump, or their appropriate collection day (see para. 7 below). Authority for units to collect stores direct from Base Ordnance Depot will only be granted in cases of operational urgency.

7. Days for collection. In order to facilitate working at ADOS Dump, units are required to effect collection of stores on specified days of the week according to their Arm of Service. Days are allotted as below and stores will not normally be issued to units except on these days:-

Mondays	- RA., CRE and RIE
Tuesdays	- ME (all RE units under command CRE)
Wednesdays	- EC., FS., Fentel and HQ Units
Thursdays	- RASC and Provost
Fridays	- RAMO., -AG., AG of S. and Mov and Tr.
Saturdays	- RAC and all units of other arms than above.
Sundays	- Issues of stores from ADOS Dump will not be made on Sundays except in cases of operational necessity.

ITEMS, DEMANDS FOR WHICH REQUIRE SPECIAL ROUTING.

8. MT Spares - demands from RASC and REME Workshop Units
RASC and REME Workshop Units only will demand MT Spares (except for tyres and tubes, see para. 9 below, and engine assemblies, see para. 10 below) direct on 1 Sub Depot, 557 Base Ordnance Depot and collect under their own arrangements. It is stressed that this authority does not extend the placing demands on other Sub Depots which may carry stores common to MT/Miscellaneous Sections. Demands from all other units will be routed through this office.

9. Tyres and tubes. All demands will be submitted through this office. RASC and REME Workshop Units will submit weekly bulk forecasts to reach this office by 12.0 hrs. each Saturday. RASC unit forecasts will be routed through ADST., Rome Area.

The following sizes of tyres and tubes are at present subject to control by DOS., AUTH:-

325 x 19	1150) x 16	325 x 15
600 x 16	1130)	1100 x 24
750 x 16	1050) x 20	1200 x 20
900 x 16	1100)	
900 x 20	1350) x 20	
	1400)	

- Thursdays - RASC and Provost
- Fridays - RASC, AG, MO of S. and Mov and Tr.
- Saturdays - RAC and all units of other arms than above.
- Sundays - Issues of stores from AICS Dump will not be made on Sundays except in cases of operational necessity.

ITEMS, DEMANDS FOR WHICH REQUIRE SPECIAL ROUTING.

8. MT Spares - demands from RASC and REME Workshop Units

RASC and REME Workshop Units only will demand MT Spares (except for tyres and tubes, see para. 9 below) and engine assemblies, see para. 10 below) direct on 1 Sub Depot, 557 Base Ordnance Depot and collect under their own arrangements. It is stressed that this authority does not extend the placing demands on other Sub Depots which may carry stores common to MT/Miscellaneous Sections. Demands from all other Units will be routed through this office.

9. Tyres and tubes. AIE demands will be submitted through this office. RASC and REME Workshop Units will submit weekly; bulk forecasts to reach this office by 1200 hrs. each Saturday. RASC unit forecasts will be routed through ADST., Rome Area.

The following sizes of tyres and tubes are at present subject to control by DOS, AUTH:-

325 x 19	1150) x 16	325 x 15
600 x 16	1100)	1100 x 24
750 x 16	1050) x 20	1200 x 20
900 x 16	1100)	
900 x 20	1350) x 20	
	1400)	

Applications for release based on consolidation of unit indents and workshop forecasts are submitted to DOS weekly by this office through DDOS 3 District. Tyres and tubes are released and despatched in bulk to ADOS Dump Rome Area, which notifies units to collect. A minimum delay of two weeks must be expected between date of submission of indent and ultimate notification of availability in ADOS Dump.

10. Engine Assemblies. RASC Transport Units will demand their requirements of Engine Assemblies through S. & T., Rome Area. AIE units will demand weekly showing requirements as at 1800 hrs. each Saturday and send the demand to this office not later than 1100 hrs. each Sunday.

11. DOS Reserved Stores. Certain stores other than those controlled by the Staff are in short supply and are controlled by DOS, AFHQ and are known as "DOS Reserved Stores". A list of these items at present controlled is attached at Appendix X. This list necessarily varies from time to time.

11- Cont'd

Indents for these items may be submitted at any time. Application for release is made as and when necessary only in the case of Part I items and monthly in the case of Part II items except in cases of operational urgency, and consequently supply of stores will normally be subject to an average delay of 3 1/2 weeks.

12. War Office Controlled Stores. The items listed on Census Form 45 are subject to Staff control. Indents for deficiencies will be submitted in the normal manner and application for release will be made by this office. Notification of release and place of collection or method of delivery will be made direct to the unit. It is essential that the following information is provided in respect of all these demands:-

- a) Number and date of AFG. 1098 under which entitled
- b) Full entitlement of items demanded - by types (and makes where specified).
- c) Actual holdings and deficiencies of serviceable stores against entitlement (including any items held "in lieu" of the authorised equipment).
- d) Quantity now demanded.
- e) Reason for demand.

AFG. 1043 (H.R. Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

13. Vehicles. Vehicles may be demanded in the same manner as War Office Controlled Stores. The information to be shown is:-

- a) Number and date of WE or special authority under which entitled.
- b) Entitlement by types of vehicles
- c) Holdings and deficiencies.
- d) Now required.
- e) Reason for demand.

Application for replacement vehicles will be supported by AFG. 1043 in respect of the condemned vehicles.

14. Controlled Signal Stores. Demands for controlled signal stores as listed at Appendix D attached will be placed by units direct on CSO 3 District.

15. Searchlight and AA Fire Control Instruments. Demands should be submitted as for DOS Reserved Stores and they will be forwarded through Ord Channels to Q(AE) AFHQ.

16. Radar Equipment. Demands for these items will be submitted through RA Channels to AF & OD AFHQ.

17. Spares for teleprinters 7B, teletypes EE 97 and Cipher Machines Type 'X'.

Demands will be submitted through Signal and Cipher channels respectively in accordance with Service instructions and not through this office.

18. Survival Pools and Light Stores. The conditions of issue are outlined in

- c) Actual holdings and deficiencies of serviceable stores against entitlement (including any items held "in lieu" of the authorised equipment).
- d) Quantity now demanded.
- e) Reason for demand.

AFG. 1043 (BLR Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

13. Vehicles. Vehicles may be demanded in the same manner as War Office Controlled Stores. The information to be shown is:-

- a) Number and date of VE or special authority under which entitled.
- b) Entitlement by types of vehicles
- c) Holdings and deficiencies.
- d) Now required.
- e) Reason for demand.

Application for replacement vehicles will be supported by AFG. 1043 in respect of the condemned vehicles.

14. Controlled Signal Stores. Demands for controlled signal stores as listed at Appendix D' attached will be placed by units direct on CSO 3 District.

15. Searchlight and AA Fire Control Instruments. Demands should be submitted as for DOS Reserved Stores and they will be forwarded through Ord Channels to Q(AE) AFHQ.

16. Radar Equipment. Demands for these items will be submitted through RA Channels to AA & CD AFHQ.

17. Spares for teleprinters 7B, Teletypes TM 97 and Cipher Machines Type 'X'

Demands will be submitted through Signal and Cipher channels respectively in accordance with Service instructions and not through this office.

18. Surgical Boots and Light Shoes. The conditions of issue are outlined in War Clothing Regs 1943, paras. 14 and 15. Indents for Surgical Boots must be supported by a recommendation from an Orthopaedic or Surgical Specialist. Indents for Boots Ankle No. 4 or Shoes require to be accompanied by a certificate from the Unit Medical Officer and must be countersigned by an OC. NOT below field rank (vide ACI 2124 of 1941 as amended by ACI 4307 of 1942).

CANCELLATION OF INDENTS

19. Indents for "Bulk Items" passed to ADOS Dump for supply are automatically cancelled after issue of all availabilities and no 'to follows' are maintained. BULK ITEMS declared 'NOT AVAILABLE' on such indents should, if still required, be redemanded on the next fortnightly bulk demand and the indent suitably endorsed.

19-Cont'd

"Redemand of Unit Indent No.....dated.....item previously declared Not available".

"To follows" are maintained for a period of two months in respect of all indents passed to Base Ordnance Depots for supply, except where issue vouchers are specifically endorsed to the contrary. All such indents outstanding for more than two months from date of indent must be considered as having been automatically cancelled and fresh indents should be submitted.

SPECIAL ISSUES

20. Issues to Voluntary Organisations Demands may be made by Voluntary Organisations for essential items of normal Ordnance supply not obtainable through their own channels. No demands in excess of the existing scales authorised for military units will be considered. All issues will be on repayment and Debit Vouchers will be rendered by this office to the Command Paymaster in accordance with the terms of ACI 1132 of 1941 (as amended).

21. Issues of MT Spares Parts from Salvage Units. Under the terms of Q(AE) AFHQ Admin. Instruction No. 5, issues may be made from Vehicle Disposal Units as follows:-

"Items, other than engine assemblies and associate sub-assemblies (e.g. carburettors, fuel pump etc.) and which are included in the Schedules of assemblies and parts to be recovered by Vehicle Disposal units may be issued by OC., Vehicle Disposal Unit to Units on production of an Ordnance Issue Voucher showing non-availability of the item(s) at the OFF., ACD or BOD on which the unit is based for supply".

It is stressed that this instruction is intended as a means to ensure that vehicles are not kept off the road through lack of essential spares where these can be found available with Salvage Units. It does not entitle units to obtain and hold quantities of MT Spares in excess of scales or expendable items in excess of reasonable requirements.

22. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indent within their allocation and not exceeding 75% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to ADOS through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder for cylinder basis from ADOS Dump, Rome.

23. Issues of Tentage. Tentage is in short supply and at the moment all issues are controlled by Q Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AFG 1098 or other scale

SPECIAL ISSUES

20. Issues to Voluntary Organisations Demands may be made by Voluntary Organisations for essential items of normal Ordnance supply not obtainable through their own channels. No demands in excess of the existing scales authorised for military units will be considered. All issues will be on repayment and Debit Vouchers will be rendered by this office to the Command Paymaster in accordance with the terms of ACI 1132 of 1941 (as amended).

21. Issues of MT Sparer Parts from Salvage Units. Under the terms of Q(AE) AFHQ Admin. Instruction No. 5, issues may be made from Vehicle Disposal Units as follows:-

"Items, other than engine assemblies and associated sub-assemblies (e.g. carburettors, fuel pump etc.) and which are included in the Schedules of assemblies and parts to be recovered by Vehicle Disposal units may be issued by OC., Vehicle Disposal Unit to Units on production of an Ordnance Issue Voucher showing non-availability of the item(s) at the O.P., AOD or BOD on which the unit is based for supply".

It is stressed that this instruction is intended as a means to ensure that vehicles are not kept off the road through lack of essential spares where these can be found available with Salvage Units. It does not entitle units to obtain and hold quantities of MT Sparer in excess of scales or expendable items in excess of reasonable requirements.

22. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indent within their allocation and not exceeding 25% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to ADOS through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder for cylinder basis from ADOS Dump, Rome.

23. Issues of Tentage. Tentage is in short supply and at the moment all issues are controlled by Q Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AFG. 1098 or other scale where not required for immediate use cannot be considered. Careful conservation of tentage in use will assist in alleviating the difficult supply position.

SCALES

24. Clothing. The current Scale of winter clothing for all British and British maintained Allied troops in this theatre is laid down in AFHQ GPO 760/44.

1178

Italian cooperators will be clothed in accordance with the Scales authorised in para. 53 of "Administration of Italian P.W. Cooperators in British Hands" issued by AFHQ on 15 Nov. '44.

25. Accommodation Stores. Attention is directed to No. 3 District Routine Order Serial No. 31/376 dated 20 December '44. Proformas as at Appendix D to the above DRO will be distributed by this office.

Sheet 6.

26. Blankets. The winter scale of blankets for this Area is 4 per man or 2 blankets and 1 comforter per man (vide GRO 837/44). Comforters are only issuable to troops billeted in covered accommodation as they are not suitable for use under canvas.
27. Clearing Materials. Authorised scales are as laid down in GRO 423/44 as amended by GRO 702/44.
28. Soap.
 a) Where no laundry facilities are provided troops are entitled to a free issue of soap at a scale of 5 ozs per man per fortnight in winter and 7 ozs per man per fortnight in summer (vide GRO 338/44). This free issue may be extended to Officers where no WD Laundry or Laundry Contract facilities exist and when Soap Yellow or equivalent is not obtainable from EPL. Attention is, however, directed to para 34 below, which details laundry facilities available in this Area.
- b) A free issue of 3 ozs per man per month is authorised for personnel detailed in Appendix to ADI 1566/42, with the addition of engine drivers. Individuals concerned are:-
 Blacksmiths and Hammermen, Coppersmiths and Welders, Constructional work personnel, Fitters and Turners, Motor Mechanics, Drivers IC., Driver Mechanics, Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks (GRO 188/43).
- c) A special issue of 12 ozs per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).
- Soap for cleaning billets etc. will be drawn to scale in GRO 423/44 (see para. 27 above)
- RETURNED STORES.
29. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AEC 1033 duly completed to the RSD Section of ADOS Dump. Clothing items so returned should be tied in bundles of ten articles.
- RETURNS.
30. The following periodic returns are required to be made by units in this Area in connection with holdings of Ordnance Stores:-
- a) Monthly vehicle state as laid down in GRO 474/43
 - b) Monthly Census of Warlike Stores - Form 45
 - c) Monthly Accommodation Stores Return (in accordance with DRO 376/44)
 - d) Weekly bulk tyre forecast (RASC and RAME Units only) as para 9 above,

b) A free issue of 3 ozs per man per month is authorised for personnel detailed in Appendix to AFI 1566/42, with the addition of engine drivers. Individuals concerned are:-

Blacksmiths and Hammermen, Coppersmiths and Welders, Constructional work personnel, Fitters and Turners, Motor Mechanics, Drivers IC., Driver Mechanics, Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks (GRO 188/43).

c) A special issue of 12 ozs per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).

Soap for cleaning billets etc. will be drawn to scale in GRO 423/44 (see para. 27 above)

RETURNED STORES.

29. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AFG. 1033 duly completed to the RSD Section of ADCS Dump. Clothing items so returned should be tied in bundles of ten articles.

RETURNS.

30. The following periodic returns are required to be made by units in this Area in connection with holdings of Ordnance Stores:-

- a) Monthly vehicle state as laid down in GRO 474/43
- b) Monthly Census of Warlike Stores - Form 45
- c) Monthly Accommodation Stores Return (in accordance with DRO 376/44)
- d) Weekly bulk tyre forecast (RASC and RELE Units only) as para 9 above,
- e) Part X Orders as necessary - see GRO 465/44 as amended by GRO 737/44
- f) Weekly Engine Assembly requirements - as para 10 above.

OTHER SERVICES

31. Hospital Laundry. This is handled by 16 Mobile Laundry operating at the Italian Red Cross Stores building in Via Ostiense, Rome. Hospitals should contact the OC Laundry direct (telephone 66013). No other class of laundry will be accepted by this Unit.

Sheet 7.32. Troops Washing.

a) A centralized contract for Units under Command is in existence between this office and The General Bleach Manufacturing and Applying Co., who operate a steam Laundry previously known as Tarantola Laundry located behind the Foro D'Italia.

b) This laundry provides washing and pressing where required of clothing delivered to the Contractor under authority of this office in accordance with the terms of GRO 477/43 (as amended by GRO 572/43 and 338/44).

c) OSC Units should apply to this office for copies of the contract and a price list showing the items authorized to be washed at the public expense. Application must state the number of ORs whose laundry is to be washed under the contract.

d) Laundry will be sent tied in individual bundles. Responsibility for delivery, collection and checking receipts with the unit.

e) Payment will be made direct to the Contractor by unit from Imprest Account. Where possible this should be done at time of collection but there is no objection to the making of any arrangement for weekly payment which may be acceptable to the Contractor.

f) Laundry will be checked in at the Laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

g) Collection will be effected on the due date by presentation of the unit copy of this check list.

h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support Unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been made and certified as correct. Unit Imprest copy should be endorsed "ADOS Contract".

33. Blanket Exchange Facilities. Exchanges can be arranged by contacting 16 Mobile Laundry (address as in para 31 above). Exchanges of over 200 blankets at one time must have the prior sanction of this office. In all cases at least 7 days' notice of proposed exchange should be given.

34. Disinfestation. Disinfestation will be undertaken by 25 Field Sanitary Section RAMC. Units can contact by telephone - No. 478369.

35. Boot Repairs. Units holding a Boot Repairer on their WE or who have an OR employed under GRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to ADOS Dump, Rome Area. Each pair of boots will be securely

public expense. Application must state the number of units to be washed under the contract.

d) Laundry will be sent tied in individual bundles. Responsibility for delivery, collection and checking rests with the unit.

e) Payment will be made direct to the Contractor by unit from Interest Account. Where possible this should be done at time of collection but there is no objection to the making of any arrangement for weekly payment which may be acceptable to the Contractor.

f) Laundry will be checked in at the Laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

g) Collection will be effected on the due date by presentation of the unit copy of this check list.

h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support Unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been made and certified as correct. Unit Imprest copy should be endorsed "ADOS Contract".

33. Blanket Exchange Facilities. Exchanges can be arranged by contacting 16 Mobile Laundry (address as in para 34 above). Exchanges of over 200 blankets at one time must have the prior sanction of this office. In all cases at least 7 days' notice of proposed exchange should be given.

34. Disinfection. Disinfection will be undertaken by 25 Field Sanitary Section RAMC. Units can contact by telephone - No. 478369.

35. Boot Repairs. Units holding a Boot Repairer on their WE or who have an OR employed under GRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to ADOS Dump, Rome Area. Each pair of boots will be securely tied and clearly labelled in ink with the owner's name and unit.

Facilities exist for the repair of Officers' and Nursing Officers' footwear at No. 10 Officers Shop RAOC, 1-7 Corso Vittorio Emanuele, Rome. **1177**

GENERAL.

36. First Aid MT Outfits. Units requiring sealing in accordance with the terms of GRO 100/44 amended by 475 and 1047/44 should make application through this office.

Sheet 8.

37. Vehicles - Allotment of WD Numbers. All WD vehicles, normal WD types, requisitioned or captured vehicles, must bear a WD number. Numbers will be obtained from this office, to whom application should be made with a full detail of the circumstances under which held. Numbers for captured enemy vehicles will bear the prefix "CAP" which must always be used. Numbers already allotted and painted on such vehicles will have prefix "CAP" added.

38. Local Purchase. The authority for Local Purchase of Ordnance Stores in this Area is vested in this office and no such purchase will be made without prior application to ADOS. As a general rule purchase will be undertaken by ADOS and not by the unit. It is emphasised that purchase will only be undertaken or authorised to meet deficiencies on normal scales of entitlement where stores are not available from Depot stocks. Purchases of items for which there is no entitlement will only be undertaken when Staff authority to hold in excess of scale is in possession.

Spare parts for WD requisitioned cars are stores of Ordnance supply and will be demanded in the normal manner and NOT purchased indiscriminately.

39. Requisition of Ordnance Stores. The sole authority for the requisition of Ordnance Stores in Rome Area for British Service is ADOS and no requisition effected other than through this office is valid. In addition there is an over riding control on all requisitioning in the Area exercised by the Commanding General in conjunction with the Italian Requisition Board. Applications to requisition will be submitted to this office in writing, giving full details of the items or equipment required and supporting reasons thereof. No requisitioning action whatsoever will be taken except under written authority from this office or from a Staff Branch of this HQ.

40. Arrivals and Departures. Units are requested to notify arrival and departure to this office as early as possible. Failure to give prompt notification of departure results in records of unit holdings and indents not being forwarded to the next appropriate HQ, who are thereby handicapped and may require the unit to resubmit indents and demands. This can be avoided by prompt departmental action to redirect stores due in off out-standing demands if adequate notice is given by units.

MACHINERY

All items in Section W 3 Part 1

ENGINES I.C. and C.I.

All complete units in Section X 3

Appendix A - Sheet 3.List of DOS Reserved Stores - Cont'd

TYPES AND TUBES of following sizes:-

320 x 19
600 x 16
700 x 16
825 x 15
900 x 16
900 x 20
1100 x 24
1050/1100 x 15
1050/1100 x 20
1200/1350/1400 x 20

1171

900 x 16
900 x 20
1100 x 24
1050/1100 x 16
1050/1100 x 20
1200/1350/1400 x 28

Appendix D to ADOS Circular No. 12
dated 17 January 1945.

LIST OF CONTROLLED SIGNAL STORES

SECTION W 2

Cable Assault PVC (and W 130)
Cable Electric D Glass (all types and American equivalents)
Cable Electric IRV 1-pr 12½
Cable Electric IRV 7-pr
Cable Electric UC Telephones (all types)
Cable Electric Switchboards (all types)
Cable Electric Quad (all types)
Light Armoured Cables (14-pr/40 etc.)
Wire Copper Binding 50 lb W4
Wire Electric Cadmium Copper 70 lb
Wire Electric HDG 100 lb
Wire Electric HDG 200 lb
Wire Electric 1 pair 12½
Wire Electric GI 200 lb (and heavier gauge)
Wire Electric III 4/8 and BB4

Multi-Airline Components
Permanent Line Components

SECTION Y 1

Apparatus Cable Laying (all types)
Barrows Drum
Cable Layers Mechanical
Frames D & P 10 wire
Fullerphones
Ladders Field Telegraph
Ladders MAL
Paper Telegraph Morse (all types)
Paper Teleprinters (all types)
Paper Teletype (all types)
Paper Wheatstone
Paper Undulator
Ratchets and Tongs No. 1 and 2
Superposing Units
Switchboards (CB, UC, F & F Comd. and American of all types)
Telephone Sets (all types)
Test Frames (all types)
Test Sets EE 65
Test Sets I 56
Test Sets Portable
Vibrators Ringing
Multi-Airline Route
Permanent Line Route

SECTION Y 2

Apparatus OT Terminal Equipment and Associated Assemblies
Apparatus VF Telegraph-Terminal Equipment and Associated Assemblies
Relays 299 LN
Repeaters (CT, VF, 8-circuit and commercial equivalents)
Switchboards Teleprinter
Teleprinters and Terminal Units (all types)
Teletypewriters
Units Signalling VF No. 3
Units Filter Balance and Bypass (all types)
VF Spares, Teleprinter Spares, Cipher Spares and High-Speed Spares
Supply Unit Rectifiers

SECTION Z 1

Reception Sets (all types)
Motors and Frequency Motors (all types)

SECTION Z 2

Charging Sets (all types)
Generating Sets (all types provided)

1170

Multi-Airline Components
Permanent Line Components

SECTION Y 2

Apparatus of Terminal Equipment and Associated Assemblies
Apparatus of Telegraph-Terminal Equipment and Associated Assemblies
Relays 299 AN
Repeaters (JT, VF, 6-circuit and commercial equivalents)
Switchboards and Teleprinter
Teleprinters and Terminal Units (all types)
Teletypewriters
Units Signalling VF No. 3
Units Filter Balance and Bypass (all types)
VF Spares, Teleprinter Spares, Cipher Spares and High-Speed Spares
Supply Unit Rectifiers

SECTION Z 2

Charging Sets (all types) } 1170
Generating Sets } all types provided
Power Units } for use with Sig-
Batteries See Port } nal Equipment
Hydrometers
Battery Chargers No. 1
Cipher Machine Typex (all Marks)
Converters AC/DC (all types)
Test Sets AC/DC

SECTION Y 1

Apparatus Cable Laying (all types)
Barrows Drum
Cable Layers Mechanical
Frames D & P 10 wire
Fullerphones
Ladders Field Telegraph
Ladders MAL
Paper Telegraph Morse (all types)
Paper Teleprinters (all types)
Paper Teletype (all types)
Paper Wheatstone
Paper Undulator
Ratchets and Tongs No. 1 and 2
Superposing Units
Switchboards (CB, UC, F & F Comd. and American of all types)
Telephone Sets (all types)
Test Frames (all types)
Test Sets EE 65
Test Sets I 56
Test Sets Portable
Vibrators Ringing
Multi-Airline Route
Permanent Line Route

SECTION Z 1

Reception Sets (all types)
Wavemeters and Frequency Meters (all types)
Handcarts Wireless
Wireless Sets (all types including Installation Kits and Packs)
