7 SALVAGE AND MANUFACTURING CENTER
FLORENCE

REF: 3043/Ord.

Florence, 2 May 1946

Subject : Worn out equipment at disposal of M.M.I.A.

To : 7 B.L.U. FLORENCE

Info to : Commissary Directorate Florence
(Ref. 2612/S dated 30 April 1945)

Equipment declared worn out with selection performed by this Center was divided -some time ago - in 8 stocks, which were delivered by M.M.I.A. to "Istituto per il Commercio Estero" in compliance with instructions effective at that time.

A.M. equipment was divided in 8 stocks, 6 of them already assigned by M.M.I.A. to "Istituto Commercio Estero" and withdrawn by the same by mean of Ditta GONFRAND, and the remaining two not yet assigned, are stored in one shed of Villa "La Massa" at Bagno a Ripoli.

The stocks are as follows:

<u>7th Stocks</u>	rags, wool	lbs 30,000
	" cotton	" 20,000
<u>8th Stocks</u>	rags, wool	" 30,000
	" cotton	" 20,000

3000 worn out pair of shoes are also part of each of a.m. stocks but they are stored at "Ippolito Nievo" Barracks located at TRE PIETRE (Rifredi)

7th and 8th stocks were not moved from Villa "La Massa" at BAGNO a RIPOLI to TRE PIETRE Depot (RIFREDI) when movement was performed in order to avoid waste of transport as prompt withdrawal of Istituto Commercio Estero was foreseen.

Owing to the fact that, in spite of our request, no assignment was made, it is urgent to decide if the two stocks, 7th and 8th, are or not to be delivered to Istituto Commercio Estero, or to other organization.

Florence, 13 May 1946

To: 7 B.L.U. - FLORENCE

Garrison HQ. informed us that guard post of "VILLA LA MASSA" of BAGNO A RIPOLI, will be eliminated owing to present shortage of personnel.

I beg you, therefore to hasten the removal of material belonging to Allies lying there, otherwise we should be obliged to remove a.m. material or to assume two sworn civilian guards.

Both the ways are entieconomical.

Please inform me of the result of present request as soon as possible.

Subject: - Collection of tyres and tubes
from Verona CEM Dump

CONFIDENTIAL

Reference the collection of tyres and tubes from Verona CEM Dump, your signals Q 915 and Q OS/488 refers.

- 1.) The collection of the tyres and tubes was hampered by the attitude of 2 District and when at last, on the 23rd April, 4 B.L.U. were given permission to collect, only a fraction of the tyres remained in the Depot, the others having been collected by Commissione Recupero Milan. A list showing the amount collected by each representative is attached.
- 2.) Although I had instructed the Territorial Command on the 23rd April that the remainder of these tyres and tubes were to be collected on the 24th and informed them of the quantities concerned, no storage had been allotted for them, and so of course we had to make do with storage at Verona, which the Italian Colonel assures me is safe, but of which I am not at all sure, especially when tyres and tubes of civilian origin are concerned.
- 3.) I instructed the representatives of the Italian Navy and Air Force, who had been collecting tyres allotted to M.M.I.A., to return them forthwith to Verona, this they agreed to do. Colonel Frontero (Ufficio Auto 4 T.C.) however later told them to hold the tyres and tubes in their storehouses at Milan at the disposal of the War Ministry! It can be imagined how many of these tyres and tubes the Army will ever see now.
- 4.) The representative from the Army who had been collecting on behalf of War Ministry had stored some of the tyres at Verona, I of course immediately "froze" them there, however Colonel Frontero told the Capt concerned that he would keep them separate for him.
- 5.) The collecting was done in the most slipshod way I have ever had the misfortune to see, when you realized that over 6000 inner tubes alone were concerned, and the Italians sent one 2/Lt to guard the convoy and to check them, it will be appreciated how difficult it was. I checked all the tyres on to the lorries, and got the driver to sign for them, but it was impossible to check all the inner tubes, as we had to clear the depot by that night (the 24th) as ARAR were taking over on the morning of the 25th. I have no doubt however that the figures given by the depot are correct as I took "spot checks" and found the figures correct in each case. There will be a surplus of tubes as a quantity of F/W tubes were not listed. The Italians detailed to load the lorries had entirely no discipline and worked very badly.

...../

- 2 -

- 6.) All the above could have been avoided if 4 B.L.U. had been allowed by 2 District to collect the stores in the first place. I went to Verona on the 19th April on instructions of G II 4 B.L.U. to assess light tonnage and storage space required, in order that we could have everything arranged before collecting. When I got there however I found that the tyres were already being collected by representatives of Italian Army Navy and Air Force authorised by 2 District. I phoned D.D.O.S. 2 District and pointed out that the stores were released to MMIA and that I was MMIA representative, but als Lt/Col BUTLIN was not there, Major Donaldson, to whom I spoke, would not countermand the instructions given to the a/m representatives, and told them to continue to collect.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint, illegible markings, possibly from a previous page or a stamp. The right edge of the page features a vertical strip of dark material, which appears to be the binding or a label. The overall tone is warm and vintage.
