Accounting procedure.

1. At present the branch of this H. requires priced copies of all vouchers pertaining to War. Dept. issued to the Italian Army from Allied sources with the object of preparing shipping tickets for acceptance by the War Ministry.
2. A certain number of vouchers for War. Dept. issued from 1940s. on your authority are the subject of query here by the branch in so far as some show minor deficiencies in actual receipt against the figures in the issue voucher and there are some arithmetical mistakes in the price column. On account of this there appears a need to assess the value of the goods actually received and, due to this and the arithmetical mistakes, there would be a different value in certain cases on the shipping tickets to that shown on the vouchers.
3. It is noted from your letter Reg/345/00s of 20 June 46 para 3 that one copy of the accepted vouchers is forwarded by you to the Financial Advisor C.B. We clarify the position with regard to accounting and future settlement for War. Stores issued to the Italian Army will you please say if any parallel or similar action is taken by C.B. on the lines indicated in para 1 above. If not, then I presume that any alterations that have to be made against the price of items on vouchers should be referred to you for acceptance and alteration of the vouchers held by you. I would be grateful for direction in this matter.

Ref. your En/8667/1/Stores of 18 Sept. 46.

1. I have had a reply from the ^{Inst} En. Comd. of the POLKOR Div. who received and checked the stores.

2. His report is that the goods provided on the train was supplied from an Italian unit stationed at Cancellio. His rep. met the train at Mivetti Station at 110 hrs on 12 July 46. The wagons containing timber and boxes were unloaded at once under their supervision. The panels and transoms were unloaded during the following two days.

3. As soon as storing was finished a complete check was carried out and the deficiencies as previously stated were noted. No further particulars can be given which can throw any light on how the deficiencies occurred.

550/11/stores dated 10 September.

2*)- The train guard was not supplied from our division, it was supplied from an Italian unit stationed at Cancelli depot.

3*)- The train arrived at the Riferdi station on 14 July 1946 at 14.00 hours.

4*)- At once we unloaded the wagons carrying timber and boxes, all of which were stored and looked up.

During the following two days we unloaded panels and transoms.

5*)- As soon as the storing was finished we did the checking. The 3" x 3" x 6' timber were found missing, we opened and checked the boxes and we found the related deficiencies.

6*)- We would like to point out that we have reported deficiencies and surpluses as well.

La guardia al treno non fu fornita dalla Divisione POLICIA, ma da truppa italiana di stanza al deposito di Cancelli.

Il 14 luglio alle ore 14 giunse a Riferdi il treno con il materiale 14. Immediatamente si provvide a trasportare tutto il materiale minuto ed il materiale in Cassina ed a chiuderlo nei magazzini; nei due giorni seguenti si trasportò la rimanenza (costituita da pannelli e traversi). Non appena il trasporto del ponte fu ultimato, si controllò come

comò. Subito si constatò la mancanza delle tavole da 3"x3"x6'; poi, con documenti alla mano e dopo essere stato aperto le casse, si notò la mancanza del materiale.

Si rende noto che: come abbiamo comunicato di aver ricevuto materiale in più, così si deve accettare che le deficienze da noi riscontrate sono giuste.
