TRANSLATION.

From: Ministry of War.

Ref: 11/20401/m. 41

To: M.M.I.A.

Date: 10/9/45.

Subject: Tubing for aqueduct.

As known by M.M.I.A., and already mentioned verbally, the aqueduct at Cesano is being repaired, whilst a new aqueduct is being planned.

Among other material necessary for the a/m work the Engrs. Command of Rome has asked for pig-iron tubing (Diameter 125m/m), which could not be found on the local market, or in other towns in Italy where they were sought.

There are 5000 ~~meters~~ ^{meters} of the said tubing in the stores of the Independent Sub-directorate of Military Engineering Works, part of which could be used on the a/m work.

We beg you to examine the possibility of having 2000 ~~meters~~ ^{meters} of this tubing brought to the mainland (with priority over other material), total weight approximately 80 tons.

OGGETTO Tubazioni per acquedotto.-

Come è noto a codesta Sottocommissione, e come già comunicato verbalmente, presso Cesano sono in corso lavori per la riparazione dell'attuale acquedotto, mentre è in progetto la costruzione di un nuovo acquedotto.

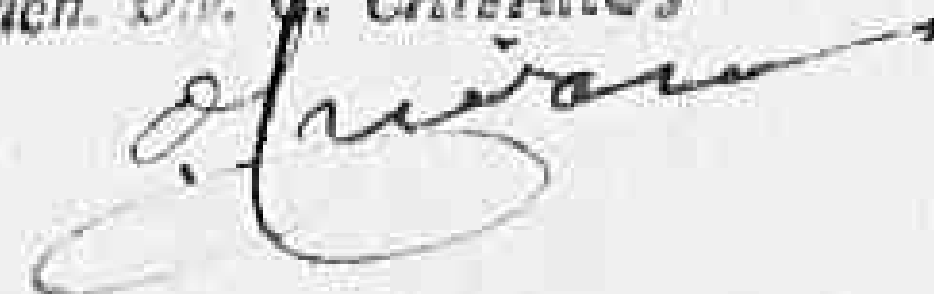

Tra gli altri materiali occorrenti per i detti lavori il Comando Genio di Roma ha chiesto dei tubi di ghisa del diametro interno di m/m 125, che non ha potuto trovare sul mercato locale, nè su altre città d'Italia ove sono state svolte ricerche.

Dato che presso i magazzini della Sottodirezione Autonoma Lavori Genio Militare della Sardegna si trovano ml. 5000 di detti tubi, che in parte potrebbero trovare utile impiego nel lavoro sopradetto.

Si prega voler esaminare la possibilità di far pervenire in continente, con precedenza sugli altri materiali, ml. 2000 di detti tubi il cui peso complessivo si aggira sulle 80 tonnellate.-

On. MISSIONE MILITARE ITALIANA

N A P O L I

Ci permettiamo alliegare alla presente una dichiarazione dell' Ufficio Lavori del GENIO MILITARE di Roma attestante che la sottoscritta Società deve provvedere a quell'Ente Militare la fornitura d'infissi occorrenti ai numerosi fabbricati militari danneggiati per cause della guerra.

Con la dichiarazione suddetta si chiede che venga sbloccato a favore di questa Società il quantitativo di legno pino occorrente in complessivi c. 1000, e che questa Ditta ha da tempo acquistato e detiene in Calabria presso i suoi produttori impossibilitata a poterli prelevare per il blocco che da tempo vige sul legname pino.

Rivolgiamo perciò viva preghiera a codesta On. Missione Militare perché si compiacca disporre per lo sblocco del suddetto quantitativo così suddiviso:

presso il produttore Ditta ROSARIO RIZZUTO, di Moccone (Cosenza)
mc. 400 legno pino in tavolame
" 200 " " " travature
" 100 " " " tondoni
e presso il produttore Ditta ANGELO COLELLA di S. Giovanni in Fiore (Cosenza)
" 300 legno pino in tavolame.

" 1000 complessivi come da richiesta.

4524

Raccomandiamo vivamente il benevole accoglimento della presente, trattandosi di contratto sospeso da lunghissimo tempo e l'On. Genio Militare ce ne fa pressione specie per l'avvicinarsi della stagione invernale che richiede il completamento dei fabbricati militari necessari alle esigenze del R.E. Italiano.

Con ogni osservanza.

To: MMIA - Naples

Forwarded herewith statement of Ufficio Lavori Genio Militare of Rome, certifying that our Firm has to supply that Military Unit with wooden doors and window frames, needed for the several military buildings damaged by the war.

With a/m statement we ask that a stock of wood needed for a total of 1000 cubic metres be released to this firm; wood has been purchased sometime ago by our firm and it is now in Calabria at its producers and we are in the impossibility to move it for the reason that timber has been kept frozen since a long time.

Will you please, however, provide for the release of a/m stock, distributed as follows:

400	cubic metres of timber in boards	)	
200	" " " " " trusses	)	At producer Firm ROSARIO RIZZUTO
100	" " " " " pales	)	Moccone (Cosenza)
300	" " " " " boards	)	At producer firm ANGELO COLELLA
			S.Giovanni in Fiore (Cosenza)

We recommend this matter to your attention, as the contract has been suspended for a long time and Genio Militare is pressing, especially because winter time is near and the repair of Military buildings is necessary to the use of Italian Army is requested

TRANSLATION

From : The High Commission for Sardinia

To : MMIA

Subject : Distribution of Materials.

Ref : 15036

Dtd : 15 Aug 45.

It has come to the knowledge of this High Commission, that in the military stores of Sardinia there are, lying idle, materials which could be usefully ~~employed~~ and effectively employed in the reconstruction and placing in working order of industries, particularly ^{on the island} necessary to recovery; ~~xxx~~ work which at present, can not be concluded because of the complete deficiency of construction materials.

Then, it is to be considered that the said materials, if transferred to ~~the~~ ^{Italy}, would deteriorate through shipping conditions they would have to undergo in order ~~to~~ to be transported to storing-places on the mainland.

We therefore, hold it advisable to leave the said materials in Sardinia for the island's needs, also because, owing to the changed military conditions, their transfer would not appear to be necessary.

In particular, we beg MMIA kindly to order the issue of the following materials, for reasons shown :

- 1) 300 planks of 4 metres length and with thicknesses ~~various~~ from 5 to 7 centimetres, lying in the Military Engineers' Stores of Olbia, to be issued to the Directorate of Public Works of Sardinia for ~~the~~ repairs to war-damaged buildings;
- 2)

Piping - diameter mm.	10	ml.	800
"	9	ml.	800
"	8	ml.	400

For the Commune of Tempio, to be employed on the town's acqueduct system, a great part of which is out of order: the piping is stored in the Ploaghe stores;

4517

necessary to recovery; ~~and~~ work which at present, can not be concluded because of the complete deficiency of construction materials.

Then, it is to be considered that the said materials, if transferred to ~~the Italy~~^{de}, would deteriorate through shipping conditions they would have to undergo in order ~~to~~ to be transported to storing-places on the mainland.

We therefore, hold it advisable to leave the said materials in Sardinia for the island's needs, also because, owing to the changed military conditions, their transfer would not appear to be necessary.

In particular, we beg ~~MILIA~~ kindly to order the issue of the following materials, for reasons shown :

- 1) 300 planks of 4 metres length and with thicknesses ~~various~~^{various} of from 5 to 7 centimetres, lying in the Military Engineers' Stores of Olbia, to be issued to the Directorate of Public Works of Sardinia for the repairs to war-damaged buildings;
- 2)

Piping - diameter mm.	10	ml.	300
"	"	mm.	9
"	"	mm.	8
"	"	mm.	400

4517

For the Commune of Tempio, to be employed on the town's acqueduct system, a great part of which is out of order: the piping is stored in the Ploeghe stores;

- 3) In order to complete construction of the glass-factory of La Plaisa, there is a necessity for various materials, such as : Corrugated Tin, Planks, and Pine and Fir boarding ;

Since the said factory, as soon as the said materials have been supplied, will commence work on the manufacture of glass, of which there is an absolute deficiency in Sardinia, we beg you to consider the possibility of issuing the above-mentioned materials from stores on the island;

- 4) Piping, diameter 70 ~~mm~~ mm. ml. 100 for the repair of a stretch of drainage of the aqueduct of the Commune of Calasetta, ~~be~~^{to} be drawn from military stores.
- 5) Timber ~~xxxxx~~ of 2 centimetres, picks and shovels for the brick factories, especially that of Alquati di Cristano, which for the lack of these materials is in grave difficulties.

We await the knowledge that MMIA will instruct the issuing of the above-listed materials.

The High Commissioner for Sardinia,
Gen (Air Force) Pietro Pinna,
sgd. Illegible.

AI LAND FORCES STAFF
COMMISSION - ROMA

MINISTERO DELLA GUERRA
Direzione Generale del
Genio

E' a conoscenza di questo Alto Commissariato che presso i magazzini militari della Sardegna vi sono inutilizzati dei materiali che possono invece essere utilmente ed efficacemente impiegati nell'Isola per le opere di ricostruzione e di rimessa in efficienza di industrie particolarmente necessarie alla ripresa, che non possono essere condotte a termine per la completa deficienza di materiali da costruzione.

E' poi da considerare che detti materiali se trasferiti in Continente verrebbero a deteriorarsi a causa dei trasporti cui dovrebbero essere assoggettati per trasportarli dalle località di giacenze fino al Continente.

Partanto si prospetta la opportunità che detti materiali vengano lasciati in Sardegna per il fabbisogno isolano, anche perchè per le mutate esigenze militari non sembra sia indispensabile il loro trasferimento.

In particolare si interessa codesta Forces Sub Commission perchè voglia benevolmente disporre la cessione dei seguenti materiali necessari per quanto indicato:

4516

1) N° 300 tavoloni da m. 4 e con spessori variabili da 5 a 7 cm., giacenti nei magazzini del genio militare di Olbia, da cederli al Provveditorato alle CC.FF. per la Sardegna per impiegarli nella riparazione degli edifici danneggiati dalla guerra;

2) Tubi diametro mm. 100 ml. 800
 " " " 80 " 800
 " " " 80 " 400

da impiegarsi per la rete cittadina acquedotto, gran parte fuori uso: i tubi sono ammassati nei magazzini di Ploa

3) L'erigendo stabilimento vetrario La Plaia necessità, per la ultimazione dei lavori di costruzione, di materiali vari, quali lamiera ondulata, tavolame, tondini di abete e di pino.

Poiché detto stabilimento, appena rifornito di detti materiali, inizierà la lavorazione del vetro di cui vi è assoluta deficienza in Sardegna, si prega di voler esaminare la possibilità di soddisfare le esigenze sopra indicate dalle eventuali disponibilità dei magazzini militari isolani;

4) tubi diametro 70 m/m ml. 100 per la riparazione di un tratto di condotta dell'acquedotto per il Comune di Calasetta prelevandoli dalle disponibilità dei magazzini militari.

5) la pume da cent. 2, picchi e badili per gli stabilimenti di produzione laterizi, particolarmente quello Alghero di Cristano che per mancanza di detti materiali si trova in gravi difficoltà.

Si resta in attesa di conoscere le disposizioni che codesta Lend Forces Sub Commission vorrà impartire per la cessione dei materiali sopraelencati.

Subject:- Supply of demolition stores
to the Italian Army

Land Forces Sub Comm AC (MARIA)
Q/23/I
28 Apr 45

APHQ G-4

I. Demands are being received at this HQ from the Italian Ministry of War for safety fuze and detonators (non-electric) to be supplied from Allied sources.

The purposes for which these stores are required fall under two main heads:-

a) destruction of condemned ammunition (located in various parts of Italy).

b) destruction in situ of mines which are not considered safe to lift, and destruction of mines in mine cemeteries.

2. Stocks of these items in Italian Army Engineer Depots have shrunk to approximately

25,000 metres of safety fuze
120,000 detonators

These figures do not include stocks which may be found in the North.

Demands received total 50,000 metres of safety fuze and 50,000 detonators, and do not include the requirements under I(b) above.

3. It is therefore requested that an immediate allocation be made to the Italian Army of

150,000 ft of safety fuze.

This would be stored in Italian Army Depots and its release would be controlled by this HQ.

R O M E

Q/I2/I

8 April 1945

TO : AFHQ for G 4 (B)
AFHQ for G 4 (A)

1. It has not been possible to provide anti fly and mosquito proof wire gauze for Italian Military Hospitals, from Italian Army sources.
2. As all Italian military personnel, whether US-ITI, BR-ITI, or Italian, are evacuated to or cared for in Italian hospitals, it would appear to be an Allied commitment.
3. Minimum requirements for this purpose are estimated at 20,000 sq metres.
4. Every effort is being made to raise the standard of hygiene in the Italian Army, and if supplies can be made available, flyproofing of cook houses and food preparation rooms will likewise be carried out at Rft Depots, priority being given to those supplying Allied Service Units.
5. Estimated additional requirements 15,000 sq metres.
6. Approval is requested for the release of above material to Italian Depots whence issue would be controlled by this HQ.

Land Forces Sub Comm A.C. (MMIA)

RE 4/2

23 Mar 45

AFHQ (3.4)

The Italian Military Authorities are constructing a mobile theatre for use at the Reinforcement Training Centre, Italian Combat Force, and for any other units of the Italian Army.

To complete this theatre the following material is urgently required:-

- a) 'Window-Lite' - as per sample A - 100 metres
- b) Reinforced sacking as per sample B- 2000 sq metres

Neither of these materials are available from Italian Army sources and it is requested that they be made available from Allied sources.

 (For: Gen. Cortellese).

1. The Genio Militare of the Distretto di Roma, is building a mobile Theatre for use at the R.E.C., I.C.F., and also other units of the Italian Army. The main structure of this Theatre is being completed, but the following material is urgently required :-

- (a) 'Window-Lite' as per sample 'A' - 100 metres.
- (b) Reinforced sacking, as per sample 'B' - 2,000 square metres.

Both these materials are available, it is understood, from United States sources.

2. As this Mobile Theatre will cater for Italian troops of all categories - INF-INT, US-INT and INT-INT, it is requested that steps be taken to obtain the above material in order that the Theatre may be completed without delay.

3. This letter is being written at the request of General Cortellese, Commander, Genio Militare, who was asked by a representative of H.M.I.A. to have a letter written on this subject from the D.L.U. at CERRANO.

OGGETTO: Cemento per i lavori ai centri di addestra-
mento di Frosinone ed Anagni.-

AI PROCONSULE DI SERVIZIO PER IL SIGNOR MAGGIORE

COTLESTON - Land Forces Sub-Commission -

Engineering Section (M.M.I.A.)

Ex Palazzo delle Corporazioni

R O M A

V.S. conosce l'attivo interessamento che porta il Signor Col. Kerr di cadesto M.M.I.A. al completamento dei lavori attualmente in corso per i centri di addestramento di Frosinone ed Anagni.

Avviene ora che nonostante le più vive premure fatte dallo scrivente al Ministero interessato ed alla locale Camera di Commercio, non è stato ancora possibile ottenere lo sblocco di 300 q.li di cemento occorrente per il completamento dei lavori stessi.-

4487

Sono pertanto a pregare la cortesia di S.V. perchè voglia promuovere lo sblocco di tale materiale nella quantità sopraindicata ed ottenere

./.

nello stesso tempo per il Comando Genio del Co-
mando Territoriale di Roma, comandato dallo scri-
vente, l'assegnazione dei mezzi di trasporto fer-
roviario, tenendo presente che dei trecento quin-
tali sopraindicati 100 q.li dovrebbero essere av-
viati a Frosinone, e 200 q.li ad Anagni.-

Sarò molto grato alla S.V. dell'interessa-
mento che vorrà portare alla questione che ha co-
si vitale importanza per il completamento dei centri
di addestramento sopracitati che occorrono per
l'addestramento dei complementi per i gruppi di
combattimento italiani alla dipendenza dell'8^a Ar-
mata Britannica.

Le sarò grato se vorrà darmi cenno di rispo-
sta, anche telefonica (489061 int. 6037).-
