1. Pending an amendment to the S.L., the Italian Increment to 199 D I B is authorized to hold a strength of 2 officers 33 OR's. This is 8 above the present S.L. (IV/106/1).

2. It is important that this unit should be kept at all times up to its full strength. Please ensure, therefore, that personnel are not mobilized or posted away without immediate replacement.

Reference your Ord/15933 of 27 Aug to Adm Divs.

1. MMIA LO 250 Div has represented the difficulties which will face the Division if the number of Commissariat officers on its strength is reduced to one.
2. You are requested to ensure that 250 Div is provided with three officers for this work, as laid down in the W.F., even if not all of them belong originally to the Commissariat arm. This need not prejudice arrangements made for UDINE Territorial H.Q. if they have already been put into effect.

1. SMRE have sent a signal to Adm Divs (ref: Crd/15938 of 27 Aug 45) stating that establishment of Commissariato Officers at H.Q. Adm Divs is now reduced from three to one, and that each of Adm Divs is to send one such officer forthwith to UDINE.
2. For the following reasons I very strongly request that an exception be made in the case of 230 Div and moreover that one EXTRA Commissariato Officer be posted as soon as humanly possible:-
  - a) 230 Div has only two Commissariato Officers at the moment (as against three on W.E.)
  - b) There is no "Sez. Sussistenza" in this Division as there is in others.
  - c) Many extra commitments are just now being assumed viz. ANCONA (5000 odd tps) and ORVITO BRD.
  - d) The work involved in accounting for stores and equipment of disbanding units, which on MMIA instructions has to be handled by Adm Divs.
  - e) Impending issue of winter, and withdrawal of Summer clothing.
  - f) Responsibility for 120 tons of 225 Division's last winter clothing (your Q/OS/11/5 of 28 Aug. 45)
  - g) Certain responsibilities towards FLORENCE CORR Bde, 10000 strong (your Q/OS/29/5 of 28 Aug. 45).
3. From the above I think it will be clear that <sup>4329</sup> ~~30~~ make one officer responsible for this work is ludicrous.

1. A copy of this HQ letter A/22/1 of 30 Apr 45 is enclosed herewith.

173 DID.

1. 173 DID, located at BARI airfield, is under comd SO(M). Eleven Italian Military Personnel, (1 Sjt Major, 9 Drivers and 1 cook) are employed by that unit, the majority of whom have been working for this and other units of SO(M) since Dec 1943. Maximal Roll of personnel attached.

2. This Unit's role is to load supplies into aircraft for dropping into JUGOSLAVIA and these Italian drivers are extremely good and their services have proved invaluable. It is not thought advantageous to replace them by civilians in view of the fact that the operations for which 173 DID loads aircraft are of a secret nature, and in addition two of them are fully proficient mechanics and so are able to maintain their vehicles.

3. This HQ has, however, had certain difficulties to contend with in the retention of these men. For instance, nine of these regular Italian soldiers have been "emptied" from a service they were already in and consequently have been suspended from drawing pay and ration entitlement from the Italian Btm to which they were attached for such purposes.

4. It is requested that the Italian Detachment be authorized for service with 173 DID in order to regularise the position and that the Italian soldiers should not suffer hardship.

In reply to your letter PET 30/3/8 of the 10th April, the remarks contained therein are noted. Whilst the letter from AFHQ ref. CR/1644/1/G1(Br) of the 2nd April to Land Forces Sub Commission lays it down that these I.A.F. personnel will be withdrawn, the difficulty in which the 310 Bulk Pet. Storage Section find itself is fully appreciated by this Sub Commission.

2. The Italian Air Ministry have been approached and arrangements have been made to leave the 30 technicians required for a further period of two months, in which time adequate replacements should be found.

3. Whilst it is hoped that this arrangement will ease the position, it naturally can only be made effective with the co-operation and approval of AFHQ G1 Br.
